RE: NOTICE OF APPLICATION IN TERMS OF SECTION 27 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017).

BACKGROUND INFORMATION

Inzalo Crushing and Aggregates (Pty) Ltd (hereafter referred to as the applicant) applied for a mining permit for the mining of gravel, 4.9 ha on a portion of Portion 4 of the Remaining Extent of the farm Brakfontein No 310 IR magisterial district of Highveld Ridge of Mpumalanga Province.

SITE DESCRIPTION

The proposed mining footprint will be 4.9 ha and will be developed over a disturbed area of the farm previously used for mining. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries. The proposed GPS coordinates of the area applied for are as listed below.

the goal isn't to live forever, it is to protect a planet that will

LEGAL COMPLIANCE

The proposed project triggers the following listed activities in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) and the Environmental Impact Assessment Regulations 2014 (as amended 2017) and therefore requires an environmental impact assessment (EIA) (basic assessment process) that assess project specific environmental impacts and alternatives, consider public input, and propose mitigation measures, to ultimately culminate in an environmental management programme that informs the competent authority (Department of Mineral Resources and Energy) when considering the environmental authorisation:

BACKGROUND INFORMATION DOCUMENT

■ GNR 327 Listing Notice 1 of 2017 Activity 21:

Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –

- a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or*
- b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.*

but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.

■ GNR 327 Listing Notice 1 of 2017 Activity 22:

The decommissioning of any activity requiring –

- i) a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or*
- ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.*

but excluding the decommissioning of an activity relating to the secondary processing of a –

(a) mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource; or

(b) petroleum resource, including the refining of gas, beneficiation, oil or petroleum products; –

in which case activity 31 in this Notice applies.

■ GNR 327 Listing Notice 1 of 2017 Activity 27:

The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for—

(i) the undertaking of a linear activity; or

(ii) maintenance purposes undertaken in accordance with a maintenance management plan.

■ GNR 327 Listing Notice 1 of 2017 Activity 28:

Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:

(i) will occur inside an urban area, where the total land to be developed is bigger than 5 hectares; or

BACKGROUND INFORMATION DOCUMENT

(ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;

excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.

OTHER LEGISLATION TRIGGERED BY THE PROPOSED PROJECT:

An application for a Mining Permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) was submitted to the Department of Mineral Resources and Energy – Mpumalanga Province.

PROJECT DESCRIPTION

Inzalo Crushing and Aggregates (Pty) Ltd (hereinafter referred to as “the Applicant”) intends applying for a mining permit to expand the existing Leandra dolerite quarry on Portion 4 (Remaining Extent) of the farm Brakfontein No 310, outside Leandra in Mpumalanga Province.

The proposed activity will entail the extension of the existing quarry pit (4.9 ha) in an area that has been mined for numerous years. The mining method will make use of blasting in order to loosen the hard rock; upon which the loosened material will be transported to a processing area (inside mining boundary) where it will be crushed and screened to various sized stockpiles, before being sold and transported from site to clients. All activities will be contained within the boundaries of the site.

The mining activities will consist out of the following:

- Stripping and stockpiling of topsoil;
- Drilling & Blasting
- Excavating;
- Crushing & Screening;
- Stockpiling and transporting;
- Sloping and landscaping upon closure of the site; and
- Replacing the topsoil and vegetation the disturbed area.

The mining site will contain the following:

- Excavating equipment;
- Earth moving equipment;
- Mobile crushing and screening plants;
- Access Roads;

BACKGROUND INFORMATION DOCUMENT

- Site office (Container);
- Site vehicles;
- Parking area for visitors and site vehicles;
- Weighbridge;
- Ablution facilities (Chemical toilet).

ACCESS ROUTE:

- The proposed mining area will be reached via the existing access road to the quarry, making use of the existing internal/haul roads to access the material within the mining area.

WATER USE:

- Any water required for the implementation of the project will be bought and transported to site.

