**DRAFT SCOPING REPORT AND –SOCIAL AND LABOUR PLAN NOTICE**

Good day

6 January 2022

Dear sir/madam

**RE: NOTICE OF THE DRAFT SCOPING REPORT FOR AN APPLICATION IN TERMS OF SECTION 22 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), AND ENVIRONMENTAL AUTHORISATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) SUBMITTED BY VENGABLOX (PTY) LTD. REFERENCE NUMBER: FS 30/5/1/2/2/10071 MR.**

The draft Scoping Report (DSR) and draft Social and Labour Plan (DSLPP) for the proposed mining of sand by Vengablox (Pty) Ltd over Portion 0 and Portion 1 (Remaining Extent) of the farm De Klerks Kraal No 231, Lejweleputswa Municipal District, is now available for your perusal. A copy of the documents can be obtained from Greenmined Environmental (Pty) Ltd upon request, or downloaded from the company website at [www.greenmined.com](http://www.greenmined.com).

Should you be interested your comments are kindly requested on the DSR and/or DSLPP. A thirty-day commenting period, ending on **14 February 2022**, will be allowed for comments. Your comments must be in writing and can be submitted via facsimile, e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

**Public Meeting:**

In view of the prevailing Covid-19 restrictions, a public participation meeting will be held virtually to discuss the contents of the DSR and DSLPP on **26 January 2022**. Details of this meeting will be provided to I&AP's upon registration for the meeting. I&AP's are requested to contact the consultant no later than **24 January 2022** should they wish to attend the meeting. In the event that I&AP's would prefer a personal meeting, the necessary arrangements will be made.

If we do not receive any comments from you before the end of the commenting period, it will be accepted that you do not have any additional objections/comments with regard to the project. We trust that you find it in order and kindly await your comments on this report.

The Department of Economic, Small Business Development, Tourism and Environmental Affairs (DESTEA) the Department hereby acknowledges receipt of the Draft Scoping Report and the Draft Social and Labour Plan for the above mentioned development on 19 January 2022.

The above mentioned reports have been reviewed and found to be in compliance with the minimum requirements as per the EIA Regulations. Please take note of the following when you proceed with the project:

- Ensure that the methods used for sand mining do not lead to the collapse of the riverbank.
- Avoid activities that would lead to the deepening of the riverbed.
- Ensure the protection of the riverine ecology as far as possible and if this is not possible, endangered and/or protected species (if they exist) must be transplanted as far as possible in compliance with the legislation and permits for the translocation of species.

**destea**

- The mining should continue without causing undue erosion or degradation at the site for development.

Please note that the development cannot commence without Environmental Authorization from the Department of Minerals and Energy (DMR) and a Mining Permit from the DMR.

We hope you find the above in order.

Regards,

**Mr. V. Hlazo**

## Interim Comment

### In terms of Section 38(8), 38(3) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Vengablox Pty Ltd

#### **The proposed mining of sand by Vengablox (Pty) Ltd over Portion 0 and Portion 1 (Remaining Extent) of the farm De Klerks Kraal No 231, Lejweleputswa Municipal District**

Vengablox (Pty) Ltd was appointed by Greenmined Environmental (Pty) Ltd to undertake the Environmental Authorisation (EA) application for the proposed mining of sand from 238.5426 ha that extends over Portion 0 and Portion 1 (Remaining Extent) of the Farm De Klerks Kraal No 231 RD within the Lejweleputswa magisterial District of the Free State Province.

A Draft Scoping Report (DSR) has been submitted in terms of the National Environmental Management Act, 1998 (NEMA Act 107 of 1998) and the NEMA Environmental Impact Assessment Regulations 2014 (as amended). The proposed mining right footprint is an extension of the existing Blazecor mining permit area (4.8 ha) located within Remaining Extent of Portion 0 of Farm De Klerks Kraal No 231. The mining right footprint will be divided into smaller mining areas of  $\pm 2.5$  ha each and they will be rehabilitated prior to the opening of other minor area. 1.5 ha will be used for the operation of the processing plant.

It is noted that a Heritage Impact Assessment (HIA) (inclusive of an archaeological and palaeontological studies) will be conducted for the proposed mining right area. The findings of the specialist studies will be incorporated into the DEIA.

#### **Interim Comment**

The archaeological component of the HIA must follow the SAHRA 2007 Minimum Standards: Archaeological Component of Impact Assessment Report. The quickest process to follow for the archaeological component would be to contract a qualified archaeologist (see [www.asapa.co.za](http://www.asapa.co.za) or [www.aphp.org.za](http://www.aphp.org.za)).

The proposed development area is located in an area of moderate sensitivity in terms of palaeontological resources as per the SAHRIS PalaeoSensitivity map. As such, a desktop Palaeontological Impact Assessment (PIA) must be undertaken by a qualified palaeontologist (See <https://www.palaeosa.org/heritage-practitioners.html> for a list of qualified palaeontologists). The report must

**NOTICE OF MINING RIGHT APPLICATION**

Notice in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Vengablox (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine sand from a portion of Portion 0 and Portion 1 (Remaining Extent) of the farm De Klerks Kraal No. 231, Lejweleputswa district, Free State;
- a mining right in terms of Section 22 of the MPRDA; and
- a water use authorisation in terms of the National Water Act, 1998 (Act No 36 of 1998).

