Dear Mr / Ms Van Den Berg

LAND CLAIMS ENQUIRY

- **Portion 6 and 7 of the farm Gams No 367, Magisterial District of Gordonia, in the Northern Cape.**

We refer to your letter received: **07 July 2023**

We confirm that as at the date of this letter that no land claim appears on our database in respect of the Property this includes the database for claims lodged by 31 December 1998; and those lodged between 1 July 2014 and 27 July 2016 in terms of the Restitution of Land Rights Amendment Act, 2014.

Whilst the Commission takes reasonable care to ensure the accuracy of the information it provides, there are various factors that are beyond the Commission's control, particularly relating to claims that have lodged but not yet been gazetted such as:

- Some Claimants referred to properties they claim dispossession of rights in land against using historical property descriptions which may not match the current property description; and

- Some Claimants provided the geographic descriptions of the land they claim without mentioning the particular actual property description they claim dispossession of rights in land against.

The Commission therefore does not accept any liability whatsoever if through the process of further investigation of claims it is found that there is in fact a land claim in respect of the above property.

If you are aware of any change in the description of the above property after 19 June 1913 kindly supply us with such description so as to enable us to do a further search.

Yours faithfully

Hallo Marlene van den Berg

Ek is die eienaar van die Plaas Uitzicht wat grens aan die Gams Farm gedeelte wat julle wil ontgin. Ek wil kapsie maak teen die myn proses:

Ek is die eienaar van Kalahari Guesthouse and Farmstall wat gereeld gaste ontvang by die padstal, sowel as kampering en gastehuis. Ek glo myn aktiwiteite sal inbreek maak op my gaste se privaatheid. Niemand hou van 'n geraas asook voertuie en mense in die omgewing waar hulle kamp of oornag nie. Die idee is reeds om die stilte van die Kalahari te kom geniet, sonder enige steurnis.

Die myn aktiwiteite gaan ook 'n rol speel in ons ondergrondse water bed. Ons is bekend as 'n baie droe gebied met swak reenal en kan nie bekostig dat ons ondergrondse water misbruik word en dan het ons geen water meer vir boerdery aktiwiteite nie. Ons is heeltemal afhanklik van ondergrondse water vir ons diere om te suip aangesien hier geen ander opsie van damme/riviere in ons omliggende omgewing is nie.

In ons omgesing is baie vleie en dit is die hoofbron om die ondergrondse water tafel te voed. Die vleie is ook goeie weiding vir ons diere en baie voelsoorte lewe in die vleie en deur myn aktiwiteite sal dit skade lei.

Met al hierdie feite in ag geneem maak ons ten sterkste kapsie teen die ontginning van enige soort minerale in ons omgewing
