Dear sir/madam

RE: NOTICE OF AN APPLICATION IN TERMS OF SECTION 102 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017).

PROJECT INFORMATION

Affordable Outcomes CC holds a prospecting right for diamonds (general, alluvial, and in kimberlite) over 333.0435 ha of the Remaining Extent of the farm Rooifontein No 1722 (formerly known as Speculatie No 217) in the Boshof Magisterial District of the Free State Province. During the prospecting right application, a mining permit application for 4.8864 ha, by Wheatfields Investments 168 (Pty) Ltd, was pending with the DMRE and therefore excluded from the above mentioned prospecting right footprint. As the mining permit application was unsuccessful, Affordable Outcomes CC, identified the need to incorporate the 4.8864 ha area into the prospecting footprint.

In light of this, Affordable Outcomes CC submitted an application for consent of the minister to include the 4.8864 ha area into the approved prospecting footprint over the above mentioned property, in terms of Section 102 of the MPRDA, 2002.

LEGAL COMPLIANCE

The S102 application necessitates an application for a Part 2 amendment of the holder's EMP in terms of GNR 326 Section 31, and as the application constitute listed/specified activities in terms of the NEMA: EIA Regulations, 2014 (as amended) a basic assessment process is required to obtain environmental authorization.

- *GNR 327 Listing Notice 1 of 2017 Activity 20:*

the goal isn't to live forever, it is to protect a planet that will

Greenmined Environmental (Pty) Ltd | Tel: 021 851 2673 | Fax: 086 546 0579
Office No 36, MO1 Baker Square Block, De Beers Avenue, Paardevlei, Somerset West, 7130
Postnet Suite 62, Private Bag x15, Somerset West, 7129
Directors: S Smit; C Weideman | Reg No: 2012/055565/07 | VAT No. 4040263032

Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including-

(a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or

(b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.

- *GNR 327 Listing Notice 1 of 2017 Activity 22:*

The decommissioning of any activity requiring –

a) a closure certificate in terms of section 43 of the MPRDA, 2002; or

b) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.

PUBLIC INVOLVEMENT

The draft Basic Assessment Report and Environmental Management Programme (BAR & EMPR) for the Section 102 amendment application is now available for your perusal. A copy of the document can be obtained from Greenmined Environmental upon request, or downloaded from the company website at www.greenmined.com.

Interested and Affected Parties (I&AP's) are invited to provide written comments regarding the application. I&AP's must provide their comments with their name and contact details to the environmental consultant indicated below by **04 December 2020**. Should you require the documentation in another language or need additional information please contact Greenmined Environmental (Pty) Ltd. In light of the current State of Disaster and Covid-19 pandemic Greenmined will not be able to accurately calculate the attendance of I&AP's at a public meeting, and therefore I&AP's are requested to indicate whether they require a meeting. If required, a meeting will be scheduled.

A register of I&AP's that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Upon

lapse of the commenting period the DBAR & EMPR will be updated to reflect the comments received during the public commenting period. Thereafter, the final BAR & EMPR will be submitted to DMRE for its consideration as part of the authorization process in terms of the MPRDA, 2002 and NEMA, 2014 regulations (as amended 2017). A copy of the final BAR & EMPR will be published on the Greenmined website. All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments. If we do not receive any comments from you before the end of the commenting period it will be accepted that you do not have any additional objections/comments with regard to the project. We trust that you find it in order and kindly await your comments on this report.

Please contact Christine Fouche at 082 811 8514 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or christine.f@greenmined.co.za should you require any additional information.

ProposalDescription:
Affordable Outcomes CC holds a prospecting right for diamonds (general, alluvial, and in Kimberlite) over 333 0435 ha of the Remaining Extent of the farm Rooifontein No 1722 (formerly known as Speculatie No 217) in the Boshof Magisterial District of the Free State Province. During the prospecting right application, a mining permit application for 4.8864 ha, by Wheatfields Investments 168 (Pty) Ltd, was pending with the DMIRE and therefore excluded from the above mentioned prospecting right footprint. As the mining permit application was unsuccessful, Affordable Outcomes CC identified the need to incorporate the 4.8864 ha area into the prospecting footprint. In light of this, Affordable Outcomes CC submitted an application for consent of the minister to include the 4.8864 ha area into the approved prospecting footprint over the above mentioned property, in terms of Section 102 of the MPRDA, 2002.

