- Mining Permit/ Right no MP 11/2019 (Office ref: MP 30/5/1/3/2/108893
MP) Location: -26.688453° 29.580608° by B&E International Pty Ltd.
- Statistical Release P0141 Table A - CPI, Mpumalanga, for annual
escalation of rate. Base Date October 2023.

1. Commercial & Contractual

1.1 Rate of pay:

R 15.00 per ton (ex Vat) of product sold which is removed from the quarry. This rate will
escalate yearly based on CPI for Gauteng as published by STATSA, with a base date of
November 2023.

- 1.2 For commercial crushing into stockpiles, payment will be made within 30 days after the Quarry Contractor receives payment from its clients. For contract crushing, where the Contractor pays the Quarry Operator monthly for the material over the weighbridge, in MOS on the stockpile, payment will similarly be made monthly after 30 days for the material that crossed the weighbridge into stockpile.
- 1.3 Payment will be made by means of bank transfer into the Land Owner's nominated account. (A bank letter will be required to verify banking details)
- 1.4 Payment will be based on the tonnage's crossing the Quarry Operator's weighbridge into stockpile for the client. The Landowner is free to do any verification of the tally into stockpile as he sees fit, at his own cost.
- 1.5 Payment will only be made for salable materials.
- 1.6 The Landowner will receive a full set of tally documents each month as supporting documents to the amount to be paid.
- 1.7 Working Hours will be in line with the details in the approved EMP.
- 1.8 This agreement is deemed exclusively between the Quarry Operator and the Landowner and will be valid concurrently with the current Mining Permit issued on 11 November 2019 and subsequent renewals attached to this permit. No other quarry operator or persons interested in the source will be permitted to engage it in any way without timeous notice to and written approval from the Quarry Operator.
- 1.9 There will be no limitation on the operating hours imposed by the Landowner except for Sundays.
- 1.10 While this agreement is currently with the established Land Owner, represented by Mr. J.P. Swarts, it is a stipulation of this agreement that it is linked to the land and quarry authorization itself, rather than specifically to the Landowner. Therefore, this agreement should be regarded as legally binding for the duration specified in Clause 1.8, even if the land, mining source, or the entity holding the mining rights is sold, leased, bequeathed, or otherwise transferred during the term of the contract.
- 1.11 By signing this agreement, the Landowner indemnifies the Quarry Contractor against any claim or legal action from the Landowner since it is understood that the agreement between the Rights Holder (Quarry Owner) and the Landowner is in place and valid.

2. Obligations on the Quarry Operator towards the Mining Source and Landowner, at no cost.

- 2.1 To operate the quarry in term of the current EMP as well as the mining plan.
- 2.3 To conduct a professional operation, keeping the Quarry Owner & other stakeholders' interests in mind.
- 2.4 To keep control over its workforce.
- 2.5 Not to have any personnel living on the land.

A handwritten signature in black ink, appearing to be a stylized name, located in the bottom right corner of the page.

- 2.7 To keep the Landowner informed of mine planning & programming.
- 2.8 To uphold all relevant Laws & Acts, i.e., Mines & Health & Safety Act No.29 of 1996. As well as Environmental Standards and the Minerals Act.
- 2.9 To make available to the Landowner, the relevant POD's and weighbridge documentation relating to the quantum payable for the use of the quarry on a daily basis.

3. Obligations on the Landowner towards the Quarry Operator.

- 3.1 To allow free & unrestricted access to the quarry so that the Quarry Contractors may conduct its business.
- 3.2 To allow the Quarry Contractor to operate unhindered.
- 3.3 To allow preparatory work to be done.
- 3.4 To acknowledge satisfaction with condition in which the site and work areas are left upon abandonment, in writing.
- 3.5 To be available to consult with.
- 3.6 To keep the Quarry Contractors interest in mind.
- 3.7 To guarantee exclusivity of use of source to the Quarry Contractor only for the duration of the agreement.

4. Location & Extent of Mining Site.

- 4.1 To be agreed before the Crushing Operations commence based on the diagram of the source as included in the Mining Permits.

5. Safety.

- 5.1 Safety will be regarded as the No. 1 priority on site and the Mines, Health & Safety Act will apply.
- 5.2 The Quarry Operator will be responsible to enforce safety on site, which will include the denial of access to any party or person deemed to represent a safety risk to the Quarry Operator, the Landowner or himself, onto site.

6. Disputes

- 6.1 In the 1st instance an attempt should be made to settle disputes amicably and as quickly as possible.
- 6.1 Disputes must be forwarded in writing between the 2 parties. Any dispute not received in writing by either party will be disregarded.
- 6.2 Any dispute declared later than 30 days after termination of this agreement or abandonment or departure from the quarry by the Quarry Contractor, will be null & void.

