DRAFT BASIC ASSESSMENT REPORT NOTICE

To whom it concerns

Dear Sir/Madam

06 March 2026

RE: NOTICE OF THE DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR A SECTION 24G APPLICATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) ("NEMA") AND THE ENVIRONMENTAL IMPACT ASSESSMENT (EIA) REGULATIONS, 2014 (AS AMENDED) SUBMITTED BY TSIYON BOERDERY (PTY) LTD. REFERENCE NUMBER: 24G/40(II)/25/10.

Notice is hereby given in terms of Regulation 41 of the EIA Regulations, 2014 (as amended), that an application for an environmental authorization in terms of Section 24G of NEMA has been lodged with the Department of Small Business Development, Tourism and Environmental Affairs – Free State.

The Applicant, Tsiyon Boerdery (Pty) Ltd, is seeking rectification for the commencement of the following listed activity:

- *EIA Regulations GNR.983 Listing Notice 1 of 2014 (as amended) – Activity 40(ii): The expansion and related operation of facilities for the concentration of poultry, excluding chicks younger than 20 days, where the capacity of the facility will be increased by more than 5 000 poultry per facility situated outside an urban area*

Farm Chez Nous No. 1775 previously operated a single layer house accommodating fewer than 5 000 hens, which did not trigger listed activities under the EIA Regulations. The facility has since been expanded to include two layer houses with a combined capacity of 30 000 laying hens, and therefore requires Environmental Authorization..

The draft Basic Assessment Report (DBAR) with Environmental Management Programme (EMPR), will be available for public comment from 10 March 2026. Copies thereof can be obtained from Greenmined Environmental (Pty) Ltd upon request or downloaded from the company website at <https://www.greenmined.com/section-24g-applications/>.

Should you be interested your comments are kindly requested on the application and/or DBAR & EMPR. A thirty-day commenting period, ending at **17:00 on 15 April 2026**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments. Please use **24G/40(ii)/25/10** as reference when commenting

If we do not receive any comments from you before the end of the commenting period, it will be accepted that you do not have any additional objections/comments with regards to the project. We trust that you find it in order and kindly await your comments on this report.

DRAFT BASIC ASSESSMENT REPORT NOTICE

To whom it concerns

Dear Sir/Madam

06 March 2026

RE: NOTICE OF THE DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR A SECTION 24G APPLICATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) ("NEMA") AND THE ENVIRONMENTAL IMPACT ASSESSMENT (EIA) REGULATIONS, 2014 (AS AMENDED) SUBMITTED BY TSIYON BOERDERY (PTY) LTD. REFERENCE NUMBER: 24G/40(ii)/25/10.

Notice is hereby given in terms of Regulation 41 of the EIA Regulations, 2014 (as amended), that an application for an environmental authorization in terms of Section 24G of NEMA has been lodged with the Department of Small Business Development, Tourism and Environmental Affairs – Free State.

The Applicant, Tsiyon Boerdery (Pty) Ltd, is seeking rectification for the commencement of the following listed activity:

- *EIA Regulations GNR.983 Listing Notice 1 of 2014 (as amended) – Activity 40(ii): The expansion and related operation of facilities for the concentration of poultry, excluding chicks younger than 20 days, where the capacity of the facility will be increased by more than 5 000 poultry per facility situated outside an urban area*

Farm Chez Nous No. 1775 previously operated a single layer house accommodating fewer than 5 000 hens, which did not trigger listed activities under the EIA Regulations. The facility has since been expanded to include two layer houses with a combined capacity of 30 000 laying hens, and therefore requires Environmental Authorization.

The draft Basic Assessment Report (DBAR) with Environmental Management Programme (EMPR), will be available for public comment from 10 March 2026. Copies thereof can be obtained from Greenmined Environmental (Pty) Ltd upon request or downloaded from the company website at <https://www.greenmined.com/section-24g-applications/>.

DRAFT BASIC ASSESSMENT REPORT NOTICE

To whom it concerns

Dear Sir/Madam

06 March 2026

RE: NOTICE OF THE DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR A SECTION 24G APPLICATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) ("NEMA") AND THE ENVIRONMENTAL IMPACT ASSESSMENT (EIA) REGULATIONS, 2014 (AS AMENDED) SUBMITTED BY TSIYON BOERDERY (PTY) LTD. REFERENCE NUMBER: 24G/40(ii)/25/10.

Notice is hereby given in terms of Regulation 41 of the EIA Regulations, 2014 (as amended), that an application for an environmental authorization in terms of Section 24G of NEMA has been lodged with the Department of Small Business Development, Tourism and Environmental Affairs – Free State.

