Dear Christine

We would like to register the following 2 representatives from Agri Western Cape as an interested and/or affected party:

Mr Jannie Strydom [jannie@awk.co.za](mailto:jannie@awk.co.za)  
Mr Louis Wessels [louis@awk.co.za](mailto:louis@awk.co.za)

Can you kindly confirm our registration.

Regards

**Ilana de Klerk**  
**Persoonlike Assistent vir HUB / Personal Assistant to CEO**

DMR Reference Number: To be confirmed

**BACKGROUND INFORMATION DOCUMENT**

Are there any other organisations or individuals that you feel should be invited to comment? If so, please provide their contact details:

Contact name:	Jannie Strydom & Louis Wessels
Organisation (if applicable):	Agri Western Cape
Address	11 Marketstreet, Paarl
Tel:	021 860 3800
Fax	
E-mail	jannie@awk.co.za / Louis@awk.co.za

Your feedback is valued and will be addressed appropriately.

Kind Regards

Christine Fouche  
Greenmined Environmental

RE: Background Information Document - Bongani Minerals (Pty) Ltd- Agri Western Cape/Wes-Kaap

Dear Ilana

Greenmined Environmental (hereinafter "Greenmined") herewith thank you for your interest, and acknowledge receipt of your correspondence received 6 December 2018 with regard to the proposed mining right application to be submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined, on behalf of the applicant, registered Messrs Strydom and Wessels on behalf of Agri Western Cape as interested and affected parties (I&AP) on the project, and will henceforth keep you posted on the progress of the Environmental Impact Assessment process.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete  
**Ms Christine Fouche**

**PORTION 1 OF FARM NO. 297, DIVISION PIKETBERG  
PORTION 6 OF FARM NAMAQUASFONTEIN NO. 76, DIVISION PIKETBERG  
PORTION 21 OF FARM NAMAQUASFONTEIN NO. 76, DIVISION PIKETBERG**

Your notice in abovementioned regard, dated 3 December 2018, refers.

It is acknowledged that a scoping report on the proposed development is not available at present, and therefore our comment is limited to the information contained in the background information document provided.

### Environmental comment:

*"A hydrogeological assessment will be performed..."*

### Comment:

Immediate and long term effects of the ground water abstraction should be taken into account as this will affect the water table and also affect natural surface water systems within this area. The hydrogeological assessment should take into account the effects on the environmental integrity of the Verlorenvlei, designated RAMSAR site (Ramsar Convention on Wetlands of International Importance especially as Waterfowl Habitat). The prospecting site is situated in the area of Verlorenvlei catchment, as rivers and water courses affect and influence each other from many kilometres away. The assessment should also consider the affects to the sustainable, ecological functioning of the catchment areas for the Kruis, Bergvallei, the Krom Antonies and the Hol river systems. The potential tungsten contamination of groundwater and aquifers should also be taken into account.

*“An Ecologist was appointed to conduct a full ecological study of the proposed footprint area.”*

Comment:

This area falls within the Greater Cederberg Biodiversity Corridor and the impact on Critical Biodiversity Areas must be considered in any specialist studies. The Verlorenvlei system supports several rare bird species and indigenous fish species and the conservation thereof is imperative and any effects of the proposed development should take this into consideration as irreversible impacts on the environment will result in habitat loss and species loss in this area.

*“An agricultural impact assessment will assess the potential impacts of the proposed mining operation on soils, agricultural potential and production.”*

Comment:

Blasting and the dispersion of dust particles could disturb or terminate ecosystem functioning and consequently the agricultural potential of the affected area. Abstraction and pollution of water resources could also lower the potential for sustainable agricultural practises, in an already drought prone area. Potential impacts on food security and agricultural yield could also affect human wellbeing.

*...“a traffic impact study will assess the impact that the proposed project will have on the road infrastructure and traffic of the study area.”*

Comment:

The traffic impact study should also take into account all routes to be used for the transport of the mined material to other destinations, and traffic through urban settlements. Alternative modes of transport, such as railway transport, should be considered. The traffic impact study should consider the effect of heavy vehicle traffic on the longevity of road and urban infrastructure. Heavy vehicle traffic through urban areas and the effect thereof on road and pedestrian safety, noise and air pollution should also be considered.

Planning comment:

The background information document states that a land development application has to be submitted to the Department of Environmental Affairs and Development Planning in terms of the Land Use Planning Act, 2014 (Act No 13 of 2014). It must be noted that in terms of Section 53(5) of the Land Use Planning Act, 2014 (LUPA) An approval by the Head of Department (the head of the provincial department responsible for land use planning) of a land development application does not release an applicant from the obligation to obtain the required approval from the municipality for the land development.

The subject farms are located within the jurisdictional area of Bergrivier Municipality and are currently zoned as Agriculture Zone 1 in terms of the Bergrivier Municipality: Integrated Zoning Scheme By-Law. The current zoning of the subject farms does not allow for mining or prospecting and therefore land use planning applications must be submitted to Bergrivier Municipality for both instances. In terms of Section 86(1)(b) of the Bergrivier Municipality: By-Law Relating to Municipal Land Use Planning it is an offence to utilise land in a manner other than prescribed by a zoning scheme without the approval of the Municipality.

Regards

**RE: Feedback from Bergrivier Municipality**

Dear Me Joubert

Greenmined herewith acknowledge receipt of your correspondence, received 7 December 2018, with regard to the proposed mining right application to be submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined takes note of the comments tendered by the Bergrivier Municipality, and will communicate it to the relevant specialists, in particular the hydrogeologist, ecologist, rangeland specialist, traffic engineer, and town and regional planner.

We have added both yourself as well as Mr Vermeulen as Bergrivier Municipal representatives to the registered stakeholder list and will continue to update you on the project. I can also confirm that the follow persons, as identified by yourself were already contacted and informed of the proposed project:

- Me Ganten-Bein,
- Mr Malherbe,
- Mr Burger,
- Me Strange,
- Mr Taylor,
- Me Huntly, and
- Me February

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind regards,  
Christine Fouche

Dear Ms Fouche

**RE: Application for mining of tungsten in the Moutonshoek Valley on portions 1 of Farm 297 and portions 6 and 21 of Farm Namaquasfontein No. 76 – Background Information Document.**  
DMR Ref: TBC

CapeNature would like to thank you for the opportunity to comment on the Background Information Document for this mining application and would like to make the following comments:

1. The Moutonshoek Valley area is of extremely high conservation value, not only for protection of terrestrial ecosystems which support many Species of Conservation Concern but also for provision of water and other ecosystem services. The area has been declared as a Protected Environment and the reasons for this will be discussed in more detail below. However, we first wish to clarify the process that was followed to declare the area as a Protected Environment (PE):

The public participation process for the Moutonshoek Protected Environment was started on the 15<sup>th</sup> of January 2016 and advertised in the Provincial Gazette. In addition, the provincial notice was published in two national newspapers as is required by Section 33 of the National Environmental Management: Protected Areas Act 57 of 2003.

