13 October 2026

Dear Sirs/Madam

ENVIRONMENTAL AUTHORISATION APPEAL: NC 30/5/1/2/2/10255 MR

1. We refer to your email of 27 September 2026. Please find enclosed the appeal form completed in respect of the second column to deal with the responses from Assmang. We note that you have requested us to provide our responses to the appeal in the second column of the attached appeal response report and thus the attached document deals with what is contained in the appeal report. We would assume therefore that the two other documents that you have sent to us, being the Notice of Appeal and the document headed "Appeal against the Assmang Environmental Authorisation decided on 18 August 2026 and issued on 10 September 2026" do not form part of the appeal and nor do the annexures which are not attached to the appeal report table.

2. We trust therefore that neither the Notice of Appeal or the document headed "Appeal against the Assmang Environmental Authorisation decided on 18 August 2026 and issued on 10 September 2026" constitute documents which form part of the appeal and for which we need to provide you with a response. We therefore would require confirmation that none of the allegations or contentions contained in the said two documents which do not form part of the table format of the appeal will be considered by the Appeal Authority in taking a decision.

3. We therefore have not dealt in any detail with the allegations set out in the Notice of Appeal and the accompanying document and annexures which are not part of the table format of the appeal and the failure by us to deal with any allegation or contention does not amount to an admission of the correctness thereof. Assmang

reserves the right to respond in the appropriate forum to the said allegations and should the content of the Notice of Appeal and its accompanying document which are not part of the table format be used by the Appeal Authority in taking a decision adverse to Assmang, Assmang's rights in relation thereto are hereby reserved. Without derogating from the generality thereof we do however wish to bring to the Appeal Authority's attention the following, namely -

3.1 much of the documentation referred to in paragraph 2 of the Notice of Appeal are already within the possession of Mr Wessels, the Appellant. Other documentation requested which were not part of the EIA process are not relevant to the environmental authorisation or the appeal;

3.2 any allegation that the pending RMDEC process has any impact upon the decision to have granted the environmental authorisation approval is without any basis whatsoever. The RMDEC process deals with the grant of the mining right and the decision to be taken still by the Minister to grant the mining right and the RMDEC process has therefore nothing to do with the grant of the environmental authorisation;

3.3 serious allegations are made against Assmang and its EAP in regard to the postponement of the RMDEC hearing which have absolutely no basis whatsoever. It has already been explained to RMDEC and Mr Naidoo acting for Mr Wessels that the RMDEC sitting was postponed as the EAP, namely Christine Fouche of Greenmined Environmental was not available as she was attending an environmental audit with the DMPR in the Free State Region on the day that it was set down and therefore the request for the postponement. There was no impropriety or ulterior motive as falsely alleged by Mr Naidoo and neither was there any motivation to postpone the RMDEC hearing in order for the EA to be issued. There was no connection between the two and any allegations made in relation thereto are not only false but highly defamatory;

3.4 the allegations set out in paragraph 8.1 of the Notice of Appeal have once again absolutely no basis whatsoever. No proof has ever been provided that Greenmined and/or Assmang represented that landowner consent had been obtained in any documentation that has been provided to the DMPR in relation to the environmental authorisation or otherwise. There was extensive landowner engagement and consultation. Once again this serious allegation without any evidence whatsoever that Greenmined and/or Assmang purported to have obtained the landowner's consent is once again not only false but highly defamatory. All of Assmang's rights in this regard remain reserved.

4. We therefore look forward to a decision on the appeal. For the sake of clarity Assmang is of the view that the appeal lodged by the Appellant has no basis whatsoever and should be dismissed by the Appeal Authority.

Your faithfully

Signed by:Anna Maria Jacoba Burger

GROUNDS OF APPEAL	RESPONDING STATEMENT BY THE APPLICANT	COMMENTS BY THE DEPARTMENT
	POINTS *IN LIMINE* 1. The Appeal fails to disclose the interests of the Appellant, Mr Wessels, and on what basis he is an interested and affected party. The properties involved in the application are portions 1, 2 and the remaining extent of the farm Makganyene 667 as well as portion 3 of the said farm. In this regard: • portion 1 is owned not by Mr Wessels but by the Close Corporation known as JC Wessels Boerdery Close Corporation and portions 2 and the remaining extent are owned by Mr Wessels; • in regard to portion 3 this is neither owned by Mr Wessels nor the Close Corporation. 2. The appeal states that Advocate N Naidoo represents the Appellant. However there is no mandate that has been furnished indicating such authority to act for Mr Wessels as the Appellant and there is no authority given by the Close Corporation which owns portion 1 of the farm and the Close Corporation is not listed as an Appellant. The lack of proof of authority is sufficient to have the appeal disposed of entirely.	
1. Incomplete borehole and groundwater assessment. The authorisation was granted without a complete survey of the 507 recorded boreholes. The Digby Wells assessment inspected 98, recorded open, obstructed and destroyed holes, and recommended a	From an environmental assessment perspective, it is important to distinguish between historic prospecting	

full hydrocensus. The remaining safety and groundwater risks require independent assessment before authorisation.	activities and the environmental assessment undertaken for the subsequent Mining Right application. The 507 boreholes referred to in the appeal related to the Prospecting Right activities that predated the Mining Right application. Any outstanding requirements relating to the condition, safety, rehabilitation or closure of these prospecting boreholes would primarily constitute matters associated with the Prospecting Right and should be dealt with through the appropriate process applicable to the rights. For purposes of the Mining Right application, the Final EIA Report was supported by, amongst others, a geohydrological assessment and a freshwater impact assessment. These specialist studies considered the existing receiving environment across the application area and assessed the potential impacts associated with the proposed mining activities on the groundwater and freshwater environments. The environmental assessment undertaken for the Mining Right was therefore not based solely on the historic prospecting borehole information. The fact that all 507 historic boreholes were not inspected during the Digby Wells assessment does not mean, in itself, that the groundwater assessment undertaken for the Mining Right application was incomplete. The recommendation for a full hydrocensus appears to relate to outstanding matters associated with the preceding activities, whereas the specialist studies undertaken for the Mining Right were intended to establish the current environmental baseline and assess the potential impacts of the proposed mining activities. In considering this Appeal point, a distinction is maintained between any outstanding obligations associated with the historic Prospecting Right and the adequacy of the specialist environmental information that accompanied the Mining Right application and informed the Environmental Authorisation.	

Initial/s: HB

	The Mining Right EIA was supported by a geohydrological assessment and freshwater impact assessment, which assessed the prevailing environmental conditions and the potential groundwater and freshwater impacts associated with the proposed mining activities. A distinction can therefore still be made between the adequacy of the specialist assessment undertaken to inform the Mining Right application and the outstanding investigation/management of boreholes associated with the historic prospecting activities. The Mining Right application is a standalone application. The Prospecting Right has its own EMP and statutory requirements and any outstanding matters associated with the preceding prospecting activities are being dealt with from the point of view of the prospecting EMPR and the statutory obligations in relation thereto. Although the holding of a Prospecting Right gives exclusivity to apply for a mining right, it is only that exclusivity which applies. A Mining Right application is a standalone application and has a standalone EA dealing with the current environmental baseline and assessing the potential impacts of proposed mining activities which the EA which is the subject of this Appeal and its accompanying EIA Report support. Investigation into the alleged contamination is still underway and the full source, extent and significance of the contamination has therefore not yet been conclusively established. It would consequently be premature to present the reported detections if they exist as a fully categorised contamination impact attributable to or arising from the proposed Mining Right activities. The purpose of the environmental assessment undertaken in support of the Mining Right application was to assess the existing receiving environment and the potential environmental impacts associated with the proposed future mining activities. The Final EA Report was supported by specialist geohydrological and freshwater assessments for this purpose. It was not intended to constitute the closure or rehabilitation	

Initial/s: HB

	assessment of the preceding Prospecting Right, nor a condition survey of every borehole established during prospecting. The condition, obstruction or collapse of individual historic prospecting boreholes, together with the further investigation and where necessary, remediation of contamination associated with the prospecting activities can therefore be distinguished from the assessment of the environmental impacts associated with the proposed Mining Right.	
2. Localised hydrocarbon contamination and rehabilitation. Digby Wells observed light non-aqueous phase liquid in three boreholes and detected benzene or toluene in others. Its finding of no widespread mobile plume does not resolve those local impacts. Recommended product removal, resampling and monitoring, together with disputed capping and lining obligations, were not adequately addressed.	Please see the response in regard to Item 1 above and the contents thereof apply *mutatis mutandis*. The obligations in relation to the issues raised in this paragraph 2 of the grounds of appeal are the subject of a separate EMP, separate statutory obligations in relation to the prospecting right and its accompanying environmental authorisation and the Digby Wells Report has been procured in regard to the issues flowing from the impacts of the prospecting. There is no reason why the grant of the EA for the Mining Right could have and should have been dealt with as the prospecting boreholes and the content thereof have no impact upon the environmental assessment that was undertaken for the Mining Right and the potential impacts of the proposed mining activities.	
3. Inadequate disclosure and consultation on the expanded mineral scope. Minerals beyond iron ore, manganese ore and diamonds were included without meaningful disclosure of the changes, proposed activities or environmental effects to the landowner. The record should establish when the additions were made, how they were assessed and what opportunity Mr Wessels had to participate.	Assmang does not agree with this statement that minerals were subsequently added to or that the mineral scope of the application was expanded without disclosure. The mineral commodities applied for remained the same from the commencement of the environmental authorisation process and were consistently reflected throughout the public participation and environmental assessment documentation. The initial public participation material, including the newspaper advertisement and site notices, identified the minerals applicable to the application. A copy of the newspaper advertisement and site notices are annexed hereto as Annexures "**AA1**" and "**AA2**" respectively. The same mineral scope was subsequently reflected in the Scoping Report and EIA Report. There was therefore no	

Initial/s: HB

	later amendment or expansion of the material scope during the environmental assessment process of the Mining Right that would, from a PP perspective, having required disclosure as a change to the proposed project.
	
