NAME: Marlene Lingenfelder

LAND CLAIM IN TERMS OF THE RESTITUTION OF LAND RIGHTS ACT, 1994 AND AS AMENDED IN TERMS OF THE RESTITUTION OF THE LAND RIGHTS AMENDMENT ACT 2014 (ACT NO 15 OF 2014).

REFERENCE NUMBER:

- R/6/142/277/58392
- R/6/142/277/33232
- R/6/143/288/147076

PROPERTY DESCRIPTION OF THE CLAIMED LAND

- **Portion 4 of the remaining extent of the farm Brakfontein 310 IR**

We refer to your land claim enquiry of land claims lodged with the Department.

Note that the lodgement of land claim is based on the Restitution of Land Rights Act, Act no 22 of 1994 and the Restitution of Land Rights Amendment Act, (Act not 15 of 2014).

The Commission is empowered to investigate all land claims and where applicable issues a Government Gazette to interested and affected parties if such land claims has been approved as valid claims.

The above claim was lodged in terms of the Restitution of Land Rights Amendment Act, 2014 (Act No 15 of 2014) ("the Amendment Act") which, amongst others, reopened the lodgement of claims for a period of five years.

The validity of the Amendment Act was challenged in the Constitutional Court. The Constitutional Court found the Amendment Act to be invalid because of the failure of Parliament to facilitate public involvement as required by the Constitution. The Amendment Act ceased to be law on 28 July 2016 and the Commission is no longer allowed to accept lodgement of new claims from that date.

The Constitutional Court ordered that the claims that were lodged between 1 July 2014 and 27 July 2016 are validly lodged, but it interdicted the Commission from processing those claims until the Commission has finalised the claims lodged by 31 December 1998 or until Parliament passes a new law providing for the re-opening of lodgement of land claims. Parliament was given until 27 July 2018 to pass such a law.

The Commission will therefore not be processing these new claims until it finishes claims lodged by 31 December 1998 or until Parliament passes a new law providing for re-opening of lodgement of claims.

We apologise for the inconvenience caused.

Please quote the claim reference number in all correspondence with the Commission.

Yours sincerely,

MR E.S. NKOSI
CHIEF DIRECTOR
OFFICE OF THE REGIONAL LAND CLAIMS COMMISSIONER

 E-MAIL: admin@greenmined.co.za
 NAME: Marlene Lingenfelder

Dear Sir/Madam

LAND RESTITUTION IN TERMS OF THE RESTITUTION OF LAND RIGHTS ACT NO. 22 OF 1994

I refer to your enquiry,

Please note that claim for the restitution of land rights has been lodged against the following property:

Property Description	Comments	File number	Claim Status
Province: Mpumalanga Magisterial District: Gert Sibande Property: Portion 4 of the Remaining extent of the farm Brakfontein 310 IR NOTE: Please see comments.	<ul style="list-style-type: none"> • According to our Database, there is a registered Land Claim which was lodged against the mentioned property. • Please note that there are claims on Portion 11,15,19 • For more information, or/on whether the requested portion is affected, please contact Richard Ntuli on 013 756 6000. 	<ul style="list-style-type: none"> • 2494 	<ul style="list-style-type: none"> • Gazetted

It is not within the powers of the Commission on Restitution of Land Rights to grant or withhold permission for the development or alienation in respect of land being claimed until such a claim has been gazetted, unless such development would constitute an obstruction to the achievement of the aims and objectives of the Restitution of Land Rights Act 22 of 1994. In such instances application can be made in the Land Claims Court in terms of Section 6(3) of the Restitution Act; this can be done at any stage after the claim has been lodged - even before the publishing of such a claim in terms of Section 11 of the Restitution of Land Rights Act 22 of 1994.

While the Regional Land Claims Commission: Mpumalanga has taken reasonable care to ensure the accuracy of the above-mentioned information, the Commission cannot be held accountable if, through the process of further investigation, additional information is found that contradicts this communication.

Kind regards

MR. E.S. NKOSI
CHIEF DIRECTOR
OFFICE OF REGIONAL LAND CLAIMS COMMISSION (MP)

Dear Madam,

BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PLAN FOR THE PROPOSED GRAVEL MINE ON A PORTION OF PORTION 4 OF THE REMAINING EXTENT OF THE FARM BRAKFONTein NO 310 IR, GOVAN MBEKI LOCAL MUNICIPALITY, GERT SIBANDE DISTRICT MUNICIPALITY, MPUMALANGA PROVINCE.

