APPENDIX E18.3.2
MINUTES FOR PUBLIC MEETING 1 - 24 APRIL 2021

PUBLIC PARTICIPATION MEETING
LINDEQUESDRIFT INFORMAL SETTLEMENT

24 APRIL 2021 – 11H00

Mark – Mark van Wyk

Mader – Mader van den Berg

Rob – Robert Schimpers

Bob – Bob hartsliet

Public

All English comments translated to **Sotho**

Mader my Sotho is bad if they are any questions please raise your hand

 If you have a mask please put it on

 Thank you for coming

 My name is Mader I am a consultant appointed by MCCP who is applying for a mining right, not the one mining right now

 We are here to present to the community as they are I&APs

 I want to make sure you understand that this is part of the process and the mining rights has not been approved yet, it still has to be submitted to the Department

 For the last two years MCCP has been doing studies to be submitted to the Department of Mining

 Part of the assessment is to let the community know what is being planned

 This is a whole process that has been going on for 2 years, the document is being submitted on Monday and this is part of that process to let you know what that process is about

 After everything is submitted to the Department, they will consider it for 107 days and then either approve or not approve

 We are showing where the property is, its owned by Goosebay, we are standing here, we are looking across the river to the property there

 Currently no mining on the farm, currently for game and sheep cattle farm

 Just a photo showing what it is

 This is Mr Robert Schimpers he is the farm manager at Goosebay farm

Public [INAUDIBLE COMMENT]

Mader we aren't mining yet, only once we have the right will there be an opportunity for jobs for the community

[INAUDIBLE COMMENT]

Public if that mine is approved, what are the negative effects of that mine in terms of health

Mader good question

For two years this process has been going on and there have been a number of tests on noise dust air quality

So the results show that in some parts of the year

Public [INAUDIBLE COMMENT]

What are you going to bring back to the community

Mader we are moving along quickly here

When the mine starts, they are mining for sand and then the aggregate

During that time they must implement mitigating measures to minimise the negative stuff

Can I very briefly go through this – there is sand mining, aggregate mining and at a later stage diamond mining in yellow and green

Public [INAUDIBLE COMMENT]

Rob there wont be any blasting ever

There will just be dozers

Mader so you understand there will also be a processing plant

On the plan it will be

[INAUDIBLE COMMENT]

The neighbouring properties are mining already, but its not part of this application

So for 30 years the mine will progress – reason for 30 year is for smaller areas and for what

[INAUDIBLE COMMENT]

Mader also for 30 year period will be opportunity for skilled and unskilled jobs

Public what is the benefit to the community – how many schools will be built

Why have you not engaged with communities

[INAUDIBLE COMMENT]

Public why didn't you make us part of Zoom meeting in the week

Rob we put up notices but nobody replied, nobody registered

We were told that people in the communities didn't have networks or phones or computers, so we arranged this meeting

Mader different people could make different meeting times

It's the same meetings, but just at different times

[INAUDIBLE COMMENT]

Mader just to explain, there are different times to accommodate different people, we are doing this meeting to accommodate you

[INAUDIBLE COMMENT AND SHOUTING]

Rob Lets continue please

All of this is being recorded, its going to the Department

After the presentation we will give you a chance to raise your voice, so that it be recorded

We are just here to tell you that we have applied, we are not bribing you with anything, we are informing you of the application

Public [INAUDIBLE COMMENT]

Rob we will not hire people from Joburg, we will hire people from here that will be effected

There have been studies to determine the health impacts

Public [INAUDIBLE COMMENT]

Rob we can come and sit with you and determined

Public you didn't tell us that you were recording

Rob im sorry

Mader we are here today to inform you,

..... [PORTION OF MEETING MISSED]

Mader so that process will happen you take the soil put it there sow the grass seeds so that the grass can come up it prevents the dust and the animals can come and feed

Mader [INAUDIBLE COMMENT] year by year

I need to explain one other thing

Goosebay farm is the landowner

Company doing mining right application is MCCP

[INAUDIBLE COMMENT]

JOEL / JEWEL [INAUDIBLE COMMENT]

