Dear Interested and Affected Party/Landowner/Land Occupier,

PRE-NOTIFICATION REGARDING AN INTEGRATED ENVIRONMENTAL AUTHORISATION APPLICATION AND A WATER USE LICENSE APPLICATION ON THE FARM WOODLANDS 407 WITHIN THE PARYS MAGISTERIAL DISTRICT IN THE FREE STATE PROVINCE OF SOUTH AFRICA

Goosebay Farm (Pty) Ltd (the Applicant) submitted an application for a Mining Right and Environmental Authorisation to the Department of Mineral Resources (DMR) Free State Regional Office, in order to mine for sand, aggregate/gravel and diamond (alluvial). This application was allocated the reference number: FS 30/5/1/2/5/2/10042 MR. The proposed mining area is located approximately 15 kilometres northwest of the town of Sasolburg, in the Free State Province of South Africa and covers an area of approximately 858 hectares over the following farm portions:

- Remaining Extent of the farm Woodlands 407
- Remaining Extent of Portion 1 of the farm Woodlands 407
- Portion 3 of the farm Woodlands 407

However, this initial application was withdrawn by the Applicant due to the following reasons:

- Change of Applicant in order to fulfil the Broad-Based Black Economic Empowerment requirements
- Change of the Environmental Assessment Practitioner (EAP) and appointment of a new EAP (Shango Solutions) to initiate a new Mining Right application process
- Pre-application meeting with the Department of Water and Sanitation to determine a new mining footprint with minimal risks to water resources
- Meeting with the Local Municipality to align the associated Social and Labour Plan with the relevant Local Economic Development projects
- Unprecedented number of objections from I&APs due to the sensitivity of the mining footprint

A new application under the new company, Monte Cristo Commercial Park (Pty) Ltd was submitted on the 24th August 2018 and has been allocated the reference number: FS 30/5/1/2/5/2/10048 MR. A new Public Participation Process will be initiated for this Mining Right Application and initial public notification documents illustrating the revised mining footprint will be distributed to I&APs in due course.

Any queries, comments or concerns with regards to this application can be directed to Shango Solutions:
