DMRE Reference Number: FS 30/5/1/3/2/10320MP

Good day

19 October 2020

RE: DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME REPORT FOR PUBLIC COMMENTS FOR THE MINING PERMIT APPLICATION ON A PORTION OF ON THE REMAINING EXTENT OF THE FARM SYDENHAM 445, REGISTRATION DIVISION OF BLOEMFONTEIN, FREE STATE PROVINCE. APPLICANT: KENRAU (PTY) LTD

The draft Basic Assessment Report (DBAR) and Environmental Management Programme Report (EMPR) for the propose mining of gravel on a portion of the Remaining Extent of the farm Sydenham 445, Registration Division of Bloemfontein, Free State province, is now available for your perusal.

Acknowledgement of receipt of an application lodged on the 1st of October 2020 for an environmental authorisation for the proposed mining activities lodge in terms of regulation 16 of the National Environmental Management Act, 1998 (Act no 107 of 1998 NEMA): Environmental Impact Assessment (EIA) Regulations, 2014, was received on 12 October 2020.

Acceptance in terms of Section 27 of the Minerals and petroleum Resources Development Act, 2002 (Act no 28 of 2002) for an application lodged on the 1st of October 2020 was received on 12 October 2020.

A copy of the document can be obtained from Greenmined Environmental upon request, or downloaded from the company website at www.greenmined.com

Should you be interested your comments are kindly requested on the DBAR & EMPR. A thirty-day commenting period, ending on **19 November 2020**, will be allowed for comments. Your comments must be in writing and can be submitted via facsimile, e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

If we do not receive any comments from you before the end of the commenting period it will be accepted that you do not have any additional objections/comments with regard to the project. We trust that you find it in order and kindly await your comments on this report.

DRAFT BASIC ASSESSMENT REPORT FOR THE MINING PERMIT APPLICATION ON A PORTION OF A REMAINING EXTENT OF THE FARM SYDENHAM 445, BLOEMFONTEIN.

Reference is made to your report received by this office regarding the above-mentioned application. This office reviewed the report and does not have any objections to the proposed development on the Farm Sydenham on conditions that;

1. Environmental awareness posters must be made available by the ECO and be displayed on site. Environmental do's and Don'ts must be clearly illustrated. The posters must use picture to convey the intended message and any explanatory text must be in Sotho, English and Afrikaans.
2. Storm water management plan must be compiled to ensure that monitoring and rehabilitating of erosion events associated with the development. Appropriate erosion mitigation measures must form part of this plan to prevent and reduce the risk of any potential erosion.
3. All vehicle used for transportation and or construction purpose should remain within these demarcated route and area in order to limit unnecessary compaction of topsoil and to prevent disturbance of animals and plants outside of construction areas.
4. Measures should be put in place to protect the borrow pits from illegal dumping of waste.
5. The developer agrees to signs the Change Find Procedure (CFP) (document which can be downloaded on SAHRIS website) and in turn ensure that once a project manager has been appointed, they too (including site managers) sign the CFP and commit to the implementation thereof.
6. Adequate firefighting equipment's must always be available onsite and at least one person present on site must be trained in the use thereof. Firebreaks should comply with the National Veld and Forest Fire Act 1998(chapter 4: duty to prepare and maintain firebreaks)
7. In light of the above, all documents illustrating compliance to the conditions should be forwarded to this office for record keeping and compliance

Should more information be required, please contact this office.

Interim Comment

In terms of Section 38(8), 38(3) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Roelie Rossouws

Kenrau (Pty) Ltd & Dolly Kenney Foundation Trust (hereafter referred to as the applicant) applied for a mining permit for the mining of gravel, 5 ha on the Remaining Extent of the farm Sydenham 445, Registration Division of Bloemfontein, Free State province

Greenmined Environmental was appointed by Kenrau (Pty) Ltd to undertake the environmental authorization application for the mining of gravel, 5 ha on the Remaining Extent of the farm Sydenham 445, Bloemfontein, Free State province.

A draft Basic Assessment Report (dBAR) submitted in terms of the National Environmental Management Act of 1998 and the National Environmental Management Waste Act, 2008 in respect of listed activities that have been triggered by applications in terms of the Mineral And Petroleum Resources Development Act, 2002 (MPRDA) (as amended).

