**EXAMPLE OF THE BACKGROUND INFORMATION DOCUMENT SENT TO INFORM THE  
STAKEHOLDERS AND I&AP'S ON THE 6<sup>TH</sup> OF MARCH 2019**

6 March 2019

To whom it may concern

**RE: NOTICE OF APPLICATION IN TERMS OF SECTION 27 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017).**

***BACKGROUND INFORMATION***

Queenstown Quarry is situated within the Chris Hani District Municipality and the Enoch Mgijima Local Municipality. The quarry is located 6 km to the west of Queenstown, adjacent to the N6 national route on a portion of the farm Lesseyton No. 81. The existing quarry has been a constant source of dolerite- and quartzite aggregate since 1970, and is currently operated by Queenstown Quarry (Pty) Ltd. Mining at the existing quarry is performed through open cast mining methods, with the loosened material processed at the crushing and screening plants, from where the various sized aggregates are stockpiled until sold and removed from site.

Komani Quarry (Pty) Ltd (hereinafter referred to as "the Applicant") applied for a mine permit to expand the existing dolerite quarry at Queenstown Quarry. The Applicant entered into a mining and offtake agreement with Raumix Aggregates (Pty) Ltd to win dolerite through opencast mining methods from the mining permit footprint area. In light of the said agreement, the Applicant appointed Raumix Aggregates (Pty) Ltd as the entity responsible for the financial and technical aspects of the proposed project, which will include, but not be limited to, the use of the existing equipment, infrastructure, labour force, and services at Queenstown Quarry.

***SITE DESCRIPTION***

As mentioned the proposed application area will entail the extension of the existing dolerite quarry at Queenstown Quarry, ±6 km west of Queenstown adjacent to the N6. The extent of the proposed mining footprint is 4.9 ha, and the GPS coordinates of the area applied for are as listed below.

<b>GPS COORDINATES OF MINING PERMIT AREA</b>	
<b>DEGREES MINUTES SECONDS</b>	<b>DECIMAL DEGREES</b>
A. 31°53'45.701"S; 26°47'41.399"E	A. -31.896028°S; 26.794833°E
B. 31°53'44.686"S; 26°47'49.909"E	B. -31.895746°S; 26.797197°E
C. 31°53'41.399"S; 26°47'54.802"E	C. -31.894833°S; 26.798556°E
D. 31°53'38.000"S; 26°47'50.899"E	D. -31.893889°S; 26.797472°E

F. 31°53'40.999"S; 26°47'40.999"E	F. -31.894722°S; 26.794722°E

**Figure 1: Satellite view of the proposed mining permit area of Komani Quarry (Pty) Ltd.**

## ***LEGAL COMPLIANCE***

The proposed project triggers the following listed activities in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) and the Environmental Impact Assessment Regulations 2014 (as amended 2017) and therefore requires an environmental impact assessment (EIA) (basic assessment process) that assess project specific environmental impacts and alternatives, consider public input, and propose mitigation measures, to ultimately culminate in an environmental management programme that informs the competent authority (Department of Mineral Resources) when considering the environmental authorisation:

■ GNR 327 Listing Notice 1 of 2017 Activity 21:

*Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –*

- a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or*
- b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.*

■ GNR 327 Listing Notice 1 of 2017 Activity 22:

*The decommissioning of any activity requiring –*

- i) a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or*
- ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.*

■ GNR 327 Listing Notice 1 of 2017 Activity 27:

*The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation.*

■ GNR 327 Listing Notice 1 of 2017 Activity 28:

*Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:*

*ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.*

**OTHER LEGISLATION TRIGGERED BY THE PROPOSED PROJECT:**

An application for a Mining Permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) was submitted to the Department of Mineral Resources – Eastern Cape Province.

***PROJECT DESCRIPTION***

Komani Quarry (Pty) Ltd applied for a mining permit to expand the existing dolerite quarry at Queenstown Quarry. The proposed 4.9 ha footprint area will directly border the mining right (EC 30/5/1/2/2/009 MR) footprint of Queenstown Quarry to the south-east.

The Applicant entered into a mining and offtake agreement with Raumix Aggregates (Pty) Ltd to win dolerite through opencast mining methods from the mining permit footprint area, should the application be approved. The mining method will make use of blasting in order to loosen the hard rock; upon which the loosened material will be transported to the existing crushing and screening processing plant of Queenstown Quarry where it will be screened to various sized stockpiles, before sold and transported from site to clients. In light of the said agreement the Applicant appointed Raumix Aggregates (Pty) Ltd as the entity responsible for the financial and technical aspects of the proposed project, which will include, but not be limited to, the use of the existing equipment, infrastructure, labour force, and services at Queenstown Quarry. As the existing infrastructure of Queenstown Quarry can be used during the operational phase of the project, the Applicant will not establish any infrastructure within the proposed 4.9 ha mining area

**ACCESS ROUTE:**

- Access to the proposed mining area will be via the existing access road to Queenstown Quarry, making use of the existing internal/haul roads to access the material within the mining area.
- Haul roads will be extended as the open cast mining progress, and will be rehabilitated as part of the final reinstatement of the area.

**WATER USE:**

- Any water required for the implementation of the project will be drawn from the existing quarry pit (Queenstown Quarry), while potable water will be pumped from the existing borehole on the property.

## **ELECTRICITY:**

- The proposed project will not require any additional electricity connections, as power will be supplied, when needed, by generators.

## ***BRIEF SITE DESCRIPTION***

### **GEOLOGY:**

The geology of the study area comprises mostly sedimentary rock intersected by dolerite and overlain by a veneer of colluvial and alluvial soils. The main sedimentary units consist of red, purple, grey and bluegreen mudstone with subordinate sandstone in areas of high cut. The mudstone forms part of the Adelaide Subgroup, Beaufort Group, Karoo Sequence. This group of rocks forms part of the Katberg Formation, Tarkastad Subgroup, Beaufort Group, Karoo Sequence. The geological units everywhere are overlain by a veneer of clayey and silty colluvial and alluvial deposits.

