DRAFT SCOPING REPORT AND –SOCIAL AND LABOUR PLAN NOTICE

To whom it concerns

Dear Sir/Madam

25 October 2023

RE: NOTICE OF THE DRAFT SCOPING REPORT FOR AN APPLICATION IN TERMS OF SECTION 22 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), AND ENVIRONMENTAL AUTHORISATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) SUBMITTED BY MAKHANDA MINING (PTY) LTD. REFERENCE NUMBER: EC 30/5/1/2/2/10069 MR.

Notice in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Makhanda Mining (Pty) Ltd (“Applicant”) applied for:

- ❖ environmental authorization to mine ball clay, clay (general), gravel, kaolin, and aggregate from a portion of Portion 3 of the farm The Orchards No 233, Makana Magisterial District, Eastern Cape; and
- ❖ a mining right in terms of Section 22 of the MPRDA.

The proposed mining footprint will be 43.4688 ha. The Applicant will extract the said minerals using opencast methods. A bulldozer, loader and tipper trucks will be used to win the clay and transport it to the client. The Applicant will also sell the unwanted overburden removed from the clay mining area as aggregate. If needed, the aggregate will be processed at a mobile crushing and screening plant to reduce it to various sized stockpiles.

The proposed project triggers the following listed activity in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended) and therefore requires an EIA process:

- NEMA: GNR 517 Listing Notice 2 Activity 17 (as amended):

Any activity including the operation of that activity which requires a mining right in terms of section 22 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice, in Listing Notice 1 of 2014 or Listing Notice 3 of 2014, required to exercise the mining right.

The draft Scoping Report (DSR) and draft Social and Labour Plan (DSLPP) for the proposed mining of ball clay, clay (general), gravel, kaolin, and aggregate by Makhanda Mining (Pty) Ltd, is now available for your perusal. A copy of the documents can be obtained from Greenmined Environmental (Pty) Ltd upon request or retrieved from the company website at <https://www.greenmined.com/mining-rights/>.

the goal isn't to live forever, it is to protect a planet that will

BACKGROUND INFORMATION DOCUMENT

Should you be interested your comments are kindly requested on the DSR and/or DSLP. A thirty-day commenting period, ending on **24 November 2023**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

If we do not receive any comments from you before the end of the commenting period, it will be accepted that you do not have any additional objections/comments regarding the project. We trust that you find it in order and kindly await your comments on this report.

By taking part in this process, you hereby consent, in terms of the Protection of Personal Information Act 4 of 2013 ("POPIA"), to the lawful processing of your personal information by Greenmined Environmental (Pty) Ltd, which personal information may be used as part of documentation pertaining to the Environmental Authorisation and/or Mining Right application process. This is a public process and will become public information upon receipt thereof by the competent authority, which information will no longer be controlled by Greenmined Environmental (Pty) Ltd. Any interested and affected party should be provided with the information contained in this application, upon request, during any stage of the application and therefore your information may be made available to third parties. By providing your details and by taking part in this process you authorise such information to be shared for the purpose of this application.

Please contact Christine Fouché at 082 811 8514 (Cell) or 021 851 2673 (Tel), or christine.f@greenmined.co.za should you require any additional information.

Are there any other organisations or individuals that you feel should be invited to comment? If so, please provide their contact details:

Email: admin@greenmined.co.za

Dear Sir / Madam

Your letter has a reference

- **Portion 3 of the farm the Orchards No 233, Makana Magisterial District, Cacadu District Municipality of the Province of the Eastern Cape.**

This serves to confirm that there is no Land claim registered on the abovementioned property.

It must also be pointed out that some claims have been received for unspecified land and until such claims have been field visited it is not known to which portions of land it applies. Therefore the fact that a claim has not been registered specifically on the abovementioned properties at this stage does not preclude the fact that it might be included in the unspecified claims mentioned above.

While reasonable care has been taken in ensuring the accuracy in the compilation of this information, the office of the Commissioner cannot be held accountable for any claims that may be brought as a result of legal actions based on the information thus given.

Please feel free to contact us for any clarification that may be required.

Yours faithfully

MR. Z. MEMELA

CHIEF DIRECTOR: LAND RESTITUTION SUPPORT

For REGIONAL LAND CLAIMS COMMISSIONER: EASTERN CAPE

EXAMPLE OF SITE NOTICE

NOTICE OF MINING RIGHT APPLICATION

Notice in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Makhanda Mining (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine ball clay, clay (general), gravel, kaolin, and aggregate from a portion of Portion 3 of the farm The Orchards No 233, Makana Magisterial District, Eastern Cape; and
- a mining right in terms of Section 22 of the MPRDA.

The proposed mining footprint will be 43.4688 ha. The Applicant will extract the said minerals using opencast methods. A bulldozer, loader and tipper trucks will be used to win the clay and transport it to the client. The Applicant will also sell the unwanted overburden removed from the clay mining area as aggregate. If needed, the aggregate will be processed at a mobile crushing and screening plant to reduce it to various sized stockpiles.