ELECTRICITY:

- Generators will be used to power the plant on site, if a connection to the existing power infrastructure cannot be secured. Mobile containers will be placed inside the mining footprint that will serve as offices and storage units. A weighbridge will be added to the site and the crushing and screening plant will operate within a designated processing area (within the 4.9 ha permit footprint).

BRIEF SITE DESCRIPTION

GEOLOGY:

The geology of the study area comprises mostly Shale, sandstone or mudstone of the Madzaringwe Formation (Karoo Supergroup) or the intrusive Karoo Suite dolerites which feature prominently in the area. In the south, the Volksrust Formation (Karoo Supergroup) is found and in the west, the rocks of the older Transvaal, Ventersdorp and Witwatersrand Supergroups are most significant. Soils are deep, reddish on flat plains and are typically Ea, Ba and Bb land types.

HYDROLOGY:

The proposed mining area falls within the C12D quaternary catchment which falls within the upper reaches of the Vaal River primary catchment that is situated in the Upper Vaal Water Management Area which is managed by the Department of Water and Sanitation (DWS). No open watercourses or drainage line is located in close proximity of the site according to the National Wetlands and NFEPA map of SANBI.

BACKGROUND INFORMATION DOCUMENT

FAUNA AND FLORA:

According to Mucina and Rutherford (2012) the expansion area extends over a gently to moderately undulating landscape on the Highveld plateau supporting short to medium-high, dense, tufted grassland dominated almost entirely by *Themeda triandra* and accompanied by a variety of other grasses such as *Elionurus muticus*, *Eragrostis racemosa*, *Heteropogon contortus* and *Tristachya leucothrix*. In places not disturbed, only scattered small wetlands, narrow stream alluvia, pans and occasional ridges or rocky outcrops interrupt the continuous grassland cover. Only a handful of patches statutorily conserved (Waldrift, Krugersdorp, Leeuwkuil, Suikerbosrand, Rolfe's Pan Nature Reserves) or privately conserved (Johanna Jacobs, Tweefontein, Gert Jacobs, Nikolaas and Avalon Nature Reserves, Heidelberg Natural Heritage Site).

LAND USE:

The project area is located in the jurisdiction of the Govan Mbeki Local Municipality, with Leandra being the nearest town. The land use of the earmarked property was previously used for mining dolerite, thus its already a disturbed area. The surrounding properties are mainly used for a variety of mixed agricultural purposes as well as mining and industrial purposes.

AIR AND NOISE QUALITY:

The wind patterns in Leandra are somewhat influenced by seasonal variations. According to www.worldweatheronline.com strong winds blow between August and December with an average of 12kmph and slowly decreases 7.5kmph between January and June. The ambient noise levels of the surrounding area are low with the noise levels of the greater surrounding area are low representing that of a rural area, with the noise levels of the study area (immediate surroundings) impacted by farming operations and the R50.

HERITAGE:

- The proposed mining footprint extends into an area that has previously been used for mining, and therefore no sites of archaeological or cultural importance is expected within the footprint. In light of this, it is proposed that a chance-find protocol be incorporated in the EMPR to be adhered to for the duration of the site establishment, operational- and decommissioning phases.

BACKGROUND INFORMATION DOCUMENT

FINAL REHABILITATION

Upon closure of the mining operation the entire footprint area will be rehabilitated so as to allow the affected area to return to agricultural use. At this stage the following baseline rehabilitation actions are proposed from which a detailed closure plan will be developed:

- Rehabilitation of all the disturbed surface areas shall entail landscaping, levelling, sloping, top dressing, land preparation, seeding (if required), and weed / alien clearing.
- All infrastructures, equipment, and other items used during the mining period will be removed from the site in accordance with section 44 of the MPRDA, 2002.
- Waste material of any description, including receptacles, scrap, rubble and tyres, will be removed entirely from the mining area and disposed of at a recognized landfill facility. It will not be permitted to be buried or burned on the site.
- The rehabilitation area will be cleared of weeds and invader plant species. Priority will be given to species regarded as Category 1a and 1b invasive species in terms of NEM:BA (National Environmental Management: Biodiversity Act 10 of 2004 and regulations applicable thereto).
- Final rehabilitation shall be completed within a period specified by the Regional Manager.