### **HYDROLOGY:**

The proposed mining site falls in the quaternary catchment S31D. There are no rivers or wetlands situated in close proximity of the earmarked footprint area. According to Vegter (1995b), the mean depth to the water table in the region of the mining area is 10 m to 20 m below surface, with a standard deviation of 8 m to 15 m. The proposed mining activity is not expected to intersect the groundwater of the study area.

### **FAUNA AND FLORA:**

The proposed mining area is situated against the northern slope of the mountain directly adjacent to the existing dolerite quarry on the property. According to Mucina and Rutherford (2012) the vegetation type of the area is known as the Tarkastad Montane Shrubland (Gs17) that mainly consists of low vegetation with semi-open mixed shrubland with "white" grasses and dwarf shrubs being the prominent component. The proposed project will entail the removal of indigenous vegetation in order to access the mineral.

The fauna present within the boundaries of the study area comprise of natural occurring small rodents, reptiles and various bird species. No protected or red data faunal species were identified within the earmarked footprint, and the project is expected to have a negligible impact in this regard.

### **LAND USE:**

The project area is located in the Enoch Mgijima municipal area, with Queenstown being the main centre. The Lesseyton community lives on the same property (Lesseyton Farm No. 81) approximately ±7 km from the proposed mining area. The remainder of the property is used for agricultural purposes with grazing as the primary land use. Raumix Aggregates (Pty) Ltd will be responsible for the financial and technical aspects of the proposed project, which will include, but not be limited to, the use of the existing equipment, infrastructure, labour force, and services at Queenstown Quarry.

## **AIR AND NOISE QUALITY:**

The wind patterns in Queenstown are highly influenced by seasonal variations. According to the wind statistics as presented on Windfinder.com the prevalent wind direction distribution of Queenstown is in an eastern direction from December to March. From April the wind changes direction from due east to west-north-west until September when it gradually returns to the eastern trend. Due to the nature of the operations at Queenstown Quarry, the dust levels within the study area increase significantly during the dry season (May – September).

The ambient noise levels of the surrounding area is low with the noise levels of the study area (immediate surroundings) impacted on by traffic along the N6 and the operations of Queenstown Quarry. Though the extension of the existing dolerite quarry will contribute some noise to the existing noise ambiance of the study area it is expected to be of low – medium signi

## **HERITAGE:**

Queenstown Quarry has been operational since 1970 and according to the approved EMPR (of the current mining right bordering the proposed mining permit application) there are no known sites of archaeological or cultural importance that have been noted on-site and throughout the mining history no sites of archaeological or cultural importance have been identified.

## ***FINAL REHABILITATION***

Upon closure of the mining operation the entire footprint area will be rehabilitated so as to allow the affected area to return to agricultural use. At this stage the following baseline rehabilitation actions are proposed from which a detailed closure plan will be developed:

- Rehabilitation of all the disturbed surface areas shall entail landscaping, levelling, sloping, top dressing, land preparation, seeding (if required), and weed / alien clearing.
- All infrastructures, equipment, and other items used during the mining period will be removed from the site in accordance with section 44 of the MPRDA, 2002.
- Waste material of any description, including receptacles, scrap, rubble and tyres, will be removed entirely from the mining area and disposed of at a recognized landfill facility. It will not be permitted to be buried or burned on the site.
- The rehabilitation area will be cleared of weeds and invader plant species. Priority will be given to species regarded as Category 1a and 1b invasive species in terms of NEM:BA (National Environmental Management: Biodiversity Act 10 of 2004 and regulations applicable thereto).
- Final rehabilitation shall be completed within a period specified by the Regional Manager.

## ***APPLICATION FOR CLOSURE***

Once the full mining area was rehabilitated the mining permit holder will submit a closure application to the Department of Mineral Resources in accordance with section 43(4) of the MPRDA, 2002 that states: *“An application for a closure certificate must be made to the Regional Manager in whose region the land in question is situated within 180 days of the occurrence of the lapsing, abandonment, cancellation, cessation, relinquishment or completion contemplated in subsection (3) and must be accompanied by the prescribed environmental risk report”.*

The Closure Application will be submitted in terms of Regulation 62 of the MPRDA, 2002, and Government Notice 940 of NEMA, 1998.

## ***PUBLIC INVOLVEMENT***

This document is to inform you about the proposed activity and to determine whether there are any concerns or objections from interested and affected parties (I&AP's) that need to be considered.

As interested and affected party you are kindly requested to complete the comments form and give any comment/concern or input with regard to the current land use of the area, the environment as well as socio-economic conditions that you feel might be affected by the proposed activity. When submitting response please provide suggestions to mitigate the anticipated impact of each identified activity.

Please contact Christine Fouche at the contact details as presented in the letterhead or at [christine.f@greenmined.co.za](mailto:christine.f@greenmined.co.za) through any means should you need more information, have additional language requirements, have concerns or comments that need to be considered or if you want to be registered as an interested and/or affected party and would like to receive a copy of the Draft Basic Assessment (DBAR) on or before 12 April 2019. If we do not receive any comments from you on or before 12 April 2019, it will be accepted that you do not have any objections/comments with regard to the project and do not require any further documentation.

A register of interested and affected parties (I&AP's) will be opened and maintained containing the names, contact details and address of all persons who have submitted written comments, attended meetings or have in writing requested to be registered and all organs of state which have jurisdiction in respect of the activity. Please note that only registered I&AP's and stakeholders will be entitled to comment on reports and plans to be submitted to the Department provided that the party provide its name, contact details and address and discloses any direct business, financial, personal or other interest which he/she may have in the approval or refusal of the applications.

The Draft Basic Assessment Report (DBAR) will be submitted to the Department of Mineral Resources – Eastern Cape (DMR) for review purposes. This report will also be made available to the public for a 30 days review period. An electronic copy of the report will be published on the Greenmined Environmental website ([www.greenmined.com](http://www.greenmined.com)). All registered I&AP's and stakeholders will be notified of the commenting period in advance as above.