The Applicant, Tsiyon Boerdery (Pty) Ltd, is seeking rectification for the commencement of the following listed activity:

- *EIA Regulations GNR.983 Listing Notice 1 of 2014 (as amended) – Activity 40(ii): The expansion and related operation of facilities for the concentration of poultry, excluding chicks younger than 20 days, where the capacity of the facility will be increased by more than 5 000 poultry per facility situated outside an urban area*

Farm Chez Nous No. 1775 previously operated a single layer house accommodating fewer than 5 000 hens, which did not trigger listed activities under the EIA Regulations. The facility has since been expanded to include two layer houses with a combined capacity of 30 000 laying hens, and therefore requires Environmental Authorization..

The draft Basic Assessment Report (DBAR) with Environmental Management Programme (EMPR), will be available for public comment from 10 March 2026. Copies thereof can be obtained from Greenmined Environmental (Pty) Ltd upon request or downloaded from the company website at <https://www.greenmined.com/section-24g-applications/>.

Should you be interested your comments are kindly requested on the application and/or DBAR & EMPR. A thirty-day commenting period, ending at **17:00 on 15 April 2026**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments. Please use **24G/40(ii)/25/10** as reference when commenting

If we do not receive any comments from you before the end of the commenting period, it will be accepted that you do not have any additional objections/comments with regards to the project. We trust that you find it in order and kindly await your comments on this report.

Interim Comment

Mr N Smook

Greenmined Environmental has been appointed by Tsiyon Boerdery to conduct an Environmental Authorisation (EA) Application in terms of Section 24G of the National Environmental Management Act, 1998 (Act 107 of 1998) ("NEMA") for the rectification of the unlawful commencement of a listed activity on Farm Chez Nous No 1775 in the Kopanong Municipality of the Free State Province. Listed activities are an increase in the physical development footprint of the poultry production infrastructure, and an increase in production capacity to exceed 5 000 poultry birds, triggering Listing Notice 1, Activity 40(ii) of the Environmental Impact Assessment Regulations, 2014 (as amended).

A draft Basic Assessment Report (DBAR) has been submitted in terms of the National Environmental Management Act, no 107 of 1998 (NEMA) and the NEMA Environmental Impact Assessment (EIA) Regulations. In July 2023, the Applicant expanded the existing building (± 670 m²) and established a second layer house adjacent to the original structure on the property. Additional supporting infrastructure was also installed as part of the expansion including: Four JoJo water storage tanks (two 5 000-litre tanks per installation) were added along the southern side of the western ends of the two layer houses to support the facility's water supply needs; the existing on-site dam (50 000 Litre) was covered, and an additional covered dam (50 000 litre) was constructed in the north-western corner of the facility. The expansion of the layer facility in size and capacity occurred within an established agricultural farm setting characterised by existing farming infrastructure and historically transformed land.

The proposed development is located in an area of Very High palaeontological sensitivity as per the SAHRIS PalaeoSensitivity map. Therefore, a field-based Palaeontological Impact Assessment is required.

Case ID: 27739

The SAHRA Development Applications Unit (DAU) notes the submitted draft Basic Assessment Report (DBAR).

The SAHRA DAU requests that an assessment of the impact to heritage resources that complies with section 38(3) of the NHRA as required by section 38(8) of the NHRA must be conducted as part of the EA process. The HIA must include an archaeological component.

The field-based archaeological component of the HIA must be conducted by a qualified archaeologist and must comply with the SAHRA 2007 Minimum Standards: Archaeological and Palaeontological Components of Impact Assessment Reports (see www.asapa.co.za or www.aphp.org.za for a list of qualified archaeologists). The Minimum Standards refer to a Letter of Recommendation for Exemption for further studies should the specialist deem it appropriate. SAHRA reserves the right to insist on a field-based assessment should the Letter of Recommendation not provide ample information to make an informed comment.

Any other heritage resources as defined in section 3 of the NHRA that may be impacted, such as built structures over 60 years old, sites of cultural significance associated with oral histories, burial grounds and graves, graves of victims of conflict, and cultural landscapes or viewsapes must also be assessed.

Since the development is located in an area of Very High palaeontological sensitivity a field-based PIA is required. The assessment must be undertaken by a qualified palaeontologist and the report must comply with the 2012 Minimum Standards: Palaeontological Components of Heritage Impact Assessments.

Further comments will be issued upon the submission of the Heritage Impact Assessment (HIA) and Palaeontological Impact Assessment (PIA).

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
