Dear Sir / Madam

Your letter has a reference

- **Portion 3 of the farm the Orchards No 233, Makana Magisterial District, Cacadu District Municipality of the Province of the Eastern Cape.**

This serves to confirm that there is no Land claim registered on the abovementioned property.

It must also be pointed out that some claims have been received for unspecified land and until such claims have been field visited it is not known to which portions of land it applies. Therefore the fact that a claim has not been registered specifically on the abovementioned properties at this stage does not preclude the fact that it might be included in the unspecified claims mentioned above.

While reasonable care has been taken in ensuring the accuracy in the compilation of this information, the office of the Commissioner cannot be held accountable for any claims that may be brought as a result of legal actions based on the information thus given.

Please feel free to contact us for any clarification that may be required.

Yours faithfully

BASIC DEVELOPMENT DESCRIPTION:

BACKGROUND INFORMATION

Grahamstown Brick (Pty) Ltd t/a Makana Brick (hereafter referred to as Makana Brick) held a mining permit with reference number EC 30/5/1/3/2/10397 MP over 4.95 ha of Portion 3 of the farm The Orchards No 233 in the Makhanda area. The mining permit allowed the mining of Ball Clay, Clay (General), Gravel and Kaolin from the approved area. This permit expired on 22 July 2023 and can no longer be renewed as the first, second and third renewals were already granted.

PROJECT PROPOSAL:

The Applicant applied for environmental authorisation, and a mining right to win ball clay, clay (general), gravel, kaolin, and aggregate from the above mentioned property. The following table lists the GPS coordinates of the proposed mining area.

(Image obtained from Google Earth)

Should the relevant authorisations be granted, and the proposed mining be allowed, the project will comprise of activities that can be divided into three key phases (discussed in more detail below) namely the:

- (1) *Site establishment/construction phase* which will involve the demarcation of the site boundaries. Site establishment will further necessitate the clearing of vegetation, stripping and stockpiling of topsoil, and establishment of the ablutions hut.
- (2) *Operational phase* that will entail opencast mining. The clay will be excavated and loaded onto trucks that will transport it to the Makana Brick Factory (off-site) where it will be used to manufacture clay bricks. Unwanted overburden will be sold as aggregate. Minor processing/screening may be needed to reduce the aggregate to various sized stockpiles.
- (3) *Decommissioning phase* which will involve the rehabilitation, sloping and rehabilitation of all affected areas, the replacement of topsoil, and the removal of all infrastructure no longer needed by the landowners. The right holder will further be responsible for the seeding of all rehabilitated areas. Once the full mining area is rehabilitated, the mining right holder will be required to submit a closure application to the Department of Mineral Resources and Energy in accordance with section 43(4) of the MPRDA, 2002. The Closure Application will be submitted in terms of Regulation 62 of the MPRDA, 2002, and Government Notice 940 of NEMA, 1998.
