Dear Sir/Madam

LAND CLAIM ENQUIRY

**1. REMAINING EXTENT OF THE FARM MAKGANYENE NO 667,
KURUMAN MAGISTERIAL DISTRICT, NORTHERN CAPE PROVINCE**

We refer to your letter received: **08 July 2021**.

We confirm that as at the date of this letter no land Claims appear on our database in respect of the Properties. This includes the database for claims lodged by 31 December 1998; and those lodged between 1 July 2014 and 27 July 2016 in terms of the Restitution of Land Rights Amendment Act, 2014.

Whilst the Commission takes reasonable care to ensure the accuracy of the information it provides, there are various factors that are beyond the Commission's control, particularly relating to claims that have lodged but not yet been gazetted such as:

1. Some Claimants referred to properties they claim dispossession of rights in land against using historical property descriptions which may not match the current property description; and
2. Some Claimants provided the geographic descriptions of the land they claim without mentioning the particular actual property description they claim dispossession of rights in land against.

The Commission therefore does not accept any liability whatsoever if through the

process of further investigation of claims it is found that there is in fact a land claim in respect of the above property.

If you are aware of any change in the description of the above property after 19 June 1913 kindly supply us with such description so as to enable us to do a further search.

Yours faithfully

PPF

Final Comment

In terms of Section 38(4), 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Mr Lionel Koster
Bongani Minerals (Pty) Ltd

Makganyane Resources (Pty) Ltd (“the Applicant”) applied for a permit to mine iron ore from a 4.9 ha area over the Remaining Extent of the farm Makganyene No 667, Kuruman magisterial district, Northern Cape Province. The application received NC 30/5/1/3/2/10915 MP

Greenmined Environmental (Pty) Ltd has been appointed by Makganyane Resources (Pty) Ltd to conduct an Environmental Authorisation Application for proposed mining activities on the farm Makganyene No 667, Kuruman RD Magisterial District, Northern Cape Province (NC 30/5/1/3/2/10915 MP).

A draft Basic Assessment Report (DBAR) has been submitted in terms of the National Environmental Management Act, 1998 (NEMA) and the 2017 EIA Regulations for activities that trigger the Mineral and Petroleum Resources Development Act, 2002 (MPRDA)(As amended). The proposed mining activities include site establishment and infrastructure development, stripping and stockpiling of topsoil, blasting and excavation of the mining area, crushing and screening of material and stockpiling of the product for transport. The proposed mining footprint will be 4.9 ha.

Professor Marion Bamford and Beyond Heritage have been appointed to provide heritage specialist input into the EA process as per section 24(4)b(iii) of the NEMA and section 38(3) and section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA).

Bamford, M. 2021. Palaeontological Impact Assessment for the Mining Rights Application for Farm Makganyene 667, Kuruman District, Northern Cape Province.

The proposed development footprint is underlain by non-fossiliferous Makganyene Formation with overlying Quaternary Kalahari aeolian sands that may contain fossils in palaeo-pans and palaeo-springs. There is a very small chance of fossils being disturbed by the proposed development and a Fossil Chance Finds Protocol is recommended to be implemented.

A background surface scatter of Middle Stone Age lithics of low heritage significance was identified. Recommendations provided in the report include the need for a Chance Finds Procedure that must be implemented.

Final Comment

The following comments are made as a requirement in terms of section 38(8) of the NHRA in the format provided in section 38(4) of the NHRA and must be included in the Final BAR and EMPr:

- 38(4)b – The recommendations of the specialists are supported and must be adhered to. No further additional specific conditions are provided for the development;
- 38(4)c(i) – If any evidence of archaeological sites or remains (e.g. remnants of stone-made structures, indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments, charcoal and ash concentrations), fossils or other categories of heritage resources are found during the proposed development, SAHRA APM Unit (Natasha Higgitt/Phillip Hine 021 462 5402) must be alerted as per section 35(3) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule;
- 38(4)c(ii) – If unmarked human burials are uncovered, the SAHRA Burial Grounds and Graves (BGG) Unit (Thingahangwi Tshivhase/Mimi Seetelo 012 320 8490), must be alerted immediately as per section 36(6) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule;
- 38(4)d – See section 51(1) of the NHRA regarding offences;
- 38(4)e – The following conditions apply with regards to the appointment of specialists:
 - i) If heritage resources are uncovered during the course of the development, a professional archaeologist or palaeontologist, depending on the nature of the finds, must be contracted as soon as possible to inspect the heritage resource. If the newly discovered heritage resources prove to be of archaeological or palaeontological significance, a Phase 2 rescue operation may be required subject to permits issued by SAHRA;
- The Final BAR must be submitted to the SAHRIS application for record purposes;
- The decision regarding the EA application and MP application must be submitted to the SAHRIS application for record purposes.
