practitioner (“**EAP**”) appointed by K2022641005 (South Africa) Proprietary Limited (the “**Applicant**”), for purposes of the Applicant’s application for an environmental authorisation (“**EA Application**”) in terms of Part 3 of Chapter 4 of the Environmental Impact Assessment Regulations, 2014 (GNR 982 of 4 December 2014), as amended (“**EIA Regulations**”), published in terms of the provisions of the National Environmental Management Act, 107 of 1998, as amended (“**NEMA**”). A copy of the 3 October Notice is attached hereto as Annexure “**A**”.

1.3 The EA Application has been submitted by the Applicant in pursuance of a Prospecting Right (“**Prospecting Right Application**”) with Department of Mineral Resources and Energy (“**DMRE**”) reference number: NC 30/5/1/1/2/13826 PR in accordance with Section 16 of the Mineral and Petroleum Resources Development Act, 28 of 2002, as amended (“**MPRD Act**”), inclusive of bulk sampling, for the minerals diatomite, diatomaceous earth and kieselguhr in respect of the following properties –

1.3.1 in the Kuruman District –

1.3.1.1 Portion 1 and the Remaining Extent of the farm Botha No 313; and

1.3.1.2 Portion 1 and the Remaining Extent of farm Devon No 277 (the “**Farm Devon**”);

1.3.2 in the Hay District –

1.3.2.1 Portions 4 and 5 of the farm Bermolli No 583;

1.3.2.2 Portion 1 and the Remaining Extent of farm Engelsdraai No 221;

1.3.2.3 Portion 1 and the Remaining Extent of the farm Witdraai No 204; and

1.3.2.4 Portions 1, 2 and the Remaining Extent of the farm Vaalwater No 84;

all situated within the Northern Cape Province (“**Prospecting Right Area**”).

1.4 The purpose of this letter is to provide comments, in terms of Regulation 43 of the EIA Regulations, by KMR (being a registered interested and affected party (“**I&AP**”)), in the form of an objection and to bring specific issues to the attention of, *inter alia*, Greenmined, the Applicant and the DMRE. The comments and objections submitted by KMR are set out in paragraph 2 below.

1.5 In light of the fact that KMR became aware of the availability of the Draft EIAR for comment on 3 October 2024, KMR’s comments are submitted on 4 November 2024, being within the prescribed 30-day period.

## 2 Comments and Objections in respect of the Draft EIAR

### 2.1 Relevant background and KMR’s existing rights

2.1.1 On 12 February 2024, KMR first became aware of the Prospecting Right Application submitted by the Applicant when Tshifhiwa Nemakhavhani (“**Nemakhavhani**”), a SHERQ Manager employed by KMR, came across the

Prospecting Right Application notification advertised alongside the main entrance gate of the Farm Devon. The Prospecting Right Application Notification advised I&APs of the Applicant's Prospecting Right Application for the minerals diatomite, diatomaceous earth and kieselguhr, in respect of the Prospecting Right Area. A photograph of the Prospecting Right Application Notification taken by Nemakhavhani on 12 February 2024 is attached hereto as Annexure "B".

- 2.1.2 On 22 February 2024 and subsequent to becoming aware of the Prospecting Right Application, KMR received a copy of the draft scoping report ("**Draft Scoping Report**") in respect of the Prospecting Right Application. On 25 March 2024, KMR submitted comments in respect of the Draft Scoping Report ("**March 2024 Comments**"). A copy of the March 2024 Comments without the annexures thereto, is attached as Annexure "C".
- 2.1.3 At the time KMR submitted the March 2024 Comments, the Draft Scoping Report and the Prospecting Right Application related to the entire Prospecting Right Application Area, as listed in paragraph 1.3 above, which included Portion 1 and the Remaining Extent of Farm Devon.
- 2.1.4 As indicated in paragraph 1.9 of the March 2024 Comments, KMR is the *Holder*, as defined in Section 1 of the MPRD Act, of a Mining Right ("**KMR Mining Right**") for "*Manganese Ore*" in respect of, *inter alia*, the Farm Devon, situated in the Magisterial District of Kuruman, Northern Cape ("**KMR Mining Right Area**"). The KMR Mining Right commenced on 20 January 2017 and will continue to be in force for a period of 20 years, ending on 19 January 2037. A copy of the KMR Mining Right is attached hereto as Annexure "D".
- 2.1.5 KMR subsequently applied for and was granted consent in terms of Section 102 of the MPRD Act ("**Section 102 Amendment**") to include the minerals "*[B]ended Iron Formation, Calcrete and Wesselite*" in the KMR Mining Right. A copy of the Section 102 Amendment is attached hereto as Annexure "E".
- 2.1.6 As indicated in the March 2024 Comments, in addition to being the Holder of the KMR Mining Right, KMR owns the following properties –
- 2.1.6.1 Portion 1 and the Remaining Extent of the Farm Devon (which portions fall within Prospecting Right Application Area);
- 2.1.6.2 Portions 2 and 11 of the Farm York A 279; and
- 2.1.6.3 Portion 1 of the farm Telele 312.
- 2.1.7 On 1 July 2024 ("**1 July Email**"), Greenmined via email advised KMR that –
- "following a remote surveying exercise it was decided that the Remaining Extent of the farm Devon No 277 will be excluded from any prospecting and/or bulk sampling as this farm did not show any economically viability or quality of the mineral under application (kieselguhr/diatomite) [our emphasis]."*
- 2.1.8 Greenmined further advised KMR that –

*"[S]hould the prospecting right be successful the Applicant will also request the DMRE to remove the farm prior to the granting and execution of the said right [our emphasis]."*

2.1.9 On page 2 of the Draft EIAR, Greenmined states that "**the farm Devon No 277 will not be prospected as it will be omitted from the application footprint**".

2.1.10 Furthermore, it should be noted that on page 2 of the Draft EIAR, Greenmined states that –

*"An amended EA Application Form will be submitted with the FEIAR & EMPR to the DMRE to incorporated (sic) Farm No 570 (Zaai Plaats) in the application footprint (16 162.1945 ha with Farm No 570 (Zaai Plaats))."*

2.1.11 It therefore appears that in addition to excluding the Farm Devon from the Prospecting Right Application Area, the Applicant intends to submit an amended environmental authorisation application to incorporate the Farm Zaai Plaats.

2.1.12 It is not up to Greenmined to decide when and how it intends to amend the EA Application submitted by the Applicant, and KMR therefore submits that should the Applicant wish to formally exclude the Farm Devon and incorporate the Farm Zaai Plaats into the Prospecting Right Application, both the Prospecting Right Application and EA Application must be withdrawn and a new Prospecting Right application and environmental authorisation application be submitted by the Applicant, which reflect the correct properties applied for by the Applicant.

2.1.13 The Prospecting Right application acceptance letter does not include reference to the Farm Zaai Plaats and therefore the Applicant is not permitted to include reference to this Farm in its EA Application.

2.1.14 Until such time as KMR has sight of a revised acceptance letter from the Regional Manager, KMR must assume that the Prospecting Right Application and EA Application still include the Farm Devon. All the comments and objections raised by KMR in the March 2024 Comments therefore remain relevant.

## 2.2 Suspension Decision in respect of the Prospecting Right Application

2.2.1 On 26 March 2024, and in addition to the submission of the March 2024 Comments, KMR lodged an appeal in terms of Section 96 of the MPRD Act ("**Section 96 Appeal**"), against the administrative decision of the Regional Manager: Northern Cape Region of the DMRE, to accept the Prospecting Right Application submitted by the Applicant ("**Acceptance Decision**"). The Section 96 Appeal by KMR was submitted on, *inter alia*, the basis that the Prospecting Right Application Area directly overlaps with a portion of the KMR Mining Right Area, namely the Farm Devon. A copy of the Section 96 Appeal, without the annexures thereto, is attached as Annexure "F".

2.2.2 In paragraph 8 of the Section 96 Appeal and in accordance with Section 96(2)(a) of the MPRD Act, KMR requested the Director-General of the DMRE ("**DG**") to suspend the Acceptance Decision pending the final adjudication of the Section 96 Appeal ("**Suspension Request**"). KMR submitted the Suspension Request to

prevent the DMRE from inadvertently granting a Prospecting Right to the Applicant, without consideration of the contents of, *inter alia*, the Section 96 Appeal.

- 2.2.3 On 6 September 2024, the DG granted KMR's Suspension Request due to, *inter alia*, the potential prejudice to be suffered by KMR demonstrated in the Section 96 Appeal ("**Suspension Request Grant Decision**"). A copy of the Suspension Request Grant Decision is attached hereto as Annexure "G".
- 2.2.4 As a result of the Suspension Request Grant Decision, the Acceptance Decision in respect of the Prospecting Right Application submitted by the Applicant, is suspended pending the outcome of the Section 96 Appeal.
- 2.2.5 KMR therefore submits that in light of the Suspension Request Grant Decision, the Prospecting Right Application cannot be processed any further until the finalisation of the Section 96 Appeal by KMR.

### 2.3 **KMR's existing operations**

- 2.3.1 In accordance with the KMR Mining Right, KMR -
- 2.3.1.1 is currently conducting opencast Mining Operations on the farm Hotazel 280;
- 2.3.1.2 is engaged in an exploration campaign which seeks to optimise opencast resources and thereby increase the overall life of mine on the farm Kipling 271;
- 2.3.1.3 intends to establish a Waste Dump on the Western side of the farm Devon ("**Waste Dump**"). The Waste Dump is an authorised facility;
- 2.3.1.4 intends to conduct concurrent rehabilitation activities at the Devon pit located on the farm Devon;
- 2.3.1.5 intends to expand mining operations to the orebody on the farm Devon (including underground mining); and
- 2.3.1.6 intends to develop a blasting contractor site on the Eastern side of the farm Devon.
- 2.3.2 In addition to being the Holder of the KMR Mining Right in respect of the KMR Mining Area, KMR is the Holder of a Mining Right for "*Manganese Ore*" ("**York Mining Right**") in respect of the "*Remainder and Portion 1 of the farm Telele No 312, Remainder and Portion 2 of the farm York*" situated in the Magisterial District of Kuruman, Northern Cape Province ("**York Mining Right Area**"). A copy of the York Mining Right is attached hereto as Annexure "H".
- 2.3.3 It is evident from the plan attached to the KMR Mining Right, that the KMR Mining Area and the York Mining Area are situated directly opposite one another. In accordance with both the KMR Mining Right and the York Mining Right, KMR intends to –

- 2.3.3.1 commence with underground Mining Operations which is intended to stretch from the farm Devon to the farm York; and
- 2.3.3.2 migrate the waste collected at the farm York to the farm Devon, once the Waste Dump has been established by KMR.
- 2.3.4 Importantly, the underground mining activities on the farm Devon are authorised in KMR's existing approvals.
- 2.3.5 As indicated in paragraph 2.1.14 above, the Farm Devon has not been formally excluded from the Prospecting Right Application Area, therefore the March 2024 Comments by KMR remains relevant for the purposes of these Comments.

## 2.4 Socio-economic Impacts and Benefits

- 2.4.1 In motivating for the need and desirability of the proposed Prospecting Operations by the Applicant, Greenmined on page 43 of the Draft EIA states that the "proposed labour component of the proposed project will be ±15 to 20 labourers that will be hired from the local communities". Greenmined goes further on page 48 of the Draft EIA to state that "[T]his is of crucial importance in municipal areas with high unemployment rates."
- 2.4.2 Appendix 3 to the EIA Regulations outlines the objective of the environmental impact assessment process contemplated in Regulation 23 of the EIA Regulations. Appendix 3 provides that an EIA must include "the need and desirability of the activity in the context of the development footprint on the approved site as contemplated in the accepted scoping report".
- 2.4.3 As indicated in paragraph 2.2.6 of the March 2024 Comments, the Applicant failed to motivate the need and desirability of the proposed Prospecting Operations in the Draft Scoping Report and has similarly failed to provide such motivation in the Draft EIA, in that the Draft EIA provides no detail regarding how the Applicant intends creating employment opportunities and how the employment of the "±15 to 20 labourers" will in fact benefit the local community.
- 2.4.4 In respect of the "[O]ption of not implementing the activity (No-go Alternative)", on page 65 of the Draft EIA, Greenmined states that –
- "The no-go option will further entail a loss of employment opportunities, as well as socio-economic benefits and growth development opportunities for the employees. Given the high level of unemployment and poverty in the earmarked magisterial districts the loss of such opportunities is considered significant [our emphasis]"*.
- 2.4.5 Without disclosing the anticipated economic, social and growth development opportunities of the project, it is impossible to ascertain whether or not proceeding with the proposed Prospecting Operations is preferred over alternative uses of the properties. The Applicant has therefore simply failed to motivate the need and desirability of the proposed Prospecting Operations, as required in Appendix 3.
- 2.4.6 Considering that the proposed Prospecting Operations and possible future Mining Operations are invasive in nature and will result in environmental impacts, the Draft

EIAR must specify, in detail, that the actual anticipated socio-economic benefits, despite the potential environmental impacts, outweigh other possible land uses. This is particularly so considering KMR's existing rights in respect of the Farm Devon in relation to the Prospecting Right Application Area. This is addressed in further detail below.

## 2.5 Impact of the Applicant's Prospecting Operations on KMR

2.5.1 As indicated in paragraph 2.3.1 2.1.8 above, in accordance with the KMR Mining Right, KMR –

2.5.1.1 intends to establish the Waste Dump on the Western side of the farm Devon;

2.5.1.2 intends to conduct concurrent rehabilitation activities at the Devon pit located on the farm Devon;

2.5.1.3 intends to expand mining operations to the orebody on the farm Devon;

2.5.1.4 intends proceeding with underground mining on the farm Devon; and

2.5.1.5 intends to develop infrastructure in respect of the proposed underground mining activities on the Eastern side of the farm Devon.

2.5.2 On page 55 of the Draft EIAR, Greenmined states that –

*"prospecting will be conducted using a combination of non-invasive and invasive activities. The invasive prospecting will include drilling and trenching that will entail the collection of large samples (±50 000 m<sup>3</sup> per phase) that constitutes bulk sampling [our emphasis]."*

2.5.3 Greenmined goes further on page 3 of the Draft EIAR to state that –

*"Geophysical equipment will be needed for ground electro-magnetic, magnetic and gravity surveys. The bulk sampling trenches/pits will be dug by excavator, upon which the loosened material will be moved by FEL to the crushing/milling plant. The material will be crushed, screened, and sized to product stockpiles from where it will be transported off-site by trucks [our emphasis]."*

2.5.4 It is therefore clear that the proposed Prospecting Operations by the Applicant are invasive in nature and will directly impact on KMR's existing and future operations on the Farm Devon and those operations surrounding the Prospecting Right Application Area.

2.5.5 On page 48 of the Draft EIAR, Greenmined states that –

*"[D]ue to the nature of invasive prospecting activities, the location of drill holes and sampling sites can to a certain extent be moved to avoid structures and/or sensitive areas where possible."*

- 2.5.6 Yet Greenmined fails to provide I&APs with any drill site coordinates in respect of the Prospecting Right Application Area. According to Greenmined on page 209 of the Draft EIAR, “[A]t this stage of the project, it is impossible to define the exact locations of drill sites and bulk sampling trenches/pits or number of drill holes to be dug”.
- 2.5.7 Considering that the Applicant’s EA Application Area currently still relates to, *inter alia*, Portion 1 and the Remaining Extent of the Farm Devon, it is inevitable that the proposed drillholes will be located within the KMR Mining Right Area.
- 2.5.8 KMR, as an I&AP, is entitled to all the information relating to the proposed Prospecting Operations by the Applicant, which includes KMR being provided with the exact co-ordinates at which the Applicant intends on conducting Prospecting Operations.
- 2.5.9 It is submitted that the DMRE cannot make an informed decision on the Applicant’s EA Application or the Prospecting Right Application if the proposed drill site coordinates are not provided to both the DMRE and I&APs. The drill site coordinates cannot be determined subsequent to the granting of the EA Application to the Applicant.
- 2.5.10 It is self-evident that drilling activities cannot be permitted above the areas where KMR will be conducting (authorised) underground mining and / or in close proximity to the Waste Dump and KMR’s surface infrastructure. The health, safety and environmental impacts of any simultaneous operations must be considered by the Applicant in its EA Application.
- 2.5.11 The failure by Greenmined and the Applicant to provide KMR with the necessary information relating to the intended Prospecting Operations by the Applicant, means that KMR cannot assess the potential impacts of the proposed Prospecting Operations and bulk sampling on KMR, both as the Holder of the KMR Mining Right and the owner of Portion 1 and the Remaining Extent of the Farm Devon.
- 2.5.12 It is submitted by KMR that it would be impossible for KMR to conduct its intended and authorised future operations on the Farm Devon and the Farm York in circumstances where the Applicant is conducting drilling and bulk sampling.

## 2.6 Inadequate specialist studies

2.6.1 Regulation 23 of the EIA regulations provides that –

“(1) *The applicant must within 106 days of the acceptance of the scoping report, or, where regulation 21 (2) applies, within 106 days of the date of receipt of the application by the competent authority, submit to the competent authority—*

(a) *an environmental impact assessment report inclusive of any specialist reports, an EMPr, a closure plan in the case of a closure activity and where the application is a mining application, the plans, report and calculations contemplated in the Financial Provisioning Regulations, which must have been subjected to a public participation process of at least 30 days and which reflects the*

*incorporation of comments received, including any comments of the competent authority [our emphasis]*".

