DRAFT SCOPING REPORT NOTICE

Dear sir/madam

19 November 2020

RE: DRAFT SCOPING REPORT OF AN APPLICATION IN TERMS OF SECTION 102 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), AND ENVIRONMENTAL AUTHORISATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017) SUBMITTED BY WANSLEY SIYAKHULA (PTY) LTD. REFERENCE NUMBER: EC 30/5/1/2/2/228 MR.

The draft Scoping Report (DSR) for the propose expansion of the Wansley Siyakhula (Pty) Ltd mining area on a portion of Portion 1 of Farm No 652, East London Municipal District, is now available for your perusal. A copy of the document can be obtained from Greenmined Environmental upon request, or downloaded from the company website at www.greenmined.com/project/public-participation/

Should you be interested your comments are kindly requested on the DSR. A thirty-day commenting period, ending on **08 January 2021**, will be allowed for comments. Your comments must be in writing and can be submitted via facsimile, e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

If we do not receive any comments from you before the end of the commenting period, it will be accepted that you do not have any additional objections/comments with regard to the project. We trust that you find it in order and kindly await your comments on this report.

Please contact Christine Fouche at 082 811 8514 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or christine.f@greenmined.co.za should you require any additional information.

Your feedback is valued and will be addressed appropriately.

Kind Regards

A handwritten signature in black ink, appearing to read "Fouche", with a small asterisk to the right.

**PROOF THAT THE DSR WAS LOADED ONTO THE
SAHRIS WEBSITE OF THE SOUTH AFRICAN
HERITAGE RESOURCE AGENCY ON 19 NOVEMBER
2020**

HeritageAuthority(s): ECPHRA**Case Type:** Section 38 (8) - Statutory Comment Required**Development Type:** Mining**ProposalDescription:**

Wansley Quarries has been a trusted suppliers of weathered dolerite in the greater East London area for the past 19 years. A mining licence was issued to David Peter Coetzer (trading as Wansley Quarries) that was converted to a new order mining right in 2016. In 2020, the mining right was ceded, in terms of Section 11 of the MPRDA, 2002, to Wansley Siyakhula (Pty) Ltd that is the current mining right holder (hereinafter referred to as the "MR Holder"). The mining right is valid until 16 June 2026, with an approved footprint of 5,2149 ha over an area of Portion 1 of Farm No 652, in the East London magisterial district of the Eastern Cape Province.

**RESPONSE RECEIVED FROM MR & MRS NIELSEN
ON 7 JANUARY 2021**

Marlene Lingenfelder

From: Mette Pi la Cour Nielsen <mettepilacour@gmail.com>
Sent: 07 January 2021 09:15 PM
To: Christine Fouche
Cc: Marlene Lingenfelder
Subject: Re: Regarding the Wansley quarry extension
Attachments: image003.png

Good evening

Thank you for the responses.
I will be interested to see all answers in the full report.

For now i have a few comments/questions:

Regarding the compliance - I understand that they will have to follow the regulations. But it raises a concern when we already know that they have been operating outside the permitted area, had trucks working at odd hours and I believe blasting without permission.

How often will an audit be required from them?

Regarding operational hours - normal working hours (8-17). No late nights and no weekends.
It's hard to imagine the noise pollution from the operational process, so please if that could be taken in to consideration when the hours are discussed. We live and work on our farm, so are here all day.

Regarding blasting - I have been told that blasting has a big effect on structures around it, if this is the case has it been considered? The proposed area for mining is close to our boundary fence/property therefore I would like to know more it.

That leads me to the road that will be needed on the north side of the proposed area.
Again it is close to our boundary fence. Is there any regulations on how many meters a road like that is allowed to be from a boundary fence? And has it been considered?

Will the vegetation that used to be on the site of the veld fire be taken in to consideration? It must be hard to do a full site report when it has all been burned.

Thank you.

Kind regards
Mette Pi la Cour Nielsen

Subject: RE: Regarding the Wansley quarry extension

Dear Mette Pi La Cour Nielsen

Greenmined herewith acknowledge and thank you for the comments you submitted on 07 January 2021 regarding the draft Scoping Report for the Wansley Quarry Section 102 Amendment Application.