Final Comment

In terms of Section 38(4) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Affordable Outcomes cc

PO Box 110447
Hadison Park
Kimberley
8306

Affordable Outcomes CC holds a prospecting right for diamonds (general, alluvial, and in kimberlite) over 333.0435 ha of the Remaining Extent of the farm Rooifontein No 1722 (formerly known as Speculatie No 217) in the Boshof Magisterial District of the Free State Province. During the prospecting right application, a mining permit application for 4.8864 ha, by Wheatfields Investments 168 (Pty) Ltd, was pending with the DMRE and therefore excluded from the above mentioned prospecting right footprint. As the mining permit application was unsuccessful, Affordable Outcomes CC, identified the need to incorporate the 4.8864 ha area into the prospecting footprint. In light of this, Affordable Outcomes CC submitted an application for consent of the minister to include the 4.8864 ha area into the approved prospecting footprint over the above mentioned property, in terms of Section 102 of the MPRDA, 2002.

Greenmined Environmental (Pty) Ltd was appointed by Affordable Outcome CC to undertake the Environmental Authorisation application for the amendment of the approved prospecting right footprint of 333.0435ha to include 4.8864ha over the Remaining Extent of the farm Rooifontein No 1722, Boshof Magisterial District, Free State.

A Draft Basic Assessment Report (DBAR) was submitted in terms of the National Environmental Management Act, 1998 and the National Environmental Management Waste Act, 2008 in respect of listed activities that have been triggered by applications in terms of the Mineral And Petroleum Resources Development Act, 2002 (MPRDA) (as amended).

The prospecting will be done in through a non-invasive phase and two invasive phases. The non-invasive includes a geological desktop study and report writing. The first invasive phase includes drilling of 10 Reverse Cycle (RC) percussion holes (each with an approximate depth of 20 m) and where kimberlite bodies are found holes, further drilling using the Diamond Core (DC) drilling method (each with a maximum depth of 40 m) will

CaseID: 15731

be done. The third phase will be separate testing of four bulk sampling areas each with an approximate sampling footprint of 200 m². Only one excavation will be open at a time during the bulk sampling phase, to which access will be controlled.

Dr Lloyd Rossouw has been appointed to provide heritage specialist input as part of the EA Amendment application report as required by section 24(4)b(iii) of NEMA and section 38(3) and 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA).

Phase 1 Archaeological Impact Assessment for a mining permit application on the Remainder of the farm Speculatie 217 (now Rooifontein 1722), Boshof District, FS Province

A large excavation pit with accompanying dumps within the study area is evidence of late 19th century prospecting and mining activities at the site. A modern reconstruction of the Olifantsfontein Hotel, purported to have been erected at the mine during the 1880's is located next to the historical mining pit. The study area is located about 800 m south of a large dolerite outcrop with potential engraving sites, as well as sangars and trenches associated with the Anglo Boer War. The remnants of a tram line as well as 19th century and early 20th century refuse middens are also found in the area. Uncapped and weathered stone tool flakes were recorded during the survey, but no evidence was found of in situ Stone Age archaeological material, capped or distributed as surface scatters on the landscape.

The proposed development footprint is located within a historical mining area that forms part of a historically significant landscape central to the Kimberley Diamond Rush of the 1870's. The proposed development footprint is located within an area considered to be of high historical and archaeological significance. **The proposed development will likely have an adverse effect on the integrity of Kimberley's historical landscape. Further mining or mining related activities at Rooifontein 1722 are not advised.**

The SAHRA APM unit previously issued comments with regards to proposed prospecting and mining activities in farm Rooifontein 1722 (please see [\(EIA168\) - FS10462PR - Matolo Trade and Investment \(Pty\) Ltd. - Rooifontein 1722 | SAHRA, APPLICATION FOR AN ENVIRONMENTAL AUHORISATION FOR THE PROPOSED PROSPECTING RIGHT FOR EKAPA MINERALS \(PTY\)LTD | SAHRA, Du Toitspan 119 \(FS 10201 MP\) | SAHRA](#)) which notes that the is a significant heritage landscape and advised that the proposed development application be rejected by Competent Authorities.

