DRAFT SCOPING REPORT NOTICE

To whom it may concern

11 June 2020

Dear Sir/Madam

RE: DRAFT SCOPING REPORT OF AN APPLICATION IN TERMS OF SECTION 102 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), AND ENVIRONMENTAL AUTHORISATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017) SUBMITTED BY ZANDBERG SANDPUT (PTY) LTD. REFERENCE NUMBER: WC 30/5/1/2/2/87 MR.

The draft Scoping Report (DSR) for the propose expansion of the Zandberg Sandput (Pty) Ltd mining area on a portion of Portion 4 of the farm Zandberg Fontein 97, Robertson Municipal District, is now available for your perusal. A copy of the document can be obtained from Greenmined Environmental upon request, or downloaded from the company website at www.greenmined.com.

Should you be interested your comments are kindly requested on the DSR. A thirty-day commenting period, ending on **17 July 2020**, will be allowed for comments. Your comments must be in writing and can be submitted via facsimile, e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

If we do not receive any comments from you before the end of the commenting period it will be accepted that you do not have any additional objections/comments with regard to the project. We trust that you find it in order and kindly await your comments on this report.

Please contact Christine Fouche at 082 811 8514 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or christine.f@greenmined.co.za should you require any additional information.

Your feedback is valued and will be addressed appropriately.

Kind Regards

A handwritten signature in black ink, appearing to read "Fouche".

Dear Madam

RE: DRAFT SCOPING REPORT OF AN APPLICATION IN TERMS OF SECTION 102 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), AND ENVIRONMENTAL AUTHORISATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017) SUBMITTED BY ZANDBERG SANDPUT (PTY) LTD. REFERENCE NUMBER: WC 30/5/1/2/2/87 MR.

The draft Scoping Report (DSR) for the propose expansion of the Zandberg Sandput (Pty) Ltd mining area on a portion of Portion 4 of the farm Zandberg Fontein 97, Robertson Municipal District, is now available for your perusal. A copy of the document can be obtained from Greenmined Environmental upon request, or downloaded from the company website at www.greenmined.com. As discussed, a copy of the document will also be delivered to the department for ease of reference.

Should you be interested your comments are kindly requested on the DSR. A thirty-day commenting period, ending on **17 July 2020**, will be allowed for comments. Your comments must be in writing and can be submitted via facsimile, e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

Please contact Christine Fouche at 082 811 8514 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or christine.f@greenmined.co.za should you require any additional information.

Your feedback is valued and will be addressed appropriately.

PER E-MAIL

Dear Madam

COMMENT ON THE DRAFT SCOPING REPORT AND PLAN OF STUDY FOR ENVIRONMENTAL IMPACT ASSESSMENT FOR LISTED ACTIVITIES ASSOCIATED WITH THE PROPOSED MINING RIGHT EXPANSION ON PORTION 4 OF THE FARM ZANDBERG FONTEIN NO. 97, ROBERTSON (DMRE REF: WC30/5/1/2/2/87MR)

The e-mail notification of 12 March 2020 regarding the availability of the Draft Scoping Report ("DSR") refers.

Please find consolidated comment from various directorates within the Department on the DSR dated June 2020 that was downloaded from the website of the environmental assessment practitioner ("EAP").