The proposed project triggers the following listed activity in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended) and therefore requires an EIA process:

- *NEMA: GNR 517 Listing Notice 2 Activity 17 (as amended):*
Any activity including the operation of that activity which requires a mining right in terms of section 22 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice, in Listing Notice 1 of 2014 or Listing Notice 3 of 2014, required to exercise the mining right.

The Draft Scoping Report (DSR) and the Draft Social and Labour Plan (DSLPP), are available for public comment. Copies thereof can be obtained from Greenmined upon request or downloaded from <https://www.greenmined.com/mining-rights/>. Interested and Affected Parties (I&AP's) are invited to provide written comments. The closing date for submission of comments is 24 November 2023. Should additional information be required it can be obtained from Greenmined. Please use **EC 30/5/1/2/2/10069 MR** as reference when commenting.

By taking part in this process, you hereby consent, in terms of the Protection of Personal Information Act 4 of 2013 ("POPIA"), to the lawful processing of your personal information by Greenmined Environmental, which personal information may be used as part of documentation pertaining to the Environmental Authorisation and/or Mining Right application process. NOTICE OF MINING RIGHT APPLICATION

Notice in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Makhanda Mining (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine ball clay, clay (general), gravel, kaolin, and aggregate from a portion of Portion 3 of The Orchards No 233, Makana Magisterial District, Eastern Cape; and
- a mining right in terms of Section 22 of the MPRDA.

The proposed mining footprint will be 43.4688 ha. The Applicant will extract the said minerals using opencast methods. A bulldozer, loader and tipper trucks will be used to win the clay and transport it to the client. The Applicant will also sell the unwanted overburden removed from the clay mining area as aggregate. If needed, the aggregate will be processed at a mobile crushing and screening plant to reduce it to various sized stockpiles.

The proposed project triggers the following listed activity in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended) and therefore requires an EIA process:

- NEMA: GNR 517 Listing Notice 2 Activity 17 (as amended):** Any activity including the operation of that activity which requires a mining right in terms of section 22 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice, in Listing Notice 1 of 2014 or Listing Notice 3 of 2014, required to exercise the mining right.

The Draft Scoping Report (DSR) and Draft Social and Labour Plan (DLSLP) are available for public comment. Copies thereof can be obtained from Greenmined upon request or downloaded from <https://www.greenmined.com/mining-rights/>. Interested and Affected Parties (I&APs) are invited to provide written comments. The closing date for submission of comments is 24 November 2023. Should additional information be required it can be obtained from Greenmined. Please use EC 30/5/1/2/2/10069 MR as reference when commenting.

By taking part in this process, you hereby consent, in terms of the Protection of Personal Information Act 4 of 2013 ("POPIA"), to the lawful processing of your personal information by Greenmined, which personal information may be used as part of documentation pertaining to the Environmental Authorisation and/or Mining Right application process. By providing your details and by taking part in this process you authorise such information to be shared for the purpose of this application.

All Blacks look to send off 'legends' with World Cup win

Coles, set to retire, may deny Taukei'aho his maiden final in global showpiece

A slew of New Zealand greats will don the All Blacks jersey for the last time in the World Cup final against SA and the players left to carry on are determined they will bow out with the trophy, hooker Samisoni Taukei'aho said.

Locks Sam Whitelock and Brodie Retallick, scrumhalf Aaron Smith and hooker Dane Coles are set to retire from Test rugby after the decider, while playmaker Beauden Barrett will head to Japan and may not feature for the All Blacks again.

"There are a few legends of this team, it's their last week being All Blacks," Taukei'aho told New Zealand media in Paris.

"I'm sure for them it's all about what's best for the team this week.

"We'll be trying to send them off the way they deserve, which is with a victory."

Having signed a contract extension to play in New Zealand until 2027, 26-year-old Taukei'aho will continue on, likely to be a big part of Scott Robertson's plans

POWER GRIP: New Zealand's Samisoni Taukei'aho tackles Argentina's Nicolas Sanchez in their Rugby World Cup semifinal. Picture: REUTERS/GONZALO FUENTES

when the new coach succeeds All Blacks boss Ian Foster after France.

Taukei'aho's immediate focus will be on retaining his place in the All Blacks' match-day squad for Saturday's final in Paris.

Taukei'aho ran off the bench in the 44-6 defeat of Argentina in the semifinals, relieving starting hooker Codie Taylor.

Veteran Coles was picked in the reserves to back up Taylor in the tight quarterfinal win over Ireland. Coles, who already has a World Cup gold medal as part of the championship-winning All Blacks in 2015, could yet deny Taukei'aho a maiden World Cup final appearance. However, Taukei'aho had only kind words for the battle-scarred

36-year-old who took him under his wing when he made his first All Blacks squad and helped him make it at Test level.

"It was quite funny this week. At the start I was a bit emotional. I'm like, 'Ah, it's the last week with Granddad,'" he said.

"We'll leave the reflecting until afterwards.

"I'm sure we'll have a few quiet ones and talk about how much he developed me as a player ... but not just as a rugby player, but as a human being, too.

"He's a top man. Whoever gets the nod, we back 100% to get the job done and the job of the person not in the 23 is to prepare them the best they can.

"Nothing changes this week."

