**RE: NOTICE OF APPLICATION IN TERMS OF SECTION 27 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017).**

**BACKGROUND INFORMATION**

Inzalo Crushing and Aggregates (Pty) Ltd (hereinafter referred to as "the Applicant") applied for a mining permit to mine stone aggregate/ gravel on a portion of Portion 15 on Farm Rietspruit 437, IS, Msukaligwa Local Municipality, Mpumalanga Province.

**SITE DESCRIPTION**

The proposed mining footprint will be 4.9 ha and will be developed over an undisturbed area of the farm. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries. The proposed GPS coordinates of the area applied for are as listed below.

### LEGAL COMPLIANCE

The proposed project triggers the following listed activities in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) and the Environmental Impact Assessment Regulations 2014 (as amended 2017) and therefore requires an environmental impact assessment (EIA) (basic assessment process) that assess project

## **BACKGROUND INFORMATION DOCUMENT**

specific environmental impacts and alternatives, consider public input, and propose mitigation measures, to ultimately culminate in an environmental management programme that informs the competent authority (Department of Mineral Resources and Energy ) when considering the environmental authorisation:

■ GNR 327 Listing Notice 1 of 2017 Activity 21:

*Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –*

- a) *associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or*
- b) *the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.*

*but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.*

■ GNR 327 Listing Notice 1 of 2017 Activity 27:

*The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for—*

- (i) the undertaking of a linear activity; or*
- (ii) maintenance purposes undertaken in accordance with a maintenance management plan.*

■ GNR 327 Listing Notice 1 of 2017 Activity 28:

*Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:*

- (i) will occur inside an urban area, where the total land to be developed is bigger than 5 hectares; or*
- (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;*

*excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.*

■ GNR 327 Listing Notice 1 of 2017 Activity 35:

*The expansion of residential, retail, recreational, tourism, commercial or institutional developments on land previously used for mining or heavy industrial purposes, where the increased development footprint will exceed 1 000 square meters; excluding—*

- (i) where such land has been remediated in terms of part 8 of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) in which case the National Environmental Management: Waste Act, 2008 applies; or*

## **BACKGROUND INFORMATION DOCUMENT**

*(ii) where an environmental authorisation has been obtained for the decommissioning of such a mine or industry in terms of this Notice or any previous NEMA notice; or*

*(iii) where a closure certificate has been issued in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) for such land.*

■ GNR 327 Listing Notice 3 of 2017 Activity 4(f)(i)(ee):

*Development of road wider than 4 metres with reserve less than 13.5 metres, in Mpumalanga geographical area, outside an urban area and within a critical biodiversity area as identified in systematic biodiversity plans adopted by the competent authority or in bioregional plans;*

### **OTHER LEGISLATION TRIGGERED BY THE PROPOSED PROJECT:**

An application for a Mining Permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) was submitted to the Department of Mineral Resources and Energy – Mpumalanga Province.

### **PROJECT DESCRIPTION**

The Applicant applied for a mining permit to mine stone aggregate/ gravel on a portion of Portion 15 on Farm Rietspruit nr 437, IS, Msukaligwa Local Municipality, Mpumalanga Province.

The proposed mining footprint will be 4.9 ha and will be developed over an undisturbed area of the farm. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

The applicant intends to win material from the area for at least 2 years with a possible extension of another 3 years. The aggregate to be removed from the quarry will be used local construction and building projects in the vicinity. The proposed quarry will therefore contribute to the upgrading / maintenance of road infrastructure and building contracts in and around the Ermelo area.

The mining activities will consist out of the following:

- Stripping and stockpiling of topsoil;
- Blasting
- Excavating;

## **BACKGROUND INFORMATION DOCUMENT**

- Crushing & Screening;
- Stockpiling and transporting;
- Sloping and landscaping upon closure of the site; and
- Replacing the topsoil and vegetation the disturbed area.

The mining site will contain the following:

- Drilling equipment;
- Excavating equipment;
- Earth moving equipment;
- Static crushing and screening plants
- Access Roads;
- Site Office (Containers);
- Site vehicles;
- Parking area for visitors and site vehicles;
- Vehicle service area;
- Wash bay;
- Workshop (Containers);
- Salvage Yard;
- Bunded diesel and oil storage facilities;
- Generator on bunded area;
- Ablution Facilities (Chemical Toilets);
- Weigh Bridge; and
- Demarcated general and hazardous waste area.

### **ACCESS ROUTE:**

Access to the proposed mining area will be via the R39, making use of the new internal/haul roads to access the mining area. Haul roads will be extended as the open cast mining progress, and will be rehabilitated as part of the final reinstatement of the area. Trucks delivering the materials to the destinations will take the R39 provincial route.

### **WATER USE:**

Any water required for the implementation of the project will be bought and transported to site.

### **ELECTRICITY:**

Generators will be used to power the plant on site, if a connection to the existing power infrastructure cannot be secured. Mobile containers will be placed inside the mining footprint that will serve as offices and storage units. A

## **BACKGROUND INFORMATION DOCUMENT**

weighbridge will be added to the site and the crushing and screening plant will operate within a designated processing area (within the 5 ha permit footprint).

### ***BRIEF SITE DESCRIPTION***

#### **GEOLOGY:**

The geology of the study area is restricted to vertic clay soils derived from dolerite that is intrusive in the Karoo sediments of the Madzaringwe Formation in the north and the Volksrust Formation and the Adelaide Subgroup in the south. Dominant land type Ca, while Ea land type is of subordinate importance.

#### **HYDROLOGY:**

The proposed mining area falls within the C11F quaternary catchment which falls within the upper reaches of the Vaal River primary catchment that is situated in the Upper Vaal Water Management Area which is managed by the Department of Water and Sanitation (DWS). No open watercourses or drainage line is located in close proximity of the site according to the National Wetlands and NFEPA map of SANBI. However, there is an artificial wetland about 522m of the earmarked area which causes a high risk for mining and should be regarded as a no go zone.