1. Directorate: Development Management (Region 1) – Ms Ayesha Hamdulay (Ayesha.Hamdulay@westerncape.gov.za; Tel: (021) 483 0756):
 - 1.1. It is noted that several non-perennial drainage lines traverse the proposed mining right expansion area. Activity 19 of Listing Notice 1 of the National Environmental Management Act, 1998 (Act No. 107 of 1998) ("NEMA") Environmental Impact Assessment ("EIA") Regulations, 2014 (as amended) has however not been applied for.
 - 1.2. It is further noted that haul roads may be required. Please be advised that should new roads wider than 4m be established in areas containing indigenous vegetation, Activity 4 of Listing Notice 3 of the NEMA EIA Regulations, 2014 (as amended) will be applicable.
 - 1.3. The applicability of Activity 19 of Listing Notice 1 and Activity 4 of Listing Notice 3 of the NEMA EIA Regulations, 2014 (as amended) must be confirmed in the Final Scoping Report ("FSR") to be submitted to the competent authority. Should the mentioned listed activities be applicable to the proposed mine expansion, an amended application form must be submitted to the competent authority and the impacts associated with the listed activities must be assessed and reported on in the Draft EIA Report.
 - 1.4. Following the above, not all the impacts associated with the proposed mine expansion have been identified in the DSR for further assessment in the environmental impact reporting ("EIR") phase. Per paragraph 1.1. above, drainage lines traverse the proposed mine expansion area; however, the impacts on watercourses have not been identified in the DSR for further assessment in the EIA phase. (In this regard, also refer to paragraph 2.1. below.)
 - 1.5. Furthermore, page 53 of the DSR states that "*It is known that the water table in the valley below the mine is ±3 m under the surface.*" The depth of mining and whether the proposed sand mining activities will have an impact on groundwater resources, were not indicated in the DSR. This information must be provided in the Draft EIA Report.
 - 1.6. Per the DSR, the proposed mine expansion area falls within a Critical Biodiversity Area ("CBA"). Please be advised that this Directorate does not support mining within a CBA. The description of alternatives does not clearly illustrate how the mitigation hierarchy was considered when selecting the preferred (and only) site and layout alternatives. Alternatives that avoid CBAs must be further investigated and reported on in the Draft EIA Report.
 - 1.7. It is noted that the Provincial Department of Agriculture ("DoA") has not been included in the list of state Departments to be consulted as part of the EIA process. Please ensure that said Department is consulted for comment. Depending on the comments obtained from the Provincial DoA, an agricultural impact assessment be required.
 - 1.8. The Plan of Study for EIA must be updated to include all the impacts that will be assessed and all the specialist studies that will be undertaken during the EIR phase.

- 1.9. In terms of GN No. 960 of 5 July 2019, the submission of a report generated from the National Web Based Environmental Screening Tool ("Screening Tool") is a compulsory requirement when applying for environmental in terms of the NEMA EIA Regulations, 2014 (as amended). If not yet undertaken, the EAP is advised to urgently consult the Screening Tool and generate a screening report. Based on the findings of the screening report, the EAP will be required to either appoint additional specialists to undertake the identified specialist studies, or to provide a motivation in the FSR and Plan of Study for EIA why the specialist studies will not be undertaken or deemed necessary for the EIA process. Should additional specialist studies identified by the Screening Tool be undertaken, the Plan of Study for EIA must be amended to indicate which additional specialist studies will be undertaken.
- 1.10. The EAP is advised to consider the "*Procedures for the Assessment and Minimum Criteria for Reporting on identified Environmental Themes in terms of Sections 24(5)(a) and (h) and 44 of the National Environmental Management Act, 1998, when applying for environmental authorisation*" ("the protocols"), promulgated in GN No. 320 of 20 March 2020, which came into effect on 9 May 2020. If evidence can be provided to the Competent Authority to show that a specialist study for which a protocol has been prescribed was initiated prior to 9 May 2020, then the protocol in question does not have to be complied with. For those specialist studies where no specific protocol has been prescribed, the level of assessment must comply with the requirements of Appendix 6 of the National Environmental Management Act, 1998 (Act No. 107 of 1998) EIA Regulations, 2014 (as amended). The Final Scoping Report submitted to the Competent Authority, as well as the draft EIA Report once released for comment, must be clear which protocols apply and which do not.
2. Directorate: Pollution and Chemicals Management – Ms Shehaam Brinkhuis (Shehaam.Brinkhuis@westerncape.gov.za; Tel: (021) 483 8309):
- 2.1. Drainage lines and wetlands, including areas identified as National Freshwater Priority Areas which fall within the Breede River catchment, occur within the proposed mining expansion area. This Directorate supports the recommendation of the Breede-Gouritz Catchment Management Agency that an evaluation of watercourses is warranted in the EIR phase of the application. It is further recommended that such evaluation is undertaken by a suitably qualified and experienced freshwater ecologist/specialist. The Plan of Study for EIA should thus be amended to include a Freshwater Impact Assessment.
- 2.2. Site-specific hydrology and geohydrology has been detailed on pages 66 to 68 of the DSR. The description provided, extracted from previously compiled reports, clearly indicates that the proposed mining expansion area and the establishment of mining activities across a substantial area shall have a significant impact on groundwater resources. Thus, it is recommended that input be obtained from a suitably qualified and experienced geohydrologist to inform the EIR phase. Per paragraph 2.1. above, the Plan of Study for the EIA should be amended to include a Geohydrological Impact Assessment.
- 2.3. Further to paragraphs 2.1. and 2.2. above, it is noted that the potential impacts of the proposed mine expansion on water resources and freshwater features have not been adequately identified and described during the scoping phase. Sufficient consideration should be given to these potential impacts in the Draft EIA Report.

