Good Afternoon,

Our bulk email was send regarding the Socio-Economic study on 28 January 2018.  
I have received various emails from I&AP's that they have not received the notification.

Please refer to the notification below.

Notice is hereby given that the Socio Economic Impact Assessment (SEIA) in respect of the mining right amendment application (FS 30/5/1/1/2/10020MR) submitted by Tja Naledi Beafase Investment Holdings (Pty) Ltd over Portion 4 of the farm Woodlands 407 (437.8330ha), Fezile Dabi Magisterial District, is now available for your perusal and comment.

Should you be interested in submitting comments, a copy of the SEIA can be downloaded from the below listed links.

[Appendix E - Economic Impact Assessment Report](#)  
[Socio-Economic Impact Assessment Report for Barrage Bulk Sand Mine Final](#)

Please take notice further that there is a 30-day commenting period expiring on **28 February 2018** during which time you may submit your comments. Your comments must be in writing and should include your contact details. Comments can be submitted via facsimile (086 546 0579), e-mail ([yolandie.c@greenmined.co.za](mailto:yolandie.c@greenmined.co.za)) and/or ordinary/registered mail (Postnet Suite 62, Private Bag X15, Somerset West, 7129).

All comments will be incorporated into the FBAR to be submitted to DMR for their perusal.

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

Good afternoon, we have NOW received, FOR THE FIRST TIME, this notification. I have opened it on my phone. Can Mailchimp confirm that it has been sent, received and opened by this email address? Thank you, Renee ~ Vredefort Dome Tourism Association

On Wed, 06 Feb 2019 at 11:26, Yolandie Coetzee <[yolandie.c@greenmined.co.za](mailto:yolandie.c@greenmined.co.za)> wrote:

Good Afternoon,

Our bulk email was send regarding the Socio-Economic study for Tja Naledi Beafase Investment Holdings on 28 January 2018.

I have received various emails from I&AP's that they have not received the notification.

Please refer to the notification below.

Notice is hereby given that the Socio Economic Impact Assessment (SEIA) in respect of the mining right amendment application (FS 30/5/1/1/2/10020MR) submitted by Tja Naledi Beafase Investment Holdings (Pty) Ltd over Portion 4 of the farm Woodlands 407 (437.8330ha), Fezile Dabi Magisterial District, is now available for your perusal and comment.

Should you be interested in submitting comments, a copy of the SEIA can be downloaded from the below listed links.

[Appendix E - Economic Impact Assessment Report](#)  
[Socio-Economic Impact Assessment Report for Barrage Bulk Sand Mine Final](#)

Please take notice further that there is a 30-day commenting period expiring on **28 February 2018** during which time you may submit your comments. Your comments must be in writing and should include your contact details. Comments can be submitted via facsimile (086 546 0579), e-mail ([yolandie.c@greenmined.co.za](mailto:yolandie.c@greenmined.co.za)) and/or ordinary/registered mail (Postnet Suite 62, Private Bag X15, Somerset West, 7129).

All comments will be incorporated into the FBAR to be submitted to DMR for their perusal.

Kind Regards / Vriendelike Groete

Good morning All,  
Did ANYONE on this list receive a duplicate email from Greenmined with the subject "Notice of SOCIO-ECONOMIC IMPACT ASSESSMENT"; the bulk email that Yolandie refers to below? If you did not, it means that the bulk email was not received by all IAPs.  
Sincerely,  
Renee

**Attachments:** Mailchimp.jpg; Greenmined Mailchimp Report 29 Jan 2019.xlsx; Types of Bounces.docx; Full I&AP List 2019 Received from GA.xlsx

Good Morning Renee,

Our marketing person had a looksee what was happening with the bulk emails. The emails could have possibly went to the junk or spam folder.

As per attached screenshot, we sent out 754 emailers and out of the 754 emailers that were sent, 139 emails were opened, 104 bounced and 4 unsubscribed therefore, a balance of 507 have not opened the emailer yet.

Please find attached the report of emails send, there was various emails that was not able to send, due to the faulty or incorrect or not existent email addresses. I also tried this morning to resend them again, but it came with the same failure delivery reports. We do not have any other contact information for these I&AP's.

Do you perhaps have other contact information for them? I have attached the full I&AP list, as received from Gavin.

Thanks Yolandie. As discussed when you called this morning, when you personally sent the notification to the group yesterday, it was received by us.

But it was NOT received from your bulk mail handler.

Except for Craig.

We look forward to hearing from your marketing person about what the problem might be and how it will be corrected so that ALL IAPs are reached.

Thanks  
Renee

**Subject:** RE: Notice of SOCIO- ECONOMIC IMPACT ASSESSMENT for Tja Naledi Beafase

Good day Renee,

Apologies for not responding at 23:14 on 06 February 2019. I trust you find correspondence during business hours in order.

We are currently attempting to obtain comments on the Socio – Economic Impact Assessment Report and it is clear that we are making sure the notification gets to all the registered parties. Please can I once again request you to ignore the delivery of mailchimp, (however it was sent, proof thereof received and emails opened) we will still not use the mailchimp as our proof of delivery in order to eliminate any shortcomings of the system. I am well aware that you did receive the report on the 28<sup>th</sup> of January 2019 as you were discussing it with the specialist telephonically in my presence. Therefore, please do not claim that it was not received by you.

We also herewith request you to refrain from making any further derogatory comments in relation to Greenmined, as this is purely your personal opinion and damaging to our reputation.

Once again can we divert this back to the professional matter at hand which is obtaining comments on the Socio – Economic Impact Assessment Report.

Please note that this is not a separate public participation process, but only for the purpose of the registered I&AP's to provide comments with regards to this report.

We trust you will find this in order.

Kind Regards/Vriendelike Groete

Good morning Yolandie,

No, we do not find this situation 'in order'. Please see emails from me personally and my company The Savannah Africa.

Please correct and resend your notification to all IAPs using a robust and trusted bulk email service like MailChimp... with the updated dates.

On WedDear Yolandie,

It is clearly apparent that you have no idea how bulk email services like MailChimp work.

Before I forward your email to our entire list, including the DMR, please reconsider your statement below [mail chimp is still populating the results of what was opened and what was delivered etc](#)

Bulk mail services update instantaneously, they don't take time to process. They monitor every send, receive, open and link click, in real time - with the email address (and all other details) of each and every recipient.

The reason why professional organisations like yourselves use these types of services it to protect yourselves and provide evidence that you have done what you claim to have done.

Are you being paid by the Applicant for this service?  
Regards,

Renee Hartslief

Good Afternoon Renee,

To prevent that anyone could have missed the mail from mail chimp, we decided to resend the mails from my email address.

Therefore we will disregard the mail from mail chimp, and we will be working on our delivery and read recipients send from Outlook on my email address.

Hope you find this in order.

Kind Regards / Vriendelike Groete

Good Afternoon,

Our bulk email was send regarding the Socio-Economic study on 28 January 2018.  
I have received various emails from I&AP's that they have not received the notification.

Please refer to the notification below.

Notice is hereby given that the Socio Economic Impact Assessment (SEIA) in respect of the mining right amendment application (FS 30/5/1/1/2/10020MR) submitted by Tja Naledi Beafase Investment Holdings (Pty) Ltd over Portion 4 of the farm Woodlands 407 (437.8330ha), Fezile Dabi Magisterial District, is now available for your perusal and comment.

Should you be interested in submitting comments, a copy of the SEIA can be downloaded from the below listed links.

[Appendix E - Economic Impact Assessment Report](#)

[Socio-Economic Impact Assessment Report for Barrage Bulk Sand Mine Final](#)

Please take notice further that there is a 30-day commenting period expiring on **28 February 2018** during which time you may submit your comments. Your comments must be in writing and should include your contact details. Comments can be submitted via facsimile (086 546 0579), e-mail ([yolandie.c@greenmined.co.za](mailto:yolandie.c@greenmined.co.za)) and/or ordinary/registered mail (Postnet Suite 62, Private Bag X15, Somerset West, 7129).

All comments will be incorporated into the FBAR to be submitted to DMR for their perusal.

Marlene Lingenfelder

Delivered: 2019/02/01 8:57 AM

Good Afternoon,

Our bulk email was send regarding the Socio-Economic study on 28 January 2018.

I have received various emails from I&AP's that they have not received the notification.

Please refer to the notification below.

Notice is hereby given that the Socio Economic Impact Assessment (SEIA) in respect of the mining right amendment application (FS 30/5/1/1/2/10020MR) submitted by Tja Naledi Beafase Investment Holdings (Pty) Ltd over Portion 4 of the farm Woodlands 407 (437.8330ha), Fezile Dabi Magisterial District, is now available for your perusal and comment.

Should you be interested in submitting comments, a copy of the SEIA can be downloaded from the below listed links.