#### **FAUNA AND FLORA:**

According to Mucina and Rutherford (2012) the area comprises of undulating grassland plains, with small scattered patches of dolerite outcrops in areas. The vegetation is comprised of a short closed grassland cover, largely dominated by a dense *Themeda triandra* sward, often severely grazed to form a short lawn.

#### **LAND USE:**

The project area is located in the jurisdiction of the Msukaligwa Local Municipality, with Ermelo being the nearest town. The land use of the earmarked property is undisturbed area and the surrounding properties are mainly used for a variety of mixed agricultural purposes as well as mining and industrial purposes.

#### **AIR AND NOISE QUALITY:**

The wind patterns in Ermelo are somewhat influenced by seasonal variations. According to worldweatheronline.com strong winds blow between August and December with an average of 12kmph and slowly decreases 7.5kmph between January and June. The ambient noise levels of the surrounding area are low with the noise levels of the greater surrounding area are low representing that of a rural area, with the noise levels of the study area (immediate surroundings) impacted by farming operations and the R39.

## **BACKGROUND INFORMATION DOCUMENT**

### **HERITAGE:**

The proposed mining footprint extends into an undisturbed area. According to SAHRIS, the PalaeoSensitivity Maps shows that the area has an insignificant/ zero sensitivity (please see map below). However, it is proposed that a chance-find protocol be incorporated in the EMPR to be adhered to for the duration of the site establishment, operational- and decommissioning phases.

**Figure 2:** Map showing the paleontological sensitive areas (image obtained from <https://sahris.sahra.org.za/map/palaeo>)

### **FINAL REHABILITATION**

Upon closure of the mining operation the entire footprint area will be rehabilitated so as to allow the affected area to return to agricultural use. At this stage the following baseline rehabilitation actions are proposed from which a detailed closure plan will be developed:

- Rehabilitation of all the disturbed surface areas shall entail landscaping, levelling, sloping, top dressing, land preparation, seeding (if required), and weed / alien clearing.
- All infrastructures, equipment, and other items used during the mining period will be removed from the site in accordance with section 44 of the MPRDA, 2002.
- Waste material of any description, including receptacles, scrap, rubble and tyres, will be removed entirely from the mining area and disposed of at a recognized landfill facility. It will not be permitted to be buried or burned on the site.

## **BACKGROUND INFORMATION DOCUMENT**

- The rehabilitation area will be cleared of weeds and invader plant species. Priority will be given to species regarded as Category 1a and 1b invasive species in terms of NEM:BA (National Environmental Management: Biodiversity Act 10 of 2004 and regulations applicable thereto).
- Final rehabilitation shall be completed within a period specified by the Regional Manager.

### ***APPLICATION FOR CLOSURE***

Once the full mining area was rehabilitated the mining permit holder will submit a closure application to the Department of Mineral Resources and Energy in accordance with section 43(4) of the MPRDA, 2002 that states: *“An application for a closure certificate must be made to the Regional Manager in whose region the land in question is situated within 180 days of the occurrence of the lapsing, abandonment, cancellation, cessation, relinquishment or completion contemplated in subsection (3) and must be accompanied by the prescribed environmental risk report”*. The Closure Application will be submitted in terms of Regulation 62 of the MPRDA, 2002, and Government Notice 940 of NEMA, 1998.

### ***PUBLIC INVOLVEMENT***

This document is to inform you about the proposed activity and to determine whether there are any concerns or objections from interested and affected parties (I&AP's) that need to be considered.

As interested and affected party you are kindly requested to complete the comments form and give any comment/concern or input with regard to the current land use of the area, the environment as well as socio-economic conditions that you feel might be affected by the proposed activity. When submitting response please provide suggestions to mitigate the anticipated impact of each identified activity.

Please contact Sonette Smit at the contact details as presented in the letterhead or at [comments@greenmined.co.za](mailto:comments@greenmined.co.za) through any means should you need more information, have additional language requirements, have concerns or comments that need to be considered or if you want to be registered as an interested and/or affected party and would like to receive a copy of the Draft Basic Assessment (DBAR) on or before 31 January 2021. If we do not receive any comments from you on or before 31 January 2022, it will be accepted that you do not have any objections/comments with regard to the project and do not require any further documentation.

A register of interested and affected parties (I&AP's) will be opened and maintained containing the names, contact details and address of all persons who have submitted written comments, attended meetings or have in writing requested to be registered and all organs of state which have jurisdiction in respect of the activity. Please note that only registered I&AP's and stakeholders will be entitled to comment on reports and plans to be submitted to the

## **BACKGROUND INFORMATION DOCUMENT**

Department provided that the party provide its name, contact details and address and discloses any direct business, financial, personal or other interest which he/she may have in the approval or refusal of the applications.

Please use MP 30/5/1/3/2/13080 MP as the reference when submitting comments.

The Draft Basic Assessment Report (DBAR) will be submitted to the Department of Mineral Resources and Energy – Mpumalanga (DMRE) for review purposes. This report will also be made available to the public for a 30 days review period. An electronic copy of the report will be published on the Greenmined Environmental website ([www.greenmined.com](http://www.greenmined.com)). All registered I&AP's and stakeholders will be notified of the commenting period in advance as above.

The DBAR will then be updated to reflect the comments received during the public commenting period. Thereafter, the Final Basic Assessment Report (FBAR) will be submitted to DMRE for its consideration as part of the authorization process in terms of the NEMA, 2014 regulations (as amended 2017). A copy of the final report will be made available on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

Dear Lindokuhle

Thank you for your email. There is no public participation meeting scheduled at this stage. We will send you a link with the DSR as soon as it is available, please send us your comments thereafter. Should you require a meeting with the EAP, kindly send us three possible dates for a zoom meeting after the commenting period ends on 31 January 2022.

**Attachments:** Map Layout.pdf; Annex D.pdf; Annex E.pdf; LC\_LD\_INV\_E\_HL\_493\_2021.pdf

Good day,

Please receive attached Eskom Distribution Consent Letter, Annex D & E and map layout. If you accept Eskom's condition please complete Annex D and E and send back to me before commencement of the project.

Note : Eskom's Distribution consent doesn't relieve the applicant from obtaining the necessary statutory, land owner or municipal approvals.