- 2.6.2 Regulation 16(b) of the EIA Regulations provides that an EA application must, *inter alia*, be accompanied by "*the report generated by the national web based environmental screening tool [our emphasis]*" ("**Screening Tool**"). In addition to failing to provide our Clients with the Screening Tool, Greenmined and the Applicant have further failed to conduct sufficient specialist studies in support of the EA Application.
- 2.6.3 On page 24 of the Draft EIAR, Greenmined provides a summary of the following specialist studies undertaken for purposes of the EA Application –
- 2.6.3.1 a Heritage Impact Assessment;
- 2.6.3.2 a Palaeontological Impact Assessment; and
- 2.6.3.3 a Wetland/Aquatic and Terrestrial Desktop Sensitivity Assessment.
- 2.6.4 On page 228 of the Draft EIAR, Greenmined lists various mitigation measures to address/minimize the potential impacts associated with the Applicant's proposed Prospecting Operations, which includes the following –
- 2.6.4.1 "*The liberation of dust into the surrounding environment must be effectively controlled using, inter alia, straw, water spraying and/or environmentally friendly dust-allaying agents that contains no PCB's (e.g. DAS products)*";.
- 2.6.4.2 "*Topsoil stockpiles must be protected against losses by water- and wind erosion. Stockpiles must be positioned so as not to be vulnerable to erosion by wind and water. The establishment of plants (grass or indigenous cover crop) on the stockpiles will help to prevent erosion*"; and
- 2.6.4.3 "*No activities may take place, without the necessary authorisation from the DWS, within a horizontal distance of 100 m from any watercourse or estuary or within a 500 m radius from a delineated boundary of any wetland or pan.*"
- 2.6.5 However, it is unclear on which basis Greenmined can confidently include these mitigation measures in the Draft EIAR, where specialist studies which should inform these measures have not been undertaken. i.e. the listing of dust control measures without conducting an Air Quality Impact Assessment.
- 2.6.6 In the absence of the Screening Tool, it is unclear as to which specialist studies are required to be undertaken by the Applicant, however, considering the invasive nature of the proposed Prospecting Operations, KMR submits that at the very least the following specialist studies should have been undertaken by Greenmined –
- 2.6.6.1 a visual impact assessment;
- 2.6.6.2 a noise impact assessment;
- 2.6.6.3 a traffic impact assessment;

- 2.6.6.4 a social impact assessment;
- 2.6.6.5 an air quality impact assessment;
- 2.6.6.6 a blasting and vibration assessment;
- 2.6.6.7 a hydrological assessment;
- 2.6.6.8 a climate change impact assessment; and
- 2.6.6.9 a biodiversity impact assessment.

**2.7 Failure to apply for a water use licence (“WUL”) in terms of the National Water Act, 36 of 1998, as amended (“NWA”)**

- 2.7.1 On page 288 of the Draft EIAR, Greenmined states as follows –

*“The application proposes that sampling will remain >100 m from all active water sources. This will be groundtruthed and confirmed by a hydrologist prior to commencement.*

*However, once the invasive prospecting plan was finalised and should an application in terms of Section 39 of the NWA, 1998 for water uses as defined in section 21 of the Act be needed, the Applicant will enter discussions with the DWS to determine the relevant requirements. [our emphasis].”*

- 2.7.2 As previously indicated in the March 2024 Comments, in paragraph 2(b) of the Acceptance Letter (attached hereto as Annexure “I”), the Regional Manager directs the Applicant to “[L]odge an application in terms of the National Water Act No.36 of 1998 with the Department of Water Affairs with immediate effect”. Despite being directed to apply for a WUL in terms of the NWA “with immediate effect”, it is clear that no WUL application has been submitted by the Applicant.

- 2.7.3 On page 37 of the Draft EIAR, Greenmined states that –

*“[T]he drilling operation does not require water while the bulk sampling activities will necessitate ±10 000 l/day. Water will be used for dust suppression at the prospecting sites and access roads. Potable water will daily be transported to site by the employees, while the process water will be bought from registered local sources (to be identified) in the vicinity of the prospecting activities and transported to site in a water truck(s) [our emphasis].”*

- 2.7.4 The Draft EIAR fails to specify –

- 2.7.4.1 which local “source” the Applicant intends to make use of; and
- 2.7.4.2 if the local source is able to meet the water quality and quantity required by the Applicant.

2.7.5 Furthermore, on page 41 of the Draft EIAR, in providing the context in which the NWA is applicable to the EA Application, Greenmined states that –

*“...the proposed activities are not currently expected to need authorisation in terms of the NWA as sampling sites will remain >100 m from active watercourses.”*

2.7.6 It therefore appears, that Greenmined is of the opinion that because the “*sampling sites will remain >100 m from active watercourses*” that a WUL is not required. Notwithstanding the fact that the “*sampling sites will remain >100 m from active watercourses*”, Section 21 of the NWA prescribes the various water use activities for which a WUL is required, which includes, *inter alia*, “*taking water from a water resource*”.

2.7.7 In this regard, on page 231 of the Draft EIAR, Greenmined states that “[W]ater abstraction may only occur at a registered water source in accordance with the requirements of the authorisation”. It is submitted by KMR that if the “*water source*” referred to by Greenmined includes a “*watercourse, surface water, estuary, or aquifer*”, then a Section 21 water use is triggered and a WUL must be applied for by the Applicant.

### 3 Conclusion

3.1 It is evident from the comments in paragraph 2 that the Applicant’s EA Application and the Draft EIAR are flawed due to a failure to comply with the EIA Regulations and to disclose critical information to I&APs. It is submitted by KMR that the EA Application must be refused by the DMRE.

3.2 As provided in Regulation 44 of the EIA Regulations, these comments must be recorded in the reports and plans to be submitted to the competent authority pursuant to the EA Application.

3.3 All of KMR’s rights are reserved.

Yours faithfully

REFERENCE NUMBER: NC 30/5/1/1/2/13826 PR.**

The draft Environmental Impact Assessment Report (DEIAR) and Environmental Management Programme (EMPR) for the prospecting right submitted by K2022641005 (South Africa) (Pty) Ltd over various properties in the Hay and Kuruman Administrative Districts of the Northern Cape is now available for public comment. Copies thereof can be obtained from Greenmined upon request or downloaded from <https://www.greenmined.com/prospecting-rights/>.

Should you be interested your comments are kindly requested on the DEIAR & EMPR. A thirty-day commenting period, ending on **04 November 2024**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments. Please use **NC 30/5/1/1/2/13826 PR** as reference when commenting.

If we do not receive any comments from you before the end of the commenting period, it will be accepted that you do not have any additional comments/objections regarding the project. We trust that you find it in order and kindly await your comments on this report.

**NOTICE OF PROSPECTING RIGHT APPLICATION**

Notice is hereby given in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA) and the National Environmental Management Act, 1998 (Act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended) that K2022641005 (South Africa) (Pty) Ltd ("Applicant") applied for:

- environmental authorization to prospect for diatomite / diatomaceous earth / kieselguhr on the below listed properties; and
- a prospecting right in terms of Section 16 of the MPRDA.

The proposed prospecting footprint extends over 15 602.0765 ha. The activity will entail non-invasive and invasive prospecting that will include drilling and bulk sampling to retrieve geological data.

The proposed project triggers the following listed activity in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended) and therefore requires an EIA process:

**GNR 517 Listing Notice 1 Activity 20 (as amended):**

- Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice or in Listing Notice 3 of 2014, required to exercise the prospecting right.

**GNR 517 Listing Notice 2 Activity 19 (as amended):**

- The removal and disposal of a mineral, which requires a permission stated in terms of section 20 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice, in Listing Notice 1 of 2014 or Listing Notice 3 of 2014, required to exercise the permission.

**Earmarked farms in the Kuruman District:**

- Remaining Extent of Botha No 313;
- Portion 1 of Botha No 313;
- Remaining Extent of Devon No 277;
- Portion 1 of Devon No 277;

**Earmarked farms in the Hay District:**

- Portion 4 of Bermolli No 583
- Portion 5 of Bermolli No 583
- Remaining Extent of Engelsdraai No 221
- Portion 1 of Engelsdraai No 221
- Remaining Extent of Witdraai No 204
- Portion 1 of Witdraai No 204
- Remaining Extent of Vaalwater No 84
- Portion 1 of Vaalwater No 84
- Portion 2 of Vaalwater No 84

The Draft Scoping Report (DSR) will be available for public comment from 22 February 2024. Copies thereof can be obtained from Greenmined upon request or downloaded from <https://www.greenmined.com/prospecting-rights/>. Interested and Affected Parties (I&AP's) are invited to provide written comments. The closing date for submission of comments is 25 March 2024. Should additional information be required it can be obtained from Greenmined. Please use **NC 30/5/1/1/2/13826 PR** as reference when commenting.

Dear Sir

**COMMENTS BY KUDUMANE MANGANESE RESOURCES PROPRIETARY LIMITED IN RESPECT OF THE DRAFT SCOPING REPORT PREPARED FOR AN APPLICATION FOR AN ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 107 OF 1998, AS AMENDED, K2022641005 (SOUTH AFRICA) PROPRIETARY LIMITED WITH DMRE REFERENCE NC 30/5/1/1/2/13826 PR**

**1 Introduction**

- 1.1 We act for Kudumane Manganese Resources Proprietary Limited ("**KMR**").
- 1.2 We refer to your notice dated 22 February 2024 ("**22 February Notice**"), which enclosed a link containing, *inter alia*, the draft scoping report ("**Draft Scoping Report**") prepared by Greenmined Environmental Proprietary Limited ("**Greenmined**"), the environmental assessment practitioner ("**EAP**") appointed by K2022641005 (South Africa) Proprietary Limited (the "**Applicant**"), for purposes of the Applicant's application for an environmental authorisation ("**EA Application**") in terms of part 3 of Chapter 4 of the Environmental Impact Assessment Regulations, 2014 (GNR 982 of 4 December 2014),

as amended (“**EIA Regulations**”), published in terms of the provisions of the National Environmental Management Act, 107 of 1998, as amended (“**NEMA**”). A copy of the 22 February Notice is attached hereto as Annexure “**A**”.

- 1.3 The EA Application has been submitted by the Applicant in pursuance of a prospecting right (“**Prospecting Right Application**”) with Department of Mineral Resources and Energy (“**DMRE**”) reference number: NC 30/5/1/1/2/13826 PR in accordance with section 16 of the Mineral and Petroleum Resources Development Act, 28 of 2002, as amended (“**MPRD Act**”), inclusive of bulk sampling, for the minerals diatomite, diatomaceous earth and kieselguhr in respect of the following farms –
- 1.3.1 in the Kuruman District –
- 1.3.1.1 Portion 1 and the Remaining Extent of the farm Botha No 313; and
- 1.3.1.2 Portion 1 and the Remaining Extent of farm Devon No 277 (the “**Farm Devon**”);
- 1.3.2 in the Hay District –
- 1.3.2.1 Portions 4 and 5 of the farm Bermolli No 583;
- 1.3.2.2 Portion 1 and the Remaining Extent of farm Engelsdraai No 221;
- 1.3.2.3 Portion 1 and the Remaining Extent of the farm Witdraai No 204; and
- 1.3.2.4 Portions 1, 2 and the Remaining Extent of the farm Vaalwater No 84;
- all situated within the Northern Cape Province (“**Prospecting Right Area**”).
- 1.4 The purpose of this letter is to provide comments, in terms of regulation 43 of the EIA Regulations, by KMR (being a registered interested and affected party (“**I&AP**”)), in the form of an objection and to bring specific issues to the attention of, *inter alia*, Greenmined and the DMRE. The comments and objections submitted by KMR are set out in paragraph 2 below.
- 1.5 On 12 February 2024, Tshifhiwa Nemakhavhani (“**Nemakhavhani**”), a SHERQ Manager employed by KMR, came across the Prospecting Right Application notification (“**Prospecting Right Application Notification**”) advertised alongside the main entrance gate of the Farm Devon. The Prospecting Right Application Notification advised I&APs of the Applicant’s Prospecting Right Application for the minerals diatomite, diatomaceous earth and kieselguhr, in respect of the Prospecting Right Area. A photograph of the Prospecting Right Application Notification taken by Nemakhavhani on 12 February 2024 is attached hereto as Annexure “**B**”.
- 1.6 Subsequent to KMR becoming aware of the Applicant’s Prospecting Right Application and on 13 February 2024, Baratang Mothobi (“**Mothobi**”) of KMR, registered KMR as an I&AP. A copy of the email trail in which Mothobi registered KMR as an I&AP as well as confirmation of registration from the EAP, is attached hereto as Annexure “**C**”.

- 1.7 In terms of the Prospecting Right Application Notification, Greenmined advised that the “[D]raft Scoping Report (DSR) will be available for public comment from 22 February 2024”. On 22 February 2024, KMR received an email (“**22 February Email**”) from the EAP in which to notify KMR that the Draft Scoping Report was now available for comment. A copy of the 22 February Email is attached hereto as Annexure “**D**”.
- 1.8 In light of the fact that KMR was notified in the 22 February Email that the Draft Scoping Report was available for comment from 22 February 2024, KMR’s comments are submitted on 25 March 2024, being within the prescribed 30-day period.
- 1.9 KMR is the *Holder*, as defined in section 1 of the MPRD Act, of a Mining Right (“**KMR Mining Right**”) for “*Manganese Ore*” in respect of, *inter alia*, the Farm Devon 227, situated in the Magisterial District of Kuruman, Northern Cape (“**KMR Mining Right Area**”). The KMR Mining Right commenced on 20 January 2017 and will continue to be in force for a period of 20 years, ending on 19 January 2037. A copy of the KMR Mining Right is attached hereto as Annexure “**E**”.
- 1.10 KMR subsequently applied for and was granted consent in terms of section 102 of the MPRD Act (“**Section 102 Amendment**”) to include the minerals “[B]anded Iron Formation, Calcrete and Wesselite” in the KMR Mining Right. A copy of the Section 102 Amendment is attached hereto as Annexure “**F**”.
- 1.11 In addition to being the Holder of the KMR Mining Right, KMR owns the following properties –
- 1.11.1 Portion 1 and the Remaining Extent of the Farm Devon (which fall within the Applicant’s Prospecting Right Area);
- 1.11.2 Portions 2 and 11 of the Farm York A 279; and
- 1.11.3 Portion 1 of the farm Telele 312.
- 1.12 In accordance with the KMR Mining Right, KMR -
- 1.12.1 is currently conducting opencast Mining Operations on the farm Hotazel 280;
- 1.12.2 is engaged in an exploration campaign which seeks to optimise opencast resources and thereby increase the overall life of mine on the farm Kipling 271;
- 1.12.3 intends to establish a Waste Dump on the Western side of the farm Devon (“**Waste Dump**”). The Waste Dump is an authorised facility;
- 1.12.4 intends to conduct concurrent rehabilitation activities at the Devon pit located on the farm Devon;
- 1.12.5 intends to expand mining operations to the orebody on the farm Devon (including underground mining); and
- 1.12.6 intends to develop a blasting contractor site on the Eastern side of the farm Devon.

- 1.13 In addition to being the Holder of the KMR Mining Right in respect of the KMR Mining Area, KMR is the Holder of a Mining Right for “*Manganese Ore*” (“**York Mining Right**”) in respect of the “*Remainder and Portion 1 of the farm Telele No 312, Remainder and Portion 2 of the farm York*” situated in the Magisterial District of Kuruman, Northern Cape Province (“**York Mining Right Area**”). A copy of the York Mining Right is attached hereto as Annexure “**G**”.
- 1.14 It is evident from the plan attached to the KMR Mining Right, that the KMR Mining Area and the York Mining Area are situated directly opposite one another. In accordance with both the KMR Mining Right and the York Mining Right, KMR intends to –
- 1.14.1 commence with underground Mining Operations which is intended to stretch from the farm Devon to the farm York; and
- 1.14.2 migrate the waste collected at the farm York to the farm Devon, once the Waste Dump has been established by KMR.
- 1.15 Importantly, the underground mining activities on the farm Devon are authorised in KMR’s existing approvals.

## 2 **Comments and Objections in respect of the Draft Scoping Report**

### 2.1 **Premature submission of the EA Application**

- 2.1.1 According to page 134 of the Applicant’s Draft Scoping Report –

*“[T]he environmental authorization- and prospecting right application in terms of the NEMA: EIA Regulations, 2014 (as amended) and the MPRDA, 2002 respectively were submitted to the DMRE on 12 October 2023 and accepted on 13 December 2023 [our emphasis].”*

- 2.1.2 It therefore appears that the Applicant submitted the Prospecting Right Application and the EA Application simultaneously on 12 October 2023.

- 2.1.3 Regulation 16 (2)(a) of the EIA Regulations prescribes that-

*“[A]n application for an environmental authorisation may –*

*(a) where applicable, only be submitted after the acceptance of an application for any right, permission, permit or consent in terms of the Mineral and Petroleum Resources Development Act, 2002 [our emphasis].”*

- 2.1.4 The EIA Regulations clearly provide that the Applicant could only submit its EA Application after the acceptance of the Prospecting Right Application by the Regional Manager. Yet, it is clear from the Prospecting Right Application acceptance letter (“**Acceptance Letter**”), that the Regional Manager only accepted the Applicant’s Prospecting Right Application on 13 December 2023, being some 2 months after the EA Application was submitted by the Applicant. A copy of the Acceptance Letter dated 13 December 2023, is attached hereto as Annexure “**H**”.

2.1.5 In light of the above, it is clear that the Applicant failed to comply with the provisions of regulation 16 of the EIA Regulations. Accordingly, KMR is of the view that the EA Application by the Applicant must be withdrawn and resubmitted by following the appropriate procedure provided for in the EIA Regulations.

## 2.2 Socio-economic Impacts and Benefits

2.2.1 In motivating for the need and desirability of the proposed Prospecting Operations by the Applicant, Greenmined on page 35 of the Draft Scoping Report states that the *“proposed labour component of the proposed project will be ±15 to 20 labourers that will be hired from the local communities.”* Greenmined goes further on page 39 of the Draft Scoping Report to state that *“[T]his is of crucial importance in municipal areas with very high unemployment rates.”*

2.2.2 Appendix 2 to the EIA Regulations outlines the objective of the scoping process contemplated in regulation 21 of the EIA Regulations. Appendix 2 provides that a Scoping Report must *“motivate the need and desirability of the proposed activity, including the need and desirability of the activity in the context of the preferred location”*.