- 2.4. Storm-water runoff must be controlled to ensure that on-site activities do not culminate in off-site pollution, erosion or sedimentation. It is recommended that the EIR phase make provision for the inclusion of a storm water management plan. Such a storm water management plan should also describe the proposed methods to prevent contaminated or polluted storm water from being released into the receiving environment, with attention paid to potentially sensitive areas yet to be identified by specialists during investigation of the proposed mine expansion area.
- 2.5. Although acknowledged that the proposed mining method may limit the pollution potential (as stated on page 27 of the DSR), it is noted that pollution and contamination may still occur and it is recommended that potential pollution impacts due to mining activities, are more thoroughly considered. It is essential that identified pollution impacts are adequately addressed and management measures must be proposed in the Environmental Management Programme ("EMPr") to be submitted with the EIA Report.
3. Directorate: Waste Management – Mr Lance Anders (Lance.Anders@westerncape.gov.za; Tel: (021) 483 2891):
 - 3.1. Table 1, page 14 of the DSR indicates the applicable listing notices and listed activities, without providing an explanation of the listed activities. Please discuss or write out each applicable listed activity for better understanding by interested and affected parties of the listed activities.
 - 3.2. Page 20 of the DSR indicates that alternative dust suppression methods will be utilised, however these methods were not indicated. Since the Western Cape is a water scarce province, the applicant must ensure that only non-potable water is used for dust suppression. Dust suppression measures must be detailed in the EMPr.
 - 3.3. Waste management impacts, including *inter alia*, the storage, handling, transport and disposal of all waste types, must be addressed in the EMPr.
4. Directorate: Air Quality Management – Ms Gavaza Mhlarhi / Mr Peter Harmse (Gavaza.Mhlarhi@westerncape.gov.za / Peter.Harmse@westerncape.gov.za; Tel: (021) 483 8343):
 - 4.1 This Directorate awaits the Draft EIA Report and EMPr to provide comment. Please ensure that the EMPr provide management measures for dust and noise impacts associated with the proposed mining operations.
5. Please direct any enquiries to the official/s indicated in this correspondence should you require any clarity on any of the comments provided.

6. The Department reserves the right to revise or withdraw comments or request further information based on any information received.

Yours faithfully

A handwritten signature in black ink, appearing to be 'G. G. G. G.' with a horizontal line underneath.

Dear Sir

Greenmined Environmental (Pty) Ltd thank you for the comments on the draft Scoping Report and herewith acknowledge receipt of the correspondence as dated 20 July 2020 with regards to the Section 102 amendment application submitted on behalf of Zandberg Sandput (Pty) Ltd.

The comments will be incorporated into the final Scoping Report (FSR), and (upon approval of the FSR) addressed in the draft Environmental Impact Assessment Report that will be published for public commenting. A copy of the final Scoping Report will also be available to the registered I&AP's and stakeholders.

We trust that you will find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Dear Madam

RE: DRAFT SCOPING REPORT OF AN APPLICATION IN TERMS OF SECTION 102 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), AND ENVIRONMENTAL AUTHORISATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017) SUBMITTED BY ZANDBERG SANDPUT (PTY) LTD. REFERENCE NUMBER: WC 30/5/1/2/2/87 MR.

The draft Scoping Report (DSR) for the propose expansion of the Zandberg Sandput (Pty) Ltd mining area on a portion of Portion 4 of the farm Zandberg Fontein 97, Robertson Municipal District, is now available for your perusal. A copy of the document can be obtained from Greenmined Environmental upon request, or downloaded from the company website at www.greenmined.com.

Should you be interested your comments are kindly requested on the DSR. A thirty-day commenting period, ending on **17 July 2020**, will be allowed for comments. Your comments must be in writing and can be submitted via facsimile, e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

Please contact Christine Fouche at 082 811 8514 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or christine.f@greenmined.co.za should you require any additional information.

Your feedback is valued and will be addressed appropriately.

Dear Christine,

Your letter dated 11 June 2020 refers.

A fleeting look at the Scoping Report shows that the comment from our letter dated 19 February 2020 has been recorded and noted.