	In addition, the inclusion of diamonds was specifically discussed with Mr Wessels during the meeting held with him on 5 December 2024. The minutes of this meeting, together with correspondence with Mr Wessles, were included in the Final EIA Report and therefore formed part of the environmental assessment record submitted to the DMPR and which Minutes of the Meeting together with the correspondence with Mr Wessels are annexed hereto as Annexure "**AA3**". In regard to consultation Assmang further notes:
	
	• Greenmined prepared and submitted the draft Scoping Report ("**DSR**"). The DSR was distributed for public comments and Mr Wessels was entitled to comment on the DSR;
	• the Final Scoping Report ('**FSR**") was subsequently submitted to the Department of Mineral and Petroleum Resources which incorporated the comments received on the DSR;
	• thereafter the draft environmental impact assessment report ("**EIAR**") (that followed the Scoping Report) was submitted;
	• ultimately the final environmental impact assessment report ("**FEIAR**") was submitted; and
	• in preparing the above reports, Greenmined shared the following documents with Mr Wessels, namely:
	  • the Minutes of the Meeting held between Assmang/ARM, Mr Wessles, Mr Gomolemo (Mr Wessels' then attorney) and Greenmined;
	  • a link to DSR with all attachments;
	  • a link to the draft EIAR with all attachments; and	

Initial/s: HB

	• notice that the FEIAR was submitted and it is available on the Greenmined website. Additional correspondence with Mr Wessels, including WhatsApp communications received from Mr Wessels which are annexed hereto as Annexure "**AA4**" supplement the existing Record and demonstrate that the said engagements with Mr Wessels took place. From the environmental assessment and public participation record available Assmang and the EAP are not aware of any stage during the process at which additional minerals were introduced without disclosure to the I&APs. The documentary Record confirms both the mineral commodities included from the commencement of the process and the opportunities afforded to Mr Wessels to participate and raise concerns regarding the proposed application. Furthermore a Mining Right applicant is not constrained to the minerals that were specifically referred to in the Prospecting Right. The whole idea of prospecting under the auspices of a Prospecting Right is to determine which minerals are capable of being included in a Mining Right application once prospecting has been done. Therefore the fact that the mineral right description does not follow the Prospecting Right mineral description is irrelevant as long as the environmental consequences are set out in the environmental documentation that accompanies the application which indeed was the case as all of these minerals that are included in the mining right application were specifically included from the commencement of the EA process. Furthermore the additional names of minerals reflected in the Mining Right application are either types of iron ore or management ore. For your assistance we have listed the names and their description below (the underlining has been inserted for assistance by us). 1.1 **Hematite** - Hematite (Fe_2O_3) is a common iron oxide mineral and the primary ore of	

Initial/s: HB

		iron, containing approximately 70% iron by weight. Known for its characteristic red-brown streak, it ranges from metallic gray (specularite) to earthy red (red ochre) forms. It is widely used in steel production, pigments, and polishing compounds;	
	1.2	**Magnetite** - Magnetite (Fe3O4) is a naturally occurring magnetic iron oxide mineral, a key iron ore, often appearing as black, metallic octahedral crystals. It is highly magnetic, Magnetite is a black, opaque, magnetic mineral that leaves a black streak when rubbed across a hard rough surface. It is one of the most abundant metal oxides, and its crystal structure contains both the ferrous (Fe+2) and ferric (Fe+3) forms of iron ions. A complex pattern of electrons between the two forms of iron is the source of its magnetic nature. It is heavily used in steel production, heavy-medium fluids, and biomedical applications;	
	1.3	**Goethite** - Goethite (Fe3+O(OH)) is a common yellow earth mineral primarily composed of iron hydroxide. It is an important iron ore that occurs naturally as an opaque crystalline material. Goethite has been ground and used as a pigment from the earliest times; it provides the yellow colouring. Large clumps of goethite have also been carved for small ornamental items;	

Initial/s: HB

	1.4	**Limonite** - Limonite ($FeO(OH)\cdot nH_2O$) is an amorphous dark yellow mineral composed of hydrated iron oxide. Limonite is often found mixed with clay and sand in the form of a loose powder or a compact, slightly silky, mass. Limonite is formed in marshy and boggy areas and has been used as an iron ore, a yellow earth pigment and, in ancient times, as an ornamental stone for small carved items such as beads and seals. The term limonite is sometimes generally applied to any hydrated iron ore;	
	1.5	**Siderite** - Siderite (Fe_2CO_3) is *a yellowish-brown iron ore composed of iron carbonate*. It has a specific gravity of 3.83-3.88 along with an uneven fracture, pearly luster, and pale yellow streak. It is a metallic meteorite composed primarily of iron and nickel;	
	1.6	**Pyrolusite** - Pyrolusite (MnO_2) is a manganese dioxide ore that is used as a decolourizer in the manufacture of glass. It is a lustrous, metallic black ore that is used in the manufacture of ferromanganese, steel and manganese bronze. It constitutes as an important ore that is always formed under highly oxidizing conditions, it forms light-gray to black, metallic, moderately heavy coatings, crusts, or fibres that are alteration products of other manganese ores;	

Initial/s: HB

	1.7	**Psilomelane** - Psilomelane (BaMnMn8O16(OH)4) is an important ore mineral of manganese. What was formerly called psilomelane is now known to be a mixture of several manganese oxides. It is a black metallic hydroxide of barium and manganese. Psilomelane is an important ore of manganese and occurs as black rounded masses;	
	1.8	**Rhodochrosite** - Rhodochrosite (MnCO3) is a rose red mineral composed of manganese carbonate. The transparent to opaque mineral ranges in color from pink to deep red. It has been used as a minor ornamental stone and as a source for manganese;	
	1.9	**Manganite** - Manganite (MnO(OH)) is an ore mineral of manganese, basic manganese oxide that forms dark gray to black crystal bundles or fibrous masses;	
	1.10	**Braunite** - Braunite (Mn2+Mn3+6(SiO4)O8) is a rare, dark grey to black tetragonal manganese silicate-oxide mineral, often found in manganese deposits. It is known for its high manganese content, hardness of 6–6.5 on the Mohs scale, and submetallic luster. It serves as a significant manganese ore; and	
	1.11	**Hausmannite** - Hausmannite (Mn2+Mn3+2O4) is a manganese oxide mineral that occurs as brownish black	

Initial/s: HB

	crystals or granular masses in high-temperature hydrothermal veins and in contact metamorphic zones. It is found associated with other oxide minerals of manganese and other metals. Therefore there were no deviations from the description of the minerals in the Prospecting Right in any respect whatsoever in that all of the minerals described in the Mining Right application are variants of iron ore and manganese ore.	
4. Unresolved protected-tree complaint. Mr Wessels alleges that protected Boscia albitrunca trees were destroyed or disturbed without the necessary permit; Assmang disputes this. The authorisation should not have proceeded without examining mapped and photographic evidence, relevant permits and the pending SAPS investigation.	This is a complaint, not a ground of appeal. The complaint lodged by Mr Wessels is being dealt with by the appropriate authorities and Assmang has been engaging with the relevant authorities. Assmang disputes any wrongdoing in this regard but once again these are activities that were conducted during the prospecting phase and should be governed by the laws and regulations relating to the Prospecting Right and the environmental authorisation and legal obligations related thereto under the auspices of the Prospecting Right which is currently taking place. The so-called unresolved protected tree complaint has no bearing on the impact of mining activities in the future on Makganyene and therefore this ground of appeal has no basis whatsoever.	
5. Premature decision despite unresolved compliance concerns. Alleged breaches of the Surface Use Agreement and rehabilitation duties, extensive borehole defects, localised pollution and the disputed consultation record were material to the decision. The decision-maker should have assessed these matters and Assmang's environmental performance before authorising expanded mining activities.	Once again this is not a ground of appeal against the environmental authorisation relating to the Mining Right. The compliance concerns are being dealt with through the appropriate statutory mechanisms and reports that have been furnished pursuant to complaints lodged by Mr Wessels relating to conduct during the existence of the Prospecting Right and its accompanying environmental authorisation. Once again Assmang denies any wrongdoing and will attend to any compliance directives should those ever arise in future but once again this relates to prospecting activities, the prospecting boreholes and the so-called unresolved protected-tree complaint all of which related to activities conducted during prospecting and have no impact upon the decision to have granted the environmental authorisation related to	

Initial/s: HB

	the Mining Right application of Assmang. So-called breaches of the Surface Use Agreement are also not grounds of appeal whatsoever. To the extent that the Appellant alleges there are breaches of the Surface Use Agreement, he has contractual rights in relation thereto which he can invoke completely separately from the grant of the environmental authorisation for the Mining Right.

KENNISGEWING VAN 'N MYNREG AANSOEK

Kennis geskied hiermee ingevolge die Minerale- en Petroleumhulpbronneontwikkelingswet, 2002 (Wet 28 van 2002) (MPRDA), die Nationale Omgewingsbestuurwet, 1998 (Wet 107 van 1998) (NEMA), en die Omgewingsimpakstudie Regulasies, 2014 (soos gewysig) (OIS-), dat Assmang (Edms) Bpk aansoek gedoen het vir:

- 'n Mynregaansoek, ingevolge Artikel 22 van die MPRDA om Hematite, Magnetite, Goethite, Limonite, Siderite, Pyrolusite, Psilomelane, Rhodochrosite, Manganite, Braunite, Hausmannite, Mangaanerts, Ystererts en Diamante (algemeen) van die onderstaande eiendomme te ontgin.
- 'n Omgewingsmagtigingaansoek ingevolge NEMA en die OIS (soos gewysig).
- 'n Aansoek vir 'n afvallisensie ingevolge die Wet op Nasionale Omgewingsbestuur: Afvalwet, 2008 (Wet No 59 van 2008) (NEM:WA), wat by die NEMA:EA-aansoek ingesluit word.

'n Aansoek sal ook binnekort by die Department van Water en Sanitasie ingedien word vir watergebruik-magtiging, ingevolge die Nasionale Waterwet, 1998 (Wet No 36 van 1998)

Die aansoek strek oor 1 549.61 ha van Gedeelte 2 (gedeelte van Gedeelte 1), Restant Gedeelte, Restant Gedeelte van Gedeelte 1 en Gedeelte 3 van die plaas Makganyene No 667 in die Tsantsabane Plaaslike Munisipaliteit van die Noord-Kaap.