We thank you and hope that you find the above in order, and please don't hesitate to contact us should you've any queries or seek clarity.

Regards  
Herry

***BACKGROUND INFORMATION DOCUMENT***

9 December 2021

DR H F Verwoerd straat 22  
De Bruin Park,  
Ermelo  
2351

Dear Rachel Monica Phumzile Khanyi

**RE: NOTICE OF APPLICATION IN TERMS OF SECTION 27 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017).**

***BACKGROUND INFORMATION***

Inzalo Crushing and Aggregates (Pty) Ltd (hereinafter referred to as "the Applicant") applied for a mining permit to mine stone aggregate/ gravel on a portion of Portion 15 on Farm Rietspruit 437, IS, Msukaligwa Local Municipality, Mpumalanga Province.

***SITE DESCRIPTION***

The proposed mining footprint will be 4.9 ha and will be developed over an undisturbed area of the farm. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries. The proposed GPS coordinates of the area applied for are as listed below.

I, Karel Stefanus Erasmus, a farmer adjacent to Portion 15 on Farm Rietspruit objects to the application for mining permit by Inzalo Crushing and Aggregates (Pty) Ltd based on the following ground:

- It is not evident from your Background Information Document what specialized studies will or have been conducted. It is important for me to understand what detrimental affects your project will have on my farming. I would therefore like to see what specialist studies have been conducted and I would like the opportunity to comment on those specialized studies.
- What impact will your project have on the adjacent water course? Have you completed any specialized studies assessing what impact your activity will have on the downstream water course?
- Also, the area which you are proposed to mine is within 600 meters from my farm building and I do fear that the blasting will cause damage to the infrastructure. Are you going to apply for the 500m blasting permit and also, I would like to see the blasting risk assessment That you have compiled in this regard?

I would appreciate if you can provide me with the information requested in order for me to review the full set of identified impacts and mitigation measures proposed.

**RESPONSE SEND TO ME ELSA ERASMUS ON 4  
FEBRUARY 2022**

4 February 2022

Karel Erasmus  
PO Box 653  
Ermelo  
2350

By email: [elsae@nashuahighveld.co.za](mailto:elsae@nashuahighveld.co.za)

Dear Sir,

**RE NOTICE OF APPLICATION IN TERMS OF SECTION 27 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT 28 OF 2002 (“MPRDA”) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT 107 OF 1998 (“NEMA”) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017)**

The above matter as well as the letter received from you dated Monday 26 January 2021 refers. We thank you for your valuable participation and for submitting comments. Please see the responses to your comments below.

It is important to note that the Background Information Document dated 9 December 2021 is a document providing background for the first phase of this proposed project. More information relating to the project will be provided in the Draft Basic Assessment Report. The purpose of the Background Information Document is to invite parties to register as interested and affected parties. The effects and the impacts of the proposed activity will only be assessed when the Draft Basic Assessment Report is compiled. All interested and affected parties, including yourself, will be afforded ample opportunity to comment on the proposed activity and its possible impacts.

We note your concern that we are not conducting a full Environmental Impact Assessment. Please note that the proposed project triggers five listed activities in terms of the National Environmental Management Act (Act 107 of 1998) and the Environmental Impact Assessment Regulations 2014 (as amended 2017). These activities that are triggered, all fall under Listing Notice 1 and 3 of the EIA Regulations, which means

**the goal isn't to live forever, it is to protect a planet that will**

that a Basic Assessment and not an EIA must be conducted.

The effects and impacts of the proposed activity will be assessed when the Draft Basic Assessment Report is compiled. Any further studies as proposed by you will then be conducted during this phase should it be found applicable by the specialist in the particular field of expertise.

The Background Information Document is compiled according to the screening report that shows which environmental theme will have a high sensitivity. Since the application is still in its early phases, we have appointed a wetland specialist to conduct a study that will include a comprehensive assessment of each watercourse and wetland as required by the relevant legislation and guidelines. This will be provided to all I&AP's who will be allowed the opportunity to comment in the next 30-day commenting period.

In terms of blasting, the legislation states that we require a permit when infrastructure is within 500 meters of the blasting site. However, a blasting specialist will be appointed before the commencement of any mining activities and the following will be implemented:

- Planning the type, duration, and timing of blasting with due cognizance of other land users and structures in the vicinity; and
- Informing the surrounding landowners and communities in writing ahead of any blasting event.

If you are concerned about your infrastructure, the specialist will place a vibro-recorder near your farm building to test the vibration of the blast.

We trust you will find this in order. Please do not hesitate to contact us in the event of any uncertainties

Mrs Sonette Smit

A handwritten signature in black ink, appearing to read "Smit", is positioned above the printed name and contact information.

Good day,

Please find attached notification that Inzalo Crushing and Aggregates (Pty) Ltd applied for a mining permit to mine stone aggregate/ gravel on a portion of Portion 15 on Farm Rietspruit 437, IS, Msukaligwa Local Municipality, Mpumalanga Province.

*By taking part in this process, the undersigned hereby consents, in terms of the Protection of Personal Information Act 4 of 2013 ("POPIA"), to the lawful processing of his/her personal information by Greenmined Environmental (Pty) Ltd, which personal information may be used as part of documentation pertaining to the Environmental Authorisation and/or Mining or Prospecting Right and/or Mining Permit application process. This is a public process and will become public information upon receipt thereof by the competent authority, which information will no longer be controlled by Greenmined Environmental (Pty) Ltd. Any interested and affected party should be provided with the information contained in this application, upon request, during any stage of the application and therefore your information may be made available to third parties. By providing your details below and by taking part in this process you authorise such information to be shared for the purpose of this application*

Kind Regards/Vriendelike Groete

## **BACKGROUND INFORMATION DOCUMENT**

To whom it may concern

9 December 2021

**RE: NOTICE OF APPLICATION IN TERMS OF SECTION 27 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017).**

### **BACKGROUND INFORMATION**

Inzalo Crushing and Aggregates (Pty) Ltd (hereinafter referred to as "the Applicant") applied for a mining permit to mine stone aggregate/ gravel on a portion of Portion 15 on Farm Rietspruit 437, IS, Msukaligwa Local Municipality, Mpumalanga Province.