The DBAR will then be updated to reflect the comments received during the public commenting period. Thereafter, the Final Basic Assessment Report (FBAR) will be submitted to DMR for its consideration as part of the authorization process in terms of the NEMA, 2014 regulations (as amended 2017). A copy of the final report will be made available on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

**BACKGROUND INFORMATION**

Queenstown Quarry is situated within the Chris Hani District Municipality and the Enoch Mgijima Local Municipality. The quarry is located 6 km to the west of Queenstown, adjacent to the N6 national route on a portion of the farm Lesseyton No. 81. The existing quarry has been a constant source of dolerite- and quartzite aggregate since 1970, and is currently operated by Queenstown Quarry (Pty) Ltd. Mining at the existing quarry is performed through open cast mining methods, with the loosened material processed at the crushing and screening plants, from where the various sized aggregates are stockpiled until sold and removed from site.

Komani Quarry (Pty) Ltd (hereinafter referred to as "the Applicant") applied for a mine permit to expand the existing dolerite quarry at Queenstown Quarry. The Applicant entered into a mining and offtake agreement with Raumix Aggregates (Pty) Ltd to win dolerite through opencast mining methods from the mining permit footprint area. In light of the said agreement, the Applicant appointed Raumix Aggregates (Pty) Ltd as the entity responsible for the financial and technical aspects of the proposed project, which will include, but not be limited to, the use of the existing equipment, infrastructure, labour force, and services at Queenstown Quarry.

***BACKGROUND INFORMATION DOCUMENT***

6 March 2019

Attention: Councillor Johannes Christoffel de Wet

Dear sir

**RE: NOTICE OF APPLICATION IN TERMS OF SECTION 27 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017).**

***BACKGROUND INFORMATION***

Queenstown Quarry is situated within the Chris Hani District Municipality and the Enoch Mgijima Local Municipality. The quarry is located 6 km to the west of Queenstown, adjacent to the N6 national route on a portion of the farm Lespeyton No. 81. The existing quarry has been a constant source of dolerite- and quartzite aggregate since 1970, and is currently operated by Queenstown Quarry (Pty) Ltd. Mining at the existing quarry is performed through open cast mining methods, with the loosened material processed at the crushing and screening plants, from where the various sized aggregates are stockpiled until sold and removed from site.

Komani Quarry (Pty) Ltd (hereinafter referred to as "the Applicant") applied for a mine permit to expand the existing dolerite quarry at Queenstown Quarry. The Applicant entered into a mining and offtake agreement with Raumix Aggregates (Pty) Ltd to win dolerite through opencast mining methods from the mining permit footprint area. In light of the said agreement, the Applicant appointed Raumix Aggregates (Pty) Ltd as the entity responsible for the financial and technical aspects of the proposed project, which will include, but not be limited to, the use of the existing equipment, infrastructure, labour force, and services at Queenstown Quarry.