The abovementioned report dated May 2021 was received by the official on, 31 May 2021.

The comments to follow are in relation to the following legislations with amendments and policy directives:

- National Environmental Management Act (Act 107 of 1998)
- National Environmental Management: Biodiversity Act (Act 10 of 2004)
- Air Quality Management (Act 39 of 2004)
- Waste Management Act (Act 59 of 2008)
- Gert Sibande District Municipality By - laws (No.2300 of 2014)
- National Health Act (Act 61 of 2003)
- National Water Act (Act 36 of 1998)

The following are comments from Gert Sibande District Municipality for consideration of the application:

- The applicant must ensure that the requirements of the National Environmental Management Act (Act 107 of 1998), its Specific Environmental Management Acts and the Gert Sibande District Municipality By-Laws (No.2300 of 2014) are adhered to.
- In reference to **page 123** of the basic assessment report which states that the proposed mining footprint extends into an area that has previously been used for mining. No protected or red data animal or plant species were identified during the site inspection, and no fauna will be impacted by the proposed prospecting as they will be able to move away or through the site without being harmed. It is proposed that should the Applicant implement the mitigation measures proposed in the EMPr the impact of the proposed activity on the riparian vegetation, groundcover and/or fauna is deemed to be of low significance. Therefore, in light of the site-specific state of the earmarked area there is no need for a TBIA, PSA or ASA. No activities must be undertaken at any bio - diversity of conservation sensitive areas within the proposed site in terms of the Mpumalanga Bioregional Plan.
- Duty of care principle as per the National Environmental Management Act (107 of 1998) as amended must be taken into account throughout the proposed project during all operations and close up.
- In reference to **page 66** of the Draft Basic Assessment report which states that no rivers NFEPA of conservation importance extends over the proposed footprint, two artificial wetlands are located east of the site but will not be affected as the mining operations will be located away from the existing site. Please note that the district does not support any activities within 50 m of a water body or the rechanneling of a water body.
- In reference to **page 123** of the Draft Basic Assessment report which states that the proposed mining footprint extends into an area that has previously been used for mining, and therefore no sites of archaeological or cultural importance is expected within the footprint. In light of this, it is proposed that a chance-find protocol be incorporated in the EMPR to be adhered to for the duration of the site establishment-, operational- and decommissioning phases. In our opinion this project does not necessitate an HIA & PIA. The following mitigation measures should be taken into consideration for the heritage impacts from the project to be considered low: Implement chance find procedures in case where possible heritage finds are uncovered and No development within 50 meters from the heritage site. These mitigation measures should form part of the EMPr.
- Water used for human consumption must comply with South African National Standards (241 - 1: 2015) for drinking water including for consumption by animals and regularly tested at the accredited laboratory.

- 'The GSDM waste by laws state that," Waste generated in the Municipality's jurisdiction must be disposed of at a waste disposal facility licensed to accept such waste or recycled or treated at a licensed waste treatment facility." the third party collecting the waste is to be licensed or accredited for waste collection.
- There should be strict adherence to national road traffic Act prescriptions including District Noise By - laws.
- The EMPr must include detailed but not be limited to the following:
 - **Environmental Pollution Prevention Plan**
 - **Site specific Rehabilitation Plan**
 - **Incident Emergency Plan**
 - **Site Environmental Management Operational Plan**
- Any complaints received from the public during the proposed activity phases must be documented and reported to the competent authority, Gert Sibande District Municipality and Govan Mbeki Local Municipality.
- All incidents or complaints should be reported to the competent authority, Gert Sibande District Municipality and Govan Mbeki Local Municipality.
- Monthly reports on the implementation of the EMPr must be sent to the relevant authorities.

Should you have any queries, please contact LF Magagula on 017 801 7177.

Yours faithfully

MS MMOGAKABE

Attachments: SKMBT_42321061008170.pdf; Leandra Waste Licence.pdf

Good day Marlene

The section Solid Waste Management has responded and objected via our Department Planning & Development, against the proposed mining at portion 4 of the farm Brakfontein 310 IR situated in Leandra as the whole farm portion is earmarked and licensed for a regional landfill site. The current Leandra waste disposal site is situated on the farm portion and the municipality will have no alternative site to dispose waste in the area.

Kindly advise in terms of the procedure to be followed to officially object to the proposed mining activity if our email response is not accepted.