Final Comment

Enquiries: Sityhilelo Ngcatsha

Date: Friday November 27, 2020

Page No: 3

Email: sngcatsha@sahra.org.za

CaseID: 15731

The SAHRA Archaeology, Palaeontology and Meteorites (APM) unit notes the heritage specialist report and endorses the recommendation that the proposed development is within an area considered to be of high historical and archaeological significance which will likely have an adverse effect on the integrity of Kimberley's historical landscape and that further mining or mining related activities at Rooifontein 1722 are not advised.

SAHRA therefore advises the Department of Environment, Forestry and Fisheries (DEFF) and the Department of Mineral Resources and Energy (DMRE) to reject the application for prospecting on farm Rooifontein 1722, District of Boshoff, Free State Province [FS 30/5/1/1/2/10261 PR].

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Attention: Mr. Sityhilelo Ngcatsha

12 March 2021

Dear Mr. Ngcatsha

RE: SECTION 102 AMENDMENT APPLICATION LODGED IN TERMS OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 AS AMENDED, AND APPLICATION FOR ENVIRONMENTAL AUTHORIZATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) AND THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 AS AMENDED FOR THE AMENDMENT OF A PROSPECTING RIGHT ON A PORTION OF THE REMAINING EXTENT OF THE FARM ROOIFONTEIN NO 1722 (FORMERLY KNOWN AS SPECULATIE NO 217), BOSHOFF MAGISTERIAL DISTRICT, FREE STATE PROVINCE. APPLICANT: AFFORDABLE OUTCOMES CC.

The above matter as well as the feedback received from SAHRA on 27 November 2020 refers.

Herewith please find our response to the following comment received from SAHRA on the above mentioned project: *“The SAHRA Archaeology, Palaeontology and Meteorites (APM) unit notes the heritage specialist report and endorses the recommendation that the proposed development is within an area considered to be of high historical and archaeological significance which will likely have an adverse effect on the integrity of Kimberley’s historical landscape and that further mining or mining related activities at Rooifontein 1722 are not advised. SAHRA therefore advises the Department of Environment, Forestry and Fisheries (DEFF) and the Department of Mineral Resources and Energy (DMRE) to reject the application for prospecting on farm Rooifontein 1722, District of Boshoff, Free State Province [FS 30/5/1/1/2/10261 PR].”*

Upon receipt of the above comment, Dr. Rossouw revisited the Phase 1 Archaeological Impact Assessment (2017) for the mining permit application submitted over the Remaining extent of Rooifontein No 1722 (formerly known as Sepculatie No 217). Dr. Rossouw subsequently compiled a Heritage Impact Statement (HIS) that is specifically related to the proposed prospecting activities that forms part of the Section 102 amendment application submitted by Affordable Outcomes CC. Attached to this letter please find a copy of Dr. Rossouw’s HIS for your perusal and commenting.

the goal isn't to live forever, it is to protect a planet that will

If deemed feasible by SAHRA, we intend to amend the prospecting proposal for the earmarked 5 ha area (to be added to the existing prospecting area of Affordable Outcomes) from invasive prospecting with bulk sampling to non-invasive prospecting only. In other word, there will only be non-invasive prospecting of the proposed 5 ha extension area if the Section 102 application is approved by the DMRE.

In light of the accompanying HIS and amended proposal, we kindly request you on behalf of SAHRA to reconsider your earlier comment, and please provide us with an updated comment by the 15th of April 2021. Upon receipt of SAHRA's feedback the basic assessment report (BAR) will be amended accordingly and redistributed for a 30-days commenting period to the I&AP's and stakeholders for their perusal, prior to the final BAR being submitted to the DMRE for their consideration.

We trust that our request will receive your favorable consideration. If you require any additional information, please do not hesitate to contact our office.

Kind Regards

Christine Fouché
Greenmined Environmental (Pty) Ltd

**Heritage Impact Statement concerning prospecting rights over the
Remaining Extent of the Farm Rooifontein No 1722 (formerly known
as Speculatie No 217) in the Boshof Magisterial District, Free State
Province.**

Introduction

Affordable Outcome CC submitted a Section 102 (S102) amendment application in terms of the MPRDA, 2002 to include ~5 ha area (red polygon, **Fig. 1**) into their approved prospecting footprint (333.0435 ha, white polygon, **Fig. 1**) over the Remaining Extent of the farm Rooifontein No 1722 (formerly known as Speculatie No 217). The S102 application was submitted to include the ~5 ha area that was previously excluded from the approved prospecting right due to a mining permit application by Wheatfields Investments 168 (Pty) Ltd (**Fig. 2**). According to the applicant, prospecting will involve drilling of boreholes and the opening of one bulk sampling trench at the site.