As required by Section 32 of the National Environmental Management: Protected Areas Act 57 of 2003, the necessary state departments were consulted. These included the national Minister of Environmental Affairs, the Department of Mineral Resources, the Department of Water Affairs and Forestry, the Department of Environmental Affairs and Development Planning, South African Heritage Resources Agency, the Department of Agriculture, Berg River Municipality, the Regional Land Claims Commission and the South African National Biodiversity Institute.

The Western Cape Nature Conservation Board trading as CapeNature

Board Members: Prof Denver Hendricks (Chairperson), Prof Gavin Maneveldt (Vice Chairperson), Ms Marguerite Bond-Smith, Mr Mervyn Burton, Dr Colin Johnson, Prof Aubrey Redlinghuis, Mr Paul Slack

For the purpose of this application, we have attached a copy of the letter sent to the Department of Mineral Resources dated 11 February 2016. Letters and notifications to the other departments were also sent on the 11<sup>th</sup> of February 2016. The notices to the surrounding landowners were issued on the 22<sup>nd</sup> of February 2016 and sent out accordingly. Given that the consultative notices were sent out over a period of 1 month, all comments received up until the 10<sup>th</sup> of April 2016 were taken into account.

There were no objections received during the public participation process and subsequently after getting all landowners of the Landowner Association to sign their notarial agreements and Memorandum of Agreements the Protected Environment was declared on 20 April 2018 with an erratum notice published on 25 May 2018 given that page 2 of the property list was omitted in the original declaration notice. These documents have also been attached for your information and records.

As required as part of the consultation process the Moutonshoek Protected Environment was presented to the Joint Planning Task Team (JPTT) on the 29<sup>th</sup> of September 2017.

The public participation process for the approval of the Management Plan was completed mid-March 2018 with notices having been published in the Sunday Times, City Press and Rapport on 11 February 2018. No objections to the Management Plan were received through these processes.

2. The site is located within the highly sensitive and already water stressed Verlorenvlei catchment. One of the major tributaries which feeds into the Verlorenvlei is the Krom Antonies River which is in the mining application study area. The impacts of the mining activities will extend beyond the area which will be directly transformed. The proposed area is located at the source of the Verlorenvlei, which is internationally recognised as a Ramsar site (one of 19 wetlands in South Africa which have been designated to be of international importance) and is one of the largest natural wetlands along the West Coast of South Africa. Based on the ecological importance of the Verlorenvlei system and recognising the duty South Africans have at a national level to protect and conserve the wetlands associated with the Ramsar site, all new activities within the Krom Antonies River valley should result in active upgrading and rehabilitation of the riverine ecosystems. Groundwater is also an important source of water for the Verlorenvlei and any additional activities which will reduce the amount of ground- or surface water available or pose a serious risk of contamination should not be permitted. Agriculture is already highly dependent on groundwater due to limited surface flow and it is unlikely that additional uses can be accommodated.
3. Although a portion of the area that would be impacted directly by the proposed mining activities has largely been transformed by agricultural activities, there are still important areas supporting indigenous vegetation, including Leipoldtville Sand Fynbos, which is Endangered, Swartland Shale Renosterveld, which is Critically Endangered, Piketberg Quartz Succulent Shrubland which qualifies as Critically Endangered according to the latest analysis<sup>1</sup> conducted by CapeNature (only 11.7% of its original very small extent is remaining), Piketberg Sandstone Fynbos which is listed as Vulnerable, Cape Lowland Alluvial Vegetation, which is listed as Critically Endangered, and Cape Lowland Freshwater Wetlands. CapeNature does not support any further loss of any Endangered or Critically Endangered vegetation types.

---

<sup>1</sup> The 2016 assessment of habitat loss primarily utilized CapeNature's revised 2013/14 land cover product, as well as the 2010 Western Cape Biodiversity Framework land cover data. All land cover classes representing the outright loss of natural habitat (e.g. cultivated areas, forestry plantations, mines, dams, urban or built-up areas) or areas of severe degradation (e.g. pure invasive alien plant stands, significantly over-grazed or heavily eroded areas devoid of vegetative cover) were removed from the ecosystem map described above to create a remaining natural habitat layer. In addition, all areas falling within DAFF's 2007, 2013, or 2015 field crop boundary datasets were removed from the remnant layer described above.

The Western Cape Nature Conservation Board trades as **CapeNature**

Board Members: Prof Aubrey Redlinghuis (Chairperson), Dr Colin Johnson (Vice Chairperson), Mr David Frandsen, Dr Edmund February, Mr Elton Jefthas, Ms Francina du Bruyn, Mr Hoosain Kagee, Mr Johan van der Merwe, Adv. Mandla Mdludlu, Mr Mark Botha, Ms Nomtha Dilima, Prof Sulaiman Gool