2.2.3 Yet, the Draft Scoping Report provides no detail regarding how the Applicant intends on creating employment opportunities and how the employment of the *“±15 to 20 labourers”* will in fact benefit the local community.

2.2.4 In respect of the *“[O]ption of not implementing the activity (No-go Alternative)”*, on page 46 of the Draft Scoping Report, Greenmined states that –

*“If the no-go alternative is implemented the land in question cannot be prospected for kieselguhr, which may result in a loss of an economically viable natural resource that can be used in a variety of industries. The no-go option will further entail a loss of employment opportunities, as well as socio-economic benefits and growth development opportunities. Given the high level of unemployment and poverty in the Hay and Kuruman Magisterial Districts the loss of such opportunities is considered significant [our emphasis].”*

2.2.5 Without disclosing the anticipated economic, social and growth development opportunities of the project, it impossible to ascertain whether or not proceeding with the proposed Prospecting Operations is preferred over alternative uses of the properties.

2.2.6 In the absence of the aforementioned details, the Applicant has simply failed to motivate the need and desirability of the proposed Prospecting Operations, as required in Appendix 2.

2.2.7 Considering that the proposed Prospecting Operations and possible future Mining Operations are invasive in nature and will result in significant environmental impacts, the Draft Scoping Report must specify, in detail, that the actual anticipated socio-economic benefits, despite the potential environmental impacts, outweigh other possible land uses. This is particularly so considering KMR’s existing rights in respect of the Farm Devon. This is addressed in further detail below.

## 2.3 Impact of the Applicant's Prospecting Operations on KMR

2.3.1 As indicated in paragraph 11.12 above, in accordance with the KMR Mining Right, KMR –

2.3.1.1 intends to establish the Waste Dump on the Western side of the farm Devon;

2.3.1.2 intends to conduct concurrent rehabilitation activities at the Devon pit located on the farm Devon;

2.3.1.3 intends to expand mining operations to the orebody on the farm Devon;

2.3.1.4 intends proceeding with underground mining on the farm Devon; and

2.3.1.5 intends to develop infrastructure in respect of the proposed underground mining activities on the Eastern side of the farm Devon.

2.3.2 On page 3 of the Draft Scoping Report, Greenmined states that –

*“[T]he proposed activity entails prospecting with bulk sampling. Prospecting will be conducted using a combination of non-invasive and invasive activities. The invasive prospecting will include drilling and trenching. The only other alternative would be to prospect the area without bulk sampling [our emphasis].”*

2.3.3 Greenmined goes further on page 4 of the Draft Scoping Report to state that –

*“[T]he Applicant proposes to use air drills for RAB (rotary air blast) drilling and reverse circulation drilling and diamond drill rigs will be used for core drilling. Geophysical equipment will be needed for ground electro-magnetic, magnetic and gravity surveys.*

*The bulk sampling trenches/pits will be dug by excavator, upon which the loosened material will be moved by FEL to the crushing/milling plant. The material will be crushed, screened, and sized to stockpiles from where it will be transported off-site by trucks [our emphasis].”*

2.3.4 It is therefore clear that the proposed Prospecting Operations by the Applicant will directly impact on KMR's existing and future operations on the Farm Devon.

2.3.5 On page 40 of the Draft Scoping Report, Greenmined states that –

*“[D]ue to the nature of invasive prospecting activities, the location of drill holes and sampling sites can to a certain extent be moved to avoid structures and/or sensitive areas where possible.”*

2.3.6 Yet, Greenmined fails to provide I&APs with any drill site coordinates in respect of the Prospecting Right Area. Considering that the Applicant's EA Application Area relates to, *inter alia*, Portion 1 and the Remaining Extent of the Farm Devon, it is

## 2.3 Impact of the Applicant's Prospecting Operations on KMR

2.3.1 As indicated in paragraph 11.12 above, in accordance with the KMR Mining Right, KMR –

2.3.1.1 intends to establish the Waste Dump on the Western side of the farm Devon;

2.3.1.2 intends to conduct concurrent rehabilitation activities at the Devon pit located on the farm Devon;

2.3.1.3 intends to expand mining operations to the orebody on the farm Devon;

2.3.1.4 intends proceeding with underground mining on the farm Devon; and

2.3.1.5 intends to develop infrastructure in respect of the proposed underground mining activities on the Eastern side of the farm Devon.

2.3.2 On page 3 of the Draft Scoping Report, Greenmined states that –

*“[T]he proposed activity entails prospecting with bulk sampling. Prospecting will be conducted using a combination of non-invasive and invasive activities. The invasive prospecting will include drilling and trenching. The only other alternative would be to prospect the area without bulk sampling [our emphasis].”*

2.3.3 Greenmined goes further on page 4 of the Draft Scoping Report to state that –

*“[T]he Applicant proposes to use air drills for RAB (rotary air blast) drilling and reverse circulation drilling and diamond drill rigs will be used for core drilling. Geophysical equipment will be needed for ground electro-magnetic, magnetic and gravity surveys.*

*The bulk sampling trenches/pits will be dug by excavator, upon which the loosened material will be moved by FEL to the crushing/milling plant. The material will be crushed, screened, and sized to stockpiles from where it will be transported off-site by trucks [our emphasis].”*

2.3.4 It is therefore clear that the proposed Prospecting Operations by the Applicant will directly impact on KMR's existing and future operations on the Farm Devon.

2.3.5 On page 40 of the Draft Scoping Report, Greenmined states that –

*“[D]ue to the nature of invasive prospecting activities, the location of drill holes and sampling sites can to a certain extent be moved to avoid structures and/or sensitive areas where possible.”*

2.3.6 Yet, Greenmined fails to provide I&APs with any drill site coordinates in respect of the Prospecting Right Area. Considering that the Applicant's EA Application Area relates to, *inter alia*, Portion 1 and the Remaining Extent of the Farm Devon, it is

inevitable that the proposed drillholes will be located within the KMR Mining Right Area.

- 2.3.7 In fact, on page 131 of the Draft Scoping Report, Greenmined states that the “*preferred drilling, trenching and pitting locations will be determined following the outcome of phases 1 & 2 and the mapping of geological survey data.*” It is submitted that the DMRE cannot make an informed decision on the Applicant’s EA Application or the Prospecting Right Application if the proposed drill site coordinates are not provided to both the DMRE and I&APs. The drill site coordinates cannot be determined subsequent to the granting of the EA Application to the Applicant.
- 2.3.8 KMR, as an I&AP, is entitled to all the information relating to the proposed Prospecting Operations by the Applicant, which includes KMR being provided with the exact co-ordinates at which the Applicant intends on conducting Prospecting Operations.
- 2.3.9 It is self-evident that drilling activities cannot be permitted above the areas where KMR will be conducting (authorised) underground mining and / or in close proximity to the Waste Dump and KMR’s surface infrastructure. The health, safety and environmental impacts of any simultaneous operations must be considered by the Applicant in its EA Application. It appears that the Applicant has no intention of assessing these impacts.
- 2.3.10 The failure by Greenmined and the Applicant to provide KMR with the necessary information relating to the intended prospecting activities by the Applicant, means that KMR cannot assess the potential impacts of the proposed Prospecting Operations and bulk sampling on KMR, both as the Holder of the KMR Mining Right and the owner of Portion 1 and the Remaining Extent of the Farm Devon.
- 2.3.11 It is submitted by KMR that it would be impossible for KMR to conduct its intended future operations on the Farm Devon and the farm York in circumstances where the Applicant is conducting drilling and bulk sampling.

2.4 **Failure to apply for a Waste Management Licence in terms of the National Environmental Management: Waste Act, 29 of 2008, as amended (“NEM:WA”)**

- 2.4.1 On the cover page (page 13) of the Draft Scoping Report, Greenmined states that the EA Application is submitted by the Applicant in terms of NEMA and in terms of the provisions of NEM:WA. It is clear that Greenmined intends to submit the EA Application on behalf of the Applicant as an integrated environmental authorisation application.
- 2.4.2 In terms of section 24L (1) of NEMA –

*“[A] competent authority empowered under Chapter 5 to issue an environmental authorisation and any other authority empowered under a specific environmental management Act may agree to issue an integrated environmental authorisation [our emphasis].”*

- 2.4.3 Yet, despite referring to an integrated environmental authorisation on the cover page of the Draft Scoping Report, no further references are made to an integrated environmental authorisation application by Greenmined.
- 2.4.4 In fact, on page 20 to 21 of the Draft Scoping Report in highlighting the “[L]isted and specified activities triggered by the proposed activities”, Greenmined fails to refer to which activities listed in the List of waste management activities that have, or are likely to have, a detrimental effect on the environment (GN 921 of 29 November 2013) (“**List of Waste Management Activities**”), will be triggered as a result of the proposed Prospecting Operations and bulk sampling by the Applicant.
- 2.4.5 On page 26 of the Draft Scoping Report, Greenmined states that -
- “any available topsoil in the earmarked areas will be stripped and stockpiled for the duration of the activities. Topsoil removal will be restricted to the exact footprint of each prospecting site during the invasive phases of the activity. The topsoil will be stockpiled at a designated signposted area to be replaced during the rehabilitation of the area [our emphasis].”*
- 2.4.6 Further on page 45 of the Draft Scoping Report, Greenmined states that –
- “[T]he bulk sampling trenches/pits will be dug by excavator, upon which the loosened material will be moved by FEL to the crushing/milling plant. The material will be crushed, screened, and sized to stockpiles from where it will be transported off-site by trucks [our emphasis].”*
- 2.4.7 In the context of NEM:WA, a residue stockpile is defined as “any debris, discard, tailings, slimes, screening, slurry, waste rock, foundry sand, beneficiation plant waste, ash or any other product derived from or incidental to a mining operation and which is stockpiled, stored or accumulated for potential re-use, or which is disposed of, by the holder of a mining right, mining permit, production right or an old order right [our emphasis]”.
- 2.4.8 Considering the broad definition of residue stockpile, it is clear that the stockpiles referred to in the Draft Scoping Report will trigger the listed activity relating to the establishment of a residue stockpile referenced in NEM:WA and its relevant listing notice. KMR therefore submits that Greenmined and the Applicant are required to apply for a waste management licence and are required to do so simultaneously with the EA Application.
- 2.5 **Failure to apply for a water use licence (“WUL”) in terms of the National Water Act, 36 of 1998, as amended (“NWA”)**
- 2.5.1 On page 106 of the Draft Scoping Report, Greenmined states as follows –

*“[A] hydrologist will be contracted to undertake a desktop Freshwater Assessment (wetland and aquatic) of the study area during the EIA process. The scope of work includes a desktop based investigation of the watercourses and wetlands within the study area supported by a site verification visit...The report will be compiled in accordance with the requirements in the latest NEMA Minimum Requirements and Protocol for*

*Specialist Aquatic Biodiversity Impact Assessment as contained in the “Procedures to be followed for the assessment and minimum criteria for reporting of identified environmental themes of Section 45 (a) and (h) of the National Environmental Management Act, 1998, when applying for Environmental Authorization”, contained in Government Gazette No. 43855 (30 October 2020) and the requirements of the Department of Water & Sanitation for Water Use Licensing, as outlined in the ‘Regulations Regarding the Procedural Requirements for Water Use License Applications and Appeals’ contained in the Government Gazette No. 40713 of 24 March 2017 [our emphasis].”*

2.5.2 It is further stated on page 124 of the Draft Scoping Report that –

*“[S]hould a water use authorisation be applicable to the project, the PR Holder must always adhere to the conditions thereof.”*

2.5.3 Significantly, in paragraph 2(b) of the Acceptance Letter (attached hereto as Annexure “H”), the Regional Manager directs the Applicant to “[L]odge an application in terms of the National Water Act No.36 of 1998 with the Department of Water Affairs with immediate effect”. Despite being directed to apply for a WUL in terms of the NWA “with immediate effect”, KMR has not been notified of any such WUL application.

2.5.4 On page 30 of the Draft Scoping Report states that –

*“[T]he drilling operation requires  $\pm 1\ 000$  l of water day while the bulk sampling activities will necessitate  $\pm 10\ 000$  l/day. Water will also be used for dust suppression at the prospecting sites and access roads. Potable water will daily be transported to site by the employees, while the process water will be bought from a local sources (to be identified) in the vicinity of the prospecting activities and transported to site in a water truck(s) [our emphasis].”*

2.5.5 The Draft Scoping Report fails to specify –

2.5.5.1 which local “source” the Applicant intends to make use of; and

2.5.5.2 if the local source is able to meet the water quality and quantity required by the Applicant.

### 3 Conclusion

3.1 It is evident from the comments in paragraph **Error! Reference source not found.** that the Applicant’s EA Application and the Draft Scoping Report are flawed due to a failure to comply with the EIA Regulations and to disclose critical information to I&APs. It is submitted by KMR that the Draft Scoping Report should be rejected by the DMRE.

3.2 As provided in regulation 44 of the EIA Regulations, these comments must be recorded in the reports and plans to be submitted to the competent authority pursuant to the EA Application.

- 3.3 If the Draft Scoping Report is accepted by the DMRE (which decision would, in KMR's view, be unlawful), KMR reserves the right to challenge such decision and to comment on any environmental impact assessment report and environmental management programme relating to the EA Application.

Yours faithfully

**AND WHEREAS** The Holder has applied for a mining right in terms of section 22 of the Act,

**AND WHEREAS** The **Director-General: Mineral Resources** of the Department of Mineral Resources has by virtue of powers delegated to him, granted to the Holder, a mining right in terms of section 23(1) of the Act.

**NOW THEREFORE THE MINISTER GRANTS A MINING RIGHT SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:**

## Definitions

In this mining right, the following words and expressions shall have the meanings assigned to them:

'**Act**' means the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) and includes the Regulations, guidelines, circulars, directives and orders made in terms of that Act;

'**Effective date**' means **20<sup>th</sup> day of January** in the year **2017** (being the date on which the environmental management programme is approved in terms of section 39(4) of the Act);

'**Environmental Management Programme**' is as defined in the Act and includes any other Environmental Management Programme approved in terms of the previous mining legislation;

'**Financial year**' means a complete financial year of the Holder which, at the time of the granting of this mining right, commences on **31<sup>st</sup> day of March** in the year **2016**; and ends on **01<sup>st</sup> day of April** in the year **2017**;

'**Holder**' is as defined in the Act, and specifically in relation to this right, it means **Kudumane Managenese Resources (Pty) Ltd**, Registration No/Identification No **200802556807**;

'**Mineral**' is as defined in the Act, and specifically in relation to this right means **Manganese Ore**;

'**Mining Area**' is as defined in the Act and includes any additional area of environmental liability as may be reflected on the Environmental Management Programme relating to this right;

'**Mining right**' is as defined in the Act and includes all the Annexures to it, agreements and inclusions by reference;

'**Mining Work Programme**' is as defined in the Act and as reflected in the attached **Annexure A** to this mining right;

'**Minister**' means the Minister of Mineral Resources and includes the successors in title, the assignee or any person duly authorised to act in the Minister's place and stead;

'**Regional Manager**' is as defined in the Act and specifically in relation to this right means the Regional Manager for the **Northern Cape** Region of the Department of Mineral Resources; and

'**Social and Labour Plan**', is as contemplated in regulation 46 of the Regulations to the Act and is as reflected in the attached **Annexure B** to this mining right.

## 1. Description of the Mining Area

The Mining Area shall comprise the following:

Certain: **farm Kipling No.271, A Portion of farm Hotazel No.280 and farm Devon No.277**

Situated: **in the Magisterial/Administrative District of Kuruman**

Measuring: **5856.8 hectares in extent.**

(In the case of various farms being involved, a list can be attached and referred to as **Annexure** );

Which Mining Area is described in detail on the attached Diagram/plan marked **Annexure**

## 2. Granting of Mining Right

Without detracting from the provisions of sections 5 and 25 of the Act, the Minister grants to the Holder the sole and exclusive right to mine, and recover the mineral/s in, on and under the mining area for the Holder's own benefit and account, and to deal with, remove and sell or otherwise dispose of the mineral/s, subject to the terms and conditions of this mining right, the provisions of the Act and any other relevant law in force for the duration of this right.

## 3. Commencement, Duration and Renewal

- 3.1. This mining right shall commence on **20 January 2017** and, unless cancelled or suspended in terms of this clause 13 of this right and or section 47 of the Act, will continue to be in force for a period of **20 (twenty)** years ending on **19 January 2037**.
- 3.2. The Holder must commence with the mining operations within a year from the date on which the mining right becomes effective in terms of section 23 (5) of the Act, or any later date as may, upon a written request by the Holder, be authorised in writing by the Minister in terms of the Act, failing which this right may be cancelled or suspended.
- 3.3. Any application for renewal must be submitted to the Regional Manger not later than 60 working days prior to the date of expiry of this right.

## 4. Amendments, Variation and Abandonment

- 4.1. The terms of this right (including by extension of the area covered by it or by the addition of minerals or a share or shares or seams, mineralized bodies, or strata, which are not at the time the subject thereof) may not be amended or varied without the written consent of the Minister.
- 4.2. The Holder shall be entitled to abandon or relinquish the right or the area covered by the right entirely or in part. Upon abandonment or relinquishment of the mining area or any portion thereof, the Holder must:

- 4.2.1. Furnish the Regional Manager with all prospecting and /or mining results and/or information, as well as the general evaluation of the geological, geophysical and borehole data in respect of such abandoned area in so far as it applies to the mineral or any other mineral/s obtained in respect of this right and,
- 4.2.2. Apply for a closure certificate in terms of section 43 (3) of the Act.
- 4.3 With effect from the date the Holder has abandoned or relinquished a portion or portions of the mining area, and subject to section 43 of the Act, the Minister is entitled to grant any right, permit, or permission referred to in the Act in, on, or under the portion/s, so abandoned or relinquished, to any person/s.