***SITE DESCRIPTION***

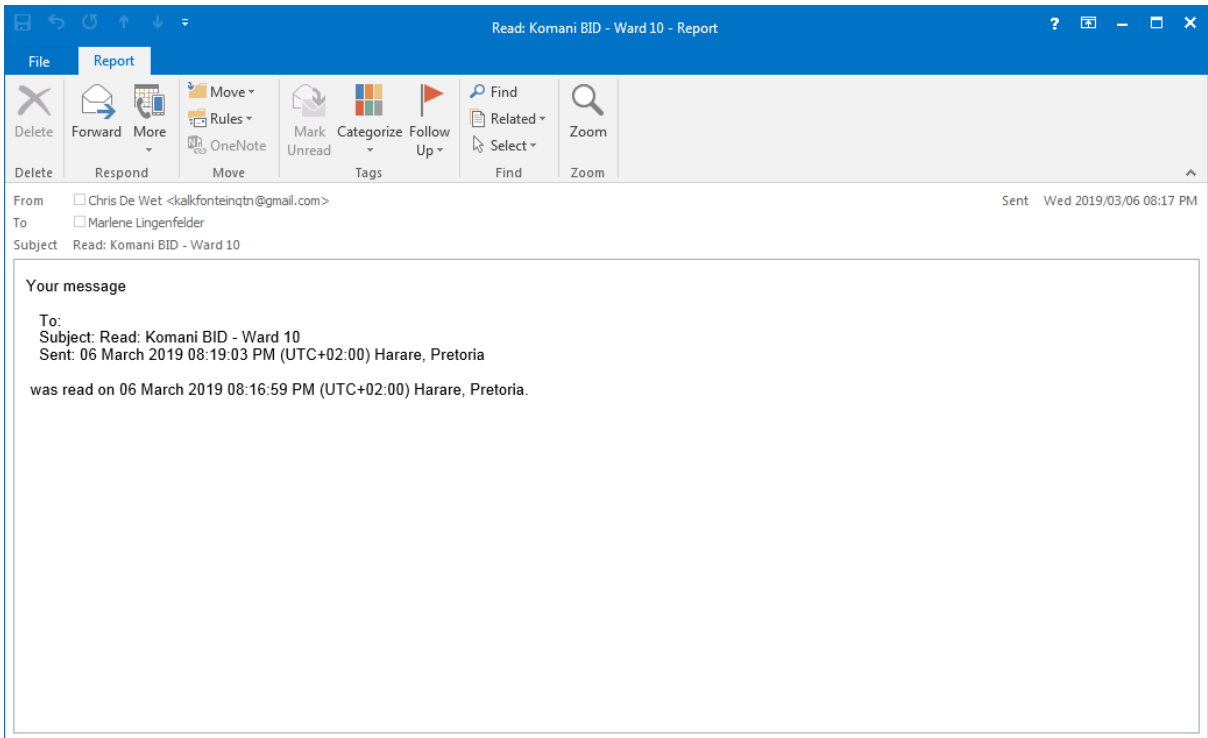

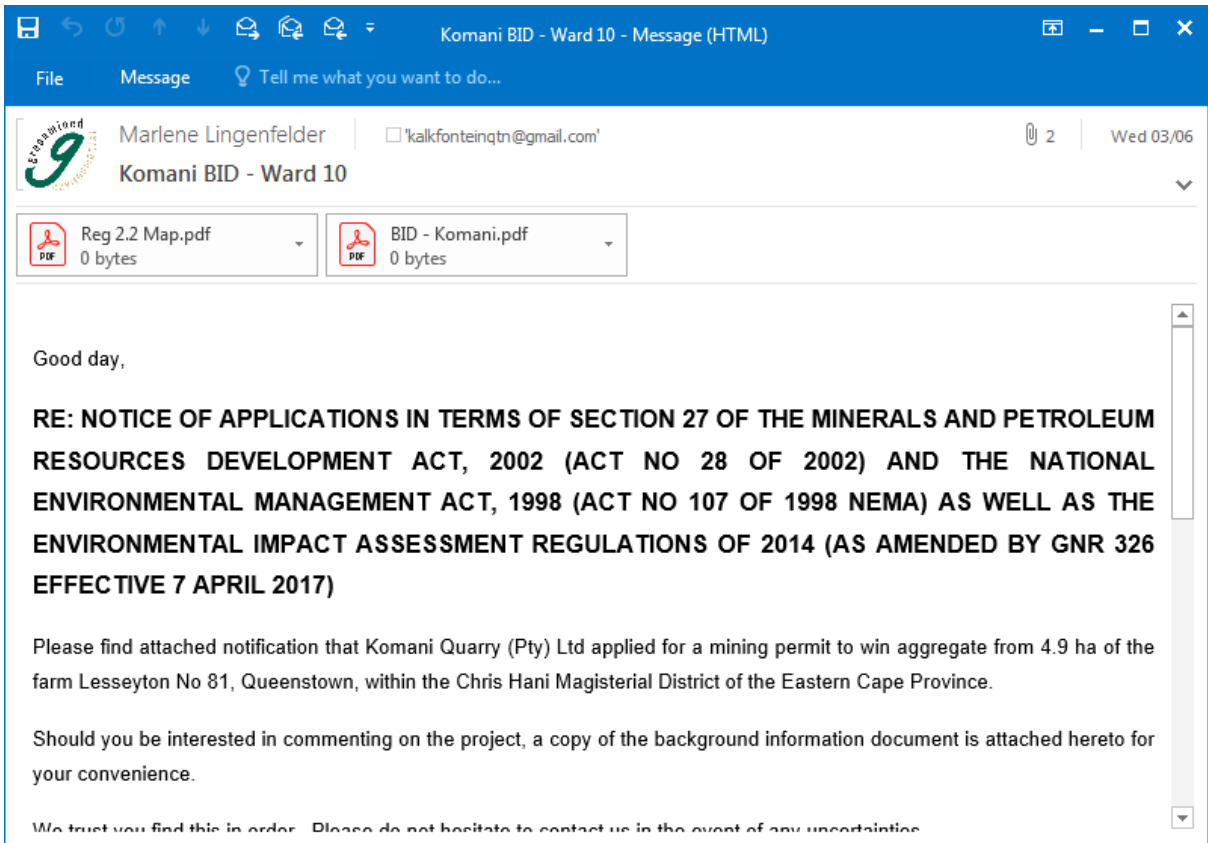

As mentioned the proposed application area will entail the extension of the existing dolerite quarry at Queenstown Quarry, ±6 km west of Queenstown adjacent to the N6. The extent of the proposed mining footprint is 4.9 ha, and the GPS coordinates of the area applied for are as listed below.

**the goal isn't to live forever, it is to protect a planet that will**

Dear Madam

### **THE SOUTH AFRICAN NATIONAL ROADS AGENCY LIMITED AND NATIONAL ROADS ACT, 1998 (ACT 7 OF 1998): NATIONAL ROUTE N6 SECTION 4: PROPOSED MINING PERMIT AREA OF KOMANI QUARRY**

Your email dated 07 March 2019 on the above matter, refers.

The South African Roads Agency SOC Limited (SANRAL) has the following comments with regards to the above:

- No structure shall be erected closer than 30 metres from the national road reserve fence and 500 metres from any point of intersection.
- If access is required from the National Road N6, an approval from SANRAL is required, otherwise access can be obtained from the nearest numbered route.
- The developer will accordingly be required to establish and maintain a pedestrian proof brick/concrete wall along the full extent of the development to prevent pedestrian access onto the N6.
- Only where drainage crosses the boundary wall, a non-solid boundary is accepted. Any future negative impacts in this regard will be considered to be the responsibility of the developer to correct.
- SANRAL shall not be held liable should it be found at any future time that noise emanating from the national road, presents a problem in the development adjacent to the national road.
- All storm water discharged or diverted from the national road shall be received and disposed of. A drainage plan has to be submitted to this office for consideration.

Dear Chumisa

Greenmined Environmental (Pty) Ltd herewith acknowledge and thank you for the comments submitted on the mining permit application of Komani Quarry (Pty) Ltd over a portion of the farm Lesseyton No 81, Chris Hani magisterial district, Eastern Cape Province.

We registered SANRAL as an interested and affected party on the project, and will keep you posted throughout the EIA process as well as provide you with access to the relevant EIA documents. Your comments have been noted and will be incorporated and responded to in the Draft Basic Assessment Report (DBAR) that will follow in due course.

We trust you find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

Message SANRAL satellite view of proposed access road.pdf

Dear Chumisa

With reference to the Komani Quarry SANRAL comments, can you please provide clarity on the following points:

- *The developer will accordingly be required to establish and maintain a pedestrian proof brick/concrete wall along the full extent of the development to prevent pedestrian access onto the N6.*

The proposed mining area lays ±580 m south-west from the N6, and due to the topography of the landscape direct access to the proposed mining area from the N6 is highly unlikely. The current mining area of Queenstown Quarry is fenced from the road (N6) by an existing cattle fence. Access to the proposed mining area will be from the existing turnoff from the N6 into Queenstown Quarry (existing formal access) and no new access will be required (see satellite image attached). In light of this, can you please clarify whether, and if so why, the above listed comment is applicable to this specific project?

- *A formal application together with the plans of the proposed establishment must be submitted to SANRAL for approval.*

In light of the above, and the fact that the mining area will be reached via an existing entrance from the N6 can you please indicate what application this comment refers to? And if applicable to this application, can you please provide me with a copy of the application form?