SANRAL
BUILDING SOUTH AFRICA THROUGH BETTER ROADS

TAUPELE CONSTRUCTION (PTY) LTD

SUB-CONTRACTS FOR THE RESEAL ON NATIONAL ROUTE N2 OF SECTION 16 FROM MOOIPLAAS (KM 49.9) TO KOMGA T-JUNCTION (KM 70.2)

TENDER NOTICE
CLOSING DATE: 29 NOVEMBER 2023 AT 10:00

Tau Pele Construction (Pty) Ltd invites tenders from experienced EME/QSE subcontractors / suppliers for Contract **SANRAL N.002-160-2018/1-01-SEC FOR THE RESEAL ON NATIONAL ROUTE N2 OF SECTION 16 FROM MOOIPLAAS (KM 49.9) TO KOMGA T-JUNCTION (KM 70.2)** endorsed by The South African National Roads Agency SOC Limited (SANRAL). This project is in the province of Eastern Cape and in the Great Kei Local Municipality and the Amathole District Municipality based on the target area for the packages.

Subcontractors are required for the following subcontracts:

- N.002-160-2018/1-01-SEC for Security on Site
- N.002-160-2018/1-02-DFS for Supply of Diesel Fuel to Site
- N.002-160-2018/1-03-TA for Accommodation of Traffic
- N.002-160-2018/1-04-PBRS for Performance Based Vehicle Restraint Systems:
- N.002-160-2018/1-05A-DR to 05B-DR for Drains
- N.002-160-2018/1-05C-DR to 05G-DR for Open Drains
- N.002-160-2018/1-06A-CKC to 06G-CKC for Concrete Kerbing and Channeling, Asphalt Berms, Chutes, Downpipes, Concrete, Stone Pitched and Gabbion Linings for
- N.002-160-2018/1-07-RUT for Rut and / or Depression Correction and Standard Crack Sealing for
- N.002-160-2018/1-08-ASPH for Supply and Haulage of Asphalt: New Construction
- N.002-160-2018/1-09-ASPH for Supply and Haulage of Asphalt: Rehabilitation

The approximate duration is:

Works Package	Duration (months)
N.002-160-2018/1-01-SEC	Seventeen (17)
N.002-160-2018/1-02-DFS	Six (6)
N.002-160-2018/1-03-TA	Six (6)
N.002-160-2018/1-04-PBRS	Four (4)
N.002-160-2018/1-05A-DR to 05B-DR	Two (2)
N.002-160-2018/1-05C-DR to 05G-DR	Two (2)
N.002-160-2018/1-06A-CKC to 06G-CKC	Two (2)
N.002-160-2018/1-07-RUT	One (1)
N.002-160-2018/1-08-ASPH	Two (2)
N.002-160-2018/1-09-ASPH	Two (2)

Only tenderers who are registered on the National Treasury Central Supplier Database at the closing date for tender submissions and who comply with the definition of a Targeted Enterprise under clause C.2.1.1 and are at least 51% Black owned and who is an EME or QSE or cooperative, are eligible to tender.

Only tenderers that meet all the eligibility criteria under clause C.2.1.1 of the Tender Data will be considered.

Only tenderers who meet the minimum functionality score as stated in clause C.3.11 will be evaluated further on price and preference.

It is estimated that tenderers should have a CIDB contractor grading designation as indicated in the table below:

Work Package	CIDB requirement
N.002-160-2018/1-01-SEC	Not Applicable
N.002-160-2018/1-02-DFS	Not Applicable
N.002-160-2018/1-03-TA	Not Applicable
N.002-160-2018/1-04-PBRS	4CE or 3CE PE
N.002-160-2018/1-05A-DR to 05B-DR	1CE
N.002-160-2018/1-05C-DR to 05G-DR	2CE or 1CE PE
N.002-160-2018/1-06A-CKC to 06G-CKC	2CE or 1CE PE
N.002-160-2018/1-07-RUT	1CE
N.002-160-2018/1-08-ASPH	Not Applicable
N.002-160-2018/1-09-ASPH	Not Applicable

The tenderers attention is drawn to clause C.3.11 of the Tender Data for each work package when submitting their tender. Tenderers registered as potentially emerging enterprises but with a CIDB contractor grading designation lower than a contractor grading designation determined in accordance with the sum tendered, or a value determined in accordance with Regulation 25(1B) or 25(7A) of the Construction Industry Development Regulations, will not be accepted. Only locally produced or locally manufactured products and components for construction will be considered. Preferences are offered to tenderers who comply with the criteria stated in the Tender Data.

SUBCONTRACT TENDER DOCUMENTS
Tender documents are available :- At no cost for collection in Hardcopy. The physical address for collection of tender documents is Tau Pele Construction Site Offices located behind Calteck Komga Fuel Station on the N2 (GPS 32°35'41.8"S 27°57'00.6"E), where documents may be collected during the hours 09h00 to 16h00 (Monday to Friday), from 31 October 2023.

TENDERERS' BRIEFING AND TRAINING
A compulsory tender clarification briefing and training session(s) with representatives of the Contractor and Engineer will take place at Great Kei Municipality Town Hall Main Office, Komga on 02 November 2023 from 10h00. Tenderers from tenderers who arrived late at the clarification briefing session will not be allowed, and their submissions shall be declared non-responsive.