## 5. Payment of Royalties

- 5.1. The Holder shall as contemplated in section 25 (2) (g) pay to the State throughout the duration of this mining right, royalties payable in terms of any Act or Amendment to an Act of Parliament implemented.

## 6. Payment of Interest

If mining fees, any fees, any levy, royalties or consideration referred to in clause 5 are not paid punctually, the Holder shall be in mora and shall pay interest thereon at the rate prescribed in terms of section 80 of the Public Finance Management Act, 1999(Act 1 of 1999) reckoned from the date on which payment is due and payable, to the date of actual payment.

## 7. Restrictions and Obligations Imposed on the Holder

- 7.1 The Holder is entitled to the rights referred to in section 5(2), (3) and section 25 of the Act, and such other rights as may be contained in this mining right or such other right as may be granted to, acquired by or conferred upon the Holder by any other applicable law.
- 7.2 Mining operations in the mining area must be conducted in accordance with the Mining Work Programme and any amendment to such Mining Work Programme and an approved Environmental Management Plan.
- 7.3 The Holder shall not trespass or enter into any homestead, house or its curtilage nor interfere with or prejudice the interests of the occupiers and/or owners of the surface of the Mining Area except to the extent to which such interference or prejudice is necessary for the purposes of enabling the Holder to properly exercise the Holder's rights under this mining right.

## 8. Conditions on disposal of Minerals and/ or Products Derived from Mining

It is a condition of the granting of this mining right that the Holder shall dispose of all minerals and/ or products derived from the exploitation of the mineral at competitive market prices which shall mean in all cases, non-discriminatory prices or non-export parity prices. If the minerals are sold to any entity, which is an affiliate or non-affiliated agent or subsidiary of the Holder, or is directly or indirectly controlled by the Holder, such purchaser must unconditionally undertake in writing to dispose of the minerals and any products produced from the minerals, at competitive market prices.

## 9. Mortgage, Cession, Transfer, Alienation

9.1 This mining right, a shareholding, an equity, an interest or participation in the right or joint venture, or a controlling interest in a company, close corporation or joint venture, may not be encumbered, ceded, transferred, mortgaged, let, sublet, assigned, alienated or otherwise disposed of without the written consent of the Minister, except in the case of a change of controlling interest in listed companies.

9.2 Any transfer, encumbrance, cession, letting, sub-letting, assignment, alienation or disposal of this right or any interest therein or any share or any interest in the Holder, without the consent of the Minister referred to in section 11(1) is of no force, no effect and is invalid.

## 10. Protection of Boreholes, Shafts, Edits and Openings.

All boreholes, shafts, edits, excavations, and openings sunk or made, by the Holder during the currency of this mining right shall be sealed, closed, fenced, made safe by the Holder in accordance with the approved Environmental Management Programme, the Mine Health and Safety Act, 1996 or any other applicable laws and Regulations.

## 11. Holder's liability for payment of Compensation for Loss or Damage

11.1. Subject to section 43 of the Act, the Holder shall, during the tenure of this right while carrying out the mining operations under this right, take all such necessary and reasonable steps to adequately safeguard and protect the environment, the mining area and any person/s using or entitled to use the surface of the mining area from any possible damage or injury associated with any activities on the mining area.

- 11.2. Should the holder fail to take reasonable steps referred to above, and to the extent that there is legal liability, the holder shall compensate such person or persons for any damage or losses, including but not limited to damage to the surface, to any crops or improvements, which such person or persons may suffer as a result of, arising from or in connection with the exercise of his/her rights under this mining right or of any act or omission in connection therewith.

## 12. Inspection of Mining Area

The Minister and/or any person duly authorised thereto in writing by the Minister shall be entitled to inspect the mining area, the Holder's mining operations and the execution of the approved Environmental Management Programme on the Mining Area as provided for in the Act, and any instruction conveyed in writing by the Minister to the Holder requiring the proper performance by the Holder of the Holder's obligations under this mining right shall be put into effect by the Holder in terms of the Act.

## 13. Cancellation or Suspension

- 13.1 Subject to section 47 of the Act, this mining right may be cancelled or suspended if the Holder:
- 13.1.1 Submits inaccurate, incorrect and or misleading information in connection with any matter required to be submitted under the Act;
  - 13.1.2 Fails to honour or carry out any agreement, arrangement, or undertaking, including the undertaking made by the Holder in terms of the Broad Based Socio Economic Empowerment Charter and Social and Labour plan, on which the Minister relied for the granting of this right;
  - 13.1.3 Breaches any material term and condition of this mining right;
  - 13.1.4 Conducts mining operations in contravention of the provisions of the Act;
  - 13.1.5 Contravenes the requirement of the approved Environmental Management Programme; or
  - 13.1.6 Contravenes any provisions of this Act in any other manner.
- 13.2 Before the Minister cancels or suspends this right, the Minister shall:
- 13.2.1 Give written notice to the Holder indicating the intention to suspend or cancel this right;
  - 13.2.2 Give reason/s why the Minister is considering the suspension or cancellation of this right;
  - 13.2.3 Give the Holder 30 days to show reasons why the right should not be suspended or cancelled;
  - 13.2.4 Notify, the mortgagee [if any], of the intention to suspend or cancel this right; and
  - 13.2.5 Direct the Holder, where it is possible to remedy any contravention, breach or failure, to comply or to take such specified measures to remedy any contravention, breach or failure to comply.
- 13.3 If the Holder does not take the measures as specified by the Minister to remedy a contravention, breach or failure, the Minister may cancel or suspend this right after considering representations made by the Holder in terms of clause 13.2.3.

## 14. Records and Returns

- 14.1. The Holder shall maintain all such books, plans and records in regard to mining on the Mining Area as may be required by the Act and shall furnish to the office of the Regional Manager such reports and documents as may be relevant under this right.
- 14.2. The Holder shall furnish to the Regional Manager all such monthly returns contemplated in section 28 (2) A of the Act not later than the 15<sup>th</sup> day of the month following the month in respect of which it was reported.
- 14.3. The Holder shall furthermore at the end of each year following commencement of this mining right, inform the Regional Manager in writing of any new developments and of the future mining activities planned in connection with the exploitation/mining of the minerals on the Mining Area.

**15. Minister's liability for Compensation**

The Minister shall not at any time be liable or responsible for the payment of compensation of whatever nature to the Holder, the Holder's successors-in-title or assignee, or any person whomsoever as a result of the granting of this right.

**16. Compliance with the Laws of the Republic**

The granting of this Right, does not exempt the Holder and its successors in title and/or assigns from complying with the relevant provisions of the Mine Health and Safety Act, (Act No.29 of 1996) and any other law in force in the Republic of South Africa.

**17. Provisions relating to section 2(d) and (f) of the Act**

In the furthering of the objects of this Act, the Holder is bound by the provisions of an agreement or arrangement dated **05 August 2009** entered into between the Holder/ empowering partner and **Northern Cape Manganese Company (Pty) Ltd and Dirleton Minerals and Energy (Pty) Ltd** (the empowerment partner) which agreement or arrangement was taken into consideration for purposes of compliance with the requirements of the Act and or Broad Based Economic Empowerment Charter developed in terms of the Act and such agreement shall form part of this right.

**18. Social and Labour Plan**

- 18.1 The holder must annually, not later than three months before the end of its financial year, submit detailed implementation plan to give effect to Regulation 46(e)(i),(ii)and (iii) in line with the Social and Labour Plan.

- 18.2 The holder must annually, not later than three months after finalisation of its audited annual report, submit a detailed report on the implementation of the previous year's social and labour plan.

**19. Severability**

Notwithstanding anything to the contrary, any provision of this mining right which is contrary to any provision of the Act or which is otherwise ultra vires, null and void, voidable, or unenforceable, shall be severable from the rest of this right, such rest thus being and remaining of full force, effect and enforceable.

**20. Domicilia citandi et executandi**

- 20.1. The parties hereto choose the following addresses as their *domicilia citandi et executandi* and for all purposes arising from this mining right, in particular for the purposes of serving of any notice in terms of this mining right, and any notice properly addressed to the under mentioned postal addresses of the parties shall be deemed to have been received by the addressee within 14 days if given in writing and posted by prepaid registered post addressed to the addressee at the relevant postal address:

## mineral resources & energy

Department:  
Minerals Resources and Energy  
REPUBLIC OF SOUTH AFRICA

**CONSENT IN TERMS OF SECTION 102 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT 28 OF 2002) AS AMENDED: (HEREINFTER REFERRED TO AS "the Act"): TO AMEND DEFINITION CLAUSE IN THE MINING RIGHT AND THE APPROVED MINING WORK PROGRAMME BY ADDING BENDED IRON FORMATION, CALCRETE AND Wesselite: KUDUMANE MANGANESE RESOURCES (PTY) LTD.**

1. **WHEREAS** Kudumane Manganese Resources (Pty) Ltd is the holder of a mining right issued on the **20th January 2017** to mine Manganese Ore in respect of Farm Klipling No.271, a Portion of Farm Hotazel No.280 and Farm Devon No.277, measuring 5856.8 hectares in extent, situated within the Administrative District of Kuruman.
2. **WHEREAS** the holder has applied for consent to amend definition Clause in the Mining Right and the approved Mining Work Programme by adding Bended Iron Formation, Calcrete and Wesselite, in terms of section 102 of the said Act.
3. **WHEREAS** the power to grant consent for the amendment of the Mining Right and the Mining Work Programme in terms of section 102 of the said Act, has been delegated to me by the Minister of Mineral Resources and Energy in terms of section 103 of the said Act.

4. **NOW THEREFORE I, JACOB MBELE**, in my capacity as the Director-General: Department of Mineral Resources and Energy, by virtue of the powers delegated to me, hereby grant consent for the amendment of definition clause in the mining right and the approved Mining Work Programme by adding Banded Iron Formation, Calcrete and Wesselite, in terms of section 102 of the Act.

**Dear Sir/Madam**

**APPLICATION FOR MINISTERIAL CONSENT IN TERMS OF SECTION 102 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT 28 OF 2002) AS AMENDED (HEREINAFTER REFERRED TO AS "the Act"): TO AMEND THE MINING RIGHT AND MINING WORK PROGRAMME: FARM KLIPLING NO.271, A PORTION OF FARM HOTAZEL NO.280 AND FARM DEVON NO.277: ADMINISTRATIVE DISTRICT OF KURUMAN**

1. This serves to inform you that your application in terms of section 102 of the Act for the amendment of definition clause in the mining right and the Mining Work Programme approved on the 20th January 2017 by, adding Bended Iron Formation, Calcrete and Wesselite has been granted.

2. The Regional Office will arrange for the execution of Notarial Deed of amendment/ Variation. The date of execution will be communicated within 30 days from the date of this letter.
3. In light of the afore-going, you are requested to:
  - a. Further that in terms of section 25(2)(a), the signed/executed amended mining right must be lodged for registration at the Mineral and Petroleum Titles Registration Office, Pretoria, within 60 days from the date of execution of the relevant mining right.
  - b. Ensure that all outstanding matters regarding your application are finalized and that the relevant documents are submitted to the Regional Office no later than 30 days from the date of this letter.
  - c. Make arrangements with your public notary, authorized representative(s) of your company and a witness to be present and attend the signing of the mining right amendment once the aforesaid outstanding matters are verified and finalized.

Yours Faithfully

I, the undersigned,

**NOMADLOZI XOLISILE MASHININI**

do hereby make oath and state that –

- 1.1 I am an adult female employed as the General Manager: Legal, Compliance & Company Secretary of Kudumane Manganese Resources Proprietary Limited ("**Kudumane**"), the Appellant in this matter, with offices situated at Suite 201 D 11 Crescent Drive, Melrose Arch, Melrose North, Gauteng.
- 1.2 I am duly authorised to depose to this affidavit on behalf of Kudumane. The allegations herein are, save where the contrary appears from the context, within my personal knowledge and are, to the best of my knowledge and belief, both true and correct.
- 1.3 Where I make legal submissions in this affidavit, I do so on the advice of the Appellant's legal representatives, being Malan Scholes Incorporated ("**Malan Scholes**"), which advice I accept as correct.
- 1.4 The Appellant has appointed the address of Malan Scholes, First Floor, One-On-Jameson, 1 Jameson Avenue, Cnr Glenhove Road, Melrose Estate, Johannesburg, as the address at which it will accept notice and service of all documents in respect of this Appeal. Furthermore, electronic communication is to be sent to Hulme Scholes and Megan Jacobs at Malan Scholes at [HScholes@malanscholes.co.za](mailto:HScholes@malanscholes.co.za) and [MJacobs@malanscholes.co.za](mailto:MJacobs@malanscholes.co.za), respectively.

## 2 THE DECISION BEING APPEALED AGAINST

As will be apparent from the content of this appeal and its annexures ("**Appeal Affidavit**"), the Appellant is appealing against the administrative decision of the Regional Manager: Northern Cape Region ("**Regional Manager**") of the Department of Mineral Resources and Energy ("**DMRE**"), to accept an application ("**Acceptance Decision**") for a Prospecting Right lodged by K2022641005 (South Africa) Proprietary Limited ("**K2022641005**") with DMRE reference number NC 30/5/1/1/2/13826 PR ("**K2022641005 Prospecting Right Application**"), in accordance with the provisions of Section 16 of the MPRD Act, for the minerals "*Diatomite, Kieselguhr and Diatomaceous Earth*", in respect of "*the remaining extent and portion 1 of farm Botha 312, the remaining extent and portion 1 of farm Devon 277 [collectively, "**Farm Devon**"], portions 4 and 5 of farm Bermolli 583, the remaining extent and portion 1 of farm Engelsdraai 221, the remaining extent and portion 1 of farm Witdraai 204 and the remaining extent portions 1 and 2 of farm Vaalwater 84: within the administrative district of Hay and Kuruman*", in the Northern Cape province ("**K2022641005 Prospecting Application Area**"). A copy of the letter recording the Acceptance Decision is attached as Annexure "**A**".

## 3 THE PARTIES

### 3.1 *The Appellant*

The Appellant, for the purposes of this Appeal, is Kudumane Manganese Resources Proprietary Limited who will interchangeably be referred to as "**Kudumane**" and/or the "**Appellant**".

### 3.2 Kudumane is the "*Holder*", as defined in Section 1 of the Mineral and Petroleum Resources Development Act 28 of 2002, as amended ("**MPRD Act**") of –

#### 3.2.1 a Mining Right with DMRE reference number: NC 30/5/1/2/2/10053 MR ("**Kudumane Mining Right 10053**") in respect of the mineral "*Manganese Ore*" over the "*farm Kipling No. 271, A Portion of farm Hotazel No. 280 and farm Devon No. 277*" situated in the Magisterial District of Kuruman in the Northern Cape province ("**Kudumane Mining Area 10053**"). Kudumane furthermore applied for and was granted the consent of the Minister of Mineral Resources and Energy in terms of Section 102 of the MPRD Act, to amend/vary the Kudumane Mining Right 10053 to include "*banded iron formation, calcrete and wesselite*" ("**Additional Kudumane Minerals**") in the Kudumane Mining Area 10053. A copy of the letter recording the granted

*JR Nxw*

Ministerial consent in accordance with Section 102 of the MPRD Act, is attached as annexure "B"; and

- 3.2.2 a Mining Right with DMRE reference number: NC 30/5/1/2/2/0268 MR ("Kudumane Mining Right 268") in respect of the mineral "Manganese Ore" over the "Remainder and Portion 1 of the farm Telele No 312, Remainder and Portion 2 of the farm York No 279 ["Farm York"]" situated in the Magisterial District of Kuruman in the Northern Cape province ("Kudumane Mining Area 268"),

(collectively, "Kudumane Mining Rights"). Copies of the Kudumane Mining Rights are attached as Annexures "C" and "D".

- 3.3 It is clear that when comparing the description of the K2022641005 Prospecting Application Area with the description of the Kudumane Mining Area 10053, that the K2022641005 Prospecting Application Area overlaps with the Kudumane Mining Area 10053 in respect of the remaining extent and portion 1 of the Farm Devon ("Overlapping Properties").

- 3.4 Kudumane is furthermore the surface rights owner of the following properties –

- 3.4.1 the Remaining Extent of the Farm Devon (being the Overlapping Properties, which Overlapping Properties fall within the K2022641005 Prospecting Application Area);

- 3.4.2 portion 2 and 11 of the Farm York A 279; and

- 3.4.3 portion 1 of the farm Telele 312.

- 3.5 For the reasons outlined in this Appeal Affidavit and as a consequence of the Acceptance Decision taken by the Regional Manager, the Appellant as the Holder of the Kudumane Mining Rights and the owner of the rights to the surface of the Overlapping Properties, is an affected party whose "rights or legitimate expectations have been materially and adversely affected" and/or "who is aggrieved by" the Acceptance Decision and therefore has the requisite *locus standi* to lodge this Appeal in terms of Section 96 of the MPRD Act as read with Regulation 74 of the MPRD Regulations. The Appellant's rights and *locus standi* are explained more fully in paragraph 5 below.

NXM  

### 3.6 *The Affected Person(s)*

- 3.6.1 As stated in paragraph 2 above, the Appellant is appealing the Acceptance Decision taken by the Regional Manager to accept the K2022641005 Prospecting Right Application.
- 3.6.2 In terms of Regulation 74(1) of the MPRD Regulations, K2022641005 is hereby advised that should it wish to respond to this Appeal, it must, within 30 days of receipt of the Appellant's notice of appeal, serve a copy of its answering affidavit ("**Answering Affidavit**") on the Appellant (at their nominated address provided for in paragraph 1.4 above), serve a copy on the Regional Manager and provide a copy thereof to the DG.
- 3.6.3 K2022641005's Answering Affidavit must set out –
- 3.6.3.1 the extent and nature of its rights;
- 3.6.3.2 how the outcome of this Appeal may affect its rights; and
- 3.6.3.3 any additional information pertaining to the grounds of appeal set out below.
- 3.6.4 K2022641005 is furthermore required to notify the DG within the 30-day period referred to in paragraph 3.6.2 above, that it has filed its Answering Affidavit, together with proof of submission and service thereof.

### 3.7 *The Appeal Authority*

- 3.7.1 Section 96(1)(a) of the MPRD Act stipulates that any administrative decision taken by "...a Regional Manager or any officer to whom the power has been delegated or a duty has been assigned by or under this Act", must be taken on appeal to the DG. The DG has therefore been cited as the "*Respondent*" in this Appeal.
- 3.7.2 As will be outlined in this Appeal, the administrative decision/act taken by the Regional Manager to accept the K2022641005 Prospecting Right Application by way of the Acceptance Decision, was misdirected and must be set aside for the reasons set out in this Appeal Affidavit.

NXW  

#### 4 TIMEOUS SUBMISSION OF THIS APPEAL

- 4.1 Section 96(1) of the MPRD Act provides that any person whose rights or legitimate expectations have been materially and adversely affected or who is aggrieved by any administrative decision taken in terms of the MPRD Act, may appeal such administrative decision within 30 days (as read with the definition of "day" in Act 49 of 2008) of becoming aware of such administrative decision.
- 4.2 Kudumane only became aware of the K2022641005 Prospecting Right Application on 12 February 2024 when Dr Tshifhiwa Nemakhavhani (employed as the Safety Health Environment Risk & Quality Manager at Kudumane) discovered a notice by K2022641005's appointed environmental consultants, that was affixed to the fence at Farm Devon ("**Notice**"). Kudumane instructed Malan Scholes to assist with the lodgement of this Appeal and an objection in accordance with the provisions of Section 10 of the MPRD Act, against the Acceptance Decision ("**Kudumane Objection**"). Malan Scholes consequently contacted K2022641005's appointed environmental assessment practitioner ("**EAP**") to determine whether or not the K2022641005 Prospecting Right Application had been accepted by the Regional Manager. On 28 February 2024, K2022641005's EAP forwarded to Malan Scholes, *inter alia*, the letter from the Regional Manager confirming that the Acceptance Decision had in fact been taken. A copy of the aforementioned Notice is attached as annexure "E".
- 4.3 The Appellant is therefore within the 30-day period for the submission of this Appeal, as provided for in Section 96(1) of the MPRD Act, calculated from 12 February 2024 or 28 February 2024, being the date that Kudumane became aware of the Acceptance Decision.
- 4.4 Kudumane will attend to payment of the prescribed appeal fee as required in terms of Regulation 74 of the MPRD Regulations.

#### 5 RELEVANT FACTUAL CIRCUMSTANCES

##### *The Kudumane Mining Rights*

- 5.1 As stated in 3.2 of this Appeal Affidavit, Kudumane is the Holder, as defined in Section 1 of the MPRD Act, of the Kudumane Mining Rights in respect of the mineral "*Manganese Ore*" over the Kudumane Mining Area 10053 and Kudumane Mining Area 268 (collectively, "**Kudumane Mining Areas**").

NKW  

- 5.2 The Kudumane Mining Right 10053 commenced on 20 January 2017 and will continue to be in force for a period of twenty years ending on 19 January 2037. The Kudumane Mining Right 268 commenced on 22 May 2013 and will continue to be in force for a period of thirty years ending on 21 May 2043.
- 5.3 In terms of the Kudumane Mining Rights and Section 5 of the MPRD Act, Kudumane has the "*sole and exclusive right to mine, and recover*" the minerals "*Manganese Ore*" and the Additional Kudumane Minerals in, on and under the Kudumane Mining Areas, which include the Farm York and the Overlapping Properties (Farm Devon). Kudumane is furthermore obliged to "*take all such necessary steps to adequately safeguard and protect the environment, the mining areas and any person/s using or entitled to use the surface of the mining area from any possible damages or injury associated with any activities on the mining area*".
- 5.4 As stated in 3.4 above, Kudumane is furthermore the surface rights owner of the following properties –
- 5.4.1 the Remaining Extent of the Farm Devon (being the Overlapping Properties, which Overlapping Properties fall within the K2022641005 Prospecting Application Area);
- 5.4.2 portion 2 and 11 of the Farm York A 279; and
- 5.4.3 portion 1 of the farm Telele 312,
- copies of the Windeed Reports recording this ownership, are attached as annexure "F".

#### ***Kudumane Land Use***

- 5.5 Kudumane, in accordance with the Kudumane Mining Rights –
- 5.5.1 currently conducts opencast Mining Operations on the farm Hotazel No 280;
- 5.5.2 is in the process of developing a Mine on the farm Kipling 271;
- 5.5.3 intends to establish an authorised waste dump ("**Waste Dump**") on the Western side of the Overlapping Properties (Farm Devon);
- 5.5.4 intends to conduct rehabilitation activities at the old pit located on the Overlapping Properties (Farm Devon);

MXM  

- 5.5.5 intends to develop a blasting contractor site on the Eastern side of the Overlapping Properties (Farm Devon); and
- 5.5.6 intends to develop infrastructure associated with the planned underground Mining Operations to be conducted by Kudumane,
- (collectively, "**Kudumane Mining Operations**")
- 5.6 Farm York which forms part of the Kudumane Mining Area 268, is the neighbouring and contiguous farm to the Overlapping Properties (Farm Devon), which forms part of the Kudumane Mining Area 10053. Kudumane is currently conducting the Kudumane Mining Operations in and on the Farm York and will extend the Kudumane Mining Operations to the Overlapping Properties. It is Kudumane's intention that the waste produced from the Kudumane Mining Operations in, on and under, *inter alia*, the Farm York, will be stored in the Waste Dump on the Overlapping Properties (Farm Devon). Waste material produced from the conduct of the extractive Kudumane Mining Operations in and on the Kudumane Mining Area 268, will be deposited onto the authorised Waste Dump to be constructed on the Overlapping Properties, which are adjacent to Kudumane Mining Area 268.
- 5.7 Attached as annexure "**G**" is a copy of comments submitted by Malan Scholes on behalf of Kudumane on 25 March 2024 in accordance with the National Environmental Management Act 107 of 1998 ("**NEMA Comments**"). The Appellant's NEMA Comments outline in detail what the impact would be on the Kudumane Mining Operations on, *inter alia*, Farm York should the DMRE further process the K2022641005 Prospecting Right Application and a Prospecting Right is ultimately granted to K2022641005. The NEMA Comments are relevant for the purposes of this Appeal and are incorporated by reference.

***The K2022641005 Prospecting Application Area***

- 5.8 As stated in paragraph 2 above, the Regional Manager accepted the K2022641005 Prospecting Right Application for the minerals "*Diatomite, Kieselguhr and Diatomaceous Earth*" in respect of the K2022641005 Prospecting Application Area.
- 5.9 It is evident when comparing the description of the Kudumane Mining Area 10053 to the K2022641005 Prospecting Application Area, that there is a clear overlap in respect of the Overlapping Properties (Farm Devon).

*Handwritten signature and initials*  
 NKW

- 5.10 The Overlapping Properties are clearly identifiable when merely considering the Kudumane Mining Area 10053 subject to the Kudumane Mining Right 10053 together with the K2022641005 Prospecting Application Area. Accordingly, the Regional Manager should not have taken the Acceptance Decision as the Regional Manager is well aware of the Mine, Health and Safety Act 29 of 1996 (“MHSA”) and rehabilitation obligations that the Kudumane must discharge in and on, *inter alia*, the Kudumane Mining Area 10053, which will be impossible to manage if K2022641005 is ultimately granted a Prospecting Right which extends over the Overlapping Properties (Farm Devon), pursuant to the Acceptance Decision.
- 5.11 The establishment of the authorised Waste Dump on the Overlapping Properties will make it practically impossible to carry out Prospecting Operations in and on the Overlapping Properties. Accordingly, a Prospecting Right cannot be granted to K2022641005 for the Overlapping Properties and the Acceptance Decision must be set aside by the DG.

## 6 LEGAL SUBMISSIONS AND GROUNDS OF APPEAL

### *Overlapping Properties and practical impossibilities*

- 6.1 The Overlapping Properties are situated on the Kudumane Mining Area 10053. As alluded to in 5.10 above, Kudumane has specific health and safety obligations in respect of the Kudumane Mining Areas as contemplated in the MHSA. Kudumane will be unable to discharge those obligations should K2022641005 be granted a Prospecting Right pursuant to the K2022641005 Prospecting Right Application and K2022641005 conducts Prospecting Operations on the Overlapping Properties which falls within the Kudumane Mining Area 10053.
- 6.2 It is a practical impossibility for K2022641005 to simultaneously carry out its intended Prospecting Operations in, on and under the K2022641005 Prospecting Application Area where the authorised Waste Dump will be constructed by Kudumane during the conduct of the Kudumane Mining Operations as the Holder of the Kudumane Mining Rights. The Regional Manager should never therefore have accepted the K2022641005 Prospecting Right Application as K2022641005 can never be granted a Prospecting Right for the Overlapping Properties.
- 6.3 It is inevitable that numerous insurmountable challenges will arise between K2022641005, as the potential Holder of a Prospecting Right over the Overlapping Properties and Kudumane as the Holder of the Kudumane Mining Rights over the

NXM  

Kudumane Mining Areas which includes the Overlapping Properties, as a result of any attempts by K2022641005 to carry out its intended Prospecting Operations simultaneously with the carrying out of the Kudumane Mining Operations by Kudumane on the Overlapping Properties. These challenges include the following, namely –

- 6.3.1 there will be a conflict between the obligations placed on Kudumane and K2022641005 in terms of the MHSA specifically taking into account the broad definition of “*employee*” in the MHSA being “*any person who is employed or working at a mine*” [own emphasis]. Section 5 of the MHSA specifically provides that “*every employer must maintain a working environment that is safe and without risk to the health of employees*” [own emphasis]. Kudumane cannot be responsible for the health and safety of any employees of K2022641005 that may access the Overlapping Properties. This situation will be practically impossible to manage as health and safety responsibilities are not capable of being separately apportioned;
- 6.3.2 as stated above and in terms of Section 2(2) of the MHSA, Kudumane, as the Holder of the Kudumane Mining Rights, is under an obligation to “*prevent injury, ill-health, loss of life or damage of any kind from occurring*” within the Overlapping Properties. The presence of simultaneous Prospecting Operations in, on and under the Overlapping Properties would prevent Kudumane from comprehensively discharging its obligations in terms of the MHSA as Kudumane will have no authority over persons to be employed by K2022641005 who would require access to the Overlapping Properties. In fact, the health and safety of Kudumane’s employees would be placed at risk as a result of the anticipated simultaneous conduct of Prospecting Operations by K2022641005;
- 6.3.3 as stated above, Kudumane will not be able to construct the authorised Waste Dump for the conduct of the Kudumane Mining Operations on the Overlapping Properties, due to interference from K2022641005 should K2022641005 simultaneously conduct Prospecting Operations in, on and under the Overlapping Properties (Farm Devon), which falls within the Kudumane Mining Area 10053. The waste produced from the conduct of the extractive Kudumane Mining Operations in and on the Kudumane Mining Area 268, will be transported to and stored in the authorised Waste Dump on the Overlapping Properties which fall within the Kudumane Mining Area 10053. It

11XW  
JP

inadvertently granting a Prospecting Right to K2022641005 in the absence of considering the contents of this Appeal and the intended Kudumane Objection.

- 8.3 If the Acceptance Decision is not suspended in terms of Section 96(2)(a) of the MPRD Act, Kudumane reasonably apprehends that the K2022641005 Prospecting Right Application will be processed further by the DMRE and ultimately a Prospecting Right may be granted to K2022641005 pursuant to the K2022641005 Prospecting Right Application.
- 8.4 If the K2022641005 Prospecting Right Application is processed further by the DMRE and a Prospecting Right is ultimately granted to K2022641005, the ability of Kudumane as the Holder of the Kudumane Mining Rights to exercise its sole and exclusive right to conduct the Kudumane Mining Operations for "Manganese Ore" and the Additional Kudumane Minerals in, on and under the Kudumane Mining Areas, including the construction and operation of the authorised Waste Dump on the Overlapping Properties, will be severely compromised.
- 8.5 To the contrary, no prejudice will be suffered by K2022641005 if the requested suspension of the Acceptance Decision is granted pending the outcome of this Appeal, as K2022641005 does not currently hold any rights in respect of the Overlapping Properties. The balance of convenience in this regard, favours Kudumane to maintain the *status quo*.

## 9 RESERVATION OF RIGHTS

All the rights of Kudumane are reserved, including the right to supplement the content of this Appeal, and/or to in turn respond to any answer which the Appellant may receive as a consequence of this Appeal.

DEPONENT

I hereby certify that the deponent declares that she knows and understands the contents of this affidavit and that it is to the best of her knowledge both true and correct. This affidavit was signed and sworn to before me at Johannesburg on this

Dear Sir/Madam,

**APPLICATION IN TERMS OF SECTION 96(2) OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT 28 OF 2002 AS AMENDED (HEREINAFTER REFERRED TO AS THE "MPRDA") TO SUSPEND A DECISION OF THE REGIONAL MANAGER TO ACCEPT AN APPLICATION FOR A PROSPECTING RIGHT IN TERMS OF SECTION 16(2) BY K2022641005 (SOUTH AFRICA) (PTY) LTD.**

**REGIONAL REFERENCE: NC 30/5/1/1/2/13826PR**

The above appeal dated 26 March 2024 has reference.

After careful consideration of the facts before me, **I, Jacob Mbele**, the Director General: Mineral Resources and Energy, hereby grant an application in terms of section 96(2) of the MPRDA by Kudumane Manganese Resources (Pty) Ltd. to suspend the decision of the Regional Manager: Northern Cape Region to accept a prospecting right application by K2022641005 (South Africa) (Pty) Ltd. to prospect for Diatomite, Kieselguhr, and Diatomaceous Earth in respect of the Remaining Extent and Portion 1 of the farm Botha 312, the Remaining Extent and Portion 1 of farm Devon 277, Portions 4 and 5 of farm Bermolli 583, the Remaining Extent and Portion 1 of farm Engelsdraai 221, the Remaining Extent and Portion 1 of farm Witdraai 204 and the Remaining Extent and Portions 1 and 2 of farm Vaalwater 84, situated within

Magisterial Districts of Hay and Kuruman, Northern Cape, pending finalization of the appeal.

My decision is based on the following reasons:

1. Kudumane Manganese Resources (Pty) Ltd. as a holder of a mining right over, *inter alia*, the Remaining Extent and Portion 1 of farm Devon 277 has demonstrated sufficiently that there is potential prejudice on its part, should K2022641005 (South Africa) (Pty) Ltd.'s application be processed to finality without affording it an opportunity to exhaust internal remedy.
2. It is imperative to observe the fundamental objects of the MPRDA; in particular section 2(g) which provides for security of tenure in respect of prospecting, exploration, mining, and production operations.

Yours faithfully,

---

THAT on this 22<sup>nd</sup> day of May in the year 2013, before me, **Izak Cornelius Potgieter** a Notary Public, duly sworn and admitted, residing and practising at **Kimberley**, in the **Northern Cape** Province of South Africa, and in the presence of the subscribing competent witnesses, personally came and appeared:

**Mmboneni Kevin Mutheiwana, Acting**, Regional Manager, **Northern Cape** Region of the Department of Minerals and Energy, and as such in his / her capacity as the duly authorised representative of:

**THE MINISTER OF MINERALS AND ENERGY**

The said Regional Manager, being duly authorised thereto under and by virtue of a Power of Attorney granted by the **DIRECTOR-GENERAL** of the Department of Minerals and Energy on the 26<sup>th</sup> day of **April** in the year 2013 in terms of the powers delegated by the Minister on the 12<sup>th</sup> day of May 2004 in terms of section 103 (1) of the Act,

**AND**

Sechaba Danex Letaba in his personal capacity as the duly authorised representative of Kudumane Manganese Resources (Pty) Ltd , Registration number:

2	0	0	8	/	0	2	5	5	6	8	/	0	7	
---	---	---	---	---	---	---	---	---	---	---	---	---	---	--

(Hereinafter together with his/her/its successors in title and assigns referred to as "the Holder", he/she, the said representative, being duly authorised thereto under and by virtue of a resolution of directors of the Holder, signed or passed at Johannesburg on the 16<sup>th</sup> day of May in the year 2013 which power of attorney or a certified copy of a resolution has this day been exhibited to me, the notary, and remain filed of record in my protocol with the minutes hereof.)

**AND THE MINISTER AND HOLDER DECLARED THAT:**

**WHEREAS** The State is the custodian of the Nation's mineral and petroleum resources in terms of section 3 of the Act.

**AND WHEREAS** The Holder has applied for a mining right in terms of section 22 of the Act,

**AND WHEREAS** The **DIRECTOR-GENERAL: MINERAL REGULATION** of the Department of Minerals and Energy has by virtue of powers delegated to him, granted to the Holder, a mining right in terms of section 23(1) of the Act.