Please see the following in response to your comments/questions:

- Audit frequency: The audit frequency will be determined by the Department of Mineral Resources and Energy. However, at this stage we expect that an annual Environmental Audit Report will have to be submitted.
- Work hours: Thank you for your input, we will take it into consideration.
- Blasting: The draft Environmental Impact Assessment (DEIAR) will include more specific information on the blasting and the potential impact it may have on the surrounding environment and nearby structures as we have contacted a qualified blaster in this regard. The proximity of your property to the proposed extension area will also be taken into account, and discussed in the DEIAR that will be available to you for commenting.
- Access Road: Your enquiry regarding the proximity of the road to a boundary fence will be directed to the road engineer that is responsible for the traffic impact assessment. His response will be incorporated into the DEIAR for your perusal.
- Vegetation: We taken note of your comment and directed it to the ecologist. However, we can confirm that the ecologist has visited the farm on numerous occasions and therefore his findings will not only be based on a single inspection of the property.

We trust you find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards / Vriendelike Groete

Subject: TRUCKS SPEEDING ON W - WANSLEY ROAD TO AND FROM QUARRY

Dear Christine

I would like to bring to your attention what we are having to cope with on a daily basis. These trucks have no control by their owners and the quarry could not care less.

I have just been to the accident scene and no-one from the quarry is there.

This particular owner has 4 trucks. One of them nearly had a head on collision with me the other day, I had to drive straight into the bush scratching my car badly on the side.

This situation cannot continue. My camera at the gate shows an expanded view of the road and the speed the trucks are doing is absolutely insane.

You will have to deal with it somehow, either re-route the road away from residential properties or have some control in place.

Its not the first accident of this nature and it will not be the last. We have had to just deal with it in the past but now it ends.

Sincerely

Michele Lennard

Importance: High

Dear Christine

Many thanks for your reply.

Just to clarify matters, I am on the W road – W4 to be exact.

This is a relatively straight road with a few hills so the trucks use the downhills to gain speed which becomes really dangerous.

The road being of such a nature that its not a 2-way size road the oncoming cars are in danger of being collided with as the trucks do not deviate or slow down at all.

Best regards
Michele Lennard

**RESPONSE RECEIVED FROM MR M VAN NIEKERK
ON 23 NOVEMBER 2020**

Marlene Lingenfelder

From: mader@legallyarmed.co.za
Sent: 23 November 2020 06:58 AM
To: Marlene Lingenfelder; Christine Fouche
Subject: RE: DSR Wansley EC 30/5/1/2/2/228 MR - Mr Mader v Niekerk

Good morning Christine

I refer to the e-mail received from your offices to the extended mining rights regarding the above-mentioned.

I do not have a problem with the mining as such, as long as the required rehabilitation is done.

My biggest concern are the many trucks on the roads, safety first, as some of them are driving like maniacs and a danger to all road users.

Secondly the condition and maintenance of the road, as the trucks are doing some serious damaging to the roads and lastly the clearing of the overgrowth and bushes on the side of the road, which makes it difficult for vehicles to pass one another safely, especially the truck, which are much bigger and wider than the normal traffic.

I trust these concerns will receive the necessary attention.

Groete/Kind Regards

Mader van Niekerk

Dear Sir

Greenmined herewith acknowledge receipt of your correspondence dated 23 November 2020.

We do acknowledge your concern regarding the traffic impact of the mine on the roads and -users. Please note that the matter has been handed to the road specialist and will be discussed in more detail upon receipt of the Traffic Impact Assessment (TIA). The findings of the TIA will be incorporated into draft Environmental Impact Assessment Report (DEIAR) that will follow upon approval of the final Scoping Report by the Department of Mineral Resources and Energy. The DEIAR will be available for your commenting in due course.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Dear Marlene,

Thank you for your email.

We did object to the proposed expansion which Christine Fouche replied to as per the attached email (you were copied in).

Do we need to submit a further objection?

Many thanks,
Tammy

Dear Tammy

Thank you for your correspondence received 19 November 2020.

We did receive your earlier objection, and it has been incorporated into the Draft Scoping Report (DSR) that is now available for public perusal/commenting. The matters you highlighted in your previous email will be discussed/assessed in the draft Environmental Impact Assessment Report that will follow should the Final Scoping Report be approved by the Department of Mineral Resources and Energy.

Please note that your previous objection stands, and that it is not necessary to repeat it should you not have additional comments upon review of the DSR.

Please do not hesitate to contact us should there be any uncertainties regarding the project/process.

