Khahlamba Mothers’ Union marks 150 years

SPHOKUHLE NONGAUZA

The Anglican Mothers’ Union in the diocese of Khahlamba has joined the global celebrations marking 150 years of the organisation, with members gathering at the Cathedral of St Michael and All Angels in Komani for a weekend of worship, reflection and fellowship.

The celebrations, held on August 8 and 9, coincided with Mary Sumner Day, which honours the founder of the Mothers’ Union.

Sumner established the movement in 1876 in Old Alresford, Hampshire, in England, with the objective of supporting both mothers and strengthening family life through Christian faith and fellowship.

The organisation has since grown into a global movement, with millions of members across more than 80 countries.

The Khahlamba celebrations were held under the leadership of diocesan president Mampho Jayiya, with members travelling from different parts of the diocese to mark the historic 150-year milestone.

Bishop of the diocese of Khahlamba, Lionel Sibeko, officially opened the celebrations and gave his blessing to the event.

Reflecting on the significance of the occasion, the diocesan Mothers’ Union leadership said the anniversary was an opportunity to honour the organisation’s long history, while looking towards its continued role in serving families and communities.

“This is a significant milestone for us as the Mothers’ Union.

“We are celebrating 150 years of faith, service and commitment, while also recognising the

generations of women who have carried this work forward.”

The celebrations were attended by four former presidents of the diocese, alongside members of the current diocesan executive, Mother’s Union members, and other diocesan guilds.

Members travelled from various parts of the diocese, including Tele, Sterkspruit and Aliwal North, as well as archdeaconries from the southern parts of the diocese.

The gathering provided an opportunity for members to reflect on Sumner’s legacy and the continued relevance of the Mothers’ Union.

The organisation describes its mission as putting faith into action by strengthening families and communities, while responding to issues such as poverty, violence and injustice.

For the Khahlamba diocese, the anniversary was also a celebration of fellowship among generations of members.

“We are grateful to everyone who travelled from different parts of the diocese to celebrate this important occasion with us.

“Your presence made the celebration meaningful and reminded us that we are one family,” the diocesan leadership said in a statement.

The diocesan president and executive extended their appreciation to clergy, members, guilds, organisers and everyone who contributed towards making the celebration a joy-filled success.

For the Anglican Mothers’ Union in Khahlamba, the celebrations marked not an end, but another chapter in a long-standing commitment to faith, family, service and community.

Finding balance in a busy life

ABONGILE SOLUNDWANA

As we celebrate Women’s Month, Zodwa Gqwaka opens up about the fullness of balancing life as a wife, mother of three, and a businesswoman — a role she says requires constant juggling.

“There isn’t a perfect formula. A lot of it is simply learning to be present where I am.”

After work, it’s back to being mom, picking up the kids, getting home, and figuring out dinner.

“If I haven’t finished everything I needed to do for work, I’ll carry on later.

“Otherwise, my husband and I share the household responsibilities, and sometimes he takes over supper.”

She believes there is often a misconception that today’s women “have it all”.

“Having it all suggests we’re somehow doing everything perfectly and effortlessly,” she said.

“The truth is, it’s a constant juggle, and sometimes we’re bound to drop a ball or two.”

She said finances were one of the biggest challenges modern women faced, yet it’s a topic that did not get enough open conversation, especially for those balancing career, family, and personal identity.

“The reality is many women are financially stretched and simply trying to keep their heads above water,” Gqwaka said.

With the economy placing enormous pressure on households, she believes women need to take the conversation around additional income streams much more seriously.

Local businesswoman, wife and mother Zodwa Gqwaka on redefining ‘Having it all’ this Women’s Month. **Picture: SUPPLIED**

Amid the hustle and bustle, she said every woman needed to establish a schedule to recharge her batteries in order to show up as her best self for others.

For her, sleep has become a sacred space of renewal. And to reset for the week, she needs her Sunday service at church, and to focus on becoming the best version of herself spiritually, mentally, emotionally, and professionally, and trust that everything else will flow from there.

NOTICE OF SECTION 102 AMENDMENT APPLICATION

Notice is given in terms the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA), and the Environmental Impact Assessment Regulations 2014 (as amended) that Queenstown Quarry (Pty) Ltd applied for environmental authorization and consent of the minister to expand the mining footprint of Queenstown Quarry in terms of Section 102 of the MPRDA.

LEGAL REQUIREMENTS

The proposed project triggers the following listed activity in terms of NEMA and the EIA Regulations (as amended), and therefore requires a basic assessment process to obtain environmental authorization:

EIA Regulations GNR 983 of 2014 (as amended) Activity 21D:

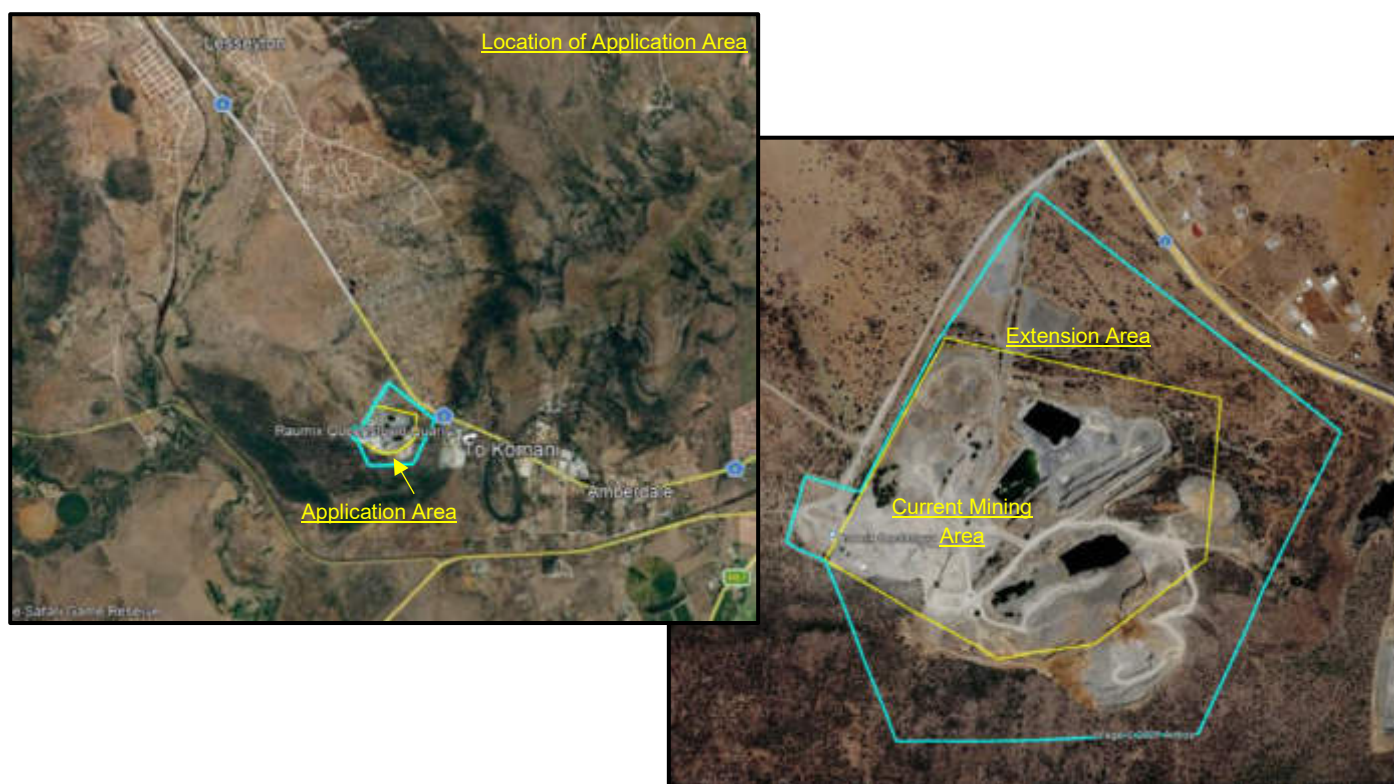

- Any activity including the operation of that activity which requires an amendment or variation to a right or permit in terms of section 102 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity contained in this Listing Notice or in Listing Notice 3 of 2014, required for such amendment.

PROJECT PROPOSAL

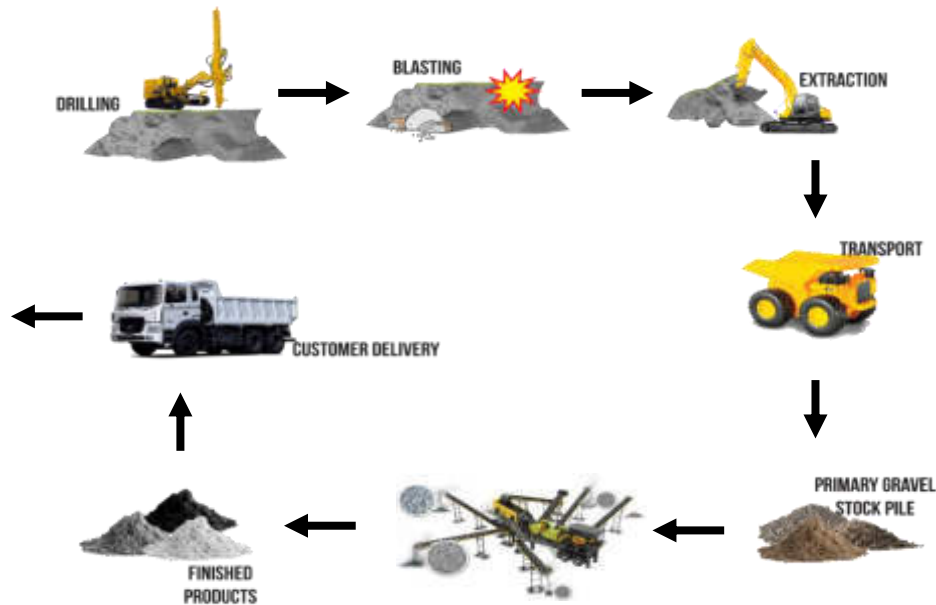

Queenstown Quarry is an existing hard-rock quarry situated on a portion of the Farm Lesseyton No. 81, ± 6 km west of Komani. Queenstown Quarry (Pty) Ltd has applied for the Minister's consent, in terms of section 102 of the MPRDA, 2002, to expand the approved mining area by 30.4914 ha.

If the application is approved, the mining footprint will be extended to the north, east and south to allow for the expansion of the Quarry's existing excavations. The current mining method will remain unchanged. No additional offices, workshops, processing facilities or other infrastructure will be established within the proposed expansion areas, as the Quarry's existing infrastructure will continue to be used.

Access to the mining area will continue to be obtained from the N6, and no new external access roads are proposed. The proposed expansion is not expected to result in an increase in the current workforce. However, by extending the operational life of Queenstown Quarry, the proposed expansion will support the continued employment of the existing workforce and reduce the risk of premature mine closure and associated retrenchments.

Summary

Case ID: 29787**Case Status:** SUBMITTED**Heritage Authority(s):** ECPHRA**Proposal Description**