Die voorgestelde mynboumetode sal verteenwoordigend van oopgroefmynbou wees. Die eerste fase sal daarop fokus om die bogrond af te haal. Daarna sal die boonste kliplaag gestroop word om toegang tot die erts te verkry, gevolg deur oopgroefmynbou. Die mynboutegnologie sal boorwerk en skietwerk met gepaardgaande vragmotor- en graatperasies insluit. Erts uit die pit te sal na 'n klipbreekaanleg vervoer word, waarna die gebreekte erts op die perseel gestoor sal word vanwaar dit per pad na die Beeshoekmyn verwerkingsaanleg (buite-perseel) vervoer sal word. Geen verwerking van die materiaal sal by die Makganyene ysterertsmyn plaasvind nie.

Die voorgestelde projek lei tot die volgende gelyste aktiwiteite in terme van die NEMA en die OIS-regulasies 2014 (soos gewysig) sowel as die NEM:WA, 2008 en vereis dus 'n OIB-proses:

OIS-regulasies GNR 984 van 2014 (soos gewysig) Aktiwiteit 17:

• Enige aktiwiteit insluitend die bedryf van daardie aktiwiteit wat 'n mynreg vereis ingevolge artikel 22 van die Wet op die Ontwikkeling van Minerale en Petroleumhulpbronne, sowel as enige ander toepaslike aktiwiteit soos vervat in hierdie Notaringskennisgewing, in Notaringskennisgewing 1 van 2014 of Notaring Kennisgewing 3 van 2014, vereis om die mynreg uit te oefen.

NEM:WA Kategorie A Aktiwiteit 2:

• Die sortering, verspuppering, maal, vergruis, sifting of baling van algemene afval by 'n fasiliteit wat 'n operasionele area van meer as 1000 m² het.

NEM:WA Kategorie A Aktiwiteit 14:

• Die ommantelaig van 'n fasiliteit vir 'n afvalbestuuraktiwiteit gelys in Kategorie A of B van hierdie Bylae.

NEM:WA Kategorie B Aktiwiteit 9:

• Die wegdoening van inerte afval op grond van meer as 25 000 ton, uitgesluit die wegdoening van sodanige afval vir die doeleindes van gelykmaak en bou in of deur afkragtens ander wetgewing gemagtig is.

NEM:WA Kategorie B Aktiwiteit 10:

• Die konstruksie van 'n fasiliteit vir 'n afvalbestuuraktiwiteit gelys in Kategorie B van hierdie Bylae (nie in isolasie tot gepaardgaande afvalbestuuraktiwiteite nie).

NEM:WA Kategorie B Aktiwiteit 11:

• Die vestiging of herwinning van 'n residuvoorraad of residuafsetting wat voortspruit uit aktiwiteite wat 'n mynreg, eksplorasiereg of produksiereg vereis ingevolge die Minerale- en Petroleumhulpbronneontwikkelingswet, 2002 (Wet No. 28 van 2002).

Die Konsep Omvanghepalingsverslag sal vanaf **15 November 2024** beskikbaar wees vir publieke kommentaar. Afskrifte daarvan kan op aanvraag by Greenmined verkry word of afgelaai word by https: www.greenmined.com mining-rights . Belanghebbendes en geaffekteerde partye word uitgenooi om skriftelik kommentaar te lewer. Die sluitingsdatum vir kommentaar is **07 Januarie 2025**. Sou u addisionele inligting benodig kan dit vanaf Greenmined verkry word. Gebruik asb. **NC 30/5/1/2/2/10255 MR** as verwysingsnommer.

Deur aan hierdie proses deel te neem, stem u in, in terme van die Wet op die Beskerming van Persoonlike Inligting 4 van 2013 ("POPIA"), tot die wettige verwerking van u persoonlike inligting deur Greenmined, welke persoonlike inligting as deel van dokumentasie gebruik kan word met betrekking tot die aansoekproses vir Omgewingsmagtiging. Deur u besonderhede te verskaf en deur aan hierdie proses deel te neem, magtig u dat sulke inligting gedeel mag word vir die doel van hierdie aansoek.

NOTICE OF MINING RIGHT APPLICATION

Notice is hereby given in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Assmang (Pty) Ltd ("Applicant") applied for:

- a mining right in terms of Section 22 of the MPRDA for Hematite, Magnetite, Goethite, Limonite, Siderite, Pyrolusite, Psilomelane, Rhodochrosite, Manganite, Braunite, Hausmannite, Manganese ore, Iron ore and Diamonds (general) on the below listed properties;
- environmental authorization in terms of the NEMA and the EIA Regulations, 2014 (as amended); and
- a waste licence in terms of the National Environmental Management: Waste Act, 2008 (Act No 59 of 2008) (NEM:WA), alongside the NEMA:EA appliecation.

An application for a water use authorisation to the Department of Water and Sanitation, in terms of the National Water Act, 1998 (Act No 36 of 1998) will follow in due course.

The application extends over 1 549.61 ha of Portion 2 (portion of Portion 1), Remainder Portion, Remainder Portion of Portion 1 and Portion 3 of the farm Makganyene No 667 in the Tsantsabane Local Municipality of the Northern Cape.

The proposed mining method will be representative of opencast mining. The first phase will focus on pre-stripping the top layer material. Then waste rock will be stripped to access the ore body followed by open cast mining. The mining technology will include drilling and blasting with associated truck and shovel operations. Ore from the pits will report to a crusher whereafter crushed ore will be stockpiled on-site from where it will be transported via road to the Beeshock Mine processing facility (off-site). No processing will take place at the Makganyane Iron Ore Mine.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended) as well as the NEM:WA, 2008 and therefore requires an EIA process:

EIA Regulations GNR 984 of 2014 (as amended) Activity 17:

• Any activity including the operation of that activity which requires a mining right in terms of section 22 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice, in Listing Notice 1 of 2014 or Listing Notice 3 of 2014, required to exercise the mining right.

NEM: WA Category A Activity 2:

• The sorting, shredding, grinding, crushing, screening or baling of general waste at a facility that has an operational area in excess of 1000 m².

NEM: WA Category A Activity 14:

• The decommissioning of a facility for a waste management activity listed in Category A or B of this Schedule.

NEM: WA Category B Activity 9:

• The disposal of inert waste to land in excess of 25 000 tons, excluding the disposal of such waste for the purposes of levelling and building which has been authorised by or under other legislation.

NEM: WA Category B Activity 10:

• The construction of a facility for a waste management activity listed in Category B of this Schedule (not in relation to associated waste management activity).

NEM: WA Category B Activity 11:

• The establishment or reclamation of a residue stockpile or residue deposit resulting from activities which require a mining right, exploration right or production right in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002).

The Draft Scoping Report (DSR) will be available for public comment from **15 November 2024**. Copies thereof can be obtained from Greenmined upon request or downloaded from https://www.greenmined.com/mining-rights/. Interested and Affected Parties (I&AP's) are invited to provide written comments. The closing date for submission of comments is **07 January 2025**. Should additional information be required it can be obtained from Greenmined. Please use **NC 30/5/1/2/2/10255 MR** as reference when commenting.

By taking part in this process, you hereby consent, in terms of the Protection of Personal Information Act 4 of 2013 ("POPIA"), to the lawful processing of your personal information by Greenmined, which personal information may be used as part of documentation pertaining to the Environmental Authorisation and or Mining Right application process. By providing your details and by taking part in this process you authorise such information to be shared for the purpose of this application.

Deurbraak vir Valke in ietermagoghandelsaak

GEMSBOK-KURUMAN: Die Valke en die Batebeslagleggingseenheid het 'n finale beslagleggingsbevel vir 'n Mercedes-Benz teen 'n 59-jarige Noord-Kapenaar, na sy inhegtenisneming in 'n operasie in Kuruman wat die onwettige handel in ietermagogge teiken, verkry.

Die Valke se eenheid vir gespesialiseerde ondersoek en batebeslaglegging vir prioriteitsmisdaad het 'n finale beslagleggingsbevel vir 'n Mercedes-Benz teen Neo Tongwane (59) suksesvol verkry.

Die hooggeregshof in Kimberley het die bevel op 6 November toegestaan. Volgens ao Nomthandazo Mnisi, woordvoerder van die Valke in die Noord-Kaap, volg die beslaglegging op Tongwane se inhegtenisneming in Julie 2023.

Die arrestasie het plaasgevind tydens 'n intelligensie-gedrewe operasie deur die Kuruman Ernstige georganiseerde misdaadondersoek en taktiese reaksiespan (TRT), wat 'n koop-en-arresteeroperasie in Kuruman ingesluit het.

In die operasie is vier verdagtes vir onwettige handel in bedreigde spesies (spesifiek ietermagogge) aangekeer.

Die aangeleentheid is daarna na die Nasionale Vervolgingsgesag se Batebeslagleggingseenheid (AFU) verwys vir 'n gedetailleerde batebeslagleggingsondersoek, wat daartoe gelei het dat die finale beslagleggingsbevel vir die Mercedes-Benz toegestaan is, wat na raming R150 000 werd is.

Die ietermagog is 'n beskermde wilde dier weens die toenemende vraag na sy vleis en skubbe in Viëtnam en China. Foto: Armand Hough, African News Agency (ANA) Argief

SAPD lê beslag op dagga ter waarde van meer as R300 000

GEMSBOK-UPINGTON:Tydens die Noord-Kaapse polisie se voortgesette Veiliger Feesseisoen-operasies, het 'n misdaadintelligensie-geleide optrede gelei tot die beslaglegging van 'n groot hoeveelheid dagga en die inhegtenisneming van 'n 41-jarige verdagte in Upington.

Provinsiale polisiewoordvoerder, sers. Molefi Shemane, het berig dat inligting deur misdaadintelligensie en die Upington-grenspolisie geoperasionaliseer is, wat gelei het tot 'n soektog op 'n geteikende plek op 3 November, waar beamptes dagga met 'n geraamde straatwaarde van ongeveer R303 450 ontdek en beslag gelê het.

'n 41-jarige buitelander is daarna in hegtenis geneem op aanklag van dwelmhandel.

Die waarnemende distrikskommissaris van ZF Mgcawu, brigadier Peet Coetzee, het die beamptes toegejuig vir hul vinnige optrede om die dwelms uit die strate te verwyder en die verdagte vas te trek.

Hy het ook sy dankbaarheid teenoor gemeenskapslede uitgespreek vir hul volgehoue ondersteuning en waardevolle inligting wat met die polisie gedeel is.