6.3 Arbitration in a mutually agreed format will be engaged in should no resolution be reached through conciliation or mediation.

7. Damages

7.1 The Landowner shall indemnify the Quarry Operator against claims, losses or proceedings arising from the damage of sub -- surface and / or hidden installations not pointed out to the Quarry Contractor in writing.

7.2 No claims for damage or loss of property such as livestock will be entertained by the Quarry Contractor after termination of the agreement and signing off the site closure certificate.

8. General

8.1 It is hereby understood that it will not be possible to restore the Mining site to its original state since it is the nature of the operation to extract material from the land in order to construct the road and other structures. This will leave a void which will be made safe, but not be back-filled or covered up.

**LAND CLAIM IN TERMS OF THE RESTITUTION OF LAND RIGHTS
AMENDMENT ACT 2014 (ACT NO 15 OF 2014).**

**PROPERTY DESCRIPTION: PTN OF PTN 7 OF THE FARM ROODEKRANS 457 IS
REFERENCE NUMBER: R6/142/278/115058**

We refer to the land claim enquiry on the **3rd of July 2024** on land claims lodged with the Department.

Please note that there is a new land claim lodged against the farm based on the Restitution, the Restitution of Land Rights Amendment Act, (Act no 15 of 2014).

The Commission is empowered to investigate all land claims and where applicable issues a Government Gazette to interested and affected parties if such land claims has been approved as valid claims.

The above claim was lodged in terms of the Restitution of Land Rights Amendment Act, 2014 (Act No 15 of 2014) ("the Amendment Act") which, amongst others, reopened the lodgement of claims for a period of five years.

The validity of the Amendment Act was challenged in the Constitutional Court.

The Constitutional Court found the Amendment Act to be invalid because of the failure of Parliament to facilitate public involvement as required by the Constitution.

The Amendment Act ceased to be law on 28 July 2016 and the Commission is no longer allowed to accept lodgement of new claims from that date.

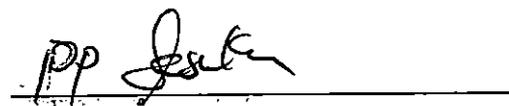

The Constitutional Court ordered that the claims that were lodged between 1 July 2014 and 27 July 2016 are validly lodged, but it interdicted the Commission from processing those claims until the Commission has finalised the claims lodged by 31 December 1998 or until Parliament passes a new law providing for the re-opening of lodgement of land claims. Parliament was given until 27 July 2018 to pass such a law.

The Commission will therefore not be processing these new claims until it finishes claims lodged by 31 December 1998 or until Parliament passes a new law providing for re-opening of lodgement of claims.

We apologise for the inconvenience caused.

Please quote the claim reference number in all correspondence with the Commission.

Yours sincerely,

MR E.S. NKOSI

EXAMPLE OF SITE NOTICE

NOTICE OF MINING PERMIT APPLICATION AS WELL AS ENVIRONMENTAL AUTHORISATION APPLICATION

Environmental Management Act, 1998 (Act 107 of 1998) (NEMA), and the Environmental Impact Assessment Regulations 2014 (as amended), that Inzalo Crushing and Aggregates (Pty) Ltd applied for:

- environmental authorization to mine aggregate from a portion of Portion 7 of the farm Roodekrans 457, Administrative district IS, Mpumalanga Province
- environmental authorization in terms of regulation 16(1) of the EIA Regulations to stockpile material on the above-mentioned property.
- a mining permit in terms of Section 27 of the MPRDA;

The proposed mining footprint will be 4.9 ha and will be developed over an undisturbed area of the farm. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

In addition to the mining permit application, the applicant proposes to establish a 13.6 ha area for stockpiling and crushing of the material mined from the quarry on the same property. The material will be transported from the quarry into the stockpile area where it will be screened/crushed and stockpiled until removed from site.

The proposed two projects trigger the following listed activities in terms of NEMA, and the EIA Regulations 2014 (as amended):

- GNR 983 Listing Notice 1 Activity 21 as amended:
Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as continued in this Listing Notice or in Listing Notice 3 of 2014, required to exercise the mining permit.
- GNR 983 Listing Notice 1 Activity 27 as amended:
The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation.
- GNR 985 Listing Notice 1 Activity 28 as amended:
Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:
 - will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.**excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.*
- GNR 985 Listing Notice 3 Activity 12 as amended:
The clearance of an area of 300 square metres or more of indigenous vegetation.
 - Mpumalanga*
 - Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004;*
 - Within critical biodiversity areas identified in bioregional plans;*

The Daft Basic Assessment Reports (DBAR) with Environmental Management Programmes (EMPR) will be made available for comments as follows:
