Enquiries: Desiree Tsholofelo Kgole
Telephone: (012) 310 6578

Dear Mr / Ms Marlene Lingenfelder

LAND CLAIMS ENQUIRY – PORTIONS 1, 7 & 8 OF THE FARM EKUPHUMULENI 716, REG DIV JR, GAUTENG

We refer to your land claim enquiry dated 30th July 2020.

We confirm that as at the date of this letter no land claims appear on our database in respect of the Properties listed as per attached list. This includes the database for claims lodged by 31 December 1998; and those lodged between 1 July 2014 and 27 July 2016 in terms of the Restitution of Land Rights Amendment Act, 2014.

Whilst the Commission takes reasonable care to ensure the accuracy of the information it provides, there are various factors that are beyond the Commission's control, particularly relating to claims that have lodged but not yet been gazetted such as:

1. Some Claimants referred to properties they claim dispossession of rights in land against using historical property descriptions which may not match the current property description; and
2. Some Claimants provided the geographic descriptions of the land they claim without mentioning the particular actual property description they claim dispossession of rights in land against.

The Commission therefore does not accept any liability whatsoever if through the process of further investigation of claims it is found that there is in fact a land claim in respect of the above property.

If you are aware of any change in the description of the above property after 19 June 1913 kindly supply us with such description so as to enable us to do a further search.

In conclusion, please note that **enquiries should be forwarded to Desiree Tsholofelo Kgole** who could be reached at the following contact details: Tel: (012) 310-6578 or via e-mail at desiree.kgole@drdlr.gov.za

Yours faithfully

MS. L.J. BOGATSU
CHIEF DIRECTOR
OFFICE OF THE REGIONAL LAND CLAIMS COMMISSION
GAUTENG PROVINCE

DATE: 

OFFICE OF THE REGIONAL LAND CLAIMS COMMISSIONER: GAUTENG

No. 9 Bailey Lane, Arcadia, 0007 | Private Bag X 03, Arcadia, 0007

Tel: (012) 310 6500 | Fax: (012) 323 0312

Enquiries: Desiree Tsholofelo Kgole
Telephone: (012) 310 6500/6578

Dear Mr / Ms Marlene Lingefelder

LAND CLAIMS ENQUIRY – PORTION 5 OF THE FARM KLOPPERSBOS 128, REG DIV JR, GAUT-ENG

We refer to your land claim enquiry dated 30th July 2020.

We confirm that there are land claims against the properties as per attached list. It should be noted that the claims were received during two lodgement periods and as a result different requirements will be applicable. The first lodgement period closed on the 31st of December 1998 and the 2nd lodgement period was from the 1st of July 2014 to the 27th of July 2016.

Claims lodged during the first lodgement period were lodged in terms of the Restitution of Land Rights Act, 1994 (Act No. 22 of 1994) and claims lodged during the 2nd lodgement period were lodged in terms of the Restitution of Land Rights Amendment Act, 2014 (Act No. 15 of 2014) ("the Amendment Act") which, amongst others, reopened the lodgement of claims for a period of five years.

The claim/s lodged during the first lodgement period were lodged **as per attached list indicated by old claims** before 31 December 1998 and the claim/s lodged during the second lodgement period were lodged **as per attached list indicated by new claims** from the 1st July 2014 to 27th July 2016.

With regard to the claims lodged before the 31st of December 1998, we confirm that the claims have been accepted by the Regional Land Claims Commissioner as compliant with the requirements of the Restitution of Land Rights Act, 1994. As a result, you need to comply with section 11 (7) of the Restitution of Land Rights Act, 1994 by informing (giving one month's notice) to the Commission on Restitution of Land Rights before you sell, exchange, donate, lease, subdivide, rezone or develop the property.

With regard to the claim lodged during the 2nd lodgement period, the validity of the Amendment Act was challenged in the Constitutional Court. The Constitutional Court found the Amendment Act to be invalid because of the failure of Parliament to facilitate public involvement as required by the Constitution. The Amendment Act ceased to be law on 28 July 2016.

The Constitutional Court ordered that the claims that were lodged between 1 July 2014 and 27 July 2016 are validly lodged, but it interdicted the Commission from processing those claims until the Commission has finalised the claims lodged by 31 December 1998 or until Parliament passes a new law providing for the re-opening of lodgement of land claims. Parliament was given until 27 July 2018 to pass such a law.

Parliament has so far not been able to pass new legislation and has instead approached the Constitutional Court for an extension until 29 March 2019 and the application was rejected. As a result the Commission will, unless directed otherwise until by the Constitutional Court, not be processing claims lodged between 1 July 2014 until 27 July 2016 until all the claims lodged on or before 31st December 1998 are finalised and or a new Act is passed by Parliament and signed into law by the President. In the meantime, the Commission through the Chief Land Claims Commissioner has been ordered to report the progress of all the outstanding land claims on six months basis for monitoring by the court.

The Commission will communicate widely once we have been granted permission to begin dealing with these claims lodged during the 2nd lodgement period.

It is important to note that the provisions of section 11 (7) of the Restitution of Land Rights Act, 1994 do not apply to claims lodged during the 2nd lodgement period until after the Commission has accepted the claim for investigation and published its details in the Government Gazette. That will only be done on the happening of the event in the previous paragraph.

For further enquiries please contact

Solomon Maruma at solomon.maruma@drrlr.gov.za , telephone 012 310 6588

Edith Mokgoko at Edith.mokgoko@drrlr.gov.za , telephone 012 310 6573.

Yours faithfully

Tel: (012) 310 6500 | Fax: (012) 323 0312

1. Section 11(7) of the Restitution of Land Rights Act provides as follows:

11 (7) Once a notice has been published in respect of any land -

(a) no person may in an improper manner obstruct the passage of the claim

aA) no person may sell, exchange, donate, lease, subdivide, rezone or develop the land in question without having given the regional land claims commissioner one month's written notice of his or her intention to do so, and, where such notice was not given in respect of

- (i) any sale, exchange, donation, lease, subdivision or rezoning of land and the Court is satisfied that such sale, exchange, donation, lease, subdivision or rezoning was not done in good faith, the Court may set aside such sale, exchange, donation, lease, subdivision or rezoning or grant any other order it deems fit;**
- (ii) any development of land and the Court is satisfied that such development was not done in good faith, the court may grant any order it deems fit;**

The above section has been misinterpreted to mean that once a claim **has been lodged** the land owner cannot sell, donate, develop, lease, exchange or donate. While in actual fact it means the land owner cannot do those things listed in (i) above **after a notice of claim has been published in a government gazette notice without giving one month notice of your intention to do so** to the Regional Land Claims Commissioner having a jurisdiction over such land and/or property.

After the claim has been found to be valid the office must publish a gazette notice of claim first in a government gazette notice, and if anyone wants to do anything listed in (i) above must give a written notice to the RLCC.

**EXAMPLE OF THE BACKGROUND INFORMATION
LETTER SENT TO INFORM THE STAKEHOLDERS
AND I&AP'S ON 8 JULY 2020**

BACKGROUND INFORMATION DOCUMENT

Applicant:

Lomeza Opencast Operations (Pty) Ltd
Postnet Suite 398
Private Bag x 7297
Witbank
1035
Tel: 012 665 2261/2

To whom it may concern:

7 July 2020

RE: NOTICE OF APPLICATION IN TERMS OF SECTION 16 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS OF 2014 (AS AMENDED BY GNR 326 EFFECTIVE 7 APRIL 2017).

Lomeza Opencast Operations (Pty) Ltd ("hereinafter referred to as "the Applicant") intends to apply for a prospecting right on portion 5 of the farm Kloppersbos 128 JR and portions 1, 7 and 8 of the farm Ekuphumuleni 716 JR (409.7979 ha), which falls in Magisterial District of Cullinan (Nokeng Tsa Taemane Local Municipality), City of Tshwane, Gauteng Province.

SITE DESCRIPTION

The farms portion 5 of the farm Kloppersbos 128 JR and portions 1, 7 and 8 of the farm Ekuphumuleni 716 JR is situated approximately 15.63 km North-West of Cullinan. The commodity of interest is Coal.

The GPS coordinates of the proposed prospecting area is as follows:

Name	DEC DEGREES	
	LAT	LONG
A	-25.493619831	28.381092381
B	-25.497155124	28.387415755
C	-25.500204797	28.393007643

BACKGROUND INFORMATION DOCUMENT

LEGAL COMPLIANCE

An application for a prospecting right in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) [MPRDA] will be submitted to the Department of Mineral Resources and Energy (DMRE).

The proposed project triggers the following listed activities in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) [NEMA] and the Environmental Impact Assessment (EIA) Regulations (as amended by GNR 326 effective 7 April 2017), and therefore requires a basic assessment process to obtain environmental authorisation:

■ GNR 327 Environmental Impact Assessment Regulations Listing Notice 1 of 2017 Activity 20:

Any activity including the operation of that activity which requires a prospecting right in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including —

(a) associated infrastructure, structures and earthworks, directly related to the prospecting of a mineral resource

(b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing;

but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.

■ GNR 327 Listing Notice 1 of 2017 Activity 22:

The decommissioning of any activity requiring –

i) a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or

ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.

■ GNR 324 Listing Notice 3 of 2017 Activity 12:

The clearance of an area of 300 square meters or more of indigenous vegetation.

c) Gauteng Province

i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004;

BACKGROUND INFORMATION DOCUMENT

- ii. Within Critical Biodiversity Areas or Ecological Support Areas identified in the Gauteng Conservation Plan or bioregional plans; or*
- iii. On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning.*

Other legislation triggered by the proposed project includes:

- An application for a Prospecting Right in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) has been submitted to the Department of Mineral Resource.

PROJECT DESCRIPTION

The proposed prospecting area is a natural area. The planned activities for the proposed site's is detailed below. All activities will be contained within the boundaries of the site.

DESCRIPTION OF PLANNED NON-INVASIVE ACTIVITIES:

(These activities do not disturb the land where prospecting will take place, e.g. aerial photography, desktop studies, aeromagnetic surveys, etc)

Phase 1 (months 1 to 2), phase 3 (months 6 to 9) and phase 4 (months 10 to 12)

Desktop studies form a very important preparatory step in a new coal exploration project, and as the name suggests, this task is executed mainly from an office environment. Desktop studies will be conducted by the project geologist as part of preliminary investigations into the prospecting area by looking at all relevant published literature, geological maps, mining maps and any available evidence or records of coal findings. The outcome of the desktop studies will be a geological report of the prospecting area with a particular emphasis on the prospectivity of the area. This report will also inform other subsequent prospecting steps.

Field geological studies will follow after the desktop studies, and they typically include walking over the prospecting area making general observations of the geology and topography. Geological mapping activities, if terrain is suitable, may include detailed outcrop mapping, identification of coal hosting strata, coal seam outcrop mapping and sampling of exposed coal seams where available.

The 3D geological modelling and resource estimation step will follow after favourable exploration drilling results. This geological modelling step mainly entails geological interpretation of collected logsheet data and the subsequent geological domaining. The geological model, which shows the physical continuity of the coal seams and the distribution of the coal qualities, is a critical input in coal resource estimation. The coal resource statement, which is an outcome of the resource estimation process, gives an indication of the amount of available coal resources in tonnage and associated qualities.

BACKGROUND INFORMATION DOCUMENT

DESCRIPTION OF PLANNED INVASIVE ACTIVITIES:

(These activities result in land disturbances e.g. sampling, drilling, bulk sampling, etc.)

Phase 2 (months 3 to 5)

The objective of the exploration drilling is to confirm the presence of coal measures, delineate the vertical and lateral extents of the coal measures, and, through suitable tests, the quality of the coal. Percussion and diamond coring are the preferred drilling methods. The resultant drill holes will be cased and capped to make it safe for people and animals, and also allow for future access by the exploration team.

DESCRIPTION OF PRE-/FEASIBILITY STUDIES:

(Activities in this section include but are not limited to: initial geological modelling, resource determination, possible future funding models, etc.)

The pre-/feasibility studies team will comprise of a diverse team of technical expertise in the field of mineral projects, including, geologists, mining engineers, metallurgical engineers, civil engineers, mechanical engineers, environmental scientists, marketing professionals and mineral project finance professionals. The list of activities under pre-/feasibility studies includes the following:

- Geological modelling and coal resource estimation;
- Coal reserve estimation;
- Mine design and scheduling;
- Metallurgical processing;
- Market development;
- Infrastructure design
- Engineering development
- Human resourcing
- Project development and operational costing

The prospecting site will contain the following:

- Surveying Equipment;
- Drilling equipment;
- Geophysical logging equipment;
- Field Vehicles;
- Sample Analysis equipment; and
- Other relevant field equipment.

BACKGROUND INFORMATION DOCUMENT

MAIN PROSPECTING ACTIVITIES:

- Drill site establishment:
A drill site of approximately 200 m² will be established that will require:
 - Clearing of vegetation for sumps and the drill entrance point – a maximum of three sumps, with each sump not measuring more than 1 m² will be operation at a time, a total of 3 m² will be cleared per site.
 - Laydown area for drill rods,
 - Fuel and chemical will be stored in a field vehicle;
 - Chemical toilets will be placed in the vicinity of the site.

- Drilling and removal of geological cores:
Drilling a hole of approximately 67 mm in diameter and removing of rock core. Number of boreholes will be finalised once non-invasive prospecting is completed.

BIOPHYSICAL DESCRIPTION

GEOLOGY & SOILS:

The large southern and eastern parts of this area are underlain by granite of the Lebowa Granite Suite and some granophyre of the Rashoop Granophyre Suite (both Bushveld Complex, Vaalian). In the north, the sedimentary rocks of the Waterberg Group (Mokolian Erathem) are most important. Specifically, sandstone, conglomerate and siltstone of the Alma Formation and sandstone, siltstone and shale of the Vaalwater Formation. Well-drained, deep Hutton or Clovelly soils often with a catenary sequence from Hutton at the top to Clovelly on the lower slopes; shallow, skeletal Glenrosa soils also occur. Land types mainly Bb, Fa, Ba, Bd and Ac

Soils vary from planted grassland previously improved grassland, to cultivated, temporary/permanent, commercial/subsistence irrigated/dryland. Soil fall within the following patterns:

LP1 – soils with minimal development, usually shallow or hard or weathered rock, with or without intermitted diverse soils. Lime rate to absent in in the landscape

Management:

- Activity should be limited to area of disturbance. Where required the compacted soils should be disked to an adequate depth and re-vegetated with indigenous plants.
- All vehicles will be regularly serviced to ensure they are in proper working condition and to reduce risk of leaks. All leaks will be cleaned up immediately using an absorbent material.
- Ensure activities occur only within the designated areas and stockpile and revegetated soil as soon as possible.

BACKGROUND INFORMATION DOCUMENT

SURFACE AND GROUND WATER:

The proposed site falls within the Crocodile (West) and Marico Water Management Area, in the A23B quaternary catchment area. There are various streams and small farm dams in the area. The Pienaars River is located approximately 3 km south west of the site and the Boekenhoutspruit located approximately 3 km to the east of the site area.

Management:

- Truck, machinery and equipment will be regularly serviced to reduce risk of leaks. Any leakages should be reported and treated immediately in a reputable manner. For large spills Hazmat will called in.
- All vehicles will be regularly serviced to ensure they are in proper working condition and to reduce risk of leaks. All leaks will be cleaned up immediately using an absorbent material.
- Ensure water management facilities are operating adequately. Clean out silt build up over dry season.
- Monitor area for erosion and pooling and rehabilitate if necessary. Continue with Surface water monitoring.
- Portable toilets will be managed by reputable contractors and inspected daily for potential leaks
- Waste generated on site should be recycled as far as possible and sold/ given to interested contractors. Recycled waste should not be stored on site for excessive periods to reduced risk of environmental contamination. Refuse bins will be placed around site to collect all non-recycle waste for disposal at the municipality.
- Rigs will be regularly serviced to reduce risk of leaks. Pans will be placed under potential leak sites. Any leakages should be reported and treated as per the emergency response plan. For large spills a hazardous materials company will called in.

LAND USE

The current surrounding land uses can be classified as agricultural land, chicken farming, grazing, game farming and tourism. The Kloppersbos Explosion Research facility is located to the west of the property. It was noted that there were plantations on the property.

BACKGROUND INFORMATION DOCUMENT

SENSITIVE LANDSCAPES:

According to the Gauteng C-Plan 3.3 terrestrial Critical Biodiversity Areas (CBAs), sections of the proposed site falls within an Ecological Support Area. This area will be excluded from prospecting activities.

Figure 2: View of the proposed prospecting right area of Lomeza Opencast Operations - Gauteng C-Plan 3.3 terrestrial Critical Biodiversity Areas (CBAs).

Management:

- Protected areas must be cordoned off with at least 100m horizontal distance buffer zones and no activity is to take place within these areas.

AIR QUALITY:

Management:

- Speed on the access road will be limited to 30 km/h to prevent the generation of excess dust.
- Roads will be sprayed with water or an environmentally friendly dust-allaying agent that contains no PCB's (e.g. DAS products) if dust is generated above acceptable limits.
- All vehicles will be regularly serviced to ensure they are in proper working condition and to reduce the risk of excessive emissions.

BACKGROUND INFORMATION DOCUMENT

NOISE:

Management:

- Vehicles will be regularly serviced to ensure acceptable noise levels are not exceeded.
- All prospecting vehicles will be equipped with silencers and maintained in a road worthy condition in terms of the Road Transport Act.
- It will be ensured that employees and staff conduct themselves in an acceptable manner while on site.

FLORA:

According to Mucina and Rutherford (2012) the vegetation type of the surrounding natural areas are known as the SVcb 12 Central Sandy Bushveld which is listed as a vulnerable ecosystem. The vegetation type of the surrounding natural areas consists of low undulating areas, sometimes between mountains, and sandy plains and catenas supporting tall, deciduous *Terminalia sericea* and *Burkea africana* woodland on deep sandy soils (with the former often dominant on the lower slopes of sandy catenas) and low, broad-leaved *Combretum* woodland on shallow rocky or gravelly soils. Species of *Acacia*, *Ziziphus* and *Euclea* are found on flats and lower slopes on eutrophic sands and some less sandy soils. *A. tortilis* may dominate some areas along valleys. Grass-dominated herbaceous layer with relatively low basal cover on dystrophic sands. The study area consists of leve plains with some relief, irregular plains with high hills or ridges can be noted in the area. The vegetation of the area is classified as Savanah Biome, specifically the Central Sandy Bushveld.

Management:

- Ensure permits are obtained to remove protected species if needed. Relocate all protected species with aid of specialists. Only remove species in areas designated for activity and do not disturb surrounding areas.
- Rehabilitate disturbed areas with natural indigenous flora. Monitor for cover abundance.
- Eradicate and control all alien invasive species on site. Rehabilitate and revegetated all areas where alien invasive species were removed.

BACKGROUND INFORMATION DOCUMENT

FAUNA:

Various small mammals and reptiles occur on the property. Larger herbivore species are very scarce or absent due to the conflicting land use. Small mammals, reptiles and insects will occur in the area. The fauna at the site will not be impacted by the proposed prospecting activity as they will be able to move away or through the site, without being harmed. Workers should be educated and managed to ensure that no fauna at the site is harmed. At this stage no resident protected or red data faunal species were identified within the earmarked footprint, and the project is expected to have a negligible impact in this regard as prospecting activities will be done by drilling prospecting boreholes comprising an area of less than 400 square meters per site.

Management:

- Workers should be educated and managed to ensure that no fauna at the site is harmed.

SITES OF ARCHAEOLOGICAL AND CULTURAL INTEREST:

The proposed site falls in the surrounding area of the Komjekejeke Heritage site, therefore a Heritage Impact Assessment will be conducted. This report will be made available for public comments during with the Draft Basic Assessment Report (DBAR)

Management:

- Should artefacts archaeological items be observed, then all activity should cease immediately, the area marked off and a specialist consulted prior to any further activity.
- Should graves be observed on site during activity progress then all activity should have ceased and the area demarcated as a no-go zone. A specialist will need to be consulted and responsible action considered, whether grave relocation or ceasing activity completely within the area and 50m buffer zone.

ACCESS ROUTE:

- The site can be accessed via the Kloppersbos/Pyramid Gravel Road. The site is located approximately 14.26 km towards N1 North (Polokwane), via the off ramp 163 towards Pyramid/ Wallmannsthal/ R101, right on the Kloppersbos/Pyramid Road (D327) the site is located on the right. Informal roads already exist on site and no new roads will be constructed. Vehicular movement will be restricted to existing access routes to prevent crisscrossing of tracks through undisturbed areas.

Management:

- Should any other access roads to the prospecting area be required it will be established in consultation with the landowner however existing roads will be used as far as practicable.
- All intersections with main tarred roads will be clearly signposted. Drivers will be enforced to keep to set speed limits. Trucks will be road-worthy condition with reflective strips.

BACKGROUND INFORMATION DOCUMENT

- A fund will be set aside to maintain the serviceability of the road verge where the trucks approach or depart from the main road.

VISUAL EXPOSURE:

The project is expected to have a negligible impact in this regard as prospecting activities will be done by drilling prospecting boreholes comprising an area of less than 400 square meters per site. The sites will also be rehabilitated prior to the opening of another site.

Management:

- The applicant should however ensure that housekeeping is managed to standard, as this will mitigate the visual impacts during the operational phase of the mine.
- Upon closure the site will be rehabilitated and sloped to ensure that the visual impact on the aesthetic value of the area is kept to a minimum.
- The site will have a neat appearance and be kept in good condition at all times.

ABLUTION, WASTE WATER & WASTE DISPOSAL:

- Ablution facilities will consist of chemical toilets hired from a contractor and serviced regularly.
- Any effluents containing oil, grease or other industrial substances will be collected in a suitable receptacle and removed from the site, either for resale or for appropriate disposal at a recognised facility.
- Spills would be cleaned up immediately to the satisfaction of the Regional Manager by removing the spillage together with the polluted soil and by disposing of them at a recognised facility.
- No prospecting waste will be generated. General waste will be disposed at an authorised disposal facility.
- Non-biodegradable refuse such as glass bottles, plastic bags, metal scrap, etc., will be stored in a container at a collecting point and collected on a regular basis and disposed of at a recognised landfill site.
- Biodegradable refuse generated will be handled as indicated above.
- No waste will be burned or buried on site.

FINAL REHABILITATION:

- Rehabilitation of the surface area shall entail landscaping, levelling, top dressing, land preparation, seeding (if required), and weed / alien clearing.
 - All infrastructures, equipment, and other items used during the prospecting period will be removed from the site (section 44 of the MPRDA).
- Waste material of any description, including receptacles, scrap, rubble and tyres, will be removed entirely from the prospecting area and disposed of at a recognised landfill facility. It will not be permitted to be buried or burned on the site.

BACKGROUND INFORMATION DOCUMENT

- The rehabilitation area will be cleared of weeds and invader plant species. Priority will be given to species regarded as Category 1a and 1b invasive species in terms of NEM:BA (National Environmental Management: Biodiversity Act 10 of 2004 and regulations applicable thereto).
- Final rehabilitation shall be completed within a period specified by the Regional Manager.

APPLICATION FOR CLOSURE

- Once the full prospecting area was rehabilitated the PR Holder will submit a closure application to the Department of Mineral Resources and Energy in accordance with section 43(4) of the MPRDA, 2002 that states: "An application for a closure certificate must be made to the Regional Manager in whose region the land in question is situated within 180 days of the occurrence of the lapsing, abandonment, cancellation, cessation, relinquishment or completion contemplated in subsection (3) and must be accompanied by the prescribed environmental risk report".
- The Closure Application will be submitted in terms of Regulation 62 of the MPRDA, 2002, and Government Notice 940 of NEMA, 1998.

PUBLIC INVOLVEMENT

This document is to inform you about the proposed activity and to determine whether there are any concerns or objections from Interested and Affected Parties (I&AP's) that need to be considered.

As an Interested and Affected Party you are kindly requested to complete the comments form and give any comment, concern or input with regard to the current land use of the area, the environment as well as socio-economic conditions that you feel might be affected by the proposed activity. When submitting response please provide suggestions to mitigate the anticipated impact of each identified activity.

Please contact Sonette Smit at the contact details as presented in the letterhead or at sonette.s@greenmined.co.za through any means should you need more information, have concerns or comments that need to be considered or if you want to be registered as an interested and / or affected party and would like to receive a copy of the Draft Basic Assessment Report (DBAR) on or before **11 August 2020**. If we do not receive any comments from you within 30 days of receipt of this notice, it will be accepted that you do not have any objections / comments with regard to the project.

A register of interested and affected parties (I&AP's) will be opened and maintained containing the names, contact details and address of all persons who have submitted written comments, attended meetings or have in writing requested to be registered and all organs of state which have jurisdiction in respect of the activity.

Please note that only registered I&AP's and stakeholders will be entitled to comment on reports and plans to be submitted to the Department provided that the party provide its name, contact details and address and discloses any direct business, financial, personal or other interest which he / she may have in the approval or refusal of the applications.

BACKGROUND INFORMATION DOCUMENT

The DBAR will be submitted to the Department of Mineral Resources and Energy(DMRE), Gauteng, for review purposes. This report will also be made available to the public for a 30 days review period. An electronic copy of the report will be published on the Greenmined Environmental website (www.greenmined.com)

The DBAR will then be updated to reflect the comments received during the public commenting period. Upon which, the Final Basic Assessment Report (FBAR) will be submitted to the DMRE for its consideration as part of the authorization process in terms of the NEMA regulation. A copy of the final report will be made available on the Greenmined Environmental website (www.greenmined.com). All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

Dear Sirs,

**RE: MY CLIENTS: THE JOUBERT TRUST IT 4791/2001; THE BRANRON
FAMILIE TRUST IT 3207/1997; JOUBERT TRUST IT 4791/2001; THE JARDIM
FAMILY TRUST IT 9689/1999 AND JOHAN GROBLER OF THE FARM PORTION
5 KLOPPERBOS 128 JR**

1. I act on behalf of:

1.1. The Branron Familie Trust, an *inter vivos* trust, registered under number IT3207/1997, herein represented by its authorised trustee Francisco Jose Rosa Martins.

1.2. The trustees for the time being of the Joubert Trust, an *inter vivos* trust, registered under number IT 4791/2001; herein represented by its authorised trustee Gerhardus Jakobus Joubert.

1.3. The Jardim Familie Trust, an *inter vivos* trust, registered under number IT 9689/1999, herein represented by its authorized trustee, Jacques Quintin Jardim.

1.4. Johan Grobler Of The Farm Portion 5 Klopperbos 128 Jr.

("my clients")

2. I refer to:

2.1. The notice of application in terms of the Mining and Petroleum Resources Development Act 28 of 2002 ("**MPRDA**") and the National Environmental Management Act 107 of 1998 ("**NEMA**") dated 8 July 2020 ("the notice"); an

2.2. Your email dated 17 July 2020 ("the letter").

3. I record that:

3.1. My client, the Branron Familie Trust is the registered owner of Portion 7, of the farm Ekuphumuleni, No. 716; Registration Division JR, Province Gauteng: Measuring 109,3777 hectares in extent, held by it under Deed of Title number T164969/2003 ("the farm");

3.2. My client, the Joubert Trust, is the registered owner of and Portion 1 of the Farm Ekuphumuleni, under Deed of Title number T164968/2003.

3.3. My client, the Jardim Family Trust, is the registered owner of Portion 8 Ekuphumuleni, under Deed of Title number T164977/03.

3.4. Johan Grobler of The Farm Portion 5 Klopperbos 128 Jr.

3.5. My clients' farms are situate within the Dinokeng Nature Reserve which either has been or is in the process of being declared a National Protected area in

terms of the National Environment Management Protected Areas Act 57 of 2003.

4. My clients:

4.1. Are “interested and affected parties” for the purposes of Chapter 5 of NEMA as defined in section 1 thereof, who intends to participate in the public information and participation procedures as contemplated in section 24(4)(v) of NEMA.

4.2. Requires to be registered as Interested and Affected parties and requests a copy of the Draft Basic Assessment Report (“DBAR”) referred to in the aforesaid notice forthwith.

5.

5.1. In the aforesaid notice, you record in the first paragraph thereof, that you, as the applicant, “intends to apply for a prospecting right on *inter alia* my clients’ farm”.

5.2. You thereafter record in the third page of the notice that:

“An application for a prospecting right in terms of section 16 of the MPRDA will be submitted to the Department of Mineral Resources and Energy (DMRE).”

5.3. You then record that an application for a prospecting right has been submitted;

5.4. It is accordingly unclear as to what the purpose of your letter is to my clients and what you intend thereby. On the assumption that you have made application in terms of section 16 of the MPRDA, for a prospecting right, your letter serves no purpose at all, other than an extra curial invitation to engage with my clients “to amicably resolve certain issues which were recently raised”. I deal with this below.

6. The first paragraph in the notice under the caption “**Public Involvement**” reads as follows:

“This document is to inform you about the proposed activity and to determine whether there are any concerns or objections from interested and affected parties (I and APs) that need to be considered.”

7. An application in terms of section 16 of the MPRDA does not require the recordal of such an invitation. My clients’ participation as an interested and affected person, arises only when the Regional Manager gives notice of the right which my clients have in terms of section 16(4) of that Act. This is because:

7.1. In terms of section 16(1) of the MPRDA you are required to simultaneously make application to both the Minister of Minerals and Energy; and

7.2. Apply for an Environmental Authorisation as defined in section 1 of NEMA, by lodging such application for Environmental Authorisation at the office of the Regional Manager in this region the land is situated.. (The term “Environmental Authorisation” in section 1 of NEMA is defined as follows:

“When used in chapter 5, means the authorisation by a competent authority of a listed activity or specified activity in terms of this Act, and includes a similar authorisation contemplated in a specific environmental management Act;”)

7.3. Accordingly, an application for a prospecting right can only be made if the Regional Manager accepts the application and gives notice to you in writing:

(a) To submit relevant environmental reports required in terms of chapter 5 of NEMA, within 60 days of the date of notice; and

(b) To consult in the prescribed manner with *inter alia* the landowner and any interested and affected party and include the result of the consultation in the relevant environmental reports.

(c) It is not clear from your letter whether the Regional Manager has given you notice in terms of section 16(4) of the MPRDA and whether your letter constitutes an invitation to my client, to participate in your application and to give reasons why it opposes your application for a prospecting right.

8. It is further unclear whether the notice dated 8 July 2020 is a copy of your application for a prospecting right in terms of section 16 of the MPRDA together with an application to the Regional Manager for Environmental Authorisation (which appears not to be the case), or whether the notice dated 8 July 2020 is an intimation of what you intend to make application for to the Minister. This is because:

8.1. The notice dated 8 July 2020 is not addressed to the Minister and the Regional Manager;

8.2. The notice dated 8 July 2020 is headed at the top of the page with the words:

“BACKGROUND INFORMATION DOCUMENT”

8.3. Does not include the following:

(a) The Environmental Reports;

(b) The Environmental Impact Assessments;

(c) The Strategic Environmental Assessments;

(d) The Environmental Management Programs;

- (e) The Environmental Implementation Plan, contemplated by section 11 of NEMA;
- (f) The Environmental Management Plan, contemplated by section 11 of NEMA;
- (g) Documentary proof of your budget;
- (h) Documentary proof of your financial resources and your technical ability to conduct the proposed prospecting operation optimally, in accordance with the Prospecting Work Program in terms of section 17(1)(8) of the MPRDA.
- (i) Details of your estimated expenditure for the proposed prospecting operation;
- (j) Details of your estimate of the duration of the prospecting work program;
- (k) A report that such prospecting will not result in unacceptable pollution, ecological degradation or damage to the environment, as contemplated by section 17(1)(c) of the MPRDA.

9. As such, there are three issues which require clarification:

- 9.1. Whether the notice of application for a prospecting right dated 8 July 2020 is an application to the Minister for a Prospecting Right in terms of section 16 of the MPRDA; and
- 9.2. Whether you have applied for an Environmental Authorisation at the office of the Regional Manager in whose region the land is situated and if so, when;
- 9.3. Whether your invitation to consult arises from a written notice from the Regional Manager, having accepted your application to consult with my clients, for the purpose of including the result of such consultations in the relevant environmental reports.

10. In the event that your invitation to consult with my clients is in terms of notification given by the Regional Manager in terms of section 16(4) then I require from you the following:

- 10.1. The Environmental Impact Assessments;
- 10.2. The Strategic Environmental Assessments;
- 10.3. The Environmental Management Programs;
- 10.4. The Environmental Implementation Plan, contemplated by section 11 of NEMA;
- 10.5. The Environmental Management Plan, contemplated by section 11 of NEMA;
- 10.6. Full details of the financial provision. Section 24P of NEMA provides for financial provision for remediation of environmental damage. Section 24P reads as follows:

“24P(1) An applicant for an Environmental Authorisation relating to prospecting, exploration, mining or production, must, before the Minister responsible for mineral resources issues the Environmental Authorisation, comply with the prescribed financial provision for the rehabilitation, closure and ongoing post decommissioning management of negative environmental impacts.”
- 10.7. In terms of NEMA and the MPRDA, a ministerial decision is required for the rehabilitation, as well as a lodged financial provision and closure certificate. In other words, a Ministerial decision is required for the

rehabilitation and for the lodged financial provision and closure certificate.

10.8. **Documentary proof of a budget, as well as documentary proof of your financial ability in respect thereof:**

- (a) Details of your access to financial resources and your technical ability to conduct the proposed prospecting operation optimally, in accordance with the Prospecting Work Program in terms of section 17(1)(8) of the MPRDA.
- (b) Full details of your estimated expenditure for the proposed prospecting operation and duration of the prospecting work program.
- (c) The report that such prospecting will not result in unacceptable pollution, ecological degradation or damage to the environment, as contemplated by section 17(1)(c) of the in MPRDA.

11. If no application has been made by you for a prospecting right, in terms of section 16 of the MPRDA then please advise what the purpose is of your letter dated 17 July 2020 and what you intend to achieve thereby. I am instructed that my clients will oppose your application for a prospecting right, as an interested and affected party, once it is invited to participate, consequent upon a lawful application being made by to the Minister and the Regional Manager. My clients' concerns at this juncture (which are by no means exhaustive) is the following:

- 11.1. You intend the drill site to be approximately 200 m². You do not state on whose land such drill site will be.
- 11.2. There is no evidence at all that there are coal deposits in the area and my client requires probative evidence as to the possible existence of coal deposits on his farm.
- 11.3. There exists no evidence of all that you have made application for a

Water Use License in terms of section 40 of the National Water Act 36 of 1998.

11.4. There is no evidence at all that members of the community and other persons who may become interested and affected persons, other than my clients' farm and Portions 1 + 7 and 8 of the Farm Ekuphumulemi 716 JR have been invited to participate in your application and Johan Grobler Portion 5 Kloppersbos 128 JR

12. Please may I have a response to this letter as soon as possible so that the interests of my client can be protected.

13. If an initial meeting is to be held between yourself and my clients and should such meeting be held with a meaningful purpose, my clients agree to such meeting being held by virtual technology.

14. All my clients' rights are reserved.

Yours faithfully,

GLYNNIS COHEN ATTORNEY

mineral resources

Department:
Mineral Resources
REPUBLIC OF SOUTH AFRICA

APPLICATION FORM FOR ENVIRONMENTAL AUTHORISATIONS IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 AND THE NATIONAL ENVIRONMENTAL MANAGEMENT WASTE ACT, 2008 IN RESPECT OF LISTED ACTIVITIES THAT HAVE BEEN TRIGGERED BY APPLICATIONS IN TERMS OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (MPRDA) (AS AMENDED).

IMPORTANT NOTICE

Kindly note that:

1. As from 8 December 2014, this document serves as the application form, and incorporates the requisite documents that are to be submitted together with the application for the necessary environmental authorisations in terms of the said Acts.
2. This application form is applicable while the Mineral and Petroleum Resources Development Amendment Act of 2008 is in effect, as the form may require amendment should the Act be further amended.
3. Applicants are required to apply for the necessary water use licence and any other authorisations nor licences to the relevant competent authorities as required by the relevant legislation. Upon acceptance of an application for a right or permit in terms of the MPRDA, applicants will be required to provide evidence to the Regional Manager that a water use licence has been applied for.
4. The Regional Manager will respond to the application and provide the reference and correspondence details of the Competent Authority, and in the event that the application for a right or permit is accepted, together with the date by which the relevant environmental reports must be submitted. Notwithstanding anything that may appear to be stated to the contrary in the acceptance letter, the timeframes are in fact aligned and the prescribed timeframes for the submission of documents as regulated by the NEMA regulations must be strictly adhered to.
5. The application must be typed within the spaces provided in the form. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. Spaces are provided in tabular format and will extend automatically when each space is filled with typing.
6. The failure to submit complete information as required in this application form may result in the refusal of the application for an environmental authorisation and consequently of the right or permit applied for.
7. This application must be submitted through the SAMRAD online application system of the Department of Mineral Resources under "Other documents to upload".
8. Unless protected by law, all information filled in on this application form will become public information on receipt by the competent authority. Any interested and affected party should and shall be provided with the information contained in this application on request, during any stage of the application process.
9. Please note that an application fee is payable in terms of the National Environmental Management Act and the National Waste Management Act, which fees must be paid upon lodgement of the application. Should the said application fees not be paid as prescribed the application for a right or permit in terms of the Mineral and Petroleum Resources Development Act cannot be considered to have been made in the prescribed manner and the said application for a right or permit will have to be rejected. In this regard the type of applications must be identified in the table below.

PLEASE STATE TYPE OF AUTHORISATIONS BEING APPLIED FOR.

APPLICATION TYPE	APPLICABLE FEE	Mark with an X where applicable
NEMA S&EIR application on its own	R10 000.00	<input type="checkbox"/>
NEMA BAR application on its own	R 2 000.00	<input checked="" type="checkbox"/>
NEMWA S&EIR application on its own	R10 000.00	<input type="checkbox"/>
NEMWA BAR application on its own	R 2 000.00	<input type="checkbox"/>
NEMA S&EIR application combined with NEMWA S&EIR application	R 15 000.00	<input type="checkbox"/>
NEMA BAR application combined with NEMWA BAR application	R 3 000.00	<input type="checkbox"/>
NEMA S&EIR application combined with NEMWA BAR application	R 11 000.00	<input type="checkbox"/>

1. CONSULTATION BASIC ASSESSMENT AND/ OR SCOPING REPORT

2. DETAILS OF THE APPLICANT

Project applicant:	Lomeza Opencast Operations (Pty) Ltd	
Registration no (if any):	2015/223869/07	
Trading name (if any):	Lomeza Opencast Operations (Pty) Ltd	
Responsible Person, (e.g. Director, CEO, etc.):	Mr. Simon Mkonza	
Contact person:	Mr. Simon Mkhonza	
Physical address:	Building No. 2 Time Square, 11 Pieter Street, Centurion, Gauteng	
Postal address:	Postnet Suite 398, Private Bag X 7297, Witbank	
Postal code:	1035	Cell: 083 304 7102
Telephone:	012 655 2261/2	Fax:
E-mail:	simon@lomeza.co.za	

3. ENVIRONMENTAL ASSESSMENT PRACTITIONER (EAP) INFORMATION

EAP:	Sonette Smit	
Professional affiliation/registration:		
Contact person (if different from EAP):	Sonette Smit	
Company:	Greenmined Environmental	
Physical address:	Office No 37, Baker Square Block 1, De Beers Avenue, Paardevlei, Somerset West, 7130	
Postal address:	Suite 62, Private Bag X15, Somerset West	
Postal code:	7129	Cell: 084 58 55706
Telephone:	021 8512673	Fax: 086 546 0579
E-mail:	sonette.s@greenmined.co.za	

If an EAP has not been appointed please ensure that an independent EAP is appointed as stipulated by the NEMA Regulations, prior to the commencement of the process.

The declaration of independence and the Curriculum Vitae (indicating the experience with environmental impact assessment and relevant application processes) of the EAP must also be attached as **Appendix 1**.

4. PROJECT DESCRIPTION

Farm Name:	Portion 5 of the farm Kloppersbos 128 JR and portions 1, 7 and 8 of the farm Ekuphumuleni 716 JR (409.7979 ha), which falls in Magisterial District of Cullinan (Nokeng Tsa Taemane Local Municipality), City of Tshwane, Gauteng Province.
Application area (Ha)	409.7979ha
Magisterial district:	Cullinan
Distance and direction from nearest town	Situated approximately 15.63 km North-West of Cullinan
21 digit Surveyor General Code for each farm portion	Kloppersbos 128 JR Portion 5 T0JR00000000012800005 Ekuphumuleni 716 JR Portion 1 T0JR000000000071600001 Ekuphumuleni 716 JR Portion 7 T0JR000000000071600007 Ekuphumuleni 716 JR Portion 8 T0JR000000000071600008
Locality map	Attach a locality map at a scale not smaller than 1:250000 and attach as Appendix 2
Description of the overall activity. (Indicate Mining Right, Mining Permit, Prospecting right, Bulk Sampling, Production Right, Exploration Right, Reconnaissance permit, Technical co-operation permit, Additional listed activity)	<p>The proposed prospecting area is a natural area. The planned activities for the proposed site's is detailed below. All activities will be contained within the boundaries of the site.</p> <p>DESCRIPTION OF PLANNED NON-INVASIVE ACTIVITIES: (These activities do not disturb the land where prospecting will take place, e.g. aerial photography, desktop studies, aeromagnetic surveys, etc) Phase 1 (month 0 to 6), phase 3 (months 15 to 27) and phase 4 (months 30 to 36) Desktop studies form a very important preparatory step in a new coal exploration project, and as the name suggests, this task is executed mainly from an office environment. Desktop studies will be conducted by the project geologist as part of preliminary investigations into the prospecting area by looking at all relevant published literature, geological maps, mining maps and any available evidence or records of coal findings. The outcome of the desktop studies will be a geological report of the prospecting area with a particular emphasis on the prospectivity of the area. This report will also inform other subsequent prospecting steps. Field geological studies will follow after the desktop studies, and they typically include walking over the prospecting area making general observations of the geology and topography. Geological mapping activities, if terrain is suitable, may include detailed outcrop mapping, identification of coal hosting strata, coal seam outcrop mapping and sampling of exposed coal seams where available. The 3D geological modelling and resource estimation step will follow after favourable exploration drilling results. This geological modelling step mainly entails geological interpretation of collected logsheet data and the subsequent geological domaining. The geological model, which shows the physical continuity of the coal seams and the distribution of the coal qualities, is a critical input in coal resource estimation. The coal resource statement, which is an outcome of the resource estimation process, gives an indication of the amount of available coal resources in tonnage and associated qualities.</p> <p>DESCRIPTION OF PLANNED INVASIVE ACTIVITIES: (These activities result in land disturbances e.g. sampling, drilling, bulk sampling, etc.) Phase 2 (months 3 to 5)</p>

The objective of the exploration drilling is to confirm the presence of coal measures, delineate the vertical and lateral extents of the coal measures, and, through suitable tests, the quality of the coal. Percussion and diamond coring are the preferred drilling methods. The resultant drill holes will be cased and capped to make it safe for people and animals, and also allow for future access by the exploration team.

DESCRIPTION OF PRE-/FEASIBILITY STUDIES:
 (Activities in this section include but are not limited to: initial geological modelling, resource determination, possible future funding models, etc.)
 The pre-/feasibility studies team will comprise of a diverse team of technical expertise in the field of mineral projects, including, geologists, mining engineers, metallurgical engineers, civil engineers, mechanical engineers, environmental scientists, marketing professionals and mineral project finance professionals. The list of activities under pre-/feasibility studies includes the following:

- Geological modelling and coal resource estimation;
- Coal reserve estimation;
- Mine design and scheduling;
- Metallurgical processing;
- Market development;
- Infrastructure design
- Engineering development
- Human resourcing
- Project development and operational costing

The prospecting site will contain the following:

- Surveying Equipment;
- Drilling equipment;
- Geophysical logging equipment;
- Field Vehicles;
- Sample Analysis equipment; and
- Other relevant field equipment.

MAIN PROSPECTING ACTIVITIES:
 Drill site establishment:
 A drill site of approximately 200 m² will be established that will require:
 Clearing of vegetation for sumps and the drill entrance point – a maximum of three sumps, with each sump not measuring more than 1 m² will be operation at a time, a total of 3 m² will be cleared per site.
 Laydown area for drill rods,
 Fuel and chemical will be stored in a field vehicle;
 Chemical toilets will be placed in the vicinity of the site..

Drilling and removal of geological cores:
 Drilling a hole of approximately 67 mm in diameter and removing of rock core. Number of boreholes will be finalised once non-invasive prospecting is completed.
 Casing of boreholes:
 1m² per borehole. all mapping activities, if terrain is suitable, may include detailed outcrop mapping, identification of coal hosting strata, coal seam outcrop mapping and sampling of exposed coal seams where available.
 The 3D geological modelling and resource estimation step will follow after favourable exploration drilling results. This geological modelling step mainly entails geological interpretation of collected log sheet data and the subsequent geological domain. The geological model, which shows the physical continuity of the coal seams and the distribution of the coal qualities, is a critical input in coal resource estimation. The coal resource statement, which is an outcome of the resource estimation process, gives an indication of the amount of available coal resources in tonnage and associated qualities.

DESCRIPTION OF PLANNED INVASIVE ACTIVITIES:
 (These activities result in land disturbances e.g. sampling, drilling, bulk sampling, etc.)
 Phase 2 (month 6 to 15) and phase 4 (months 27 to 30)
 The objective of the exploration drilling is to confirm the presence of coal measures, delineate the vertical and lateral extents of the coal measures, and, through suitable tests, the quality of the coal. Percussion and diamond coring are the preferred drilling methods. The resultant drill holes will be cased and capped to make it safe for people and animals, and also allow for future access by the exploration team.

DESCRIPTION OF PRE-/FEASIBILITY STUDIES:
 (Activities in this section include but are not limited to: initial geological modelling, resource determination, possible future funding models, etc.)
 The pre-/feasibility studies team will comprise of a diverse team of technical expertise in the field of mineral projects, including, geologists, mining engineers, metallurgical engineers, civil engineers, mechanical engineers, environmental scientists, marketing professionals and mineral project finance professionals. The list of activities under pre-/feasibility studies includes the following:

- Geological modelling and coal resource estimation;
- Coal reserve estimation;
- Mine design and scheduling;
- Metallurgical processing;
- Market development;
- Infrastructure design

	<p>Engineering development Human resourcing Project development and operational costing</p> <p>The mining site will contain the following: Surveying Equipment; Drilling equipment; Geophysical logging equipment; Field Vehicles; Sample Analysis equipment; and Other relevant field equipment.</p>

5. ACTIVITIES TO BE AUTHORISED

(Please provide copies of Environmental Authorisations obtained for the same property as **Appendix 3**). N/A

(For an application for authorisation that involves more than one listed activity that, together, make up one development proposal, all the listed activities pertaining to this application must be included. Note that any authorisation that may result from this application will only cover activities specifically applied for). (Attach a proposed site plan, drawn to a scale acceptable to the competent Authority, showing the location of all the activities to be applied for, as **Appendix 4**)

As all the infrastructure to be used on site will be temporary the site plan resembles the Regulation 2.2 map. All equipment and activities will operate within the boundaries of the mining permit area.

NAME OF ACTIVITY (E.g. For prospecting - drill site, site camp, ablution facility, accommodation, equipment storage, sample storage, site office, access route etc...etc...etc E.g. for mining - excavations, blasting, stockpiles, discard dumps or dams, Loading, hauling and transport, Water supply dams and boreholes, accommodation, offices, ablution, stores, workshops, processing plant, storm water control, berms, roads, pipelines, power lines, conveyors, etc...etc...etc.)	Aerial extent of the Activity Ha or m²	LISTED ACTIVITY (Mark with an X where applicable or affected).	APPLICABLE LISTING NOTICE (GNR 544, GNR 545 or GNR 546)	WASTE MANAGEMENT AUTHORISATION (Indicate whether an authorisation is required in terms of the Waste Management Act). (Mark with an X)
Prospecting	409.7979ha	X	GNR 327 Environmental Impact Assessment Regulations Listing Notice 1 of 2017 Activity 20: Any activity including the operation of that activity which requires a prospecting right in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002),	N/A

			<p>including — (a) associated infrastructure, structures and earthworks, directly related to the prospecting of a mineral resource (b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing; but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral</p>	
--	--	--	---	--

			resource in which case activity 6 in Listing Notice 2 applies.	
Site Closure / decommissioning	409.7979 ha	X	GNR 327 Listing Notice 1 of 2017 Activity 22: The decommissioning of any activity requiring – i) a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of	N/A

			5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.	
Prospecting	409.7979 ha		GNR 324 Listing Notice 3 of 2017 Activity 12: The clearance of an area of 300 square meters or more of indigenous vegetation. c) Gauteng Province i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within	N/A

			<p>an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004;</p> <p>ii. Within Critical Biodiversity Areas or Ecological Support Areas identified in the Gauteng Conservation Plan or bioregional plans; or</p> <p>iii. On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning.</p>	

6. PUBLIC PARTICIPATION

(Provide details of the public participation process proposed for the application as required by Regulation.

Details of the Public Participation process to be followed.

6.1.1. IDENTIFICATION OF INTERESTED AND AFFECTED PARTIES TO BE CONSULTED

IDENTIFICATION CRITERIA	Mark with an X where applicable	
	YES	NO
Will the landowner be specifically consulted?	X	
Will the lawful occupier on the property other than the Landowner be consulted?	X	
Will a tribal authority or host community that may be affected be consulted?	N/A	
Will recipients of land claims in respect of the area be consulted?	N/A	
Will the landowners or lawful occupiers of neighbouring properties been identified?	X	
Will the local municipality be consulted?	X	
Will the Authority responsible for power lines within 100 metres of the area be consulted?		N/A
Will Authorities responsible for public roads or railway lines within 100 metres of the area applied for be consulted?		N/A
Will authorities responsible for any other infrastructure within 100 metres of the area applied for be consulted? (Specify)	N/A	
Will the Provincial Department responsible for the environment be consulted?	X	
Will all of the parties identified above be provided with a description of the proposed mining /prospecting operation as referred above?	X	
Will all the parties identified above be requested in writing to provide information as to how their interests (whether it be socio-economic, cultural, heritage or environmental) will be affected by the proposed mining project?	X	
Other, Specify		

6.1.2. DETAILS OF THE ENGAGEMENT PROCESS TO BE FOLLOWED

<p>Steps to be taken to notify interested and affected parties (Describe the process to be undertaken to consult interested and affected parties including public meetings and one on one consultations. NB the affected parties must be specifically consulted regardless of whether or not they attended public meetings. Photographs of notice boards, and copies of advertisements and notices notifying potentially interested and affected parties of the proposed application must be attached as Appendix)</p>	<p>PROVIDE DESCRIPTION HERE</p>
<p>Information to be provided to Interested and Affected Parties.</p>	<p>Compulsory</p> <ul style="list-style-type: none"> • The site plan. • List of activities to be authorised • Scale and extent of activities to be authorised • Typical impacts of activities to be authorised (e.g.surface disturbance, dust, noise, drainage, fly rock etc.) • The duration of the activity. • Sufficient detail of the intended operation to enable them to assess what impact the activities will have on them or on the use of their land) <p>Other, specify:</p>
<p>Information to be required from Interested and Affected Parties.</p>	<p>Compulsory</p> <ul style="list-style-type: none"> • To provide information on how they consider that the proposed activities will impact on them or their socio-economic conditions • To provide written responses stating their suggestions to mitigate the anticipated impacts of each activity • To provide information on current land uses and their location within the area under consideration • To provide information on the location of environmental features on site to make proposals as to how and to what standard the impacts on site can be remedied. requested to make written proposals • To mitigate the potential impacts on their socio economic conditions to make proposals as to how the potential impacts on their infrastructure can be managed, avoided or remedied). <p>Other, Specify</p>

7. Description of the assessment process to be undertaken

ITEM	DESCRIPTION
<p>Environmental attributes. Describe how the Environmental attributes associated with the development footprint will be determined.</p>	
<p>Identification of impacts and risks. (Describe the process that will be used to identify impacts and risks.</p>	<p>The impacts and risks associated with the proposed project will be identified through investigation of the specific site aspects, consultation with the I&AP's and stakeholders as well as desktop and background studies done on the study and surrounding areas of associated projects.</p>
<p>Consideration of alternatives. Describe how alternatives, and in particular the alternatives to the proposed site layout and possible alternative methods or technology to be applied will be determined.</p>	<p>As the mineral resource area is confined to certain position on-site assessment of viable site alternatives will mainly comprise of various footprint sizes. Different activity alternatives will be assessed in order to identify the alternative that has the least impact on the environment and future agricultural activities on the property.</p>
<p>Process to assess and rank impacts. Describe the process to be undertaken to identify, assess and rank the impacts and risks each individual activity.</p>	<p>The environmental significance assessment methodology that will be used to assess and rank the impacts will be based on the following determination: $\text{Environmental Significance} = \text{Overall Consequence} \times \text{Overall Likelihood}.$ <p>This method will assist in ranking the identified impacts according to low, medium and high significance. A full explanation of the methodology to be used in the above matter will be discussed in the environmental documentation to be submitted for approval.</p> </p>
<p>Contribution of specialist reports Describe how specialist reports, if required, will be taken into consideration and inform the impact identification, assessment and remediation process.</p>	<p>The proposed site falls in the surrounding area of the Komjekejeke Heritage site, therefore a Heritage Impact Assessment will be conducted. This report will be made available for public comments during with the Draft Basic Assessment Report (DBAR)</p>
<p>Determination of impact management objectives and outcomes. Describe how impact management objectives will be determined for each activity to address the potential impact at source, and how the impact management outcomes will be aligned with standards.</p>	<p>The impacts will be ranked as stated above. This will allow the identification of impacts that is deemed to have a Medium to High significance, requiring mitigation and managment objectives. These objectives will be aligned with guidelines and specific requirements of the relevant managing authorities and will be listed in the EMP to be submitted with the Basic Assessment Report.</p>

8. OTHER AUTHORISATIONS REQUIRED

LEGISLATION	Mark with an X where applicable			
	AUTHORISATION REQUIRED		APPLICATION SUBMITTED	
	YES	NO	YES	NO
SEMA's		X		
National Environmental Management: Air Quality Act		X		
National Environmental Management: Biodiversity Act		X		
National Environmental Management: Integrated Coastal Management Act		X		
National Environmental Management: Protected Areas Act		X		
National Environmental Management: Waste Act		X		
National legislation				
Mineral Petroleum Development Resources Act	X		X	
National Water Act		X		
National Heritage Resources Act		X		
Others: Please specify				

Please provide proof of submission of applications in **Appendix 5**.

In the event that an authorization in terms of the National Environmental Waste Management Act is required for any of the activities applied for please state so clearly in order for such an authorisation to be considered as part of this application.

9. DRAFT EMPr

For consultation purposes, provide a high level approach to the management of the potential environmental impacts of each of the activities applied for.

ACTIVITIES	PHASE (of operation in which activity will take place).	SIZE AND SCALE (of Disturbance)	TYPICAL MITIGATION MEASURES	COMPLIANCE WITH STANDARDS
(E.g. For prospecting - drill site, site camp, ablation facility, accommodation, equipment storage, sample storage, site office, access route etc...etc...etc E.g. for mining - excavations, blasting, stockpiles, discard dumps or dams, Loading, hauling and transport, Water supply dams and boreholes, accommodation, offices, ablation, stores, workshops, processing plant, storm water control, berms, roads, pipelines, power lines, conveyors, etc...etc...etc.)	State; Planning and design, Pre-Construction Construction, Operational, Rehabilitation, Closure, Post closure.	(volumes, tonnages and hectares or m ²)	(Eg, storm water control, dust control, noise control, access control, rehabilitation etc....., etc.....)	(A description of how each of the recommendations herein will comply with any prescribed environmental management standards or practices that have been identified by Competent Authorities)
Stripping and stockpiling of topsoil	Construction / Site Establishment Phase	409.7979ha	- Dust suppression - Weed Control	- Dust: NEM:AQA, 2004 Regulation 6(1) - Weeds: CARA, 1983

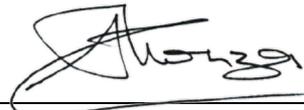

Establishment of the drilling rig and sump areas	Construction Phase	409.7979ha	<ul style="list-style-type: none"> - Dust suppression - Noise management - Waste management - Weed control - Storm water management 	<ul style="list-style-type: none"> - Dust and Noise: NEM:AQA, 2004 - Waste: NEM:WA, 2008 - Weeds: CARA, 1983 - Storm water: NWA, 1998
Transport of workers, infrastructure and material on site	Construction and Operational Phase	409.7979ha	<ul style="list-style-type: none"> - Dust suppression - Noise management - Waste management - Weed control - Storm water management - Maintenance of access road 	<ul style="list-style-type: none"> - Dust and Noise: NEM:AQA, 2004 - Waste: NEM:WA, 2008 - Weeds: CARA, 1983 - Storm water: NWA, 1998 - Roads: NRTA, 1996
Decommissioning of all infrastructure	Decommissioning Phase	409.7979ha	<ul style="list-style-type: none"> - Dust suppression - Noise management - Waste management - Weed control - Storm water management - Maintenance of access road - Sloping of excavation - Replacement of topsoil 	<ul style="list-style-type: none"> - Dust and Noise: NEM:AQA, 2004 - Waste: NEM:WA, 2008 - Weeds: CARA, 1983 - Storm water: NWA, 1998 - Roads: NRTA, 1996 - MPRDA, 2008

10. CLOSURE PLAN

<p>In the space provided under each heading below, please provide a high level description of the plan for closure and the information that will be provided in the draft EMPr accompanying draft basic assessment report or environmental impact reports going forward.</p>	
<p>Baseline environment Describe how the baseline environment will be determined with the input of interested and affected parties and due cognizance of the current land uses and or existing biophysical environment</p>	
<p>Closure objectives Describe the closure objectives and the extent to which they will be aligned to the baseline environment</p>	<p>Prospecting activities are to be undertaken in a manner which facilitates site rehabilitation and the restoration of existing land capabilities. The primary objectives for rehabilitation include</p> <ol style="list-style-type: none"> a) the facilitation of the re-establishment of the land use and capability to as close as reasonably to the original conditions, b) removal of all infrastructure and material introduced to site, c) removal of all wastes and their and their related disposal, d) and promotion of the rapid re-establishment of natural vegetation and the restoration of site ecology. <p>The disturbed areas shall be rehabilitated to ensure that:</p> <ul style="list-style-type: none"> o The biodiversity habitat is encouraged by the new land use after the prospecting; o Future public health and safety are not compromised; o The site is reversed to almost its original state; o Environmental and resources are not subject to physical and chemical deterioration; o The after-use of the site is beneficial and sustainable in the long term; o Any adverse socio-economic impacts are minimized; and o All socio-economic benefits are maximized. <p>The rehabilitation plan shall entail removal of all generated waste, infrastructures and materials, re-vegetation of disturbed and cleared areas, rehabilitation of access roads, ensuring the growth of the existing grasses and plants species and cleaning of spillages etc.</p> <p>Additional measures that will need to be put in place to allow for the successful implementation of the action plan are listed on relevant sections.</p> <p>The various actions that need to be implemented, to ensure that the environmental objectives are met, are detailed in the EMP. The actions are aimed at mitigating environmental impacts and implementing rehabilitation plan</p> <p>Emergency procedures indicate the actions to be taken in the case of an environmental emergency. These refer to an event that</p>

	<p>could result in a pollution incidents or damage to biophysical or social environment. Fire fighting equipment including fire-extinguishers and fire beaters are to be kept on site (at the camp site and drilling areas). The fire management plan or procedure will be drawn and erected at the site camp and drilling machine. Any plan that will be drawn and implemented on site is the spillage of fuel, oil, lubricant or any chemical substances. Spill kits are to be purchased and be kept on site in close proximity to fuel/lubricant storage areas.</p> <p>Amongst the more pronounced post-closure drilling impacts on record are landscape scarring in the form of un rehabilitated rock dump, as well as continuing environmental damage from polluted land, wind-blown dusts, papers, waste and the solid waste.</p> <p>During the site establishment and the drilling process/ prospecting 25 litres waste bins will be taken along to the site by the contractor. Waste will be removed and taken to the nearest permitted landfill site once a week. No baring of waste material (cans, papers, plastic, bottle, etc) will be allowed on site as it has an environmental impact and could cause plants not to grow. Burning of waste will also be prohibited in order to minimise air pollution. Suitable covered receptacles will be available at all times and conveniently placed for the disposal of waste. All used oils, grease or hydraulic fluids shall be placed therein and these receptacles will be removed from the site on a regular basis for disposal at a registered or licensed disposal facility.</p> <p>All spills should be cleaned up immediately to the satisfaction of the Petroleum Agency by removing the spillage together with the polluted soil and by disposing of them at a recognised facility.</p>
<p>Rehabilitation Plan Describe the scale and aerial extent of the prospecting or mining listed activities to be authorised, including the anticipated prospecting or mining area at the time of closure, and confirm that a site rehabilitation plan drawn to a suitable scale will be provided in the draft EMPr to be submitted together with the draft EIR or Basic Assessment Report as the case may be.</p>	<p>Boreholes will be plugged with cement or expansion foam to 1m from surface.</p> <p>The natural contours of the top soil will be re-established and compacted areas scarified by hand.</p> <p>No re-seeding will be done since vegetation re-growth in this area is exceptional.</p> <p>A site specific rehabilitation plan drawn to a suitable scale will be provided in the draft EMPr to be submitted together with the BAR</p>
<p>Rehabilitation Cost Describe how the rehabilitation cost will be determined and provide a preliminary estimate thereof</p>	<p>The rehabilitation cost will be determined in accordance with the guideline document for the evaluation of the quantum of closure-related financial provision by a mine and as prescribed in terms of Regulation 54 (1) of the MPRDA.</p>
<p>Decommissioning Considering that rehabilitation must take place upon cessation of an activity, describe when each of activities applied for will be rehabilitated in terms of either the cessation of the individual activity or</p>	<p>The prospecting activities will consist of the following:</p> <ul style="list-style-type: none"> - Site Visits by various specialist <ul style="list-style-type: none"> > No rehabilitation needed - Drilling for continued resource evaluation <ul style="list-style-type: none"> > Capping of drillholes

<p>the cessation of the overall prospecting or mining activity.</p>	<ul style="list-style-type: none"> > Rehabiliton to start upon replacement of topsoil over leveled areas <ul style="list-style-type: none"> > Seeding with local indigenous species - Waste Generation <ul style="list-style-type: none"> > Waste to be removed from site - Costruciton of haul and access roads within the prospecting right area <ul style="list-style-type: none"> > All roads will be rehabilitated that has been constructed, if not needed by the local farmers - Erection of portable toilets <ul style="list-style-type: none"> > Portabletoilets to be removed from site - Erection of mobile lighting <ul style="list-style-type: none"> > Mobile lighting to be removed from site - Overall rehabilitation of sites <ul style="list-style-type: none"> > Sites will be contoured for eelevation and topography > Seeding with local indigenous species if needed <p>Due to the nature of the proposed mining activity, all the actions listed above will be rehabilitated upon closure of the site.</p>

**APPENDIX 4
DECLARATION OF THE EAP**

I, Sonette Smit , declare that –

General declaration:

- I act as the independent environmental practitioner in this application
- I will perform the work relating to the application in an objective manner, even if this results in views and findings that are not favourable to the applicant
- I declare that there are no circumstances that may compromise my objectivity in performing such work;
- I have expertise in conducting environmental impact assessments, including knowledge of the Act, Regulations and any guidelines that have relevance to the proposed activity;
- I will comply with the Act, Regulations and all other applicable legislation;
- I will take into account, to the extent possible, the matters listed in regulation 8 of the Regulations when preparing the application and any report relating to the application;
- I have no, and will not engage in, conflicting interests in the undertaking of the activity;
- I undertake to disclose to the applicant and the competent authority all material information in my possession that reasonably has or may have the potential of influencing - any decision to be taken with respect to the application by the competent authority; and - the objectivity of any report, plan or document to be prepared by myself for submission to the competent authority;
- I will ensure that information containing all relevant facts in respect of the application is distributed or made available to interested and affected parties and the public and that participation by interested and affected parties is facilitated in such a manner that all interested and affected parties will be provided with a reasonable opportunity to participate and to provide comments on documents that are produced to support the application;
- I will ensure that the comments of all interested and affected parties are considered and recorded in reports that are submitted to the competent authority in respect of the application, provided that comments that are made by interested and affected parties in respect of a final report that will be submitted to the competent authority may be attached to the report without further amendment to the report;
- I will keep a register of all interested and affected parties that participated in a public participation process; and
- I will provide the competent authority with access to all information at my disposal regarding the application, whether such information is favourable to the applicant or not
- all the particulars furnished by me in this form are true and correct;
- will perform all other obligations as expected from an environmental assessment practitioner in terms of the Regulations; and
- I realise that a false declaration is an offence in terms of regulation 71 of the Regulations and is punishable in terms of section 24F of the Act.

Disclosure of Vested Interest (delete whichever is not applicable)

- I do not have and will not have any vested interest (either business, financial, personal or other) in the proposed activity proceeding other than remuneration for work performed in terms of the Regulations;
- I have a vested interest in the proposed activity proceeding, such vested interest being:

 N/A _____

PROSPECTING WORK PROGRAMME

**SUBMITTED FOR A PROSPECTING RIGHT APPLICATION
WITHOUT BULK SAMPLING**

**AS REQUIRED IN TERMS OF SECTION 16 READ TOGETHER WITH REGULATION 7(1) OF
THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT (ACT 28 of 2002)**

STANDARD DIRECTIVE

All applicants for mining rights are herewith, in terms of the provisions of Section 16 and in terms of Regulation 7 (1) of the Mineral and Petroleum Resources Development Act, directed to submit a Prospecting Work Programme, strictly under the following headings and in the following format together with the application for a prospecting right.

1 REGULATION 7 (1) (a): FULL PARTICULARS OF THE APPLICANT

2 REGULATION 7 (1) (b): PLAN CONTEMPLATED IN REGULATION 2 (2) SHOWING THE LAND TO WHICH THE APPLICATION RELATES

The plan of the land to which the application relates is shown in figure 1, below.

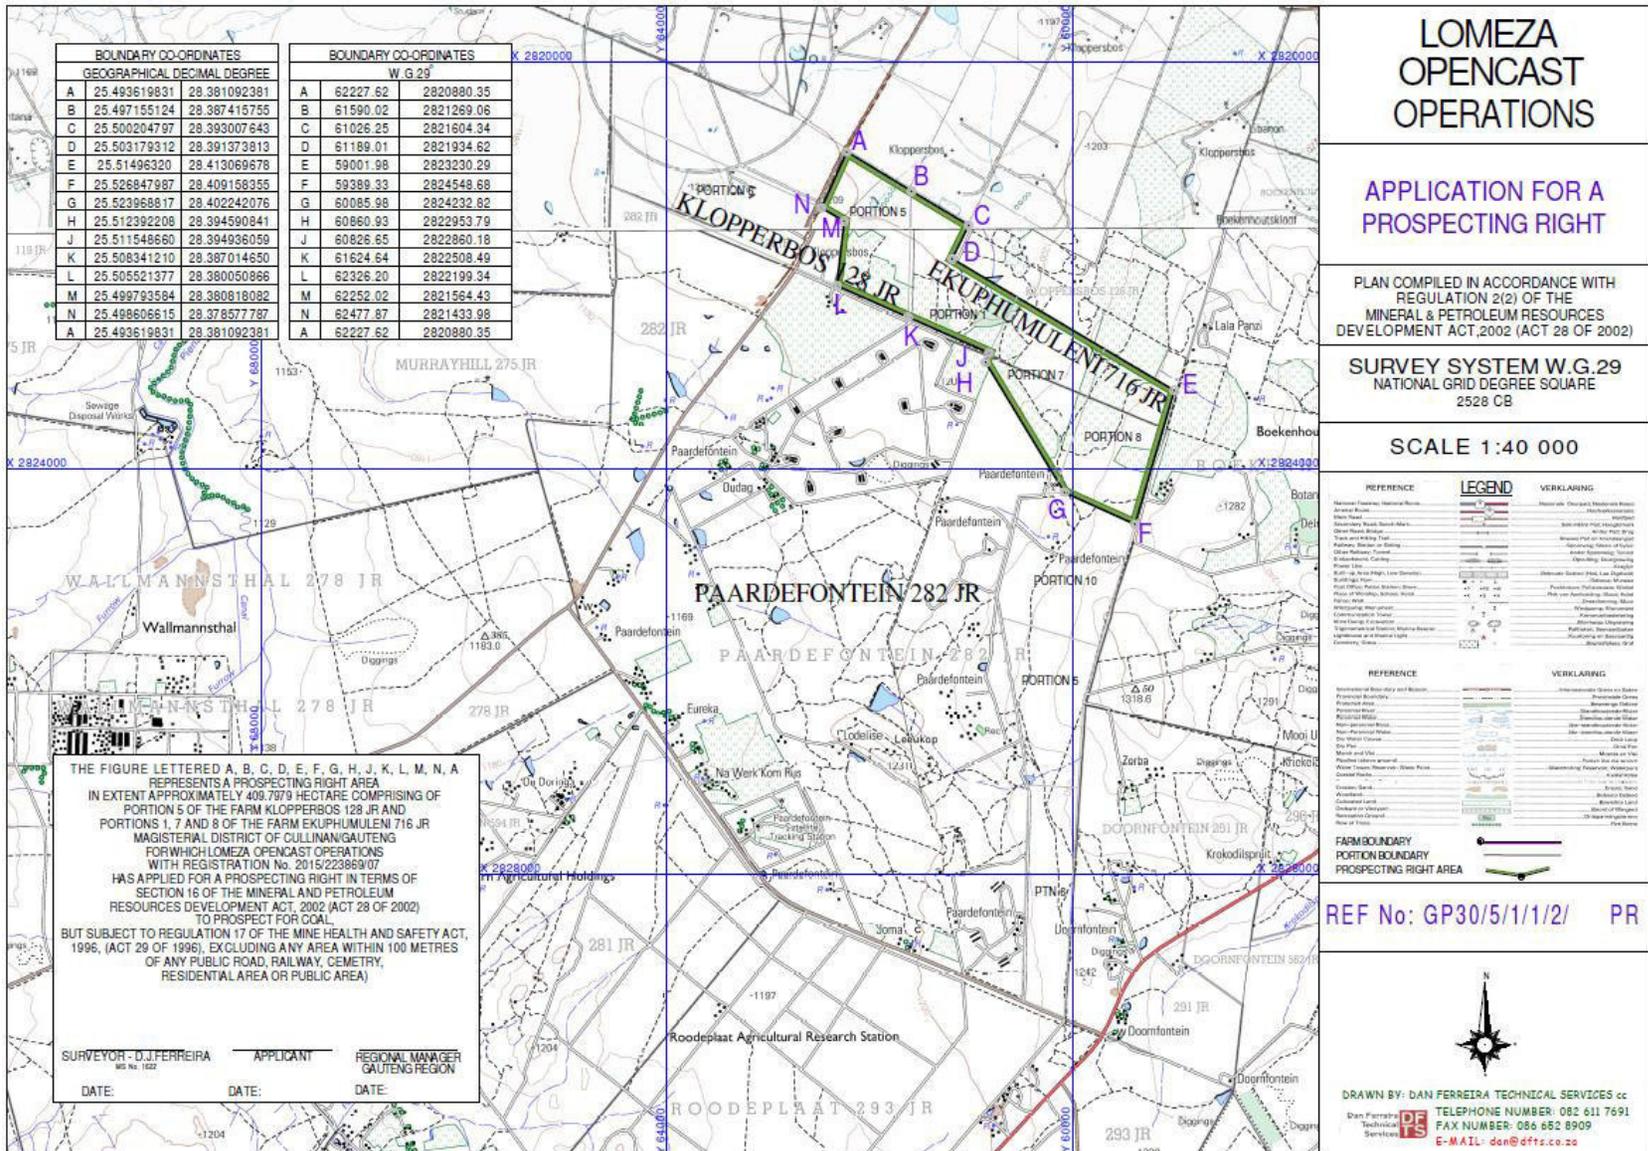

Figure 1. Plan of the land to which the application relates.

3 REGULATION 7 (1) (c): THE REGISTERED DESCRIPTION OF THE LAND TO WHICH THE APPLICATION RELATES

FARM NAME	MAGISTERIAL DISTRICT	TITLE DEED NUMBER	FARM SUBDIVISION NAME
Kloppersbos 128 JR	Cullinan	T18553/2011	Portion 5
Ekuphumuleni 716 JR	Cullinan	T164979/2003	Portion 1
Ekuphumuleni 716 JR	Cullinan	T164978/2003	Portion 7
Ekuphumuleni 716 JR	Cullinan	T164977/2003	Portion 8

4 REGULATION 7 (1) (d) and (e): THE MINERAL OR MINERALS TO BE PROSPECTED FOR

Table 4.1: Minerals to be prospected for

ITEM	DETAIL
Type of minerals continued	Bituminous coal
Type of minerals continued	Torbanite coal
Locality (Direction and distance from nearest town)	Kloppersbos 128 JR, and Ekuphumuleni 716 JR, located approximately 20 km north-west of Cullinan
Extent of the area required for prospecting	409.7979 hectares
Geological formation	Vryheid Formation

4.2 Description why the Geological formation substantiates the minerals to be prospected for:

The area of interest is situated just north of the Witbank Coalfield (figure 2), which extends about 190 km west-east between the towns of Springs and Belfast and about 60 km in a north-south direction between the towns of Middelburg and Ermelo. The area of interest is mainly covered by Ecca Group rocks, shale, shaly sandstone, grit, sandstone, conglomerate, coal in places near base and top. For over a century the Witbank Coalfield has been the major coal producing area in South Africa and continues to

be so; it is estimated that since the first commercial exploitation of coal in 1870, over 50% of the coal produced in South Africa has come from the Witbank Coalfield.

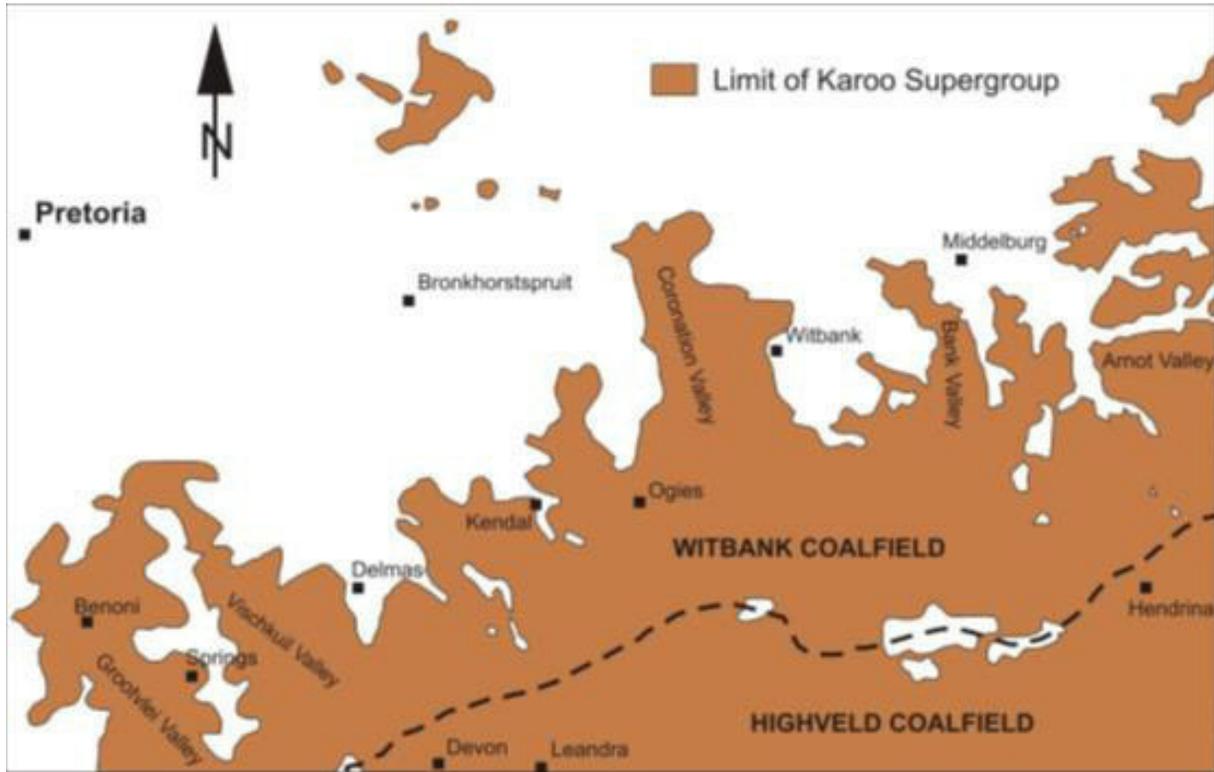

Figure 2. Location of Witbank Coalfield

Five coal seams are contained in a 70 m thick succession of sandstone with subordinate siltstone and mudstone and are distinguished numerically in ascending order from the bottom upwards. The distribution and attitudes of the No. 1 and 2 seams are largely determined by the pre-Karoo topography, whilst the present distribution of the No. 4 and No. 5 seams is controlled by the present day land surface; in areas the No. 5 seam is either completely eroded or is patchily distributed, while the top part of the No. 4 seam is eroded or affected by weathering in places. The No. 3 seam is generally uneconomic, usually having a thickness of less than 0.5 m. At the Glisa colliery, on the most eastern edge of the Witbank Coalfield, 5 km south west of the town of Belfast, the No. 3 seam has an average thickness of 1.5 m and is exploited. Five typical stratigraphic columns from five different areas in the Witbank Coalfield are shown on figure 3.

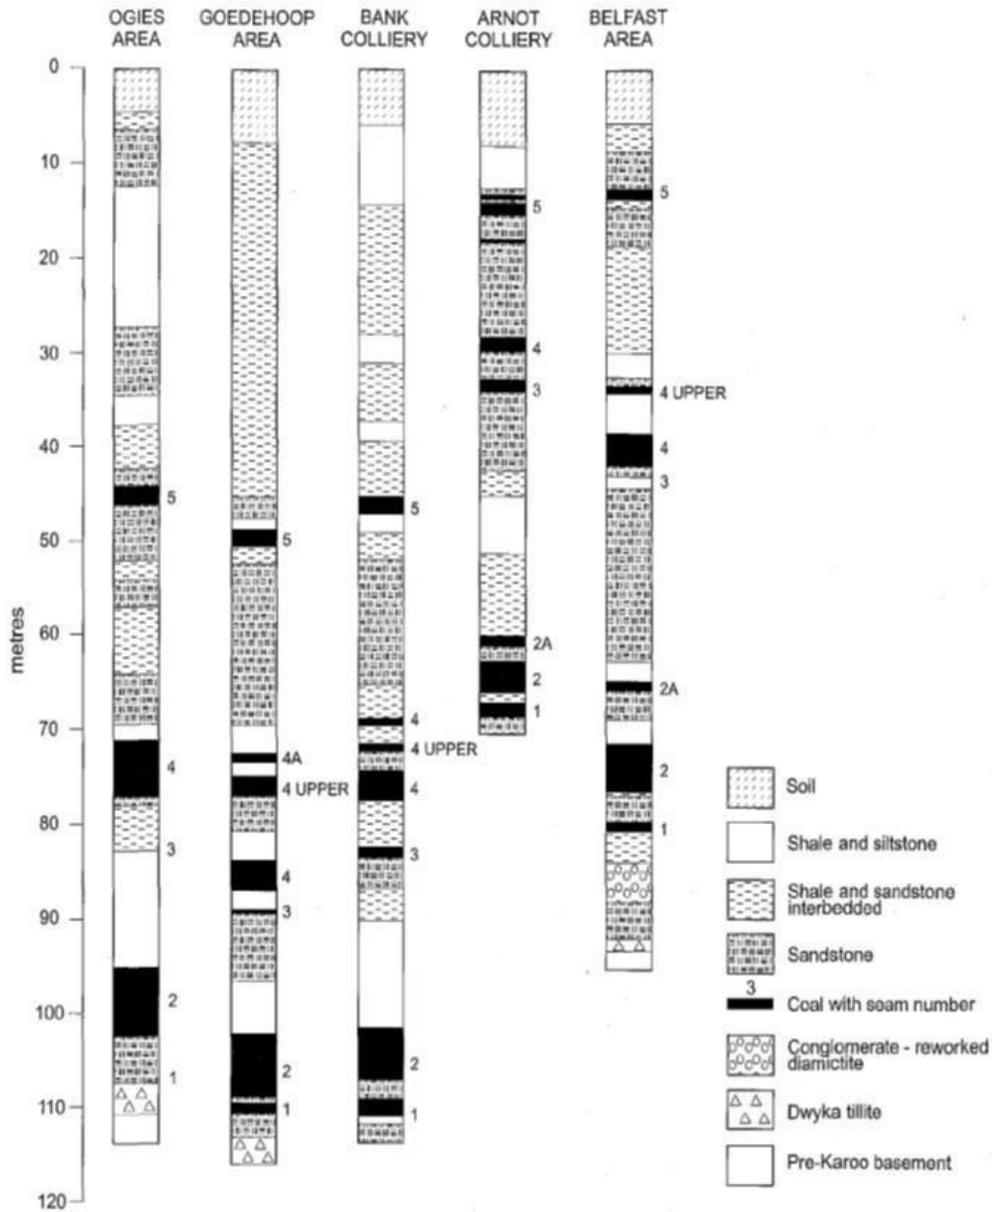

Figure 3. Typical stratigraphic column in the Witbank Coalfield.

4.3 Attach a geological map that justifies the description why there is a possibility that the minerals applied for could occur on the land concerned

The area concerned is covered by rocks of the Vryheid Formation, which are well known for their coal measures. A geological map of the area is shown in figure 4 below.

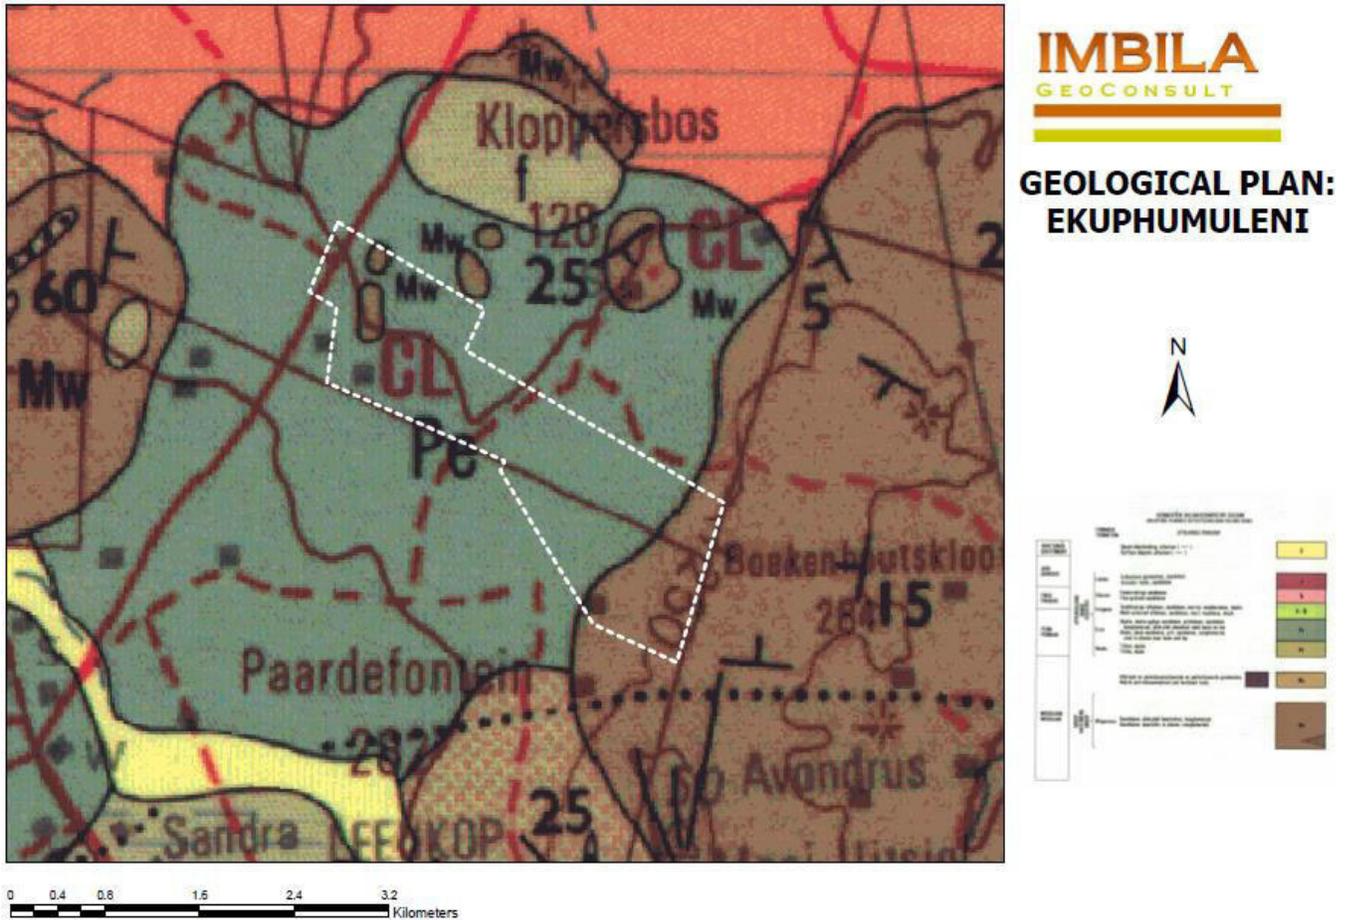

Figure 4. Geological map of the area concerned

5 REGULATION 7 (1) (f): A DESCRIPTION OF HOW THE MINERAL RESOURCE AND MINERAL DISTRIBUTION OF THE PROSPECTING AREA WILL BE DETERMINED

AND

REGULATION 7 (1) (h): ALL PLANNED PROSPECTING ACTIVITIES MUST BE CONDUCTED IN PHASES AND WITHIN SPECIFIC TIMEFRAMES

AND

REGULATION 7 (1) (i): TECHNICAL DATA DETAILING THE PROSPECTING METHOD OR METHODS TO BE IMPLEMENTED AND THE TIME REQUIRED FOR EACH PHASE OF THE PROPOSED PROSPECTING OPERATION

The table below incorporates the information required in respect of Regulations 7 (1)(f), 7(1)(h) and 7 (1)(i):

Table 5.1

Phase	Activity (what are the activities that are planned to achieve optimal prospecting)	Skill(s) required (refers to the competent personnel that will be employed to achieve the required results)	Timeframe (in months) for the activity)	Outcome (what is the expected deliverable, e.g. geological report, analytical results, feasibility study, etc)	Timeframe for outcome (deadline for the expected outcome to be delivered)	What technical expert will sign off on the outcome? (e.g. geologist, mining engineer, surveyor, economist, etc)
1	Non-Invasive prospecting - Desktop study	Geologist	1 month	Geological report based on literature survey of records or evidence of coal findings in the prospecting area.	Month 1	Geologist
1	Non-invasive prospecting - Geological mapping	Geologist	1 month	Geological map of the prospecting area	Month 2	Geologist
2	Invasive prospecting - First phase drilling on a widely spaced grid using percussion and geophysical logging of boreholes	Geologist, surveyor, geophysicist and drilling contractor	1 month	First phase exploration drilling report	Month 3	Geologist
2	Invasive prospecting - Second phase drilling using diamond coring. Laboratory test work on recovered core samples	Geologist, surveyor, geophysicist, drilling contractor and laboratory contractor	1 – 2 months	Second phase exploration drilling report	Month 5	Geologist
3	Non-invasive prospecting - 3D geological modelling and resource estimation	Geologist	1 – 2 months	3D geological model and coal resource statement	Month 7	Geologist
3	Non-invasive prospecting - Prefeasibility study	Geologist, Mining Engineer, Environmental practitioner, Metallurgist, Marketing specialist, Accountant	1 – 2 months	Prefeasibility report	Month 9	Geologist and Mining Engineer
4	Non-invasive prospecting - Bankable feasibility study	Geologist, Mining Engineer, Environmental practitioner, Metallurgist, Marketing specialist, Accountant	2 – 3 months	Bankable feasibility report	Month 12	Geologist and Mining Engineer

6 REGULATION 7 (1) (g): A DESCRIPTION OF THE PROSPECTING METHOD OR METHODS TO BE IMPLEMENTED

(i) DESCRIPTION OF PLANNED NON-INVASIVE ACTIVITIES:

(These activities do not disturb the land where prospecting will take place, e.g. aerial photography, desktop studies, aeromagnetic surveys, etc)

Phase 1 (months 1 to 2), phase 3 (months 6 to 9) and phase 4 (months 10 to 12)

Desktop studies form a very important preparatory step in a new coal exploration project, and as the name suggests, this task is executed mainly from an office environment. Desktop studies will be conducted by the project geologist as part of preliminary investigations into the prospecting area by looking at all relevant published literature, geological maps, mining maps and any available evidence or records of coal findings. The outcome of the desktop studies will be a geological report of the prospecting area with a particular emphasis on the prospectivity of the area. This report will also inform other subsequent prospecting steps.

Field geological studies will follow after the desktop studies, and they typically include walking over the prospecting area making general observations of the geology and topography. Geological mapping activities, if terrain is suitable, may include detailed outcrop mapping, identification of coal hosting strata, coal seam outcrop mapping and sampling of exposed coal seams where available.

The 3D geological modelling and resource estimation step will follow after favourable exploration drilling results. This geological modelling step mainly entails geological interpretation of collected logsheet data and the subsequent geological domaining. The geological model, which shows the physical continuity of the coal seams and the distribution of the coal qualities, is a critical input in coal resource estimation. The coal resource statement, which is an outcome of the resource estimation process, gives an indication of the amount of available coal resources in tonnage and associated qualities.

(ii) DESCRIPTION OF PLANNED INVASIVE ACTIVITIES:

(These activities result in land disturbances e.g. sampling, drilling, bulk sampling, etc.)

Phase 2 (months 3 to 5)

The objective of the exploration drilling is to confirm the presence of coal measures, delineate the vertical and lateral extents of the coal measures, and, through suitable tests, the quality of the coal. Percussion and diamond coring are the preferred drilling methods. The resultant boreholes will be cased and capped to make it safe for people and animals, and also allow for future access by the exploration team.

(iii) DESCRIPTION OF PRE-/FEASIBILITY STUDIES:

(Activities in this section include but are not limited to: initial geological modelling, resource determination, possible future funding models, etc.)

The pre-/feasibility studies team will comprise of a diverse team of technical expertise in the field of mineral projects, including, geologists, mining engineers, metallurgical engineers, civil engineers, mechanical engineers, environmental scientists, marketing professionals and mineral project finance professionals. The list of activities under pre-/feasibility studies includes the following:

- Geological modelling and coal resource estimation
- Coal reserve estimation
- Mine design and scheduling
- Metallurgical processing
- Market development
- Infrastructure design
- Engineering development
- Human resourcing
- Project development and operational costing

(iv) DESCRIPTION OF BULK SAMPLING ACTIVITIES:

This activity requires that an application IN TERMS OF Section 20 is specifically included in your application for a prospecting Right and cannot be proceeded with if such permission is not specifically granted. (Bulk sampling is a sampling technique ONLY – it cannot be used to conduct mining operations.)

There is no plan as part of this Prospecting Work Programme to undertake Bulk Sampling.

Commitment to provide addendums in respect of additional prospecting activities

I herewith commit to provide the Department of Mineral Resources with an addendum in respect of both the EM Plan and Prospecting Work Programme regarding any future in-fill prospecting required but not described above, prior to undertaking such activities. The addendum will cover all the Regulations as per the Prospecting Work Programme.

I agree that the addendums will provide for similar activities only, and if the scope changes I would be required to apply in terms of Section 102 of the MPRDA for an amendment of the Prospecting Work Programme.

Mark with an X

ACCEPT	
--------	--

Commitment to provide addendums in respect of additional prospecting activities

I herewith commit to provide the Department of Mineral Resources with an addendum to the Prospecting work Programme, and an Environmental Management programme for approval prior to undertaking any future bulk sampling activities not described above.

Mark with an X

ACCEPT	
--------	--

7 REGULATION 7 (1) (j) (i): DETAILS WITH DOCUMENTARY PROOF OF THE APPLICANT’S TECHNICAL ABILITY OR ACCESS THERETO TO CONDUCT THE PROPOSED PROSPECTING OPERATION

7.1 Competencies to be employed in terms of the Mine Health and Safety Act

COMPETENCIES TO BE EMPLOYED (List the legal appointments that will be made in terms of the Mine Health and Safety Act, appropriate for the type of operation)
Manager – Mine Health and Safety Act Section 3 (1) A
Subordinate Manager – Minerals Act Regulation 2.6.1
Safety Officer – Minerals Act Regulation 2.17.1

I herewith confirm that I, in Table 9.1 have budgeted and financially provided for the required skills listed above.

CONFIRMED (Mark with an X)	<input type="checkbox"/>
-----------------------------------	--------------------------

7.2 List of appropriate equipment at your disposal (If applicable)

The equipment to be used will be provided by the contractors that will be hired.

Table D: Appropriate Equipment Available

Surveying equipment – contract surveyor
Drill rig machine – drilling contractor
Geophysical logging equipment – contract geologist
Field vehicles – relevant field contractors
Sample analyses equipment – laboratory contractor
Other relevant field equipment – contract geologist

7.3 Technical skills provided Free of Charge

7.3.1 Information (CV’s) in respect of skills already acquired (append)

The applicant holds a National Higher Diploma in Mining from the University of Johannesburg, a Mine Managers Certificate of Competence from the Department of Mineral Resources and other Management qualifications. The applicant has over 26 years of experience in the mining industry, at various levels up to General Manager level. A detailed CV of the applicant is attached as Appendix A.

7.3.2 Copy of relevant contractual agreements between the service provider(s) and the applicant relative to the duration of the planned prospecting period, where applicable. (append)

The applicant has a Memorandum of Understanding with Imbila GeoConsult to bring together all other relevant service providers at the appropriate time, see Appendix B.

7.3.3 All other evidence of Technical Ability (append)

The project geologist's CV from Imbila GeoConsult is attached as Appendix C.

8 REGULATION 7 (1) (j) (ii): DETAILS WITH DOCUMENTARY PROOF OF A BUDGET AND DOCUMENTARY PROOF OF THE APPLICANT'S FINANCIAL ABILITY OR ACCESS THERETO

The required documentary proof of a budget and documentary proof of the applicant's financial ability or access thereto are attached as Appendix D.

9 REGULATION 7 (1) (k): A COST ESTIMATE OF THE EXPENDITURE TO BE INCURRED FOR EACH PHASE OF THE PROPOSED PROSPECTING OPERATION (remember to also include prospecting fees)

The cost estimate is contained in Table 9.1 below.

Table 9.1 Cost estimate of the expenditure to be incurred in each prospecting phase

ACTIVITY	YEAR 1 Expenditure (R)
Phase 1 (1 month)	15 000
Phase 1 (1 month)	25 000
Phase 2 (1 month)	70 000
Phase 2 (2 months)	125 000
Phase 3 (2 months)	35 000
Phase 3 (2 months)	75 000
Phase 4 (3 months)	150 000
Annual Total	495 000

10 FINANCIAL ABILITY TO GIVE EFFECT TO THE WORK PROGRAMME

10.1 The amount required to finance the Work Programme

(State the amount required to complete the work)

ZAR 495 000 is required to complete the prospecting work over one year.

ZAR 220 000 is the amount strictly required to complete the prospecting activities; the balance is for studies/evaluations that are associated/related to prospecting activities.

10.2 Detail regarding the financing arrangements

(Elaborate on the financing arrangements, in terms of where the finance will be sourced, extent to which the financing has been finalised and on the level of certainty that such financing can be secured)

The required details are attached as Appendix E.

10.3 Confirmation of supporting evidence appended

(Attach evidence of available funding and or financing arrangements such as balance sheets, agreements with financial institutions, underwriting agreements, etc. And **specifically confirm** in this regard what documentation has been attached as appendices)

The required evidence is attached as Appendix F.

11 Confirmation of the availability of funds to implement the proposed project.

CONFIRMED (Mark with an X)	<input type="checkbox"/>
----------------------------	--------------------------

12 I herewith confirm that I have budgeted and financially provided for the total budget as identified in Regulation 7(1) (k).

CONFIRMED (Mark with an X)	<input type="checkbox"/>
----------------------------	--------------------------

13 REGULATION 7 (1) (m): UNDERTAKING SIGNED BY THE APPLICANT, TO ADHERE TO THE PROPOSALS AS SET OUT IN THE PROSPECTING WORK PROGRAMME

Table 13.1

Herewith I, the person whose name and identity number is listed below, confirm that I am the Applicant or the person authorised to act as representative of the Applicant in terms of the resolution submitted with the application, and undertake to implement this prospecting work programme and adhere to the proposals set out herein.

Dear Sirs,

RE: YOUR CLIENTS – THE JOUBERT TRUST IT 4791/2001; THE BRANRON FAMILIE TRUST IT 3207/1997; THE JARDIM FAMILY TRUST IT 9689/1999

1. I refer to your letter dated 31 July 2020.
2. Thank you for explaining the position. My initial understanding that the application which you sent me was a draft is correct.
3. Once I receive notification from the Department: Mineral Resources, and the Regional Manager of your application, my client will deal with a letter of Objection in due course.
4. Please advise whether the prospecting work program which you furnished me with is identical to the prospecting work program you lodged with the Department. I asked this question because the following appendixes have not been attached, being A, B, C, D, E and F.

5. In response to your request in paragraph 9 of your letter under reply that your client's archaeologist have access to the properties, for the purpose of "a site walk through during August 2020" you are advised that my clients do not give their consent thereto. My clients will not make their properties available to you under any circumstances, pending the final determination of your application.

6. All my client's rights are reserved.

Yours faithfully,

GLYNNIS COHEN ATTORNEY

SIRS

IN RE: LOMEZA OPENCAST OPERATIONS / THE JOUBERT (FAMILY) TRUST AND JOHAN GROBLER

We refer to the abovementioned matter as well as your e-mail dated 8 July 2020 addressed to our clients, containing your client's "Background Information Document".

We confirm that we are acting on behalf of Mr Johan Grobler and the Joubert Family Trust (our clients) herein.

We further refer to your letter dated 31 July 2020, addressed to Glynnis Cohen Attorneys.

It is our instructions to lodge an objection against your client's application for a prospecting right on our clients' respective properties.

In terms of Section 10 of the Mineral and Petroleum Resources Development Act 28 of 2002 ("the MPRDA"), the following time periods are prescribed:

"10. Consultation with interested and affected parties

- (1) **Within 14 days after accepting** an application lodged in terms of section 16, 22 or 27, the Regional Manager must in the prescribed manner [in terms of the Regulations published]-

Director: Johan Jordaan B Jur LLB LLM Law of Contract (Cum Laude)
Associate: Lizarié Smit Bcom LLB
Attorneys: Chanelda van Wyk LLB, Liezl de Beer LLB; Nicole Reyneke BCom LLB
Candidate Attorneys: Christoff Pretorius and Lauren Janse van Rensburg

- (a) make known that an application for a prospecting right, mining right or mining permit has been accepted in respect of the land in question; and
 - (b) call upon interested and affected persons to **submit their comments** regarding the application **within 30 days from the date of the notice**.
- (2) **If a person objects** to the granting of a prospecting right, mining right or mining permit, the Regional Manager must refer the objection to the Regional Mining Development and Environmental Committee to consider the objections and to advise the Minister thereon."

Further, in particular, the Regulations published in terms of the MPRDA, provide as follows:

"Consultation with interested and affected persons

3. (1) The Regional Manager or designated agency, as the case may be, must make known by **way of a notice, that an application** contemplated in regulation 2, **has been accepted** in respect of the land or offshore area, as the case may be.
- (2) The notice referred to in subregulation (1) **must be placed on a notice board** at the office of the Regional Manager or designated agency, as the case may be, that is accessible to the public.
- (3) In addition to the notice referred to in subregulation (1), the Regional Manager or designated agency, as the case may be, **must also** make known the application by **at least one of the following methods** -
- (a) Publication in the applicable Provincial Gazette;
 - (b) Notice in the Magistrate's Court in the magisterial district applicable to the land in question; or

Director: Johan Jordaan B Jur LLB LLM Law of Contract (Cum Laude)
Associate: Lizarié Smit BCom LLB
Attorneys: Chanelda van Wyk LLB, Liezl de Beer LLB, Nicole Reyneke BCom LLB and Leandri Steyn LLB
Candidate Attorneys: Christoff Pretorius, Lauren Janse van Rensburg

- (c) *Advertisement in a local or national newspaper circulating in the area where the land or offshore area to which the application relates, is situated.*

- (4) *A publication, notice or advertisement referred to in subregulation (3) must include –*
 - (a) **An invitation to members of the public** to submit comments in writing on or before a date specified in the publication, notice or advertisement, which date may not be earlier than 30 days from the date of such publication, notice or advertisement;
 - (b) **The name and official title of the person to whom** any comments must be sent or delivered; and
 - (c) the –
 - (i) **Work, postal and street address, and, if available, an electronic mail address;**
 - (ii) *Work telephone number; and*
 - (iii) *Facsimile number, if any, of the person contemplated in paragraph (b)."*

We assume that the application for a prospecting right on our clients' respective properties has not yet been accepted, due to the fact that this was not disclosed to our clients in any correspondence, or other way whatsoever, that we are aware of (in particular having regard to paragraph 7.3 of your letter dated 31 July 2020).