A tenderer's representative cannot represent more than one tenderer at the clarification briefing session.

COMPLETION AND DELIVERY OF TENDERS
The closing time for receipt of tenders is 12:00 on 29 NOVEMBER 2023. Only tender offers submitted in Hardcopy and delivered to the address specified in the Tender Data will be accepted. Requirements for sealing, addressing, delivery, opening and assessment of tenders are stated in the Tender Data. Tenders may only be submitted in the format as stated in the Tender Data. Queries relating to issues arising from the tenderer's clarification briefing presentation / video or these documents may be addressed to the following:

Enquiries - Contact Person: Neliseka Ndenze, E-mail: n.ndenze@taupele.co.za PLEASE NOTE THAT NO LATE SUBMISSIONS WILL BE ACCEPTED!

England claim tournament first — no line breaks in World Cup semifinal

MITCH PHILLIPS

England coach Steve Borthwick's tactical kicking master plan and the accuracy with which his team carried it out came agonisingly close to beating SA in the World Cup semifinals but also produced some astonishing statistics.

England went into the game as the team that kicked away possession more than anyone and again they did it 93% of the time — matching their tournament record from their opening win against Argentina when they were down to 14 men for 77 minutes.

In the wet and windy conditions on Saturday, it appeared a sensible tactic, especially as they performed much better than the Springboks when on the receiving end and maintained their position as tournament leaders in number of kicks per match at 34.3.

With no intention of moving the ball wide, it is also not surprising that England had the slowest ruck speed of the tournament with an average of 6.73 seconds as they set themselves up for their

kick and chase. Their tournament average was also over five seconds — the slowest of the 20 teams.

England also became the first team at the tournament — in 42 matches — not to register a single line break in a match. Their lack of try-scoring ambition is shown by their making only four red zone entries on Saturday, compared to their average of 11.2.

That failure to score a try against SA is hardly new, however.

They did not manage one in the 2019 final nor in the 2007 final or pool match or in the 1999 quarterfinal — with all five games lost. Their only World Cup try against the Springboks came in the 2003 pool win.

The decisive stats, however, came in the scrum. The semifinal was the first time England had conceded a scrum penalty since their opening game.

They went on to concede four in total, all in the final quarter and two of which opened the way for the try-to-penalty goal that enabled SA to turn a 69th-minute 6-15 deficit into a 16-15 win. — Reuters

Postecoglou critical of table-topping Tottenham despite record start

MARTYN HERMAN

Tottenham Hotspur's Ange Postecoglou has enjoyed the best start by a new manager in the Premier League but the Australian said a slipshod second half during their 2-0 win over Fulham had tempered the satisfaction of going top of the table.

The home fans were in celebratory mood thanks to goals by Son Heung-min and James Maddison either side of the break.

But Spurs lost their hold on the game in the final half an hour as passes went astray and tackles were missed and they could have paid the price had London rivals Fulham been more ruthless with their finishing. Postecoglou's side have 23 points

from a possible 27 with seven wins and two draws, two clear of champions Manchester City and Arsenal.

He has a point more than Dutchman Guus Hiddink managed in February 2009 after his first nine games as Chelsea manager. But there is unlikely to be much crowing on the training ground with the straight-talking Postecoglou critical of the way his players ended the game against Fulham.

"With the ball, we were nowhere near the levels we have been all year.

"That's probably the worst sort of 45 minutes with the ball we've had."

"We've got to make sure we stay disciplined in our approach because in the end [Guglielmo Vicario] made a couple of great saves to keep a clean sheet." — Reuters

Wed 2023/10/25 11:15

Good day,

Notice in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Makhanda Mining (Pty) Ltd ("Applicant") applied for: environmental authorization to mine ball clay, clay (general), gravel, kaolin, and aggregate from a portion of Portion 3 of the farm The Orchards No 233, Makana Magisterial District, Eastern Cape; and a mining right in terms of Section 22 of the MPRDA.

The draft Scoping Report (DSR) and draft Social and Labour Plan (DSLSP) for the proposed mining of ball clay, clay (general), gravel, kaolin, and aggregate by Makhanda Mining (Pty) Ltd, is now available for your perusal. A copy of the documents can be obtained from Greenmined Environmental (Pty) Ltd upon request or retrieved from the company website at <https://www.greenmined.com/mining-rights/>.

Should you be interested your comments are kindly requested on the DSR and/or DSLSP. A thirty-day commenting period, ending on **24 November 2023**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments. Kindly use reference number EC 30/5/1/2/2/10069 MR.

Wed 2023/10/25 11:15

Good day,

Notice in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Makhanda Mining (Pty) Ltd ("Applicant") applied for: environmental authorization to mine ball clay, clay (general), gravel, kaolin, and aggregate from a portion of Portion 3 of the farm The Orchards No 233, Makana Magisterial District, Eastern Cape; and a mining right in terms of Section 22 of the MPRDA.

The draft Scoping Report (DSR) and draft Social and Labour Plan (DSLSP) for the proposed mining of ball clay, clay (general), gravel, kaolin, and aggregate by Makhanda Mining (Pty) Ltd, is now available for your perusal. A copy of the documents can be obtained from Greenmined Environmental (Pty) Ltd upon request or retrieved from the company website at <https://www.greenmined.com/mining-rights/>.

