

APPENDIX A – PUBLIC PARTICIPATION

INVEST IN PROPERTY 99 (PTY) LTD (“APPLICANT”) INTENDS APPLYING FOR A MINING RIGHT IN RESPECT OF THE FOLLOWING PROPERTIES, AS LISTED BELOW, WITHIN THE LEJWELEPUTSWA MAGISTERIAL DISTRICT OF THE FREE STATE PROVINCE

REF NO: FS 30/5/1/2/2/10066 MR

JULY 2021

**EXAMPLE OF THE BACKGROUND INFORMATION DOCUMENT SENT TO
INFORM THE STAKEHOLDERS AND I&AP'S**

1 November 2018

To whom it may concern

RE: NOTICE OF APPLICATION IN TERMS OF SECTION 22 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED)

Invest in Property 99 (Pty) Ltd ("Applicant") intends applying for a mining right in respect of the following properties, as listed below, within the Lejweleputswa magisterial district of the Free State Province.

PROPERTY DESCRIPTION	
APPLICATION AREA	SUB-DIVISION DESCRIPTION
Whole farm of Abramsyskraal 175 RD	<ul style="list-style-type: none"> ➤ Portion 0 (Remaining Extent) of the farm Abramsyskraal 175 RD ➤ Portion 1 of the farm Abramsyskraal 175 RD ➤ Portion 2 (Remaining Extent) of the farm Abramsyskraal 175 RD ➤ Portion 3 of the farm Abramsyskraal 175 RD ➤ Portion 6 of the farm Abramsyskraal 175 RD ➤ Portion 8 of the farm Abramsyskraal 175 RD

Whole farm Thorburnton 106 RD	➤ Portion 0 of the farm Thorburnton 106 RD

SITE DESCRIPTION

The application area is situated approximately 56 km north of Boshof, and ±53 km west of Hertzogville extending from the eastern bank of the Vaal River in land. The extent of the proposed mining area is 20 340.26 ha, and the GPS coordinates of the area to be applied for are as listed below.

GPS COORDINATES OF MINING RIGHT AREA	
DEGREES MINUTES SECONDS	DECIMAL DEGREES

LEGAL COMPLIANCE

The proposed project triggers the following listed activities in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) and the Environmental Impact Assessment Regulations 2014 (as amended 2017) and therefore requires an environmental impact assessment to be carried out in order to obtain environmental authorisation:

➤ GNR 325 Listing Notice 2 of 2017 Activity 15:

The clearance of an area of 20 hectares or more of indigenous vegetation.

➤ GNR 325 Listing Notice 2 of 2017 Activity 17:

Any activity including the operation of that activity which requires a mining right as contemplated in section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including –

- a) Associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or*
- b) The primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.*

➤ GNR 327 Listing Notice 1 of 2017 Activity 22:

The decommissioning of any activity requiring –

- i) a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or*
- ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.*

➤ GNR 327 Listing Notice 1 of 2017 Activity 24:

The development of a road –

- ii) with a reserve wider than 13.5 meters, or where no reserve exists where the road is wider than 8 metres.*

➤ GNR 327 Listing Notice 1 of 2017 Activity 28:

Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:

- ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.*

➤ GNR 327 Listing Notice 1 of 2017 Activity 56:

The widening of a road by more than 6 metres, or the lengthening of a road by more than 1 kilometre –

- i) Where the existing reserve is wider than 13.5 metres; or*
- ii) Where no reserve exists, where the existing road is wider than 8 metres.*

OTHER LEGISLATION TRIGGERED BY THE PROPOSED PROJECT:

- An application for a Mining Right in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) will be submitted to the Department of Mineral Resources – Free State Province.
- An application for a Water Use License in terms of the National Water Act, 1998 (Act No 36 of 1998) will be submitted to the Department of Water and Sanitation.
- A heritage impact assessment, inclusive of a palaeontological opinion, will be submitted to the South African Heritage Resources Agency (SAHRA) in terms of the National Heritage Resources Act, 1999 (Act No 25 of 1999).

PROJECT DESCRIPTION

The applicant currently holds a prospecting right (FS 30/5/1/1/2/474 PR) over the proposed mining right application area, where the prospecting for alluvial diamonds is in progress. Owing to the outcome of the prospecting operation up until now, the applicant wishes to convert the prospecting right into a mining right for the winning of alluvial diamonds, gold and sand.

The mining method to be used, will resemble the current prospecting invasive activities implemented by the applicant, as part of the approved prospecting right. Upon the prospecting and exploration of allowable (agreed to by the landowner) farm portions to determine the precise location and direction of the channels to be mined, the opencast and strip-mining method will be implemented to recover the alluvial diamond bearing gravel of the footprint area. After the removal of topsoil, excavators will open pits of ±350 m² that will vary in depth from 300 mm – 1.2 m depending on the presence of the diamondiferous gravel. The diamondiferous gravel will then be excavated and transported to the processing area where it will be fed into a scrubber and sizing screen. Excess sand will be removed, and the product will continue from the material conveyor to a stockpile, from where it will be fed into the washing pans. The concentrated product from the pans will be extracted into steel containers that will be loaded onto a truck and transported to an off-site recovery plant. The paddle from the washing pans will be pumped into the settling pond where excess water is allowed to evaporate. Oversized rock, sand and tailings will be used to refill the excavation and landscape the disturbed area prior to the replacement of the previously stockpiled topsoil.

Should gold be recovered from the concentrated product, at the recovery plant, the applicant will sell the mineral in accordance with the approved mining right. No additional activities/process will be required to win/extract gold from the mining right area. Sand screened from the diamondiferous gravel will be sold to the building industry on a supply-and-demand basis.

It is proposed that six sites will be operated simultaneously within the footprint of the mining right area. The estimated footprint of a single site will be ± 2 ha meaning that the unrehabilitated mining areas calculates to ± 12 ha at any given time.

THE MINING ACTIVITIES (AT A SINGLE SITE) WILL CONSIST OF THE FOLLOWING:

1. Stripping and stockpiling the topsoil;
2. Excavating pits to uncover the diamondiferous gravel;
3. Processing the excavated material;
4. Transporting the product to the off-site recovery plant;
5. Backfilling the excavation;
6. Rehabilitating the settling pond footprint;
7. Removing the temporary infrastructure from the processing area;
8. Ripping compacted areas, landscaping and replacing the topsoil; and
9. Vegetating the entire reinstated area.

The applicant will exclusively make use of temporary equipment that can easily be removed upon rehabilitation of the affected area.

EACH MINING SITE WILL CONTAIN THE FOLLOWING:

- Excavation Equipment;
- Earth Moving Equipment;
- Screens, conveyors and pans of the processing plant;
- Containers for administration, storage and workshop purposes;
- Mobile ablution facilities;
- Generator;
- Diesel tanks (<80 m³);
- Water winning and storage equipment; and
- A settling pond.

The life of mine is expected to be in excess of 30 years, and the applicant will apply for the mining right to be valid for a 30-years period.

ACCESS ROUTE:

- Access to the farms are from the provincial surfaced road, crossing the properties, from Christiana in the north running parallel to the Vaal River in a south-western direction.

- The applicant will strive to make use of the existing farm roads as far as possible, however some new roads, or upgrading of existing roads may be required to reach allowable mining areas. The construction of a new access road will be in consultation with the landowner and will as far as possible be kept to already disturbed areas following fence lines or similar infrastructure.
- Haul roads, at each operational site, will be extended as mining progress, and will be rehabilitated as part of the final reinstatement of the area.
- All roads will be selected to avoid watercourses and steep gradients. Adequate drainage and erosion protection in the form of cut-off berms or trenches will be provided where necessary.

WATER USE:

- Water for processing purposes will be extracted from the Vaal River upon approval received from the Department of Water and Sanitation.
- Potable water will be obtained from existing boreholes on the farms in accordance with landowner approval.

ELECTRICITY:

- The applicant will make use of generators to power the processing plant and office equipment.
- Should a connection to the national grid be approved by Eskom the generators will be replaced, only to be used as a backup.