### **SITE DESCRIPTION**

The proposed mining footprint will be 4.9 ha and will be developed over an undisturbed area of the farm. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries. The proposed GPS coordinates of the area applied for are as listed below.

### LEGAL COMPLIANCE

The proposed project triggers the following listed activities in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) and the Environmental Impact Assessment Regulations 2014 (as amended 2017) and therefore requires an environmental impact assessment (EIA) (basic assessment process) that assess project

## BACKGROUND INFORMATION DOCUMENT

specific environmental impacts and alternatives, consider public input, and propose mitigation measures, to ultimately culminate in an environmental management programme that informs the competent authority (Department of Mineral Resources and Energy ) when considering the environmental authorisation:

**GNR 327 Listing Notice 1 of 2017 Activity 21:**

*Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –*

- a) *associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or*
- b) *the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.*

*but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.*

**GNR 327 Listing Notice 1 of 2017 Activity 27:**

*The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for—*

*(i) the undertaking of a linear activity; or*

*(ii) maintenance purposes undertaken in accordance with a maintenance management plan.*

**GNR 327 Listing Notice 1 of 2017 Activity 28:**

*Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:*

*(i) will occur inside an urban area, where the total land to be developed is bigger than 5 hectares; or*

*(ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;*

*excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.*

**GNR 327 Listing Notice 1 of 2017 Activity 35:**

*The expansion of residential, retail, recreational, tourism, commercial or institutional developments on land previously used for mining or heavy industrial purposes, where the increased development footprint will exceed 1 000 square meters; excluding—*

*(i) where such land has been remediated in terms of part 8 of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) in which case the National Environmental Management: Waste Act, 2008 applies; or*

## **BACKGROUND INFORMATION DOCUMENT**

(ii) where an environmental authorisation has been obtained for the decommissioning of such a mine or industry in terms of this Notice or any previous NEMA notice; or

(iii) where a closure certificate has been issued in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) for such land.

• GNR 327 Listing Notice 3 of 2017 Activity 4(f)(i)(ee);

*Development of road wider than 4 metres with reserve less than 13.5 metres, in Mpumalanga geographical area, outside an urban area and within a critical biodiversity area as identified in systematic biodiversity plans adopted by the competent authority or in bioregional plans;*

### **OTHER LEGISLATION TRIGGERED BY THE PROPOSED PROJECT:**

An application for a Mining Permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) was submitted to the Department of Mineral Resources and Energy – Mpumalanga Province.

### **PROJECT DESCRIPTION**

The Applicant applied for a mining permit to mine stone aggregate/ gravel on a portion of Portion 15 on Farm Rietspruit nr 437, IS, Msukaligwa Local Municipality, Mpumalanga Province.

The proposed mining footprint will be 4.9 ha and will be developed over an undisturbed area of the farm. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

The applicant intends to win material from the area for at least 2 years with a possible extension of another 3 years. The aggregate to be removed from the quarry will be used local construction and building projects in the vicinity. The proposed quarry will therefore contribute to the upgrading / maintenance of road infrastructure and building contracts in and around the Ermelo area.

The mining activities will consist out of the following:

- Stripping and stockpiling of topsoil;
- Blasting
- Excavating;

## **BACKGROUND INFORMATION DOCUMENT**

- ✦ Crushing & Screening;
- ✦ Stockpiling and transporting;
- ✦ Sloping and landscaping upon closure of the site; and
- ✦ Replacing the topsoil and vegetation the disturbed area.

The mining site will contain the following:

- ✦ Drilling equipment;
- ✦ Excavating equipment;
- ✦ Earth moving equipment;
- ✦ Static crushing and screening plants
- ✦ Access Roads;
- ✦ Site Office (Containers);
- ✦ Site vehicles;
- ✦ Parking area for visitors and site vehicles;
- ✦ Vehicle service area;
- ✦ Wash bay;
- ✦ Workshop (Containers);
- ✦ Salvage Yard;
- ✦ Bunded diesel and oil storage facilities;
- ✦ Generator on bunded area;
- ✦ Ablution Facilities (Chemical Toilets);
- ✦ Weigh Bridge; and
- ✦ Demarcated general and hazardous waste area.

### **ACCESS ROUTE:**

Access to the proposed mining area will be via the R39, making use of the new internal/haul roads to access the mining area. Haul roads will be extended as the open cast mining progress, and will be rehabilitated as part of the final reinstatement of the area. Trucks delivering the materials to the destinations will take the R39 provincial route.

### **WATER USE:**

Any water required for the implementation of the project will be bought and transported to site.

### **ELECTRICITY:**

Generators will be used to power the plant on site, if a connection to the existing power infrastructure cannot be secured. Mobile containers will be placed inside the mining footprint that will serve as offices and storage units. A

## **BACKGROUND INFORMATION DOCUMENT**

weighbridge will be added to the site and the crushing and screening plant will operate within a designated processing area (within the 5 ha permit footprint).

### **BRIEF SITE DESCRIPTION**

#### **GEOLOGY:**

The geology of the study area is restricted to vertic clay soils derived from dolerite that is intrusive in the Karoo sediments of the Madzaringwe Formation in the north and the Volksrust Formation and the Adelaide Subgroup in the south. Dominant land type Ca, while Ea land type is of subordinate importance.

#### **HYDROLOGY:**

The proposed mining area falls within the C11F quaternary catchment which falls within the upper reaches of the Vaal River primary catchment that is situated in the Upper Vaal Water Management Area which is managed by the Department of Water and Sanitation (DWS). No open watercourses or drainage line is located in close proximity of the site according to the National Wetlands and NFEPA map of SANBI. However, there is an artificial wetland about 522m of the earmarked area which causes a high risk for mining and should be regarded as a no go zone.

#### **FAUNA AND FLORA:**

According to Mucina and Rutherford (2012) the area comprises of undulating grassland plains, with small scattered patches of dolerite outcrops in areas. The vegetation is comprised of a short closed grassland cover, largely dominated by a dense *Themeda triandra* sward, often severely grazed to form a short lawn.

