LAND CLAIM ENQUIRY: PORTIONS 1, 2, 3 AND THE REMAINDER OF THE FARM KLIPVLEY KAROO KOP NO. 153 WEST COAST DISTRICT MUNICIPALITY

Thank you for your letter dated 07th July 2023

We confirm that as at the date of this letter no land claims appear on our database in respect of **PORTIONS 1, 2, 3 AND THE REMAINDER OF THE FARM KLIPVLEY KAROO KOP NO. 153 WEST COAST DISTRICT MUNICIPALITY**. This includes the database for claims lodged by 31 December 1998 and those lodged between 1 July 2014 and 28 July 2016. Whilst the Commission takes reasonable care to ensure the accuracy of the information it provides, there are various factors that may be beyond the Commission's control, particularly relating to claims that have been lodged but not yet been gazetted.

- Some Claimants referred to properties they claim dispossession of rights in land against using historical property descriptions which may not match the current property description; and
- Some Claimants provided the geographic descriptions of the land they claim without mentioning the particular properties they claim dispossession of rights in land against.
- The Commission can therefore not accept any liability whatsoever if through the process of further investigation of claims it is found that there is in fact a land claim in respect of the above properties.

If you are aware of any change in the description of the above property after 19 June 1913 kindly supply us with such description as to enable us to do a further search.

Kind Regards

Dr Wayne Alexander
Chief Director: Restitution Support: RLCC (Western Cape)

Dear Mr. Smit

COMMENTS ON THE DRAFT BASIC ASSESSMENT REPORT FOR THE PROPOSED PROSPECTING RIGHT ON PORTIONS 1,2, 3, AND THE REMAINDER OF THE FARM KLIPVLEY KAROO KOP 153, WEST COAST DISTRICT MUNICIPALITY, WESTERN CAPE PROVINCE.

The Department of Forestry, Fisheries, and the Environment (DFFE); Branch Oceans & Coasts (O&C) appreciates the opportunity granted to provide comments and recommendations on the Draft Basic Assessment Report (BAR) for the Proposed Prospecting Right for Garnet (Abrasive), Heavy Minerals (General) Leucoxene, (Heavy Mineral) Monazite (Heavy Mineral), Rare Eaths, Rutile (Heavy Mineral), Zirconium Ore, Ilmenite (hereafter referred to as mineral resource) over Portion 1,2, 3 and the Remainder of the farm Klipvley Karoo Kop 153, West Coast District Municipality, Western Cape Province as per the National Environmental Management Act, 1998 (Act No. 107 of 1998), ("NEMA") and the National Environmental Management: Integrated Coastal Management Act, 2008 (Act No. 24 of 2008) ("**ICM Act**").

The Branch O&C has the mandate to ensure the holistic management of the coast and estuarine areas as an integrated system and promote coordinated coastal management. It ensures that the ecological integrity, natural character, and economic, social, and aesthetic value of the coastal zone are maintained to protect people, properties, and economic activities against the impacts of dynamic coastal processes. Guided by the principles of integrated coastal management, this Branch promotes developments that promote socially justified sharing of benefits derived from a resource-rich coastal area and strives to ensure that the principles of sustainable development are upheld.

Based on the submitted draft BAR, the Branch O&C presents the comments stipulated below for consideration.

Please note the recommendations for your consideration:

1. The report is silent on any current activities in and around the proposed site, however, recreational activities as well as kelp collectors and fishers who might be of existence around the site should be considered and the proposed prospecting should not impede the rights of citizens to access the coastal public property and coastal resources. There may also be other rights/permit holders i.e., small-scale fishers etc. There needs to be an identification of such people to inform them of the proposed activities and reach a consensus with them. Failing which, may lead to the disgruntlement of communities and inundation of complaints to the coastal management sector regarding coastal access restrictions and infringements of rights enshrined in the ICMA or MLRA.
2. During the surface sampling phase, community members residing near the site should be considered for job opportunities, and where possible skills transfer must be considered to improve the livelihood of the community.
3. The prospecting activities will include surface sampling, auger drilling, and air-core drilling the immediate backfilling of the pit for security and safety reasons before the project is moved to the next pit position is encouraged.
4. Screening of potential permit/right holders designated adjacent to the site of the proposed prospecting in terms of the Marine Living Resources Act 18 of 1998 (MLRA) must be conducted.
5. The applicant should ensure that the public is still able to safely access beaches and use the coastal route so that the impacts on the characteristic land use are minimized through non-conflicting schedules that must be adhered to by all users of the space in question. The proposal to stop mining and sampling activities during peak recreational times (i.e., summer holidays and easter seasons) is advised more especially if this area is utilized by Lutzville residents.
6. Even though the proposed prospecting does not require heavy machinery and heavy infrastructure the applicant should ensure that the mitigation measures proposed are always implemented.
7. This Branch recommends a site-specific contingency plan for any possible oil spillages during the proposed prospecting activities.

Kindly note that the Department reserves the right to revise its comments and request further information based on any additional information received. All correspondence, documentation, and/or requests (hard copy and an electronic copy) should be submitted to our office via email to OCEIA@dfpe.gov.za / or **Physical Address: Department of Forestry, Fisheries & the Environment (DFPE), Branch: Oceans and Coast, 2 East Pier Building, East Pier Road, Victoria and Alfred Waterfront, Cape Town, 8001.**

Geagte mnr/mev

Hiermee aangeheg my registrasie as wettige grondeienaar vir bogenoemde aansoek.
Ek sien die dbar is slegs in Engels beskikbaar en ek sal dit hoog op prys stel indien jul dit in Afrikaans aan my kan stuur.
Die engelde weergawe mag tot verwarring lei aangesien dit nie my moedertaal is nie.

Ek is bewys daarvan dat die voertaal van die Departement Engels is, maar ek as wettige eienaar verstaan nie al die Engelse propekteer termes nie en dit sal heel moontlik tot verwarring lei.

Vriendelike groete

Ida Visser

Hallo Sonette

Hoop dit gaan goed.

Volgens vorige skrywe het ek tyd tot 2 Augustus om kommentaar te lewer.

Aangesien ek nognie die "Draft" in Afrikaans ontvang het nie, kan ek asseblief vir uitstel vra vir kommentaar.

Baie dankie en lekker dag

Goeie dag Mari Rossouw

Hiermee, is jou epos erken en jy word geregistreer as n "Interested and Affected Party (I&AP)".

1. Die DBAR is in die proses om vertaal te word na Afrikaans en sal beskikbaar wees op ons webblad binnekort. Ons sal jou laat weet.
2. Daar is net een " Site Alternative 1" kaart, omdat die area so groot is kan ons die prospektering skuif en areas vermy wat nie toepaslik is nie.
3. Volgens die aansoeker, het hulle mondelings oor die prospekter reg bespreek en al die grondeienaars het toestemming gegee vir al die spesialiste.

Ek hoop dit antwoord al jou vrae. Asseblief moet nie huiwer as jy enige ander vrae het nie.

Kind Regards/Vriendelike Groete

Goeie middag

WC 30/5/3/2/1/10433 PR

Ek is 'n geregistreerde I&AP vir bogenoemde aansoek.

Ek wil net die volgende uitklaar:

1. Is daar enigsens 'n Afrikaanse dokument beskikbaar?
2. Kan julle asb vir my 'n kaart stuur waarop **Site Alternative 1** en **Site Alternative 2** baie duidelik aangedui is? (Ek kan dit dalk miskyk in die DBAR)
3. Ek sien die spesialis studies is klaar gedoen. Ek neem aan die eienaar het hiervoor toestemming gegee? Was die toestemming skriftelik gewees?

Sien uit na terugvoering!

Vriendelike groete
Mari Rossouw