(TREVOR & TAMMY) ON 25 NOVEMBER 2020**

Marlene Lingenfelder

From: Christine Fouche
Sent: 25 November 2020 12:36 PM
To: Tammy Boniface
Cc: Marlene Lingenfelder
Subject: RE: DSR Wansley EC 30/5/1/2/2/228 MR - Trevor and Tammy Boniface

Dear Tammy

The work hours, specified in the Environmental Management Plan (EMP), of Wansley Quarry are:

- Monday – Friday from 6:00 to 18:00; and
- Saturdays from 6:00 to 13:00.

Please note that the EMP does not restrict loading/transporting of material to specific hours.

In light of the comments thus far received as part of the public participation process for the Section 102 extension application, the work hours (including mining, crushing, blasting and transporting of material) of the quarry will be reassessed. The new/amended (if applicable) work hours will be specified in the draft Environmental Impact Assessment that will follow should the DMRE approve the Scoping Report. The DEIAR will be available for public commenting over another 30-days period.

Please feel free to provide us with your suggestions should you have any.

Good Day Marlene,

Thank you for this information received, I have had a brief study of the content and don't see where all the various objections have been dealt with?
Could you please be so kind to direct me to the place where we can study the detailed responses to all the various objections that were raised?
It would appear this report lists the "actual comments" raised by the various interest/effected parties, which I imagined would have been dealt with in "complete confidentiality"?
Anyway, it would be great now if we could ALL see the actual response to ALL these objections raised, before any further progress is made regarding this development?

We look forward to your speedy reply.

Have a nice day further.

Regards
Rob Masters.

Dear Sir

Your correspondence dated 24 November 2020 has reference.

According to Appendix 2 of the NEMA EIA Regulations, 2014 (as amended 2017) *“the objective of the scoping process (of which the Scoping Report is the associated document) is to, through a consultative process—*

- (a) identify the relevant policies and legislation relevant to the activity;*
- (b) motivate the need and desirability of the proposed activity, including the need and desirability of the activity in the context of the preferred location;*
- (c) identify and confirm the preferred activity and technology alternative through an impact and risk assessment and ranking process;*
- (d) identify and confirm the preferred site, through a detailed site selection process, which includes an impact and risk assessment process inclusive of cumulative impacts and a ranking process of all the identified alternatives focusing on the geographical, physical, biological, social, economic, and cultural aspects of the environment;*
- (e) identify the key issues to be addressed in the assessment phase;*
- (f) agree on the level of assessment to be undertaken, including the methodology to be applied, the expertise required as well as the extent of further consultation to be undertaken to determine the impacts and risks the activity will impose on the preferred site through the life of the activity, including the nature, significance, consequence, extent, duration and probability of the impacts to inform the location of the development footprint within the preferred site; and*
- (g) identify suitable measures to avoid, manage or mitigate identified impacts and to determine the extent of the residual risks that need to be managed and monitored”*

Appendix 3 of the NEMA EIA Regulations, 2014 (as amended 2017) notes that *“The objective of the environmental impact assessment process (of which the Environmental Impact Assessment Report (EIAR) is the associated document) is to, through a consultative process—*

- (a) determine the policy and legislative context within which the activity is located and document how the proposed activity complies with and responds to the policy and legislative context;*
- (b) describe the need and desirability of the proposed activity, including the need and desirability of the activity in the context of the preferred location;*
- (c) identify the location of the development footprint within the preferred site based on an impact and risk assessment process inclusive of cumulative impacts and a ranking process of all the identified development footprint alternatives focusing on the geographical, physical, biological, social, economic, heritage and cultural aspects of the environment;*
- (d) determine the—*
 - (i) nature, significance, consequence, extent, duration and probability of the impacts occurring to inform identified preferred alternatives; and*
 - (ii) degree to which these impacts—*
 - (aa) can be reversed;*
 - (bb) may cause irreplaceable loss of resources, and*
 - (cc) can be avoided, managed or mitigated;*
- (e) identify the most ideal location for the activity within the preferred site based on the lowest level of environmental sensitivity identified during the assessment;*
- (f) identify, assess, and rank the impacts the activity will impose on the preferred location through the life of the activity;*

- (g) identify suitable measures to manage, avoid or mitigate identified impacts; and
(h) identify residual risks that need to be managed and monitored.”

In light of the above, the comments/objections received during the initial public participation process as well as on the draft Scoping Report (DSR) were all listed in the DSR as it were formally received during the various commenting periods. The comments/objections contribute to the identification of the aspects in need of further assessment during the environmental impact assessment (EIA) process. Should the DMRE (Department of Minerals and Energy) approve the Scoping Report, the project team will commence with the subsequent EIA phase, where the identified aspects (of the Scoping Report) are assessed and discussed in the draft EIAR. Accordingly, the comments/objections received to date are also dealt with and responded to in the EIAR as many of the comments require specialist input that isn't available during the scoping phase.