BRIEF SITE DESCRIPTION

VISUAL EXPOSURE:

- Even though the proposed mining area extends over a vast footprint area, only ±12 ha will be disturbed at any given time as the applicant will implement the strip-mining method which requires the rehabilitation of an excavated area, prior to the opening of a consecutive site.
- The nature of the proposed mining method and the use of temporary infrastructure does not create a significant visual impact, and the activities will be screened by the existing vegetation of the study area. Unless mining takes place immediately adjacent to the provincial road, no mining activities will be visible to road users, and it is believed that the negative visual impact on the landowners will be of low significance should the applicant rehabilitated as mining progress.
- Upon final closure, it will be ensured that all disturbed areas are rehabilitated and sloped to return the footprint to its previous- or a better state.

EXISTING INFRASTRUCTURE:

- Various power lines traverse the properties.
- Farm buildings and associated infrastructure such as dams, roads, pivots, radio towers etc. is present throughout the proposed mining right area.

- As mentioned, a provincial surfaced road runs parallel to the Vaal River and traverse various properties.

VEGETATION COVER:

- The vegetation cover of the application area varies from highly degraded to natural with a well-established layer of indigenous vegetation representative of the Kimberley Thornveld (SVk 4), Schmidtsdrift Thornveld (SVk 6), or the Highveld Alluvial Vegetation (Aza 5) as classified by Mucina and Rutherford (2006).
- The areas used by the landowners for crop production will not be disturbed by the proposed mining activities, as the applicant will establish the mining areas on the undeveloped parts of the farms. This will necessitate the removal of indigenous vegetation to allow access to the mineral.
- A list of red data and/or protected species that may be present within the natural areas will be compiled during the environmental impact assessment, and the applicant will have to obtain the necessary permits from the Free State Department of Economic, Small Business Development, Tourism and Environmental Affairs prior to the removal, translocation or destruction of said species.
- Upon rehabilitation, the disturbed footprint will be vegetated with locally adapted indigenous grass species.

SURFACE AND GROUND WATER:

- The proposed mining area borders the Vaal River, and encloses various tributaries, drainage channels, earth dams, boreholes and some wetlands and pans.
- The applicant will not mine within 100 m from any natural water source, and the project is therefore not expected to have a negative impact on the surface and/or ground water of the area.
- Mining operations may however come within 500 m from wetlands, and a comprehensive hydrological study will be conducted as part of the water use licence application to be submitted to the Department of Water and Sanitation (DWS) for authorisation.
- As mentioned earlier process water will be extracted from the Vaal River upon approval by DWS and potable water will be obtained from existing boreholes on the farms upon receipt of approval from the landowner.
- Should the applicant comply with the conditions of the water use licence and requirements stipulated by DWS as part thereof; at this preliminary stage the negative impact on the surface/ground water of the study area is deemed to be of low significance.

SITES OF ARCHAEOLOGICAL AND CULTURAL INTEREST

- An archaeologist will be contracted to comment on the heritage impact of the proposed activity. The heritage impact assessment will include a desktop study on the palaeontological status, and proposed impact thereto, of the study area.

FAUNA:

- The fauna at the site will not be impacted by the proposed mining activity as it will be able to move away or through the site, without being harmed.
- Operational areas will be fenced to prevent domestic animal and/or game entering the work areas getting trapped in excavations/settling ponds.

POTENTIAL ENVIRONMENTAL IMPACTS

DUST:

- After hours, excavation- and earthmoving equipment will remain on-site to lessen the traffic volume on the farm roads.
- The speed of mining equipment travelling on the access roads will be limited to 30 km/h to prevent the generation of excessive dust.
- Roads will be sprayed with water or an environmentally friendly dust-allaying agent that contains no PCB's (e.g. DAS products) if dust is generated above acceptable limits.
- Stockpile- and denuded areas will be moistened when necessary to suppress fugitive dust.

NOISE:

- It will be ensured that employees and staff conduct themselves in an acceptable manner while on site.
- All mining vehicles will be equipped with silencers and maintained in a road worthy condition in terms of the Road Transport Act.

ABLUTION, WASTE WATER & WASTE DISPOSAL:

- Ablution facilities will drain into a septic tank that will be pumped, when necessary, by the municipality or a similar qualified contractor.
- Any effluents containing oil, grease or other industrial substances will be collected in a suitable receptacle and removed from the site, either for resale or for appropriate disposal at a recognised facility.
- Spills will be cleaned up immediately to the satisfaction of the Regional Manager by removing the spillage together with the polluted soil and by disposing of it at a recognised facility.
- Non-biodegradable refuse such as glass bottles, plastic bags, metal scrap, etc., will be stored in a container at a collecting point and collected on a regular basis and disposed of at a recognised landfill site. Biodegradable refuse generated will be handled as indicated above.
- No waste will be burned or buried on site.

FINAL REHABILITATION

- Rehabilitation of all the disturbed surface areas shall entail landscaping, levelling, top dressing, land preparation, seeding (if required), and weed / alien clearing.

- All infrastructures, equipment, and other items used during the mining period will be removed from the site (section 44 of the MPRDA).
- Waste material of any description, including receptacles, scrap, rubble and tyres, will be removed entirely from the mining area and disposed of at a recognized landfill facility. It will not be permitted to be buried or burned on the site.
- Weed / Alien clearing will be done in a sporadic manner during the life of the mining activities. Species regarded as Category 1a and 1b invasive species in terms of NEM:BA (National Environmental Management: Biodiversity Act 10 of 2004 and regulations applicable thereto) need to be eradicated from the site on final closure.
- Final rehabilitation shall be completed within a period specified by the Regional Manager.

APPLICATION FOR CLOSURE

- Once the full mining area has been rehabilitated the mining right holder will submit a closure application to the Department of Mineral Resources in accordance with section 43(4) of the MPRDA, 2002 that states: *“An application for a closure certificate must be made to the Regional Manager in whose region the land in question is situated within 180 days of the occurrence of the lapsing, abandonment, cancellation, cessation, relinquishment or completion contemplated in subsection (3) and must be accompanied by the prescribed environmental risk report”.*
- The Closure Application will be submitted in terms of Regulation 62 of the MPRDA, 2002, and Government Notice 940 of NEMA, 1998.

PUBLIC INVOLVEMENT

This document is to inform you about the proposed activity and to determine whether there are any concerns or objections from interested and affected parties (I&AP's) that need to be considered.

As interested and affected party you are kindly requested to complete the comments form and give any comment/concern or input with regard to the current land use of the area, the environment as well as socio-economic conditions that you feel might be affected by the proposed activity. When submitting response please provide suggestions to mitigate the anticipated impact of each identified activity.

Please contact Christine Fouche at the contact details as presented in the letterhead or at christine.f@greenmined.co.za through any means should you need more information, have concerns or comments that need to be considered or if you want to be registered as an interested and/or affected party and would like to receive a copy of the Draft Scoping Report (DSR) on or before 3 December 2018. If we do not receive any comments from you on or before 3 December 2018, it will be accepted that you do not have any objections/comments with regard to the project and do not require any further documentation.

Should you be interested, you are also invited to a public meeting where the proposed project will be discussed. The meeting details are as follows:

- **Date:** 20 November 2018
- **Time:** 18:00
- **Venue:** The Christiana All Seasons Resort, giraffe conference venue.
- **Directions to Venue:** When travelling from Warrenton, on the N12 (northward bound) continue past the town of Christiana for ±3 km. The venue will be on the right-hand side.
- **GPS Coordinates:** -27.883832°S 25.195027°E / 27°53'01.79"S 25°11'42.10"E

A register of interested and affected parties (I&AP's) will be opened and maintained containing the names, contact details and address of all persons who have submitted written comments, attended meetings or have in writing requested to be registered and all organs of state which have jurisdiction in respect of the activity. Please note that only registered I&AP's and stakeholders will be entitled to comment on reports and plans to be submitted to the Department provided that the party provide its name, contact details and address and discloses any direct business, financial, personal or other interest which he/she may have in the approval or refusal of the applications.

The Draft Scoping Report (DSR) will be submitted to the Department of Mineral Resources – Free State (DMR) for review purposes. This report will also be made available to the public for a 30 days review period. An electronic copy of the report will be published on the Greenmined Environmental website (www.greenmined.com). All registered I&AP's and stakeholders will be notified of the commenting period in advance as above.