#### **LAND USE:**

The project area is located in the jurisdiction of the Msukaligwa Local Municipality, with Ermelo being the nearest town. The land use of the earmarked property is undisturbed area and the surrounding properties are mainly used for a variety of mixed agricultural purposes as well as mining and industrial purposes.

#### **AIR AND NOISE QUALITY:**

The wind patterns in Ermelo are somewhat influenced by seasonal variations. According to worldweatheronline.com strong winds blow between August and December with an average of 12kmph and slowly decreases 7.5kmph between January and June. The ambient noise levels of the surrounding area are low with the noise levels of the greater surrounding area are low representing that of a rural area, with the noise levels of the study area (immediate surroundings) impacted by farming operations and the R39.

## BACKGROUND INFORMATION DOCUMENT

### HERITAGE:

The proposed mining footprint extends into an undisturbed area. According to SAHRIS, the PalaeoSensitivity Maps shows that the area has an insignificant/ zero sensitivity (please see map below). However, it is proposed that a chance-find protocol be incorporated in the EMPR to be adhered to for the duration of the site establishment, operational- and decommissioning phases.

Figure 2: Map showing the paleontological sensitive areas (image obtained from <https://sahris.sahra.org.za/map/palaeo>)

### **FINAL REHABILITATION**

Upon closure of the mining operation the entire footprint area will be rehabilitated so as to allow the affected area to return to agricultural use. At this stage the following baseline rehabilitation actions are proposed from which a detailed closure plan will be developed:

- Rehabilitation of all the disturbed surface areas shall entail landscaping, levelling, sloping, top dressing, land preparation, seeding (if required), and weed / alien clearing.
- All infrastructures, equipment, and other items used during the mining period will be removed from the site in accordance with section 44 of the MPRDA, 2002.
- Waste material of any description, including receptacles, scrap, rubble and tyres, will be removed entirely from the mining area and disposed of at a recognized landfill facility. It will not be permitted to be buried or burned on the site.

## **BACKGROUND INFORMATION DOCUMENT**

- The rehabilitation area will be cleared of weeds and invader plant species. Priority will be given to species regarded as Category 1a and 1b invasive species in terms of NEM:BA (National Environmental Management: Biodiversity Act 10 of 2004 and regulations applicable thereto).
- Final rehabilitation shall be completed within a period specified by the Regional Manager.

### **APPLICATION FOR CLOSURE**

Once the full mining area was rehabilitated the mining permit holder will submit a closure application to the Department of Mineral Resources and Energy in accordance with section 43(4) of the MPRDA, 2002 that states: "An application for a closure certificate must be made to the Regional Manager in whose region the land in question is situated within 180 days of the occurrence of the lapsing, abandonment, cancellation, cessation, relinquishment or completion contemplated in subsection (3) and must be accompanied by the prescribed environmental risk report". The Closure Application will be submitted in terms of Regulation 62 of the MPRDA, 2002, and Government Notice 940 of NEMA, 1998.

### **PUBLIC INVOLVEMENT**

This document is to inform you about the proposed activity and to determine whether there are any concerns or objections from interested and affected parties (I&AP's) that need to be considered.

As interested and affected party you are kindly requested to complete the comments form and give any comment/concern or input with regard to the current land use of the area, the environment as well as socio-economic conditions that you feel might be affected by the proposed activity. When submitting response please provide suggestions to mitigate the anticipated impact of each identified activity.

Please contact Sonette Smit at the contact details as presented in the letterhead or at [comments@greenmined.co.za](mailto:comments@greenmined.co.za) through any means should you need more information, have additional language requirements, have concerns or comments that need to be considered or if you want to be registered as an interested and/or affected party and would like to receive a copy of the Draft Basic Assessment (DBAR) on or before 31 January 2021. If we do not receive any comments from you on or before 31 January 2021, it will be accepted that you do not have any objections/comments with regard to the project and do not require any further documentation.

A register of interested and affected parties (I&AP's) will be opened and maintained containing the names, contact details and address of all persons who have submitted written comments, attended meetings or have in writing requested to be registered and all organs of state which have jurisdiction in respect of the activity. Please note that only registered I&AP's and stakeholders will be entitled to comment on reports and plans to be submitted to the

## **BACKGROUND INFORMATION DOCUMENT**

Department provided that the party provide its name, contact details and address and discloses any direct business, financial, personal or other interest which he/she may have in the approval or refusal of the applications.

Please use MP 30/5/1/3/2/13080 MP as the reference when submitting comments.

The Draft Basic Assessment Report (DBAR) will be submitted to the Department of Mineral Resources and Energy – Mpumalanga (DMRE) for review purposes. This report will also be made available to the public for a 30 days review period. An electronic copy of the report will be published on the Greenmined Environmental website ([www.greenmined.com](http://www.greenmined.com)). All registered I&AP's and stakeholders will be notified of the commenting period in advance as above.

The DBAR will then be updated to reflect the comments received during the public commenting period. Thereafter, the Final Basic Assessment Report (FBAR) will be submitted to DMRE for its consideration as part of the authorization process in terms of the NEMA, 2014 regulations (as amended 2017). A copy of the final report will be made available on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

Tel:- (017) 801 1912/13/14  
Fax:- (017) 801 1915

20 January 2021

Dear Sonette

**Your notice of application in terms of section 27 of the Minerals and Petroleum Resources Development Act for Inzalo Crushing and Aggregates (Pty) Ltd – MP 30/5/1/3/2/13080 MP bears reference.**

Rietspruit Crushers, is a miner and supplier of sand and aggregate products based in Ermelo and has been in operation for more than 40 years. We have a long and proud record of creating jobs and empowering the community and intend on doing so for another 40 years.

Rietspruit Crushers would like to officially register as an interested and affected party and lodge our objection to the mining permit applications made by Inzalo Crusing and Aggregates (Pty) Ltd for "Dolerite, Gravel and Sand" on Portion 15 of the farm Rietspruit 437 IS, in the magisterial district of Ermelo, Mpumalanga. The proposed mining permit area is situated on the farm portion adjacent to Rietspruit Crushers mining licence area.

