BONGANI MINERALS (PTY) LTD// APPLICATION FOR A MINING RIGHT IN TERMS OF SECTION 22 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 TO MINE TUNGSTEN AND MOLYBDENUM ON PORTION 21 OF THE FARM NAMAQUASFONTEIN 76; THE REMAINING EXTENT OF PORTION 6 OF THE FARM NAMAQUASFONTEIN 76; AND PORTION 1 OF THE FARM NAMAQUASFONTEIN 297 IN THE MAGISTERIAL DISTRICT OF PIKETBERG

I, Enver Duminy, the undersigned and in my capacity as Chief Executive Officer of the institution known as Cape Town Tourism, hereby record my strongest objections against the above application and I insist on being registered as an interested and affected person.

My reasons for the objection include, but are not limited to, the fact that any mining operations shall have a detrimental and irreversible negative impact upon the promulgated Protected Environment, the intensive agricultural activities in the area, the hydrology and aquifers, and the Krom Antonies River and Verlorenvlei area in general.

It is my request that the applications be refused by the relevant authority because of –

- the negative and detrimental impacts that any envisaged mining operations will have on the entire area, environmentally, socio-economically; the provision of water to the area and agriculturally;
- the fact that it will not be possible to satisfactorily mitigate any negative impacts on the area;
- the fact that no rehabilitative measures would prevent the degradation of the area and render it in the same position as it was before mining operations; and
- the undesirability of mining operations in the area.

I am aware of the fact that Adv Martin Coetzee will be submitting a detailed objection against the mining right application and the application for environmental authorisation, and I hereby give him a mandate to also object on my behalf and include my name in the list of objectors whom he represents.

Kind regards

CC: Adv M Coetzee marcec@mweb.co.za

Subject: Registration as I. and AP. - Mining in Moutonshoek valley.
Attachments: Scanned doc 001.jpg

Dear Miz. Fouche.

Please find attached the rather inadequate (to allow full disclosure of concerns) document as provided by yourself w.r.t. the application on behalf of BONGANI Minerals to allow mining for Tungsten in the Moutonshoek valley.

Suffice to say that I will add comment via this mail to further support the attachments.

My wife and I are indeed "interested and affected parties" given that we for a number of years have owned a residence along the Verlorenvlei. As you MUST be aware, the Verlorenvlei is a RAMSAR site - this designation requiring it to be conserved and sustained as a wetland. This wetland has come under ever-increasing threat not only via weather patterns but also via increased activity inland in the catchment areas provided by the 4 major tributaries indicated in your document.

How can we now support a water intense mining project that MUST impact further on the environment and protected birdlife?

The roads in the area especially those existing that would allow transport of "product" to Saldanha Bay, were NEVER intended to manage high density heavy loads - already they are increasingly damaged by the potato and ore trucks that trundle daily.

Finally, there is too little detail given re. the water use - a "reverse osmosis" plant will provide some (no figures given) process water and potable water (approx. 20000litres) will be extracted via boreholes!!! In an arid region, any extraction beyond normal use would impact massively on the ground water available.

Suffice to say - we "**object**" most vehemently to any mining in an area zoned for Agriculture and hope to be included from now on in any correspondence pertaining to said "application".

Kind regards,
S. (Barry) Clark.