Should you be interested your comments are kindly requested on the DSR and/or DSLP. A thirty-day commenting period, ending on **24 November 2023**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments. Kindly use reference number EC 30/5/1/2/2/10069 MR.

Kind Regards/Vriendelike Groete

Wed 2023/10/25 11:15

Good day,

Notice in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Makhanda Mining (Pty) Ltd ("Applicant") applied for: environmental authorization to mine ball clay, clay (general), gravel, kaolin, and aggregate from a portion of Portion 3 of the farm The Orchards No 233, Makana Magisterial District, Eastern Cape; and a mining right in terms of Section 22 of the MPRDA.

The draft Scoping Report (DSR) and draft Social and Labour Plan (DSLPL) for the proposed mining of ball clay, clay (general), gravel, kaolin, and aggregate by Makhanda Mining (Pty) Ltd, is now available for your perusal. A copy of the documents can be obtained from Greenmined Environmental (Pty) Ltd upon request or retrieved from the company website at <https://www.greenmined.com/mining-rights/>.

Should you be interested your comments are kindly requested on the DSR and/or DSLP. A thirty-day commenting period, ending on **24 November 2023**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments. Kindly use reference number EC 30/5/1/2/2/10069 MR.

Kind Regards/Vriendelike Groete

De Beers Avenue
SOMERSET WEST
7130

Dear Sir/Madam

RE: DRAFT SCOPING REPORT (DSR) FOR THE PROPOSED MINING OF BALL CLAY, CLAY (GENERAL), GRAVEL, KAOLIN, AND AGGREGATE FROM A PORTION OF PORTION 3 OF THE ORCHARDS FARM NO 233, MAKANA MAGISTERIAL DISTRICT, EASTERN CAPE.

Reference is made to the above-mentioned document received. The Department of Water and Sanitation: Water Use Authorisation Directorate has the following comments with regards to the proposed development in terms of Section 21(c) and (i) i.e., ***“impeding or diverting the flow of water in a watercourse”*** and ***“altering the bed, banks, course or characteristics of a watercourse”*** respectively under the provisions of the National Water Act, 1998 (Act No. 36 of 1998), hereinafter referred to as the NWA.

1. Water Uses and Water Use Authorisations

- ❖ The project proposal entails the mining of ±43.5 ha over Portion 3 of the farm The Orchards No 233. The Applicant intends to extract the clay from the mining area using opencast methods. A bulldozer, loader and tipper trucks will be used to obtain the clay and transport it to the Makana Brick Factory where it will be delivered to the factory and stockpiled until used for clay bricks. If needed, the aggregate will be processed at a mobile crushing and screening plant to reduce it to various sized stockpiles.
- ❖ The proposed project will include the introduction of mining equipment onsite, stripping and stockpiling of topsoil and overburden, excavation of the mining area, screening and processing of aggregates, stockpile of mined minerals until it is transported to Makana Brick, and slope, landscape and rehabilitation of the affected areas upon closure of the mine.
- ❖ Figure 9 on page 53 of the submitted draft scoping report indicates that there is the Botha River near the mine boundary. The applicant must note that should the any of proposed activities occur within the **regulated area i.e., the outer edge of the 1:100 year floodline, delineated riparian habitat or within 100m from the edge of a watercourse where the**

edge of the watercourse is the first identifiable annual bank fill flood bench (whichever is the greatest), the applicant will therefore be required to apply for a water use authorisation in terms of Section 21(c) and (i) with this Department, under the provisions of the National Water Act, 1998 (Act No. 36 of 1998), hereinafter referred to as the NWA.

- ❖ Figure 9 on page 53 of the submitted report indicates that the study area falls within a NFEPA in terms of wetlands and/or rivers. If there are wetlands at the proposed location, the applicant will require authorisation from this Department for **any activity within a wetland or a 500m radius from the delineated boundary (outer temporary zone) of a wetland or pan.**
- ❖ **Flood line determination:** The applicant must note that no activities should occur within a 1:100-year flood line, unless authorised by this department.
- ❖ The Applicant shall conduct a preliminary legal assessment to identify **all** the water use activities associated with the proposed project that will require authorisation by the Department of Water and Sanitation (DWS) and the applicant is hereby referred to Section 22(1) of the National Water Act, 1998 (Act 36 of 1998).
- ❖ Water use authorisation enquiry can be lodged through e-WULAAS online system for further processing.
- ❖ The river, stream and associated **buffers** must be treated as **no-go sensitive environment areas:** caution must be exercised near the watercourses.
- ❖ Applicant should **identify alternatives** with the aim of protecting water resource.
- ❖ **Please note that no person may use water unless permitted under the NWA.** Should the applicant engage in any water use activity without the necessary water use authorisation, it will be regarded as an unlawful water use. The Applicant will thus be **guilty** of an offence and liable for a fine or imprisonment as stipulated in Section 151 of the NWA.

