Good day

08 November 2019

Dear sir/madam

RE: DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME REPORT FOR PUBLIC COMMENTS FOR THE MINING PERMIT APPLICATION ON A PORTION OF PORTION 0 (REMAINING EXTENT) OF THE FARM AKERMANS KRAAL 11 RD, ALIWAL NORTH, EASTERN CAPE PROVINCE

The draft Basic Assessment Report (DBAR) and Environmental Management Programme Report (EMPR) for the propose mining of sand from a portion of Portion 0 (Remaining Extent) of the farm Akermans kraal 11 RD, Aliwal North, is now available for your perusal. A copy of the document can be obtained from Greenmined Environmental upon request, or downloaded from the company website at www.greenmined.com.

Should you be interested your comments are kindly requested on the DBAR & EMPR. A thirty-day commenting period, ending on **09 December 2019**, will be allowed for comments. Your comments must be in writing and can be submitted via facsimile, e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

If we do not receive any comments from you before the end of the commenting period it will be accepted that you do not have any additional objections/comments with regard to the project. We trust that you find it in order and kindly await your comments on this report.

Please contact Christine Fouche at 082 811 8514 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or christine.f@greenmined.co.za should you require any additional information.

Kind Regards

Dear Madam

RE: Comments for Draft Basic Assessment Report for the proposed Sand Mine on Portion 0 of the Farm Akerman Kraal 11 RD, Aliwal North, Eastern Cape Province.

The receipt of Draft Basic Assessment Report (DBAR) on the 14 November 2019 of the above-mentioned activity is hereby acknowledged. Following review of the submitted DBAR, Department submits the following comments and concerns for the proposed activity: -

1. Public participation (PP) undertaken for the project is not adequate. Please note "you are required to contact department of economic, small business development, tourism and environmental affairs" and please note that a note board must be written at least with two official language.
2. Impacts assessments and proposed mitigations associated with the activity is insufficient and inadequately assessed; the report is silent about cumulative impacts of this proposed sand mining operations such; alien invasive control measures, sedimentation control and dust suppression measure.
3. An Aquatic Ecology Assessment needs to be undertaken with regards to the impacts associated with the project and mitigation measure that will reduce negative impacts on the environment.
4. Please note the river, stream, and associated tributaries must be treated as sensitive environment areas.

Please note that these recommendations are legal binding and can jeopardize success of the application.

10 December 2019

Attention: Mihlali Kambi

Dear Me/Mr Kambi

RE: RESPONSE TO COMMENTS ON DRAFT BASIC ASSESSMENT REPORT FOR THE PROPOSED SAND MINE ON PORTION 0 (REMAINING EXTENT) OF THE FARM AKERMANS KRAAL 11 RD, ALIWAL NORTH, EASTERN CAPE PROVINCE

We refer to your letter dated 09 December 2019 sent in response to the draft Basic Assessment Report (DBAR) and Environmental Management Programme (EMPr) circulated for public comment in respect of the mining permit application on Portion 0 (Remaining Extent) of the farm Akermans kraal No 11 RD, in the Aliwal North magisterial district of the Eastern Cape Province. We would like to thank you for participating in this process and for your valued comments.

We confirm that your response will be added to the final BAR and/or EMPr, but wish to respond directly as follows:

Ad paragraph 1

“Public participation (PP) undertaken for the project is not adequate. Please note “you are required to contact department of economic, small business development, tourism and environmental affairs” and please note that a note board must be written at least with two official languages.”

Greenmined takes note of your request that the Department of Economic, Small Business Development, Tourism and Environmental Affairs (DESBTEA) must be informed of the project. Although the proposed mining area does not extend into the Free State Province, the DESBTEA will be informed of the project and afforded an opportunity to comment on the DBAR & EMPr.

the goal isn't to live forever, it is to protect a planet that will

During the initial public participation process two English notice boards were placed to inform the general public of the proposed activity. The community of Aliwal North is well versed in English and it was therefore not deemed necessary to display the on-site notices in two languages. Chapter 6 of the EIA Regulations also does not require the on-site notice to be in “*at least two official languages*”, In light of this, we respectfully request you to consider this request. **Should you, however, still insist the notices to be bi-lingual, will you please indicate which two languages are to be used as both Afrikaans and Xhosa is used in the area?**

Ad paragraph 2

“Impacts assessments and proposed mitigation associated with the activity is insufficient and inadequately assessed; the report is silent about cumulative impacts of this proposed sand mining operation such; alien invasive control measures, sedimentation control and dust suppression measures.”

We take note of you comment, and will assess the possibility of cumulative impacts that may result from the proposed activity. However, please note that alien invasive control measures, sediment control and dust suppression measures were assessed and mitigation proposed on the following pages of the DBAR and EMPR (non-exhaustive list):

- Alien Invasive Control Measures:
 1. *Site Specific Groundcover* – Page 60
 2. *Impacts and risks identified* – Page 62, 65
 3. *Proposed Mitigation Measures – Topsoil Management* – Page 75
 4. *Proposed Mitigation Measures – Management of Invasive Plant Species* – Page 78
 5. *Full description of the process undertaken to identify, assess and rank the impacts and risks the activity will impose on the preferred site* – Page 84, 86, 87
 6. *Assessment of each identified potentially significant impact and risk* – Page 89
 7. *Proposed Impact Management Objectives and the Impact Management Outcomes for Inclusion of the EMPR* – Page 103
 8. *Impacts to be mitigated in their respective phases* – Page 115 – 117
 9. *Impact Management Outcomes* – Page 128
 10. *Impact Management Actions* – Page 135