[Appendix E - Economic Impact Assessment Report](#)

[Socio-Economic Impact Assessment Report for Barrage Bulk Sand Mine Final](#)

Please take notice further that there is a 30-day commenting period expiring on **28 February 2018** during which time you may submit your comments. Your comments must be in writing and should include your contact details. Comments can be submitted via facsimile (086 546 0579), e-mail ([yolandie.c@greenmined.co.za](mailto:yolandie.c@greenmined.co.za)) and/or ordinary/registered mail (Postnet Suite 62, Private Bag X15, Somerset West, 7129).

All comments will be incorporated into the FBAR to be submitted to DMR for their perusal.

Kind Regards / Vriendelike Groete

Hi Yolandie,

Those two email addresses didn't get added since they each weren't in their individual cell. Each email address needs to be in its own cell in the spreadsheet to be uploaded.

See attached picture.

**Subject:** Re: Notice of SOCIO- ECONOMIC IMPACT ASSESSMENT for Tja Naledi Beafase

Dear Yolandie,

I have returned from an evening meeting. Apologies for the late response.

This is the FIRST email we have ever received from you, per the subject.

Despite several and detailed requests to you from me personally, you have failed to provide any comfort that your bulk email server did indeed deliver your email below previously.

Please note that your personal email from your personal Outlook account was only received by The Savannah Africa today.

May we point out that:

- 1) The date in your notification is incorrect and should reflect the date of sending, not 28 January.
- 2) Therefore, the date for your required response is also incorrect.
- 3) There are TWO different reports, which should have direct links to each. Your original email is unclear.

It is our urgent request that you use an accredited bulk mail server to send a corrected version of this notification, instead of your personal Outlook account - which is highly unprofessional.

Sincerely,  
Renee

Hi Gavin

I support your view 100%

I think it is imparitive now that the frame of reference to the 2011 sensus must be challegend as their was exponential growth, private development in the area and rapidly and drastically changed employment numbers ascoiciated with tourism, lodges etc

Again the reference must be to the Spacial Development plan of Tlokwe that clearly defines the area as a tourism corridor, with advantage that it form part of the Vredefort Done heritage site and the vaal river corridor that support the spacial development plan of Tolkwe

I will also avail myself for more detailed discussions

Louis

On Wed, Feb 20, 2019 at 11:22 AM Gavin Aboud <[gavin@paramountrailers.co.za](mailto:gavin@paramountrailers.co.za)> wrote:

Good Day Yolandie,

I hope you are well?

I refer your mail requesting comment on the subject.

Whilst I regard the report and honest one, I think the negative aspects on the mining on the surrounding areas is understated from both a Socio and Economic aspect.

If we look just at the informal settlement and the jobs provided in Vaaloewer , Lindequesdrift and Vaaleden, and we compound this with the resorts in the area, we estimate that at least 1000 people are employed in the area.

If we work on the assumption that there are 5 dependants associated to those employed, this number grows to 6 000.

The enormity of this impact is not clearly stated in the report.

I request that this aspect be revisited and that I be consulted in this regard,

Kind Regards

Gavin Aboud

Thanks for filling out [YOUR urgent comments on Socio Economic impacts of Tja Naledi mine](#)

Here's what we got from you:

## YOUR urgent comments on Socio Economic impacts of Tja Naledi mine

Tja Naledi has applied for amendments to their existing mining right, to which ProtectVaalEden@Gmail.com objects. Tja Naledi was instructed by DMR to conduct further studies, which their specialists Enviroworks did. Their Socio-Economic Impact Assessment (SEIA) and Economic Impact Assessment (EIA) reports are groundbreaking! For your convenience and to save your precious time, ProtectVaalEden@Gmail.com has compiled this form with report summaries and our comments. Please select "Fill Out Form" below before 28 February 2019 - and add your own comments, if you wish. We will send them to [Yolandie.C@greenmined.co.za](mailto:Yolandie.C@greenmined.co.za) or you may choose to send your own. **Please comment on the negative SOCIO - ECONOMIC impacts**

Enviroworks' findings in their SEIA report: “indicate that the socio-economic benefits associated with the proposed amendment will not out-weigh the negative impacts. Numerous negative impacts as a result of the sand mines in the area bother the surrounding community and the proposed amendment will compound this. While the amendment will result in some wider economic benefits, the local economy will see few of these benefits. Furthermore, the area’s tourism sector faces [SIC] will be impacted upon significantly. Negative impacts associated with the proposed amendment can be reduced to acceptable levels only if stringent mitigation measures are applied and these measures strictly adhered to. It is thus concluded that the proposed amendment, while providing jobs and small-scale economic benefits, will lead to great discontent among the local community and negatively affect the tourism potential of the area". Further, we believe that the social and labour impacts will be extremely detrimental

	ABSOLUTELY agree!	Strongly agree	Agree	Slightly agree	Disagree	STRONGLY disagree!
Gravel mining will COMPOUND problems	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Few LOCAL economic benefits	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
TOURISM threatened	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Mitigation must be APPLIED	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Mitigation must be ADHERED to	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Great COMMUNITY discontent	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Negative SOCIAL and LABOUR impacts	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
------------------------------------	-------------------------------------	--------------------------	--------------------------	--------------------------	--------------------------	--------------------------	--------------------------

**Please comment on the S171 VAAL EDEN ROAD**

Enviroworks' further findings in the SEIA report are: "Following the initial restoration of the S171 Road by Pure Source Sand Mine, the Applicant along with the neighboring mines should create a fund and take on responsibility for the upkeep of the road. The Applicant, along with relevant authorities, should ensure that speed limits are put in place and enforced. Adequate signage needs to be put in place. Crossing points should be put in place for farmers crossing the road with livestock". Since there is mine truck traffic to Parys, the ENTIRE Vaal Eden Road, from the N1 to the Parys Airfield, must be restored and maintained by the mines, including the gravel section which has also been virtually destroyed.

	ABSOLUTELY agree!	Strongly agree	Agree	Slightly agree	Disagree	STRONGLY disagree!
Pure Source Sand Mine must RESTORE the road	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Tja Naledi must CREATE A FUND to maintain the road	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
ALL MINES should be responsible for upkeep of the road	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
SPEED LIMITS must be put in place	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Speed limits must be ENFORCED	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Adequate SIGNAGE needs to be erected	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CROSSING points need to be created for farmers' livestock	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Weigh mats must be installed, per MEC Mashinini	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Trucks must comply with all TRAFFIC REGULATIONS	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

GRAVEL  
section of S171  
must also be  
restored and  
maintained by  
MINES

**Please comment on the negative ECONOMIC impacts**

From Enviroworks EIA: "Our recommendation is that DMR carefully consider how they will ensure the effective management of the cumulative impacts of sand mining in this and other areas along the Vaal River. To do this, it will be necessary to develop a regional perspective on the existing sand and gravel mines as well as the applications for mining rights, and develop a regulatory strategy that can manage the number of mines in each locality and the economic impacts on other economic activities. With respect to the current applications by Tja Naledi and Pure Source, the economic impacts of these mines on existing economic activities and the marginal economic situation for these mines, suggests that it would not be appropriate to approve these mining applications at this stage. Alternatively, they could be approved subject to the mitigation measures recommended and included in their EMPs, if and when the mine's business financials are proven to be viable (given the broader market context) and can cover the cost of the mitigation measures that are needed to minimise the visual, noise, dust and traffic impacts. This may encourage the mining companies to look for sand mining opportunities in areas where the visual, noise, dust and traffic impacts are minor."

	ABSOLUTELY agree!	Strongly agree	Agree	Slightly agree	Disagree	STRONGLY disagree!
DMR should consider CUMULATIVE impacts of ALL MINES	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Mine applications in Vaal Eden area must be evaluated on a REGIONAL basis, not in isolation	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The economic situation for the mines is "MARGINAL"	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
"it would NOT be appropriate to approve these mining applications"	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The mines must PROVE that they can bear the	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

FINANCIAL impact of mitigation							
Mitigation measures are required for visual, noise, dust and traffic	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Financial burdens might encourage the mining companies to look for other areas	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Please feel free to include YOUR comments and objections here...**

There is an extreme breakdown in trust between ProtectVaalEden@Gmail.com and the Applicants, their Consultants and the Mine Operators and we will be including our comments here. We have experienced bullying, threats, lies, non-compliance (especially with rehabilitation commitments), flagrant disregard for the Public Participation Process and rushed time-frames. What are YOUR experiences?

I object to this application for this development due to the Negative Environmental impact on the Vaal river area, and the negative Financial impact on our properties next to the river.