APPLICATION FOR CLOSURE

Once the full mining area was rehabilitated the mining permit holder will submit a closure application to the Department of Mineral Resources and Energy in accordance with section 43(4) of the MPRDA, 2002 that states: *“An application for a closure certificate must be made to the Regional Manager in whose region the land in question is situated within 180 days of the occurrence of the lapsing, abandonment, cancellation, cessation, relinquishment or completion contemplated in subsection (3) and must be accompanied by the prescribed environmental risk report”*. The Closure Application will be submitted in terms of Regulation 62 of the MPRDA, 2002, and Government Notice 940 of NEMA, 1998.

PUBLIC INVOLVEMENT

This document is to inform you about the proposed activity and to determine whether there are any concerns or objections from interested and affected parties (I&AP's) that need to be considered.

As interested and affected party you are kindly requested to complete the comments form and give any comment/concern or input with regard to the current land use of the area, the environment as well as socio-economic conditions that you feel might be affected by the proposed activity. When submitting response please provide suggestions to mitigate the anticipated impact of each identified activity.

BACKGROUND INFORMATION DOCUMENT

Please contact Sonette Smit at the contact details as presented in the letterhead or at sonette.s@greenmined.co.za through any means should you need more information, have additional language requirements, have concerns or comments that need to be considered or if you want to be registered as an interested and/or affected party and would like to receive a copy of the Draft Basic Assessment (DBAR) on or before 4 May 2021. If we do not receive any comments from you on or before 4 May 2021, it will be accepted that you do not have any objections/comments with regard to the project and do not require any further documentation.

A register of interested and affected parties (I&AP's) will be opened and maintained containing the names, contact details and address of all persons who have submitted written comments, attended meetings or have in writing requested to be registered and all organs of state which have jurisdiction in respect of the activity. Please note that only registered I&AP's and stakeholders will be entitled to comment on reports and plans to be submitted to the Department provided that the party provide its name, contact details and address and discloses any direct business, financial, personal or other interest which he/she may have in the approval or refusal of the applications.

The Draft Basic Assessment Report (DBAR) will be submitted to the Department of Mineral Resources and Energy – Mpumalanga (DMRE) for review purposes. This report will also be made available to the public for a 30 days' review period. An electronic copy of the report will be published on the Greenmined Environmental website (www.greenmined.com). All registered I&AP's and stakeholders will be notified of the commenting period in advance as above.

The DBAR will then be updated to reflect the comments received during the public commenting period. Thereafter, the Final Basic Assessment Report (FBAR) will be submitted to DMRE for its consideration as part of the authorization process in terms of the NEMA, 2014 regulations (as amended 2017). A copy of the final report will be made available on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

A blue banner with white and yellow text and icons. It contains four icons: a person wearing a face mask, two people standing with a 2m distance between them, a hand being washed with soap, and a clock showing 20-40 seconds. The text reads: "Protect yourself and others from Covid-19: Follow these steps Take care, reduce your risk, remain vigilant at all times and stay safe". The Eskom logo is on the right. Below the banner are social media icons for Facebook, Twitter, Instagram, and YouTube, along with the website address www.eskom.co.za.

**CORRESPONDENCE RECEIVED FROM ME ANNEKE
CONRADIE FROM SASOL ON 30 MARCH 2021**

DMRE ref: MP 30/5/1/1/3/12554 MP

Reference is made to the legal notice placed in the Ridge Times of 2 April 2021 regarding the application by Inzalo Crushing and Aggregates (Pty) Ltd for a mining permit for stone aggregate over a portion of Portion 4 of the farm Brakfontein 310 IR.