The DSR will then be updated to reflect the comments received during the public commenting period. Thereafter, Final Scoping Report (FSR) will be submitted to DMR for its consideration as part of the authorization process in terms of the NEMA, 2014 regulations (as amended 2017). A copy of the FSR will be made available on the Greenmined Environmental website. Once the Final Scoping Report has been accepted by the DMR, the Draft Environmental Impact Assessment Report (DEIAR) will be prepared and also made available to the public for a 30-day commenting period. An electronic copy of the DEIAR report will also be published on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified of the commenting period in advance.

Upon expiry of the commenting period the DEIAR will be updated to reflect the comments received during the public commenting period. Thereafter, the Final EIAR will be submitted to the DMR for its consideration as part of the authorization process in terms of the NEMA 2014 regulations (as amended by GNR 326 effective 7 April 2017). A copy of the final report will be made available on the Greenmined Environmental website. All registered I&AP's and stakeholders will be notified in writing within 14 days of the date of the decision of the outcome of the application, including the reasons for the decision and the right of appeal.

REGISTRATION AS AN I&AP RECEIVED FROM MR MURRAY THOMPSON (FALKIRK ESTATE (PTY) LTD) ON THE 27TH OF NOVEMBER 2018

The screenshot shows an email client window with a blue header bar. The title bar reads "Re: Application for the grant of a Ming Right (Various Properties) - Message...". The menu bar includes "File", "Message", and "Tell me what you want to do...". The email header shows the sender as "Murray Thompson <murray@anthorn.co.za>" and the recipient as "fsieberhagen@malanscholes.co.za; + 2". The date is "2018/11/27". The subject line is "Re: Application for the grant of a Ming Right (Various Properties)".

Dear Sir/Madam,

Please be advised that you are requested to register the following companies as interested and affected parties to your application for the grant of a mining right, by virtue of their ownership of the following properties:

- 1) Tilba Landgoed (Pty) Ltd (Reg 1997/11208/07)**
 - a) Portion 7 Smitskraal 1519
 - b) Portion 2 Smitskraal 1519
- 2) Falkirk Estates (Pty) Ltd (Reg 2015/227561/07)**
 - a) Portion 1 Ebenezer 127

Contact details as follows:
P.O. BOX 266
Christiana
2680
Email: murray@anthorn.co.za

The registration of Tilba Landgoed (Pty) Ltd, and Falkirk Estates (Pty) Ltd is required due to the fact that they are the registered owners of the above mentioned properties that are contemplated in the mining rights application, Investing Property 99 (Pty) Ltd ("Invest in Property") has an obligation, in terms of section 22(4)(b) of the Mineral Resources and Development Act 28 of 2002, as amended and the EIA Regulations,

**RESPONSE SEND TO MR MURRAY THOMPSON (FALKIRK ESTATE (PTY) LTD)
ON THE 27TH OF NOVEMBER 2018**

The screenshot shows an email client window with a blue header bar. The title bar reads "Re: Application for the grant of a Ming Right (Various Properties) - Message...". The menu bar includes "File", "Message", and "Tell me what you want to do...". The email header shows the sender as "Murray Thompson <murray@anthorn.co.za>" and the recipient as "fsieberhagen@malanscholes.co.za; + 2". The date is "2018/11/27". The subject line is "Re: Application for the grant of a Ming Right (Various Properties)".

The email body contains the following text:

Dear Mr Thompson

Greenmined herewith acknowledge receipt of your email, received 27 November 2018, with regard to the proposed mining right application to be submitted by Invest in Property 99 (Pty) Ltd.

We registered Tilba Landgoed (Pty) Ltd and Falkirk Estates (Pty) Ltd as interested and affected party (I&AP) on the project, and will hence forth keep you updated on the progress of the Environmental Impact Assessment process.

As part of the public participation process required in terms of NEMA, the applicant will consult with the landowner in order to obtain written consent prior to commencement of any mining activity.

We trust you find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

Attention: Me. Marlene Lingenfelder and Me. Christine Fouche

Dear Gentlemen / Ladies,

WITHOUT PREJUDICE AND THE RESERVATION OF ALL OUR RIGHTS

**NOTICE OF INVEST IN PROPERTY 99 (PTY) LTD'S INTENTION TO APPLY FOR
A MINING RIGHT IN RESPECT OF AMONGST OTHERS, SUBDIVISION 13 OF
THE FARM SMITSKRAAL 1519, MAGISTERIAL DISTRICT OF BOSHOF.**

The abovementioned matter and the e-mail dated 13 November 2018 received from
Me. Marlene Lingenfelder from your company, have reference.

You are herewith notified that our trust as interested and affected party as well as the
registered freehold owner of the abovementioned property, strongly objects to the
above-mentioned matter and the granting of any mining right in respect of our
property.

Your attention is explicitly directed to the fact that the relevant trust submitted an
internal appeal in terms of section 96 of the Mineral and Petroleum Resources
Development Act, 2002 (28 of 2002), as amended, on 15 September 2016 already,
and such appeal has still not been finalized. The relevant actions appealed against in
the case in hand, were explained in the said appeal. The said appeal relates to the
granting of a prospecting right in favor of the relevant company i.r.o. amongst others,
our property.

/ 2

matter to Mr. Michael Oberholzer at michael.oberholzer@telkomsa.net and / or michaeloberholzer71@gmail.com.

Please forward a copy of the Draft Scoping Report to Mr. M.A. Oberholzer and another copy to me at dehaanerna@gmail.com

Mr. M.A. Oberholzer's cellular phone No. is 082 934 6068.

Under the heading "Project description" in the relevant notice, it is stated that "the applicant wishes to convert the prospecting right into a mining right for the winning of alluvial diamonds, gold and sand". I am, however, with respect, of the view that the relevant existing prospecting right that was granted in respect of amongst others, our property, cannot be converted as stated as no old order prospecting right as referred to in section 6 of the Transitional Arrangements (Schedule II) of the MPRDA, is applicable in the case in hand. Please advise whether any application in terms of section 102 of the MPRDA for the addition of minerals, has been submitted by Invest in Property 99 (Pty) Ltd in respect of its relevant granted prospecting right.

Please acknowledge receipt hereof.