4. The Western Cape Biodiversity Spatial Plan has determined terrestrial and aquatic Critical Biodiversity Areas (CBAs) as well as Ecological Support Areas (ESAs) within and adjacent to the application area. The management objectives of these CBAs and ESAs are vital to consider in order to prevent ecosystem collapse and loss of ecosystem services.
5. Verlorenvlei supports at least 177 bird species including several Red Data Book species including, *inter alia*, Ludwig's Bustard, Black Stork, Black Harrier and the Secretary Bird. The Verlorenvlei system (which includes the Krom Antonies) also supports four indigenous freshwater fish species, of which three species have not been found anywhere else. These are the Endangered Verlorenvlei redbfin (now part of the Pseudobarbus group), the Cape kurper (the Verlorenvlei population is genetically very distinct) and Cape Galaxias (two species, one genetically very distinct and restricted to the Verlorenvlei). The Krom Antonies River has a considerable number of critically endangered Verlorenvlei redbfin in its upper reaches where the proposed mining footprint is located. Any mining activities that impact the river could cause extinction of this species which is completely endemic to this site. Although this area is degraded in certain areas, with environmentally sensitive farming practices and proper rehabilitation, this river could return to a good condition with a highly conservation worthy fish assemblage. The Verlorenvlei system is already under high levels of water stress, with fish and other water dependent biota confined to small pools in summer. The indigenous fish in these pools are very susceptible to changes in water quality and water temperature during these periods.
6. The Moutonshoek Valley supports a large number of threatened plant species and animal species from many phyla and it is impractical to list all of them in this letter. However, it must be noted that extensive work has already been undertaken in this area which has highlighted the ecological importance of the Moutonshoek Valley. Lists of species confirmed to be present can be found in the Management Plan for the Moutonshoek Protected Environment.
7. CapeNature would also like to draw your attention to the significant investment already made in projects and initiatives in this area. For example, the Working for Wetlands project which has already had millions of rand invested for clearing alien vegetation from the Verlorenvlei system. There are also a range of eco-tourism initiatives being developed and implemented within the Verlorenvlei system, which are dependent on the long-term functioning of the wetland system. Should mining activities go ahead, this would almost certainly negate these positive efforts. Even before the area was declared as a Protected Environment, it formed part of the Greater Cederberg Biodiversity Corridor, which aims to conserve and restore the unique biodiversity of this region and encourage sustainable land use practices.
8. CapeNature was not aware that a prospecting right had been awarded for this area. No notifications were received regarding any application for prospecting since 2010. The last letter we submitted with regard to a prospecting application in Moutonshoek valley was to DMR on 17<sup>th</sup> of June 2010. As a commenting authority we should have been notified and given the opportunity to provide information on the biodiversity importance of the site and raise concerns prior to the prospecting right being issued.

Conclusion:

9. The proposed mining activities pose direct and indirect threats to biodiversity and ecological infrastructure found in the Moutonshoek Valley and the Verlorenvlei catchment. CapeNature is of the opinion that the proposed mining activities and associated impacts such as an increase in population (which will bring with it the need for additional roads, water supply, sewage and waste disposal) poses a high level of risk to the terrestrial and aquatic ecosystems in the area and their functioning and high negative irreversible impacts will occur if mining is authorised.
10. Furthermore, the mining site is located in the centre of the declared Moutonshoek Protected Environment. The Protected Environment status of the Moutonshoek area is underpinned by the extremely high conservation importance and ecological sensitivity of the area. The proposed mining activities are in direct conflict with the management objectives of the Moutonshoek Protected Environment.

The Western Cape Nature Conservation Board trading as **CapeNature**

Board Members: Prof Denver Hendricks (Chairperson), Prof Gavin Maneveldt (Vice Chairperson), Ms Marguerite Bond-Smith, Mr Mervyn Burton, Dr Colin Johnson, Prof Aubrey Redlinghuis, Mr Paul Slack

11. CapeNature therefore strongly objects to this application for mining within the Moutonshoek Protected Environment and urges that it not be given any further consideration.

CapeNature reserves the right to revise initial comments and request further information based on any additional information that may be received.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Baard', with a stylized flourish at the end.

**PRETORIA**  
0001

Dear Sir/Madam

**INTENTION TO DECLARE THE MOUTONSHOEK PROTECTED ENVIRONMENT**

**STEWARDSHIP BACKGROUND**

The Western Cape Nature Conservation Board uses the Conservation Stewardship Programme to achieve the conservation expansion of privately owned properties in the province.

This programme is a strategic approach to reaching biodiversity targets by ensuring that conservation-worthy sites on private owned land receive the appropriate levels of security. The ultimate goal of the Conservation Stewardship programme is to safeguard threatened habitats and to create secure biodiversity corridors within productive landscapes. These contractual arrangements with landowners form a part of CapeNature's protected area expansion strategy.

An application for the establishment of the Moutonshoek Protected Environment in terms of section 28(1) of the National Environmental Management: Protected Areas Act, No. 57 of 2003 was received in this office.

Approval was given by the Minister to commence formal procedures to declare the said protected environment.

Subsequently a notice of intention to declare was published in English, Afrikaans and isiXhosa in the *Provincial Gazette* on 15 January 2016 under Notice Number 3/2016. A copy of the English notice setting out the property details is attached for your perusal.

In terms of section 33(1) of the above mentioned Act the matter must also be advertised in two national newspapers. Section 32 of the said Act furthermore states that a consultative and public participation process must be followed.

In view of the above mentioned your comments and recommendation regarding the said application would be appreciated.

If no reply is received within sixty (60) days of the date of this letter it will be accepted that there is no objection in respect of this application.

Yours faithfully,

**CHIEF EXECUTIVE OFFICER**

## PROVINCIAL NOTICE

P.N. 74/2018

25 May 2018

### DEPARTMENT OF ENVIRONMENTAL AFFAIRS AND DEVELOPMENT PLANNING

#### NATIONAL ENVIRONMENTAL MANAGEMENT: PROTECTED AREAS ACT, 2003 (ACT 57 OF 2003)

#### DECLARATION OF MOUTONSHOEK PROTECTED ENVIRONMENT

I, Anton Bredell, Provincial Minister of Local Government, Environmental Affairs and Development Planning in the Western Cape, under section 28(1)(a)(i) of the National Environmental Management: Protected Areas Act, 2003 (Act 57 of 2003), declare a protected environment on:

1. Portion 1 of the Farm Piketberg No. 297, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 175, 3849 (One Hundred and Seventy-Five comma Three Eight Four Nine) hectares;  
Held by Title Deed No. T113120/2004;
2. Remaining extent of Portion 1 (Moutons Hoek) of the Farm Namaquasfontein No. 76, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 456, 7671 (Four Hundred and Fifty-Six comma Seven Six Seven One) hectares;  
Held by Title Deed No. T12161/2014;
3. Portion 1 (Scheppie Sous) of the Farm No. 77, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 284, 2016 (Two Hundred and Eighty-Four comma Two Zero One Six) hectares;  
Held by Title Deed No. T12161/2014;