Kindly therefore indicate whether the application, as submitted on 9 July 2020, has, in the interim, been accepted by the Regional Manager (appointed by the Director-General of the Department of Mineral Resources), and if so, we require the following:

Director:	Johan Jordaan B Jur LLB LLM Law of Contract (Cum Laude)
Associate:	Lizarié Smit BCom LLB
Attorneys:	Chanelda van Wyk LLB, Liezl de Beer LLB, Nicole Reyneke BCom LLB and Leandri Steyn LLB
Candidate Attorneys:	Christoff Pretorius, Lauren Janse van Rensburg

1. The complete application, as submitted to the Department of Mineral Resources and Energy (the DMRE);
2. The DMRE's reference number;
3. The date on which the Regional Manager accepted the application, i.e. when it was accepted in terms of the MPRDA;
4. Full details of when the notice of acceptance was placed on the notice board, and at which office the notice may be found (as contemplated in paragraph 3 of the Regulations issued in terms of the MPRDA);
5. What alternative method of publication was used in respect of the notice of acceptance; publication in the Provincial Gazette, notice in the Magistrates Court, or advertisement in a local or national newspaper. In this regard, kindly provide us with copies of whichever form was used in compliance.

In the event that it, in fact, has not yet been accepted, a written undertaking from yourselves that our office will be informed of the acceptance, without any delay. (This is, obviously, over and above the statutory notice requirements).

Further, kindly find attached hereto the forms attached to your "Background Information Document", that was duly completed by our clients, being Interested and Affected Parties.

We look forward to your response herein.

Kind regards,

JOHAN JORDAAN

Dear Madam

RE: NOTICE OF APPLICATION IN TERMS OF SECTION 16 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS OF 2014 (AS AMENDED BY GNR 326 EFFECTIVE 7 APRIL 2017)

We act in this matter on behalf of the following property owners:

1. Dean Francois de Kock and Riani de Kock, the registered co-owners of Portion 70 of the Farm Kloppersbos 128 JR;
2. Domingos Sardinha Jardim, the registered owner of Portion 52 and 82 of the Farm Kloppersbos 128 JR;
3. Joelwin Domingos Sardinha Jardim, the registered owner of Portion 51 and 79 of the Farm Kloppersbos 128 JR;
4. Ubusika Umlimi (Pty) Ltd, the registered owner of Portion 71 of the Farm Kloppersbos 128 JR;
5. Mantaray Trading 101 (Pty) Ltd, the registered owner of Portion 77 of the Farm Kloppersbos 128 JR;
6. The trustees for the time being of the GEV Property Trust, the registered owner of Portion 69 of the Farm Kloppersbos 128 JR;

-
7. Armada Investments 001 CC, the registered owner of Portion 53 of the Farm Kloppersbos 128 JR and;
 8. The trustees for the time being of the V D S Property Trust, Martha Magdalena van der Schyff, Francois Marthinus Venter and Jan-Hendrik van der Walt, the registered co-owners of the Remaining Extent of Portion 75 of the Farm Kloppersbos 128 JR.

The above properties are known (collectively) as the Manyane Lodge Sanctuary Area and the above persons hereinafter referred to as “*our clients*”.

We refer to your background information document (BID), dated 8 July 2020, forwarded to, inter alia, Mr Joelwin Domingos Sardinha Jardim, one of the property owners referred to above.

Kindly note that we have been instructed by our above clients to give notice to yourselves and to ensure the proper registration of our abovementioned clients, as interested and affected parties, as well as, where applicable, Objectors to the application for a prospecting right, as well as the application for Environmental Authorisation, contemplated in the BID. Kindly confirm our clients’ registration as such.

We have noted that our clients have been invited to, at this point in time, already, provide you with comments or concerns. Kindly note that our clients hereby reserve their right to comment and make representations, once the comprehensive draft Basic Assessment Report has been received, as they will prefer to do so on a more informed basis.

As a preliminary issue, we are indeed concerned about the fact that only one of our clients i.e. Mr Jardim, was notified of the applicable application processes and, despite the fact that the properties of all our other clients are also located in close proximity, if not adjacent, to the subject property, none of them, nor any of the occupants, were advised of the process. In the aforesaid regard, kindly allow us to refer you to the provisions of the Guideline Document on Public Participation, issued by the National Department of Environmental Affairs, as well as the provisions of, inter alia, Section 16 of the MPRDA.

Kindly acknowledge receipt hereof and confirm that our clients have been duly registered as Interested and Affected Parties.

Yours faithfully

IVAN PAUW & PARTNERS

ALGEMENE KENNISGEWINGS

NOTICE OF PROSPECTING RIGHT APPLICATION

Notice is hereby given in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA) and the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) as well as the Environmental Impact Assessment (EIA) Regulations of 2014 (as amended 2017) that Lomezia Opencast Operations (Pty) Ltd intends applying for:

- environmental authorization to prospect for coal on Portion 5 of the farm KLOPPERSBOS 128 JR and Portions 7 and 8 of the farm Ekuphumuleni 716 JR, situated in the Cullinan (Nokeng Tsa Taemane Local Municipality) magisterial district of the Gauteng Province.
- a prospecting right in terms of Section 16 of the MPRDA, 2002 to the Department of Mineral Resources and Energy.

The proposed prospecting footprint is 409,7979 ha over the above mentioned properties. Prospecting will involve desktop reviews of the potential mineral resource and borehole drilling to retrieve geological core samples. All activities will be contained within the boundaries of the site.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (amended 2017) and therefore requires a basic assessment process to obtain environmental authorization: GNR 327 Listing Notice 1 of 2017 Activity 20:

Any activity including the operation of that activity which requires a prospecting right in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including:

- associated infrastructure, structures and earthworks, directly related to the prospecting of a mineral resource; or
- the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 of 2017: GNR 327 Listing Notice 1 of 2017 Activity 22: The decommissioning of any activity requiring -

- a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or
- a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has, in writing agreed that such reduction in throughput does not constitute closure. GNR 324 Listing Notice 3 of 2017 Activity 12:

The clearance of an area of 300 square meters or more of indigenous vegetation except where the clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.

(i) a closure certificate in terms of section 52 of the NEMBA

or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment, 2004

- Within Critical Biodiversity Areas or Ecological Support Areas identified in the Gauteng Conservation Plan or bioregional plans; or
- On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning.

Interested and Affected Parties (I&APs) are invited to provide written comments. I&APs must provide their comments with their name and contact details to the environmental consultant indicated below within 30 days from the date of this notice. Should additional information be required it could be obtained from Greenmined Environmental.

A register of I&APs that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&APs will be entitled to comment on reports and plans to be submitted to the Departments, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interests which the party may have in the approval or refusal of the application. The registered I&APs will, in writing, within 14 days of the date of the decision be notified of the outcome of the application including the reasons for the decision and the right to appeal.

ALGEMENE KENNISGEWINGS

NOTICE OF PROSPECTING RIGHT APPLICATION

Notice is hereby given in terms of Section
16 of the Mineral and Petroleum Resources
Development Act, 2002 (Act No 28 of 2002)
(MPRDA) and the National Environmental
Management Act, 1998 (Act No. 107 of
1998) (NEMA) as well as the Environmental
Impact Assessment (EIA) Regulations of
2014 (as amended 2017) that Lomez
Opencast Operations (Pty) Ltd intends
applying for:

- environmental authorization to prospect
for coal on Portion 5 of the farm
**KLOPPERSBOES 129 JR and Portions 1,
7 and 8 of the farm Ekuphumeni 716
JR**, situated in the Cullinan (Nokeng Tsa
Taemane Local Municipality) magisterial
district of the Gauteng Province.
- a prospecting right in terms of Section 16
of the MPRDA, 2002 to the Department of
Mineral Resources and Energy.

The proposed prospecting footprint is
409,799 ha over the above mentioned prop-
erties. Prospecting will involve desktop
reviews of the potential mineral resource
and borehole drilling to retrieve geological
core samples. All activities will be contained
within the boundaries of the site.

The proposed project triggers the following
listed activities in terms of NEMA, 1998 and
the EIA Regulations 2014 (amended 2017)
and therefore requires a basic assessment
process to obtain environmental authoriza-
tion: **GNR 327 Listing Notice 1 of 2017
Activity 20:**

Any activity including the operation of that
activity which requires a prospecting right
in terms of Section 16 of the Mineral and
Petroleum Resources Development Act, 2002
(Act No. 28 of 2002), including –
(a) associated infrastructure, structures and
earthworks, directly related to the prospec-
ting of a mineral resource; or
(b) the primary processing of a mineral
resource including winning, extraction, clas-
sifying, concentrating, crushing, screening or
washing; but excluding the secondary pro-
cessing of a mineral resource, including the
smelting, beneficiation, reduction,
refining, calcining or gasification of the
mineral resource in which case activity 6 in
Listing Notice 2 applies. **GNR 327 Listing
Notice 1 of 2017 Activity 22:**

The decommissioning of any activity
requiring –
i) a closure certificate in terms of section
43 of the Mineral and Petroleum Resources
Development Act, 2002 (act No. 28 of 2002); or

ii) a prospecting right, mining right, mining
permit, production right or exploration right,
where the throughput of the activity has
reduced by 90% or more over a period of 5
years excluding where the competent
authority has in writing agreed that such
reduction in throughput does not constitute
closure. **GNR 324 Listing Notice 3 of
2017 Activity 12:**

The clearance of an area of 300 square
meters or more of indigenous vegetation
except where such clearance of indigenous
vegetation is required for maintenance pur-
poses undertaken in accordance with a main-
tenance management plan.

c) Gauteng
i. Within any critically endangered or endan-
gered ecosystem listed in terms of section
52 of the NEMBA
or prior to the publication of such a list,
within an area that has been identified as
critically endangered in the National Spatial
Biodiversity Assessment 2004.

ii. Within Critical Biodiversity Areas or
Ecological Support Areas identified in the
Gauteng Conservation
Plan or bioregional plans; or

iii. On land, where, at the time of the coming
into effect of this Notice or thereafter such
land was zoned open space, conservation or
had an equivalent zoning.

Interested and Affected Parties (I&APs)
are invited to provide written comments. I&APs
are invited to provide their comments with their
name and contact details to the environmen-
tal consultant indicated below within 30
days from the date of this notice. Should
additional information be required it could
be obtained from Greenmined
Environmental.

A register of I&APs that submitted written
comments or requested to be registered will
be opened. All organs of state which have
jurisdiction in respect of the activity will
also be listed on the register. Please note
that only registered I&APs will be entitled
to comment on reports and plans to be sub-
mitted to the Departments, provided that
the party provides its name, contact details
and address and discloses any direct busi-
ness, financial, personal or other interests
which the party may have in the approval
or refusal of the application. The registered
I&APs will, in writing, within 14 days of the
date of the decision be notified of the
outcome of the application including the
reasons for the decision and the right to
appeal.

NOTICE OF PROSPECTING RIGHT APPLICATION

Notice is hereby given in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) [MPRDA] and the National Environmental Management Act, 1998 (Act No. 107 of 1998) [NEMA] as well as the Environmental Impact Assessment (EIA) Regulations of 2014 (as amended by GNR 325 effective 7 April 2017) intent to carry out the following activity.

Lomezia Opencast Operations (Pty) Ltd intends to apply for a prospecting right on portion 5 of the farm Koppertbos 128 JR and portions 1, 7 and 8 of the farm Ekuphumleni 716 JR (409 7979 ha), which falls in Magisterial District of Cullinan (Nokeng Tsa Taemane Local Municipality), City of Tshwane, Gauteng Province. The application area is situated approximately 15.63 km North-West of Cullinan. The commodity of interest is Coal. The proposed prospecting area is a natural area. The planned activities for the proposed site is detailed below. All activities will be contained within the boundaries of the site.

DESCRIPTION OF PLANNED NON-INVASIVE ACTIVITIES:

(These activities do not disturb the land where prospecting will take place, e.g. aerial photography, desktop studies, aeromagnetic surveys, etc.)

1. Phase 1 (months 1 to 2), phase 3 (months 6 to 9) and phase 4 (months 10 to 12)
 - Desktop studies
 - Geological Mapping
 - 3D Modelling and resource estimation
 - Prefeasibility study
 - Bankable feasibility study

DESCRIPTION OF PLANNED INVASIVE ACTIVITIES:

(These activities result in land disturbances e.g. sampling, drilling, bulk sampling, etc.)

2. Phase 2 (months 3 to 5)
 - First phase drilling on a widely spaced grid using percussion and geophysical logging of boreholes
 - Second phase drilling using diamond coring, laboratory test work on recovered core samples
 - Infill drilling for detailed resource definition and mine design

The list of activities under pre-feasibility studies includes the following:

- Geological modelling and coal resource estimator;
- Coal reserve estimation;
- Mine design and scheduling;
- Metallurgical processing;
- Market development;
- Infrastructure design;
- Engineering development;
- Human resourcing;
- Project development and operational costing

The mining site will contain the following:

- Surveying Equipment;
- Drilling equipment;
- Geophysical logging equipment;
- Field Vehicles;
- Sample Analysis equipment and
- Other relevant field equipment.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and therefore requires a basic assessment process to obtain environmental authorization:

• GNR 327 Environmental Impact Assessment Regulations Listing Notice 1 of 2017, Activity 20.

Any activity including the operation of that activity which requires a prospecting right in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including –

- (a) associated infrastructure, structures and earthworks, directly related to the prospecting of a mineral resource [1] or [including activities for which an exemption has been issued in terms of section 106 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002)]
- (b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing; but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.

• GNR 327 Listing Notice 1 of 2017 Activity 22.

The decommissioning of any activity requiring –

- i) a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or
- ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.

Interested and Affected Parties (IAP's) are invited to provide written comments. IAP's must provide their comments with their name and contact details to the environmental consultant indicated below within 30 days from the date of this notice (8 July 2020 – 11 August 2020). Should additional information be required it could be obtained from Greenmined Environmental.

A register of IAP's that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered IAP's will be entitled to comment on reports and plans to be submitted to the Department, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interest which the party may have in the approval or refusal of the application. The registered IAP's will, in writing, within 14 days of the date of the decision be notified of the outcome of the application including the reasons for the decision and the right to appeal.

The contact consultant is Greenmined Environmental, Suite 62, Private Bag X15, Posnet Sulta 218, Somerset West, 7120 or contact Sonette Smit at (024) 585 5706 or Tel (021) 851 2673, Fax (086) 540 0579, E-Mail: socafeta@greenmined.co.za

• GNR 324 Listing Notice 2 of 2017 Activity 12.

The clearance of an area of 300 square meters or more of indigenous vegetation, c) Gauteng Province

i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004;

ii. Within Critical Biodiversity Areas or Ecological Support Areas identified in the Gauteng Conservation Plan or biological plans; or

iii. On land, where, at the time of the coming into effect of this notice or thereafter such land was zoned open space, conservation or had an equivalent zoning.

Other legislation triggered by the proposed project includes:

- An application for a Prospecting Right in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) has been submitted to the Department of Mineral Resources.