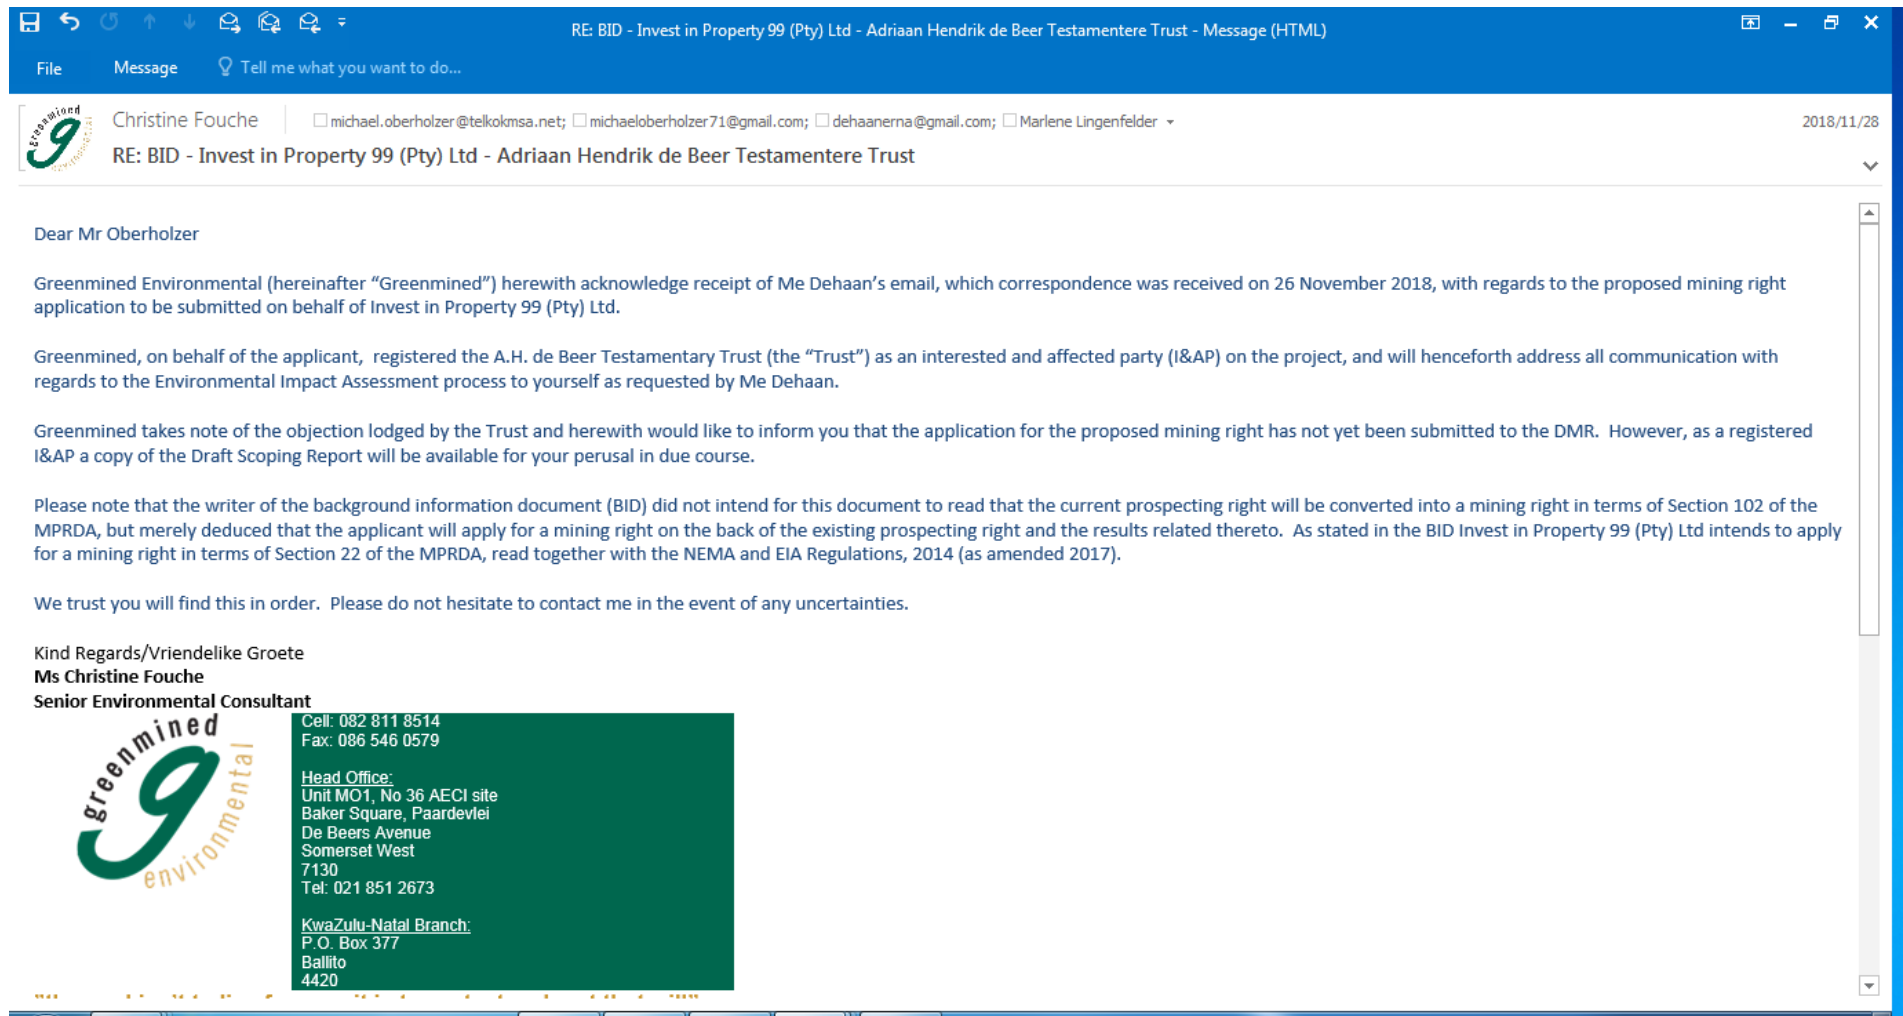

Yours sincerely,

ERNA DEHAAN
TRUSTEE OF THE A.H. DE BEER TESTAMENTARY TRUST

Date: *26th November, 2018*

Christine Fouche | michael.oberholzer@telkokmsa.net; michaeloberholzer71@gmail.com; dehaanerna@gmail.com; Marlene Lingenfelder | 2018/11/28

RE: BID - Invest in Property 99 (Pty) Ltd - Adriaan Hendrik de Beer Testamentere Trust

Dear Mr Oberholzer

Greenmined Environmental (hereinafter "Greenmined") herewith acknowledge receipt of Me Dehaan's email, which correspondence was received on 26 November 2018, with regards to the proposed mining right application to be submitted on behalf of Invest in Property 99 (Pty) Ltd.

Greenmined, on behalf of the applicant, registered the A.H. de Beer Testamentary Trust (the "Trust") as an interested and affected party (I&AP) on the project, and will henceforth address all communication with regards to the Environmental Impact Assessment process to yourself as requested by Me Dehaan.

Greenmined takes note of the objection lodged by the Trust and herewith would like to inform you that the application for the proposed mining right has not yet been submitted to the DMR. However, as a registered I&AP a copy of the Draft Scoping Report will be available for your perusal in due course.

Please note that the writer of the background information document (BID) did not intend for this document to read that the current prospecting right will be converted into a mining right in terms of Section 102 of the MPRDA, but merely deduced that the applicant will apply for a mining right on the back of the existing prospecting right and the results related thereto. As stated in the BID Invest in Property 99 (Pty) Ltd intends to apply for a mining right in terms of Section 22 of the MPRDA, read together with the NEMA and EIA Regulations, 2014 (as amended 2017).

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Good day,

RE: NOTICE OF APPLICATION IN TERMS OF SECTION 22 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) AND THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED)

Invest in Property 99 (Pty) Ltd ("Applicant") intends applying for a mining right in respect of the following properties, as listed below, within the Lejweleputswa magisterial district of the Free State Province. Please find notification attached.

Kind Regards/Vriendelike Groete

CORRESPONDENCE WITH MR ERWIN VAN VUUREN (SUBMAC PLANT CC) ON

The screenshot shows an Outlook email window titled "Message (HTML)". The sender is Marlene Lingenfelder, with the email address 'submacplant@outlook.com'. The subject is "Bid - Inverst in Property 99 - Submac Plant". The email is dated 2018/11/26 and has 2 attachments. A notification states "You forwarded this message on 2018/11/26 01:42 PM." The attachments are "Final BID - Inv 99.pdf" and "Reg 2.2 99.pdf", both listed as 0 bytes. The email body contains the following text:

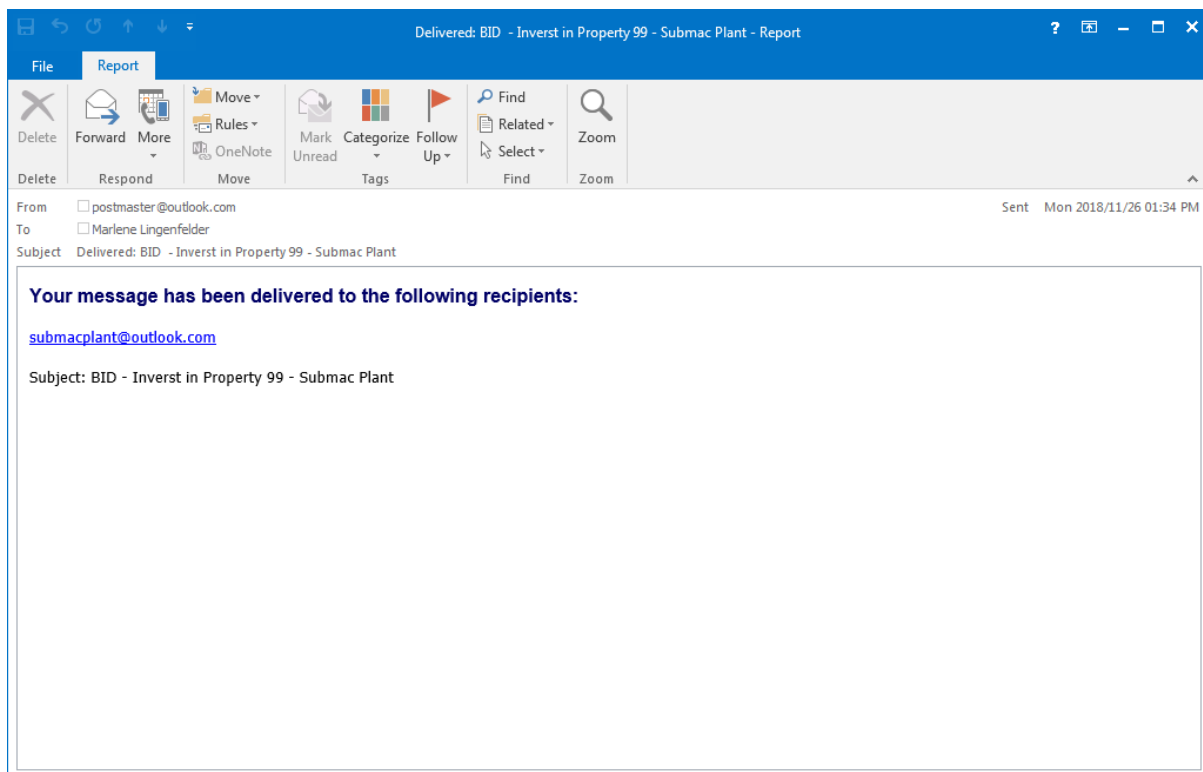

Dear Mr Erwin van Vuuren

Attached hereto please find the background information document for the proposed mining right application to be lodged by Invest in Property 99 (Pty) Ltd.

Due to difficulties in procuring your contact details, we could unfortunately only inform you of the proposed project now. We do acknowledge that the date of the public meeting has passed, however should you require a meeting please do not hesitate to contact us in this regard.

As stated in the attached document the initial public participation period extends until 3 December 2018. Should you be interested in this project, please register as an interested and affected party on or before 3 December 2018 (a response to this email will suffice), and we will add you to the list of I&AP's that will be contacted throughout the entire EIA process. Should you require additional time, please do not hesitate to contact us in that regard. The registered I&AP's will be provided with a copy of all the draft documents for your perusal and commenting.

We trust you find this in order. Please do not hesitate to contact me in the event of any uncertainties.

The screenshot shows an Outlook "Report" window titled "Delivered: Bid - Inverst in Property 99 - Submac Plant - Report". The window includes a ribbon with various actions like Delete, Forward, Move, Mark Unread, Categorize, Follow Up, Find, and Zoom. The email details are as follows:

Christine Fouché (CF)	Greenmined Environmental	christine.f@greenmined.co.za	082 811 8514

OPENING

Ms Christine Fouché (CF) from Greenmined Environmental welcomed the attendees and highlighted the purpose of the meeting.

MEETING PRESENTATION

CF continued with a PowerPoint presentation that elaborated on the following aspects with regard to the proposed mining right applications to be submitted by Invest in Property 84 (Pty) Ltd (IIP84) and Invest in Property 99 (Pty) Ltd (IIP99):

- Agenda;
- Background Information;
- Project Information;
- Legal Requirements;
- Commenting Period; and
- Way Forward.

The attendees were encouraged to voice their comments/concerns regarding the proposed projects. CF indicated that Greenmined Environmental aims to consider the comments/concerns of all the parties affected and involved in the project. The meeting discussed various aspects related to the presentation and proposed mining right applications as listed below.

RESPONSE TO PRESENTATION AND PROJECT PROPOSALS

Prospecting Rights (PR's):

CF provided the *status quo* of the existing PR's held by IIP84 and IIP99 respectively, and mentioned that the prospecting rights were still valid until 12 June 2019 upon which the holders could apply for one renewal not exceeding 3 years.

Mr FJ Bellingan (FB) indicated that IIP84 was issued with an Article 93 notice due to non-compliance. CF confirmed this statement and highlighted that no prospecting is taking place on the IIP84 prospecting right area. CF confirmed that prospecting is in progress at the IIP99 PR area.

FB enquired what the options are when the PR expires.

CF explained that the holder of the PR can either renew the PR or an application can be submitted for a mining right. The difference between a PR and MR was explained, and the role of the Mine Works Programme was elaborated on.

Impacts of alluvial diamonds on the properties:

FB illustrated how mining will require the removal of vegetation resulting in a highly negative impact on pastures, irrigated land, orchards and natural vegetation needed for farming. FB mentioned that most vegetation occurring in the area takes approximately 5-7 years to grow or recover, and thus vegetation removal will affect the operations of the affected properties. This must be taken into consideration throughout the study and mining operations. FB further noted that landowner consent must be negotiated with all landowners prior to the commencement of mining.

CF confirmed this statement, and mentioned that the exclusion of mining in active agricultural areas must be stipulated as a condition of the landowner agreements. It was further mentioned that landowner consent is required in terms of the NEMA, and that a condition to this effect (exclusion of active agricultural areas) can be added to the Environmental Management Programme (EMPr) that becomes a legally enforced document upon approval of the Environmental Authorisation (EA). CF explained that the mining right holders will be subject to compliance inspections and are legally required to submit environmental performance reports to the DMR.

Surveying of the land:

FB and Mr T.J. Delport (TD) indicated that mining must not take place on irrigated or active farming land. Such areas must be surveyed and strategically excluded from the mining areas. A map, with geographical coordinates must be produced indicating this.

CF responded that the exclusion of active agricultural areas has to be included in the landowner consent to be signed by the landowner and respective applicant. The surveying of active agricultural areas was noted and will be addressed with the applicants. It was also noted that the exclusion of active agricultural areas can be added as a condition to the EMPr that will then become enforceable during the operational phase of the projects. It was further noted that should the MR be sold to another entity the conditions as listed in the EMPr and EA remains enforceable and the new party will still have to comply with it.

Commodities to be mined:

CF explained the proposed mining method and highlighted that the proposed mining right applications will be for alluvial diamonds, gold from placer deposits, and sand.

Gold

FB mentioned that gold was not part of the prospecting right application, and as such the mineral cannot be applied for during the mining right application.

CF explained that the MPRDA allows an applicant the right to apply for commodities that he expects to be available within the proposed mining right area even if it was not applied for as part of a prospecting right. It was further explained that should gold be approved as part of the proposed mining right applications, it will allow the applicants to lawfully sell the mineral as and when recovered.

Sand

CF indicated that sand recovered from the processing plants will be sold to the building industry within the area.

An objection to the inclusion of sand as a commodity was lodged, and it was insisted that this mineral be removed from the proposed MR applications. The landowners indicated that sand forms part of their soil/agriculture livelihood, and should this be mined/sold it will negatively affect the refilling of excavations and agricultural potential of the properties both during- and post mining.

Socio-Economic Impacts:

Employment opportunities

Mr Sam Oilfant (SO) questioned how the community of the area will benefit from the project.

CF informed SO of the Social and Labour Plan (SLP), to be submitted as part of the MR applications, that identifies how the MR holder intends to “give back” to the community through employment and related matters. CF also indicated that the applicants need to identify Local Economic Development (LED) projects where the MR holders contribute an amount to the community from the income of the mining project. This document is valid for 5 years upon which it is eligible for renewal and the identification of another LED project.

SO requested clarity whether the community will receive a percentage of the mining project.

CF reiterated that the community will benefit from the mining projects through various aspects, such as but not limited to employment, bursaries, and internships as committed to in the SLP.

SO mentioned that mining has taken place in the area however no locals were employed. SO further requested figures or percentages indicating how many local people will be employed.

CF reiterated that local residents will be employed, with special consideration given to the current employees of the prospecting operations. It was mentioned that, should the MR applications be approved, it will mean continued employment opportunities to the current local PR workers thereby contributing to their job security. Furthermore, CF highlighted that the applicants do not intend to mine the entire footprint all at once, but proposed to work a maximum of 3 sites for the IIP84 application, and 6 sites as part of the IIP99 application. In light of this the required workforce will correspond to the amount of operational sites at any given time.

SO indicated that the mine should include both local general workers and local skilled employees.

CF confirmed that skilled workers will be needed at the proposed operations, and highlighted that preference will be given to local residents as the use of local labour positively contribute to various aspects such as, but not limited to, the need for housing (foreign workers needs accommodation), logistics (transport and correspondence with of local residents is easier), and social (local residents does not have to leave their households and families).