We are not in favour of your application and will oppose it. The basis of our objection is as follows:

## **1. Environmental Studies:**

In your notification you stated that the proposed project triggers listed activities and therefore requires full Environmental Impact Assessment (EIA) to be conducted. We agree with this point however, further in the document you kept referring to a draft Basic Assessment that will compiled for this project. Due to the listed activities that will be triggered a Basic Assessment will not be sufficient and a full EIA will need to be compiled. The full EIA which is required will be based on specialist studies that will have to be completed. In your Background Information Document, you do not mention what critical specialist studies will be conducted. In these studies, we are supposed to see what the impacts of your mine will have on the following categories:

- Air Quality
- Archaeology
- Surface Water
- Groundwater
- Ecology
- Land use & planning
- Waste management
- Economy
- Noise
- Soil

FK

- Visual
- Quality of life
- Nuisance

In your notification you do not state that you will apply for a water use license in terms of section 40 of the National water Act, 36 of 1998. We find this to be of concern due to the fact that your proposed pit will be within 500m from the delineated riparian and/or wetland zone pertaining to a water body (be it a wetland, pan, perennial or non-perennial water course or the like). Note, that under the latest DWS requirement the 500m is not from the centre of the relevant water body, but from the edge of the delineated riparian and/or wetland zone as defined by the relevant regulation. However, your notification omits the following critical studies which forms part of the application for a water use license. These studies include:

- Wetland delineation study
- Biodiversity and Ecology study
- Soil Study
- Geohydrological study

As interested and affected parties Rietspruit Crushers require to see what impacts have been identified by all the necessary specialist studies which you should have conducted and how will these impacts be addressed. In the absence of any specialist studies, Rietspruit Crushers will be lead to the conclusion that the impact of the mining and operational activities will be detrimental to the environment and also that the guidelines for applying for a water use license was not followed which will cause Rietspruit Crushers to further object to this application for mining permit. In your notification you failed to indicate any maps or diagrams indicating the relevant buffer zones around the relevant water bodies. Therefore, Rietspruit Crushers can only deduce that the required mandatory specialist studies have not been conducted therefore Rietspruit Crushers is not awarded the opportunity to comment on the impacts of the mine and what mitigation measures have or are proposed to minimise and reduce the impacts.

You have also omitted the fact that a full Environmental Impact Assessment will have to be conducted due to the fact that the activities on your mining premises will trigger GNR 984 Listing Notice 2 Activity 21 IN ADDITON TO GNR 983 Activities 21, 22 and 35 listing Notice 1. You do not state in the notification of Inzalo Crushing and Aggregates (Pty) Ltd's intention to apply for a mining permit that this process will be followed and that all the mandatory specialist studies will be conducted. This point also emphasizes the fact that you are failing to provided Rietspruit Crushers the opportunity to provide informed comments on your application.

## **2. Socio-economic Impact**

It is clear to Rietspruit Crusher that the necessary socio-economic impact studies have been omitted from the mining permit application. These studies should include:

- Social and labour impact study
- Marketing survey and analysis

Failure to conduct such studies indicates that you have not adequately considered the financial feasibility of a second quarry in the Msukwalikwa area, especially in close proximity to an already

established quarry, and if such a quarry will be able to operate profitably in an already constrained market. It also indicates that you have not considered the effect that a second quarry will have on Rietspruit Crushers and the potential job losses which Rietspruit Crushers may thenface as a consequence. Therefore, you have not considered the negative impact which your quarry will have on the local employment in the area.

It should be noted that Rietspruit Crushers has been mining and producing aggregates for over 40 years and over that span Rietspruit Crushers has experienced the full swing of the volatility in the market. Despite the necessary socio-economic studies not being conducted or the failure to even consider conducting these studies, this amplifies the point that you have not taken due care in considering the market in which you want to operate and that you are ill-informed on the sustainability of a second quarry in Ermelo.

### **3. Abusing of the mining permit system**

Further to Rietspruit Crushers' objection is the fact that you are the 5<sup>th</sup> application for a mining permit in the last ten years on this portion. This is a clear abuse and violation of the intent behind the mining permit application of the Department of Mineral Rights. A mining permit is valid for the period specified in the permit which may not exceed a period of two years and may be renewed for three periods each of which may not exceed one year. A mining right is granted for larger operations and longer periods (more than 2 years). For what you are planning it is clear that you do not want to apply for a full mining right and that you are attempting to by-pass the requirements by applying for a mining permit. This indicates that you do not want to compete on a level playing field with Rietspruit Crushers and comply with all the necessary regulations which you would need to comply with when you have a mining right. This is improper.

The points raised here are not exhaustive. Even so we feel it is sufficient reason for us to oppose your application in its current form. Should there be any change and/or amendment to your documentation arising from this process, please forward it to us. We would appreciate your formal acknowledgement of receipt of our comments as well as any feedback pertaining to it within 10 working days.

Kind regards

A handwritten signature in black ink, appearing to be 'Rynard Brits', written over a horizontal line.

Rynard Brits (Mine Manager)

Good day,

Please find attached notification that Inzalo Crushing and Aggregates (Pty) Ltd applied for a mining permit to mine stone aggregate/ gravel on a portion of Portion 15 on Farm Rietspruit 437, IS, Msukaligwa Local Municipality, Mpumalanga Province.

You were registered by Me Elsa Erasmus during the first phase Public Participation Process and you will be included in all future correspondence regarding the project.

We trust that you find this in order.

