<p>Interim Comment received 12 August 2021</p> <p>It is noted that a desktop HIA inclusive of a Palaeontological Impact Assessment (PIA) will be undertaken during the Environmental Impact Assessment (EIA) phase.</p> <p>The archaeological component of the HIA should follow the SAHRA 2007 Minimum Standards: Archaeological Component of Impact Assessment Report. The quickest process to follow for the archaeological component would be to contract a qualified archaeologist (see www.asapa.co.za or www.aphp.org.za).</p> <p>The desktop PIA must be undertaken by a qualified palaeontologist (See www.palaeosa.org/heritage-practitioners.html for a list of qualified palaeontologists). The report must comply with the 2012 Minimum Standards: Palaeontological Components of Heritage Impact Assessments.</p> <p>Further comments will be issued upon submission of the HIA and the draft EIA inclusive of appendices.</p> <p>Should you have any further queries, please contact the designated official using the case number quoted above in the case header.</p>