4. Remaining extent of the Farm No. 78, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 495, 0977 (Four Hundred and Ninety-Five comma Zero Nine Seven Seven) hectares;  
Held by Title Deed No. T12161/2014;
5. Remaining extent of Portion 3 (Wildebosch Drift) of the Farm Wilgenhoutdrift No. 48, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 798, 6170 (Seven Hundred and Ninety-Eight comma Six One Seven Zero) hectares;  
Held by Title Deed No. T41751/2000;
6. Remaining extent of Farm Piketberg No. 297, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 498, 7449 (Four Hundred and Ninety-Eight comma Seven Four Four Nine) hectares;  
Held by Title Deed No. T39811/2009;
7. Portion 5 (a portion of Portion 4) of the Farm Zebra Mount No. 75, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 531, 3964 (Five Hundred and Thirty-One comma Three Nine Six Four) hectares;  
Held by Title Deed No. T71585/2011;
8. Remaining extent of Portion 11 (a portion of portion 7) of the Farm Namaquasfontein No. 76, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 94, 0873 (Ninety-Four comma Zero Eight Seven Three) hectares;  
Held by Title Deed No. T63289/2013;
9. Remaining extent of the Farm Ezelfontein No. 47, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 244, 3042 (Two Hundred and Forty-Four comma Three Zero Four Two) hectares;  
Held by Title Deed No. T78304/2003;
10. Portion 4 (a portion of Portion 1) of the Farm Ezelfontein No. 47, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 285, 1462 (Two Hundred and Eighty-Five comma One Four Six Two) hectares;  
Held by Title Deed No. T78304/2003;

11. Portion 5 of the Farm Ezelfontein No. 47, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 26, 8961 (Twenty Six comma Eight-Nine Six One) hectares;  
Held by Title Deed No. T78304/2003;
12. Portion 8 (Hamerskop) of the Farm Ezelfontein No. 47, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 214, 7039 (Two Hundred and Fourteen comma Seven Zero Three Nine) hectares;  
Held by Title Deed No. T78304/2003;
13. Portion 5 of the Farm Goergap No. 40, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province. In extent: 40, 0490 (Forty comma Zero Four Nine Zero) hectares and held by Title Deed No. T78304/2003;
14. Farm Wilgerbosdrift No. 51, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 901, 5078 (Nine Hundred and One comma Five Zero Seven Eight) hectares;  
Held by Title Deed No. T27399/1998;
15. Remaining extent of Portion 2 (Konkelbosch) of the Farm Wilgenhoutdrift No. 48, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 341, 9876 (Three Hundred and Forty-One comma Nine Eight Seven Six) hectares;  
Held by Title Deed No. T15104/1987;
16. Remaining extent of the Farm Namaquasfontein No. 76, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 245, 7302 (Two Hundred and Forty-Five comma Seven Three Zero Two) hectares;  
Held by Title Deed No. T25126/1966;
17. Portion 6 (a portion of Portion 2) of the Farm Wilgenhoutdrift No. 48, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 415, 0326 (Four Hundred and Fifteen comma Zero Three Two Six) hectares; Held by Title Deed No. T42211/2000;
18. Remaining extent of Portion 7 (a portion of Portion 2) of the Farm Namaquasfontein No. 76, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 94, 5075 (Ninety-Four comma Five Zero Seven Five) hectares;  
Held by Title Deed No. T45766/2017;

19. Portion 4 of the Farm Namaquasfontein No. 76, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 491, 6499 (Four Hundred and Ninety-One comma Six Four Nine Nine) hectares;  
Held by Title Deed No. T54409/1998;
20. Portion 5 (Scholzdrift) of the Farm Namaquasfontein No. 76, situated in the Bergrivier Municipality, Division Piketberg Western Cape Province;  
In extent: 245, 8265 (Two Hundred and Forty-Five comma Eight Two Six Five) hectares;  
Held by Title Deed No. T20378/1999; and
21. Portion 21 of the Farm Namaquasfontein No. 76, situated in the Bergrivier Municipality, Division Piketberg, Western Cape Province;  
In extent: 256, 6314 (Two Hundred and Fifty-Six comma Six Three One Four) hectares; Held by Title Deed No, T12500/2012.

I assign the name "Moutonshoek Protected Environment" to the protected area, of which the boundaries are reflected on the map as set out in the Schedule.

