COMMENTS/ OPMERKINGS

Object / No Objection:	Object strongly
Request additional information:	I would like to know on what scientific basis the applicant has submitted an application to mine low grade tungsten [and other minerals/metals] in an area as sensitive as this and has the applicant considered the livelihoods and survival of communities downstream from the proposed area to the coast.
Concerns:	I will submit a full list of concerns when the applicant puts in a proper proposal document with the full intention to mine instead of a badly prepared desk top mock up that insults the people it "would", not "will" affect .. my emphasis in parenthesis is simply because I believe the applicant is playing a dangerous game in proposing this mine once again .. we are fully aware of the previous proposals to prospect and mine and unless some really fancy new technology is available, tungsten cannot be mined safely in the area proposed ..let alone processed as the intial document seems to want to do.

BONGANI MINERALS (PTY) LTD// APPLICATION FOR A MINING RIGHT IN TERMS OF SECTION 22 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 TO MINE TUNGSTEN AND MOLYBDENUM ON PORTION 21 OF THE FARM NAMAQUASFONTEIN 76; THE REMAINING EXTENT OF PORTION 6 OF THE FARM NAMAQUASFONTEIN 76; AND PORTION 1 OF THE FARM NAMAQUASFONTEIN 297 IN THE MAGISTERIAL DISTRICT OF PIKETBERG

I, Eugene Frank Freeman, the undersigned and in my capacity as vice chairman of the institution known as The Thoroughbred Breeders Association, hereby record my strongest objections against the above application and I insist on being registered as an interested and affected person.

My reasons for the objection include, but are not limited to, the fact that any mining operations shall have a detrimental and irreversible negative impact upon the promulgated Protected Environment, the intensive agricultural activities in the area, the hydrology and aquifers, and the Krom Antonies River and Verlorenvlei area in general.

It is my request that the applications be refused by the relevant authority because of –

- the negative and detrimental impacts that any envisaged mining operations will have on the entire area, environmentally, socio-economically; the provision of water to the area and agriculturally;
- the fact that it will not be possible to satisfactorily mitigate any negative impacts on the area;
- the fact that no rehabilitative measures would prevent the degradation of the area and render it in the same position as it was before mining operations; and
- the undesirability of mining operations in the area.

I am aware of the fact that Adv Martin Coetzee will be submitting a detailed objection against the mining right application and the application for environmental authorisation, and I hereby give him a mandate to also object on my behalf and include my name in the list of objectors whom he represents.

Kind regards

BONGANI MINERALS (PTY) LTD// APPLICATION FOR A MINING RIGHT IN TERMS OF SECTION 22 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 TO MINE TUNGSTEN AND MOLYBDENUM ON PORTION 21 OF THE FARM NAMAQUASFONTEIN 76; THE REMAINING EXTENT OF PORTION 6 OF THE FARM NAMAQUASFONTEIN 76; AND PORTION 1 OF THE FARM NAMAQUASFONTEIN 297 IN THE MAGISTERIAL DISTRICT OF PIKETBERG

I, Martin Treadaway, the undersigned and in my capacity as ...Owner..... of the institution known as10, 12th Street Shelley Point, St Helena Bay....., hereby record my strongest objections against the above application and I insist on being registered as an interested and affected person.

My reasons for the objection include, but are not limited to, the fact that any mining operations shall have a detrimental and irreversible negative impact upon the promulgated Protected Environment, the intensive agricultural activities in the area, the hydrology and aquifers, and the Krom Antonies River and Verlorenvlei area in general.

It is my request that the applications be refused by the relevant authority because of –

- the negative and detrimental impacts that any envisaged mining operations will have on the entire area, environmentally, socio-economically; the provision of water to the area and agriculturally;
- the fact that it will not be possible to satisfactorily mitigate any negative impacts on the area;
- the fact that no rehabilitative measures would prevent the degradation of the area and render it in the same position as it was before mining operations; and
- the undesirability of mining operations in the area.

I am aware of the fact that Adv Martin Coetzee will be submitting a detailed objection against the mining right application and the application for environmental authorisation, and I hereby give him a mandate to also object on my behalf and include my name in the list of objectors whom he represents.

Kind regards