GPS Coordinates of the excluded ~5 ha area

- A) 28°48'13.89"S 24°52'7.69"E
- B) 28°48'12.46"S 24°52'16.28"E
- C) 28°48'18.69"S 24°52'18.67"E
- D) 28°48'19.94"S 24°52'9.90"E

Background

An earlier Phase 1 Archaeological Impact Assessment, carried out as part of a mining permit application over the excluded ~5 ha area of the Remaining Extent of the Farm Rooifontein No 1722 (formerly known as Speculatie No 217), established that:

- the site is located within a historical mining area that forms part of a historically significant landscape central to the Kimberley Diamond Rush of the 1870's,
- the site is located within an area considered to be of high historical and archaeological significance.
- mining or mining related activities will likely have an adverse effect on the integrity of Kimberley's historical landscape (Rossouw 2017).

The report recommended that mining or mining related activities are not advised within the area (SAHRA CaseID: 15731).

It is reiterated that the site forms part of the eastern periphery of a large area (the latter currently encompassing the farms Alexanderfontein 129, Benauwdheidfontein 124, Dutoitspan 119 and Rooifontein 1722), that probably represent some of the last untouched vestiges of the historical Diamond Fields landscape (**Fig. 3**):

'The multitude that flocked from the River Diggings was here met by the throngs crowding in from every other direction, and soon a seething population of 40,000 people built up a town around the [Du Toit's Pan] mine' (Morton 1877 : 71).

'Attention had hardly been called to the diggings at Jagersfontein when a still more remarkable discovery was made in the month of September, 1870, at Dutoitspan on the farm of Dorstfontein' (Williams 1902 : 165).

'Only a few months from the day when the first diamond was picked up near du Toit's pan, the camp at Dorstfontein was proudly claiming the title of the " City of the Pan." A spacious market square was laid out on the ground between the pan and the ridge covered with diamond diggers, and around this square were ranged the white walls of the aspiring camp. Streets radiating from the central square gave open access to the market-place, and the white tent blocks were soon dotted near the square with shops of brick and iron and wood, rivalling the pioneer diamond-digging town of Klipdrift on the Vaal'(Williams 1902 : 191).

Statement

Affordable Outcome CC wants to include plans for the disturbance of an area of around 200 m², allowing for one bulk sampling and drilling of boreholes within the previously excluded ~5 ha area. Drilling and bulk sampling (trenching) at the site will intensify the negative aspects brought on by the accumulative impact of multiple prospecting in an already encroached historical landscape. GPS coordinates for a no-go zone is presented below (**Fig 2**). However, it is recommended that the original footprint should remain

off-limits to invasive prospecting activities in order to preserve the integrity of some of the last remaining remnants of a dry diggings mine on the historical Diamond Fields landscape.

Proposed No-go Zone:

- a) 28°48'14.18"S 24°52'8.21"E
- b) 28°48'12.75"S 24°52'14.52"E
- c) 28°48'15.04"S 24°52'15.95"E
- d) 28°48'18.99"S 24°52'16.26"E
- e) 28°48'20.05"S 24°52'9.72"E

Dear Sir

The email received from you on 17 November 2020 has reference.

The Draft Basic Assessment is presently available for perusal and commenting to the stakeholders and Interested & Affected Parties (I&AP's) until 04 December 2020. A copy of the document is available on the Greenmined website (www.greenmined.com/project/public-participation/) should you like to comment. Alternatively, Greenmined can provide you with a copy of the report should you be unable to download it from the website.

Upon lapse of the commenting period, the Final Basic Assessment Report will be submitted to the Department of Mineral Resources and Energy for its consideration as part of the authorization process in terms of the MPRDA, 2002 and NEMA, 2014 regulations (as amended 2017). All the registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

Please do not hesitate to contact us in the event of any uncertainties.

Kind Regards / Vriendelike Groete

Christine Fouche

Dear Sir

Greenmined herewith acknowledge receipt of your correspondence dated 16 November 2020 with regard to the Section 102 amendment application submitted by Affordable Outcomes CC over a portion of the Remaining Extent of the farm Rooifontein No 1722 (formerly known as Speculatie No 217) in the Boshof Magisterial District of the Free State Province.