It will be appreciated if Sasol Mining (Pty) Ltd be registered as an interested and affected party (IAP) with Paul Cronje, Head Mining Rights and Land (copied here) as the contact person with telephone number 017 614 8001?

Please note that Sasol Mining is the holder of a prospecting right for coal with DMRE reference numbers MP 30/5/1/1/2/5476 PR and 14762 PR (renewal) over various portions of the farms Brakfontein 310 IR and Goedehoop 308 IR, which include Portion 4 of Brakfontein 310 IR.

As Sasol Mining may conduct prospecting activities on Portion 4 where your mining activities are proposed, kindly indicate how you propose to manage the shared rehabilitation, access, damage compensation, etc? It will also be appreciated if you could provide us with a plan of the application area, as well as more details on the proposed mining activities, access roads, water use, rehabilitation, etc?

Thank you and kind regards
Anneke

2 APRIL 2021**

AfriForum and businesses complete projects in Bethal

Kerry Bird

BETHAL - It has been a busy week for AfriForum and businesses alike, seeing a total of eight projects completed in the fight to clean up Bethal.

These projects have seen the closing up of potholes in Buffel Street where 220 bags of tar were used.

An additional 300 bags of tar were used to close up potholes in Tsibitsa Sibanyoni Street and Malherbe Street.

AfriForum's Mr Hennie Bekker, who is the district coordinator for Lowveld District AfriForum, thanked All City Towing for their assistance in the closing up of potholes in these areas.

Other projects included the repairs and replacing of street name blocks.

This would not have been possible without the help from Bethal Foto Drukkers.

ATK Bakke, together with White House Paints, repainted stop signs and painted street lines in Malherbe Street.

Verges were cut at the local police station as well as along the N17. The area around the Nestlé bridge also saw verge cutting.

"I want to encourage residents and businesses to get involved in cleaning-up campaigns such as this. We need to take our town back from a failing Govan Mbeki Municipality," said Mr Bekker.

For more information or if you want to get involved with community projects in Bethal, contact Mr Bekker at 084 905 6415.

Or if you want to join your nearest AfriForum, SMS your name to 45350. SMS's cost R1.

Resident from Buffel Street Mr Riaan Smit, looks on to see how AfriForum's Mr Xolani Mnisi closes up potholes in the street. (Photo: Supplied)

Herkie Smit from Bethal lends a helping hand to close up potholes in Bethal. (Photo: Supplied)

NOTICE OF MINING PERMIT APPLICATION

Notice is hereby given in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) that Inzalo Crushing and Aggregates (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine stone aggregate from a portion of Portion 4 of the Remaining Extent of the farm Brakfontein No 310 IR magisterial district of Highveld Ridge Mpumalanga Province.
- a mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) to the Department of Mineral Resources with reference MP 30/5/1/1/3/12554 MP.

The proposed mining footprint will be 4.9 ha and will be developed over a disturbed area of the farm previously used for mining. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

The proposed project could trigger the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and will therefore require a basic assessment process to obtain environmental authorization:

• GNR 327 Listing Notice 1 of 2017 Activity 21:

Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –

- a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or
- b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.

but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.

• GNR 327 Listing Notice 1 of 2017 Activity 22:

The decommissioning of any activity requiring –

- a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or
- a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.

• GNR 327 Listing Notice 1 of 2017 Activity 27:

The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for –

- the undertaking of a linear activity; or
- maintenance purposes undertaken in accordance with a maintenance management plan.

• GNR 327 Listing Notice 1 of 2017 Activity 28:

Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:

- will occur outside an urban area, where the total land to be developed is bigger than 1 hectare; excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.

Interested and Affected Parties (I&AP's) are invited to provide written comments. I&AP's must provide their comments with their name and contact details to the environmental consultant indicated below by 4 May 2021. Should you require the documentation in another language or need additional information please contact Greenmined Environmental (Pty) Ltd.