25. KENNISGEWINGS

Vervolg van bl. 8

NOTICE: Lost or destroyed Deed Notice is hereby given in terms of Regulation 68 (1) of the Deeds Registries Act 47 of 1937, of the intention to apply for the issue of a certified copy of Notarial Deed of Lease Number K796/2012L passed by Gloudina Maria Van den Heever Identity Number 341008 0001 082 Widow in favour of Limarco 77 Proprietary Limited (RF) Registration Number 2011/008075/07 whose name was changed to Konkoonsies Solar Power (RF) Proprietary Limited in respect of certain lease area designated as 'Lease 1' being an area of 21,8746 (Twenty One Comma Eight Seven Four Six) Hectares located on the immovable property known as Portion 6 (a portion of portion 2) of the Farm Konkoonsies No 91 Situate in the Municipality of Khai-MA Division of Kenhardt Province of Northern Cape in Extent 1713,1210 (One seven one three comma one two one zero) Hectares which has been lost or destroyed. K17/15/11

KENNISGEWING VAN 'N MYNREG AANSOEK

Kennis geskied hiermee ingevolge die Minerale- en Petroleumhulpbronne ontwikkelingswet, 2002 (Wet 28 van 2002) (MPRDA), die Nationale Omgewingsbestuurwet, 1998 (Wet 107 van 1998) (NEMA) en die Omgewingsimpakstudie Regulasies, 2014 (soos gewysig) (OIS-), dat Assmang (Edms) Bpk aansoek gedoen het vir:

- 'n Mynregaansoek, ingevolge Artikel 22 van die MPRDA om Hematite, Magnetite, Goethite, Limonite, Sideriet, Pyrolusite, Psilomelane, Rhodochrosite, Manganite, Braunite, Hausmannite, Mangaaneris, Ystererts en Diamante (algemeen) van die onderstaande eiendomme te ontgin.
- 'n Omgewingsmagtigingaansoek ingevolge NEMA en die OIS (soos gewysig).
- 'n Aansoek vir 'n afvallisensie ingevolge die Wet op Nasionale Omgewingsbestuur: Afvalwet, 2008 (Wet No 59 van 2008) (NEM:WA), wat by die NEMA EA-aansoek ingesluit word.

'n Aansoek sal ook binnekort by die Department van Water en Sanitasie ingedien word vir watergebruik-magtiging, ingevolge die Nasionale Waterwet, 1998 (Wet No 36 van 1998).

Die aansoek strek oor 1 549,61 ha van Gedeelte 2 (gedeelte van Gedeelte 1), Restant Gedeelte, Restant Gedeelte van Gedeelte 1 en Gedeelte 3 van die plaas Makganyene No 667, in die Tsantsabane Plaaslike Munisipaliteit van die Noord-Kaap.

Die voorgestelde mynboumetode sal verteenwoordigend van oopgroefmynbou wees. Die eerste fase sal daarop fokus om die bogrond af te haal. Daarna sal die boonste kliplaag gestroop word om toegang tot die erts te verkry, gevolg deur oopgroefmynbou. Die mynboutegnologie sal boorwerk en skietwerk met gepaardgaande vragmotor- en graafoperasies insluit. Erts uit die putte sal na 'n klipbreekaanleg vervoer word, waarna die gebreekte erts op die perseel gestoor sal word vanwaar dit per pad na die Beeshoekmyn verwerkingsaanleg (buite-perseel) vervoer sal word. Geen verwerking van die materiaal sal by die Makganyane ysterertsmyn plaasvind nie.

Die voorgestelde projek lei tot die volgende gelyste aktiwiteite in terme van die NEMA en die OIS-regulasies 2014 (soos gewysig) sowel as die NEM:WA, 2008 en vereis dus 'n OIB-proses:

OIS-regulasies GNR 984 van 2014 (soos gewysig) Aktiwiteit 17:

- *Enige aktiwiteit insluitend die bedryf van daardie aktiwiteit wat 'n mynreg vereis ingevolge artikel 22 van die Wet op die Ontwikkeling van Minerale en Petroleumhulpbronne, sowel as enige ander toepaslike aktiwiteit soos vervat in hierdie Notenngskennisgewing, in Noteringskennisgewing 1 van 2014 of Notering Kennisgewing 3 van 2014, vereis om die mynreg uit te oefen.*

NEM:WA Kategorie A Aktiwiteit 2:

- *Die sortering, versnippering, maal, vergruis, sifting of baling van algemene afval by 'n fasiliteit wat 'n operasionele area van meer as 1000 m² het.*

NEM:WA Kategorie A Aktiwiteit 14:

- *Die ontmanteling van 'n fasiliteit vir 'n afvalbestuuraktiwiteit gelys in Kategorie A of B van hierdie Bylae.*

NEM:WA Kategorie B Aktiwiteit 9:

- *Die wegdoening van inerte afval op grond van meer as 25 000 ton, uitgesluit die wegdoening van sodanige afval vir die doeleindes van gelykmaak en bou wat deur of kragtens ander wetgewing gemagtig is.*

NEM:WA Kategorie B Aktiwiteit 10:

- *Die konstruksie van 'n fasiliteit vir 'n afvalbestuuraktiwiteit gelys in Kategorie B van hierdie Bylae (nie in isolasie tot gepaardgaande afvalbestuuraktiwiteit nie).*

NEM:WA Kategorie B Aktiwiteit 11:

- *Die vestiging of herwinning van 'n residuvoorraad of residuafsetting wat voortspruit uit aktiwiteite wat 'n mynreg, eksplorasiereg of produksiereg vereis ingevolge die Minerale- en Petroleumhulpbronneontwikkelingswet, 2002 (Wet No. 28 van 2002).*

Die Konsep Omvangbepalingsverslag sal vanaf **15 November 2024** beskikbaar wees vir publieke kommentaar. Afskrifte daarvan kan op aanvraag by Greenmined verkry word of afgelaai word by https://www.greenmined.com/mining-rights/. Belanghebbendes en geaffekteerde partye word uitgenooi om skriftelik kommentaar te lewer. Die sluitingsdatum vir kommentaar is **07 Januarie 2025**. Sou u addisionele inligting benodig kan dit vanaf Greenmined verkry word. Gebruik asb. **NC 30/5/1/2/2/10255 MR** as verwysingsnommer.

Deur aan hierdie proses deel te neem, stem u in, in terme van die Wet op die Beskerming van Persoonlike Inligting 4 van 2013 ("POPIA"), tot die wettige verwerking van u persoonlike inligting deur Greenmined, welke persoonlike inligting as deel van dokumentasie gebruik kan word met betrekking tot die aansoekproses vir Omgewingsmagtiging. Deur u besonderhede te verskaf en deur aan hierdie proses deel te neem, magtig u dat sulke inligting gedeel mag word vir die doel van hierdie aansoek.

NOTICE OF MINING RIGHT APPLICATION

Notice is hereby given in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Assmang (Pty) Ltd ("Applicant") applied for:

- a mining right in terms of Section 22 of the MPRDA for Hematite, Magnetite, Goethite, Limonite, Siderite, Pyrolusite, Psilomelane, Rhodochrosite, Manganite, Braunite, Hausmannite, Manganese ore, Iron ore and Diamonds (general) on the below listed properties;
- environmental authorization in terms of the NEMA and the EIA Regulations, 2014 (as amended); and
- a waste licence in terms of the National Environmental Management: Waste Act, 2008 (Act No 59 of 2008) (NEM:WA), alongside the NEMA EA application.

An application for a water use authorisation to the Department of Water and Sanitation in terms of the National Water Act, 1998 (Act No 36 of 1998) will follow in due course.

The application extends over 1 549,61 ha of Portion 2 (portion of Portion 1), Remainder Portion, Remainder Portion of Portion 1 and Portion 3 of the farm Makganyene No 667 in the Tsantsabane Local Municipality of the Northern Cape.

The proposed mining method will be representative of opencast mining. The first phase will focus on pre-stripping the top layer material. Then waste rock will be stripped to access the ore body followed by open cast mining. The mining technology will include drilling and blasting with associated truck and shovel operations. Ore from the pits will report to a crusher whereafter crushed ore will be stockpiled on-site from where it will be transported via road to the Beeshoek Mine processing facility (off-site). No processing will take place at the Makganyane Iron Ore Mine.

The proposed project triggers the following listed activities in terms of NEMA 1998 and the EIA Regulations 2014 (as amended) as well as the NEM:WA, 2008 and therefore requires an EIA process:

- **EIA Regulations GNR 984 of 2014 (as amended) Activity 17:**
  Any activity including the operation of that activity which requires a mining right in terms of section 22 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice, in Listing Notice 1 of 2014 or Listing Notice 3 of 2014, required to exercise the mining right.
- **NEM:WA Category A Activity 2:**
  The sorting, shredding, grinding, crushing, screening or baling of general waste at a facility that has an operational area in excess of 1000 m².
- **NEM:WA Category A Activity 14:**
  The decommissioning of a facility for a waste management activity listed in Category A or B of this Schedule.
- **NEM:WA Category B Activity 9:**
  The disposal of inert waste to land in excess of 25 000 tons, excluding the disposal of such waste for the purposes of levelling and building which has been authorised by or under other legislation.
- **NEM:WA Category B Activity 10:**
  The construction of a facility for a waste management activity listed in Category B of this Schedule (not in isolation to associated waste management activity).
- **NEM:WA Category B Activity 11:**
  The establishment or reclamation of a residue stockpile or residue deposit resulting from activities which require a mining right, exploration right or production right in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002).

The Draft Scoping Report (DSR) will be available for public comment from **15 November 2024**. Copies thereof can be obtained from Greenmined upon request or downloaded from https://www.greenmined.com/mining-rights/. Interested and Affected Parties (I&AP's) are invited to provide written comments. The closing date for submission of comments is **07 January 2025**. Should additional information be required it can be obtained from Greenmined. Please use **NC 30/5/1/2/2/10255 MR** as reference when commenting.

By taking part in this process, you hereby consent, in terms of the Protection of Personal Information Act 4 of 2013 ("POPIA"), to the lawful processing of your personal information by Greenmined, which personal information may be used as part of documentation pertaining to the Environmental Authorisation and/or Mining Right application process. By providing your details and by taking part in this process you authorise such information to be shared for the purpose of this application.

ERRATUM – KGATELOPELE MUNICIPALITY

STADSBEPLANNING KENNISGEWING/TOWN PLANNING NOTICE
KGATELOPELE MUNISIPALITEIT/MUNICIPALITY

VOORGESTELDE ONDERVERDELING, HERSONERING & KONSOLIDASIE VAN ERF 16, 17 EN GEDEELTE 4 VAN DIE PLAAS CARTER BLOCK NO. 458, LIME ACRES.