We registered AAA Mining – Landowner of Portion 1 of the farm Speculatie No 217 (care of yourself) as an Interested and Affected Party on the project. Please note that the Draft Basic Assessment Report is currently available for perusal and commenting until the 4th of December 2020. The document is available on our website (www.greenmined.com/project/public-participation/); alternatively we can provide you with a copy should you not be able to download the document from the website. Kindly inform us should you require a copy of the document for commenting purposes.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

SIVEST Environmental Division

NOTICE OF THE BASIC ASSESSMENT (BA) FOR THE PROPOSED CONSTRUCTION AND OPERATION OF THE BATTERY ENERGY STORAGE SYSTEM (BESS) AND ASSOCIATED INFRASTRUCTURE AND INCLUSION OF ADDITIONAL LISTED ACTIVITIES FOR THE AUTHORISED DROOGFONTEIN 3 SOLAR PHOTOVOLTAIC (PV) ENERGY FACILITY LOCATED NEAR KIMBERLEY IN THE SOL PLAATJE LOCAL MUNICIPALITY, FRANCIS BAARD DISTRICT MUNICIPALITY, IN THE NORTHERN CAPE PROVINCE OF SOUTH AFRICA. • Droogfontein 3 BESS (2020-090027)

In terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) as amended and the Environmental Impact Assessment (EIA) Regulations, under Government Notices No R982, R983, R984 and R985 promulgated on 4 December 2014 and amended on 07 April 2017, notice is hereby given that South Africa Mainstream Droogfontein PV 3 (Pty) Ltd (here after referred to as "Mainstream") has appointed SIVEST SA (Pty) Ltd, as the independent Environmental Assessment Practitioner (EAP), to undertake the required Basic Assessment (BA) and Public Participation Processes (PPP) for the above-mentioned development.

PROJECT DESCRIPTION

South Africa Mainstream Droogfontein PV 3 (Pty) Ltd is proposing the construction and operation of Battery Energy Storage System (BESS) and associated infrastructure for the authorised Droogfontein 3 Solar Photovoltaic (PV) Energy Facility (12/12/20/2024/1/1). It is proposed that the BESS will be located adjacent to the on-site substation on the Droogfontein 3 PV Energy Facility development site. The footprint of the battery storage area will be up to two (2) hectares (ha) and the BESS capacity will be up to 200MWh. The following Listed Activities will be triggered:

Listing notice:	Listing notice:	Activity description
GNR 983 of 4th December 2014 (as amended)	12 (a) (c)	The development of— (i) infrastructure or structures with a physical footprint of 100 square metres or more; where such development occurs— (c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse;
GNR 983 of 4th December 2014 (as amended)	14	The development and related operation of facilities or infrastructure, for the storage, or for the storage and handling, of a dangerous good, where such storage occurs in containers with a combined capacity of 80m ³ or more but not exceeding 500m ³ .
GNR 983 of 4th December 2014 (as amended)	19	The infilling or depositing of any material of more than 10 cubic meters into, or the dredging, excavation, removal or moving of soil, sand shells, shell grit, pebbles or rock of more than 10 cubic meters from a watercourse.
GNR 983 of 4th December 2014 (as amended)	27	The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for— (i) the undertaking of a linear activity; or (ii) maintenance purposes undertaken in accordance with a maintenance management plan.
GNR 983 of 4th December 2014 (as amended)	28 (a)	Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development: (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;

The need for a BESS stems from the fact that electricity is only produced by the PV Energy Facility while the sun is shining, and not necessarily during periods of peak demand. As such, the storage of electricity and supply thereof during peak demand will mean that the facility is more efficient, more reliable and electricity supply will be more constant. Currently, the battery technologies being considered are either Solid State Batteries or Redox Flow Batteries.

PROJECT LOCATION

The Droogfontein 3 Solar Photovoltaic (PV) Energy Facility is located near Kimberley in the Sol Plaatje Local Municipality, Francis Baard District Municipality, in the Northern Cape Province of South Africa.

No	Farm Name	Farm No	Portion	Latitude	Longitude	Property Type

NOTICE OF SECTION 102 AMENDMENT APPLICATION

Notice is hereby given in terms of the Mineral and Petroleum Resources Development Act (MPRDA), 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations, 2014 (amended 2017) that Affordable Outcomes CC applied for:

- environmental authorization to expand the existing prospecting right footprint with ±5 ha over the Remaining Extent of the farm Rooifontein No 1722 (formerly known as Speculative No 217), Boshof Magisterial District, Free State Province.
- consent of the minister to include ±5 ha to the existing prospecting right footprint in terms of Section 102 of the MPRDA, 2002.