A register of I&AP's that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&AP's will be entitled to comment on reports and plans to be submitted to the Department, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interest which the party may have in the approval or refusal of the application. The Draft Basic Assessment Report (DBAR) will be made available to the public for a 30 days review period. An electronic copy of the report will be published on the Greenmined Environmental website (www.greenmined.com). All registered I&AP's and stakeholders will be notified of the commenting period in advance as above.

The DBAR will then be updated to reflect the comments received during the public commenting period. Thereafter, the Final Basic Assessment Report (FBAR) will be submitted to DMR for its consideration as part of the authorization process in terms of the NEMA, 2014 regulations (as amended 2017). A copy of the FBAR will be made available on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

(Quote ref RCV028)

The following Vacancies available at our company:

Receptionist / Junior Litigation Secretary

- Legal experience will be an advantage

Candidate Attorney

- In final year of Articles will be an advantage

Kindly know only shortlisted candidates will be contacted for interview. Should you not hear from us within 14 working day your application was unsuccessful

The CV's can be e-mail to deeds.aktas@gmail.com or for more information contact 082 427 1267 / 063 775 0432.

HYDRA-ARC (PTY) LTD REQUIRES THE FOLLOWING TRADES FOR THE UPCOMING SASOL SECUNDA SHUTDOWN 2021

- Superintendents /EFT Leads, Supervisors, Charge Hands
- Boilermakers, Pipe Fabricators, Welders
- Safety Officers
- Document Controllers, Material Controllers, Clerks
- Drivers
- Grinders
- Labourers
- Storemen and Assistants

Minimum Requirements:

- Medically fit
- Pass internal competency tests
- Flexible to work shifts
- Petrochemical industry / Shutdown Experience
- The number of years' experience and other requirements/qualifications are dependent on job type.

Documentation Needed: with the advert reference number HA88 cited:

- Updated CV
- Proof of all referenced employment
- Copy of all qualifications and/or trade papers
- Proof of address

Jomele Training and Placements (Pty) Ltd is recruiting on behalf of Hydra-Arc (Pty) Ltd and the requested Documents must be e-mailed to: recruitment@jomele.co.za

Closing date: 30 April 2021

NOTE:

- Shortlisted candidates will be contacted to report for competency testing & interviews and completion of an application form.
- COVID Protocols will be followed before and during testing/interviewing any shortlisted candidate.
- Should you not hear from us within four (4) weeks of application, then your application has been unsuccessful.
- There is a Zero-Tolerance Policy regarding drugs and any candidate who tests positive for drugs shall not be considered for placement.

**ON-SITE NOTICES PLACED AT THE ENTRANCE TO
LEANDRA QUARRY ON 30 MARCH 2021**

NOTICE OF MINING PERMIT APPLICATION

Notice is hereby given in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) that Inzalo Crushing and Aggregates (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine stone / aggregate from a portion of Portion 4 of the Remaining Extent of the farm Brakfontein No 310 IR magisterial district of Highveld Ridge of Mpumalanga Province.
- a mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) to the Department of Mineral Resources with reference MP 30/5/1/1/3/12554 MP.

The proposed mining footprint will be 4.9 ha and will be developed over a disturbed area of the farm previously used for mining. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

The proposed project could trigger the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and will therefore require a basic assessment process to obtain environmental authorization:

- **GNR 327 Listing Notice 1 of 2017 Activity 21:**
Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –
 - a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or
 - b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing, but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.
- **GNR 327 Listing Notice 1 of 2017 Activity 22:**
The decommissioning of any activity requiring –
 - i) a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or
 - ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.but excluding the decommissioning of an activity relating to the secondary processing of a –
 - (a) mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource; or
 - (b) petroleum resource, including the refining of gas, beneficiation, oil or petroleum products; – in which case activity 31 in this Notice applies.

- **GNR 327 Listing Notice 1 of 2017 Activity 27:**

The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for—

- (i) the undertaking of a linear activity; or
- (ii) maintenance purposes undertaken in accordance with a maintenance management plan.