The proposed mining site will be an extension of the existing quarry pit previously mined for gravel. The mining method will make use of excavation by means of earth moving equipment along with mobile crushing and screening plants. The mining will go on for at least 2 years with a possible extension of another 3 years. Associated activities will include stripping and stockpiling of topsoil, excavating, crushing, stockpiling and transporting, sloping and landscaping upon closure of the site and replacing the topsoil and vegetation of the disturbed area.

The development area is underlain Adelaide Subgroup (Beaufort Group, Karoo Supergroup). Volksrust Formation mudstones of the Ecca Group (also Karoo Supergroup) dominate the western part of the area.

Page 37 of the dBAR notes that no sites of archaeological or cultural importance were identified during the site inspection, and consultation with the interested and affected parties also did not identify any potential area of concern. The Applicant will implement a chance-find protocol on site for the duration of the site establishment, operational- and decommissioning phase. No assessment of heritage resources that complies with section 38(3) of the National Heritage Resources Act, Act 25 of 1999 (NHRA) has been submitted.

Interim Comment

As the proposed development is undergoing an EA Application process in terms of the National Environmental Management Act, 107 of 1998 (NEMA), NEMA Environmental Impact Assessment (EIA) Regulations for activities that trigger the Mineral and Petroleum Resources Development Act, No 28 of 2002 (MPRDA)(As amended), it is incumbent on the developer to ensure that a Heritage Impact Assessment (HIA) is done as per section 38(3) and 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA). This must include an archaeological component, palaeontological component and any other applicable heritage components. The HIA must be conducted as part of the EA Application in terms of NEMA and the NEMA EIA Regulations.

The archaeological component of the HIA should follow the SAHRA 2007 Minimum Standards: Archaeological Component of Impact Assessment Report. The quickest process to follow for the archaeological component would be to contract a qualified archaeologist (see www.asapa.co.za or www.aphp.org.za). The Minimum Standards refers to a Letter of Recommendation for Exemption from further studies, that may be submitted should the archaeologist deem it appropriate.

A new .kml file that outlines the proposed development area must be submitted to the case, single point .kml files are not accepted. The proposed development area is located within an area of very high sensitivity in terms of palaeontological resources as per the SAHRIS PalaeoSensitivity. The dBAR notes that the development area is underlain by the highly fossiliferous Karoo Supergroup formations, as such, a field-based Palaeontological Impact Assessment (PIA) must be undertaken by a qualified palaeontologist (See <https://www.palaeosa.org/heritage-practitioners.html> for a list of qualified palaeontologists). The report must comply with the 2012 Minimum Standards: Palaeontological Components of Heritage Impact Assessments.

Any other heritage resources as defined in section 3 of the NHRA that may be impacted, such as built structures over 60 years old, sites of cultural significance associated with oral histories, burial grounds and graves, graves of victims of conflict, and cultural landscapes or viewsapes must also be assessed.

The applicant is advised to extend the BAR process in terms of section 19(1)b of the NEMA EIA regulations in order to comply with this comment.

Further comments will be issued upon receipt of the requested.

Dear Madam

RE: DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME REPORT FOR PUBLIC COMMENTS FOR THE MINING PERMIT APPLICATION ON A PORTION OF ON THE REMAINING EXTENT OF THE FARM SYDENHAM 445, REGISTRATION DIVISION OF BLOEMFONTEIN, FREE STATE PROVINCE. APPLICANT: KENRAU (PTY) LTD

The Final Basic Assessment Report (FBAR) and Environmental Management Programme Report (EMPR) for the propose mining of gravel on a portion of the Remaining Extent of the farm Sydenham 445, Registration Division of Bloemfontein, Free State province, is now available for your perusal.

The requested Heritage Impact Assessment (HIA) and Paleontological study will be conducted and submitted to SAHRA, DMRE and all registered I&AP's. No activity will commence prior to the approval in terms of the National Heritage Resources Act, Act 25 of 1999 (NHRA). All the mitigation measures proposed for the site includes specifications of the NHRA, 1999.

The Applicant will implement a chance-find protocol on site for the duration of the site establishment, operational- and decommissioning phase.

Please contact Sonette Smit at 084 585 5706 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or sonette.s@greenmined.co.za should you require any additional information.

A handwritten signature in black ink, appearing to read "Smit", is positioned above the typed name.

Kind Regards

Sonette Smit