We look forward to your response. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete  
Ms Christine Fouche  
Senior Environmental Consultant

Good day Christine

Hope you are well.

With regards to the access from an existing access, then the wall will not apply, however an application needs to be submitted as the already existing access was not made to accommodate the proposed quarry.

Have a blessed day.

Kind regards  
Chumisa

## **NOTICE OF MINING PERMIT APPLICATION**

Notice is hereby given in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) that Komani Quarry (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine dolerite aggregate from a portion of the farm Lesseyton No. 81 situated in the Chris Hani magisterial district of the Eastern Cape Province.
- a mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) to the Department of Mineral Resources.

The proposed project (with reference number EC 30/5/1/3/2/10498 MP) entails the extension of the existing dolerite quarry at Queenstown Quarry. The proposed extension area lays to the southeast (towards Queenstown) of the existing quarry pit. The Applicant entered into a mining and offtake agreement with Raumix Aggregates (Pty) Ltd to win dolerite through opencast mining methods from the mining permit footprint area, should the application be approved. The mining method will make use of blasting in order to loosen the hard rock; upon which the loosened material will be transported to the existing crushing and screening processing plant of Queenstown Quarry where it will be screened to various sized stockpiles, before sold and transported from site to clients.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and therefore requires a basic assessment process to obtain environmental authorization:

- **GMR 327 Listing Notice 1 of 2017 Activity 21:**  
*Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –*
    - a) *associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or*
    - b) *the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.*
  - **GMR 327 Listing Notice 1 of 2017 Activity 22:**  
*The decommissioning of any activity requiring –*
    - i) *a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or*
    - ii) *a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.*
  - **GMR 327 Listing Notice 1 of 2017 Activity 27:**  
*The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation.*
  - **GMR 327 Listing Notice 1 of 2017 Activity 28:**  
*Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:*
    - i) *will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.*
- the goal isn't to live forever, it is to protect a planet that will**

Greenmined Environmental (Pty) Ltd | Tel: 021 851 2673 | Fax: 086 546 0579  
Unit M01, Office No 36, AECI Site, Baker Square, Paardevlei, De Beers Avenue, Somerset West, 7130  
Postnet Suite 62, Private Bag x15, Somerset West, 7129  
Directors: S Smit; R L Shedlock; C Weideman | Reg No: 2012/055565/07 | VAT No. 4040263032

Should you be interested in commenting on the project, a copy of the background information document can be obtained from Greenmined Environmental, or alternatively downloaded from the Greenmined website ([www.greenmined.com](http://www.greenmined.com)). Interested and Affected Parties (I&AP's) are invited to provide written comments. I&AP's must provide their comments with their name and contact details to the environmental consultant indicated below by 12 April 2019. Should you require the documentation in another language or need additional information please contact Greenmined Environmental.

A register of I&AP's that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&AP's will be entitled to comment on reports and plans to be submitted to the Department, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interest which the party may have in the approval or refusal of the application. The Draft Basic Assessment Report (DBAR) will be made available to the public for a 30 days review period. An electronic copy of the report will be published on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified of the commenting period in advance as above. The DBAR will then be updated to reflect the comments received during the public commenting period. Thereafter, the Final Basic Assessment Report (FBAR) will be submitted to DMR for its consideration as part of the authorization process in terms of the NEMA, 2014 regulations (as amended 2017). A copy of the FBAR will be made available on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

The contact consultant is Greenmined Environmental, Suite 62, Private Bag X15, Somerset West, 7129 or contact Christine Fouche at (082) 811 8514 or Tel (021) 851 2673, (Fax) (086) 546 0579, (email) [christine.f@greenmined.co.za](mailto:christine.f@greenmined.co.za).

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards

A handwritten signature in black ink, appearing to read "Fouche", written in a cursive style.

**PROOF OF HAND DELIVERED DOCUMENTS TO MR ALEX MBALULA (LESSEYTON  
COMMUNITY LEADER) ON THE 16<sup>TH</sup> OF APRIL 2019**

DMR REF NO: EC 30/5/1/3/2/10498 MP

Herewith I, ALEX MBALULA, received the pamphlets with regard to the Komani Quarry (Pty) Ltd mining permit application that I will present to the Lesseyton Community as part of the initial public participation process of the EIA application.

The intention of the pamphlets are to inform the Lesseyton residents of the mining permit application (EC 30/5/1/3/2/10498 MP) that was lodged with the Department of Mineral Resources, and invite them to register as interested and affected parties on the project should they be interested.

Good day,

**RE: NOTICE OF APPLICATIONS IN TERMS OF SECTION 27 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS OF 2014 (AS AMENDED BY GNR 326 EFFECTIVE 7 APRIL 2017)**

Please find attached notification that Komani Quarry (Pty) Ltd applied for a mining permit to win aggregate from 4.9 ha of the farm Lesseyton No 81, Queenstown, within the Chris Hani Magisterial District of the Eastern Cape Province.

Should you be interested in commenting on the project, a copy of the background information document is attached hereto for your convenience.

We trust you find this in order. Please do not hesitate to contact us in the event of any uncertainties.

Dear Madam

**RE: COMMENTS – NOTICE OF APPLICATIONS IN TERMS OF SECTION 27 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS OF 2014 (AS AMENDED BY GNR 326 EFFECTIVE 7 APRIL 2017) (KOMANI QUARRY (PTY)LTD MINING PERMIT APPLICATION FOR A PORTION OF THE FARM LESSEYTON NO.81)**

We refer to the correspondence received on 11 March 2019 regarding the above mentioned mining permit application. We advise that we do not have any objections to the application.

Comments

Regarding comments on the application we advise as follows:

- Due to the proximity of the mining area to our offices all blasting should be done according to the limits of the USBM standards. This will limit the effects of the blasting on our office structures.
- A vibro recorder to be used to record all blasts.
- We must be notified in advance of any blasting to take place.