The Section 102 (MPRDA) application triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and therefore requires an environmental impact assessment process to obtain environmental authorization:

- GNR 327 Listing Notice 1 of 2017 Activity 20:
Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including-
(a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or
(b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.
- GNR 327 Listing Notice 1 of 2017 Activity 22:
The decommissioning of any activity requiring –
a) a closure certificate in terms of section 43 of the MPRDA, 2002; or
b) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.

The draft Basic Assessment Report and Environmental Management Programme (DBAR & EMPR) will be available to the public from 04 November 2020 for a 30-days review period that extend until 04 December 2020. An electronic copy of the report will be published on the Greenmined Environmental website (www.greenmined.com). Interested and Affected Parties (I&AP's) are invited to provide written comments. I&AP's must provide their comments with their name and contact details to the environmental consultant indicated below by 04 December 2020. Should you require the documentation in another language or need additional information please contact Greenmined Environmental (Pty) Ltd.

In light of the current State of Disaster and Covid-19 pandemic Greenmined will not be able to accurately calculate the attendance of I&AP's at a public meeting, and therefore I&AP's are requested to indicate whether they require a meeting. If required, a meeting will be scheduled.

A register of I&AP's that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Upon lapse of the commenting period the DBAR & EMPR will be updated to reflect the comments received during the public commenting period. Thereafter, the final BAR & EMPR will be submitted to DMRE for its consideration as part of the authorization process in terms of the MPRDA, 2002 and NEMA, 2014 regulations (as amended 2017). A copy of the final BAR & EMPR will be published on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

KENNISGEWING VAN 'N ARTIKEL 102 WYSIGINGSAAANSOEK

Kennis geskied hiermee in terme van die Minerale- en Petroleumhulpbronneontwikkelingswet, 2002 (Wet 28 van 2002) (MPRDA), die Nasionale Omgewingsbestuurwet, 1998 (Wet 107 van 1998) (NEMA) en die Omgewingsimpakstudie Regulasies, 2014 (soos gewysig 2017) (OIS-) dat Affordable Outcomes CC aansoek gedoen het vir:

- omgewingsmagtiging om die bestaande prospekteerregvoetspoor met ±5 ha uit te brei oor 'n gedeelte van die Restant van die plaas Rooifontein No 1722 (voorheen bekend as Spekulatie No 217), Boshof Landroosdistrik, Vrystaat Provinsie.
- toestemming van die Minister om ±5 ha by die bestaande prospekteerregvoetspoor in te sluit in gevolge Artikel 102 van die MPRDA, 2002.

Die Artikel 102-aansoek (MPRDA) aktiveer die volgende gelyste aktiwiteite in terme van NEMA, 1998 en die OIS-regulasies, 2014 (gewysig 2017) en vereis dus 'n omgewingsimpakstudie om omgewingsmagtiging te verkry:

- Kennisgewing 1 van GKR 327, 2017 Aktiwiteit 20:
Enige aktiwiteit, insluitend die bedryf van daardie aktiwiteit wat 'n prospekteerreg vereis ingevolge artikel 16 van die Minerale- en Petroleumhulpbronneontwikkelingswet, 2002 (Wet 28 van 2002) (MPRDA)), insluitend-
 - a) gepaardgaande infrastruktuur, strukture en grondwerke wat direk verband hou met die ontginning van 'n minerale hulpbron; of
 - b) die primêre verwerking van 'n minerale hulpbron, insluitend wen, ontginning, klassifisering, konsentrasie, maal, sif of was.
- Kennisgewing 1 van GKR 327, 2017 Aktiwiteit 22:
Die ontmanteling van enige aktiwiteit wat -
 - a) 'n sluitingsertifikaat ingevolge artikel 43 van die MPRDA, 2002; of
 - b) 'n prospekteerreg, mynreg, mynpermit, produksiereg of eksplorasiereg, waar die deursoek van die aktiwiteit oor 'n tydperk van 5 jaar met 90% of meer verminder het, uitgesonderd waar die bevoegde owerheid skriftelik ingestem het die deursoek is nie sluiting nie.