Hi Gavin

I support your view 100%

I think it is imparitive now that the frame of reference to the 2011 sensus must be challegend as their was exponential growth, private development in the area and rapidly and drastically changed employment numbers ascoiciated with tourism, lodges etc

Again the reference must be to the Spacial Development plan of Tlokwe that clearly defines the area as a tourism corridor, with advantage that it form part of the Vredefort Done heritage site and the vaal river corridor that support the spacial development plan of Tolkwe

I will also avail myself for more detailed discussions

Louis

On Wed, Feb 20, 2019 at 11:22 AM Gavin Aboud <[gavin@paramountrailers.co.za](mailto:gavin@paramountrailers.co.za)> wrote:

Good Day Yolandie,

I hope you are well?

I refer your mail requesting comment on the subject.

Whilst I regard the report and honest one, I think the negative aspects on the mining on the surrounding areas is understated from both a Socio and Economic aspect.

If we look just at the informal settlement and the jobs provided in Vaaloewer , Lindequesdrift and Vaaleden, and we compound this with the resorts in the area, we estimate that at least 1000 people are employed in the area.

If we work on the assumption that there are 5 dependants associated to those employed, this number grows to 6 000.

The enormity of this impact is not clearly stated in the report.

I request that this aspect be revisited and that I be consulted in this regard,

Kind Regards

Gavin Aboud

**RE: Notification of availability of socio-economic impact assessment and draft economic impact report**

### **PROJECT DETAILS**

**Project:** Amendment of an existing mining right for Tja Naledi Beafase Investment Holdings (Pty) Ltd

**Site Location:** Portion 4 of the farm Woodlands 407 (437.8330ha) Ngwathe Local Municipality; Free State Province

**Environmental Assessment Practitioner:** Greenmined Environmental

**Type of Report:** Socio-economic impact assessment report

**Competent Authority:** Department of Minerals

Dear Yolandie

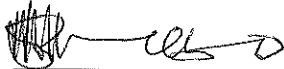

Thank you for notifying the Municipality on the availability of the socio-economic impact assessment report for comments.

The SEIAR was read together the economic impact assessment report for the project. Fezile Dabi District notes that the project is unlikely to improve the livelihoods of people in proximity to the mine, whether from the Free State or Gauteng side. Employment opportunities and improvement of people's lives is what remains high in the wellbeing of communities. It is noted that the document also took into account the existence of other sand mines in vicinity of Tja Naledi, and one can reasonable conclude that it is unlikely that all these mines comply with their environmental authorization conditions. It is indicated that already there non-compliance picked from the contractor operating the mine, SPH Kundalila and that in itself should be a worrying factor.

FDDM would like to submit that the report is noted and there are no major objections to the project, however it is important for DMR to ensure that Tja Naledi complies with its current mining conditions or at least there is clear plan to ensure compliance where non-compliance has been picked before amending the mining right to accommodate mining aggregates and further crushing and screening processes which could require stricter operating conditions.

Thank you for involving us on projects within our jurisdiction.

Yours sincerely;

Mcebo Mkhathshwa  
Snr. Environmental Management Officer

**Please comment on the negative SOCIO - ECONOMIC impacts**

Enviroworks' findings in their SEIA report: “indicate that the socio-economic benefits associated with the proposed amendment will not out-weigh the negative impacts. Numerous negative impacts as a result of the sand mines in the area bother the surrounding community and the proposed amendment will compound this. While the amendment will result in some wider economic benefits, the local economy will see few of these benefits. Furthermore, the area’s tourism sector faces [SIC] will be impacted upon significantly. Negative impacts associated with the proposed amendment can be reduced to acceptable levels only if stringent mitigation measures are applied and these measures strictly adhered to. It is thus concluded that the proposed amendment, while providing jobs and small-scale economic benefits, will lead to great discontent among the local community and negatively affect the tourism potential of the area". Further, we believe that the social and labour impacts will be extremely detrimental

	ABSOLUTELY agree!	Strongly agree	Agree	Slightly agree	Disagree	STRONGLY disagree!
Gravel mining will COMPOUND problems	[X]	[ ]	[ ]	[ ]	[ ]	[ ]

**Please comment on the S171 VAAL EDEN ROAD**

Enviroworks' further findings in the SEIA report are: "Following the initial restoration of the S171 Road by Pure Source Sand Mine, the Applicant along with the neighboring mines should create a fund and take on responsibility for the upkeep of the road. The Applicant, along with relevant authorities, should ensure that speed limits are put in place and enforced. Adequate signage needs to be put in place. Crossing points should be put in place for farmers crossing the road with livestock". Since there is mine truck traffic to Parys, the ENTIRE Vaal Eden Road, from the N1 to the Parys Airfield, must be restored and maintained by the mines, including the gravel section which has also been virtually destroyed.

	ABSOLUTELY agree!	Strongly agree	Agree	Slightly agree	Disagree	STRONGLY disagree!
Pure Source Sand Mine must RESTORE the road	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Please comment on the negative ECONOMIC impacts**

From Enviroworks EIA: "Our recommendation is that DMR carefully consider how they will ensure the effective management of the cumulative impacts of sand mining in this and other areas along the Vaal River. To do this, it will be necessary to develop a regional perspective on the existing sand and gravel mines as well as the applications for mining rights, and develop a regulatory strategy that can manage the number of mines in each locality and the economic impacts on other economic activities. With respect to the current applications by Tja Naledi and Pure Source, the economic impacts of these mines on existing economic activities and the marginal economic situation for these mines, suggests that it would not be appropriate to approve these mining applications at this stage. Alternatively, they could be approved subject to the mitigation measures recommended and included in their EMPs, if and when the mine's business financials are proven to be viable (given the broader market context) and can cover the cost of the mitigation measures that are needed to minimise the visual, noise, dust and traffic impacts. This may encourage the mining companies to look for sand mining opportunities in areas where the visual, noise, dust and traffic impacts are minor."

	ABSOLUTELY agree!	Strongly agree	Agree	Slightly agree	Disagree	STRONGLY disagree!
DMR should consider CUMULATIVE impacts of ALL MINES	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Mine applications in Vaal Eden area must be evaluated on a REGIONAL basis, not in isolation	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The economic situation for the mines is "MARGINAL"	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
"it would NOT be appropriate	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

to approve these mining applications"

The mines must PROVE that they can bear the FINANCIAL impact of mitigation

Mitigation measures are required for visual, noise, dust and traffic

Financial burdens might encourage the mining companies to look for other areas

**Please feel free to include YOUR comments and objections here...**

There is an extreme breakdown in trust between [ProtectVaalEden@Gmail.com](mailto:ProtectVaalEden@Gmail.com) and the Applicants, their Consultants and the Mine Operators and we will be including our comments here. We have experienced bullying, threats, lies, non-compliance (especially with rehabilitation commitments), flagrant disregard for the Public Participation Process and rushed time-frames. What are YOUR experiences?

I strongly oppose all mining activity in the area as it serves no benefit at all for the nearby residents but exposure to noise and dust pollution and loss in property values. There is absolutely no gain but hardships for the residents living next to or near the planned mining area. The fauna and flora will be destroyed. Underground water sources will be depleted. The river will be impacted not only in this area but also downstream. There is no positive outcome for mining in this area but the enrichment of the mine owners and shareholders.

Thanks for filling in [YOUR urgent comments on Socio Economic impacts of Tja Naledi mine](#)

Here's what we've received from you:

## YOUR urgent comments on Socio Economic impacts of Tja Naledi mine

Tja Naledi has applied for amendments to their existing mining right, to which [ProtectVaalEden@Gmail.com](mailto:ProtectVaalEden@Gmail.com) objects. Tja Naledi was instructed by DMR to conduct further studies, which their specialists Enviroworks did. Their Socio-Economic Impact Assessment (SEIA) and Economic Impact Assessment (EIA) reports are groundbreaking! For your convenience and to save your precious time, [ProtectVaalEden@Gmail.com](mailto:ProtectVaalEden@Gmail.com) has compiled this form with report summaries and our comments. Please select "Fill Out Form" below before 28 February 2019 - and add your own comments, if you wish. We will send them to [Yolandie.C@greenmined.co.za](mailto:Yolandie.C@greenmined.co.za) or you may choose to send your own. UNFORTUNATELY, we require your email address and name in order for your comments to be legally acceptable. FORTUNATELY, you have received this form from us or someone you know. [ProtectVaalEden@Gmail.com](mailto:ProtectVaalEden@Gmail.com) will NOT use your personal information for any other purpose!

**Email address \***

**Your name**

If choose not to supply your name, your comments will not be considered by Greenmined or the DMR :(

Pieter Hattingh

Not playing open cards

Similar experience. They only act in their own interest.

