**BONGANI MINERALS (PTY) LTD// APPLICATION FOR A MINING RIGHT IN TERMS OF SECTION 22 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 TO MINE TUNGSTEN AND MOLYBDENUM ON PORTION 21 OF THE FARM NAMAQUASFONTEIN 76; THE REMAINING EXTENT OF PORTION 6 OF THE FARM NAMAQUASFONTEIN 76; AND PORTION 1 OF THE FARM NAMAQUASFONTEIN 297 IN THE MAGISTERIAL DISTRICT OF PIKETBERG**

I, Desmond Langkilde, the undersigned and in my capacity as Executive Editor of the media publication known as Tourism Tattler, hereby record my strongest objections against the above application and I insist on being registered as an interested and affected person.

My reasons for the objection include, but are not limited to, the fact that any mining operations shall have a detrimental and irreversible negative impact upon the promulgated Protected Environment, the intensive agricultural activities in the area, the hydrology and aquifers, and the tourism potential of the Krom Antonies River and Verlorenvlei area in general.

It is my request that the applications be refused by the relevant authority because of –

- the negative and detrimental impacts that any envisaged mining operations will have on the entire area, environmentally, socio-economically; the provision of water to the area and agriculturally;
- the fact that it will not be possible to satisfactorily mitigate any negative impacts on the area;
- the fact that no rehabilitative measures would prevent the degradation of the area and render it in the same position as it was before mining operations; and
- the undesirability of mining operations in the area from a travel & tourism perspective.

I am aware of the fact that Adv Martin Coetzee will be submitting a detailed objection against the mining right application and the application for environmental authorisation, and I hereby give him a mandate to also object on my behalf and include my name in the list of objectors whom he represents.

Kind regards

All,

Apologies for this mass email, which relates to the approval/EIA relating to the Bongani Minerals (aka Johannes van der Walt) Moutonshoek mining application.

Johan Botes requested Bongani Minerals' EIA consultant to contact me to ensure that I am registered as an interested and affected person (IAP).

I do not know enough about the project to engage in any meaningful discussion about it with anyone, but it seems obvious to me that given the current environmental situation at Verlorenvlei, it would be a good thing if as many people as possible registered as IAP's and provided input into the process.

I am sure EBEDAG and others will do their thing, but we cannot simply assume that other people will say and do all that is required and I intend to also apply my mind and make my individual voice heard.

You will see from the email below that the following deadlines are important:

- TOMORROW, 5 February: register as IAP.
- 30-day commenting period expiring on 12 February 2019 during which time you may submit your comments on the DSR.

Even if you do not make a submission, please at least register as an IAP by tomorrow. You can do so by sending an appropriate email to Greenmined, attention Ms Christine Fouche, email: [christine.f@greenmined.co.za](mailto:christine.f@greenmined.co.za).

I will arrange for copies of the DSR and documents referred to in the email below to be obtained and distributed to anyone who might be interested. Please let me know if you wish to receive it.

Can we please limit email traffic on this mail group to what is strictly necessary.

Thanks

**COMMENTS/OPMERKINGS**

Object / No Objection:	<b>Yes! I strongly OBJECT to the proposed mining project</b>
Request additional information:	<p>Full details of the Environment Impact Study, particularly the effect that the project will have on the flow of water in the Verloren River and all its tributaries.</p> <p>Further, has Applicant calculated the long-term cost of rehabilitating the mining area to its present pristine condition and has it factored in this cost when determining its long-term profit. Is Applicant prepared, at the beginning of its project, to deposit the rehabilitation cost, calculated by an <b>entirely independent expert</b>, into a special Trust account <b>not</b> controlled by Applicant to rehabilitate the land entirely to its present pristine natural state after mining activities have ceased.</p> <p>Applicant's heavy trucks will be using various public roads in and around the mine and the Piketberg area. Is Applicant committed at its own cost, to maintain the roads on a monthly basis, to the standards required by the Roads Authority. Has Applicant factored this cost into determining its long-term profit</p>
Great Concerns:	<p>I identify myself with the objection already filed by the Verlorenvlei Heritage Home Owners Association.</p> <p>For the first time in decades the Verloren Vlei is totally dry despite the 2018 rains being better than the three precious years. The basin near the mouth is a waste land and dry vegetation. The water on the farms around the vlei is so low that one of our neighbours can no longer pump water from his well.</p> <p>The catchment area of the vlei is situated in the Moutonshoek Valley. This is a relatively small area situated between the mountains to the Eastern Side of the vlei</p> <p>The Applicant proposed development is, according to the plans received, situated at the heart of the said area. It is obvious even to the layman eye, that this very fragile environment is dependent on the preservation of this pristine phenomenon.</p> <p>If the total system is in anyway threatened, especially as foreseen by the suggested mine and associated developments in the area, it will fatal to the economy, farming activities (which are fragile in themselves), livelihood and wellbeing of all the people who have lived here for centuries. I verily believe that mining activity of any sort anywhere in the valley will be an utter disaster from which the Verloren River may never recover. For this reason, I voice my strongest objection to Applicant's mining proposal.</p>

