Dear Adel Olivier

LAND CLAIMS ENQUIRY

- **Farm Vingerfontein No 162 Portion 1 and Portion 2 of Farm Vingerfontein No 162, Ubuntu Local Municipality, Victoria West Magisterial District.**

We refer to your letter received: **22 October 2025.**

We confirm that as at the date of this letter that no land claim appears on our database in respect of the Properties this includes the database for claims lodged by 31 December 1998; and those lodged between 1 July 2014 and 27 July 2016 in terms of the Restitution of Land Rights Amendment Act, 2014.

Whilst the Commission takes reasonable care to ensure the accuracy of the information it provides, there are various factors that are beyond the Commission's control, particularly relating to claims that have lodged but not yet been gazetted such as:

- Some Claimants referred to properties they claim dispossession of rights in land against using historical property descriptions which may not match the current property description; and
- Some Claimants provided the geographic descriptions of the land they claim without mentioning the particular actual property description they claim dispossession of rights in land against.

The Commission therefore does not accept any liability whatsoever if through the process of further investigation of claims it is found that there is in fact a land claim in respect of the above property.

If you are aware of any change in the description of the above property after 19 June 1913 kindly supply us with such description so as to enable us to do a further search.

Yours faithfully

pp

Dr. M. Du Toit

EDITOR'S LETTER

As we step into 2026, Victoria West Rekord extends warmest New Year wishes to you.

The dawn of a new year brings a clean slate, abundant opportunities, and a chance to reflect on what lies ahead. Rather than striving for a "New You," we advocate embracing your unique self.

Authenticity is key to a fulfilling life, allowing you to express yourself genuinely and foster meaningful connections. New Year's resolutions can be daunting, often setting unrealistic expectations. Instead, focus on setting achievable goals, prioritizing self-reflection, and embracing your individuality.

Here's to a year of self-discovery, growth, and embracing your true self. The following tips may help you stick to your New Year's resolutions.

TIPS FOR STICKING TO YOUR RESOLUTION:

Create a Routine: The key to success is discipline and consistency.

Start Small: Begin with a small, manageable commitment, like 10-15 minutes a day, to build momentum and avoid feeling overwhelmed.

Minimize Distractions

Track Your Progress

Be Kind to Yourself: Acknowledge slip-ups and get back on track the next day. The goal is consistency, not perfection.

Find an Accountability Partner: Share your goal with a friend or family member who can provide support and keep you motivated.

JUSTICE DELIVERED IN GBVF CASE

VICTORIA WEST: 2025 was eventful, we put together some of the stories that made headlines. In a landmark sentence, the Victoria West Regional Court handed down a 25-year direct imprisonment to Jan Jonkers (37) for the brutal murder of his girlfriend, Charlene Tieties (31). The incident occurred on 30 January 2025, when Jonkers viciously assaulted and stabbed Tieties at their residence. The court emphasized the gravity of the offence, highlighting the devastating impact on the victim's

family and community. State Prosecutor Caswell Joseph argued for a life sentence, but the court found substantial and compelling circumstances to impose a 25-year term. **Child Rapist Sentenced to 263 Years:** In a separate case, a 48-year-old man from Victoria West was sentenced to 263 years' imprisonment for heinous sexual offences against young children in 2016. The accused was convicted of rape, attempted rape, and other charges, and will have his name entered into the

National Register for Sexual Offenders. **Community Safety Measures:** The SAPS encourages residents to implement safety measures to reduce burglary risks, including installing security systems, securing doors and windows, and reporting suspicious activity. These sentences demonstrate the court's commitment to addressing GBVF and protecting vulnerable members of the community.

RE:BASIC ASSESSMENT REPORT And ENVIRONMENTAL MANAGEMENT PROGRAMME REPORT FOR THE PROPOSED AGGREGATE MINE ON PORTION 1 AND 2 OF THE FARM VINGERFONTEIN 162, SITUATED IN THE MAGISTERIAL DISTRICT OF VICTORIA WEST, NORTHERN CAPE PROVINCE.

Reference is hereby made to the application for a closure certificate as presented to this Department by the Department of Mineral Resources (DMR) under reference **NC30/5/1/3/2/11318MP**.

- I. **Water Use Authorization Compliance**
We support the application for a Water Use Authorization under the National Water Act to ensure all water abstraction activities, including sourcing water for dust suppression, are legally authorized and environmentally sustainable. Proper licensing will prevent unauthorized water use and protect the fragile hydrological regime of the region.
- II. **Protection of Watercourses and Drainage Features**
The proposed project has confirmed that there are no perennial rivers or wetlands within or near the quarry footprint. However, minor ephemeral drainage lines exist and will be protected through the implementation of stormwater and erosion control measures. These precautions are essential to maintain natural flow patterns and prevent water pollution or alteration of watercourses, in line with Section 21 of the National Water Act.
- III. **Erosion and Stormwater Management Measures**
Given the semi-arid climate and episodic rainfall, rigorous erosion and stormwater management plans will be implemented, especially where the access road intersects minor drainage features. This will help prevent sediment runoff and protect water quality in accordance with the National Water Act requirements.

RE:BASIC ASSESSMENT REPORT And ENVIRONMENTAL MANAGEMENT PROGRAMME REPORT FOR THE PROPOSED AGGREGATE MINE ON PORTION 1 AND 2 OF THE FARM VINGERFONTEIN 162, SITUATED IN THE MAGISTERIAL DISTRICT OF VICTORIA WEST, NORTHERN CAPE PROVINCE.

- IV. Monitoring and Compliance During Operations**
Continuous monitoring of water abstraction points and runoff control measures will be conducted throughout the project life. This proactive approach ensures compliance with the National Water Act, minimizes impacts on local hydrology, and safeguards water resources for future use and ecological health.

Furthermore, any pollution incidents related to the site must be promptly reported to the Department of Water and Sanitation within 24 hours to ensure swift response and mitigation, thereby minimizing environmental harm and ensuring compliance with legal obligations.

Please feel free to contact this department, should there be any enquiries.

Yours sincerely,

pp