KENNIS word hiermee gegee dat die Kgatelopele munisipaliteit 'n aansoek ontvang het in ooreenstemming met Afdeling 3(iii), (v) & (vi) van die Kgatelopele SPLUMA Verordeninge en die Kgatelopele Grondgebruikbestuurskema 2019, saamgelees met die Wet op Ruimtelike Beplanning en Grondgebruikbestuur 16 van 2013 vir die volgende:

- Die onderverdeling, hersonering & konsolidasie van Erf 16, Erf 17 en die Restant van Gedeelte 4 van die Plaas Carter Block no. 458 ten einde die huidige grondgebruike te akkommodeer.

Besonderhede aangaande hierdie aansoek is gedurende kantoor ure 07:30am – 16:30pm (Maandag tot Vrydag) verkrygbaar by die Stedelike Beplannings afdeling, Kgatelopele Munisipaliteit, 222 Barker Straat, Danielskuil. Kommentaar, besware of verlote, indien enige, t.o.v.m. hierdie voorstel moet aan beide die plaaslike owerheid en aansoeker voorgelê word (sien kontakbesonderhede hieronder) voor of op **MAANDAG 09 DESEMBER 2024**. Enige persoon wat nie kan skryf nie, kan die Munisipale Kantore by bogenoemde adres besoek waar Mnr. Wanga Madavhu, daardie persoon sal help om hul kommentaar, beswaar of voorlegging te registreer.

PROPOSED SUBDIVISION, REZONING & CONSOLIDATION OF ERF 16, 17 AND PORTION 4 OF THE FARM CARTER BLOCK NO 458, LIME ACRES.

NOTICE is hereby given that the Kgatelopele Municipality has received an application in accordance with Sections 3(iii), (v) & (vi) of the Kgatelopele SPLUMA By-laws & the Kgatelopele Land Use Management Scheme 2019, read together with the Spatial Planning and Land Use Management Act 16 of 2013 for the following:

- The subdivision, rezoning & consolidation of Erf 16, Erf 17 and the Remainder of Portion 4 of the Farm Carter Block no. 458, in order to accommodate the current land uses.

Particulars regarding this application can be obtained between 07:30am and 16:30pm (Monday to Friday) from the Town Planning Section, Kgatelopele Municipal Offices, 222 Barker Street, Danielskuil. Comments, objections or representations, if any, regarding this application must be submitted to both the local authority and applicant (see contact details below), on or before **MONDAY 09 DECEMBER 2024**. Any person who cannot write can visit the Municipal Offices at the above address where Mr. Wanga Madavhu will assist that person to register their comment, objection or submission.

NOTICE OF AGREEMENT OR OPPOSITION TO MEDIATION

IN THE HIGH COURT OF SOUTH AFRICA, NORTHERN CAPE DIVISION, KIMBERLEY, CASE NO. 890/2024. In the matter between: THE STANDARD BANK OF SOUTH AFRICA LIMITED, Registration Number: 1962/000738/06, PLAINTIFF and OAITISI ABIGAIL OLIPHANT, Identity Number 840214 0941 08 9, DEFENDANT. PLEASE TAKE NOTE that the Plaintiff opposes the referral of this matter to mediation. The Plaintiff does so for the following reasons: The Standard Bank of South Africa Plaintiff in this action, hereby confirms its election not to mediate in this matter at this stage. Standard Bank's election is premised on the numerous attempts it has made to amicably resolve the matter with the Defendant (as further canvassed in the Particulars of Claim) and the parties have unfortunately not reached any suitable agreement.
Dated at KIMBERLEY on 10 April 2024.

KENNISGEWING VAN 'N MYNREG AANSOEK

Kennis geskied hiermee ingevolge die Minerale- en Petroleumhulpbronneontwikkelingswet, 2002 (Wet 28 van 2002) (MPRDA), die Nationale Omgewingsbestuurwet, 1998 (Wet 107 van 1998) (NEMA), en die Omgewingsimpakstudie Regulasies, 2014 (soos gewysig) (OIS-), dat Assmang (Edms) Bpk aansoek gedoen het vir:
- 'n Mynregaansoek, ingevolge Artikel 22 van die MPRDA om Hematite, Magnetite, Goethite, Limonite, Siderite, Pyrolusite, Psilomelane, Rhodochrosite, Manganite, Braunite, Hausmannite, Mangaanerts, Ystererts en Diamante (algemeen) van die onderstaande eiendomme te ontgin.
- 'n Omgewingsmagtigingaansoek ingevolge NEMA en die OIS (soos gewysig).
- 'n Aansoek vir 'n afvalfisensie ingevolge die Wet op Nasionale Omgewingsbestuur: Afvalwet, 2008 (Wet No 59 van 2008) (NEM:WA), wat by die NEMA EA-aansoek ingeskiet word.

'n Aansoek sal ook binnekort by die Department van Water en Sanitasie ingedien word vir watergebruik-magtiging, ingevolge die Nasionale Waterwet, 1998 (Wet No 36 van 1998).

Die aansoek strek oor 1 549,61 ha van Gedeelte 2 (gedeelte van Gedeelte 1), Restant Gedeelte, Restant Gedeelte van Gedeelte 1 en Gedeelte 3 van die plaas Makganyene No 667 in die Tsantsabane Plaaslike Munisipaliteit van die Noord-Kaap.

Die voorgestelde mynboumetode sal verteenwoordigend van oopgroefmynbou wees. Die eerste fase sal daarop fokus om die bogrond af te haal. Daarna sal die boonste kliplaag gestroop word om toegang tot die erts te verkry, gevolg deur oopgroefmynbou. Die mynboutegnologie sal boorwerk en skietwerk met gepaardgaande vragmotor- en graafoperasies insluit. Erts uit die put te sal na 'n kliprreekaanleg vervoer word, waarna die gebreekte erts op die perseel gestoor sal word vanwaar dit per pad na die Beeshoekmyn verwerkingsaanleg (buite-perseel) vervoer sal word. Geen verwerking van die materiaal sal by die Makganyene ysterertsmyn plaasvind nie.

Die voorgestelde projek lei tot die volgende gelyste aktiwiteite in terme van die NEMA en die OIS-regulasies 2014 (soos gewysig) sowel as die NEM:WA, 2008 en vereis dus 'n OIB-proses:

OIS-regulasies GNR 984 van 2014 (soos gewysig) Aktiwiteit 17:
• Enige aktiwiteit insluitend die bedryf van daardie aktiwiteit wat 'n mynreg vereis ingevolge artikel 22 van die Wet op die Ontwikkeling van Minerale en Petroleumhulpbronne, sowel as enige ander toepaslike aktiwiteit soos vervat in hierdie Noteringskennisgewing, in Noteringskennisgewing 1 van 2014 of Notering Kennisgewing 3 van 2014, vereis om die mynreg uit te oefen.

NEM:WA Kategorie A Aktiwiteit 2:
• Die sortering, versnippering, maal, vergruis, sifting of baling van algemene afval by 'n fasiliteit wat 'n operasionele area van meer as 1000 m² het.

NEM:WA Kategorie A Aktiwiteit 14:
• Die ontmanteling van 'n fasiliteit vir 'n afvalbestuur aktiwiteit gelys in Kategorie A of B van hierdie Bylae.

NEM:WA Kategorie B Aktiwiteit 9:
• Die weggdoening van inerte afval op grond van meer as 25 000 ton, uitgesluit die weggdoening van soortgelyke afval vir die doeleindes van gelykmaking en bou wat deur kragtens ander wetgewing gemagtig is.

NEM:WA Kategorie B Aktiwiteit 10:
• Die konstruksie van 'n fasiliteit vir 'n afvalbestuuraktiwiteit gelys in Kategorie B van hierdie Bylae (nie in isolasie tot gepaardgaande afvalbestuuraktiwiteit nie).

NEM:WA Kategorie B Aktiwiteit 11:
• Die vestiging of herwinning van 'n residuvoorraad of residuafsetting wat voortspruit uit aktiwiteite wat 'n mynreg, eksplorasiereg of produksiereg vereis ingevolge die Minerale- en Petroleumhulpbronneontwikkelingswet, 2002 (Wet No. 28 van 2002).

Die Konsep Omvangbepalingsverslag sal vanaf **15 November 2024** beskikbaar wees vir publieke kommentaar. Afskrifte daarvan kan op aanvraag by Greenmined verkry word of afgelaai word by hups: www.greenmined.com/mining-rights/. Belanghebbendes en geaffekteerde partye word uitgenooi om skriftelik kommentaar te lewer. Die sluitingsdatum vir kommentaar is **07 Januarie 2025**. Sou u addisionele inligting benodig kan dit vanaf Greenmined verkry word. Gebruik asb. **NC 30/5/1/2/2/10255 MR** as verwysingsnommer.

Deur aan hierdie proses deel te neem, stem u in, in terme van die Wet op die Beskerming van Persoonlike Inligting 4 van 2013 ("POPIA"), tot die wettige verwerking van u persoonlike inligting deur Greenmined, welke persoonlike inligting as deel van dokumentasie gebruik kan word met betrekking tot die aansoekproses vir Omgewingsmagtiging. Deur u besonderhede te verskaf en deur aan hierdie proses deel te neem, magtig u dat sulke inligting gedeel mag word vir die doel van hierdie aansoek.

NOTICE OF MINING RIGHT APPLICATION

Notice is hereby given in terms of Section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (act 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations 2014 (as amended) that Assmang (Pty) Ltd ("Applicant") applied for:
- a mining right in terms of Section 22 of the MPRDA for Hematite, Magnetite, Goethite, Limonite, Siderite, Pyrolusite, Psilomelane, Rhodochrosite, Manganite, Braunite, Hausmannite, Manganese ore, Iron ore and Diamonds (general) on the below listed properties:
- environmental authorization in terms of the NEMA and the EIA Regulations, 2014 (as amended); and
- a waste licence in terms of the National Environmental Management: Waste Act, 2008 (Act No 59 of 2008) (NEM:WA), alongside the NEMA EA application.

An application for a water use authorisation to the Department of Water and Sanitation, in terms of the National Water Act, 1998 (Act No 36 of 1998) will follow in due course.