2. Solid Waste Management

- ❖ Page 22 of the draft scoping report indicated that the general waste generated during the operational phase of the project will be removed from the site to a recognised waste handling facility, while the hazardous waste will be collected from the site by a registered hazardous waste handling contractor. The Applicant must note that should private contractors be used; all solid waste must be disposed of at a permitted landfill site and proof of this must be made available to this Department when required.
- ❖ The requirements of this Department with respect to solid waste must be strictly enforced and complied with.
- ❖ The Applicant should note that contaminated soil or other hazardous material must be

disposed of at a permitted hazardous landfill site that is authorized to accept the said material and proof of this must be made available to this Department when required.

- ❖ The recycling of suitable material is encouraged by this Department, provided it is properly managed.

3. Sewage and Wastewater Management

- ❖ Page 22 of the draft scoping report indicated that an ablutions hut will be placed at the mine that can be used by the employees and will be serviced weekly by a registered sewerage handling contractor. The Applicant must note that the use of any temporary, chemical toilet facilities must not cause any pollution to a water resource or pose a health hazard. In addition, these toilets must not be situated within 100m from a watercourse or within the 1:100-year flood line (whichever is the greatest). Furthermore, no form of secondary pollution should arise from the disposal of refuse or sewage from the temporary, chemical toilets. Any pollution problems arising from the above are to be addressed immediately by the Applicant.
- ❖ Washing, refuelling, maintaining of vehicles or the transfer of hazardous substances must be conducted within a bunded area. All drainage arising from the bunded area must be treated as a water containing waste and disposed of safely.
- ❖ The following is applicable should small volumes of wastewater be generated during the site establishment and operational phase:
 - Water containing waste must not be discharged into the natural environment,
 - Measures to contain the water containing waste and safely dispose thereof must be implemented.

4. Stormwater Management

- ❖ It is imperative that there is proper management of storm water at the project site. This Department requests a Stormwater Management Plan.
- ❖ The Engineer or Contractor must ensure that only clean Stormwater runoff enters the environment.
- ❖ Drainage must be controlled to ensure that runoff from the project area does not culminate in off-site pollution, flooding or result in any damage to properties downstream of any Stormwater discharge point(s).

5. Erosion Control

- ❖ Erosion control measures must be put in place to minimise erosion along the proposed mining areas. Extra precautions must be taken in areas where the soils are deemed highly erodible.
- ❖ Soil erosion onsite must be prevented at all times, i.e., pre-, during- and post-operational

RE: DRAFT SCOPING REPORT (DSR) FOR THE PROPOSED MINING OF BALL CLAY, CLAY (GENERAL), GRAVEL, KAOLIN, AND AGGREGATE FROM A PORTION OF PORTION 3 OF THE ORCHARDS FARM NO 233, MAKANA MAGISTERIAL DISTRICT, EASTERN CAPE.

activities. Erosion control measures must be implemented in areas prone to erosion such as near water supply points, edges of slopes, etc. These measures could include the use of sandbags, hessian sheets, bidim, retention or replacement of vegetation.

- ❖ Where the land has been disturbed during site establishment or operational phase/excavation it must be re- habilitated and re-vegetated back to an acceptable state after such activities have been done.
- ❖ The applicant must ensure that land clearing is minimised in areas with a bigger slope to limit the amount of runoff from the site to prevent erosion. If and where possible, rehabilitation of disturbed areas should be done concurrently with the mining activities to avoid erosion of bare soil. It is recommended that the land clearing be done during dry seasons to avoid water runoff into the watercourse thus affecting the water quality.
- ❖ The Applicant must note that stockpiling of soil or any other materials during the operational phase must not be allowed on or near steep slopes, near a watercourse or water body. This is to prevent pollution or the impediment of surface run-off. The Applicant must control and establish suitable mitigation measures to prevent the erosion of stockpiles.

6. Spillages Management

- ❖ There must be no unacceptable impact on the quality of both surface and groundwater in the area. If pollution of any surface or groundwater occurs, it must be immediately reported to this Department and the appropriate mitigation measures must be employed. In addition, should the proposed development impact on any groundwater and/or surface water users, then water of equal quality and quantity must be provided to the affected users.
- ❖ The Applicant must note that storage of material, chemicals, fuels etc. must not pose a risk to the surrounding environment, and this includes surface and groundwater. Temporary bunds must also be constructed around chemical or fuel storage areas to contain possible spillages.
- ❖ Such storage areas must be located outside the 1:100-year flood-line of the water source and must be fenced to prevent unauthorized access into the area.
- ❖ It is important that any significant spillage of chemicals, fuels, etc. during the construction phase and/or operational phase is reported to this Office and other relevant authorities. In the event of a spill, the following steps can be taken:
 - Stop the source of the spill,
 - Contain the spill,
 - All significant spills must be reported to this Department and other relevant authorities,
 - Remove the spilled product for treatment and authorised disposal,
 - Determine if there is any soil, groundwater, or other environmental impact,

- If necessary, remedial action must be taken in consultation with this Department,
- Incident must be documented.

7. General

- ❖ This Office reserves the right to inspect the site without prior notice in order to ensure that its requirements, as mentioned above, are adhered to. Should any problems be noted, measures must be undertaken immediately to rectify the situation.
- ❖ This Department reserves the right to revise/withdraw these comments and request further information from the applicant should any other information that contradicts the above comes to light.
- ❖ Notwithstanding the above, the responsibility rests with the Applicant to identify all sources or potential sources of pollution from his undertaking and to take appropriate measures to prevent any pollution of the environment. Failure to comply with the requirements of the NWA could lead to legal action being instituted against the Applicant.