**NOW THEREFORE THE MINISTER GRANTS A MINING RIGHT SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:**

## Definitions

In this mining right, the following words and expressions shall have the meanings assigned to them:

'**Act**' means the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) and includes the Regulations, guidelines, circulars, directives and orders made in terms of that Act;

'**Effective date**' means **22<sup>nd</sup>** day of **May** in the year **2013** (being the date on which the environmental management programme is approved in terms of section 39(4) of the Act);

'**Environmental Management Programme**' is as defined in the Act and includes any other Environmental Management Programme approved in terms of the previous mining legislation;

'**Financial year**' means a complete financial year of the Holder which, at the time of the granting of this mining right, commences on **1<sup>st</sup>** day of **April** in the year **2013**; and ends on **31<sup>st</sup>** day of **March** in the year **2014**;

'**Holder**' is as defined in the Act, and specifically in relation to this right, it means **Kudumane Manganese Resources (Pty) Ltd**, Registration No/Identification No **200802556807**;

'**Mineral**' is as defined in the Act, and specifically in relation to this right means **Manganese Ore**;

'**Mining Area**' is as defined in the Act and includes any additional area of environmental liability as may be reflected on the Environmental Management Programme relating to this right;

'**Mining right**' is as defined in the Act and includes all the Annexures to it, agreements and inclusions by reference;

'**Mining Work Programme**' is as defined in the Act and as reflected in the attached **Annexure A** to this mining right;

'**Minister**' means the Minister of Minerals and Energy and includes the successors in title, the assignee or any person duly authorised to act in the Minister's place and stead;

'**Regional Manager**' is as defined in the Act and specifically in relation to this right means the Regional Manager for the **Northern Cape** Region of the Department of Minerals and Energy; and

'**Social and Labour Plan**', is as contemplated in regulation 46 of the Regulations to the Act and is as reflected in the attached **Annexure B** to this mining right.

Handwritten signature and initials, including the letters 'MFC' at the bottom right.

## 1. Description of the Mining Area

The Mining Area shall comprise the following:

Certain: **Remainder and Portion 1 of the farm Telele No 312, Remainder and Portion 2 of the farm York No 279**

Situated: **In the Magisterial/Administrative District of Kuruman**

Measuring: **4267.96 hectares in extent.**

(In the case of various farms being involved, a list can be attached and referred to as **Annexure** );  
Which Mining Area is described in detail on the attached Diagram/plan marked **Annexure C.**

## 2. Granting of Mining Right

Without detracting from the provisions of sections 5 and 25 of the Act, the Minister grants to the Holder the sole and exclusive right to mine, and recover the mineral/s in, on and under the mining area for the Holder's own benefit and account, and to deal with, remove and sell or otherwise dispose of the mineral/s, subject to the terms and conditions of this mining right, the provisions of the Act and any other relevant law in force for the duration of this right.

## 3. Commencement, Duration and Renewal

- 3.1. This mining right shall commence on **22<sup>nd</sup> May 2013** and, unless cancelled or suspended in terms of this clause 13 of this right and or section 47 of the Act, will continue to be in force for a period of **Thirty (30) years** ending on **21<sup>st</sup> May 2043**.
- 3.2. The Holder must commence with the mining operations within a year from the date on which the mining right becomes effective in terms of section 23 (5) of the Act, or any later date as may, upon a written request by the Holder, be authorised in writing by the Minister in terms of the Act, failing which this right may be cancelled or suspended.
- 3.3. Any application for renewal must be submitted to the Regional Manger not later than 60 working days prior to the date of expiry of this right.

## 4. Amendments, Variation and Abandonment

- 4.1. The terms of this right (including by extension of the area covered by it or by the addition of minerals or a share or shares or seams, mineralized bodies, or strata, which are not at the time the subject thereof) may not be amended or varied without the written consent of the Minister.
- 4.2. The Holder shall be entitled to abandon or relinquish the right or the area covered by the right entirely or in part. Upon abandonment or relinquishment of the mining area or any portion thereof, the Holder must:

- 4.2.1. Furnish the Regional Manager with all prospecting and /or mining results and/or information, as well as the general evaluation of the geological, geophysical and borehole data in respect of such abandoned area in so far as it applies to the mineral or any other mineral/s obtained in respect of this right and,
- 4.2.2. Apply for a closure certificate in terms of section 43 (3) of the Act.
- 4.3 With effect from the date the Holder has abandoned or relinquished a portion or portions of the mining area, and subject to section 43 of the Act, the Minister is entitled to grant any right, permit, or permission referred to in the Act in, on, or under the portion/s, so abandoned or relinquished, to any person/s.

## 5. Payment of Royalties

- 5.1. The Holder shall as contemplated in section 25 (2) (g) pay to the State throughout the duration of this mining right, royalties payable in terms of any Act or Amendment to an Act of Parliament implemented.

## 6. Payment of Interest

If mining fees, any fees, any levy, royalties or consideration referred to in clause 5 are not paid punctually, the Holder shall be in mora and shall pay interest thereon at the rate prescribed in terms of section 80 of the Public Finance Management Act, 1999(Act 1 of 1999) reckoned from the date on which payment is due and payable, to the date of actual payment.

## 7. Restrictions and Obligations Imposed on the Holder

- 7.1 The Holder is entitled to the rights referred to in section 5(2), (3) and section 25 of the Act, and such other rights as may be contained in this mining right or such other right as may be granted to, acquired by or conferred upon the Holder by any other applicable law.
- 7.2 Mining operations in the mining area must be conducted in accordance with the Mining Work Programme and any amendment to such Mining Work Programme and an approved Environmental Management Plan.
- 7.3 The Holder shall not trespass or enter into any homestead, house or its curtilage nor interfere with or prejudice the interests of the occupiers and/or owners of the surface of the Mining Area except to the extent to which such interference or prejudice is necessary for the purposes of enabling the Holder to properly exercise the Holder's rights under this mining right.

 MIC

**8. Conditions on disposal of Minerals and/ or Products Derived from Mining**

It is a condition of the granting of this mining right that the Holder shall dispose of all minerals and/ or products derived from the exploitation of the mineral at competitive market prices which shall mean in all cases, non-discriminatory prices or non-export parity prices. If the minerals are sold to any entity, which is an affiliate or non-affiliated agent or subsidiary of the Holder, or is directly or indirectly controlled by the Holder, such purchaser must unconditionally undertake in writing to dispose of the minerals and any products produced from the minerals, at competitive market prices.

**9. Mortgage, Cession, Transfer, Alienation**

9.1 This mining right, a shareholding, an equity, an interest or participation in the right or joint venture, or a controlling interest in a company, close corporation or joint venture, may not be encumbered, ceded, transferred, mortgaged, let, sublet, assigned, alienated or otherwise disposed of without the written consent of the Minister, except in the case of a change of controlling interest in listed companies.

9.2 Any transfer, encumbrance, cession, letting, sub-letting, assignment, alienation or disposal of this right or any interest therein or any share or any interest in the Holder, without the consent of the Minister referred to in section 11(1) is of no force, no effect and is invalid.

**10. Protection of Boreholes, Shafts, Edits and Openings.**

All boreholes, shafts, edits, excavations, and openings sunk or made, by the Holder during the currency of this mining right shall be sealed, closed, fenced, made safe by the Holder in accordance with the approved Environmental Management Programme, the Mine Health and Safety Act, 1996 or any other applicable laws and Regulations.

**11. Holder's liability for payment of Compensation for Loss or Damage**

11.1. Subject to section 43 of the Act, the Holder shall, during the tenure of this right while carrying out the mining operations under this right, take all such necessary and reasonable steps to adequately safeguard and protect the environment, the mining area and any person/s using or entitled to use the surface of the mining area from any possible damage or injury associated with any activities on the mining area.

- 11.2. Should the holder fail to take reasonable steps referred to above, and to the extent that there is legal liability, the holder shall compensate such person or persons for any damage or losses, including but not limited to damage to the surface, to any crops or improvements, which such person or persons may suffer as a result of, arising from or in connection with the exercise of his/her rights under this mining right or of any act or omission in connection therewith.

## 12. Inspection of Mining Area

The Minister and/or any person duly authorised thereto in writing by the Minister shall be entitled to inspect the mining area, the Holder's mining operations and the execution of the approved Environmental Management Programme on the Mining Area as provided for in the Act, and any instruction conveyed in writing by the Minister to the Holder requiring the proper performance by the Holder of the Holder's obligations under this mining right shall be put into effect by the Holder in terms of the Act.

## 13. Cancellation or Suspension

13.1 Subject to section 47 of the Act, this mining right may be cancelled or suspended if the Holder:

- 13.1.1 Submits inaccurate, incorrect and or misleading information in connection with any matter required to be submitted under the Act;
- 13.1.2 Fails to honour or carry out any agreement, arrangement, or undertaking, including the undertaking made by the Holder in terms of the Broad Based Socio Economic Empowerment Charter and Social and Labour plan, on which the Minister relied for the granting of this right;
- 13.1.3 Breaches any material term and condition of this mining right;
- 13.1.4 Conducts mining operations in contravention of the provisions of the Act;
- 13.1.5 Contravenes the requirement of the approved Environmental Management Programme; or
- 13.1.6 Contravenes any provisions of this Act in any other manner.

13.2 Before the Minister cancels or suspends this right, the Minister shall:

- 13.2.1 Give written notice to the Holder indicating the intention to suspend or cancel this right;
- 13.2.2 Give reason/s why the Minister is considering the suspension or cancellation of this right;
- 13.2.3 Give the Holder 30 days to show reasons why the right should not be suspended or cancelled;
- 13.2.4 Notify, the mortgagee [if any], of the intention to suspend or cancel this right; and
- 13.2.5 Direct the Holder, where it is possible to remedy any contravention, breach or failure, to comply or to take such specified measures to remedy any contravention, breach or failure to comply.
- 13.3 If the Holder does not take the measures as specified by the Minister to remedy a contravention, breach or failure, the Minister may cancel or suspend this right after considering representations made by the Holder in terms of clause 13.2.3.

#### 14. Records and Returns

- 14.1. The Holder shall maintain all such books, plans and records in regard to mining on the Mining Area as may be required by the Act and shall furnish to the office of the Regional Manager such reports and documents as may be relevant under this right.
- 14.2. The Holder shall furnish to the Regional Manager all such monthly returns contemplated in section 28 (2) A of the Act not later than the 15<sup>th</sup> day of the month following the month in respect of which it was reported.
- 14.3. The Holder shall furthermore at the end of each year following commencement of this mining right, inform the Regional Manager in writing of any new developments and of the future mining activities planned in connection with the exploitation/mining of the minerals on the Mining Area.

#### 15. Minister's liability for Compensation

The Minister shall not at any time be liable or responsible for the payment of compensation of whatever nature to the Holder, the Holder's successors-in-title or assignee, or any person whomsoever as a result of the granting of this right.

#### 16. Compliance with the Laws of the Republic

The granting of this Right, does not exempt the Holder and its successors in title and/or assigns from complying with the relevant provisions of the Mine Health and Safety Act, (Act No.29 of 1996) and any other law in force in the Republic of South Africa.

#### 17. Provisions relating to section 2(d) and (f) of the Act

In the furthering of the objects of this Act, the Holder is bound by the provisions of an agreement or arrangement dated **19<sup>th</sup> April 2013** entered into between the Holder/ empowering partner and **Kudumane Investment Holding Limited (49%), Bold Moves 1715 (Pty) Ltd (25.5%) and ARC AML (Pty) Ltd (25.5%)** (the empowerment partner) which agreement or arrangement was taken into consideration for purposes of compliance with the requirements of the Act and or Broad Based Economic Empowerment Charter developed in terms of the Act and such agreement shall form part of this right.

#### 18. Social and Labour Plan

- 18.1 The holder must annually, not later than three months before the end of its financial year, submit detailed implementation plan to give effect to Regulation 46(e)(i),(ii)and (iii) in line with the Social and Labour Plan.

- 18.2 The holder must annually, not later than three months after finalisation of its audited annual report, submit a detailed report on the implementation of the previous year's social and labour plan.

**19. Severability**

Notwithstanding anything to the contrary, any provision of this mining right which is contrary to any provision of the Act or which is otherwise ultra vires, null and void, voidable, or unenforceable, shall be severable from the rest of this right, such rest thus being and remaining of full force, effect and enforceable.

**20. Domicilia citandi et executandi**

- 20.1. The parties hereto choose the following addresses as their *domicilia citandi et executandi* and for all purposes arising from this mining right, in particular for the purposes of serving of any notice in terms of this mining right, and any notice properly addressed to the under mentioned postal addresses of the parties shall be deemed to have been received by the addressee within 14 days if given in writing and posted by prepaid registered post addressed to the addressee at the relevant postal address:

20.1.1. In the case of the Minister:

Physical Address	Postal Address
<b>Permanent Building</b> <b>65 Phakamile Mabija Street</b> Code <b>8301</b> Tel <b>053 807 1700</b> Fax <b>053 832 5631</b>	<b>Private Bag X6093</b> <b>Kimberley</b> <b>8300</b>

20.2. Notwithstanding anything to the contrary herein contained, a written notice or communication actually received by a party at any place other than the chosen *domicilia citandi et executandi* shall constitute adequate notice or communication to the party notwithstanding that it was not sent to or delivered at such party's chosen *domicilium citandi et executandi*.

20.3 Either party shall be entitled from time to time to change the *domicilia citandi et executandi* or postal address furnished above after giving at least 14 days prior written notice of such change to the other party, failing which the above mentioned addresses will remain in force.

20.4. Any written notice or communication contemplated in this clause which is forwarded by one party to the other by registered post will be presumed to have been received by the addressee on the fourteenth day following the date of posting from an address within the Republic of South Africa to the addressee at the postal address of the addressee for the time being as determined in accordance with the provisions of this clause.

**21. Costs**

The Holder shall pay all costs and charges incurred in connection with the execution and registration of this prospecting right.

Dear Sir/Madam

**APPLICATION FOR PROSPECTING RIGHT IN TERMS OF SECTION 16 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT 28 OF 2002) AS AMENDED BY SECTION 12 OF ACT 49 OF 2008: FOR DIATOMITE, KIESELGUHR AND DIAMTOMACEOUS EARTH: ON THE REMAINING EXTENT AND PORTION 1 OF FARM BOTHA 312, THE REMAINING EXTENT AND PORTION 1 OF FARM DEVON 277, PORTIONS 4 AND 5 OF FARM BERMOLLI 583, THE REMAINING EXTENT AND PORTION 1 OF FARM ENGELSDRAAI 221, THE REMAINING EXTENT AND PORTION 1 OF FARM WITDRAAI 204 AND THE REMAINING EXTENT PORTIONS 1 AND 2 OF FARM VAALWATER 84: WITHIN THE ADMINISTRATIVE DISTRICT OF HAY AND KURUMAN.**

1. This is to inform you that your application for a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) ("Act") as amended to prospect for Diatomite, Kieselguhr and Diatomaceous Earth has been **accepted.**

2. In terms of section 12 (d) of the Act, you are directed to comply with the following instructions:
  - a. Notify and consult with the landowner, lawful occupier and any interested and affected party and include the result of the consultation in the environmental reports in line with Regulation 41(2) read with Section 24J of National Environment Management Act, 1998.
  - b. Lodge an application in terms of National Water Act No.36 of 1998 with the Department of Water Affairs with immediate effect.
3. Your attention is drawn to the provisions of sections 17(1)(e) of the MPRDA, which provide that the Minister may grant an application for a prospecting right if the applicant is not in contravention of any relevant provision of this Act. Section 19(2) (f) places an obligation on the holder of a prospecting right to pay the prescribed prospecting fees, as per regulation 76 of the MPRDA.
4. You are therefore reminded to ensure that payment of all prospecting fees for all the prospecting rights that you hold, are up to date, failing which this may have a negative impact on the outcome of your current application.
5. Further note that the acceptance of your application does not grant you the right to commence with prospecting activities. It only signifies that your application will be processed, evaluated and the Minister or his delegate will make a decision within 197 days from the date of lodgement of your application.

Yours faithfully

Dear Sir/Madam,

**APPLICANT'S RESPONSE TO THE COMMENTS BY KUDUMANE MANGANESE RESOURCES (PTY) LTD IN RESPECT OF THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME PREPARED FOR AN APPLICATION FOR AN ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 107 OF 1998, AS AMENDED: K2022641005 (SOUTH AFRICA) (PTY) LTD WITH DMRE REFERENCE NC 30/5/1/1/2/13826 PR**

1. Your correspondence dated 4 November 2024 refers, the content of which is noted to be similar to the comments contained in your correspondence dated 25 March 2024.
2. The above-mentioned comments will be addressed herein, as far as they relate to new issues, which have not already been addressed in the approved Scoping Report and draft Environmental Impact Assessment Report (DEIAR). For purposes hereof kindly refer to Table 13: Summary of issues raised by I&APs, pages 86 to 89 of the DEIAR.

**the goal isn't to live forever, it is to protect a planet that will**

3. Considering the aforementioned, the Applicant responds as follows to your client's latest comments and objections.

#### **4. Paragraphs 1 to 2.1.11**

4.1. The content of the abovementioned paragraphs is noted.

#### **5. Paragraph 2.1.12 and 2.1.13**

5.1. Greenmined is the appointed Environmental Assessment Practitioner for this project and acts on behalf of the Applicant in terms of this Environmental Authorisation (EA) application.

5.2. The DMRE SAMRAD online portal does not make provision for the addition or removal of properties to an existing application. However, the EA Application form itself is a manual document that can be amended and submitted for consideration to the DMRE, as the competent authority.

5.3. As you rightfully said, the decision to amend an EA is not up to Greenmined, but indeed that of the competent authority.

#### **6. Paragraph 2.1.14**

6.1. As you are aware your client submitted a Section 96 appeal to suspend the decision made by the Regional Manager to accept the prospecting right as a whole, which application was successful.

6.2. Subsequently, the Applicant submitted an appeal to the decision made by the Director General to suspend the whole acceptance of the Regional Manager, which application was also successful. The Minister overturned the decision made by the Director General, which was replaced by the decision to amend the acceptance to exclude the overlapping area,

**the goal isn't to live forever, it is to protect a planet that will**

being the farm Devon 277. Attached hereto the Minister's decision dated 25 October 2024, which is marked **Annexure "A"**. Said outcome was sent on 28 October 2024 by Saunders Osborne Van der Watt Attorneys, by email, to you and your client.