*By taking part in this process, the undersigned hereby consents, in terms of the Protection of Personal Information Act 4 of 2013 ("POPIA"), to the lawful processing of his/her personal information by Greenmined Environmental (Pty) Ltd, which personal information may be used as part of documentation pertaining to the Environmental Authorisation and/or Mining or Prospecting Right and/or Mining Permit application process. This is a public process and will become public information upon receipt thereof by the competent authority, which information will no longer be controlled by Greenmined Environmental (Pty) Ltd. Any interested and affected party should be provided with the information contained in this application, upon request, during any stage of the application and therefore your information may be made available to third parties. By providing your details below and by taking part in this process you authorise such information to be shared for the purpose of this application*

Kind Regards/Vriendelike Groete

# NPSS year end message

Once again we have reached the end of a tumultuous year. A year which has been characterised by COVID and so many negative events, thoughts and experiences. At a time like this, I wish to extend a message of hope to our NPSS family and the community of Ermelo. We will not always feel this way. It is hard to make ourselves believe in the goodness of life, when we feel as if we are drowning in the moment, but things will get better. We must keep our hearts open

to dreams. For as long as there's a dream, there is hope, and as long as there is hope, there is joy in life and living. May the Spirit of Christmas bring us all peace and give us hope. May we remember that Christmas is not a story of hope... it is hope. Let our resolution for 2022 be this: That we will be there for one another as fellow members of humanity, in the finest sense of the word. -  
**Regards, Ms. Lucille Geoghegan Principal - Netherland Park Secondary School**

## NOTICE OF MINING PERMIT APPLICATION

Notice is hereby given in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (Act No 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended) that Inzalo Crushing and Aggregates (Pty) Ltd ("Applicant") applied for:

- Environmental Authorization to mine stone / aggregate from on a portion of Portion 15 on Farm Rietspruit nr 437, IS, Msukaligwa Local Municipality, Mpumalanga Province.; and
- A mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) to the Department of Mineral Resources and Energy.

The proposed mining footprint will be 4.9 ha and will be developed over an area of the farm previously used for mining. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

The proposed project could trigger the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and will therefore require a basic assessment process to obtain environmental authorization:

- GNR 327 Listing Notice 1 of 2017 Activity 21:**  
Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –  
a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or  
b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing, but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.
- GNR 327 Listing Notice 1 of 2017 Activity 27:**  
The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for –  
(i) the undertaking of a linear activity; or  
(ii) maintenance purposes undertaken in accordance with a maintenance management plan.
- GNR 327 Listing Notice 1 of 2017 Activity 28:**  
Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:  
(i) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare; excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.
- GNR 327 Listing Notice 3 of 2017 Activity 4(f)(i)(ee):**  
Development of road wider than 4 metres with reserve less than 13.5 metres, in Mpumalanga geographical area, outside an urban area and within a critical biodiversity area as identified in systematic biodiversity plans adopted by the competent authority or in bioregional plans;

Interested and Affected Parties (I&AP's) are invited to provide written comments. I&AP's must provide their comments with their name and contact details to comments@greenmined.co.za within 30 days from the date of this notice. Should additional information be required it could be obtained from Greenmined Environmental.

A register of I&AP's that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&AP's will be entitled to comment on reports and plans to be submitted to the Departments, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interests which the party may have in the approval or refusal of the application. The registered I&AP's will, in writing, within 14 days of the date of the decision be notified of the outcome of the application including the reasons for the decision and the right to appeal of the outcome of the application, including the reasons for the decision and the right of appeal.

## MSUKALIGWA LOCAL MUNICIPALITY LAND USE SCHEME, 2021 (11-2021 & 25-2021) NOTICE IN TERMS OF SECTION 98 OF THE MSUKALIGWA LOCAL MUNICIPALITY SPATIAL PLANNING AND LAND USE MANAGEMENT BY-LAW, 2016 THAT WE HAVE APPLIED TO THE MSUKALIGWA LOCAL MUNICIPALITY TO AMEND THE MSUKALIGWA LOCAL MUNICIPALITY LAND USE SCHEME, 2021.

We, Reed & Partners Land Surveyors being the authorised agent of the owners of the respective properties described hereunder, hereby give notice in terms of Section 98 of the Msukaligwa Spatial Planning and Land Use Management By-law, 2016 that we have applied to the Msukaligwa Local Municipality for the following:

- AMENDMENT SCHEME No. 11-2021:** To amend the Msukaligwa Local Municipality Land Use Scheme, 2021 in terms of Section 66 by the rezoning of Portion 1 of Erf 368 Ermelo, situated at 16 Sluiter Street, Ermelo from "Residential 1" to "Religion" for the purpose of a Church and Ancillary uses.
- AMENDMENT SCHEME No. 25-2021:** To amend the Msukaligwa Local Municipality Land Use Scheme, 2021 in terms of Section 66 by the rezoning of Portion 1 of Erf 706 Ermelo, situated at 77A Fourie Street, Ermelo from "Residential 1" to "Residential 2" for the purpose of a Dwelling house and Dwelling units.

Particulars of the applications will lie for inspection during normal office hours at the office of the Director of Planning and Economic Development, 2<sup>nd</sup> Floor, Civic Centre, Taute Street, Ermelo for the period of 30 days from 14 December 2021.

Objections to or representations in respect of the applications must be lodged with or made in writing to the Municipal Manager at the above address or at P.O. Box 48, Ermelo, 2350 within a period of 30 days from 14 December 2021 (last day for comments being 13 January 2022).

Any person who cannot read or write may consult with Me Hilda Maganya, Town Planning Department, Msukaligwa Local Municipality, Tel. no. 017-801-3605, or any other official from this department, during office hours and assistance will be given to transcribe the person's objections or comments.

Address of agent: Reed & Partners, Professional Land Surveyors, P.O. Box 132, Ermelo, 2350.  
100 Joubert Street, Trigon Building, Office no. 6, Ermelo, 2351. Tel. no.: 017-811-2348.

## KENNISGEWING INGEVOLGE ARTIKEL 98 VAN DIE MSUKALIGWA PLAASLIKE MUNISIPALITEIT GRONDGEBRUIKSKEMA, 2021 (11-2021 & 25-2021)

OM DIE MSUKALIGWA PLAASLIKE MUNISIPALITEIT GRONDGEBRUIKSKEMA, 2021 TE WYSIG.