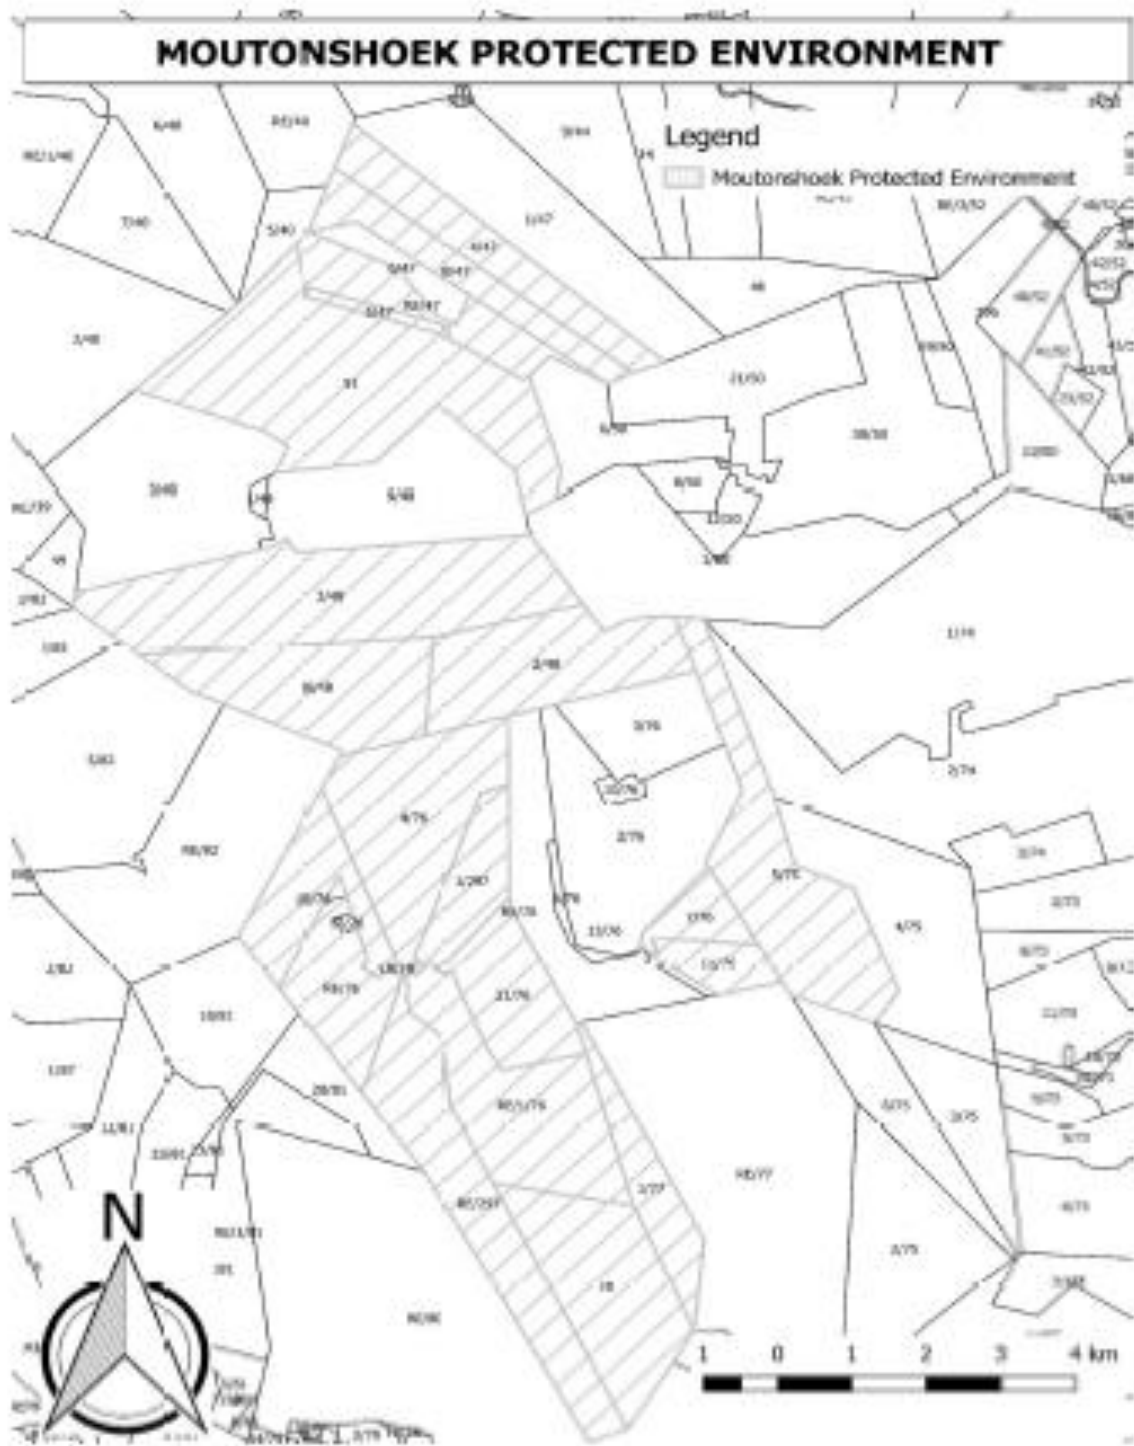

The approved Surveyor-General diagrams in respect of the properties which comprise the Moutonshoek Protected Environment, with numbers 3328/2004, 1455/1898, A3579/1928, 1040/1993, 1454/1898, 2068/1901, 91/1869, 2229/1909, 3327/2004, 4934/1953, 7370/1959, 494/1839, A3608/1930, 3005/1951, A3607/1930, A3951/1931, 1143/1965, 2228/1909, 3053/1938, 5062/1938, A3129/1928, 3055/1938, 3054/1938 and 1249/2011, are available for inspection at CapeNature's head office, cnr. Bosduif and Volstruis Streets, Bridgetown, Athlone.

Signed at Cape Town this 9<sup>th</sup> day of April 2018.

Dear Alana

Greenmined Environmental (hereinafter "Greenmined") herewith thank you for your interest, and acknowledge receipt of your correspondence on 13 December 2018 with regard to the mining right application submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined, on behalf of the applicant, registered CapeNature as a commenting authority on the project, and will keep you posted on the progress of the Environmental Impact Assessment process, as well as provide you with an opportunity to comment on the EIA documentation. Your comments are noted and will be included in the scoping report, and assessed in the environmental impact assessment report.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

The screenshot shows an Outlook window titled "Mining Right Application - Portion 1 of the Farm 297 RD, Portion 6 of the far...". The email header includes the sender "conservationoffice@capebiosphere.co.za", recipients "Christine Fouche" and "lizellek@capebiosphere.co.za", and the date "2018/12/14". The subject line is "Mining Right Application - Portion 1 of the Farm 297 RD, Portion 6 of the farm Namaquasfontein 76 ...". A warning icon indicates that Outlook prevented automatic download of some pictures in the message.

Good day,

The Cape West Coast Biosphere Reserve (CWCBR), of the UNESCO: Man and Biosphere Program, aims to implement sustainable development principles along the West Coast, in addition to integrating rapid growth with biodiversity and heritage conservation. The CWCBR extends from the Diep River in the south to the Berg River in the north and inland to Malmesbury and therefore the proposed development is located within the CWCBR. In this regard, the CWCBR would like to register as an I& AP and receive further correspondence and documentation regarding this development.

Kindly acknowledge receipt of this email.

You forwarded this message on 2018/12/06 08:28 AM.

Morning Marlene,

Thank you for your e-mail of 5 December 2018. Kindly register the Department of Environmental Affairs and Development Planning as a commenting authority for the application. Please provide this Department with 1 x hard copy and 4 x CDs of any reports, marked for my attention please.

Could you please provide this Department with a copy of the prospecting right (WC30/5/1/1/2/10197PR) that was issued to the proponent? Also please indicate which waste management listed activities are triggered by the proposal. Please further note that the Waste Act, 2008 requires publication in two newspapers.

Please further be advised to also consult with CapeNature, DWS, Department of Agriculture, HWC, West Coast Biosphere Reserve, BirdLife South Africa and West Coast District Municipality.

We note the proposed specialist studies – please be advised that a Socio-Economic Specialist Study is highly recommended.

The Department will provide more preliminary comment upon receipt of the PR decision.

Kind regards,  
Adri

Prospecting right - Jul... 0 bytes | Riviera Prospecting rig... 0 bytes

Morning Adri

Thank you for your response to our email.

Greenmined Environmental (hereinafter "Greenmined") herewith acknowledge receipt of your correspondence received 6 December 2018 with regard to the proposed mining right application to be submitted on behalf of Bongani Minerals (Pty) Ltd. Greenmined, on behalf of the applicant, registered the Department of Environmental Affairs and Development Planning as a competent authority for the application, and will henceforth keep you posted on the progress of the Environmental Impact Assessment process. We also take note of the document requirements.

Attached hereto please find a copy of the prospecting right held by Bongani Minerals (Pty) Ltd.

The proposed project will trigger Category A(1) *The storage of general waste in lagoons* in terms of the National Environmental Management: Waste Act, 2008 read together with the List of Waste Management Activities that have, or are likely to have a detrimental effect on the environment, 2013.