Should you have concerns and queries in relation to these comments, please do contact this office. For technical assistance, please call Ms. Z Nyamende at 043 701 0328.

Yours faithfully,

ASSISTANT DIRECTOR: WATER USE AUTHORISATIONS

Subject: RE: COMMENTS FOR MAKHANDA MINING EC 30/5/1/2/2/10069 MR NOTICE OF MINING RIGHT APPLICATION

Good day,

Thank you for taking part in the public participation process of the mining right applied for by Makhanda Mining (Pty) Ltd with reference number EC 30/5/1/2/2/10069 MR. Greenmined Environmental (Pty) Ltd, the environmental assessment practitioner for this project, herewith acknowledges receipt of your comments dated 05 December 2023.

Please note that the commenting period on the draft Scoping Report ended 24 November 2023 as the final Scoping Report had to be submitted to the DMRE by 29 November 2023. However, we do take note of your recommendations, and will forward it to the Department of Mineral Resources and Energy (DMRE). The comments will further be assessed, incorporated and responded to in the draft Environmental Impact Assessment Report, upon approval of the Scoping Report by the DMRE.

We trust you will find this in order. Please do not hesitate to contact us in the event of any uncertainties.

Kind Regards/Vriendelike Groete

Good day,

Notice in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Makhanda Mining (Pty) Ltd ("Applicant") applied for: environmental authorization to mine ball clay, clay (general), gravel, kaolin, and aggregate from a portion of Portion 3 of the farm The Orchards No 233, Makana Magisterial District, Eastern Cape; and a mining right in terms of Section 22 of the MPRDA.

The draft Scoping Report (DSR) and draft Social and Labour Plan (DSLPL) for the proposed mining of ball clay, clay (general), gravel, kaolin, and aggregate by Makhanda Mining (Pty) Ltd, is now available for your perusal. A copy of the documents can be obtained from Greenmined Environmental (Pty) Ltd upon request or retrieved from the company website at <https://www.greenmined.com/mining-rights/>.

Should you be interested your comments are kindly requested on the DSR and/or DSLP. A thirty-day commenting period, ending on **24 November 2023**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments. Kindly use reference number EC 30/5/1/2/2/10069 MR.

Kind Regards/Vriendelike Groete

If yes (1), what is the declaration status of the site / resource?	Grade I			Grade II / III		
Name of the declared heritage resource / National Monument						
SAHRA Identifier						

BASIC DEVELOPMENT DESCRIPTION:

BACKGROUND INFORMATION

Grahamstown Brick (Pty) Ltd t/a Makana Brick (hereafter referred to as Makana Brick) held a mining permit with reference number EC 30/5/1/3/2/10397 MP over 4.95 ha of Portion 3 of the farm The Orchards No 233 in the Makhanda area. The mining permit allowed the mining of Ball Clay, Clay (General), Gravel and Kaolin from the approved area. This permit expired on 22 July 2023 and can no longer be renewed as the first, second and third renewals were already granted.

PROJECT PROPOSAL:

The Applicant applied for environmental authorisation, and a mining right to win ball clay, clay (general), gravel, kaolin, and aggregate from the above mentioned property. The following table lists the GPS coordinates of the proposed mining area.

Table 1: GPS Coordinates of the proposed mining footprint.

NUMBER	DEGREES, MINUTES, SECONDS		DECIMAL DEGREES	
	LAT (S)	LONG (E)	LAT (S)	LONG (E)
A	33°15'51.67"	26°36'49.99"	-33.264353°	26.613886°
B	33°15'51.30"	26°36'57.95"	-33.264250°	26.616097°
C	33°15'53.55"	26°37'05.77"	-33.264875°	26.618269°
D	33°15'52.36"	26°37'11.89"	-33.264544°	26.619969°
E	33°15'50.94"	26°37'17.94"	-33.264150°	26.621650°
F	33°15'55.99"	26°37'24.40"	-33.265553°	26.623444°
G	33°15'59.15"	26°37'32.99"	-33.266431°	26.625831°
H	33°16'02.99"	26°37'40.21"	-33.267497°	26.627836°
J	33°16'05.79"	26°37'39.89"	-33.268275°	26.627747°
K	33°16'05.83"	26°37'03.56"	-33.268286°	26.617656°
L	33°16'00.72"	26°36'48.26"	-33.266867°	26.613406°

The satellite image below shows the location of the proposed mining area in relation to the surrounding landscape.