Further to this, please take note that all comments/objections submitted during the public participation process of an EIA have to be treated as public knowledge unless otherwise instructed by the writer or the DMRE.

In summary, we therefore confirm that the comments/objections received to date were all listed in the Scoping Report, and will be dealt with/responded to in the Environmental Impact Assessment Report that will follow should the DMRE approve the Scoping Report and thereby permit the subsequent EIA phase.

We trust you find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards / Vriendelike Groete

**ADDITIONAL RESPONSE RECEIVED FROM MR A
SCHEUN ON 20 NOVEMBER 2020**

From: Andre Scheun [<mailto:scheunandre@gmail.com>]

Sent: 20 November 2020 12:55 PM

To: Marlene Lingenfelder <admin@greenmined.co.za>; bonifacepaula3@gmail.com

Subject: Re: DSR Wansley EC 30/5/1/2/2/228 MR - A Scheun

Good day Marlene

My interim response, that I want recorded, to some of the issues in Christine's DSR:

1. I acknowledge that our complaints/reservations have been logged and that most of them will only be responded to once the xperts produce their responses. Just make sure that Peter Warren, not just Warren Page, has received the correspondence and had the opportunity to respond as I saw that correspondence directed to Peter Warren had been sent to Warren Page at some stage as per the DSR.
2. Regarding our complaints that have been logged regarding the current mining footprint that is already outside the mining right, which is proof that the applicant is not acting in good faith, Christine has responded by saying that the footprint outside the MR will be incorporated into the amended footprint of the mine - so as if to say that it is okay to mine illegally and to trust the applicant that he will not transgress in future - how will this be policed?
3. The DSR states incorrectly that the average precipitation per year is 593mm (Wansley farm = 782mm) with March being the highest with about 79mm. The minimum rainfall is 16mm average for June or July. I am 1300m from the Wansley farm entrance and my recordings for the past 12 years is as follows: Average annual precipitation is 817mm (close to Wansley farm's average) with the highest 12 year average is October with 109.1mm, followed by February with 98.5mm The lowest 12 year average is June/July with about 31mm. See attachment.
4. Temperatures are listed way lower than that measured on our farm during the last 12 years. Unfortunately I no longer have those readings which I had to keep on a daily basis as I was producing tomatoes under cover and the up-to-date records were required for irrigation planning and GLOBALGAP certification.
5. The wind speeds are way below those stated in the DSR, ask me, I have lost enough plastic from the tunnels due to excessive wind speeds of up to and over 50kms/h over the years.
6. The potential impact on the access road Mn10118 St (W-Road) has a significance of only "9" meaning it is Low-Medium, meaning "impact would be of a low order and with little effect. In the case of negative impact, mitigation and / or remedial activity would be either easily achieved or little would be required, or both". To us as residents it is actually one, if not THE major concern.

Regards

Andre Scheun

Dear Sir

Greenmined herewith acknowledge receipt of your correspondence dated 19 & 20 November 2020 respectively.

We thank you for highlighting the matter regarding our correspondence with Messrs Peter Warren and Warren Page. Attached hereto please find proof that Mr Peter Warren was indeed contacted during the previous commenting period. The delivery note will be corrected in the Final Scoping Report (FSR).

Thank you for your comments as contained in clauses 2, 3, 4 & 5 of your correspondence under reply. Your comments will be taken into consideration and we will update the FSR accordingly, for evaluation and determination by the DMRE.

We do acknowledge your concern regarding the impact of the mine on the W-road. Please note that the matter has been handed to the road specialist and will be discussed in more detail upon receipt of the Traffic Impact Assessment.

Dear Sir/Madam

RE: FINAL SCOPING REPORT FOR AN APPLICATION IN TERMS OF SECTION 102 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), AND ENVIRONMENTAL AUTHORISATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017) SUBMITTED BY WANSLEY SIYAKHULA (PTY) LTD. REFERENCE NUMBER: EC 30/5/1/2/2/228 MR.

The final Scoping Report (FSR) for the propose expansion of the Wansley Siyakhula (Pty) Ltd mining area on a portion of Portion 1 of Farm No 652, East London Municipal District was submitted to the Department of Mineral Resources and Energy (DMRE) for decision making. A copy of the FSR is available on the company website at www.greenmined.com/section-102-applications/.

