**BONGANI MINERALS (PTY) LTD// APPLICATION FOR A MINING RIGHT IN TERMS OF SECTION 22 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 TO MINE TUNGSTEN AND MOLYBDENUM ON PORTION 21 OF THE FARM NAMAQUASFONTEIN 76; THE REMAINING EXTENT OF PORTION 6 OF THE FARM NAMAQUASFONTEIN 76; AND PORTION 1 OF THE FARM NAMAQUASFONTEIN 297 IN THE MAGISTERIAL DISTRICT OF PIKETBERG**

I, Marie-Louise Kellett, the undersigned and representing the AFRICAN PADDLING ASSOCIATION (APA), hereby record my strongest objections against the above application, and I insist on being registered as an interested and affected person.

My reasons for the objection include, but are not limited to, the fact that any mining operations shall have a detrimental and irreversible negative impact upon the promulgated Protected Environment, the intensive agricultural activities in the area, the hydrology and aquifers, and the Krom Antonies River and Verlorenvlei area in general.

It is my request that the applications be refused by the relevant authority because of –

- the negative and detrimental impacts that any envisaged mining operations will have on the entire area, environmentally, socio-economically; the provision of water to the area and agriculturally;
- the fact that it will not be possible to satisfactorily mitigate any negative impacts on the area;
- the fact that no rehabilitative measures would prevent the degradation of the area and render it in the same position as it was before mining operations; and
- the undesirability of mining operations in the area.

I am aware of the fact that Adv Martin Coetzee will be submitting a detailed objection against the mining right application and the application for environmental authorisation, and I hereby give him a mandate to also object on my behalf and include my name in the list of objectors whom he represents.

I would also like to object about the public consultation process – it has not been properly done. The community has not been properly educated or consulted about the implications of this mine and neither has the broader public, who are all custodians of our shared natural resources.

Kind regards

---

Dear Me Alexander

Greenmined Environmental (Pty) Ltd (hereinafter referred to as "Greenmined") would like to thank you for your interest and herewith acknowledge receipt of your correspondence dated 4 February 2019 with regards to the mining right application (WC 30/5/1/2/2/10110 MR) submitted on behalf of Bongani Minerals (Pty) Ltd.

Greenmined, on behalf of the applicant, registered you as an interested and affected party (I&AP) on the project, and will henceforth keep you posted on the progress of the Environmental Impact Assessment (EIA) process, as well as provide you with an opportunity to comment on the EIA documentation. Your concerns were noted, will be included in the Final Scoping Report and assessed in the Draft Environmental Impact Assessment Report. It will also be forwarded to the road engineer, hydrologist, geohydrologists and socio-economic specialist that forms part of the project team.

Please note that the Draft Scoping Report (DSR) in respect of the mining right application is now available for your perusal and comment.

Should you be interested in submitting comments, a copy of the DSR can be obtained from Greenmined, alternatively downloaded from the Greenmined website ([www.greenmined.com](http://www.greenmined.com)).

A hard copy of the DSR is available at:

- Piketberg Public Library, 9A Kerk Street, Piketberg, and
- Redelinghuys Public Library, Voortrekker Street, Redelinghuys.

Please take notice further that there is a 30-day commenting period expiring on **12 February 2019** during which time you may submit your comments on the DSR. Your comments must be in writing and should include your contact details. Comments can be submitted via facsimile (086 546 0579), e-mail ([christine.f@greenmined.co.za](mailto:christine.f@greenmined.co.za)) and/or ordinary/registered mail (Postnet Suite 62, Private Bag X15, Somerset West, 7129).

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

**To: Christine Fouche**

This letter is written in open protest to the information sent out on the 3<sup>rd</sup> of December 2018 showing Bongani Minerals' interest in applying for rights to mine in the Moutonshoek Valley.

Please see below the list of concerns:

- 1) 20 hectars of indigenous vegetation will be removed, how will you replace it?
- 2) What processes will be put in place to prevent the chemicals from leaking into the ground due to high water table in the area?
- 3) How long will phase two of the mining activities last? The noise pollution in the area will have a direct impact on the birds mating in the RAMSA area.
- 4) Where will the reverse osmosis plant be located and what is the source of the plants water?
- 5) The borehole water with in the mining area will come from a valuable water source to the farmers, families and RAMSA area. Should this water sauce be used the consequences will be staggering (agricultural, environmental, social). What other water sources are available?
- 6) The Verlorenvlei River feeds into a sensitive wetland area and we request all reports on the water use be made available.
- 7) Will a copy of the EIA documentation be available? We will have our own experts study the report.
- 8) The district is not a low employment rate area and 170 jobs can be created elsewhere, are there more employment opportunities available?
- 9) Please elaborate on the socio-economic project you will be investing in as there are already many projects in the Pieketberg area that serve this need.

10) We would like the agricultural assessment report to be made available as there are many farmers in the area who rely heavily on the water the mine would like to use

We would also ask that you list us as people of interest in these proceedings as this application will have a direct impact on our community.

We appreciate your swift response to these concerns as our community will protest any activity that will lead to the negative impact of our environment, water and community spirit.

Warm regards

Gizela Andrews