Black Economic Empowerment (BEE)

SO requested that the details (name, contact details, residence etc.) of the BEE partner be given to the Interested and Affected Parties.

CF confirmed that it is a departmental requirement that a BEE partner must form part of a mining right application, and alluded to the requirements of the new Mining Charter (30% shareholding to be allocated to BEE entities). The details of the BEE partner was not available at the meeting, but the request was added to the minutes to be provided to SO at a later stage.

Mining method:

CF provided an overview of the proposed mining method and mentioned that it will correspond to the current method of the prospecting activities. Mining will entail open cast strip mining, whereby topsoil is stripped and stockpiled on the side, followed by the excavation of a pit to access the mineral. The diamondiferous gravel is transported to the processing area where it undergoes screening and is fed to the washing pans. The concentrate is deposited into locked steel bucket which is transported to the recovery plant where the diamonds are retrieved. Once the gravel in a specific pit is exhausted, the excavation is backfilled before another pit is opened. Upon final closure the entire footprint of the mining site (2 ha) will be rehabilitated before another site is established.

Land use application:

An enquiry regarding a land use application was raised.

CF indicated that an independent town and regional planner was appointed to handle the applications in terms of the LUPA (Land Use Planning Act, 2014 (Act No 13 of 2014)). CF mentioned that the planner was in communication with the local municipality (Tokologo Local Municipality) to enquire about the region specific requirements. The attendees were ensured that all landowners will be contacted prior to the submission of any applications. Although the land use applications does not form part of EIA process, the LUPA requirement will briefly be discussed in the EIA reports.

General issues

Fencing

The landowners appealed that mining areas and settling ponds must be fenced before commencement of operations to avoid safety incidents (such as people and animals falling into excavations or settling ponds). The fences must remain for as long as the settling ponds dry out. It was further requested that jackal proof fencing be used, as animals can enter through normal barbed wire fencing.

The fencing of operational mining areas was noted and will be addressed with the applicants.

Closure plan and rehabilitation

FB questioned whether rehabilitation will take place.

CF explained that rehabilitation activities will include removal of all infrastructures, refilling of excavations, landscaping and seeding of each 2 ha mining area upon closure. No new excavations will commence until rehabilitation and closure of the previous excavations are completed. It was mentioned that seeding is season depended, and may have to be postponed to ensure the best possible results. An area will however not be deemed rehabilitated until all refilling and seeding took place. The rehabilitation actions will be detailed in a closure plan to be approved as part of the proposed mining right applications.

Upon final closure, the applicants has to apply for closure certificates (in terms of the MPRDA) that will not be issued until DMR confirmed and approved the rehabilitation of all disturbed areas. It was also noted that DMR will require the signing of a landowner indemnity form, prior to issuing a closure certificate that specifically asks the landowners opinion with regard to the rehabilitation of the affected areas on his property.

Electricity use

The meeting was informed that electricity will be provided by means of generators.

Water use

TD asked where water needed for the project will come from.

CF indicated that potable water will be obtained from the boreholes on the properties upon agreement with the landowners. Process water will exclusively be obtained from the Vaal River. CF mentioned that the applicants will apply for a Water Use Licence (WUL) from the Department of Water and Sanitation (DWS) prior to water use.

Resource calculation and timeframes

FB requested that the calculation of the resource be provided, as well as an explanation as to why the mining rights must be valid for 30 years. FB further mentioned that the 30 year timeframe is too long for mining considering the impacts on farming. It was noted that the resource calculation must justify the proposed 30 year timeframe.

Sorting of product

SO questioned whether the concentrate can be sorted on site and not at the offsite Schweizer-Reneke recovery plant, as an offsite sorting unit doesn't allow control of the amount of minerals recovered. A request was raised that a local sorting station be erected instead of material being removed from the properties.

FB indicated that at least one *Sortex* station per application must be erected within the vicinity of the operations.

Roads

FB highlighted that the current prospecting operation generates a lot of dust, and no dust suppression is implemented.

CF noted that dust suppressions requirements will be added to the EMP, to be enforced during the operational phase of the proposed mining projects.

Specialist Studies

CF listed the specialists that will form part of the project team and explained their respective roles;

1. Archaeologist to compile the Heritage Impact Assessment,
2. Palaeontologist to inform on the palaeontological significance of the area;
3. Hydrologist that will report on the water related matters as required in terms of the WUL application.

CF informed the attendees of the legal requirements associated with the proposed MR applications and highlighted the prescribed EIA process (in terms of the NEMA and the Mineral and Petroleum Resources and Development Act (MPRDA)). Preliminary dates were estimated to explain legislated timeframes.

WAY FORWARD

The proposed way forward was explained, and attendees were asked for assistance with contact details of the following surrounding landowners who could, to date, not be located:

- Haib System Trading – Catharina 44/0 & 8
- Submac Plant CC – Onrust 332/0
- PJ Roos – Uitkyk 342/2
- Abwema Boerdery – Cawoods Hope 324/4
- JR Familie Trust – Cawoods Hope 324/0 & 3, Goede Hoop 331/12
- H Esterhuyse – Buitenhoop 333/1
- PJ Esterhuyse – Buitenhoop 333/2
- Sanet Nel Trust – Pandam 467/3
- B&B Eiendomme – Pandam 467/5

- Uys Familie Boerdery – Ganna Vlakte 19/0
- Bessieslaagte Trust – Bessies Laagte 328/7
- GCT Trust – Bloemheuvel 327/11 & 12 & 13
- Bloemheuvel Trust – 327/16
- PCF Swiegers – Bloemheuvel 327/3
- Johan Claasen – Diamant 631/6 & 12 & 13
- Michiel van de Venter Testamentere Trust – Kalkput 460/0
- Leeuheuvel Boerdery – Overshot 496/2, Pontplaas 664/1

Mr Henno van der Merwe (HvdM) confirmed that he represented Leeuheuvel Boerdery on behalf of his father, and assisted with the contact details of the following entities:

- H Esterhuysen – Buitenhooft 333/1
- PJ Esterhuysen – Buitenhooft 333/2
- Johan Claasen – Diamant 631/6 & 12 & 13 (Wesley contact number)
- Michiel van de Venter Testamentere Trust – Kalkput 460/0

FB enquired whether all their comments must be submitted by 3 December 2018.

CF explained that interested and affected parties only need to register by 3 December 2018, as this will ensure their continued participation throughout the EIA process. Once registered the I&AP's will be afforded an opportunity to comment on the draft Scoping Report as well as the draft Environmental Impact Assessment Report where written comments could be submitted over a 30-days commenting period (per document).

CF confirmed that all attendees will be registered as interested and affected parties on the project, and that the minutes of the meeting as well as a copy of the meeting presentation will be distributed to all present.

The attendees were thanked for their presence and the meeting was adjourned.

Model dra talle krone

Miné Truter, 'n gr. 2-leerling aan die Laer Meisieskool Oranje, het nog 'n titel verower toe sy op 6 Oktober in Pretoria as Beyond 2000 se Little Miss Petite South Africa 2019 gekroon is. Miné, die dogter van Judith en Rikus Truter, doen die afgelope vier jaar modelwerk by Ace Models. Sy is in 2015 as eerste prinses in Little Miss Daisy Bloemskou gekroon. In 2016 was sy Little Miss Free State in die ouderdomsgroep vier tot ses jaar. Verlede jaar was sy die tweede prinses in die Mej. Vrystaat Kunstefe-kompetisie. In April vanjaar het sy aan die Miss International Princess-kompetisie deelgeneem waar sy as tweede prinses gekroon is. Op 27 Julie het sy aan die Runway Model Search-kompetisie in Mimosa Mall deelgeneem waar sy in die ouderdomsgroep sewe tot nege jaar gewen het. Met die oorwinning dien sy nou as ambassadeur vir Mimosa Mall. Miné het ook die sewe tot nege jaar ouderdomsgroep in die Ek lief die Vrystaat-kompetisie op 22 September gewen.

NOTICE OF MINING RIGHT APPLICATION

Notice is hereby given in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) and the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) of the intention of Invest Property 84 (Pty) Ltd (Applicant) to apply for a mining right in respect of the whole farm of Van Aersburg 495 RD, in the Free State province. The mining method will be open cast and strip-mining of diamond bearing gravel from alluvial form portions, where after the excavated material will be screened at the processing plant. The concentrated product will be transported to an off-site recovery plant where it will be processed for the presence of alluvial diamonds and gold. Sand screened from the diamond bearing gravel will be sold to the building industry on a supply-and-demand basis. The proposed footprint area is 9 965,70ha.