MEMORANDUM

Department: Community Services

TO: Acting Director Planning & Development
Mr S Vilakazi

FROM: Deputy Director Solid Waste & Environmental Services
H L van der Merwe

DATE: 03 June 2021

REFERENCE:

RE: DBAR Leandra MP 30/5/1/3/2/ 12554 MP – GMLM

The above subject matter bears reference:

The land is earmarked for the Regional landfill site for the next 50 years and more and according to the Dept. Planning & Dev, was the only municipal land available for current and future landfill development within GMM. All the section Solid Waste Management current and future waste management plans are referring to the Leandra landfill and therefore we object to the proposed mining, unless the municipality can identify an alternative, more suitable municipal land, which are more centralised near Evander/ eMbalenhle/ Secunda, which we would prefer to save on the cost of transport etc.

Yours faithfully,

.....
H L van der Merwe

Attention: Mr M Mudzielwana

**RECORD OF DECISION: WASTE LICENCE FOR THE CONSTRUCTION AND OPERATION OF
LEANDRA LANDFILL SITE ON PORTION 04 OF THE FARM BRAKFORTEIN 310 IR, GOVAN MBEKI
LOCAL MUNICIPALITY, GERT SIBANDE DISTRICT, MPUMALANGA PROVINCE**

1. Background

Govan Mbeki local Municipality has appointed Tshikovha Environmental and communication Consulting to apply for the Waste Licence in terms of the National Environmental Management: Waste Act, 2008 (NEMWA), for Leandra Landfill Site on portion 04 of the farm Brakfontein 310 IR, Govan Mbeki Local Municipality, Gert Sibande District, Mpumalanga Province.

2. Information considered in making the decision

- 2.1.1 Waste Licence Application Form: The proposed licensing of Leandra Landfill Site on portion 04 of the farm Brakfontein 310 IR, Govan Mbeki Local Municipality, Gert Sibande District Municipality, Mpumalanga Province prepared by Tshikovha Environmental and communication consulting.
- 2.1.2 Final Scoping Report: The proposed licensing of Leandra Landfill Site on portion 04 of the farm Brakfontein 310 IR, Govan Mbeki Local Municipality, Gert Sibande District Municipality, Mpumalanga Province prepared by Tshikovha Environmental and communication consulting.
- 2.1.3 Final Environmental Impact Assessment Report: The proposed licensing of Leandra Landfill Site on portion 04 of the farm Brakfontein 310 IR, Govan Mbeki Local Municipality, Gert Sibande District Municipality, Mpumalanga

Province prepared by Tshikovha Environmental and communication Consulting.

- 2.1.4 Record of Decision from the Department of Water and Sanitation.
- 2.1.5 Correspondence between the Environmental Assessment Practitioner (EAP) and the Department.

The Department took the following into consideration:

3 Key factors considered in making the decision

In processing the application, the Department followed the requirements of the Waste Act in general, and in particular the provisions of section 48 of the Act. Section 48 requires, amongst others, that the Competent Authority takes into account such environmental and socio-economic aspects of the development for which the Licence is desired. All information presented to the Department was taken into account.

4 Findings and Decision

After consideration of the information and factors listed above, the Department made the following findings:

- a) According to the applicant's submission:
 - i) The activity, for which the Licence is required, is considered to be environmentally, economically and socially sustainable;
 - ii) The significance of the impact of the activity on the environment is considered to be low after the implementation of management and mitigation measures;
 - iii) The land use associated with the activity being applied for is commensurate with both local and regional planning initiatives with regard to socio-economic development; and
- b) In view of the above, the Department is satisfied that, subject to compliance with the conditions contained in the Waste Licence, the activities will not conflict with the general objectives of the Constitution, the National Environmental Management Act, 107 of 1998 as amended (NEMA) and the Waste Act.
- c) The applicant has committed to satisfactorily mitigate against any potentially detrimental environmental impacts resulting from the activities.
- d) The Waste Licence is accordingly granted to the applicant.

Yours sincerely,

Mr SS MALULEKA
CHIEF DIRECTOR: ENVIRONMENTAL AFFAIRS
DATE: 30/09/2015

Good day Mr van der Merwe,

Please see attached google placemark for this application, it seems that the area mentioned in your objection is not part of our application area,

Can we please just clarify whether we are talking about the same area? Our application is to extent the existing quarry on the property.

In discussions with our archeologist he confirmed that the graves indicated by you are far north from our application area,

Your response in this regard will be highly appreciated.