6.3. Considering the Minister's decision that the farm Devon 277 is excluded from the application, your client will suffer no prejudice by the continuation of this application.

## 7. Paragraphs 2.2 and 2.3

7.1. Paragraphs 2.2 and 2.3 of your correspondence are no longer relevant, as it motivates prejudice to be suffered by your client, should the application proceed on the basis that the farm Devon 277 is included. The Minister already removed farm Devon 277 from the application's acceptance, therefore your client's grounds for the objections raised herein is unfounded.

## 8. Paragraph 2.4

8.1. Kindly refer to pages 279 to 282 of the DEIAR, which contains the motivation for the Impact on the Socio-Economic Conditions of directly affected persons.

8.2. Although your client avers that the Applicant failed to motivate the need and desirability of the proposed prospecting operation, the competent authority deemed the motivation sufficient for purposes of this application, by approving the Scoping Report.

8.3. In terms of the land uses kindly refer to page 280 of the DEIAR which stipulates that: *"This project entails the prospecting of specific target areas on the earmarked farms. Considering this, the project does not oppose the current land uses of the properties, but rather supplement it by diversifying the land use that directly impacts the revenue yield as the landowners will be compensated for the use of the land."*

**the goal isn't to live forever, it is to protect a planet that will**

8.4. Prospecting activities will be conducted simultaneous and concurrent to other existing land uses, not instead thereof, as alleged by your client.

## 9. Paragraph 2.5

9.1. The comments contained in paragraph 2.5 as far as it relates to your client's existing rights in terms of its mining right are no longer relevant as the farm Devon has been excluded from the application. There will be no impacts on your client's existing and/or future operations.

9.2. In terms of the drill sites and drilling activities referred to in your paragraphs 2.5.5 to 2.5.12, we refer you to the Remote Sensing Study conducted by Minrom and attached to the DEIAR as Appendix H. Said study is also discussed on pages 181 to 191 of the DEIAR. Although the exact coordinates have not been identified at this stage, the information at the competent authority's disposal will provide them with a very good understanding of where the prospecting activities will be located.

9.3. We reiterate that the farm Devon 277 has been excluded from this application, therefore, your client's allegation that it will be impossible to conduct its intended future operations on the farms Devon and York is misconstrued and unfounded.

## 10. Paragraph 2.6

10.1. In terms of your client's allegation that inadequate specialist studies were conducted, and that information was withheld from your client, kindly note that the information contained in the Screening Tool already forms part of the DEIAR, which both you and your client has access to and was already able to comment on.

10.2. Your client alleges that a hydrological assessment and a biodiversity impact assessment was not undertaken, although same was already undertaken during the scoping phase, as part of the freshwater and terrestrial assessments.

**the goal isn't to live forever, it is to protect a planet that will**

10.3. No blasting will be conducted during prospecting activities; therefore, a blasting and vibration assessment will be superfluous.

10.4. Furthermore, the specialist studies conducted for purposes of this application was deemed sufficient by the competent authority, by its approval of the Scoping Report.

## 11. Paragraph 2.7

11.1. The Applicant provided all relevant project related information, including the DEIAR, to the Department of Water and Sanitation (DWS) for their comment and further guidance. In the event that a listed activity in terms of Section 21 of the National Water Act, 36 of 1998, is triggered, at any stage of the project, application will be made to the DWS for the relevant activity.

11.2. In addition to the above please refer to page 105 of the DEIAR, which is excerpted below for your ease of reference:

*"Once the final target areas were identified the PR Holder will identify the available water sources within the proximity. As water will be obtained from registered sources the PR Holder will have to comply with the standards/requirements of the source's authorisation. Water tally sheets will be maintained to monitor water use quantity and baseline water quality results will be obtained prior to use."*

It is important to note that reference to "available water sources within the proximity" refers to already registered and authorised sources of water.

11.3. As your client will not be party to the agreement between the Applicant and the authorised water supplier, the Applicant fails to comprehend your client's persistence to direct the Applicant which local source to utilise.

**the goal isn't to live forever, it is to protect a planet that will**

## 12. Paragraph 3:

12.1. Your client's submission that the DEIAR is flawed and that the EA Application must be refused, is with all due respect unfounded and based on the assumption that the Farm Devon 277 still forms part of the application. You are once again referred to the Minister's decision dated 25 October 2024 to remove the Farm Devon 277 from the acceptance of the application.

12.2. All comments received, with responses thereto, will form part of the final EIAR to be submitted to the competent authority, for consideration.

12.3. The Applicant's rights remain reserved.

Kind regards,

A handwritten signature in black ink that reads "Elsie Rabie".

Dear: Sirs

APPLICATION IN TERMS OF SECTION 96 (2) OF THE MPRDA BY SAUNDERS OSBORNE VAN DER WATT ATTORNEYS ON BEHALF OF K2022641005 (SOUTH AFRICA) PROPRIETARY LIMITED AGAINST THE DECISION OF THE DIRECTOR-GENERAL IN RESPECT OF KUDUMANE MANGANESE RESOURCES APPEAL WITH REFERENCE NUMBER: 10/2/4/3/372 TO WHOLLY SUSPEND THE DECISION OF THE REGIONAL MANAGER TO ACCEPT THE APPELLANT'S APPLICATION FOR A PROSPECTING RIGHT IN RESPECT OF THE REMAINING EXTENT AND PORTION 1 OF THE FARM BOTHA 312, THE REMAINING EXTENT AND PORTION 1 OF THE FARM DEVON 277, PORTIONS 4 AND 5 OF THE FARM BERMOLLI 583, THE REMAINING EXTENT AND PORTION 1 OF THE FARM ENGELDRAAI 221, THE REMAINING EXTENT AND PORTION 1 OF THE FARM WITDRAAI 294 AND THE REMAINING EXTENT AND PORTIONS 1 AND 2 OF THE FRAM VAALWATER 84, SITUATED IN THE MAGISTERIAL DISTRICT OF HAY AND KURUMAN, NORTHERN CAPE PROVINCE.

NC 30/5/1/1/2/13826 PR

The appeal dated 16<sup>th</sup> September 2024 has reference.

After careful consideration of the facts presented before me, I **Mr. S.G Mantashe**, Minister of Mineral Resources and Energy, hereby grant an application in terms of section 96 (2) of the MPRDA to suspend the decision of the Director-General to wholly suspend the decision of the Regional Manager to accept the appellant's application for a prospecting right in respect of the properties referred to above instead of suspending the decision only on the affected area for the following reasons:

- It is evident from paragraph 3.2.1 of Kudumane Manganese Resources Proprietary Limited's appeal that it is the holder of the mining right in respect of manganese ore over a portion of farm Hotazel No. 280 and farm Devon No. 277.

- The appellant's application was accepted in respect of mineral Diatomite, Kieselguhr and Diatomaceous Earth over the remaining extent and portion 1 of the farm Botha 312, the remaining extent and portion 1 of farm Devon 277, portions 4 and 5 of the farm Bermolli 583, the remaining extent and portion 1 of the farm Engelsdraai 221, the remaining extent and portion 1 of the farm Witdraai 204 and the remaining extent and portions 1 and 2 of the farm Vaalwater 84.
- It is clear from the above facts that overlap is only over the farm Devon 277 (not with mineral). Therefore, the Director-General should have only suspended the overlapping area.
- Based on the facts presented and for the avoidance of prejudice the decision of the Director-General to wholly suspend the appellant's application must be amended to only suspend the decision over the overlapping property.
- The balance of convenience favours the appellant as the decision to suspend its accepted application should have only been over the overlapping property.
- Therefore, the decision of the Director-General dated 6<sup>th</sup> September 2024 to wholly suspend the Regional Manager's decision to accept the appellant's application for a prospecting right is amended to only apply to an overlapping property (farm Devon 277).

Yours faithfully

---

Dear Me Mokhoantle,

Thank you for taking part in the Public Participation Process of the prospecting right application applied for by K2022641005 (SOUTH AFRICA) (Pty) Ltd under reference number NC 30-5-1-1-2-13826 PR.

We do acknowledge receipt of your comments and will incorporate it into the final Environmental Impact Assessment Report to be submitted to the DMRE for consideration.

The comments will further be shared with the Applicant for his consideration and action once the non-invasive prospecting activities indicated the areas to be sampled (invasive prospecting).

We trust you will find this in order. Please do not hesitate to contact us in the event of any uncertainties.

**Please provide information on the following aspects:**

1. Air quality management
  - a. What measures will be implemented to ensure dust are adequately monitored and effectively controlled.
  - b. If water will be abstracted to manage dust or for any other reason, what will the source be and how will it be monitored.
2. Access road
  - a. The additional traffic might detrimentally impact the condition of the R383 and subsequently impact road safety for other users.
3. Security and access control
  - a. How will access to the site be managed.
  - b. What measures will be put in place to ensure the safety and security of neighboring landowners will not be compromised.
4. Sensitive areas
  - a. What measures will be implemented to avoid all possible impacts to sensitive areas (fauna/flora/regulated zones).
5. Veld fire management
  - a. What measures will be put in place to prevent fires, and if a fire does occur, will a competent team be available to respond to the fire.
6. On-site rehabilitation
  - a. What is the rehabilitation timeframe for each disturbed area. This includes roads, drill pads, park-up areas etc. What methodology will be used.
7. Borehole management procedure
  - a. How will boreholes be rehabilitated? Provide an illustration. What will the timeline be to sign-off fully rehabilitated boreholes.

Good Morning Sir,

Greenmined herewith thank you for your email and acknowledge that SIOC (Pty) Ltd is a registered I&AP on this project.

We also confirm that the initial comments (and registration as I&AP) received on 26 February 2024 from you were incorporated into the final Scoping Report (FSR) as well as the draft Environmental Impact Assessment Report (DEIAR) that is presently available for perusal and commenting.

1. Response to the 26 February 2024 comments is available in the DEIAR on specifically pages 105 – 107.
2. Attached hereto also find our response to the comments received on 03 October 2024. These comments and response thereto will also be incorporated into the final EIAR & EMPR prior to submission to the DMRE.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Dear Sir

08 October 2024

**RE: RESPONSE TO COMMENTS RECEIVED ON THE PROSPECTING RIGHT APPLICATION SUBMITTED BY K2022641005 (SOUTH AFRICA) (PTY) LTD OVER VARIOUS PROPERTIES IN THE HAY AND KURUMAN ADMINISTRATIVE DISTRICTS OF THE NORTHERN CAPE. REFERENCE NUMBER: NC 30/5/1/1/2/13826 PR.**

Your correspondence regarding the above application, and received 03 October 2024, has reference.

Greenmined confirms receipt of your correspondence and thank you for taking part in this process. We herewith provide additional information regarding the aspects listed in the said letter.

**1. Air Quality**

- a. *What measures will be implemented to ensure dust are adequately monitored and effectively controlled.*
- b. *If water will be abstracted to manage dust or for any other reason, what will the source be and how will it be monitored.*

Dust generation will be controlled through the following mitigation measures as proposed in the DEIAR and incorporated into the EMPR:

- ◆ The liberation of dust into the surrounding environment must be effectively controlled using, inter alia, straw, water spraying and/or environmentally friendly dust-allaying agents that contains no PCB's (e.g. DAS products).
- ◆ The site manager must ensure continuous assessment of the dust suppression equipment to confirm its effectiveness in addressing dust suppression.
- ◆ The crusher plant must be equipped with water sprayers to alleviate dust and fines buildup must at least weekly be removed from and around the conveyors.
- ◆ Speed on the access road must be limited to 40 km/h to prevent the generation of excess dust.
- ◆ Areas devoid of vegetation, which could act as a dust source, must be minimized and vegetation removal may only be done immediately prior to prospecting.

**the goal isn't to live forever, it is to protect a planet that will**

Unit M01, Office No 36, AECI Site, Baker Square, Paardevlei, De Beers Avenue, Somerset West, 7130

Postnet Suite 62, Private Bag x15, Somerset West, 7129

Directors: S Smit; C Weideman | Reg No: 2012/055565/07 | VAT No. 4040263032

- ◆ Weather conditions must be taken into consideration upon commencement of daily operations. Limiting operations during very windy periods would reduce airborne dust and resulting impacts.
- ◆ All dust generating activities shall comply with the National Dust Control Regulations, GN No R827 promulgated in terms of NEM:AQA (Act 39 of 2004) and ASTM D1739 (SANS 1137:2012).
- ◆ Best practice measures shall be implemented during the stripping of topsoil to minimize potential dust impacts.

Water will be used for dust suppression at the prospecting sites and access roads. Potable water will daily be transported to site by the employees, while the process water will be bought from registered local sources (to be identified) in the vicinity of the prospecting activities and transported to site in a water truck(s). Once the final target areas were identified the PR Holder will identify the available water sources within the proximity. As water will be obtained from registered sources the PR Holder will have to comply with the standards/requirements of the source's authorisation. Water tally sheets will be maintained to monitor water use quantity and baseline water quality results will be obtained prior to use.

Applicable sections in the DEIAR:

- ◆ Part A(1)(d)(ii) Description of the activities to be undertaken – Water Use.
- ◆ Part A(1)(g)(iv)(c) Description of specific environmental features and infrastructure on the site - Site Specific Air Quality and Noise Ambiance.
- ◆ Part A(1)(g)(viii) The possible mitigation measures that could be applied and the level of risk – Air Quality and Noise Ambiance.
- ◆ Part A(1)(g)(viii) The possible mitigation measures that could be applied and the level of risk – Hydrology.

## 2. Access Road

- a. *The additional traffic might detrimentally impact the condition of the R383 and subsequently impact road safety for other users.*

The prospecting operations will daily be visited by approximately ten (10) vehicles. The bulk sampling activities will require approximately four 30-ton flatbed trucks to transport the material from the farm to the port, Johannesburg, or various other production facilities.

The access roads will be managed through the following mitigation measures as proposed in the DEIAR and incorporated into the EMPR:

- ◆ Stormwater must be diverted around the access road to prevent erosion.

- ◆ Vehicular movement must be restricted to the existing access roads (where possible) and crisscrossing of tracks through undisturbed areas must be prohibited.
- ◆ Rutting and erosion of the access road caused as a direct result of the prospecting activities must be repaired by the Applicant.
- ◆ Overloading of the trucks must be prevented, and proof of load weights must be filed for auditing purposes.
- ◆ Prior to commencement, all contractors must sign an agreement confirming their responsibility towards the movement of their employees.
- ◆ Damages to fences (by prospecting employees) must be repaired/reinstated by the responsible contractor. Losses, due to gates left open by prospecting employees, must be compensated by the responsible entity.
- ◆ A speed limit of not more than 40 km/h on internal roads and 60 km/h on public roads must be implemented for the duration of the project.

Applicable sections in the DEIAR:

- ◆ Part A(1)(d)(ii) Description of the activities to be undertaken – Access Roads.
- ◆ Part A(1)(d)(ii) Description of the activities to be undertaken – Traffic Requirements.
- ◆ Part A(1)(g)(viii) The possible mitigation measures that could be applied and the level of risk – Access Road Mitigation.
- ◆ Part A(1)(g)(viii) The possible mitigation measures that could be applied and the level of risk – Management of safety and security risk posed by prospecting activities to residents.

### 3. *Security and Access Control*

- a. *How will access to the site be managed.*
- b. *What measures will be put in place to ensure the safety and security of neighboring landowners will not be compromised.*

The prospecting campaign will be headed by a drill contractor. Site management will always be responsible for the movement of their employees. No prospecting personnel will be allowed to wander outside the approved footprint. The contractor will sign an agreement to this effect upon appointment and will be held responsible for damages to fences or gates left ajar by prospecting personnel.

The following mitigation measures were proposed in the DEIAR and incorporated into the EMPR to address the potential of safety and security risks posed by the prospecting activities:

- ◆ Employees to be appointed must be vetted prior to inception of contract.

- ◆ No employees may be allowed to reside within the prospecting area.
- ◆ Prospecting employees must be educated to report suspicious looking person/s and/or matters to site management.
- ◆ Direct communication between the prospector and the landowners must be maintained for the duration of the site establishment-, operational, and decommissioning phases.
- ◆ The prospecting contractor may not enter negotiations with farm employees.
- ◆ Prospecting may only take place during normal business hours and unless otherwise authorised by the landowner.
- ◆ No alcohol or prohibited drugs may be allowed on site.
- ◆ Attendance registers must be maintained, and all prospecting vehicles/machinery must be pre-registered with the landowner/security.
- ◆ No firearms will be allowed on site.

Applicable sections in the DEIAR:

- ◆ Part A(1)(u)(i)(1) Impact on the socio-economic conditions of any directly affected person.
- ◆ Part A(1)(g)(viii) The possible mitigation measures that could be applied and the level of risk – Management of safety and security risk posed by prospecting activities to residents.

#### 4. Sensitive Areas

- a. *What measures will be implemented to avoid all possible impacts to sensitive areas (fauna/flora/regulated zones).*

The invasive prospecting plan (showing drilling, and pit sampling locations) will be determined based on the outcome of phases 1, 2, 4, and 6 (Table 4 in the DEIAR). Thus far the remote sensing data and initial freshwater- and terrestrial sensitivity results (refer to Part A(1)(g)(iv)(1)(c) Description of the specific environmental features and infrastructure on the site – Site Specific Geology, Site Specific Hydrology and Site Specific Terrestrial Biodiversity, Conservation Areas, Groundcover and Fauna of the DEIAR) are the main factors steering the design/layout proposal regarding invasive prospecting.

Following receipt of the specialist findings and recommendations, the Applicant proposes the following regarding Bermolli No 583/5:

- ◆ Should the PR application be successful and phases 1 and 2 identify Portion 5 of Bermolli No 583 for sampling, the hydrologist and ecologist will revisit the target area and identify the least sensitive part of the proposed ±430 ha area where invasive prospecting will have the lowest impact. Sampling will remain >100 m from all confirmed active watercourses.