Lies by Yolande of Greenminded and Tja Naledis Attorneys, noncompliance, noise nuisance, no notification as legally required to immediate neighbours. No benefit to surrounding community. Absentee landlord using a contractor SPH using "imported labour". No disclosure of the Social Labour plan for Tia Naledi or neighbouring mines. Total destruction of the value of neighbouring properties and sense of place. The mines will cause economic loss to the area of billions of rand. Area being mined currently is zoned agricultural.

Health risks on the surrounding community far outweighs any financial gain from these mines.

Vakasie area. Gaan myn op n ander plek

Onaanvaarbaar

THIS IS A TOURISM AERIA THAT WILL BE ----"FUCKED UP BY PEOPLE THAT HAS BEEN BRIBED. NOBODY IN OUR AREA KNOWS OF ANY ENVIROMENTAL STUDIES THAT WAS DONE HERE!!!!

Health risks far outweighs all
The roads are not designed to handle ongoing heavy vehicle traffic and will rapidly fall into a state of total disrepair. Dust, noise and the impact on the roads will negatively affect the ecotourism (including lodges and wedding venues) that are providing jobs and upskilling the community.
They are not reliable. Mining in our area will rob us from so much we have at the moment.
With previous experience I strongly don't trust them and don't want them to do any mining or any other work in this area. I agree hundred percent with all the comments and objections that was made in the above mentioned statement.
As individual we get steamrollered with the process which is not easy to understand all affects and future issues.
I am in total agreement with the above statement
As IAP we just get steam rolled
It is the ages old case of David against Goliath. Our community will fight till the end against the powerful and money hungry Goliath who think they have carte blanche to rape our beautiful river and environment.ENOUGH!!!!!!!!!!
The mines have no regard for the PEOPLE 'S GRIEVANCES....THE ENVIRONMENT THEY ARE SCARRING...AND ABOVE ALL...NO REGARD FOR LAWFUL PROCEDURES...
Regards U.L.KLEBBA.
Always Noise and Dust in the area, during weekends as well. Water from the Vaal River is being pumped up on various weekends.
IAP just walked over with the process
IAP's no trust in dealing with all parties
IAP'S NO TRUST IN THE PROCESS
IAP'S NO TRUST IN THE PROCESS
IAP'S NO TRUST IN PROCESS
IAP'S NO TRUST IN PROCESS
IAP'S NO TRUST IN PROCESS

The entire thing is disgusting. This would never happen overseas thru do it all wrong here could not care about the future of their families
Dust storms from the mines have been horrible. Annoyed that these mines have disregarded rehabilitation and I do not feel they are trustworthy. DMR seem to be unable to monitor them.
The mining is destroying the natural beauty of the river and surrounding areas. It is a threat to every person's investment in the Vaalower and surrounding areas and should not be allowed.
These mines are ruining the beauty of the area and destroying the river and life in the river!!!!
They are Ruthless dictators!
Not personally, but we are aware of it.....
I am aware of it.
Already experienced dust and noise.
No mining
<p>MITIGATION: there should be no mining at all in the Vaal Eden area. Mining is taking place contrary to zoning and SDF as a result of flawed Public Participation Processes and officials not following due process and acting without authorisation. The Vaal Eden area AS WELL AS the area on the opposite side of the Vaal River in both the North West and Gauteng Provinces have been zoned for agriculture and tourism. Both FS Provincial and Fezile Dabi &amp; Ngwate Municipal guidelines and policies call for interprovincial consultation regarding cross border activities and this was not done.</p> <p>ROADS: All legislated signage should be in place irrespective of mining activities, as should the policing thereof. The same pertains to road maintenance. The fact this all the aforesaid is not being carried out, adds justification to opposing any further mining in the Vaal Eden area. Provincial and municipal budgets are inadequate to police or maintain roads and self regulation by the mines, based on their historic compliance is ludicrous.</p> <p>ECONOMIC IMPACT: The natural beauty of the area and its sense of place is the draw card for tourism activities and it is being seriously threatened by the mining activities. The Vaal Eden area together with the town of Parys, the Vredefort Dome World Heritage Site and Potchefstroom is considered a prime tourism destination. There is an incredibly huge untapped market on the doorstep of the area, viz Gauteng as well as international tourists arriving via Oliver Tambo airport. The tourism organisations from the above mentioned areas are now combining efforts to highlight this prime destination that offers nature, wildlife, cultural heritage, education, sporting and outdoor activities, arts, festivals, cuisine and shopping experiences. There is no other region closeby (if anywhere in the country) that can offer all of the above - The tourism potential together with related job growth is ENORMOUS and growing, it is SUSTAINABLE, it is a set GOAL of National Government. The small benefits accruing to a limited number of individuals from opencast sandmining for the next 30 plus years, will destroy the surrounding environment, negatively impact on the health and livelihoods of the community, and severely impact on the positive benefits that tourism could bring to the area.</p>
Please note that no mines should operate, in or around anywhere near the Vaal river. I don't agree with some of the questions that stated that the mines need to comply with various restrictions and or requirements. these mines are and have been operation illegally and should receive any permission nor even be mining. So not even the slightest edge should be given to any mine to undergo in any mining operations anywhere close to the life source of the Vaal river.

Health issues for sinus sufferers must also be taken into account. With extra foreign particles being expelled into the air this is affecting people with sinus problems.
There is no trust - I believe they are not interested in what we have to say.
I strongly oppose all mining activity in the area as it serves no benefit at all for the nearby residents but exposure to noise and dust pollution and loss in property values. There is absolutely no gain but hardships for the residents living next to or near the planned mining area. The fauna and flora will be destroyed. Underground water sources will be depleted. The river will be impacted not only in this area but also downstream. There is no positive outcome for mining in this area but the enrichment of the mine owners and shareholders.
The added strain to an already badly polluted Vaal River due to mining is of major concern. The added dust from mining activities is already evident.
I object to this application for this development due to the Negative Environmental impact on the Vaal river area, and the negative Financial impact on our properties next to the river.
I BELIEVE THE PROPOSED MINE WILL FURTHER IMPACT DISASTROUSLY ON THE ALREADY STRESSED (AND MESSED) VAAL RIVER WHICH HAS BECOME A MEANS FOR SEWERAGE DISPOSAL WHICH THE USELESS EMFULENI MUNICIPALITY IS NOT QUALIFIED TO REMEDY. FURTHERMORE IT WILL PROBABLY ATTRACT MORE CRIMINALS TO THE AREA AND FURTHER DEVALUATE THE PROPERTIES AT VAALOEWER AND SURROUNDING AREAS.
I have just moved here to the Vaal and strongly disagree to the mining especially with all the negative implications on the environment and the community. It is a disadvantage to the community who live here due to the dust and the negative impact on our health

Tja Naledi and their appointed 'agents' Greenmined" pay absolutely no attention to queries raised by certain IAPS--rendering it next to impossible to comment on their plans and the impact thereof. Greenmineds answers are selective and biased to their clients --of course.

The person representing the 26% partner in the operation undertook to get back to us- at a public meeting-- about agreeing to an independent oversight authority, to "police" their mining operations-- what they would do as "COMMUNITY upliftment projects": as required by the mining charter--- how they would compensate the community. Nothing has been forthcoming --all ignored ...

I for one have not seen an economic viability study--a profit and loss statement- --all of which are required to enable IAPS to meaningfully comment on "socio economic benefits" Greenmined provided minutes of public meeting ONLY after being forced to do so by DMR and again rendering any meaningful dialogue flowing from points raised in the minutes useless.

Whilst we are TOLD all relevant elected OFFICIALS in all three affected Provinces were advised of this application ----as required ---there is ZERO concern by the impartial practitioners GREENMINED--- that NOT one ELECTED official has commented on this application and given the long term implications to all IAPS -of what will happen to EDEN --(this is EDEN) --its businesses and communities if this application is approved --when Greenmined KNOW that elected officials BY LAW have to take an interest in such matters BECAUSE the elected OFFICIALS have all sworn an OATH to uphold the Constitution and protect all our Constitutional rights ESPECIALLY our rights with regard to the environment we live in -- SURELY this is what GREENMINED have to do ???

We have been bullied and lied to about these mines by money wolfs  
They lie in your face... Aboeryut the money mine scheme.... They were stopped of mining but they are still very active at the grounds

We are been bullied by money gods and if they want to continue i will lose value on my property so they must purchase my property for the market value not negotiable

These people are arrogant they lie in your face and don't care about the impact of the mine where we live... They bribe people to cover for them

Our market value of our property will fall they must buy my property for the market value

They are still mining but nothing have been legal... Money is their main aim

One of the minerals they want to mine is gravel. According to their maps this area is a substantial area most of which are koppies of solid very hard rock. To exploit this they will have to do blasting and use crushers. They said they will only use diesel diggers, loaders and trucks. No dynamite no blasting and no crushing. This blasting will probably start soon after mining begins and will happen about twice per week over 30 years. We live in Riviesig cres. About 100 m from the river which is about 100 m wide and they will mine up to 100m from the river. 300 m from where I live. Groete. Hannes.

Went to a meeting ,, with their specialists,,, ill prepared ,totally focused on the business end ,,not the impact it shall have

Went to a meeting ,, with their specialists,,, ill prepared ,totally focused on the business end ,,not the impact it shall have

Non compliance

Non compliance

Property Values already started declining and buyers walk away if they hear about the mines.

This area is in no condition to support this mining activities. There are limited ground water resources, which needs to be protected for the existing tourism activities and existing local communities. Mining will break down the local leisure and tourism business that is providing many sustainable job opportunities in the area

The total disregard and lack of respect for this mine to the surrounding areas, residents, natural environment and rehabilitation has been disappointing at least. To allow this sort of corporation to further destroy the environment and further disgruntle long term residents inhabitants of the area to benefit a few, would be nothing short of a criminal act.

We're experiencing a major dust problem in the Riviersig Street area in Vaal Oewer - massive dust storms are hitting us regularly from the existing mining operations. Noise pollution is also a big issue - the trucks are clearly audible all hours of day, especially the constant "peeping" sounds used when reversing. The new applications will increase mining operations significantly, and will bring them much closer to the river, which will lead to a vastly worsened situation. They are also already an eye-sore, and destroy the sense of place and serene natural environment of the Vaal Oewer area. This will also worsen dramatically if the new applications are approved. They are destroying the value of the community's homes, and will destroy local tourism and jobs.

Thanks for filling out [YOUR urgent comments on Socio Economic impacts of Tja Naledi mine](#)

Here's what we got from you:

## YOUR urgent comments on Socio Economic impacts of Tja Naledi mine

Tja Naledi has applied for amendments to their existing mining right, to which [ProtectVaalEden@Gmail.com](mailto:ProtectVaalEden@Gmail.com) objects. Tja Naledi was instructed by DMR to conduct further studies, which their specialists Enviroworks did. Their Socio-Economic Impact Assessment (SEIA) and Economic Impact Assessment (EIA) reports are groundbreaking! For your convenience and to save your precious time, [ProtectVaalEden@Gmail.com](mailto:ProtectVaalEden@Gmail.com) has compiled this form with report summaries and our comments. Please select "Fill Out Form" below before 28 February 2019 - and add your own comments, if you wish. We will send them to [Yolandie.C@greenmined.co.za](mailto:Yolandie.C@greenmined.co.za) or you may choose to send your own. UNFORTUNATELY, we require your email address and name in order for your comments to be legally acceptable. FORTUNATELY, you have received this form from us or someone you know. [ProtectVaalEden@Gmail.com](mailto:ProtectVaalEden@Gmail.com) will NOT use your personal information for any other purpose!

**Email address \***

[bobh@dullies.com](mailto:bobh@dullies.com)

**Your name**

If choose not to supply your name, your comments will not be considered by Greenmined or the DMR :(

**Did you receive an email notification from Greenmined on 28 January 2019?**

Most IAPs did NOT receive a notification from Greenmined's bulk email (Mailchimp) on 28 January. Some IAP's (we don't know which ones) received an Outlook email from [Yolandie.C@greenmined.co.za](mailto:Yolandie.C@greenmined.co.za) on 30 January. If you received a notification email from a source other than Greenmined, you might wish to indicate that source and date. By law, you have 30 days from the date you first received the notification to comment on it.

- Yes
- No
- Other:

**Please comment on the negative SOCIO - ECONOMIC impacts**

Enviroworks' findings in their SEIA report: “indicate that the socio-economic benefits associated with the proposed amendment will not out-weigh the negative impacts. Numerous negative impacts as a result of the sand mines in the area bother the surrounding community and the proposed amendment will compound this. While the amendment will result in some wider economic benefits, the local economy will see few of these benefits. Furthermore, the area’s tourism sector faces [SIC] will be impacted upon significantly. Negative impacts associated with the proposed amendment can be reduced to acceptable levels only if stringent mitigation measures are applied and these measures strictly adhered to. It is thus concluded that the proposed amendment, while providing jobs and small-scale economic benefits, will lead to great discontent among the local community and negatively affect the tourism potential of the area". Further, we believe that the social and labour impacts will be extremely detrimental

	ABSOLUTELY agree!	Strongly agree	Agree	Slightly agree	Disagree	STRONGLY disagree!
Gravel mining will COMPOUND problems	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Few LOCAL economic benefits	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
TOURISM threatened	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Mitigation must be APPLIED	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Great COMMUNITY discontent	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Negative SOCIAL and LABOUR impacts	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
------------------------------------	-------------------------------------	--------------------------	--------------------------	--------------------------	--------------------------	--------------------------	--------------------------

**Please comment on the S171 VAAL EDEN ROAD**

Enviroworks' further findings in the SEIA report are: "Following the initial restoration of the S171 Road by Pure Source Sand Mine, the Applicant along with the neighboring mines should create a fund and take on responsibility for the upkeep of the road. The Applicant, along with relevant authorities, should ensure that speed limits are put in place and enforced. Adequate signage needs to be put in place. Crossing points should be put in place for farmers crossing the road with livestock". Since there is mine truck traffic to Parys, the ENTIRE Vaal Eden Road, from the N1 to the Parys Airfield, must be restored and maintained by the mines, including the gravel section which has also been virtually destroyed.

	ABSOLUTELY agree!	Strongly agree	Agree	Slightly agree	Disagree	STRONGLY disagree!
Pure Source Sand Mine must RESTORE the road	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Tja Naledi must CREATE A FUND to maintain the road	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
ALL MINES should be responsible for upkeep of the road	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
SPEED LIMITS must be put in place	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Speed limits must be ENFORCED	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Adequate SIGNAGE needs to be erected	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CROSSING points need to be created for farmers' livestock	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Weigh mats must be installed, per MEC Mashinini	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Trucks must comply with all TRAFFIC REGULATIONS	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

GRAVEL  
section of S171  
must also be  
restored and  
maintained by  
MINES

**Please comment on the negative ECONOMIC impacts**

From Enviroworks EIA: "Our recommendation is that DMR carefully consider how they will ensure the effective management of the cumulative impacts of sand mining in this and other areas along the Vaal River. To do this, it will be necessary to develop a regional perspective on the existing sand and gravel mines as well as the applications for mining rights, and develop a regulatory strategy that can manage the number of mines in each locality and the economic impacts on other economic activities. With respect to the current applications by Tja Naledi and Pure Source, the economic impacts of these mines on existing economic activities and the marginal economic situation for these mines, suggests that it would not be appropriate to approve these mining applications at this stage. Alternatively, they could be approved subject to the mitigation measures recommended and included in their EMPs, if and when the mine's business financials are proven to be viable (given the broader market context) and can cover the cost of the mitigation measures that are needed to minimise the visual, noise, dust and traffic impacts. This may encourage the mining companies to look for sand mining opportunities in areas where the visual, noise, dust and traffic impacts are minor."

	ABSOLUTELY agree!	Strongly agree	Agree	Slightly agree	Disagree	STRONGLY disagree!
DMR should consider CUMULATIVE impacts of ALL MINES	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Mine applications in Vaal Eden area must be evaluated on a REGIONAL basis, not in isolation	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The economic situation for the mines is "MARGINAL"	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
"it would NOT be appropriate to approve these mining applications"	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The mines must PROVE that they can bear the	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

FINANCIAL impact of mitigation							
Mitigation measures are required for visual, noise, dust and traffic	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Financial burdens might encourage the mining companies to look for other areas	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Please feel free to include YOUR comments and objections here...**

There is an extreme breakdown in trust between [ProtectVaalEden@gmail.com](mailto:ProtectVaalEden@gmail.com) and the Applicants, their Consultants and the Mine Operators and we will be including our comments here. We have experienced bullying, threats, lies, non-compliance (especially with rehabilitation commitments), flagrant disregard for the Public Participation Process and rushed time-frames. What are YOUR experiences?

Tja Naledi and their appointed 'agents' Greenmined" pay absolutely no attention to queries raised by certain IAPS--rendering it next to impossible to comment on their plans and the impact thereof. Greenmined's answers are selective and biased to their clients --of course. The person representing the 26% partner in the operation undertook to get back to us- at a public meeting-- about agreeing to an independent oversight authority, to "police" their mining operations-- what they would do as "COMMUNITY upliftment projects": as required by the mining charter--- how they would compensate the community. Nothing has been forthcoming --all ignored ... I for one have not seen an economic viability study--a profit and loss statement--all of which are required to enable IAPS to meaningfully comment on "socio economic benefits" Greenmined provided minutes of public meeting ONLY after being forced to do so by DMR and again rendering any meaningful dialogue flowing from points raised in the minutes useless. Whilst we are TOLD all relevant elected OFFICIALS in all three affected Provinces were advised of this application ----as required ---there is ZERO concern by the impartial practitioners GREENMINED--- that NOT one ELECTED official has commented on this application and given the long term implications to all IAPS -of what will happen to EDEN --(this is EDEN) --its businesses and communities if this application is approved --when Greenmined KNOW that elected officials BY LAW have to take an interest in such matters BECAUSE the elected OFFICIALS have all sworn an OATH to uphold the Constitution and protect all our Constitutional rights ESPECIALLY our rights with regard to the environment we live in -- SURELY this is what GREENMINED have to do ???

**From:** Bob Hartsliet <bobh@dullies.com>  
**Sent:** Thursday, 28 February 2019 4:25 PM  
**To:** Yolandie Coetzee  
**Cc:** Gavin Aboud; Craig Richardson  
**Subject:** Tja Naledi

Dear Yolandie

I have been asked to elaborate on my comment submitted yesterday about my opinion of Greenmined's responsibility vis a vis the SA Constitution.  
Your company's WEB SITE states this is as your MISSION AND VISION;

In Section 1 of a document sent to me from The Centre for Environmental Rights prepared by LAWYERS FOR HUMAN RIGHTS

These lawyers state :

“The SA Constitution says that the environment must be protected for current and future generations.”

"The environment includes

THE LAND

WATER

AIR

PEOPLE

PLANTS

ANIMALS

ROADS

as well as BUILDINGS AND HOUSES"

***ALL OF THESE CAN AND ARE AFFECTED BY MINING ACTIVITIES***

**Therefore given your Companies stated MISSION AND VISION**

wherein you state GREENMINED is a **"PLANET PROTECTOR"**  
we as the general public are surely justified in our expectation that your **"PROFESSIONAL APPROACH"**

**WOULD DEMAND THAT YOU OBTAIN** —responses from the elected officials —

**COUNCILLORS- MAYORS- MEC:s - MPS--HEADS OF TOURISM BOARDS- WATER BOARDS** —in fact all persons who on being sworn into office---- in whatever capacity they have been elected to --  
**SWEAR UNDER oath to PROTECT the Rights conferred on us** —the average voting man/woman in the community—???

**IF WE CANNOT RELY ON COMPANIES SUCH AS GREENMINED to do this** —who can we rely on?

**GREENMINED are well aware of the ENVIRONMENTAL impact Tja Naledis mining operations will have**

**So to simply say to the DMR and to us as IAPS:**

**"Greenmined have contacted all relevant ELECTED officials- without any response from any of them "**

**and take this silence from these officials as tacit approval by them of your proposals — I would suggest is in contravention of everything GREENMINED profess to be as well as a dereliction of your professional responsibilities and definately in contravention of our Constitutional rights.**

**Yours  
Bob Hartslief**

Dear Yolandie,

I object in the strongest terms. You did not notify the IAPs adequately and you have not given us 30 days to comment.

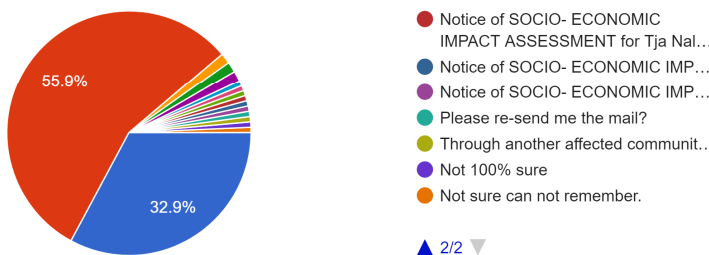

Did you receive an email notification from Greenmined on 28 January 2019?

143 responses

Did you receive an email notification from Greenmined on 28 January 2019?

143 responses

Did you even look at the comments from the IAPs we managed to contact at such short notice? Perhaps you should examine what the community says before you simply tick another box and bury 750 pages' worth of paper at the back of your

**Comments received during the Socio-Economic Impact Assessment.**

The SEIA was distributed to the I&APS on the 28<sup>th</sup> of January 2019, where they I&AP'S was allowed a 30-day commenting period that ends on the 28<sup>th</sup> March 2019. The outcome of this consultation is described in detail below. Please also refer to Appendix E for the comments that was received during the SEIA commenting phase.

Interested and Affected Party	Date Comments Received	Comments	EAPs response to issues as mandated by the applicant	Section and paragraph reference in this report where the issues and or response were incorporated.
Ngwathe Municipality – Ria Jordan	29 January 2019	Acknowledgement of receipt.	N/A	N/A
Renee Hartslielief	31 January 2019	Thanks Yolandie. As discussed when you called this morning, when you personally sent the notification to the group yesterday, It was received by us. But it was NOT received from your bulk mail handler. Except for Craig. We look forward to hearing from your marketing person about what the problem might be and how it will be corrected so that ALL IAPs are reached.	Bulk email was send via Outlook to all I&APS and Renee Hartslielief was requested by Sonette Smith to comment on the report.	N/A
Sampie Van Rooyen	6 February 2019	<p>Good day Yolandie, I hope you will find these comments useful in your EIA process. In the Economic Impact Assessment, a total of 10 impacts were identified, of which 6 were negative. Will you please indicate to what extent your client, Tja Naledi Barrage Sand Mine, will be willing to assist the affected community in mitigating these negative impacts. Please describe in your Impact Assessment the process of compensation your client proposes if they do not comply to the final EMP (Environmental Management Plan) and Mining Right.</p> <p>Please include all recommendations made by OCES in their Economic Impact Report in your final EMP to be submitted to DMR. Please include all recommendations made by Enviroworks Environmental in their Soci-Economic Impact Assessment into your final EMP to be submitted to DMR. I would also appreciate it if you highlight to DMR the Impact Statement made by Enviroworks Environmental: <i>“The findings from the SEIA indicate that the socio-economic benefits associated with the proposed amendment <b>will not outweigh the negative impacts</b>. Numerous negative impacts as a result of the sand mines in the area bother the surrounding community and the proposed amendment will compound this.”</i></p> <p>I highly recommend that you include in your final Impact Assessment and EMP (Environmental Management Plan) a recommendation for monthly Socio-economic and Economic monitoring throughout the lifetime of the mine, to ensure that the current status of the community and environment remain the same or improve. It is very important to have continuous communication and consultations with the affected community. Please explain the methods you propose to fulfil this request.</p> <p>All non-compliances to the EMP and Mining Right must be communicated to the affected community and especially to DMR. I also request that a copy of the monthly monitoring report done by the ECO (Environmental Control Officer) be furnished to all registered I&amp;AP's and DMR. Please do not hesitate to contact me if any of the comments need further explaining. Regards, Sampie</p>	<p>Thank you for your valued comments. Your comments will be incorporated into the Final BAR that will be submitted to the DMR. The SEIA's management and mitigation measure was incorporated into this FBAR. All statements made by Enviroworks Environmental was incorporated into this FBAR as well as the SEIA that was incorporated into the report as Appendix H. Monthly Socio-Economic Monitoring throughout the life of mine will be investigated. A quarterly forum will be established so that all registered I&amp;AP's and community members can raise their comments and concerns during the lifetime of the project. All ECO and EPA reports are available on site and can be viewed by all registered I&amp;AP's.</p>	<p>Please refer to Par H) iv) Socio-Economic Study for the responses incorporated into the report. Please refer to Part B), 1), e) for the management and mitigation measures.</p>