Ek, ...Callie Louw....., die ondergetekende en in my hoedanigheid as die eienaar/okkupeerder/ inwoner van die eiendom bekend as ...Porseleinberg....., wil hiermee my sterkste beswaar aanteken teen bogenoemde aansoek en dring ek daarop aan om as geïnteresseerde en geaffekteerde persoon geregistreer te word.

Die redes vir my beswaar sluit in, maar is nie beperk daartoe nie, die feit dat enige mynboubedrywighede 'n uiters negatiewe en onomkeerbare nadelige uitwerking sal hê op die wetlik Beskermd Omgewing, die aktiewe landboubedrywighede, die watervoorsiening en die ondergrondse damme en die Krom Antoniesrivier en Verlorenvlei areas in die algemeen.

Dit is my versoek dat die betrokke staatsinstelling die aansoek sal afkeur vir die volgende redes-

- die negatiewe en nadelige impakte wat die beoogde mynboubedrywighede sal hê op die hele gebied, wat betref die omgewing, die sosio-ekonomiese omstandighede, watervoorsiening aan die area en die landbou in die algemeen;
- die feit dat dit nie enigsins moontlik sal wees om die negatiewe en nadelige gevolge te voorkom of te bekamp nie;
- die feit dat geen voorgestelde rehabilitasie die verval van die omgewing sal kan voorkom nie, nog minder om dit te herstel na dieselfde toestand wat dit was voor enige mynboubedrywighede; en
- die ongewenstheid van enige mynboubedrywighede in die gebiede.

Ek is daarvan bewus dat Adv Martin Coetzee 'n formele beswaar teen die aansoek om 'n mynreg en omgewingsgoedkeuring gaan indien en ek het aan hom volmag verleen om sodanige besware ook namens my in te dien en my in te sluit by die lys van beswaarmakers wat hy verteenwoordig.

Die uwe

OM VIR TUNGSTEN EN MOLYBDENUM TE MYN OP GEDEELTE 21 VAN DIE PLAAS NAMAQUASFONTEIN 76; DIE OORBLYWENDE GEDEELTE VAN GEDEELTE 6 VAN DIE PLAAS NAMAQUASFONTEIN 76; EN GEDEELTE 1 VAN DIE PLAAS NAMAQUASFONTEIN 297 IN DIE DISTRIK VAN DIE MUNISIPALITEIT VAN PIKETBERG**

Ek, Elta Louwrens, die ondergetekende en in my hoedanigheid as die ~~eienaar/~~okkuperder/ inwoner van die eiendom bekend as Dwarskerksbas plaas, wil hiermee my sterkste beswaar aanteken teen bogenoemde aansoek en dring ek daarop aan om as geïnteresseerde en geaffekteerde persoon geregistreer te word.

Die redes vir my beswaar sluit in, maar is nie beperk daartoe nie, die feit dat enige mynboubedrywighede 'n uiters negatiewe en onomkeerbare nadelige uitwerking sal hê op die wetlik Beskermd Omgewing, die aktiewe landboubedrywighede, die watervoorsiening en die ondergrondse damme en die Krom Antoniesrivier en Verlorenvlei areas in die algemeen.

Dit is my versoek dat die betrokke staatsinstelling die aansoek sal afkeur vir die volgende redes-

- die negatiewe en nadelige impakte wat die beoogde mynboubedrywighede sal hê op die hele gebied, wat betref die omgewing, die sosio-ekonomiese omstandighede, watervoorsiening aan die area en die landbou in die algemeen;
- die feit dat dit nie enigsins moontlik sal wees om die negatiewe en nadelige gevolge te voorkom of te bekamp nie;
- die feit dat geen voorgestelde rehabilitasie die verval van die omgewing sal kan voorkom nie, nog minder om dit te herstel na dieselfde toestand wat dit was voor enige mynboubedrywighede; en
- die ongewenstheid van enige mynboubedrywighede in die gebiede.

Ek is daarvan bewus dat Adv Martin Coetzee 'n formele beswaar teen die aansoek om 'n mynreg en omgewingsgoedkeuring gaan indien en ek het aan hom volmag verleen om sodanige besware ook namens my in te dien en my in te sluit by die lys van beswaarmakers wat hy verteenwoordig.

Die uwe

Elta Louwrens