Figure 1: Satellite view showing the location of the proposed mining area (green polygon) in relation to the surrounding landscape where the yellow polygon indicates the Makana Brick mining permit area, and the blue lines show the boundary of Portion 3 of The Orchards No 233. (Image obtained from Google Earth)

Should the relevant authorisations be granted, and the proposed mining be allowed, the project will comprise of activities that can be divided into three key phases (discussed in more detail below) namely the:

- (1) *Site establishment/construction phase* which will involve the demarcation of the site boundaries. Site establishment will further necessitate the clearing of vegetation, stripping and stockpiling of topsoil, and establishment of the ablutions hut.
- (2) *Operational phase* that will entail opencast mining. The clay will be excavated and loaded onto trucks that will transport it to the Makana Brick Factory (off-site) where it will be used to manufacture clay bricks. Unwanted overburden will be sold as aggregate. Minor processing/screening may be needed to reduce the aggregate to various sized stockpiles.
- (3) *Decommissioning phase* which will involve the rehabilitation, sloping and rehabilitation of all affected areas, the replacement of topsoil, and the removal of all infrastructure no longer needed by the landowners. The right holder will further be responsible for the seeding of all rehabilitated areas. Once the full mining area is rehabilitated, the mining right holder will be required to submit a closure application to the Department of Mineral Resources and Energy in accordance with section 43(4) of the MPRDA, 2002. The Closure Application will be submitted in terms of Regulation 62 of the MPRDA, 2002, and Government Notice 940 of NEMA, 1998.

The draft scoping report for this project is currently available for public comments. A copy of this document can be obtained from the Greenmined Environmental website at

<https://www.greenmined.com/mining-rights/> under Makhanda Mining (Pty) Ltd EC 30/5/1/2/2/10069 MR, alternatively it can be supplied upon request by Greenmined.

SAHRIS CaseID:

NHRA 1999 – Section 38(2) and 38(3) – Heritage Resources Management

- (1) The responsible heritage resources authority must, within 14 days of receipt of a notification in terms of subsection (1) –
 - (a) If there is reason to believe that heritage resources will be affected by such development, notify the person who intends to undertake the development to submit an impact assessment report. Such report must be compiled at the cost of the person proposing the development, by a person or persons approved by the responsible heritage resources authority with relevant qualifications and experience and professional standing in heritage resources management; or
 - (b) Notify the person concerned that this section does not apply.
- (2) The responsible heritage resources authority must specify the information to be provided in a report required in terms of subsection (2)(a): Provided that the following must be included:
 - (a) The identification and mapping of all heritage in the area affected;
 - (b) An assessment of the significance of such resources in terms of the heritage assessment criteria set out in section 6(2) or prescribed under section 7;
 - (c) An assessment of the impact of the development on such heritage resources;
 - (d) An evaluation of the impact of the development on heritage resources relative to the sustainable social and economic benefits to be derived from the development;
 - (e) The results of consultation with communities affected by the proposed development and other interested parties regarding the impact of the development on heritage resources;
 - (f) If heritage resources will be adversely affected by the proposed development, the consideration of alternatives; and
 - (g) Plans for mitigation of any adverse effects during and after the completion of the proposed development.

BACKGROUND

Makhanda Mining (Pty) Ltd, applied for environmental and mining authorisation to mine ball clay, clay (general), gravel, kaolin, and aggregate from 43.4688 ha of Portion 3 of the farm The Orchards No 233 within the Albany District of the Eastern Cape Province. The Applicant intends to extract the clay from the mining area using opencast methods. A bulldozer, loader and tipper trucks will be used to win the clay and transport it to the Makana Brick Factory where it will be delivered to the factory and stockpiled until used for clay bricks. The Applicant also intends to sell the unwanted overburden removed from the clay mining area as aggregate. If needed, the aggregate will be processed at a mobile crushing and screening plant to reduce it to various sized stockpiles, from where it will be transported to clients via trucks and trailers. All activities will be contained within the approved boundaries of the site.

ECPHRA (Eastern Cape Provincial Heritage Authority) FINAL COMMENTS in terms of **Section 38(4/8) of the National Heritage Resources Act (25 of 1999).**

This matter was tabled at the Archaeology, Palaeontology and Meteorites (APM) Committee meeting held on 16 November 2023.

The proposed development may proceed as proposed, provided that the recommendations by the heritage specialists are adhered to including the *chance finds protocol*.

NB: ECPHRA further requests:

- Monitoring reports for this development and
- Details of the specialist to conduct training for the ECO.

A handwritten signature in black ink, appearing to read 'Mkosana', with a horizontal line extending from the end.

Mr. Azola Mkosana
ECPHRA: Manager

DSR Notice & BID - Orchards.pdf
237 KB

Wed 2023/10/25 11:29

Good day,

Notice in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Makhanda Mining (Pty) Ltd ("Applicant") applied for: environmental authorization to mine ball clay, clay (general), gravel, kaolin, and aggregate from a portion of Portion 3 of the farm The Orchards No 233, Makana Magisterial District, Eastern Cape; and a mining right in terms of Section 22 of the MPRDA.

The draft Scoping Report (DSR) and draft Social and Labour Plan (DSLSP) for the proposed mining of ball clay, clay (general), gravel, kaolin, and aggregate by Makhanda Mining (Pty) Ltd, is now available for your perusal. A copy of the documents can be obtained from Greenmined Environmental (Pty) Ltd upon request or retrieved from the company website at <https://www.greenmined.com/mining-rights/>.

Should you be interested your comments are kindly requested on the DSR and/or DSLSP. A thirty-day commenting period, ending on **24 November 2023**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments. Kindly use reference number EC 30/5/1/2/2/10069 MR.