Ons, Reed & Vennote Landmeters synde die gemagtigde agent van die eienaars van die onderskeie eiendomme hieronder beskryf, gee hiermee ingevolge Artikel 98 van die Msukaligwa Ruimtelike Beplanning en Grondgebruiksbestuur-Verordening, 2016, kennis dat ons by die Msukaligwa Plaaslike Munisipaliteit aansoek gedoen het vir die volgende:

- WYSIGINGSKEMA 11-2021:** Om die Msukaligwa Plaaslike Munisipaliteit Grondgebruikskema, 2021 te wysig in terme van Artikel 66 deur die hersonering van Gedeelte 1 van Erf 368 Ermelo, geleë te Sluiterstraat 16, Ermelo van "Residensieel 1" na "Godsdienst" vir die doel van 'n Kerk en Verwante gebruik.
- WYSIGINGSKEMA 25-2021:** Om die Msukaligwa Plaaslike Munisipaliteit Grondgebruikskema, 2021 te wysig in terme van Artikel 66 deur die hersonering van Gedeelte 1 van Erf 706 Ermelo, geleë te Fouriestraat 77A, Ermelo van "Residensieel 1" na "Residensieel 2" vir die doel van 'n Woonhuis en Woonenhede.

Besonderhede van die aansoek lê ter insae gedurende gewone kantoorure by die kantoor van die Direkteur van Beplanning & Ekonomiese Ontwikkeling, 2de Vloer, Burgersentrum, Tautestraat, Ermelo vir 'n tydperk van 30 dae vanaf 14 Desember 2021.

Besware teen of vertoë ten opsigte van die aansoek moet binne 'n tydperk van 30 dae vanaf 14 Desember 2021 (laaste dag vir kommentare sal wees 13 Januarie 2022), skriftelik by of tot die Munisipale Bestuurder by bovermelde adres of by Posbus 48, Ermelo, 2350 ingedien of gerig word.

Enige persoon wat nie kan lees of skryf nie mag Me Hilda Maganya, Stadsbeplanning Departement, Msukaligwa Plaaslike Munisipaliteit, Tel. nr. 017-801-3605, of enige ander gemagtigde van hierdie afdeling, gedurende kantoorure raadpleeg en bystand sal aan sodanige persoon verleen word om die beswaar of kommentaar saam te stel.

Adres van agent: Reed & Vennote, Professionele Landmeters, Posbus 132, Ermelo, 2350.  
Joubertstraat 100, Trigon Gebou, Kantoor nr. 6, Ermelo, 2351. Tel. nr. 017-811-2348.

**ON-SITE NOTICES PLACED AT THE ENTRANCE TO  
THE SITE ON 7 DECEMBER 2021**

#### NOTICE OF MINING PERMIT APPLICATION

Notice is hereby given in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) that Inzalo Crushing and Aggregates (Pty) Ltd ("Applicant") applied for:

- Environmental Authorization to mine stone / aggregate from a portion of Portion 15 on Farm Rietspruit nr 437, IS, Msukaligwa Local Municipality, Mpumalanga Province; and
- A mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) to the Department of Mineral Resources.

The proposed mining footprint will be 4.9 ha and will be developed over an area of the farm previously used for mining. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

The proposed project could trigger the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and will therefore require a basic assessment process to obtain environmental authorization:

- **GNR 327 Listing Notice 1 of 2017 Activity 21:**

*Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –*

- a) *associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or*
  - b) *the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing;*
- but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.*

- **GNR 327 Listing Notice 1 of 2017 Activity 27:**

*The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for—*

- (i) *the undertaking of a linear activity; or*
- (ii) *maintenance purposes undertaken in accordance with a maintenance management plan.*

- **GNR 327 Listing Notice 1 of 2017 Activity 28:**

*Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:*

- (i) *will occur inside an urban area, where the total land to be developed is bigger than 5 hectares; or*
- (ii) *will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;*

*excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.*

Interested and Affected Parties (I&AP's) are invited to provide written comments. I&AP's must provide their comments with their name and contact details to [comments@greenmined.co.za](mailto:comments@greenmined.co.za) within 30 days from the date of this notice. Should additional information be required it could be obtained from Greenmined Environmental.

A register of I&AP's that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&AP's will be entitled to comment on reports and plans to be submitted to the Departments, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interests which the party may have in the approval or refusal of the application. The registered I&AP's will, in writing, within 14 days of the date of the decision be notified of the outcome of the application including the reasons for the decision and the right to appeal.

#### NOTICE OF MINING PERMIT APPLICATION

Notice is hereby given in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) that Inzalo Crushing and Aggregates (Pty) Ltd ("Applicant") applied for:

- Environmental Authorization to mine stone / aggregate from a portion of Portion 15 on Farm Rietspruit nr 437, IS, Msukaligwa Local Municipality, Mpumalanga Province; and
- A mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) from the Department of Mineral Resources.

The proposed mining footprint will be 4.9 ha and will be developed over an area of the farm previously used for mining. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

The proposed project could trigger the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and will therefore require a basic assessment process to obtain environmental authorization:

- **GNR 327 Listing Notice 1 of 2017 Activity 21:**  
Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –
  - a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or
  - b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing,  
but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.
- **GNR 327 Listing Notice 1 of 2017 Activity 27:**  
The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for—
  - (i) the undertaking of a linear activity; or
  - (ii) maintenance purposes undertaken in accordance with a maintenance management plan.
- **GNR 327 Listing Notice 1 of 2017 Activity 28:**  
Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation after 01 April 1998 and where such development:
  - (i) will occur inside an urban area, where the total land to be developed is bigger than 5 hectares; or
  - (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;  
excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.

Interested and Affected Parties (I&AP's) are invited to provide written comments. I&AP's must provide their comments with their name and contact details to [comments@greenmined.co.za](mailto:comments@greenmined.co.za) within 30 days from the date of this notice. Should additional information be required it could be obtained from Greenmined Environmental.

A register of I&AP's that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&AP's will be entitled to comment on reports and plans to be submitted to the Departments, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interests which the party may have in the approval or refusal of the application. The registered I&AP's will, in writing, within 14 days of the date of the decision be notified of the outcome of the application including the reasons for the decision and the right to appeal.