Errol White	11 February 2019	<ol style="list-style-type: none"> <li>1. The LOCAL COMMUNITY benefits are marginal</li> <li>2. Our TOURISM sector would be further threatened</li> <li>3. The MINES must be responsible for reconstruction and maintenance of the Vaal Eden ROAD, from the N1 bridge to the R59 at the Parys Airfield</li> <li>4. The negative impacts of 3 mines are CUMULATIVE and cannot be considered in isolation from each other</li> <li>5. The required MITIGATION measures would render the mines UNPROFITABLE</li> <li>6. There are OTHER PLACES designated by Ngwathe for gravel mining</li> </ol>	<p>Thank you for your valued comments. Your comments will be incorporated into the Final BAR that will be submitted to the DMR.</p> <p>All questions has been addressed in the SEIA.</p> <p>Please refer to section above regarding the road S717 and the agreement that will be set in place relating to the Vaal-Barrage road.</p>	<p>Please refer to Par H) iv) Socio-Economic Study for the responses incorporated into the report.</p>
Fezile Dabi District Municipality	15 February 2019	<p>The SEIAR was read together with the economic impact assessment report for the project. FDDM notes that the project is unlikely to improve the livelihoods of people in proximity to the mine, whether from the Free State or Gaiting side. Employment opportunities and improvement of peoples lived is what remains high in the wellbeing of communities. It is noted that the document also took into account the existence of other sand mines in vicinity of Tja Naledi, and once can reasonable conclude that it is unlikely that all these mined comply with their environmental authorisations conditions. It is indicated that already there non-compliance picked from the contractor operation the mine, SPH Kundalila and that it in itself should be a worrying factor. FDDM would like to submit that report is noted and there and no major objection to the project, however it important for DMR to ensure that Tja Naledi complies with its current mining conditions or at least there is clear plan to ensure compliance where non-compliance has been picked before amending the mining right to accommodate mining aggregates and further crushing and screening processes which could require stricter operating conditions.</p>	<p>Thank you for your valued comments. Your comments will be incorporated into the Final BAR that will be submitted to the DMR.</p> <p>All non-compliances has been addressed by SPH Kundalila. EPA report has been conducted by Greenmined Environmental and submitted to DMR for perusal.</p>	<p>Please refer to Par H) iv) Socio-Economic Study for the responses incorporated into the report.</p>
Gavin About	20/02/2019	<p>I refer your mail requesting comment on the subject. Whilst I regard the report and honest one, I think the negative aspects on the mining on the surrounding areas is understated from both a Socio and Economic aspect.</p> <p>If we look just at the informal settlement and the jobs provided in Vaaloewer , Lindequesdrift and Vaaleden, and we compound this with the resorts in the area, we estimate that at least 1000 people are employed in the area.</p> <p>If we work on the assumption that there are 5 dependants associated to those employed, this number grows to 6 000. The enormity of this impact is not clearly stated in the report. I request that this aspect be revisited and that I be consulted in this regard.</p>	<p>Thank you for your valued comments. Your comments will be incorporated into the Final BAR that will be submitted to the DMR.</p> <p>As described above, While only a six (6) employment opportunities will be created, this can be enhanced by Local Economic Development initiatives.</p>	<p>Please refer to Par H) iv) Socio-Economic Study for the responses incorporated into the report.</p>
Louis Kruger	20/02/2019	<p>Hi Gavin. I support your view 100%</p> <p>I think it is imperative now that the frame of reference to the 2011 census must be challenged as their was exponential growth, private development in the area and rapidly and drastically changed employment numbers associated with tourism, lodges etc. Again the reference must census be to the Spatial Development plan of Tlokwe that clearly defines the area as a tourism corridor, with advantage that it form part of the Vredefort Done heritage site and the vaal river corridor that support the spacial development plan of Tolkwe. I will also avail myself for more detailed discussions</p>	<p>The 2011 Census will thus be the third census conducted by a democratic South African government and forms part of the 2010 round of African censuses, which aim to provide comprehensive data on the continent, for improved planning and to aid development. A population census is typically held every five years, but because of a lack of capacity within Statistics South Africa, it was decided that the interval will be extended to 10 years. Reference was made to die Spatial Development Plan for Tlokwe, which is not applicable to the Spatial Development Plan for the Free State Province.</p>	<p>Comments are not applicable to BBSM.</p>

Protect the Vaal	28/02/2019	<p>Survey was conducted by Protect the Vaal consulting all registered I&amp;APs. Comments received included the following:</p> <ol style="list-style-type: none"> <li>1. We're experiencing a major dust problem in the Riviersig Street area in Vaal Oewer - massive dust storms are hitting us regularly from the existing mining operations. Noise pollution is also a big issue - the trucks are clearly audible all hours of day, especially the constant "peeping" sounds used when reversing. The new applications will increase mining operations significantly, and will bring them much closer to the river, which will lead to a vastly worsened situation. They are also already an eye-sore, and destroy the sense of place and serene natural environment of the Vaal Oewer area. This will also worsen dramatically if the new applications are approved. They are destroying the value of the community's homes, and will destroy local tourism and jobs.</li> <li>2. The total disregard and lack of respect for this mine to the surrounding areas, residents, natural environment and rehabilitation has been disappointing at least. To allow this sort of corporation to further destroy the environment and further disgruntle long term residents inhabitants of the area to benefit a few, would be nothing short of a criminal act.</li> <li>3. This area is in no condition to support this mining activities. There are limited ground water resources, which needs to be protected for the existing tourism activities and existing local communities.</li> <li>4. Mining will break down the local leisure and tourism business that is providing many sustainable job opportunities in the areal</li> <li>5. Property Values already started declining and buyers walk away if they hear about the mines.</li> <li>6. No compliance</li> <li>7. One of the minerals they want to mine is gravel. Accoding to their maps this area is a substantial area most of which are koppies of solid very hard rock. To exploit this they will have to do blasting and use crusschers. The said the will only use diesel diggers, loaders and trucks. No dinamite no blasting and no crussing. This blasting will probably start soon after mining begins and will happen about twice per week over 30 years. We live in Riviesig cres. About 100 m from the river which is about 100 m wide and they will mine up to 100m from the river. 300 m from where I live. Groete. Hannes.</li> <li>8. Went to a meeting ,, with their specialists,, ill prepared ,totally focused on the business end ,,not the impact it shall have</li> <li>9. They are still mining but nothing have been legal... Money is their main aim</li> <li>10. Our market value of our property will fall they must buy my property for the market value.</li> <li>11. These people are arrogant they lie in your face and don't care about the impact of the mine where we live... They bribe people to cover for them</li> <li>12. We are been bullied by money gods and if they want to continue i will lose value on my property</li> <li>13. Tja Naledi and their appointed 'agents" Greenmined" pay absolutely no attention to queries raised by certain IAPS--rendering it next to impossible to comment on their plans and the impact thereof. Greenmineds answers are selective and biased to their clients --of course.</li> <li>14. The person representing the 26% partner in the operation undertook to get back to us- at a public meeting-- about agreeing to an independent oversight authority, to "police" their mining operations-- what they would do as "COMMUNITY upliftment projects": as required by the mining charter--- how they would compensate the community. Nothing has been forthcoming --all ignored ...</li> </ol>	<p>All comments where incorporated into the Final Public Participation documents and FBAR.</p> <ol style="list-style-type: none"> <li>1. Please refer to section above regarding the Dust, Visual and Noise and the management and mitigation measures. The Tja Naledi Mining Right is not a new application, but an amended to the current existing Mining Right Application.</li> <li>2. Noted.</li> <li>3. DMR has granted the existing mining right in 2014.</li> <li>4. Noted.</li> <li>5. Please refer to the Economic Impact Assessment that was conducted by Enviroworks.</li> <li>6. Noted.</li> <li>7. No blasting to be conducted as stated in the FBAR. No mining will be conducted within 500m from the Vaal River. Please refer to maps as indicated in Appendix A-D.</li> <li>8. Please refer to the meeting minutes and the presentation that was held in Parys town hall. Impacts that the mining area will have on the environment, was the topics to be discussed during the meeting, but the chairperson of protect the Vaal, Gavin Aboud, did not allow Greenmined or Tja Naledi to continue with the presentation (as recorded in the voice recordings).</li> <li>9. Tja Naledi has a legal current mining right.</li> <li>10. Please refer to the Economic Impact Assessment conducted by Environworks.</li> <li>11. Noted. No bribes.</li> <li>12. Noted.</li> <li>13. All comments received from I&amp;Aps have been incorportated into the FBAR as well as the Public Participation Appendices.</li> <li>14. The SLP is still in process with the municipality as the municipality still needs to provide Tja Naledi with and LED project. Please also refer to Appendix E of the Socio-Economic study for the Economical Impact Assessment. All meeting minutes was provided publicly after the meeting was held. Please refer to Appendix E for the Public Participation meetings. All documents where made public on the</li> </ol>	<p>Please refer to Appendix E for the Public Participation Process that was conducted.</p>
------------------	------------	---	--	--