Greenmined confirms that we have already notified CapeNature, DWS, DoA, HWC, WCBR, BLSA and WCDM of the proposed project, and will stay in constant communications with them, thank you.

We note your remark with regard to a socio-economic specialist study, and can confirm that the specialist has already been appointed and that their report will form part of the EIA documents to be circulated for perusal.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

**SIR/MADAM**

**PROPOSED DEVELOPMENT: MINING RIGHT TO MINE TUNGSTEN AND MOLYBDENUM, WEST COAST MAGISTERIAL DISTRICT.**

**OUR REF: 04662- 18**

Eskom has no objection to the proposed work as indicated in your application provided that the following conditions are adhered to:

- I. No building may be erected within 9 (NINE) metres from either side of the centre line from any Eskom 11 / 22kV power line crossing the property involved or within 6 (SIX) metres from any structure supporting mechanism.
- II. No building may be erected within 3 (THREE) metres from any Eskom underground cable.
- III. The location of the cable from the Eskom transformer to the distribution box must be pointed out to the contractor by the owner and is the owner's responsibility.
- IV. A copy of this letter / documentation must be handed to the contractor who must have it available on site.
- V. That existing Eskom power lines and Infrastructure are acknowledged as established Infrastructure on the properties and any rerouting or relocation would be for the cost of the applicant/developer.

That Eskom rights or servitudes, including agreements with any of the landowners, obtained for the operation and maintenance of these existing power lines and Infrastructure be acknowledged and honoured throughout its lifecycle which include, but are not limited to:

- I. Having 24 hour access to its Infrastructure according to the rights mentioned in (a) above.
- II. To perform maintenance (structural as well as servitude – vegetation management) on its Infrastructure according to its maintenance programmes and schedules.
- III. To upgrade or refurbish its existing power lines and Infrastructure as determined by Eskom.
- IV. To perform any other activity not listed above to ensure the safe operation and maintenance of the Eskom power lines or Infrastructure.

**Western Region**  
Eskom Road, Brackenfell, 7560  
PO Box 222, Brackenfell, 7561

Eskom Holdings SOC Limited Reg No 2002801562708

- v. Eskom shall not be liable for the death or injury of any person, or for loss of or damage to any property, whether as a result of the encroachment or use of the area where Eskom has its services, by the applicant, his/her agent, contractors, employees, successors in title and assignee.
- vi. The applicant indemnifies Eskom against loss, claims or damages, including claims pertaining to interference with Eskom services, apparatus or otherwise.
- vii. Eskom shall at all times have unobstructed access to and egress from its services.
- viii. Any development which necessitates the relocation of Eskom's services will be to the account of the developer.

**PLEASE CONTACT AND MAKE APPOINTMENT: PIKETBERG CNC- BUKS BURGER 022 913 6311, 082 771 7646 BEFORE WORKING IN CLOSE PROXIMITY TO ANY ESKOM OVERHEAD POWER LINES.**

The above is a requirement under the Occupational Health and Safety Act (Act No. 85 of 1993) to ensure safety.

Please apply to your local Eskom office (Sales and Customers) for a new electricity connection or an increase in your supply.

Should it be necessary to move any of the Eskom services a written request must be given to the local Eskom office. It must be noted that it will take 3 months or longer to move any power line and that the cost of moving a power line will be for the applicant's account.

Yours sincerely

RE: 04662 - 18 CALEDON CNC

Dear Sir/Madam

Greenmined Environmental (hereinafter "Greenmined") herewith thank you for your interest, and acknowledge receipt of your correspondence on 14 December 2018 with regard to the mining right application submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined, on behalf of the applicant, registered Eskom Distribution as a stakeholder on the project, and will henceforth keep you posted on the progress of the Environmental Impact Assessment process, as well as provide you with an opportunity to comment on the EIA documentation. Should you not wish to receive these documents please indicate so. Further to the above, your comments/requirements will be forwarded to the client for his attention.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

Geagte Marlene Lingenfelder

Ek was en bly 'n geaffekteerde persoon, en net so almal aan wie jul hierdie dokument stuur. Ons verwag dat julle almal outomaties weer op jul lys sal sit.

Kan jul asb hierdie dokument so gou as moontlik in Afrikaans en Xhosa stuur? Die geaffekteerde gebied is meestal Afrikaans en Xhosa en bittermin Engels. Soos jy seker weet is dit die Boland.

Ons vind dit ook afstootlik dat hierdie kennisgewings uitgestuur word net voor die vakansie seisoen.

Ek aanvaar dat jul ook nie bekommerd is oor jul reputasie nie. Vra maar vir Withers Environmental. Ek hoop jul wil wel die "planeet beskerm."

Formeel die uwe  
Jacqui van der Merwe  
Sekretaresse  
Krom Antonie Bewarea

# PROOF OF RESPONSE TO KROM ANTONIES BEWAREA ON 8 JANUARY 2019

Geagte Mev. Van der Merwe

Greenmined Environmental (hierna "Greenmined") erken hiermee ontvangs van u skrywe, soos ontvang op 14 Desember 2018, ten opsigte van die mynreg aansoek wat namens Bongani Minerals (Edms) Bpk ingedien is.

Greenmined, namens die aansoeker, het u as 'n belanghebbende en geaffekteerde party (B&GP) op die projek geregistreer en sal u voortaan op hoogte hou van die vordering van die omgewingsinvoedbepalingsproses (OIB), u sal ook die geleentheid gebied word om kommentaar te lewer op die OIB-dokumentasie. Neem asb kennis dat ons reeds die B&GP'e gekontak het wat op die vorige mynregaansoek (soos hanteer deur Withers Environmental) geregistreer was. Aangesien die aansoek 'n tyd gelede plaasgevind het (2009), kry ons heelwat terugvoer van persone wat nie meer in die omgewing woon, of betrokke wil wees nie.

Die dokument kan in Afrikaans en Xhosa beskikbaar gestel word. Kan u ons asb voorsien van die kontakbesonderhede van die Xhosa en Afrikaanssprekende B&GP'e om ons in staat te stel om hulle dienooreenkomstig te kontak?

Let asseblief daarop dat die kommentaar-/registrasieperiode tot 5 Februarie 2019 strek.

Ons vertrou dat u die bogenoemde in orde vind. Kontak my gerus indien daar enige onsekerhede is.