• Submit an application for a mining right in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) to the Department of Mineral Resources.

• Submit an application for water use authorisation in terms of the National Water Act, 1998 (Act No. 36 of 1998) to the Department of Water and Sanitation.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EA Regulations 2014 (as amended 2017) and therefore requires an EA process to obtain environmental authorisation:

- GNR 325 Liding Module 2 of 2017 Activity 15:** The clearance of an area of 20 hectares or more of indigenous vegetation.
- GNR 325 Liding Module 2 of 2017 Activity 17:** Any activity including the operation of that activity which requires a mining right as contemplated in Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), in including:
 - a) Associated infrastructure, structures and earthworks, directly related to the extraction of mineral resources or
 - b) The primary processing of mineral resources including mining, extraction, crushing, concentrating, crushing, screening or washing.
- GNR 327 Liding Module 1 of 2017 Activity 22:** The removal or clearing of any activity requiring:
 - 1) an additional 10 ha in terms of Section 4.5 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) or a prospecting right, mining right, mineral production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years exceeding where the competent authority has in writing agreed that such reduction in throughput does not constitute clearance.
- GNR 327 Liding Module 1 of 2017 Activity 24:** The development of an area:
 - 1) with a reserve width of more than 13,5 metres, or where no reserve exists where the road is wider than 8 metres.
- GNR 327 Liding Module 1 of 2017 Activity 26:** Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equine purposes or afforestation or after 1 April 1998 and where such development:
 - 1) will occur outside an urban area, where the total land to be developed is larger than 1 hectare.
- GNR 327 Liding Module 1 of 2017 Activity 28:** The widening of a road by more than 6 metres, or the lengthening of a road by more than 1 kilometre -
 - 1) When the existing reserve is wider than 13,5 metres or
 - 2) Where no reserve exists, where the existing road is wider than 8 metres.

Interested and Affected Parties (I&APs) are invited to provide written comments. I&APs must provide their comments with their name and contact details to the environmental consultant indicated below within 30 days from the date of this notice. Should additional information be required it could be obtained from Greenfield Environmental.

Should you be interested, you are also invited to attend a meeting where the proposed project will be discussed. The meeting details are as follows:

- Date:** 20 November 2018
- Time:** 18:00
- Venue:** The Christians All Seasons Resort, Graaff-Reinet onv. Nieu.
- Direction to site:** When travelling from Maseru, on the M2 (northward bound) continue past the town of Christians for ~3 km. The turnoff will be on the right hand side.
- GP Site address:** -27.8838 32° 25' 19.5000 S / 27° 53' 01.79525 E 1142.110° E

Register of I&APs that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&APs will be entitled to comment on reports and plans to be submitted to the department, provided that the party provides its name, contact details and address and also consents any direct business, financial, personal or other interest which the party may have in the approval or refusal of the application. The registered I&APs will, in writing, within 14 days of the date of the decision be notified of the outcome of the application including the reasons for that decision and their right to appeal.

NOTICE OF MINING RIGHT APPLICATION

Notice is hereby given in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) and the National Environmental Management Act, 1998 (Act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) of the intention of Invest in Property 84 (Pty) Ltd ('Applicant') to undertake the following:

- Apply for environmental authorisation to mine alluvial diamonds, gold and sand from the whole farm of Greylingslyn 355 RD and the whole farm of Van Awegens Hoek 493 RD, in the Lejweleputswa magisterial district of the Free State province. The mining method will entail open-cast and strip-mining of diamond bearing gravel from allowable farm portions, where after the excavated material will be screened at the processing plant. The concentrated product will be transported to an off-site recovery plant where it will be assessed for the presence of alluvial diamonds and gold. Sand screened from the diamondiferous gravel will be sold to the building industry on a supply-and-demand basis. The proposed footprint area is 3 955,70 ha.
- Submit an application for a mining right in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) to the Department of Mineral Resources.
- Submit an application for water use authorisation in terms of the National Water Act, 1998 (Act No. 36 of 1998) to the Department of Water and Sanitation.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and therefore requires an EIA process to obtain environmental authorisation:

- GNR 325 Listing Notice 2 of 2017 Activity 15:** The clearance of an area of 20 hectares or more of indigenous vegetation.
- GNR 325 Listing Notice 2 of 2017 Activity 17:** Any activity including the operation of that activity which requires a mining right as contemplated in Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including -
 - a) Associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or
 - b) The primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.
- GNR 327 Listing Notice 1 of 2017 Activity 22:** The decommissioning of any activity requiring -
 - i) a closure certificate in terms of Section 43 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002); or
 - ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.
- GNR 327 Listing Notice 1 of 2017 Activity 24:** The development of a road -
 - ii) with a reserve wider than 13,5 metres, or where no reserve exists where the road is wider than 8 metres.
- GNR 327 Listing Notice 1 of 2017 Activity 28:** Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 1 April 1998 and where such development:
 - ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.
- GNR 327 Listing Notice 1 of 2017 Activity 56:** The widening of a road by more than 6 metres, or the lengthening of a road by more than 1 kilometre -
 - i) Where the existing reserve is wider than 13,5 metres; or
 - ii) Where no reserve exists, where the existing road is wider than 8 metres.

Interested and Affected Parties (I&APs) are invited to provide written comments. I&APs must provide their comments with their name and contact details to the environmental consultant indicated below within 30 days from the date of this notice. Should additional information be required it could be obtained from Greenmined Environmental.

Should you be interested, you are also invited to a public meeting where the proposed project will be discussed. The meeting details are as follows:

- Date:** 20 November 2018
- Time:** 18:00
- Venue:** The Christiana All Seasons Resort, Giraffe Conference Venue.
- Directions to venue:** When travelling from Warrenton, on the N12 (northward bound) continue past the town of Christiana for ± 3 km. The venue will be on the right hand side.
- GPS co-ordinates:** -27.883832°S 25.195027°E / 27°53'01.79"S 25°11'42.10"E

A register of I&APs that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&APs will be entitled to comment on reports and plans to be submitted to the department, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interest which the party may have in the approval or refusal of the application. The registered I&APs will, in writing, within 14 days of the date of the decision be notified of the outcome of the application including the reasons for the decision and the right to appeal.

NOTICE OF MINING RIGHT APPLICATION
Notice is hereby given in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) and the National Environmental Management Act, 1998 (Act No. 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) of the intention of Invest in Property 84 (Pty) Ltd ('Applicant') to undertake the following:
• Apply for environmental authorisation to mine alluvial diamonds, gold and sand from the whole farm of Greylingslyn 355 RD and the whole farm of Van Awegens Hoek 493 RD, in the Lejweleputswa magisterial district of the Free State province. The mining method will entail open-cast and strip-mining of diamond bearing gravel from allowable farm portions, where after the excavated material will be screened at the processing plant. The concentrated product will be transported to an off-site recovery plant where it will be assessed for the presence of alluvial diamonds and gold. Sand screened from the diamondiferous gravel will be sold to the building industry on a supply-and-demand basis. The proposed footprint area is 3 955,70 ha.
• Submit an application for a mining right in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) to the Department of Mineral Resources.
• Submit an application for water use authorisation in terms of the National Water Act, 1998 (Act No. 36 of 1998) to the Department of Water and Sanitation.
The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and therefore requires an EIA process to obtain environmental authorisation:
• **GNR 325 Listing Notice 2 of 2017 Activity 15:** The clearance of an area of 20 hectares or more of indigenous vegetation.
• **GNR 325 Listing Notice 2 of 2017 Activity 17:** Any activity including the operation of that activity which requires a mining right as contemplated in Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including -
a) Associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or
b) The primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.
• **GNR 327 Listing Notice 1 of 2017 Activity 22:** The decommissioning of any activity requiring -
i) a closure certificate in terms of Section 43 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002); or
ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.
• **GNR 327 Listing Notice 1 of 2017 Activity 24:** The development of a road -
ii) with a reserve wider than 13,5 metres, or where no reserve exists where the road is wider than 8 metres.
• **GNR 327 Listing Notice 1 of 2017 Activity 28:** Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 1 April 1998 and where such development:
ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.
• **GNR 327 Listing Notice 1 of 2017 Activity 56:** The widening of a road by more than 6 metres, or the lengthening of a road by more than 1 kilometre -
i) Where the existing reserve is wider than 13,5 metres; or
ii) Where no reserve exists, where the existing road is wider than 8 metres.
Interested and Affected Parties (I&APs) are invited to provide written comments. I&APs must provide their comments with their name and contact details to the environmental consultant indicated below within 30 days from the date of this notice. Should additional information be required it could be obtained from Greenmined Environmental.
Should you be interested, you are also invited to a public meeting where the proposed project will be discussed. The meeting details are as follows:
• **Date:** 20 November 2018
• **Time:** 18:00
• **Venue:** The Christiana All Seasons Resort, Giraffe Conference Venue.
• **Directions to venue:** When travelling from Warrenton, on the N12 (northward bound) continue past the town of Christiana for ± 3 km. The venue will be on the right hand side.
• **GPS co-ordinates:** -27.883832°S 25.195027°E / 27°53'01.79"S 25°11'42.10"E
A register of I&APs that submitted written comments or requested to be registered will be opened. All organs of state which have jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&APs will be entitled to comment on reports and plans to be submitted to the department, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interest which the party may have in the approval or refusal of the application. The registered I&APs will, in writing, within 14 days of the date of the decision be notified of the outcome of the application including the reasons for the decision and the right to appeal.