We want to know who is that person

PUBLIC

Mader I was explaining that there are two different companies

Mineral rights belong to state

Public were we part of that plan back in 2008

[INAUDIBLE COMMENTS]

Mader this is a pie chart showing the land use

And these are the various uses – cabins, games, farming, mining (over 30 years)

Robert used to mine in terms of mining permit, they have now rehabilitated

This shows the roads

Public we are tired, there is no water

Bob Hartsliel this is not a democracy – if everybody in the communities opposes the mine, it can still get a right to mine

We have spoken to a number of government officials and not one official has come to a meeting MEC NEC Mayor etc

No politicians have come

Public were the war councillors contacted

Sonette yes, the three councillors of the areas surrounding the ward were contacted

we contacted Elliot Mtsele who is the councillor for ward 25

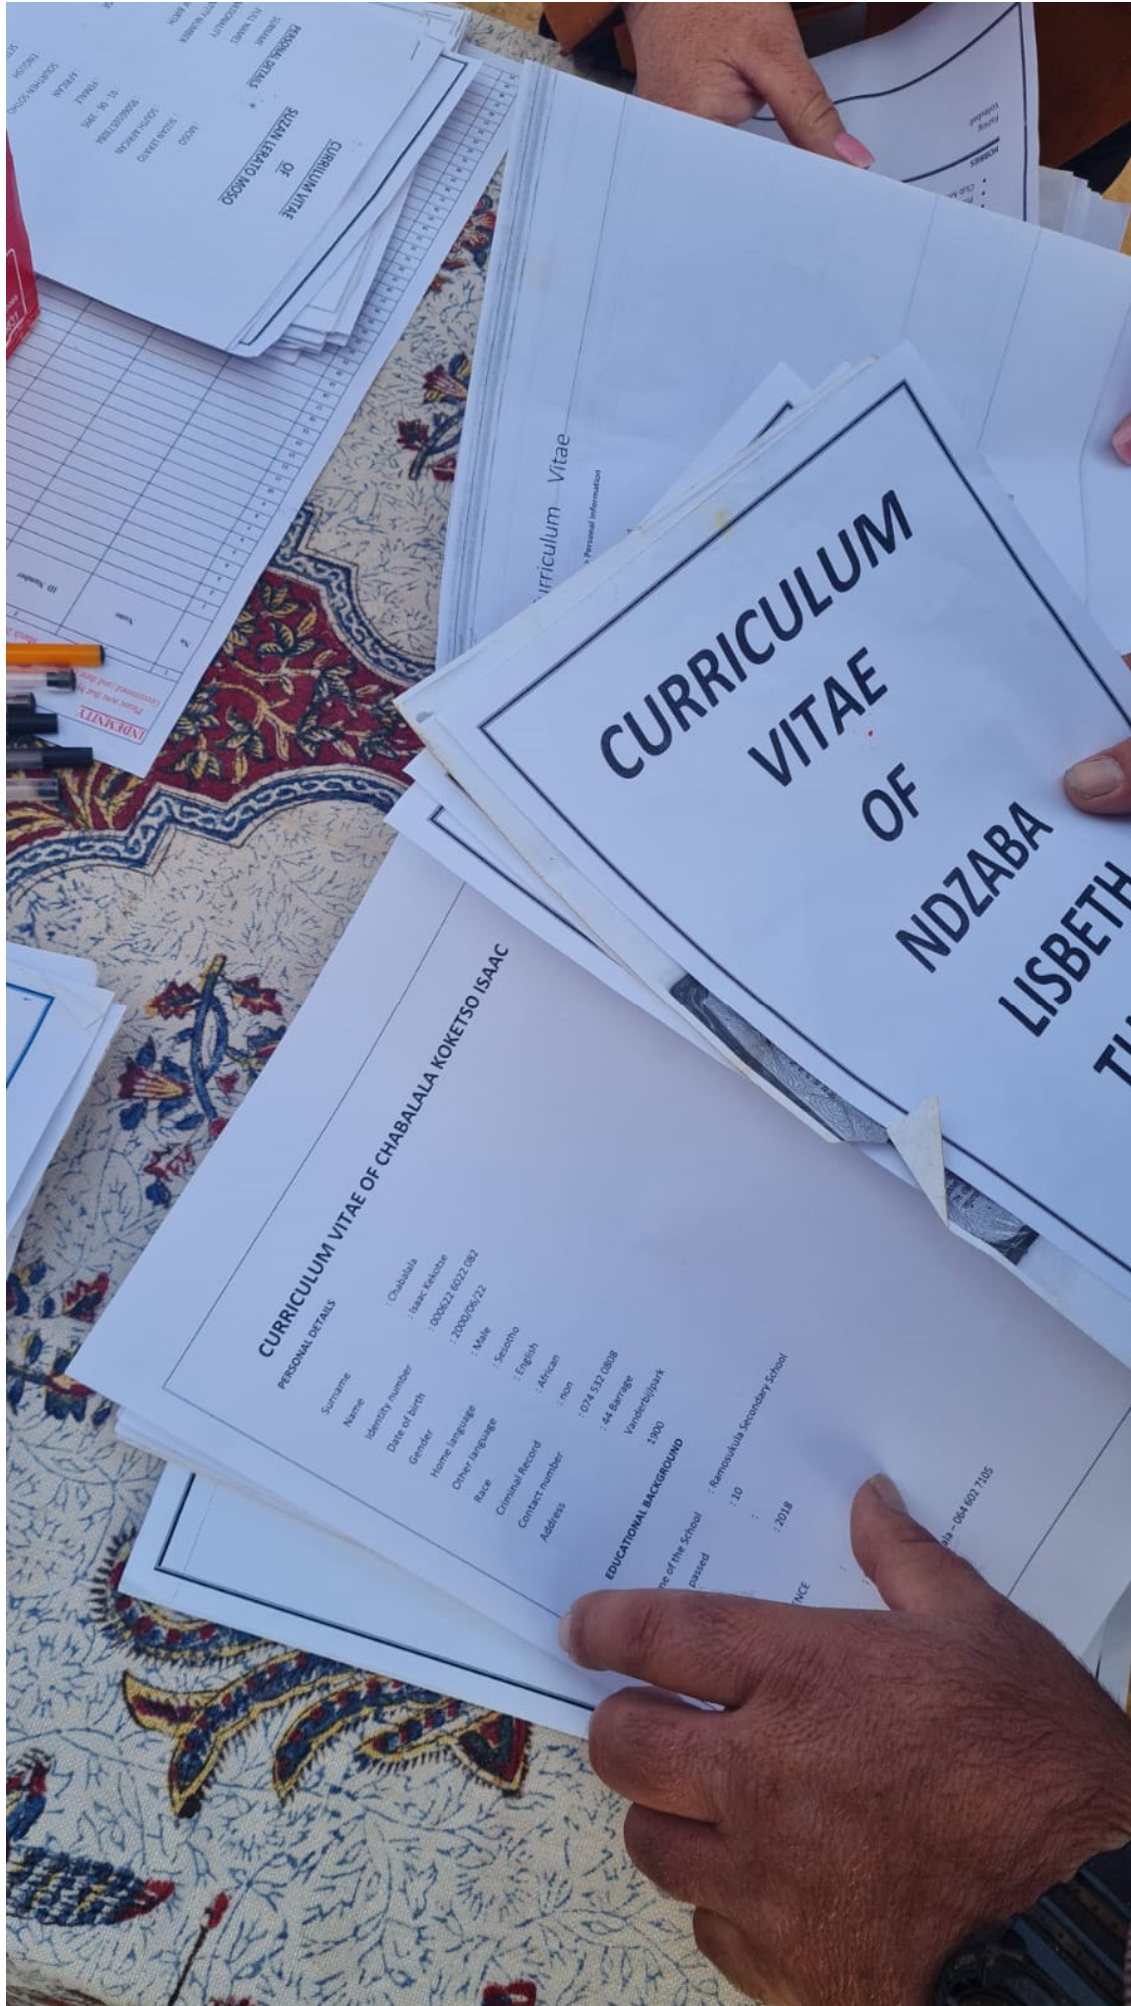

Public will we still be able to comment because the period ended 22 April

Sonette you can still submit comments today and it will be incorporated in the final report, we cannot extend

Meeting closed 13h08