The Branch has no further comment at this stage.

Best regards

Faisal Fakier *Pr. Eng.*

**RESPONSE SEND TO HERITAGE WESTERN CAPE
ON 15 JUNE 2020**

Marlene Lingenfelder

From: Christine Fouche
Sent: 15 June 2020 10:35 AM
To: 'Waseefa Dhansay'
Subject: RE: Notification of Draft Scoping Report - WC 30/5/1/2/2/87 MR
Attachments: NID RESPONSE #20013103AS0210E.pdf

Morning Waseefa

The NID for the project was already submitted on 10 February 2020, upon which HWC responded with a request for an HIA on 19 February 2020 (see attached). The specialists were accordingly commissioned to do the HIA (inclusive of a palaeontological opinion).

However, as HWC is registered as an I&AP on the EIA process the notice that the draft Scoping Report (DSR) is ready for comments were sent to you as a curtsy and to keep you informed on the process. We also loaded the DSR onto the SAHRIS website for ease of reference.

As soon as the HIA is ready we will load it onto SAHRIS and notify you accordingly. The HIA will also form part of the draft Environmental Impact Assessment Report to be compiled upon approval of the final Scoping Report.

I trust you find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards/Vriendelike Groete

**RESPONCE RECEIVED FROM LANGEBERG LOCAL
MUNICIPALITY ON 13 JULY 2020**

To: Christine Fouche <Christine.F@greenmined.co.za>
Cc: Langeberg Municipality <admin@langeberg.gov.za>; msimons@capenature.co.za
Subject: RE: Notification of Draft Scoping Report - WC 30/5/1/2/2/87 MR: PTN 4 OF ZAND BERG FONTEIN 97, ROBERTSON: EXPANSION OF SAND MINE

Good day,

I refer to your email below and my previous email dated 28 January 2020.

The following statistics must be provided with regard to the proposed large scale expansion:

- How much of the currently approved 17,65ha. has already been mined?
- How many hectares are still available to be mined?
- How many years will it take to mine this remaining approved mine area?
- Why is such large extension (108,3851ha.) being applied for? (If 17,68ha. was sufficient for sand mining for a 30+yr period, it would seem unnecessary to apply for more than a ±20ha expansion at this stage).

**RESPONSE SEND TO LANGEBERG LOCAL
MUNICIPALITY ON 14 JULY 2020**

Marlene Lingenfelder

From: Christine Fouche
Sent: 14 July 2020 09:44 AM
To: Tracy Brunings
Cc: Langeberg Municipality; msimons@capenature.co.za; Marlene Lingenfelder
Subject: RE: Notification of Draft Scoping Report - WC 30/5/1/2/2/87 MR: PTN 4 OF ZANDBERG FONTEIN 97, ROBERTSON: EXPANSION OF SAND MINE

Dear Tracy

Greenmined Environmental (Pty) Ltd herewith acknowledge receipt of your comments submitted on the Draft Scoping Report regarding the Section 102 amendment application submitted by Zandberg Sandput (Pty) Ltd with reference number WC 30/5/1/2/2/87 MR.

We take note of your request for additional information, and will incorporate and discuss the request in the draft Environmental Impact Assessment Report (DEIAR) to be circulated for public comments upon approval of the final Scoping Report.

Regarding your comment about the agricultural use of the property: There was no copy and paste error. The land earmarked for the proposed expansion is currently zoned for agricultural purposes. The Department of Environmental Affairs and Development Planning confirmed on 09 March 2020 that: *"Agricultural Land is defined in the Regulations as being land outside the physical outer edge of the existing urban edge. Whether the land has been cultivated or irrigated in the preceding 10 years is irrelevant in respect of this category of land development"*. In light of this, the land use description of the earmarked area cannot be anything other than agriculture even though the footprint is presently covered with natural vegetation. Upon closure of the mine, the use of the mining footprint will be returned to the landowner to allow him to continue farming the property (whether through grazing of natural vegetation or active cultivation). We take note of your suggestion that natural vegetation should be established on the rehabilitated areas. Your request will be forwarded to the botanist responsible for the Botanical Impact Assessment and his suggestions will be incorporated into the Rehabilitation and Closure Plan that will form part of the DEIAR.

We trust you will find this in order, and will continue liaising with the Langeberg Municipality throughout the EIA process.