The comments received on the draft Scoping Report were incorporated into the Final Scoping Report, and will be responded to in the draft Environmental Impact Assessment Report that will follow should the DMRE approve the final Scoping Report.

Please contact Christine Fouche at 082 811 8514 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or christine.f@greenmined.co.za should you require any additional information.

Dear Sir/Madam

RE: FINAL SCOPING REPORT FOR AN APPLICATION IN TERMS OF SECTION 102 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), AND ENVIRONMENTAL AUTHORISATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017) SUBMITTED BY WANSLEY SIYAKHULA (PTY) LTD. REFERENCE NUMBER: EC 30/5/1/2/2/228 MR.

The final Scoping Report (FSR) for the propose expansion of the Wansley Siyakhula (Pty) Ltd mining area on a portion of Portion 1 of Farm No 652, East London Municipal District was submitted to the Department of Mineral Resources and Energy (DMRE) for decision making. A copy of the FSR is available on the company website at www.greenmined.com/section-102-applications/.

The comments received on the draft Scoping Report were incorporated into the Final Scoping Report, and will be responded to in the draft Environmental Impact Assessment Report that will follow should the DMRE approve the final Scoping Report.

Please contact Christine Fouche at 082 811 8514 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or christine.f@greenmined.co.za should you require any additional information.

Hi there

I would like to know how far the reports are?
Was it accepted by the department?
And is EIA report ongoing?

Thank you for your time.

Kind regards
Mette Pi la Cour Nielsen

On Tue, 12 Jan 2021, 15:08 Christine Fouche, <Christine.F@greenmined.co.za> wrote:

Dear Mette Pi La Cour Nielsen

Greenmined herewith acknowledge and thank you for the comments you submitted on 07 January 2021 regarding the draft Scoping Report for the Wansley Quarry Section 102 Amendment Application.

Please see the following in response to your comments/questions:

- Audit frequency: The audit frequency will be determined by the Department of Mineral Resources and Energy. However, at this stage we expect that an annual Environmental Audit Report will have to be submitted.
- Work hours: Thank you for your input, we will take it into consideration.
- Blasting: The draft Environmental Impact Assessment (DEIAR) will include more specific information on the blasting and the potential impact it may have on the surrounding environment and nearby structures as we have contacted a qualified blaster in this regard. The proximity of your property to the proposed extension area will also be taken into account, and discussed in the DEIAR that will be available to you for commenting.

Dear Mette Pi la Cour Nielsen

Thank you for your enquiry.

The Department of Mineral Resources and Energy approved the Scoping Report that was submitted for this project in May 2021. Following receipt of the approval, we are now in the process of drafting the EIA report inclusive of all the specialist studies. Once the report is ready it will be available to all the registered I&AP's for their perusal and commenting over a 30 days period. You will be informed about the availability of the report in due course.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Hi Christine

Thank you for the update.

I do have one concern i would like to highlight. I would love to know what the refusal facilities and solutions they are using and will be using as there is no municipal collection out here and a lot of farms are either burning or pilling up their refuse.

Now i have already been a bit nervous for the refuse as the operation is now and i can only imagine it'll get worse if they get bigger and there will be more people and bigger operations happening. It is therefore extremely important for me to know that the right actions will be taken and not just on paper but in actual week to week practice.

I hope this makes sense.

Thank you for your time.

Kind regards
Mette Pi la Cour Nielsen

Dear Sir

Greenmined herewith acknowledge receipt of your correspondence regarding the proposed Section 102 amendment application of Wansley Siyakhula (Pty) Ltd in the East London area.

Approval of the Scoping Report is still awaited from the Department of Mineral Resources and Energy (DMRE).

However, we have registered you as an Interested and Affected Party on the project, and will henceforth keep you posted on the progress of the Environmental Impact Assessment process as well as inform you of the availability of the draft environmental impact assessment report (DEIAR) for your perusal and commenting.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Subject: RE: Section 102 application: EC30/5/1/1/2/228 MR

Dear Sir

Greenmined herewith acknowledge receipt of your correspondence regarding the proposed Section 102 amendment application of Wansley Siyakhula (Pty) Ltd in the East London area.

Approval of the Scoping Report is still awaited from the Department of Mineral Resources and Energy (DMRE).

However, we have registered you as an Interested and Affected Party on the project, and will henceforth keep you posted on the progress of the Environmental Impact Assessment process as well as inform you of the availability of the draft environmental impact assessment report (DEIAR) for your perusal and commenting.

We trust you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards / Vriendelike Groete

Christine Fouche