Kind Regards/Vriendelike Groete

RE: Background Information Document - Bongani Minerals (Pty) Ltd- WCDM - Message (HTML)

File Message Tell me what you want to do... Mon 1:45 PM

Christine Fouche | cgbein@wcdm.co.za  
RE: Background Information Document - Bongani Minerals (Pty) Ltd- WCDM

Dear Me Ganten-Bein

Greenmined Environmental (hereinafter "Greenmined") herewith thank you for your interest, and acknowledge receipt of your objection on 18 December 2018 with regard to the mining right application submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined, on behalf of the applicant, registered the Western Cape District Municipality as a commenting authority on the project, and added your contact details to those of Charles Malherbe, and Dorothea Kotze. The WCDM will henceforth be kept posted on the progress of the Environmental Impact Assessment process, and will be invited to comment on the EIA documentation.

As the EIA process is still in the initial phase, no specialist reports, EA or EMP are currently available. The Draft Scoping Report will shortly be circulated for public comments upon which the Final Scoping will be submitted to the Department of Mineral Resources for consideration. As mentioned earlier the WCDM will be supplied with a copy of the DSR for your perusal.

We acknowledge that Me Joubert (Bergvriev Local Municipality: Air Quality) was already informed of the project, upon which she supplied us with your contact details to be added to the contact list (5 December 2018).

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

**Date: 20<sup>th</sup> December 2018**  
**To: Greenmined Environmental**  
**Contact Person: Christine Fouche**

**Dear Christine**

**UNIFRUTTI'S COMMENTS**

1. Unifrutti is objecting to the application of a Mining Right by Bongani Minerals in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 in the Moutons Hoek Valley

The objection is based on the long term impact of the mine on the quality and availability of the underground water resources in the area and the negative impact it will have on farming activities in the Sandveld.

2. The following comments are made:

There is considerable historical evidence of the negative impact open cast mining has on the quality and availability of underground water in the vicinity of mining operations. Matroozefontein is situated 28.5 km's from the proposed mine site as the crow flies. The Moutons Hoek valley is an important catchment area for the Veloren Vlei and for replenishing underground water in the Sandveld. This is the best quality water source for the Veloren Vlei and for replenishing underground water in the area. The other catchment areas provide water that is high in salts. Matroozefontein obtains its water from 15 boreholes on the farm. Matroozefontein has a permit to withdraw more than 2 million cubic meters of water/annum. Unifrutti has spent a considerable sum of money investigating the long term sustainable yield and quality of the water from the boreholes on the farm before it purchased the farm in 2004. The tests were done by De Villiers Visser Besproeiing and analyzed by SRK consulting (Compiled by A.C. Woodford). The tests were done for the planning of future citrus and table grape plantings on the farm. Any negative impact to the water resources on the farm will jeopardize the current and future developments on Matroozefontein. This will have negative implications on the long term profitability of the farm and negatively impact employment in the area. Matroozefontein employs a large number of seasonal and permanent people (in excess of 300 people). Currently Matroozefontein is monitoring its boreholes (levels and water quality) on a monthly basis. All the drinking water for Redelinghuys is supplied from the fountain on Matroozefontein. This amounts to 31 liters/second (977,616 cubic m's/annum). Any changes to the quality and availability of the water from the fountain will have serious health, welfare and development implications for the town. It needs to be pointed out that this residential water qualifies as a priority one supply.

Kind Regards

A handwritten signature in black ink, appearing to read "Simon Baty", is written over a light blue horizontal line.

## PROOF OF RESPONSE TO SIMON BATY ON 7 JANUARY 2019

RE: Proposed Mine in the Moutons Hoek Valley - Message (HTML)

File Message Tell me what you want to do...

 Christine Fouche |  'Simon Baty';  Bennie & Jacqui van der Merwe;  Andries Mouton | Mon 2:36 PM

**RE: Proposed Mine in the Moutons Hoek Valley**

Dear Mr Baty

Greenmined Environmental (hereinafter "Greenmined") herewith thank you for your interest, and acknowledge receipt of your objection on 20 December 2018 with regard to the mining right application submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined, on behalf of the applicant, registered Unifrutti as an interested and affected party (I&AP) on the project, and will henceforth keep you posted on the progress of the Environmental Impact Assessment process, as well as provide you with an opportunity to comment on the EIA documentation. Your comments are noted and will be included in the scoping report and assessed in the environmental impact assessment report. Your comments will also be forwarded to the geohydrological specialist to be incorporated and assessed in his study.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

**CORRESPONDENCE RECEIVED FROM M COETZEE (MARCEC LEGAL CONSULTING) ON  
14 DECEMBER 2018**

The screenshot shows an Outlook email window. The title bar reads "RE: Bongani Minerals (Pty) Ltd Proposed Mining Right Application - Messag...". The ribbon includes "File", "Message", and "Tell me what you want to do...". The sender is "Martin Coetzee <marcec@mweb.co.za>" with checkboxes for "Sonette Smit" and "Christine Fouche". The date is "2018/12/14". The subject is "RE: Bongani Minerals (Pty) Ltd Proposed Mining Right Application". The location is "Piketberg". A message icon indicates that Outlook prevented automatic download of some pictures. The body of the email contains the following text:

Good day

Thank you for sending me a notification of this.

I have been and still will be forwarding this to my clients as they were during 2012, and will await their instructions. It is unfortunate that this notification was issued at this time of year when many persons are on leave.

I am fairly certain that this application will be met, as it was in 2012 with the Applicant's prospecting right application, with vigorous opposition.

Unfortunately, the BID is not very helpful, because of its generalist nature. It offers no substantive information or reasoning.

As an example, it is completely silent about the fact that this application is brought in respect of a promulgated protected environment namely, the Moutonshoek Protected Environment. It is not clear how the applicant intends to circumvent the restrictions imposed on mining in this MPE by the National Environment: Protected Areas Act, 2003.

Furthermore, it is a fact that the application will be brought in respect of agricultural land. An application will have to be made to the local authority for consent use to allow mining.

Martin Coetzee <marcec@mweb.co.za>

Sonette Smit;  Christine Fouche

Piketberg

Click here to download pictures. To help protect your privacy, Outlook prevented automatic download of some pictures in this message.

Good day

Further to my unanswered email below, the following:

1. According to your BID it is stated that notice is given of an application of a mining right. In this regard
  - Was an application submitted to and accepted by the DMR, and , if so, kindly provide the DMR reference number for this application?
2. It is further stated that *"Owing to the outcome of the prospecting operation, the applicant wishes to apply for a mining right for the winning of tungsten and molybdenum"* In this regard
  - On which portions of land were these "prospecting operations" conducted?
  - Can documentation reflecting and confirming the "outcome of the prospecting operation" be made available?