NOTICE OF MINING RIGHT APPLICATION

Notice is hereby given in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) and the National Environmental Management Act, 1998 (Act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) of the intention of Invest in Property 84 (Pty) Ltd ('Applicant') to undertake the following:

- Apply for environmental authorisation to mine alluvial diamonds, gold and sand from the whole farm of Greylingslyn 355 RD and the whole farm of Van Aswegens Hoek 493 RD, in the Lejweleputswa magisterial district of the Free State province. The mining method will entail open-cast and strip-mining of diamond bearing gravel from allowable farm portions, where after the excavated material will be screened at the processing plant. The concentrated product will be transported to an off-site recovery plant where it will be assessed for the presence of alluvial diamonds and gold. Sand screened from the diamondiferous gravel will be sold to the building industry on a supply-and-demand basis. The proposed footprint area is 3 955,70 ha.
- Submit an application for a mining right in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) to the Department of Mineral Resources.
- Submit an application for water use authorisation in terms of the National Water Act, 1998 (Act No. 36 of 1998) to the Department of Water and Sanitation.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended 2017) and therefore requires an EIA process to obtain environmental authorisation:

- **GNR 325 Listing Notice 2 of 2017 Activity 15:**
The clearance of an area of 20 hectares or more of indigenous vegetation.
- **GNR 325 Listing Notice 2 of 2017 Activity 17:**
Any activity including the operation of that activity which requires a mining right as contemplated in Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including -
 - a) Associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or
 - b) The primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.
- **GNR 327 Listing Notice 1 of 2017 Activity 22:**
The decommissioning of any activity requiring -
 - i) a closure certificate in terms of Section 43 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002); or
 - ii) a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.
- **GNR 327 Listing Notice 1 of 2017 Activity 24:**
The development of a road -
 - ii) with a reserve wider than 13,5 metres, or where no reserve exists where the road is wider than 8 metres.
- **GNR 327 Listing Notice 1 of 2017 Activity 28:**
Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 1 April 1998 and where such development:
 - ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.
- **GNR 327 Listing Notice 1 of 2017 Activity 56:**
The widening of a road by more than 6 metres, or the lengthening of a road by more than 1 kilometre -
 - i) Where the existing reserve is wider than 13,5 metres; or
 - ii) Where no reserve exists, where the existing road is wider than 8 metres.

Interested and Affected Parties (I&APs) are invited to provide written comments. I&APs must provide their comments with their name and contact details to the environmental consultant indicated below within 30 days from the date of this notice. Should additional information be required it could be obtained from Greenmined Environmental.

Should you be interested, you are also invited to a public meeting where the proposed project will be discussed. The meeting details are as follows:

ON-SITE NOTICE OF MINING RIGHT APPLICATION

NOTICE OF MINING RIGHT APPLICATION

Notice is hereby given in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) and the National Environmental Management Act, 1998 (act 107 of 1998 NEMA) as well as the Environmental Impact Assessment Regulations 2014 (as amended 2017) of the intention of Invest in Property 99 (Pty) Ltd ("Applicant") to undertake the following:

- Apply for environmental authorization to mine alluvial diamonds, gold and sand from the below listed properties situated in the Lejweleputswa magisterial district of the Free State Province. The mining method will entail opencast and strip-mining of diamond bearing gravel from allowable farm portions, where after the excavated material will be screened at the processing plant. The concentrated product will be transported to an off-site recovery plant where it will be assessed for the presence of alluvial diamonds and gold. Sand screened from the diamondiferous gravel will be sold to the building industry on a supply-and-demand basis. The proposed footprint area is 20 340.2563 ha.
- Submit an application for a mining right in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) to the Department of Mineral Resources.
- Submit an application for water use authorisation in terms of the National Water Act, 1998 (Act No 36 of 1998) to the Department of Water and Sanitation.

The proposed project triggers the following listed activities in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) and the Environmental Impact Assessment Regulations 2014 (as amended 2017) and therefore requires an EIA process to obtain environmental authorization:

- **GNR 325 Listing Notice 2 of 2017 Activity 15:**
The clearance of an area of 20 hectares or more of indigenous vegetation.
- **GNR 325 Listing Notice 2 of 2017 Activity 17:**
Any activity including the operation of that activity which requires a mining right as contemplated in section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including –
 - a) *Associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or*
 - b) *The primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.*
- **GNR 327 Listing Notice 1 of 2017 Activity 22:**
The decommissioning of any activity requiring –
 - i) *a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (act No. 28 of 2002); or*
 - ii) *a prospecting right, mining right, mining permit, production right or exploration right, where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.*
- **GNR 327 Listing Notice 1 of 2017 Activity 24:**
The development of a road –
 - ii) *with a reserve wider than 13.5 metres, or where no reserve exists where the road is wider than 8 metres.*
- **GNR 327 Listing Notice 1 of 2017 Activity 28:**
Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:
 - ii) *will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.*
- **GNR 327 Listing Notice 1 of 2017 Activity 56:**
The widening of a road by more than 6 metres, or the lengthening of a road by more than 1 kilometre –
 - i) *Where the existing reserve is wider than 13.5 metres; or*
 - ii) *Where no reserve exists, where the existing road is wider than 8 metres.*

Affected Properties:

- Whole farm of Abramsyskraal 175 RD;
- Whole farm of Annex-Naudesfontein 259 RD;
- Whole farm of Beth-Ei-Pella 623 RD;
- Whole farm of Ebenezzer 127 RD;
- Whole farm of Leeuwheuvel 262 RD;
- Whole farm of Smithskraal 1519 RD; and
- Whole farm of Thorburnton 106 RD.

Interested and Affected Parties (I&AP's) are invited to provide written comments. I&AP's must provide their comments with their name and contact details to the environmental consultant indicated below within 30 days from the date of this notice (ending 3 December 2018). Should additional information be required it could be obtained from Greenmined Environmental. Should you be interested, you are also invited to a public meeting where the proposed project will be discussed. The meeting details are as follows:

- **Date:** 20 November 2018
- **Time:** 18:00
- **Venue:** The Christiana All Seasons Resort, giraffe conference venue.
- **Directions to Venue:** When travelling from Warrenton, on the N12 (northward bound) continue past the town of Christiana for 23 km. The venue will be on the right-hand side.
- **GPS Coordinates:** -27.883832°S 25.195027°E / 27°53'01.79"S 25°11'42.10"E

A register of I&AP's that submitted written comments or requested to be registered will be opened. All organs of state having jurisdiction in respect of the activity will also be listed on the register. Please note that only registered I&AP's will be entitled to comment on reports and plans to be submitted to the Department, provided that the party provides its name, contact details and address and discloses any direct business, financial, personal or other interest which the party may have in the approval or refusal of the application. The registered I&AP's will, in writing, within 14 days of the date of the decision be notified of the outcome of the application including the reasons for the decision and the right to appeal.