11. *Mechanisms for monitoring compliance with and performance assessment against the environmental management programme* – Page 156
 12. Invasive Plant Species Management Plan attached as Appendix K
 13. Environmental Impact Statement attached as Appendix I
- Sedimentation Control:
 1. *Site Specific Groundcover* – Page 60
 2. *Proposed Mitigation Measures – Storm Water Mitigation* – Page 77
 3. *Summary of specialist reports* – Page 93
 4. *Proposed Impact Management Objectives and the Impact Management Outcomes for Inclusion of the EMPR* – Page 102
 5. *Impacts to be mitigated in their respective phases* – Page 124
 6. *Impact Management Actions* – Page 142
 7. *Mechanisms for monitoring compliance with and performance assessment against the environmental management programme* – Page 163
 8. *Risk Matrix Assessment* attached as Appendix H
 - Dust Suppression Measures:
 1. *Description of the activities to be undertaken - Water Use* – Page 26
 2. *Impacts and risks identified* – Page 63, 64
 3. *Proposed Mitigation Measures – Fugitive Dust Emission Mitigation* – Page 74
 4. *Full description of the process undertaken to identify, assess and rank the impacts and risks the activity will impose on the preferred site* – Page 84, 86
 5. *Assessment of each identified potentially significant impact and risk* – Page 89
 6. *Summary of specialist reports* – Page 93
 7. *Proposed Impact Management Objectives and the Impact Management Outcomes for Inclusion of the EMPR* – Page 99
 8. *Impact on the socio-economic conditions of any directly affected person* – Page 109
 9. *Volume and rate of water use required for the operation* – Page 113
 10. *Impacts to be mitigated in their respective phases* – Page 118
 11. *Impact Management Outcomes* – Page 129
 12. *Impact Management Actions* – Page 136

13. Mechanisms for monitoring compliance with and performance assessment against the environmental management programme – Page 157
14. Manner in which risk will be dealt with in order to avoid pollution or the degradation of the environment – Page 166
15. Environmental Impact Statement attached as Appendix I

Ad paragraph 3

“An Aquatic Ecology Assessment needs to be undertaken with regards to the impacts associated with the project and mitigation measures that will reduce negative impacts on the environment.”

Greenmined takes note of your request. The specialist that compiled the Risk Matrix Assessment (Appendix H of the DBAR) will be appointed to compile an Aquatic Ecology Assessment. This assessment will be incorporated into the FBAR that will be available for your perusal and commenting.

Ad paragraph 4

“Please note the river, stream, and associated tributaries must be treated as sensitive environment areas.”

Your above comment is noted. Please be advised that the Applicant is in the process of applying for an authorisation from the Department of Water and Sanitation to allow the proposed mining of sand from the riverbed. No mining will commence prior to receipt of the DWS water use authorisation.

We trust that you will find our response to your comments in order **and look forward to your urgent reply regarding the on-site notices**. If we do not receive a response from you on or before 10 January 2020 it will be accepted that you are in agreement with our response and no longer require any additional action. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards

A handwritten signature in black ink, appearing to read 'Fouche', with a stylized flourish at the end.

Dear Sir/Madam,

ACKNOWLEDGEMENT OF RECEIPT OF YOUR WATER USE LICENCE APPLICATION MADE IN TERMS OF SECTION 41 OF THE NATIONAL WATER ACT, 1998 (ACT 36 OF 1998), ORANGE WATER MANAGEMENT AREA

The Department of Water and Sanitation hereby acknowledges receipt of your water use licence application, which was received on, 31 October 2019.

The regulations regarding the procedural requirements for water use licence applications and appeals (NO.R. 267 of 24 March 2017, Government Gazette No. 40713) requires that a site inspection be conducted with applicants to determine the applicable water uses and information requirements. However the responsible officer will communicate with you if the application requires a site inspection.

Should you wish to make any further enquiries in this regard, please do not hesitate to contact our office on the details provided above.

The summary of timeframes for receiving and steps in processing of a water use licence application (Annexure A), is attached for easy reference.

I trust that you shall find the above in order.

Yours faithfully,

pp PROVINCIAL HEAD: FREE STATE

Dear Sir

Greenmined Environmental herewith thank you for your response, received 13 November 2019, regarding the mining permit application submitted on behalf of Yellowwood Trust over Portion 0 (Remaining Extent) of the farm Akermans Kraal 11, Aliwal North magisterial district in the Eastern Cape Province.

The acknowledgement of receipt of the WULA will be incorporated into the final Basic Assessment Report to be submitted to the DMR for decision making. We will stay in contact with Mr Mofokeng regarding the progress of the EIA.

We trust you will find this in order, and please do not hesitate to contact me in the event of any uncertainties.

**PROOF THAT THE DBAR NOTIFICATION WAS
LOADED ONTO THE SAHRIS WEBSITE OF THE
SOUTH AFRICAN HERITAGE RESOURCE AGENCY
ON 8 NOVEMBER 2019**

from the riverbed of the Orange River within a 1.2 ha area (Permit No: EC 172014 MP). Upon expiry of the said permit the landowner, Yellowwood Trust ("hereinafter referred to as "the Applicant"), identified the need to mine the sand resource from the Orange River. The Applicant therefore intends applying for a sand mining permit over a 2.8 ha area that extends across the previous sand mining footprint (see Figure 1). The proposed mining footprint was restricted to the already disturbed areas on the farm, so as to limit the removal of natural occurring vegetation.