The application extends over 1 549,61 ha of Portion 2 (portion of Portion 1), Remainder Portion, Remainder Portion of Portion 1 and Portion 3 of the farm Makganyene No 667 in the Tsantsabane Local Municipality of the Northern Cape.

The proposed mining method will be representative of opencast mining. The first phase will focus on pre-stripping the top layer material. Then waste rock will be stripped to access the ore body followed by open cast mining. The mining technology will include drilling and blasting with associated truck and shovel operations. Ore from the pit s will report to a crusher whereafter crushed ore will be stockpiled on-site from where it will be transported via road to the Beeshoek Mine processing facility (off-site). No processing will take place at the Makganyane Iron Ore Mine.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended) as well as the NEM:WA, 2008 and therefore requires an EIA process:

EIA Regulations GNR 984 of 2014 (as amended) Activity 17:
• Any activity including the operation of that activity which requires a mining right in terms of section 22 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice, in Listing Notice 1 of 2014 or Listing Notice 3 of 2014, required to exercise the mining right.

NEM: WA Category A Activity 2:
• The sorting, shredding, grinding, crushing, screening or bailing of general waste at a facility that has an operational area in excess of 1000 m².

NEM: WA Category A Activity 14:
• The decommissioning of a facility for a waste management activity listed in Category A or B of this Schedule.

NEM: WA Category B Activity 9:
• The disposal of inert waste to land in excess of 25 000 tons, excluding the disposal of such waste for the purposes of levelling and building which has been authorised by or under other legislation.

NEM: WA Category B Activity 10:
• The construction of a facility for a waste management activity listed in Category B of this Schedule (not in isolation to associated waste management activity).

NEM: WA Category B Activity 11:
• The establishment or reclamation of a residue stockpile or residue deposit resulting from activities which require a mining right, exploration right or production right in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002).

The Draft Scoping Report (DSR) will be available for public comment from **15 November 2024**. Copies thereof can be obtained from Greenmined upon request or downloaded from https: /www.greenmined.com/mining-rights/. Interested and Affected Parties (I&AP's) are invited to provide written comments. The closing date for submission of comments is **07 January 2025**. Should additional information be required it can be obtained from Greenmined. Please use **NC 30/5/1/2/2/10255 MR** as reference when commenting.

By taking part in this process, you hereby consent, in terms of the Protection of Personal Information Act 4 of 2013 ("POPIA"), to the lawful processing of your personal information by Greenmined, which personal information may be used as part of documentation pertaining to the Environmental Authorisation and/or Mining Right application process. By providing your details and by taking part in this process you authorise such information to be shared for the purpose of this application.

MINUTES OF THE MAKGANYANE MINING RIGHT APPLICATION DISCUSSION
HELD VIA MICROSOFT TEAMS
ON THURSDAY, 05 DECEMBER 2024 AT 14:00

ATTENDANCE REGISTER

NAME	ASSOCIATION	ABBREVIATION	E-MAIL	ATTENDANCE
JC Wessels	Owner of Makganyene No 667/RE, 1, 2	JW	wesselsjcw@gmail.com	Present
K Gomolemo	Legal counsel of Mr Wessels	KG	Kdgomolemo@yahoo.com	Present
C Kuhl	ASSORE (Assmang)	CK	christokuhl@assore.com	Present
P David	ARM (Assmang)	PD	Pumezo.david@arm.co.za	Present
C Fouché	Greenmined Environmental	CF	Christine.f@greenmined.co.za	Present

1. MEETING FORMALITIES

1.1. Opening and Introductions

C Fouché (CF) opened the meeting and the attendees did introductions. Permission was asked (and obtained) to record the meeting for minuting purposes.

2. MEETING MINUTES

ITEM	MATTER DISCUSSED	RESPONSIBLE PERSON	DUE DATE
1.	**PROSPECTING RIGHT (PR) RELATED MATTERS**		
1.1	P David (PD) noted that he and Mr Wessels (JW) are already corresponding regarding certain prospecting related matters, and that a meeting must be arranged between PD, JW, Maryke Burger (from ARM) as well as the legal counsels of both parties to discuss these matters.	PD	On or before 13 December 2024
1.2	The meeting (05/12/2024) agreed that the prospecting related matters will be discussed in the separate meeting (referred to in 1.1), to be held on or before 13 December 2024 if possible. PD will contact JW to set up the meeting.	PD	
1.3	JW noted that an important aspect to be discussed (at the PR meeting) is the plastic liners of the drillhole. The contamination of drillholes and removal of Shepards Trees must also be discussed at this meeting.	PD / CK	
1.4	C Kuhl (CK) confirmed that he will also attend the PR meeting.	CK	
1.5	PD confirmed that CF will not attend the PR meeting as the matters to be discussed are mainly contractual matters between Assmang and JW.	PD	

ITEM	MATTER DISCUSSED	RESPONSIBLE PERSON	DUE DATE
1.6	PD requested that JW and/or Adv Gomolemo (KG) send a list of the matters of concern that must be discussed at the PR meeting, as this will allow the attendees to come prepared.	JW	Before PR meeting.
1.7	CK highlighted that the PR and mining right application matters are equally important. However, separating the two matters into different meetings ensures that the correct audience is present.	CK	-
1.8	CK confirmed that a site inspection will be arranged in the new year (2025) with JW to look at the prospected areas and matters of concern.	CK	January 2025
1.9	JW enquired whether the rental agreement continues even though the PR expired in November 2024. CK will discuss the matter with PD and revert to JW.	CK	On or before 13 December 2024
2.	**MINING RIGHT (MR) RELATED MATTERS**		
2.1	JW enquired what the life of the MR will be, and CF confirmed that Assmang applied for 30 years.	CF	-
2.2	JW noted that there are pangolin and hedgehogs on the farm that must be added to the fauna list in the scoping report (SR).	CF	By 10 January 2025
2.3	CK confirmed that the additional graves (on the farm) mentioned by JW will also be added to the SR.	CF	
2.4	CF explained that the draft SR (DSR) is now available for public comments until 07 January 2025, whereafter the final SR (FSR) must be submitted to the DMRE by 10 January 2025. The DMRE then has 43 days to accept/reject the report and should the FSR be accepted, the EIA process can continue. The specialists will then be appointed to assess their specific aspects. The specialists will also be supplied with the animal and graves information shared by JW. Once the specialist studies are done, all the findings will be incorporated into the draft environmental impact assessment report (DEIAR) that will also be available to the public for comments. The DSR commenting period is therefore not the only time I&AP's and/or landowners will have an opportunity to comment on the project. The DEIAR will also include a discussion on the alternatives that where considered, as well as the final maps and project layout. The final EIAR (FEIAR) must be submitted to the DMRE within 106 days from the acceptance of the FSR.	CF	-
2.5	JW enquired whether the Applicant will mine diamonds. CK confirmed that diamonds are part of the MR application although the focus will be on iron ore. JW raised a concern that the diamonds will be covered by the MR but not mined. CK proposed that the MR application must continue as presently applied for. However, once the MR application was granted / issued alternative options could be investigated regarding diamonds.	CK	-

ITEM	MATTER DISCUSSED	RESPONSIBLE PERSON	DUE DATE
2.6	KG confirmed there was no MR specific matters that he wanted to discuss. He will attend the PR meeting as those matters are more relevant to him.		
2.7	JW informed the meeting that Sishen Iron Ore (SIO) submitted a prospecting right application for gold, copper and other minerals on the same property. There is also another company that applied for a quartzite prospecting right over the property. CF confirmed that SIO was already informed of the project as they are a surrounding landowner. JW will share the details of the quartzite PR Applicant with CF.	JW	06 December 2024
3.	**CONCLUSION**		
3.1	PD will contact JW to set up the PR related meeting.	PD	Before 13 December 2024
3.2	CK will contact JW regarding a site visit in the new year.	CK	January 2025
3.3	CF will do the minutes of this meeting and distribute it to the attendees. The minutes will also be incorporated into the FSR.	CF	12 December 2024
3.4	JW will share the contact details of the quartzite PR Applicant.	JW	06 December 2024

-------- **END** --------

Subject: FEIAR Notice Assmang (Pty) Ltd NC 30/5/1/2/2/10255 MR

Dear Sir/Madam:

RE: NOTICE OF THE FINAL ENVIRONMENTAL IMPACT ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR AN APPLICATION IN TERMS OF SECTION 22 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA), THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED), AS WELL AS THE NATIONAL ENVIRONMENTAL MANAGEMENT: WASTE ACT, 2008 (ACT 59 OF 2008) SUBMITTED BY ASSMANG (PTY) LTD. REFERENCE NUMBER: NC 30/5/1/2/2/10255 MR

The Final Environmental Impact Assessment Report (DEIAR) and Environmental Management Programme (EMPR) for the mining right application submitted by Assmang (Pty) Ltd over Portion 2 (a portion of Portion 1), Remainder Portion, Remainder Portion of Portion 1 and Portion 3 of the farm Makganyene No 667 in the Tsantsabane Local Municipal area was submitted to the DMPR for decision making.

A copy of the FEIAR is available from the Greenmined Environmental website at https://www.greenmined.com/mining-rights/.

We trust you find this in order. Please do not hesitate to contact us in the event of any uncertainties.

Kind Regards/Vriendelike Groete

Subject: DSR Notice NC 30/5/1/2/2/10255 MR - Landowners, Surrounding Landowners
Attachments: DSR Notice - Makganyane MR - AFR.pdf; DSR Notice - Makganyane MR.pdf

Dear Sir/Madam

RE: NOTICE OF THE DRAFT SCOPING REPORT FOR AN APPLICATION IN TERMS OF SECTION 22 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA), THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED), AS WELL AS THE NATIONAL ENVIRONMENTAL MANAGEMENT: WASTE ACT, 2008 (ACT 59 OF 2008) SUBMITTED BY ASSMANG (PTY) LTD. REFERENCE NUMBER: NC 30/5/1/2/2/10255 MR.

The draft Scoping Report (DSR) and draft Social and Labour Plan (DSLP) are now available for your perusal. A copy of the documents can be obtained from Greenmined Environmental (Pty) Ltd upon request or retrieved from the company website at https://www.greenmined.com/mining-rights/.

Should you be interested your comments are kindly requested on the DSR and/or DSLP. A thirty-day commenting period, ending on **07 January 2025**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties. Kindly ensure that your contact details are included with your comments.