Looking forward towards receiving your soonest responses.

**From:** Christine Fouche  
**Sent:** 08 January 2019 11:08 AM  
**To:** 'Martin Coetzee'  
**Subject:** RE: Bongani Minerals (Pty) Ltd Proposed Mining Right Application

Dear Adv Coetzee

Greenmined Environmental (Pty) Ltd (hereinafter referred to as "Greenmined") would like to thank you for your interest and herewith acknowledge receipt of your correspondence dated 14 and 21 December 2018 with regards to the mining right application submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined, on behalf of the applicant, registered you as an interested and affected party (I&AP) on the project, and will henceforth keep you posted on the progress of the Environmental Impact Assessment (EIA) process, as well as provide you with an opportunity to comment on the EIA documentation.

### Land Use Application:

Greenmined herewith confirms that the applicant is aware of the rezoning application to be lodged with the competent authorities, however the said application is still in progress and has not yet been submitted.

### Mining Right Acceptance:

Attached hereto please find a copy of the acceptance letter issued by the DMR on 14 December 2018 with regard to the mining right application. The project specific reference number is: WC 30/5/1/2/2/10110 MR.

### Prospecting Operation:

The prospecting operation referred to in the BID included geological re-logging of the available historic diamond drill core, resampling of a select number of these holes and a short-lived diamond drilling programme on the Remainder of Portion 6 (portion of portion 2) Namaquasfontein Farm No 76. Your request for "documentation reflecting and confirming the outcome of the prospecting operation" has been forwarded to the applicant and we will respond accordingly upon receipt of the relevant documentation.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

Piketberg

**i** You replied to this message on 2018/12/13 07:28 AM.

Please explain how you expect to receive the background information for registration as an Interested and Affected Party when the form you provide cannot be sent electronically. Do you expect it to be sent by post? How do you expect the people of this rural community to register, the people most affected, the majority of whom have no access to computers or post offices?

You may as well get used to my name.

Anyone involved actively or passively in the application for the right to mine in the Moutonshoek watershed will get to know me very well.

We have been down this road before. Whatever it takes, we will go through the whole boring, wasteful process of putting a stop to this mining bid once and for all.

**RE: Bongani Mining Moutonshoek**

Dear Sir

Greenmined Environmental (hereinafter "Greenmined") herewith acknowledge receipt of your correspondence received 12 December 2018 with regard to the proposed mining right application to be submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined registered you as an interested and affected party on the project, and will henceforth keep you posted on the progress of the Environmental Impact Assessment process.

With reference to the sending of the background information document, please note that the form can be saved to your computer from where it can be filled in electronically and attached to an email. However, registration and/or commenting on the project does not necessitate the actual BID form and comments can be send to us by any means (email, post, fax) available to you. Please also note that the initial public notification process further (apart from the notification emails sent by the mailchimp system) included an advertisement in both Die Burger as well as Die Weslander, the placement of 5 on-site notices throughout the study area, as well as providing people without email addresses with letters sent to their postal boxes. Should any person need assistance with the submission of comments he/she is welcome to contact us telephonically and we will assist as best we can.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

Mining Right Application - Bongani Minerals - Piketberg area

To 'HNieuwoudt@environment.gov.za'

Cc 'Franci Gresse'

Message 2. Regulation 42 Mine Plan.pdf

1. Background Information Document - Bongani Minerals (Pty) Ltd.pdf

The email received from Me Franci Gresse on 9 January 2019 has reference.

Greenmined Environmental would herewith like to supply you with a copy of the background information document (BID) and project map for the mining right application submitted by Bongani Minerals (Pty) Ltd over properties in the Moutonshoek Valley for the mining of tungsten and molybdenum.

The BID is to inform you of the proposed activity and to determine whether there are any concerns or objections from interested and affected parties (I&AP's) that need to be considered. As interested and affected party you are kindly requested to complete the comments form and give any comment/concern or input with regard to the current land use of the area, the environment as well as socio-economic conditions that you feel might be affected by the proposed activity. When submitting response please provide suggestions to mitigate the anticipated impact of each identified activity.

Please contact Christine Fouche at the contact details as presented in the letterhead or at [christine.f@greenmined.co.za](mailto:christine.f@greenmined.co.za) through any means should you need more information, have additional language requirements, have concerns or comments that need to be considered or if you want to be registered as an interested and/or affected party and would like to receive a copy of the Draft Scoping Report (DSR) on or before 5 February 2019.

We trust you find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

**RE: Draft Scoping report re Bongani Mining application near Picketberg**

Dear Me Munro

Greenmined Environmental (Pty) Ltd (hereinafter referred to as "Greenmined") would like to thank you for your interest and herewith acknowledge receipt of your correspondence dated 8 January 2019 with regards to the mining right application submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined, on behalf of the applicant, registered you as an interested and affected party (I&AP) on the project, and will henceforth keep you posted on the progress of the Environmental Impact Assessment (EIA) process, as well as provide you with an opportunity to comment on the EIA documentation.

The Draft Scoping Report will shortly be distributed for comments and we will gladly supply you with a copy.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

File Message Tell me what you want to do...

 Christine Fouche  Mark Munro;  Garry Sheard Tue 7:31 AM  
**RE: I&AP Registration\_Bongani Minerals**

Dear Mr Munro

Greenmined Environmental (hereinafter "Greenmined") herewith thank you for your interest, and acknowledge receipt of your correspondence received 14 December 2018 with regard to the mining right application submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined, on behalf of the applicant, registered you as an interested and affected party (I&AP) on the project, and will henceforth keep you posted on the progress of the Environmental Impact Assessment process, as well as provide you with an opportunity to comment on the EIA documentation. Your concerns are noted, will be included in the scoping report, and assessed in the environmental impact assessment report of which the geohydrological-, engineering services report, freshwater ecological assessment, and ecological study will form part.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

**COMMENTS/ OPMERKINGS**

<b>Object / No Objection:</b>	Object
<b>Request additional Information:</b>	I would like to receive all additional environmental reports and information.
<b>Concerns:</b>	Bongani Minerals applied for this same permit a few years ago, and it was quickly shut down. They are now applying again. They are planning on mining in the same valley as the Verloernvlei, which is a RAMSAR-protected site. The mining operation will undoubtedly have a negative effect on the surrounding environment, and it cannot be allowed to proceed.