Subject: RE: DBAR Leandra MP 30/5/1/3/2/ 12554 MP - GMLM
Attachments: image003.emz

Good day Sonette

The objection is not only based on a grave site, hence the whole portion 4 of the farm Brakfontein 310 IR in Leandra is licensed for landfill (License no 17/4/WL/MP307/14/03) and future landfill site development by the Department of Environmental Affairs, which includes the quarry area. Based on the waste license issued, the proposed activity is not recommended and the applicant need to engage the Department of Environmental Affairs to get authorization to proceed with the activity as it will affect the scope of the waste license.

Subject: RE: DBAR Leandra MP 30/5/1/3/2/ 12554 MP - GMLM

Good day Sonette

The objection is not only based on a grave site, hence the whole portion 4 of the farm Brakfontein 310 IR in Leandra is licensed for landfill (License no 17/4/WL/MP307/14/03) and future landfill site development by the Department of Environmental Affairs, which includes the quarry area. Based on the waste license issued, the proposed activity is not recommended and the applicant need to engage the Department of Environmental Affairs to get authorization to proceed with the activity as it will affect the scope of the waste license.

Regards

Hendrik van der Merwe
Acting Director Community Services
Office: (017)6206319

RE: OBJECTION TO DBAR LEANDRA MP 30/5/1/3/2/12554 MP -GMLM MINING APPLICATION

The above subject matter bear's reference:

The land is earmarked for the regional landfill site for the next 50 years. According to the Department: Planning & Development, this was the only municipal land available for current and future landfill development within GMM. Solid Waste Management current and future waste management plans are referring to the Leandra landfill and therefore we **OBJECT** to the proposed mining.

Yours faithfully,

MRS. EK TSHABALALA
ACTING MUNICIPAL MANAGER

Interim Comment

In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Inzalo Crushing and Aggregates (Pty) Ltd

Inzalo Crushing and Aggregates (Pty) Ltd (hereafter referred to as the applicant) applied for a mining permit for the mining of gravel, 4.9 ha on a portion of Portion 4 of the Remaining Extent of the farm Brakfontein No 310 IR magisterial district of Highveld Ridge of Mpumalanga Province.

Inzalo Crushing and Aggregates (Pty) Ltd have appointed Greenmined Environmental (Pty) Ltd to undertake an environmental assessment as part of the Basic Assessment Reporting process in support of an Environmental Authorisation (EA) in terms of the National Environment Management Act, Act 107 of 1998 (NEMA) for activities that trigger the NEMA EIA 2014 Regulations. As well as the requirements of the Minerals and Petroleum Resources Development Act, No 28 of 2002 (MPRDA)(As amended).

A Basic Assessment report was submitted to the South African Heritage Resources Agency (SAHRA) for commenting in terms of section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA). The draft BAR report states that the area was previously mined and no heritage impact assessment is required.

There is no indication that the statement in the draft BAR is a recommendation by a suitably qualified archaeologist no does it conform to section 38(3).

Interim Comment

As the proposed development is undergoing an EA Application process in terms of the National Environmental Management Act, 107 of 1998 (NEMA), NEMA Environmental Impact Assessment (EIA) Regulations for activities that trigger the Mineral and Petroleum Resources Development Act, No 28 of 2002 (MPRDA)(As amended), it is incumbent on the developer to ensure that a Heritage Impact Assessment (HIA) is done as per section 38(3) and 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA). This must include an archaeological component, palaeontological component and any other applicable heritage components. The HIA must be conducted as part of the EA Application in terms of NEMA and the NEMA EIA Regulations.

The archaeological component of the HIA should follow the SAHRA 2007 Minimum Standards: Archaeological Component of Impact Assessment Report. The quickest process to follow for the archaeological component

would be to contract a qualified archaeologist (see www.asapa.co.za or www.aphp.org.za). The Minimum Standards refers to a Letter of Recommendation for Exemption from further studies, that may be submitted should the archaeologist deem it appropriate.

Any other heritage resources as defined in section 3 of the NHRA that may be impacted, such as built structures over 60 years old, sites of cultural significance associated with oral histories, burial grounds and graves, graves of victims of conflict, and cultural landscapes or viewsapes must also be assessed.

The applicant is advised to extend the BAR process in terms of section 19(1)b of the NEMA EIA regulations in order to comply with this comment.

Further comments will be issued upon receipt of the requested.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.