Yours Faithfully

  
**I.G. McEWAN**

Dear Mr and Mrs McEwan

Greenmined herewith acknowledge receipt of and thank you for the comments submitted with regard to the mining permit application on the farm Lesseyton 81, submitted by Komani Quarry (Pty) Ltd.

We have registered you as interested and affected parties and will hence forth keep you posted on the progress of the application as well as provide you with the opportunity to comment on the environmental impact assessment documents.

Your comments were incorporated into the draft basic assessment report that will shortly be distributed for comments.

We trust you find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

***BACKGROUND INFORMATION DOCUMENT***

14 March 2019

Attention: Mrs Yvette Edwards

Dear madam

**RE: NOTICE OF APPLICATION IN TERMS OF SECTION 27 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017).**

***BACKGROUND INFORMATION***

Queenstown Quarry is situated within the Chris Hani District Municipality and the Enoch Mgijima Local Municipality. The quarry is located 6 km to the west of Queenstown, adjacent to the N6 national route on a portion of the farm Lesseyton No. 81. The existing quarry has been a constant source of dolerite- and quartzite aggregate since 1970, and is currently operated by Queenstown Quarry (Pty) Ltd. Mining at the existing quarry is performed through open cast mining methods, with the loosened material processed at the crushing and screening plants, from where the various sized aggregates are stockpiled until sold and removed from site.

Komani Quarry (Pty) Ltd (hereinafter referred to as "the Applicant") applied for a mine permit to expand the existing dolerite quarry at Queenstown Quarry. The Applicant entered into a mining and offtake agreement with Raumix Aggregates (Pty) Ltd to win dolerite through opencast mining methods from the mining permit footprint area. In light of the said agreement, the Applicant appointed Raumix Aggregates (Pty) Ltd as the entity responsible for the financial and technical aspects of the proposed project, which will include, but not be limited to, the use of the existing equipment, infrastructure, labour force, and services at Queenstown Quarry.

***SITE DESCRIPTION***

As mentioned the proposed application area will entail the extension of the existing dolerite quarry at Queenstown Quarry, ±6 km west of Queenstown adjacent to the N6. The extent of the proposed mining footprint is 4.9 ha, and the GPS coordinates of the area applied for are as listed below.

**the goal isn't to live forever, it is to protect a planet that will**

<p style="text-align: center;"><b>NOTICE OF MINING PERMIT APPLICATION</b></p> <p>Komati Quarry (Pty) Ltd in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (MPRDA) of 2002 and the National Environmental Management Act, 1998 (NEMA) of 1998 as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017), the Komati Quarry (Pty) Ltd (Applicant) applied for:</p> <ul style="list-style-type: none"> <li>environmental authorisation to mine (diamond) aggregate from a portion of the farm 355000/1/1/1/1/1/1 situated in the Chris Hani Magisterial district of the Eastern Cape Province.</li> <li>a mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (MPRDA) of 2002 to the Department of Mineral Resources.</li> </ul> <p>The proposed project (with reference number EC 305/13/1/1/1/1/1/1) entails the extension of the existing (diamond) quarry at Queenstown Quarry. The Applicant entered into a mining and effluent agreement with the Eastern Cape Department of Environmental and Forestry Affairs (ECDEFA) from the mining permit application area. Should the application be approved, the mining method will involve (but not be limited to) the following activities:</p> <ul style="list-style-type: none"> <li>excavation of the quarry in order to access the diamond, which will be transported to the existing crushing and screening processing plant of Queenstown Quarry where it will be screened to various sized stockpiles, before sold and transported from site to clients.</li> </ul> <p>The proposed project triggers the following listed activities in terms of NEMA, 1998 and the MPR Regulations 2014 (as amended 2017) and therefore requires a basic assessment process to obtain environmental authorisation:</p> <ul style="list-style-type: none"> <li>GNR 27 Using Notice 1 of 2017 Activity 21 Any activity involving the operation of the activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (MPRDA) of 2002, including all associated infrastructure, structures and equipment, directly related to the extraction of a mineral resource or</li> <li>to the primary processing of a mineral resource including screening, crushing, classifying, stockpiling, classifying, screening or washing.</li> <li>GNR 27 Using Notice 1 of 2017 Activity 22 The above mentioned activity entails the following:</li> <li>a) clearance of vegetation in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (MPRDA) of 2002 or</li> <li>b) prospecting rights, mining rights, mining permit, production right or exploration right, where the throughput of the activity has substantially or more than a 5% impact on the environment where the competent authority has in writing approved that such activities in throughput do not constitute a mine.</li> <li>GNR 27 Using Notice 1 of 2017 Activity 23 The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation.</li> <li>GNR 27 Using Notice 1 of 2017 Activity 26 Accidental, mixed, total, controlled, industrial or institutional development where such development for agriculture, game farming, education purposes or infrastructure is or after 21 April 1998 and where such development:</li> <li>a) will cover more than 10 hectares, where the total land to be developed is bigger than 1 hectare.</li> </ul> <p>Interested and Affected Parties (I&amp;APs) are invited to provide written comments. I&amp;APs should provide their comments with their name and contact details to the environmental consultant indicated below by 12 April 2019. Should you require the documentation in another language or need additional information please contact Greenwood Environmental.</p> <p>A register of I&amp;APs that submitted written comments or requested to be registered will be opened. All requests of parties who have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&amp;APs will be entitled to comment on reports and plans to be submitted to the Department, provided that the party provides its name, contact details and address and discusses any direct business, financial, personal or other interest which the party may have in the approval or refusal of the application. The Draft Basic Assessment Report (BARR) will be made available to the public for a 30 day review period. A review form (copy of the report will be published on the Greenwood Environmental website (www.greenwood.co.za). All registered I&amp;APs and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.</p> <p><b>Environmental Consultant &amp; Contact Person</b>                  Greenwood Environmental                  Christine Rouche                  Postal Suite 67                  Private Bag 113                  Sandton 2146                  T129                  Tel: 021 851 2673                  Fax: 086 546 0579                  Cell: 082 811 8514                  E-mail: info@greenwood.co.za</p> <p><b>Applicant:</b>                  Komati Quarry (Pty) Ltd                  P.O. ### NOTICE OF MINING PERMIT APPLICATION

Notice is hereby given in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (Act No 107 of 1998) (NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) the Komani Quarry (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine dolomite aggregate from a portion of the farm (sesayon No 87) situated in the Chris Hani magisterial district of the Eastern Cape Province.
- a mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act 2002 (Act No 28 of 2002) to the Department of Mineral Resources.