		<p>I for one have not seen an economic viability study--a profit and loss statement- -all of which are required to enable IAPS to meaningfully comment on "socio economic benefits"</p> <p>Greenmined provided minutes of public meeting ONLY after being forced to do so by DMR and again rendering any meaningful dialogue flowing from points raised in the minutes useless.</p> <p>Whilst we are TOLD all relevant elected OFFICIALS in all three affected Provinces were advised of this application ----as required ---there is ZERO concern by the impartial practitioners GREENMINED--- that NOT one ELECTED official has commented on this application and given the long term implications to all IAPS -of what will happen to EDEN --(this is EDEN) --its businesses and communities if this application is approved --when Greenmined KNOW that elected officials BY LAW have to take an interest in such matters BECAUSE the elected OFFICIALS have all sworn an OATH to uphold the Constitution and protect all our Constitutional rights ESPECIALLY our rights with regard to the environment we live in --</p> <p>SURELY this is what GREENMINED have to do ???so they must purchase my property for the market value not negotiable.</p> <p>15. I have just moved here to the Vaal and strongly disagree to the mining especially with all the negative implications on the environment and the community. It is a disadvantage to the community who live here due to the dust and the negative impact on our health.</p> <p>16. I BELIEVE THE PROPOSED MINE WILL FURTHER IMPACT DISASTROUSLY ON THE ALREADY STRESSED (AND MESSED) VAAL RIVER WHICH HAS BECOME A MEANS FOR SEWERAGE DISPOSAL WHICH THE USELESS EMFULENI MUNICIPALITY IS NOT QUALIFIED TO REMEDY. FURTHERMORE IT WILL PROBABLY ATTRACT MORE CRIMINALS TO THE AREA AND FURTHER DEVALUATE THE PROPERTIES AT VAALOEWER AND SURROUNDING AREAS.</p> <p>17. I object to this application for this development due to the Negative Environmental impact on the Vaal river area, and the negative Financial impact on our properties next to the river.</p> <p>18. The added strain to an already badly polluted Vaal River due to mining is of major concern. The added dust from mining activities is already evident.</p> <p>19. I strongly oppose all mining activity in the area as it serves no benefit at all for the nearby residents but exposure to noise and dust pollution and loss in property values. There is absolutely no gain but hardships for the residents living next to or near the planned mining area. The fona and flora will be destroyed. Underground water sources will be depleted. The river will be impacted not only in this area bit also downstream. There is no positive outcome for mining in this area but the enrichment of the mine owners and shareholders.</p> <p>20. There is no trust - I believe they are not interested in what we have to say.</p> <p>21. Health issues for sinus sufferers must also be taken into account. With extra foreign particles being expelled into the air this is affecting people with sinus problems.</p> <p>22. Please note that no mines should operate, in or around anywhere near the Vaal river. I don't agree with some of the questions that stated that the mines need to comply with various restrictions and or requirements. these mines are and jave been operation illegally and should receive any permission nor even be mining.</p>	<p>Greenmined website. Greenmined can not be held responsible if state departments does not response to our public participation process if contact was made in numerous methods with the departments.</p> <p>15. Noted. Please refer to comments above.</p> <p>16. Noted. Please refer to the Socio-economic Impact assessment discussed the crime impact on the area.</p> <p>17. Noted.</p> <p>18. Noted. Please refer to the sections below regarding the dust and water impacts and their associated management and mitigation measures.</p> <p>19. Please refer to comments above regarding the dust, noise, biodiversity and water impacts on the area.</p> <p>20. Noted.</p> <p>21. Noted. Please refer to dust mitigation measures.</p> <p>22. Tja Naledi has a current approved mining right from the DMR.</p>

Interested and Affected Party	Date Comments Received	Comments	EAPs response to issues as mandated by the applicant	Section and paragraph reference in this report where the issues and or response were incorporated.
		<p>So not even the slightest edge should be given to any mine to undergo in any mining operations anywhere close to the life source of the Vaal river.</p> <p>23. MITIGATION: there should be no mining at all in the Vaal Eden area. Mining is taking place contrary to zoning and SDF as a result of flawed Public Participation Processes and officials not following due process and acting without authorisation. The Vaal Eden area AS WELL AS the area on the opposite side of the Vaal River in both the North West and Gauteng Provinces have been zoned for agriculture and tourism. Both FS Provincial and Fezile Dabi &amp; Ngwate Municipal guidelines and policies call for interprovincial consultation regarding cross border activities and this was not done.</p> <p>24. ROADS: All legislated signage should be in place irrespective of mining activities, as should the policing thereof. The same pertains to road maintenance. The fact this all the aforesaid is not being carried out, adds justification to opposing any further mining in the Vaal Eden area. Provincial and municipal budgets are inadequate to police or maintain roads and self regulation by the mines, based on their historic compliance is ludicrous.</p> <p>25. ECONOMIC IMPACT: The natural beauty of the area and its sense of place is the draw card for tourism activities and it is being seriously threatened by the mining activities. The Vaal Eden area together with the town of Parys, the Vredefort Dome World Heritage Site and Potchefstroom is considered a prime tourism destination. There is an incredibly huge untapped market on the doorstep of the area, viz Gauteng as well as international tourists arriving via Oliver Tambo airport. The tourism organisations from the above mentioned areas are now combining efforts to highlight this prime destination that offers nature, wildlife, cultural heritage, education, sporting and outdoor activities, arts, festivals, cuisine and shopping experiences. There is no other region closeby (if anywhere in the country) that can offer all of the above - The tourism potential together with related job growth is ENORMOUS and growing, it is SUSTAINABLE, it is a set GOAL of National Government. The small benefits accruing to a limited number of individuals from opencast sandmining for the next 30 plus years, will destroy the surrounding environment, negatively impact on the health and livelihoods of the community, and severely impact on the positive benefits that tourism could bring to the area.</p> <p>26. No mining.</p> <p>27. Already experienced dust and noise.</p> <p>28. I am aware of it.</p> <p>29. They are ruthless dictators!</p> <p>30. Not personally, but we are aware of it....</p> <p>31. These mines are ruining the beauty of the area and destroying the river and life in the river!!!!</p> <p>32. The mining is destroying the natural beauty of the river and surrounding areas. It is a threat to every person's investment in the Vaaloewer and surrounding areas and should not be allowed.</p> <p>33. Dust storms from the mines have been horrible. Annoyed that these mines have disregarded rehabilitation and I do not feel they are trustworthy. DMR seem to be unable to monitor them.</p>	<p>23. Interprovincial consultation has been conducted regarding cross border activities. Please refer to Appendix E for the public participation process that was followed.</p> <p>24. Please refer to the section below regarding the access roads to site and the S721.</p> <p>25. Noted.</p> <p>26. Noted.</p> <p>27. Noted. Please refer to comments above regarding dust and noise.</p> <p>28. Noted.</p> <p>29. Noted.</p> <p>30. Noted.</p> <p>31. Noted.</p> <p>32. Noted. Please refer to comments above regarding dust.</p>

		<p>34. The entire thing is disgusting. This would never happen overseas thru do it all wrong here could not care about the future of their families.</p> <p>35. IAP'S NO TRUST IN PROCESS</p> <p>36. IAP just walked over with the process</p> <p>37. Always Noise and Dust in the area, during weekends as well. Water from the Vaal River is being pumped up on various weekends.</p> <p>38. It is the ages old case of David against Goliath. Our community will fight till the end against the powerful and money hungry Goliath who think they have carte blanche to rape our beautiful river and environment.ENOUGH!!!!!!!!!! The mines have no regard for the PEOPLE 'S GRIEVANCES...THE ENVIRONMENT THEY ARE SCARRING....AND ABOVE ALL...NO REGARD FOR LAWFUL PROCEDURES... Regards U.L.KLEBBA.</p> <p>39. I am in total agreement with the above statement</p> <p>40. As individual we get steamrollered with the process which is not easy to understand all affects and future issues.</p> <p>41. With previous experience I strongly don't trust them and don't want them to do any mining or any other work in this area. I agree hundred percent with all the comments and objections that was made in the above mentioned statement.</p> <p>42. They are not reliable. Mining in our area will rob us from so much we have at the moment.</p> <p>43. The roads are not designed to handle ongoing heavy vehicle traffic and will rapidly fall into a state of total disrepair. Dust, noise and the impact on the roads will negatively affect the ecotourism (including lodges and wedding venues) that are providing jobs and upskilling the community.</p> <p>44. The roads are not designed to handle ongoing heavy vehicle traffic and will rapidly fall into a state of total disrepair. Dust, noise and the impact on the roads will negatively affect the ecotourism (including lodges and wedding venues) that are providing jobs and upskilling the community.</p> <p>45. THIS IS A TOURISM AERIA THAT WILL BE ----"FUCKED UP BY PEOPLE THAT HAS BEEN BRIBED.</p> <p>46. NOBODY IN OUR AREA KNOWS OF ANY ENVIROMENTAL STUDIES THAT WAS DONE HERE!!!!</p> <p>47. Onanvaarbaar</p> <p>48. Vakasie area. Gaan myn op n ander plek.</p> <p>49. Health risks on the surrounding community far outweighs any financial gain from these mines.</p> <p>50. Lies by Yolande of Greenminded and Tja Naledis Attorneys, noncompliance, noise nuisance, no notification as legally required to immediate neighbours. No benefit to surrounding community. Absentee landlord using a contractor SPH using "imported labour". No disclosure of the Social Labour plan for Tia Naledi or neighbouring mines. Total destruction of the value of neighbouring properties and sense of place. The mines will cause economic loss to the area of billions of rand. Area being mined currently is zoned agricultural.</p> <p>51. Similar experience. They only act in their own interest.</p> <p>52. Not playing open cards</p>	<p>33. Noted.</p> <p>34. Noted.</p> <p>35.