Kind Regards / Vriendelike Groete

Categories: Zandberg

Hello Christine,

I refer to your email below.

I stand by my comments regarding the land use of the property and wish the following noted: The scoping report refers to the land as being used for agricultural purposes and returning the use after mining to agricultural (pp 19, 38, 63, 71, 75, 81, 82, 87, 90, 97). This is misleading to those who read the report as there is no conventional agricultural activity on the portion of land where the mine expansion is proposed, as is clear from the extract below from Cape Farm Mapper, and from a site visit. Whilst the land is zoned Agricultural zone I, and despite the legal definitions of "Agricultural land", the current use of this land is vacant, natural vegetation. Pg 58 of the scoping report summarises the vulnerable conservation status of much of the natural vegetation which covers the site. Accordingly, should mining be permitted, natural vegetation should be re-established in terms of the rehabilitation process. Alternatively, if agricultural crops are proposed to be established, this must be addressed in the EIA in terms of the proposed extent and nature of crops, to enable the relevant Departments to comment meaningfully.

Kind Regards,

VIEW EDIT

Zandberg Section 102

Add new comment | [Subscribe to: This post](#) | 10 reads

CaseHeader | [LocationInfo](#) | Admin

Status: SUBMITTED

HeritageAuthority(s): HWC

Case Type: Section 38 (8) - Statutory Comment Required

Development Type: Mining

ProposalDescription:

The MR Holder intends submitting an application for consent of the minister to expand the existing mining right footprint of the Zandberg sand mine with 108.3851 ha, in terms of Section 102 of the MPRDA, 2002. The proposed expansion area will be developed over an area currently used for agricultural purposes. Should the S102 application be approved mining will progress into the expansion area as the current mining footprint is mined-out. The mining method will remain the same as the method currently implemented by the MR holder. No infrastructure will be established in the extension area.

ApplicationDate: Wednesday, January 29, 2020 - 14:45

Subject: Notification of Draft Scoping Report - WC 30/5/1/2/2/87 MR
Attachments: DSR notice - Zandberg Sandput (Pty) Ltd S102.pdf

Dear Sir/Madam

RE: DRAFT SCOPING REPORT OF AN APPLICATION IN TERMS OF SECTION 102 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), AND ENVIRONMENTAL AUTHORISATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998 NEMA) AS WELL AS THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED 2017) SUBMITTED BY ZANDBERG SANDPUT (PTY) LTD. REFERENCE NUMBER: WC 30/5/1/2/2/87 MR.

The draft Scoping Report (DSR) for the propose expansion of the Zandberg Sandput (Pty) Ltd mining area on a portion of Portion 4 of the farm Zandberg Fontein 97, Robertson Municipal District, is now available for your perusal. A copy of the document can be obtained from Greenmined Environmental upon request, or downloaded from the company website at www.greenmined.com.

Should you be interested your comments are kindly requested on the DSR. A thirty-day commenting period, ending on **17 July 2020**, will be allowed for comments. Your comments must be in writing and can be submitted via facsimile, e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

Please contact Christine Fouche at 082 811 8514 (Cell) or 021 851 2673 (Tel), 086 546 0579 (Fax), or christine.f@greenmined.co.za should you require any additional information.

Your feedback is valued and will be addressed appropriately.

Kind Regards/Vriendelike Groete

Attachments: FSR Appendix 5 - Comments and Response Report.pdf

Hi Tracy

Please see attached the comments and response report where the comments were listed received thus far. The document with the proof of the actual documents received is the one that is that big.

Hope this helps, but if not please let me know if you require further assistance.

Kind Regards / Vriendelike Groete

Hi Christine,

Is the table with the IAP comments 28Mb?! That's all I need – just to see what comments have been received for our land use file records.

If it is that large then I will rather request our IT Dept to allow me access to your website (I don't have open internet access) and print out what I require.

Many thanks,
Tracy

Good Morning Tracy

Your email received 28 July 2020 has reference.

We can gladly supply you with the Comments and Response Report as well as the Proof of Public Participation Process documents that were appended to the final Scoping Report. Please note that these documents has a combined size of approximately 28 Mb. Both these documents are available (with the rest of the report) on our website: www.greenmined.com or alternatively we can send you a link from where the documents can be downloaded.

Should you not be able to download the document, please let me know then we can courier you a CD with the full document on it.

Kind Regards / Vriendelike Groete