The proposed mining footprint will be 238.5426 ha from where sand will be mined from the Sand River as well as adjacent to it. The mining method will resemble small scale opencast mining, where the sand will be mined along benches. An excavator will load the sand onto trucks that will transport it to the processing plant, after which it will be stockpiled until sold and transported to clients. In addition, to the direct excavation of the sand, the Applicant may also implement the use of sand pumps to mine the sand from the bottom of the sand pit and riverbed.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended) and therefore requires an EIA process to obtain environmental authorization:

- **GNR 325 Listing Notice 2 of 2017 Activity 15:**  
The clearance of an area of 20 hectares or more of indigenous vegetation.
- **GN No. 517 of 2021 Listing Notice 2 Activity 17**  
Any activity including the operation of that activity which requires a mining right in terms of Section 22 of the MPRDA, as well as any other applicable activity as contained in this Listing Notice, in Listing Notice 1 of 2014 or Listing Notice 3 of 2014, required to exercise the mining right.
- **GNR 327 Listing Notice 1 of 2017 Activity 12:**  
The development of—  
(i) dams or weirs, where the dam or weir, including infrastructure and water surface area, exceeds 100 square metres; or  
(ii) infrastructure or structures with a physical footprint of 100 square metres or more; where such development occurs—  
(a) within a watercourse;  
(c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse.
- **GNR 327 Listing Notice 1 of 2017 Activity 19:**  
The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse.
- **GNR 327 Listing Notice 1 of 2017 Activity 28:**  
Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:  
ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.

The Draft Scoping Report (DSR) and Draft Social and Labour Plan (DSLPL) is available for public comment. Copies thereof can be obtained from Greenmined upon request, or downloaded from www.greenmined.com. Interested and Affected Parties (I&AP's) are invited to provide written comments. Closing date for submission of comments are 14 February 2022. Should additional information be required it can be obtained from Greenmined. Please use **FS 30/5/1/2/1/0071 MR** as the reference when submitting comments.

By taking part in this process, you hereby consent, in terms of the Protection of Personal Information Act 4 of 2013 ("POPIA"), to the lawful processing of your personal information by Greenmined, which personal information may be used as part of documentation pertaining to the Environmental Authorisation and/or Mining Right application process. By providing your details and by taking part in this process you authorise such information to be shared for the purpose of this application.

**PUBLIC MEETING:**

In view of the prevailing Covid-19 restrictions, a public participation meeting will be held virtually to discuss the contents of the DSR and DSLPL on **26 January 2022**. ## NOTICE OF MINING RIGHT APPLICATION

Notice in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Vengablox (Pty) Ltd ("Applicant") applied for:

- environmental authorization to mine sand from a portion of Portion 0 and Portion 1 (Remaining Extent) of the farm De Klerks Kraal No 231, Lejweleputswa district, Free State;
- a mining right in terms of Section 22 of the MPRDA; and
- a water use authorisation in terms of the National Water Act, 1998 (Act No 36 of 1998).

The proposed mining footprint will be 238.5426 ha from where sand will be mined from the Sand River as well as adjacent to it. The mining method will resemble small scale opencast mining, where the sand will be mined along benches. An excavator will load the sand onto trucks that will transport it to the processing plant, after which it will be stockpiled until sold and transported to clients. In addition, to the direct excavation of the sand, the Applicant may also implement the use of sand pumps to mine the sand from the bottom of the sand pit and riverbed.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended) and therefore requires an EIA process to obtain environmental authorization:

- **GNR 325 Listing Notice 2 of 2017 Activity 15:**  
The clearance of an area of 20 hectares or more of indigenous vegetation.
- **GN No. 517 of 2021 Listing Notice 2 Activity 17**  
Any activity including the operation of that activity which requires a mining right in terms of Section 22 of the MPRDA, as well as any other applicable activity as contained in this Listing Notice, in Listing Notice 1 of 2014 or Listing Notice 3 of 2014, required to exercise the mining right
- **GNR 327 Listing Notice 1 of 2017 Activity 12:**  
The development of—  
(i) dams or weirs, where the dam or weir, including infrastructure and water surface area, exceeds 100 square metres; or  
(ii) infrastructure or structures with a physical footprint of 100 square metres or more;  
where such development occurs—  
(a) within a watercourse;  
(c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse.
- **GNR 327 Listing Notice 1 of 2017 Activity 19:**  
The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse
- **GNR 327 Listing Notice 1 of 2017 Activity 28:**  
Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:  
(i) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.

The Draft Scoping Report (DSR) and the Draft Social and Labour Plan (DSLPL), is available for public comment. Copies thereof can be obtained from Greenmined upon request, or downloaded from [www.greenmined.com](http://www.greenmined.com). Interested and Affected Parties (I&AP's) are invited to provide written comments. Closing date for submission of comments are 14 February 2022.