The proposed project (with reference number EC 30/5/13/2/10498 MP) entails the extension of the existing dolomite quarry at Queenstown Quarry. The Applicant entered into a mining and offtake agreement with Raunix Aggregates (Pty) Ltd to win dolomite through opencast mining methods from the mining permit footprint area, should the application be approved. The mining method will make use of blasting in order to loosen the hard rock upon which the loosened material will be transported to the existing crushing and screening processing plant of Queenstown Quarry where it will be screened to various sized stockpiles, before sold and transported from site to clients.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and therefore requires a basic assessment process to obtain environmental authorization:

- GMR 227 Listing Notice 1 of 2017 Activity 21:**  
Any activity involving the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –  
a) associated infrastructure, structures and earthworks directly related to the extraction of a mineral resource; or  
b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.
- GMR 227 Listing Notice 1 of 2017 Activity 22:**  
The decommissioning of any activity requiring –  
a) a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002); or  
a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.
- GMR 227 Listing Notice 1 of 2017 Activity 23:**  
The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation.
- GMR 227 Listing Notice 1 of 2017 Activity 28:**  
Residential, mixed retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, recreation purposes or afforestation on or after 01 April 1998 and where such development:  
a) will occur outside an urban area, where the total area to be developed is bigger than 1 acre.

Interested and Affected Parties (I&APs) are invited to provide written comments. I&APs must provide their comments with their name and contact details to the environmental consultant indicated below by 12 April 2019. Should you require the documentation in another language or need additional information please contact: Greenmined Environmental.

A register of I&APs that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&APs will be entitled to comment on reports and plans to be submitted to the Department, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interest which the party may have in the approval or refusal of the application. The Draft Basic Assessment Report (DBAR) will be made available to the public for a 30-days review period. An electronic copy of the report will be published on the Greenmined Environmental website ([www.greenmined.com](http://www.greenmined.com)). All registered I&APs and stakeholders will be notified of the commenting period in advance as above.

The DBAR will then be updated to reflect the comments received during the public commenting period. Thereafter, the Final Basic Assessment Report (FBAR) will be submitted to DMR for its consideration as part of the authorization process in terms of the MEQA, 2014 regulations (as amended 2017). A copy of the FBAR will be made available on the Greenmined Environmental website. All registered I&APs and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

# PROOF OF XHOSA ON SITE NOTICE

## ISAZISO SESICELO SEMVUME YOMGODI

Isaziso sidluliselwa ngokuvumelana neCandelo 27 loMthetho Wophuhliso Wezimbiwa NeOli, 2002 (Umthetho No 28 ka-2002) kunye noMthetho Wesizwe Wokulawula Izinto Ezisigqongileyo, 1998 (umthetho 107 ka-1998 NEMA) kuquka neMithetho Echanaba Uhloliso Lwezinto Ezisigqongileyo 2014 (njengoba lungiswe ngo-2017) iKomani Quarry(Pty) Ltd ("Ofak' Isicelo") ifaka Isicelo ukuze:

- Ifumane Isigunyaziso sezinto ezisigqongileyo ukuze yenze umgodi wamatye abanzi kwinxalenye yefama yase-Lesseyton No. 81 ekho kwisithili somantyi i-Chris Hani wePhondo laseMpuma Koloni.
- Ifumane Isigunyaziso sezinto ezisigqongileyo somgodi ngokuvumelana neCandelo 27 loMthetho Wophuhliso Wezimbiwa NeOli, 2002 (Umthetho No 28 ka-2002) kwisebe Leszimbiwa.

Le projekthi ecetywayo (enenombolo yembekiselo ethi EG 30/S/1/3/2/10498 MF) iquethe ukongezelelwa kwekwari ekhoyo ebandi kwikwari yaseKomani. Ofak' Isicelo ungene waza walithatha isivumelwano kunye ne-Raumix Aggregates (Pty) Ltd ukuze baphumelele kwindlela ezivulekileyo zomgodi semvume yomgodi kule ndawo, ukuba eso sicelo sinokugunyaziswa. Indlela zomgodi ziza kusebenzisa ukukhushumbisa ukuze kususwe amatye aqinileyo; ezo zinto ezisusileyo ziza kuthuthelwa kwindawo etyumzayo nokuhlolwa kwenkqubo yendawo yeKwari eSeKomani, nalapho ziza kuhloliswa ukuze zibe zifumba ezincinane ezibekiweyo, ngaphambi kokuthengiswa zize zithuthelwe kwiziza zabathengi.

Le projekthi ecetywayo ichukumisa olu ludwe lwemisebenzi ngokuvumela ne-NEMA, 1998 neMithetho ye-EIA 2014 (njengoba lungiswe ngo-2017) jaye emva koko liza kufuna inkqubo yohloliso esisiseko ukuze kufunyanwe Isigunyaziso sezinto ezisigqongileyo:

- **I-GNR 327 Uluhlu Lwezaziso 1 sika-2017 Umsebenzi 21:**  
Nawuphi na umsebenzi oquka indlela yokusebenza kwawo, nto leyo efuna imvume yomgodi ngokuvumelana neCandelo 27 loMthetho Wophuhliso Wezimbiwa NeOli, 2002 (Umthetho No 28 ka-2002), kuquka –  
a) izibonelelo ezinxulumeneyo, izindlu nokusebenzwa komhlaba, zinxulumene ngqo nokuthathwa kwezimbiwa; okanye  
b) injongo yenkqubo yezimbiwa iquka ukukholisa, ukuthatha, ukucaculula, ukujolisa, ukutyumza, ukuhlola okanye ukucoca.
- **I-GNR 327 Uluhlu Lwezaziso 1 sika-2017 Umsebenzi 22:**  
Ukuxoliswa kwawo nawuphi na umsebenzi kufuna –  
i) Isatifikethi sokwala ngokuvumelana neCandelo 43 Somthetho Wophuhliso Wezimbiwa NeOli, 2002 (umthetho No. 28 ka-2002); okanye  
ii) Ilungelo lesithembiso, ilungelo lomgodi, ipemthi yomgodi, ilungelo lemveliso okanye ilungelo lokuhloliswa, apho ukwenziwa komsebenzi kuye kwancipha ngeepesenti ezingama-90 okanye ezingaphezu kwemihyaka emihlanu ezingaquki igunya elifanelekileyo elye labhala ihuma ukuba oko kuncipha akuquki ukuvulwa.
- **I-GNR 327 Uluhlu Lwezaziso 1 sika-2017 Umsebenzi 27:**  
Ukucocwa kwendawo eyhektare enye okanye ngaphezulu, kodwa engaphantsi kwehektare ezingama-20 enezityalo zalapho.
- **I-GNR 327 Uluhlu Lwezaziso 1 sika-2017 Umsebenzi 28:**  
Indawo zokuhlala, ukudityaniswa, iivenkile, ezorhwebo, amashahini okanye amaziko ophuhliso apho umhlaba usetyenziselwa ezolimo, ukutywa kwezilwanyana, ukukhwelela kwamahashi okanye ukutywa kwemthi emihlanzi okanye ngemva komhla woku-1 kuApril 1998 yaye apho olo phuhliso:  
i) luza kwenzwa ngaphandle kweedolophu, apho isimbuku somhlaba oza kuphuhliswa umkhulu ngaphezu kwehektare enye.

Abantu Abanomdla Nababandakanyekileyo (I&AP's) bamanywa ukuba badlulisele amagqabaza abo ngokubhalisa. I-I&AP imele idlulisela amagqabaza ayo negama layo neenkukacha zochagamshelwano kumcebisi wemvelo oboniswa ngezantsi ngomhla wesi-12 kuApril 2019. Ukuba ungathanda ukufumana uwebhu ngolunye ulwimi okanye ufuna inkcazelo engakumbi, nceda unibelelani ne-Greenmined Environmental.

Ubhaliso lwe-I&AP oluthumele amagqabaza abhalweyo okanye ecele ukubhaliswa liza kuvulwa. Onke amaziko karhulumente anegunya ngokunxulumene nomsebenzi, nawo aza kudweliswa kubhaliso. Nceda uphawule ukuba kuphela zi-I&AP ezibhalisileyo eziza kuvunyelwa ukuba zigqabaze kwilungelo nakwipiani eziza kuthunyelwa kwisebe, logama nje iqela lichala igama lalo, inkukacha zorhwebo nendres lize lichaze nalphi na lishishini lalo, imail, abantu abasebenzayo okanye izinto iqela elinomdla kuzo ukuze kugunyaziswe okanye kukhatywe Isicelo. I-I&AP ezibhalisileyo ziza kubhaliswa kwintsuku ezili-14 zomhla esenziwe ngawo Isigqibo zize zichazwe nangemphumo yesicelo, kuquka izizathu seso sigqibo nangelungelo lokubhena.

Land Claim - Komani Quarry

To 'Phiwokuhle.Balekile@drdlr.gov.za'

Good day

This is to enquire if the following property are under claim:

Komani Quarry (Pty) Ltd applied for a mining permit to win aggregate from 4.9 ha of the farm Lesseyton No 81, Queenstown, within the Chris Hani Magisterial District of the Eastern Cape Province.

It would be greatly appreciated if you could assist us with the information required, in a form of a letter, at your earliest convenience.

Kind Regards/Vriendelike Groete

**EXAMPLE OF THE DRAFT BASIC ASSESSMENT REPORT NOTIFICATION SENT TO  
INFORM THE STAKEHOLDERS AND I&AP'S ON THE 16<sup>TH</sup> OF APRIL 2019**

Ref No: EC 30/5/1/3/2/10498 MP

To Whom It May Concern

16 April 2019

Dear sir/madam

**RE: DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME  
REPORT FOR PUBLIC COMMENTS FOR THE MINING PERMIT APPLICATION ON A PORTION OF  
LESSEYTON FARM 81, QUEENSTOWN, EASTERN CAPE PROVINCE**

The draft Basic Assessment Report (DBAR) and Environmental Management Programme Report (EMPR) for the propose mining of dolerite aggregate from a portion of Lesseyton farm No 81, Queenstown, is now available for your perusal. A copy of the document can be obtained from Greenmined Environmental upon request, or downloaded from the company website at [www.greenmined.com](http://www.greenmined.com).

Should you be interested your comments are kindly requested on the DBAR & EMPR. A thirty-day commenting period, ending on **20 May 2019**, will be allowed for comments. Your comments must be in writing and can be submitted via facsimile, e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

If we do not receive any comments from you before the end of the commenting period it will be accepted that you do not have any additional objections/comments with regard to the project. We trust that you find it in order and kindly await your comments on this report.

Please contact Christine Fouche at 082 811 8514 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or [christine.f@greenmined.co.za](mailto:christine.f@greenmined.co.za) should you require any additional information.

Kind Regards

A handwritten signature in black ink that reads 'Fouche'.

## RESPONSE SEND TO ENOCH MGIJIMA LOCAL MUNICIPALITY ON THE 24<sup>TH</sup> OF APRIL 2019

Dear Ms Fatuse

Greenmined herewith thank you for, and acknowledge receipt of your correspondence received 24 April 2019 with regard to the Komani Quarry (Pty) Ltd mining permit application.

Kindly note that due to size restraints the DBAR & EMPR cannot be emailed. However, you can download the documents from our website at [www.greenmined.com](http://www.greenmined.com) or alternatively we can courier you a CD of the documents. Please indicate which option you prefer, and should you require a CD will you please provide us with your physical address?

We look forward to your response. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

Ms Christine Fouche

Senior Environmental Consultant

## RESPONSE RECEIVED FROM ENOCH MGIJIMA LOCAL MUNICIPALITY ON THE 24<sup>TH</sup> OF APRIL 2019