Please contact Christine Fouché at 082 811 8514 (Cell) or 021 851 2673 (Tel), or christine.f@greenmined.co.za should you require any additional information.

KONSEP OMVANGSBEPALINGSVERSLAG EN KONSEP MAATSKAPLIKE- EN ARBEIDSPLAN KENNISGEWING

Wie dit mag aangaan

Beste Meneer/Mevrou 15 November 2024

IS: KENNIS VAN DIE KONSEP OMVANGSBEPALINGSVERSLAG VIR 'N AANSOEK INGEVOLGE ARTIKEL 22 VAN DIE MINERALE- EN PETROLEUMHULPBRONNEONTWIKKELINGSWET, 2002 (WET 28 VAN 2002) (MPRDA), ARTIKEL 24 VAN DIE NATIONALE OMGEWINGSBESTUURWET, 1998 (WET 107 VAN 1998) (NEMA), DIE OMGEWINGSIMPAKSTUDIE REGULASIES, 2014 (SOOS GEWYSIG) (OIS-), ASOOK DIE NASIONALE OMGEWINGSBESTUUR: WET OP AFVAL, 2008 (WET 59 VAN 2008) INGEDIEN DEUR ASSMANG (EDMS) BPK. VERWYSINGSNOMMER: NC 30/5/1/2/2/10255 MR.

Kennis geskied hiermee ingevolge die Minerale- en Petroleumhulpbronneontwikkelingswet, 2002 (Wet 28 van 2002) (MPRDA), die Nationale Omgewingsbestuurwet, 1998 (Wet 107 van 1998) (NEMA), die Omgewingsimpakstudie Regulasies, 2014 (soos gewysig) (OIS-), en die Nasionale Omgewingsbestuurs: Wet op Afval, 2008 (Wet 59 van 2008) dat Assmang (Edms) Bpk ("Aansoeker") aansoek gedoen het vir 'n:

- mynreg ingevolge Artikel 22 van die MPRDA vir Hematiet, Magnetiet, Goëtiet, Limoniet, Sideriet, Pyrolusiet, Psilomelane, Rhodochrosiet, Manganiet, Brauniet, Hausmanniet, Mangaanerts, Ystererts en Diamante (Algemeen) op die onderstaande eiendomme;
- omgewingsgoedkeuring (EA) ingevolge NEMA end die OIS-Regulasies, 2014 (soos gewysig); en
- afvallisensie ingevolge die Wet op Nasionale Omgewingsbestuur: Wet op Afval, 2008 (Wet No 59 van 2008) (NEM:WA), wat by die NEMA EA-aansoek ingesluit word.

'n Aansoek sal ook binnekort by die Department van Water en Sanitasie ingedien word vir watergebruik-magtiging, ingevolge die Nasionale Waterwet, 1998 (Wet No 36 van 1998)

Die aansoek strek oor 1 549.61 ha van Gedeelte 2 (gedeelte van Gedeelte 1), Restant Gedeelte, Restant Gedeelte van Gedeelte 1 en Gedeelte 3 van die plaas Makganyene No 667 in die Tsantsabane Plaaslike Munisipaliteit van die Noord-Kaap.

Die voorgestelde mynboumetode sal verteenwoordigend van oopgroefmynbou wees. Die eerste fase sal daarop fokus om die bogrond af te haal. Daarna sal die boonste kliplaag gestroop word om toegang tot die erts te verkry, gevolg deur oopgroefmynbou. Die mynboutegnologie sal boorwerk en skietwerk met gepaardgaande vragmotor- en graafoperasies insluit. Erts uit die put/te sal na 'n klipbreekaanleg vervoer word, waarna die gebreekte erts op die perseel gestoor sal word vanwaar dit per pad na die Beeshoekmyn verwerkingsaanleg (buite-perseel) vervoer sal word. Geen verwerking van die materiaal sal by die Makganyane ysterertsmyn plaasvind nie.

Die voorgestelde projek lei tot die volgende gelyste aktiwiteite in terme van die NEMA en die OIS-regulasies 2014 (soos gewysig) sowel as die NEM:WA, 2008 en vereis dus 'n OIB-proses:

- **OIS-Regulations GNR 984 van 2014 (soos gewysig) Aktiwiteit 17:**

  Enige aktiwiteit insluitend die bedryf van daardie aktiwiteit wat 'n mynreg vereis ingevolge artikel 22 van die Wet op die Ontwikkeling van Minerale en Petroleumhulpbronne, sowel as enige ander toepaslike aktiwiteit soos vervat in hierdie Noteringskennisgewing, in Noteringskennisgewing 1 van 2014 of Notering Kennisgewing 3 van 2014, vereis om die mynreg uit te oefen.

- **NEM:WA Kategorie A Aktiwiteit 2:**

  Die sortering, versnippering, maal, vergruis, sifting of baling van algemene afval by 'n fasiliteit wat 'n operasionele area van meer as 1000 m² het.

- **NEM:WA Kategorie A Aktiwiteit 14:**

  Die ontmanteling van 'n fasiliteit vir 'n afvalbestuuraktiwiteit gelys in Kategorie A of B van hierdie Bylae.

- **NEM:WA Kategorie B Aktiwiteit 9:**

  Die wegdoening van inerte afval op grond van meer as 25 000 ton, uitgesluit die wegdoening van sodanige afval vir die doeleindes van gelykmaak en bou wat deur of kragtens ander wetgewing gemagtig is.

- **NEM:WA Kategorie B Aktiwiteit 10:**

  Die konstruksie van 'n fasiliteit vir 'n afvalbestuuraktiwiteit gelys in Kategorie B van hierdie Bylae (nie in isolasie tot gepaardgaande afvalbestuuraktiwiteit nie).

- **NEM:WA Kategorie B Aktiwiteit 11:**

  Die vestiging of herwinning van 'n residuvoorraad of residuafsetting wat voortspruit uit aktiwiteite wat 'n mynreg, eksplorasiereg of produksiereg vereis ingevolge die Minerale- en Petroleumhulpbronneontwikkelingswet, 2002 (Wet No. 28 van 2002).

Die konsep Omvangbepalingsverslag en konsep Maatskaplike- en Arbeidsplan is nou beskikbaar vir publieke kommentaar. Afskrifte daarvan kan op aanvraag by Greenmined verkry word of afgelaai word by https://www.greenmined.com/mining-rights/.

Belanghebbendes en geaffekteerde partye word uitgenooi om skriftelik kommentaar te lewer. Die sluitingsdatum vir kommentaar is **07 Januarie 2025**. Sou u addisionele inligting benodig kan dit vanaf Greenmined verkry word. Gebruik asb. **NC 30/5/1/2/2/10255 MR** as verwysingsnommer.

Indien ons geen kommentaar van u ontvang voor die einde van die kommentaarperiode nie, sal dit aanvaar word dat u geen bykomende besware/kommentaar rakende die projek het nie. Ons vertrou dat u dit in orde vind en wag op u kommentaar op hierdie verslag.

DMRE Verwysingsnommer: NC 30/5/1/2/2/10255 MR

Deur aan hierdie proses deel te neem, stem u in, in terme van die Wet op die Beskerming van Persoonlike Inligting 4 van 2013 ("POPIA"), tot die wettige verwerking van u persoonlike inligting deur Greenmined, welke persoonlike inligting as deel van dokumentasie gebruik kan word met betrekking tot die aansoekproses vir Omgewingsmagtiging. Deur u besonderhede te verskaf en deur aan hierdie proses deel te neem, magtig u dat sulke inligting gedeel mag word vir die doel van hierdie aansoek.

Kontak gerus vir Christine Fouché by 082 811 8514 (Cell), 021 851 2673 (Tel) of christine.f@greenmined.co.za indien u bykomende inligting verlang.

Is daar enige ander organisasies of individue wat u voel genooi moet word om kommentaar te lewer? Indien wel, verskaf asseblief hul kontakbesonderhede:

Subject:	DEIAR Notice NC 30/5/1/2/2/10255 MR Landowner, Surrounding Landowners
Attachments:	DEIAR Notice - Makganyane MR.pdf; DEIAR Notice - Makganyane MR - AFR.pdf

Dear Sir/Madam:

RE: NOTICE OF THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR AN APPLICATION IN TERMS OF SECTION 22 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA), THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED), AS WELL AS THE NATIONAL ENVIRONMENTAL MANAGEMENT: WASTE ACT, 2008 (ACT 59 OF 2008) SUBMITTED BY ASSMANG (PTY) LTD. REFERENCE NUMBER: NC 30/5/1/2/2/10255 MR

The draft Environmental Impact Assessment Report (DEIAR) and Environmental Management Programme (EMPR) for the mining right application submitted by Assmang (Pty) Ltd over Portion 2 (a portion of Portion 1), Remainder Portion, Remainder Portion of Portion 1 and Portion 3 of the farm Makganyene No 667 in the Tsantsabane Local Municipal area is now available for your perusal.

A copy of the documents can be obtained from Greenmined Environmental (Pty) Ltd upon request or retrieved from the company website at https://www.greenmined.com/mining-rights/.

Should you be interested your comments are kindly requested on the DEIAR & EMPR. A thirty-day commenting period, ending on **23 October 2025**, will be allowed for comments. Your comments must be in writing and can be submitted via e-mail and/or post. Please do not hesitate to contact us in the event of any uncertainties and please ensure that your contact details are included with your comments.

Beste Meneer/Mevrou:

IS: KENNIS VAN DIE KONSEP OMGEWINGSIMPAKBEOORDELINGSVERSLAG EN OMGEWINGSBESTUURSPLAN VIR 'N AANSOEK INGEVOLGE ARTIKEL 22 VAN DIE MINERALE- EN PETROLEUMHULPBRONNEONTWIKKELINGSWET, 2002 (WET 28 VAN 2002) (MPRDA), ARTIKEL 24 VAN DIE NATIONALE OMGEWINGSBESTUURWET, 1998 (WET 107 VAN 1998) (NEMA), DIE OMGEWINGSIMPAKSTUDIE REGULASIES, 2014 (SOOS GEWYSIG) (OIS-), ASOOK DIE NASIONALE OMGEWINGSBESTUUR: WET OP AFVAL, 2008 (WET 59 VAN 2008) INGEDIEN DEUR ASSMANG (EDMS) BPK. VERWYSINGSNOMMER: NC 30/5/1/2/2/10255 MR.

Die konsep Omgewingsimpakbeoordelingsverslag (DEIAR) en Omgewingsbestuursprogram (EMPR) vir die mynregaansoek wat deur Assmang (Edms) Bpk ingedien is oor Gedeelte 2 ('n gedeelte van Gedeelte 1), Restant Gedeelte, Restant Gedeelte van Gedeelte 1 en Gedeelte 3 van die plaas Makganyene No 667 in die Tsantsabane Munisipale area is nou beskikbaar vir publieke kommentaar.

'n Afskrif van die dokumente kan op versoek van Greenmined Environmental (Edms) Bpk verkry word of van die maatskappy se webwerf afgehaal word by https://www.greenmined.com/mining-rights/.

Belanghebbendes en geaffekteerde partye word uitgenooi om skriftelik kommentaar te lewer. Die sluitingsdatum vir kommentaar is **23 Oktober 2025**. Sou u addisionele inligting benodig kan dit vanaf Greenmined verkry word.
Gebruik asb. **NC 30/5/1/2/2/10255 MR** as verwysingsnommer.

Kind Regards/Vriendelike Groete

VERWYSINGSNOMMER: NC 30/5/1/2/2/10255 MR.

Die konsep Omgewingsimpakbeoordelingsverslag (DEIAR) en Omgewingsbestuursprogram (EMPR) vir die mynregaansoek wat deur Assmang (Edms) Bpk ingedien is oor Gedeelte 2 ('n gedeelte van Gedeelte 1), Restant Gedeelte, Restant Gedeelte van Gedeelte 1 en Gedeelte 3 van die plaas Makganyene No 667 in die Tsantsabane Munisipale area is nou beskikbaar vir publieke kommentaar. 'n Afskrif van die dokumente kan op versoek van Greenmined Environmental (Edms) Bpk verkry word of van die maatskappy se webwerf afgehaal word by https://www.greenmined.com/mining-rights/.

Belanghebbendes en geaffekteerde partye word uitgenooi om skriftelik kommentaar te lewer. Die sluitingsdatum vir kommentaar is **23 Oktober 2025**. Sou u addisionele inligting benodig kan dit vanaf Greenmined verkry word. Gebruik asb. **NC 30/5/1/2/2/10255 MR** as verwysingsnommer.

Deur aan hierdie proses deel te neem, stem u in, in terme van die Wet op die Beskerming van Persoonlike Inligting 4 van 2013 ("POPIA"), tot die wettige verwerking van u persoonlike inligting deur Greenmined, welke persoonlike inligting as deel van dokumentasie gebruik kan word met betrekking tot die aansoekproses vir Omgewingsmagtiging. Deur u besonderhede te verskaf en deur aan hierdie proses deel te neem, magtig u dat sulke inligting gedeel mag word vir die doel van hierdie aansoek.

Kontak gerus vir Christine Fouché by 082 811 8514 (Cell), 021 851 2673 (Tel) of christine.f@greenmined.co.za indien u bykomende inligting verlang.

Indien ons geen kommentaar van u ontvang voor die einde van die kommentaarperiode nie, sal dit aanvaar word dat u geen bykomende besware/kommentaar rakende die projek het nie. Ons vertrou dat u dit in orde vind en wag op u kommentaar op hierdie verslag.

U terugvoer word waardeer en sal toepaslik aangespreek word.

Die Uwe

Subject: FEIAR Notice Assmang (Pty) Ltd NC 30/5/1/2/2/10255 MR

Dear Sir/Madam:

RE: NOTICE OF THE FINAL ENVIRONMENTAL IMPACT ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR AN APPLICATION IN TERMS OF SECTION 22 OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002), SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA), THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED), AS WELL AS THE NATIONAL ENVIRONMENTAL MANAGEMENT: WASTE ACT, 2008 (ACT 59 OF 2008) SUBMITTED BY ASSMANG (PTY) LTD. REFERENCE NUMBER: NC 30/5/1/2/2/10255 MR

The Final Environmental Impact Assessment Report (DEIAR) and Environmental Management Programme (EMPR) for the mining right application submitted by Assmang (Pty) Ltd over Portion 2 (a portion of Portion 1), Remainder Portion, Remainder Portion of Portion 1 and Portion 3 of the farm Makganyene No 667 in the Tsantsabane Local Municipal area was submitted to the DMPR for decision making.

A copy of the FEIAR is available from the Greenmined Environmental website at https://www.greenmined.com/mining-rights/.

We trust you find this in order. Please do not hesitate to contact us in the event of any uncertainties.

Kind Regards/Vriendelike Groete

Subject: Mining Right Application - NC 30/5/1/2/2/10255 MR

Importance: High

Dear Sir,

Thank you for your email regarding the mining right application submitted by Assmang (Pty) Ltd ("Applicant") over the Remaining Extent, Portion 1 (Remaining Extent), Portion 2 (Portion of Portion 1) and Portion 3 of the farm Makganyene No 667 with reference number NC 30/5/1/2/2/10255 MR.

In support of our telephonic discussion of Friday (22 November 2024), kindly receive our response to your comments as follows:

1. Can you please share the correspondence with Mr Pumezo David with us?

2. I confirm receipt of the video clips (also sent to me) showing some of the contaminated boreholes on the farm. This matter will be added to the agenda of the meeting (refer to Point 4) to be held between yourself, the Applicant, and Greenmined;

3. The other grievances listed in your email (removal of the Witgat trees, damages to fences, service use agreement matters) will also be added to the proposed agenda (Point 4);

4. During the EIA (environmental impact assessment) process there are at least two opportunities for I&AP's (interested and affected parties including landowners) to comment on the project and EIA documents. This project is now in its first phase where all I&AP's (including landowners) have the opportunity to register on the project and if interested comment on the draft Scoping Report (DSR). For this project the first phase commenting period ends on the 7th of January 2025 as the final Scoping Report (including all the registrations and comments received on the DSR) must be submitted to the DMRE by latest 10 January 2025 (departmental requirement).

   Once the final Scoping Report was submitted to the DMRE, the authority will consider the report and whether the EIA may be allowed to continue. Should the final Scoping Report be approved, we (Greenmined) will commence with the proposed specialist studies (as listed in the DSR) and the compilation of the draft Environmental Impact Assessment (DEIAR) and Environmental Management Programme (EMPR) that will then also be published for public perusal and commenting. This will present the registered I&AP's with another (second) opportunity to comment on the project.

   Considering the above, we would like to propose that Greenmined arrange a virtual meeting between yourself and the Applicant before the 12th of December 2024 where the grievances listed in your email will be discussed. Following the meeting, a minutes of the meeting will be distributed to all the attendees for approval. The agenda, attendance register, and minutes of the meeting will then be incorporated into the final Scoping Report (to be submitted to the DMRE by 10 January 2025).

   Should the DMRE approve the final Scoping Report and allow the EIA to continue, Greenmined will then arrange an inspection (in the new year) with yourself and representative/s of the Applicant to visit the farm and gather the site specific information that will be shared with the specialists and assessed as part of the EIA documents. The discussions/findings of the inspection, as well as the specialist input and impact assessment will all form part of the DEIAR & EMPR that will be available for your perusal and commenting before the final report is submitted to the DMRE.

In summary, can you please indicate if you would be able to attend a virtual meeting with the Applicant, and if so can you please indicate which of the following dates will suite you best?

- 03 December
- 04 December
- 05 December
- 06 December
- 11 December

5. We thank you for highlighting the additional gravesites on the farm. The matter will be amended in the final Scoping Report and upon approval of the document by the DMRE, the information will also be shared with the archaeologist that will have to visit the application footprint prior to the compilation of the DEIAR & EMPR.

We appreciate your input and look forward to facilitating the discussions as part of this application.

Kind Regards / Vriendelike Groete

Subject: Good morning Christine,

I think you know who i am, but let me introduce myself.
The owner of the farm Makganyene 667 where Assmang just finished their prospecting exercise. Not including portion 3.
When i received the news from your company i send a notice to their attorney Mr Pumezo David that we need to talk about unfinished business that they just left behind.
I also send them video clips of oil contamination done mainly by the Diamond Drills and to my mind are very serious and a video showing the oil contamination of the water in a drillhole done by Makganyane Resources around 2020.
They also are responsible for the removal of many young Witgat trees (Boscia Albitrunca), which is one of the most difficult trees to re-establish. Also a neighbouring fence that are poorly repaired.
Also very important for me and Assmang certain clauses of the Service Use Agreement must be solved.
I want to request you and any other interested institution or person to extend the date of 7/1/2025 a date that give us enough time to solve and rectify the above evidence.
I will welcome if we can visit the farm with ASSMANG and Yourself before the 1/12/2024 if possible.
I also picked up from your environmental report that you mention just one cemetery/ graveyard but there are two the family and a graveyard were black people were buried plus a solitary grave.

I want Assmang to be granted with the Mining Right but sanctity of the contract must be upheld and adhered too.
Thank you in advance.

Subject: Good Morning Christine,

Categories: Makganyane

You must enjoy 2025 and i hope you everything of the best.
I already sent you my grievances regarding the expired prospecting right on my farm by Assmang.
I just want to add the following information regarding the Prospecting Right on Diamonds.
White paper 2008.
1.3.6 Goverment policy
1.3.6.1 Ownership of Mineral rights.
(iv) Government will promote minerals development by applying the USE IT/ LOSE IT: USE IT/ KEEP IT principle.
From my side in 13 year of prospecting only 2 months where spend mining the dumps and even Assmang since December 2021 has done no prospecting on Diamonds and they apply to mine diamonds which is absurd.
The mining right must be changed to only Iron ore and Manganese ore plus the other minerals included except Diamonds.
Applications from others were withdrawn even up to December2023 and the first come principle must apply.
The prospecting rights are available from DMR up to October 2018. They were withdrawn to make space for the application from Mr Chalton Rex.
Hope to meet you soon.

Dear Mr Wessels,

Thank you, and all the best for 2025 to you as well.

I hereby acknowledge receipt of this email as well as the one sent on 20 December 2024. I also confirm that the contents of both the said emails were incorporated into the final Scoping Report to be submitted to the DMRE for decision making.

As discussed earlier this morning, Assmang has to reply to the prospecting related matters and your correspondence was duly forwarded to Mr Christo Kuhl for their attention.