- ◆ The site camp will be established on a previously disturbed/altered area.
- ◆ Bulk sampling will be restricted to a maximum disturbance of 1 ha on Bermolli No 583/5 sited at the area/s identified by the specialists.
- ◆ The Applicant will enter discussions with the landowner prior to prospecting and should Bermolli No 583/5 be a declared Nature Reserve prior to the granting of the prospecting right the Applicant will omit the farm from the prospecting programme.
- ◆ A chance find protocol will be implemented to safeguard against impacts of archaeological and/or palaeontological concern.
- ◆ The area will be backfilled once sampling concluded and rehabilitated to a state to be determined and approved by the hydrologist.

Applicable sections in the DEIAR:

- ◆ Part A(1)(g)(iv)(1)(c) Description of specific environmental features and infrastructure on the site – Site Specific Hydrology.
- ◆ Part A(1)(g)(iv)(1)(c) Description of specific environmental features and infrastructure on the site – Site Specific Terrestrial, Biodiversity, Conservation Areas, Groundcover and Fauna.
- ◆ Part A(1)(g)(viii) The possible mitigation measures that could be applied and the level of risk – Hydrology.
- ◆ Part A(1)(g)(viii) The possible mitigation measures that could be applied and the level of risk – Terrestrial, Biodiversity, Conservation Areas, Groundcover and Fauna.

## 5. *Veld fire management*

- a. *What measures will be put in place to prevent fires, and if a fire does occur, will a competent team be available to respond to the fire.*

The risk of fires will be managed through the implementation of the following mitigation measures as proposed in the DEIAR and incorporated into the EMPR:

- ◆ No open fires are permitted on any of the sampling sites. Contained fires for heating and cooking (i.e. in a fire drum) but be restricted to designated areas at the site camp,
- ◆ Employees must be prevented from setting fires randomly outside designated areas.
- ◆ No fuel or chemicals may be stored under trees.
- ◆ Gas may not be stored in the same storage area as liquid fuel.
- ◆ Smoking may only occur at designated areas (>3 m from fuel or chemical storage areas) equipped with sand buckets for the disposal of cigarette buds.

- ◆ Ensure Work Site and the contractor's camp is equipped with adequate firefighting equipment. This includes at least rubber beaters when working in veld areas, and at least one fire extinguisher of the appropriate type irrespective of the site.
- ◆ Specific fire safety precautions must be implemented during welding activities associated with construction work. Ensure a working fire extinguisher is immediately at hand if any "HOT WORK" is undertaken e.g. welding, grinding, gas cutting etc,
- ◆ Any fires noted on site must be reported to the responsible SHE rep and/or fire officer.
- ◆ The site must implement fire emergency procedures for the duration of the site establishment-, operational-, and decommissioning phases.
- ◆ In the event of large fires all personnel must assemble at a safe assembly point to be transported from site. The fire department or local fire watch must be informed of the fire to ensure that the fire is brought under control as soon as possible.

Applicable sections in the DEIAR:

- ◆ Part A(1)(g)(viii) The possible mitigation measures that could be applied and the level of risk – Fire Management.
- ◆ Part B(1)(m)(ii) Manner in which risks will be dealt with in order to avoid pollution or the degradation of the environment

#### 6. *On-site rehabilitation*

- a. *What is the rehabilitation timeframe for each disturbed area. This includes roads, drill pads, park-up areas etc. What methodology will be used.*

Rehabilitation will include activities that can be divided into medium- and long term categories. In the medium term, rehabilitation will entail the continuous reinstatement of prospected areas, and the management of invasive plant species and/or erosion. In the long term, rehabilitation will involve the reinstatement of the remaining disturbed areas (not yet reinstated), prior to the submission of a closure application to the Department of Mineral Resources and Energy (DMRE). The PR holder will further be responsible for the seeding of all rehabilitated areas should vegetation not establish through succession within the first six months.

The jeep tracks (internal roads) will be temporary and will be rehabilitated once prospecting ceases and if the landowner do not wish the track to remain.

The following rehabilitation actions are proposed:

- ◆ Rehabilitation of all the disturbed surface areas shall entail landscaping, levelling, sloping, top dressing, land preparation, seeding (if required), and invasive plant clearing.
- ◆ All unwanted infrastructures, equipment, and other items used during the prospecting period will be removed from the site in accordance with section 44 of the MPRDA, 2002.
- ◆ Waste material of any description, including receptacles, scrap, rubble, and tyres, will be removed entirely from the prospecting area, and disposed of at a recognized landfill facility. It will not be permitted to be buried or burned on the site.
- ◆ The rehabilitation area will be cleared of invader plant species. Priority will be given to species regarded as Category 1a and 1b invasive species in terms of NEM:BA (National Environmental Management: Biodiversity Act 10 of 2004 and regulations applicable thereto).

The decommissioning activities will consist of the following:

- ◆ Removal of all prospecting equipment from the sampling sites;
- ◆ Sealing and capping of the boreholes;
- ◆ Backfilling of all trenches and pits;
- ◆ Removal of all prospecting related infrastructure/containers from the site camp; and
- ◆ Landscaping of any/all compacted areas.

The Applicant will also comply with the minimum closure objectives as prescribed DMRE and detailed in the EMPR in Part B(1)(d)(i) Determination of Closure Objectives.

Each target area will be rehabilitated within 60 days of conclusion of the prospecting activities, upon which it can be signed back to the landowner if he/she so wishes.

Once the entire prospecting area was rehabilitated the Applicant is required to submit a closure application to the Department of Mineral Resources and Energy in accordance with section 43(4) of the MPRDA, 2002 that states: *“An application for a closure certificate must be made to the Regional Manager in whose region the land in question is situated within 180 days of the occurrence of the lapsing, abandonment, cancellation, cessation, relinquishment or completion contemplated in subsection (3) and must be accompanied by the prescribed environmental risk report”.*

Applicable sections in the DEIAR:

- ◆ Part A(1)(d)(ii) Description of the activities to be undertaken – 3. Decommissioning Phase.
- ◆ Part A(1)(u)(i)(1) Impact on the socio-economic conditions of any directly affected person.

- ◆ Part B(1)(d)(i) Determination of closure objectives.

#### 7. Borehole management procedure

- a. How will boreholes be rehabilitated? Provide an illustration. What will the timeline be to sign-off fully rehabilitated boreholes.

As mentioned earlier, each target area will be rehabilitated within 60 days of conclusion of the prospecting activities, upon which it can be signed back to the landowner if he/she so wishes. The following procedure is proposed regarding the rehabilitation of the boreholes and trenches and will be added to the FEIAR and EMPR in addition to the decommission information that already form part of the DEIAR & EMPR.

### **BOREHOLE REHABILITATION PROCEDURE**

#### **Borehole Inspection**

- ◆ Visual Inspection: Check the borehole for signs of contamination, instability, or other issues.
- ◆ Log Data: Document the condition and depth of the borehole.

#### **Decommissioning the Borehole**

- ◆ Seal the Borehole: Depending on regulations, use a suitable sealing method. This may include:
  - Cement Grouting: Filling the borehole with cement or a similar material.
  - Clay Sealing: Using clay to prevent water migration.
  - Remove Equipment: Safely remove any casing, tubing, or other equipment from the borehole area.

#### **Site Restoration**

- ◆ Backfill and Grading: Fill the area around the borehole and grade it to blend with the surrounding landscape.
- ◆ Revegetation: If necessary, plant indigenous vegetation to restore the ecosystem.

#### **Monitoring**

- ◆ Post-Rehabilitation Monitoring: Conduct follow-up assessments to ensure that the rehabilitation measures are effective.

#### **Documentation**

- ◆ Record Keeping: Maintain detailed records of the rehabilitation process, including methods used, materials, and any follow-up monitoring results.

### **Reporting**

- ◆ Submit Reports: Provide necessary documentation and reports to relevant authorities as required by regulations.

## **EXPLORATION TRENCHING REHABILITATION PROCEDURE**

### **Safety Measures**

- ◆ Hazard Identification: Identify any potential hazards (e.g., unstable ground, equipment).
- ◆ Personal Protective Equipment (PPE): Ensure that all personnel wear appropriate PPE.
- ◆ Secure: Trenching Area will be demarcated and secured by protective barricades to ensure no unauthorized personnel or animals can enter the excavation area.

### **Trench Inspection**

- ◆ Visual Assessment: Inspect trenches for erosion, contamination, or instability.
- ◆ Document Conditions: Record findings, including depth, width, and any observed issues.

### **Filling the Trenches**

- ◆ Backfill Material: Use suitable backfill material, such as topsoil and native soil, to refill the trenches.
- ◆ Compaction: Compact the backfill to minimize settling and prevent future erosion.

### **Surface Restoration**

- ◆ Grading: Grade the area to ensure proper drainage and to blend with the surrounding landscape.
- ◆ Erosion Control: Implement erosion control measures (e.g., silt fences, sediment traps) if needed.

### **Revegetation**

- ◆ Seed Selection: Use indigenous vegetation or appropriate seed mixes to promote natural regeneration.
- ◆ Planting: Consider planting seedlings or vegetation in areas where erosion risk is higher.

### **Monitoring and Maintenance**

- ◆ Post-Rehabilitation Monitoring: Regularly check the site for signs of erosion or vegetation failure.
- ◆ Maintenance: Conduct necessary maintenance, such as reseeding or reinforcing erosion controls.

### **Documentation and Reporting**

- ◆ Record Keeping: Document all rehabilitation activities, including methods, materials used, and monitoring results.

- ◆ Final Report: Prepare a report summarizing the rehabilitation process for submission to regulatory bodies if required.

Please refer to the following images as representation of rehabilitated capped boreholes of similar prospecting activities.

8. *Waste management*

- a. *Will adequate waste management practices be implemented and monitored.*

9. *Sanitary services*

- a. *How will sanitation be managed throughout the project.*

The following waste management practices are proposed in the DEIAR and were incorporated into the EMPR:

Due to the nature of the project, the small scale of each prospecting site, and the fact that maintenance work will be done off-site, very little general waste will be generated as a direct result of the prospecting activities. All the general waste generated at the prospecting sites will be transported to the site camp where it will be contained in refuse bins. Once full the refuse bins will be emptied, and the waste will be disposed of at a registered landfill site in the vicinity of the project. Proof of safe disposal will be filed for auditing purposes.

Hazardous waste will mainly be the result of accidental spillages or breakdowns. Such contaminated areas will be cleaned up immediately (within two hours of the occurrence) and the contaminated soil will be contained in designated hazardous waste containers to be removed daily to the hazardous waste storage area at the site camp. A registered contractor will be appointed to collect and dispose of the hazardous waste at a registered hazardous waste handling facility and the site will file the proof of safe disposal for auditing purposes.

The chemical toilets will weekly be serviced by an appropriately qualified sewerage handling contractor who will furnish the site with proof of safe disposal.

Also refer to Part A(1)(g)(viii) The possible mitigation measures that could be applied and the level of risk – Waste Management of the DEIAR.

Applicable sections in the DEIAR:

- ◆ Part A(1)(d)(ii) Description of the activities to be undertaken – Waste Handling.
- ◆ Part A(1)(g)(viii) The possible mitigation measures that could be applied and the level of risk – Waste Management.

Please feel free to download a copy of the DEIAR and EMPR from the Greenmined website at <https://www.greenmined.com/prospecting-rights/>, alternatively a copy of the report can be sent to you via a WeTransfer link.

We trust the abovementioned provides you with more clarity regarding the project. However, should you like to discuss the matter further please do not hesitate to contact me again.

Kind Regards

Christine Fouché

Good Morning Sir,

Greenmined herewith thank you for your email and acknowledge that SIOC (Pty) Ltd is a registered I&AP on this project.

We also confirm that the initial comments (and registration as I&AP) received on 26 February 2024 from you were incorporated into the final Scoping Report (FSR) as well as the draft Environmental Impact Assessment Report (DEIAR) that is presently available for perusal and commenting.

1. Response to the 26 February 2024 comments is available in the DEIAR on specifically pages 105 – 107.
2. Attached hereto also find our response to the comments received on 03 October 2024. These comments and response thereto will also be incorporated into the final EIAR & EMPR prior to submission to the DMRE.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Good Afternoon Sir,

Our telephonic discussion of last week refers.

We do take note of your correspondence and as discussed last week we will respond to you once the matter could be discussed with Greenmined management.

Please note that the commenting period for this specific prospecting right application (with reference number 13826 PR) expired on 04 November 2024 already, and although your response was received after the expire date (07 November 2024) your latest comments were still incorporated into the final Environmental Impact Assessment Report to be submitted to the DMRE for decision making.

It is however emphasized that the nature of your comments relate to community matters in general and is not only applicable to this single project; we will therefore discuss the matter in house and respond to you in due course.

We trust you will find this order.

**Kind Regards / Vriendelike Groete**

## Final Comment

### In terms of Section 38(4) of the National Heritage Resources Act (Act 25 of 1999)

Mr Lionel Koster  
K2022641005 (South Africa) (Pty) Ltd  
Suite 2.1 On the Greens Golf Village  
De Beers Avenue  
Somerset West  
7130

Greenmined Environmental (Pty) Ltd has been appointed by K2022641005 (SOUTH AFRICA) (Pty) Ltd to undertake an Environmental Authorisation (EA) Application for prospecting activities farms Bermolli No 583/5, Engelsdraai No 221/RE, Witdraai No 204/1, Vaalwater No 84/1 & RE and Farm No 570 (Zaai Plaats) in the Northern Cape Province.

A Draft Environmental Impact Assessment (Environmental Impact Assessment Report (dEIAR) and Draft Environmental Management Programme Report (dEMPR) has been submitted in terms of the National Environmental Management Act, 1998 (NEMA) and the EIA Regulations for activities that trigger the Mineral and Petroleum Resources Development Act, 2002 (MPRDA)() (As amended). The proposed activities will include both invasive and non-invasive activities, a central campsite will be erected with temporary infrastructure.

#### Heritage Significance

Beyond Heritage has been appointed to provide heritage specialist input into the EA process in terms of section 24(4)b(iii) of NEMA and section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA).

*Kraljevi?, L. 2024. Heritage Impact Assessment for the Proposed Prospecting Right with Bulk Sampling over Various Farms in the Hay and Kuruman Administrative Districts, Northern Cape.*

The following features have been identified as possible focal points on the landscape for the presence of heritage resources:

- Botha No 313: the Ga-Mogara and Witleegte streams runs along the northwestern boundary.

- Devon No 277: the Witleegte stream runs along the farm, a railway line passes through Portion 1 of the farm.
- Bermolli No 583: a drainage line passes through the farm; a farmyard is present on Portion 4.
- Engelsdraai No 221: a drainage line slopes towards the middle of the farm; two farmyards are situated on the farm and family graveyards have been noted on the farm.
- Witdraai No 204: Hills are prevalent on the farm, two ridges enter the farm at the north-eastern and south-western corners of the farm, a drainage line runs through the farm, a farmyard is present on Portion 1, the Soutloop stream dissects the farm.
- Vaalwater No 84: Hills are prevalent in the southern parts of the farm, a farmyard is present on Portion 1 and south of the remainder of the farm, family graveyards have also been noted on the farm, pans are also present on the farm.
- Farm No 570 (Zaai Plaats): Hills present on the farm Vaalwater 84 continue into the southeastern corner of the Farm No. 570. A drainage line also runs through the farm. Two farmsteads/homesteads are present south of the R383

It is clear from the studies conducted that the general area has a wealth of heritage sites and a cultural layering dating back to the Stone Age with scatters and sites dating to the ESA, MSA and LSA.

Final bulk sample trench/pit locations must be subject to a heritage walk-down prior to invasive prospecting.

Marion Bamford was appointed to Beyond Heritage to conduct the Palaeontological Impact Assessment.

*Bamford, M. 2024. Palaeontological Impact Assessment for the Prospecting Right with bulk sampling over various farms in the Hay and Kuruman Administrative Districts, Northern Cape Province.*

Based on experience and the lack of any previously recorded fossils from the area, it is extremely unlikely that any fossils would be preserved in the overlying soils and sands of the Quaternary.

There is a very small chance that fossils may occur in traps such as palaeo-pans or palaeo-springs. Therefore, a Fossil Chance Find Protocol was added to the EMP. If fossils are found by the contractor, environmental officer or other responsible person once prospecting has commenced it must be rescued and a palaeontologist called to assess and collect a representative sample.

The following comments are made as a requirement in terms of section 38(8) of the NHRA in the format provided in section 38(4) of the NHRA and must be included in the Final BAR and EMPr:

- 38(4)a – The SAHRA Development Applications Unit (DAU) has no objections to the proposed development;
- 38(4)b – The recommendations of the heritage specialists are supported and must be adhered to. In addition, a 50m buffer must be applied to the identified heritage sites;
- 38(4)c(i) – If any evidence of archaeological sites or remains (e.g. remnants of stone-made structures, indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments, charcoal and ash concentrations), fossils or other categories of heritage resources are found during the proposed development, SAHRA DAU ([bmotsodisa@sahra.org.za](mailto:bmotsodisa@sahra.org.za)) must be alerted as per section 35(3) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule;
- 38(4)c(ii) – If unmarked human burials are uncovered, the SAHRA DAU ([bmotsodisa@sahra.org.za](mailto:bmotsodisa@sahra.org.za)) must be alerted immediately as per section 36(6) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule;
- 38(4)d – See section 51(1) of the NHRA regarding offences;
- 38(4)e – The following conditions apply with regards to the appointment of specialists:
  - i) If heritage resources are uncovered during the course of the development, a professional archaeologist or palaeontologist, depending on the nature of the finds, must be contracted as soon as possible to inspect the heritage resource. If the newly discovered heritage resources prove to be of archaeological or palaeontological significance, a Phase 2 rescue operation may be required subject to permits issued by SAHRA;
- The Final BAR and EMPr must be submitted to the SAHRIS application for record purposes.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