Die konsep Basiese Assesseringsverslag en die Omgewingsbestuursprogram (DBAR en EMPR) is vanaf 04 November 2020 beskikbaar vir 'n 30-dae kommentaartydperk wat strek tot 04 Desember 2020. 'n Elektroniese kopie van die verslag sal op die Greenmined Environmental webwerf (www.greenmined.com) gepubliseer word. Belanghebbendes en geaffekteerde partye (B&GP's) word uitgenooi om skriftelik kommentaar te lewer. B&GP's moet hul opmerkings met hul naam en kontakbesonderhede voor 04 Desember 2020 aan die omgewingskonsultant verskaf. Kontak asseblief vir Greenmined Environmental indien u die dokumentasie in 'n ander taal benodig, 'n vergadering of addisionele inligting verlang.

'n Register van B&GP's sal geopen en in stand gehou word wat die name, kontakbesonderhede en adresse bevat van alle persone wat skriftelike kommentare ingedien het, of skriftelik versoek het om geregistreer te word, sowel as alle staatsinstansies wat jurisdiksie het met betrekking tot die aktiwiteit. Na verstryking van die kommentaarperiode sal die DBAR & EMPR opgedateer word om die kommentaar wat gedurende die openbare kommentaarperiode ontvang is, te weerspieël. Daarna word die finale BAR & EMPR aan DMR voorgelê vir oorweging as deel van die magtigingsproses ingevolge die MPRDA, 2002 en NEMA, 2014 OIS-regulasies (soos gewysig 2017). 'n Afskrif van die finale BAR & EMPR sal op die Greenmined Environmental webwerf gepubliseer word. Alle geregistreerde B&GP's en belanghebbendes sal binne 14 (veertien) dae na die beslissing van die uitslag van die aansoek skriftelik in kennis gestel word, met inbegrip van die redes vir die beslissing en die reg tot appell.

Die konsultant is Greenmined Environmental, Suite 62, Privaat Sak X15, Somerset Wes, 7129 of kontak Christine Fouché by (082) 811 8514 of Tel (021) 851 2673, (Faks) (086) 546 0579, (E-pos) christine.f@greenmined.co.za.

NOTICE OF INTENDED MINING ACTIVITY

NOTICE OF SECTION 102 AMENDMENT APPLICATION

Notice is hereby given in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) that Affordable Outcomes CC applied for:

- environmental authorization to expand the existing prospecting right footprint with ± 5 ha over the Remaining Extent of the farm Rooifontein No 1722 (formerly known as Speculatie No 217), Boshof Magisterial District, Free State Province.
- consent of the minister to include ± 5 ha to the existing prospecting right footprint in terms of Section 102 of the MPRDA, 2002.

The Section 102 (MPRDA) application triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and therefore requires an environmental impact assessment process to obtain environmental authorization:

- GNR 327 Listing Notice 1 of 2017 Activity 20:
Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including-
 - (a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or
 - (b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.
- GNR 327 Listing Notice 1 of 2017 Activity 22:
The decommissioning of any activity requiring –
 - a) a closure certificate in terms of section 43 of the MPRDA, 2002; or
 - b) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.

The draft Basic Assessment Report and Environmental Management Programme (DBAR & EMPR) will be available to the public from 04 November 2020 for a 30-days review period that extend until 04 December 2020. An electronic copy of the report will be published on the Greenmined Environmental website (www.greenmined.com). Interested and Affected Parties (I&AP's) are invited to provide written comments. I&AP's must provide their comments with their name and contact details to the environmental consultant indicated below by 04 December 2020. Should you require a meeting, the documentation in another language or need additional information please contact Greenmined Environmental (Pty) Ltd.

A register of I&AP's that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Upon lapse of the commenting period the DBAR & EMPR will be updated to reflect the comments received during the public commenting period. Thereafter, the final BAR & EMPR will be submitted to DMRE for its consideration as part of the authorization process in terms of the MPRDA, 2002 and NEMA, 2014 regulations (as amended 2017). A copy of the final BAR & EMPR will be published on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

The contact consultant is Greenmined Environmental (Pty) Ltd, Suite 62, Private Bag X15, Somerset West, 7129 or contact Christine Fouché at (082) 811 8514 or Tel (021) 851 2673. (Fax) (086) 546 0579, (email) christine.f@greenmined.co.za.