- **GNR 327 Listing Notice 1 of 2017 Activity 28:**

Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:

- (i) will occur inside an urban area, where the total land to be developed is bigger than 5 hectares; or
- (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare; excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.

Interested and Affected Parties (I&AP's) are invited to provide written comments. I&AP's must provide their comments with their name and contact details to the environmental consultant indicated below by no later than **4 May 2021**. Should you require the documentation in another language or need additional information please contact Greenmined Environmental.

A register of I&AP's that submitted written comments or requested to be registered will be opened. All organs of state having jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&AP's will be entitled to comment on reports and plans to be submitted to the Department, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interest which the party may have in the approval or refusal of the application. The registered I&AP's will, in writing, within 14 days of the date of the decision be notified of the outcome of the application including the reasons for the decision and the right to appeal. The contact consultant is Greenmined Environmental, Suite 62, Private Bag X15, Somerset West, 7129 or contact Sonette Smit at (084) 585 5706 or Tel (021) 851 2673, (Fax) (086) 546 0579, (email) sonette.s@greenmined.co.za.

NOTICE OF MINING PERMIT APPLICATION

Notice is hereby given in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) that Inzalo Crushing and Aggregates (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine stone / aggregate from a portion of Portion 4 of the Remaining Extent of the farm Brakfontein No 310 IR magisterial district of Highveld Ridge of Mpumalanga Province.
- a mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) to the Department of Mineral Resources with reference MP 30/5/1/1/3/12554 MP.

The proposed mining footprint will be 4.9 ha and will be developed over a disturbed area of the farm previously used for mining. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

The proposed project could trigger the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and will therefore require a basic assessment process to obtain environmental authorization:

- GNR 327 Listing Notice 1 of 2017 Activity 21:

Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –

- a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or*
- b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing. but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.*

- GNR 327 Listing Notice 1 of 2017 Activity 22:

The decommissioning of any activity requiring –

- i) a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or*

- ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.*

but excluding the decommissioning of an activity relating to the secondary processing of a –

- (a) mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource; or*

- (b) petroleum resource, including the refining of gas, beneficiation, oil or petroleum products; – in which case activity 31 in this Notice applies.*

**ON-SITE NOTICES PLACED AT GOVAN MBEKI
LOCAL MUNICIPALITY ON 30 MARCH 2021**

NOTICE OF MINING PERMIT APPLICATION

Notice is hereby given in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) that Inzalo Crushing and Aggregates (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine stone / aggregate from a portion of Portion 4 of the Remaining Extent of the farm Brakfontein No 310 IR magisterial district of Highveld Ridge of Mpumalanga Province.

NOTICE OF MINING PERMIT APPLICATION

Notice is hereby given in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) that Inzalo Crushing and Aggregates (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine stone / aggregate from a portion of Portion 4 of the Remaining Extent of the farm Brakfontein No 310 IR magisterial district of Highveld Ridge of Mpumalanga Province.
- a mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) to the Department of Mineral Resources with reference MP 30/5/1/1/3/12554 MP.

The proposed mining footprint will be 4.9 ha and will be developed over a disturbed area of the farm previously used for mining. The mining method will make use of blasting in order to loosen the hard rock; the material will then be loaded and hauled to the crushing plant where it will be screened to various sized stockpiles. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

The proposed project could trigger the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and will therefore require a basic assessment process to obtain environmental authorization:

- GNR 327 Listing Notice 1 of 2017 Activity 21:
Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002), including –
 - a) *associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or*
 - b) *the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.**but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.*
- GNR 327 Listing Notice 1 of 2017 Activity 22:
The decommissioning of any activity requiring –
 - i) *a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or*
 - ii) *a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.**but excluding the decommissioning of an activity relating to the secondary processing of a –*
 - (a) *mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource; or*
 - (b) *petroleum resource, including the refining of gas, beneficiation, oil or petroleum products; –*
in which case activity 31 in this Notice applies.

-END OF PUBLIC PARTICIPATION PROCESS-