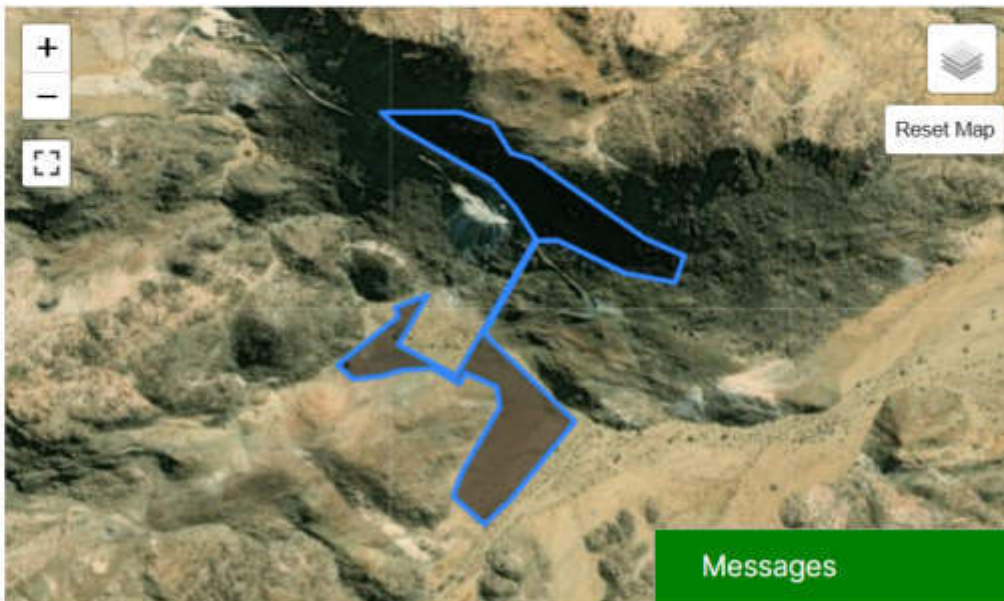

Queenstown Quarry was established in the 1970's over a portion of the farm Lesseyton No 81, within the Enoch Mgjima Municipal Area of the Eastern Cape. The old order mining licence (ML 15 / 96) was converted, and a mining right was granted to Queenstown Quarry (Pty) Ltd (the "Right Holder") in 2015. The protocol number of the mining right is 179/2015 and the file reference number is EC 30/5/1/2/2/009 MR. The right is valid until 24 March 2045 and currently extends over 36.2505 ha. The Right Holder applied for consent of the Minister to: update the 2011 EMPR; and expand the mining footprint to 66.7419 ha; in terms of Section 102 of the MPRDA, 2002.

The proposed expansion of the mine's footprint necessitates an application for a Part 2 amendment of the mine's EMPR in terms of GNR 326 Section 31 (NEMA). The application further constitutes listed/specified activities in terms of the NEMA: EIA Regulations, 2014 (as amended) and therefore requires an environmental impact assessment (basic assessment process).

Hi I'm well thank you. My name is Anel, calling from Greenmined Environmental, on behalf of Queenstown Quarry. They're extending their mining area and as such, for legal requirements by the department of minerals, need to notify any surrounding landowners, or interested and affected parties during the public participation process. As AH Community Shop is based in Lesseyton it would be greatly appreciated if you can either provide us with an email address or alternatively confirm if we can send you information pertaining to this project via whatsapp correspondence on 18 August 2026 when the public participation periods kicks off? Look forward to hearing from you. Sincerely, Anel Olivier

Dear Councilor and [Queenstown Quarry (Pty) Ltd]

RE:ASSISTANCE IN REPAIRING THE ACCESS ROAD

Greetings.

We urgently request your assistance in repairing the access road to Shalom Temple International in Lessyton 1- Hillside View.

The current condition of the road makes safe access difficult and poses a serious concern. As we are preparing for our upcoming 10th Year Celebration Conference in October 1st – 4th 2026 , we are expecting a significant number of attendees. Without immediate intervention, accessibility and safety will be severely compromised, affecting not only our gathering but the broader community that relies on this road.

We humbly appeal for your support through gravel/sabunge supply. Your timely assistance will make a direct and meaningful impact, ensuring safe access for all and contributing to the success of this important community event. We are available to engage further at your convenience and would greatly appreciate your urgent consideration.

Yours faithfully

Interim Comment

In terms of Section 38 of the National Heritage Resources Act (Act 25 of 1999)

Christine Fouche Greenmined Environmental (Pty) Ltd MO1, 106 Baker Square De Beers Avenue, Paardevlei Somerset West 7130

Queenstown Quarry was established in the 1970's over a portion of the farm Lesseyton No 81, within the Enoch Mjima Municipal Area of the Eastern Cape. The old order mining licence (ML 15 / 96) was converted, and a mining right was granted to Queenstown Quarry (Pty) Ltd (the "Right Holder") in 2015. The protocol number of the mining right is 179/2015 and the file reference number is EC 30/5/1/2/2/009 MR. The right is valid until 24 March 2045 and currently extends over 36.2505 ha. The Right Holder applied for consent of the Minister to: update the 2011 EMPR; and expand the mining footprint to 66.7419 ha; in terms of Section 102 of the MPRDA, 2002.

The proposed expansion of the mine's footprint necessitates an application for a Part 2 amendment of the mine's EMPR in terms of GNR 326 Section 31 (NEMA). The application further constitutes listed/specified activities in terms of the NEMA: EIA Regulations, 2014 (as amended) and therefore requires an environmental impact assessment (basic assessment process).

The Eastern Cape Provincial Heritage Resources Authority (ECPHRA) acknowledges receipt of the Draft Basic Assessment Report (BAR), Heritage Impact Assessment (Coetzee, F.P., February 2026) and Desktop Paleontological Impact Assessment (Bamford, M., November 2025).

Having reviewed the submitted heritage specialist reports, ECPHRA provides the following comments:

1. The Desktop Paleontological Impact Assessment is generally acceptable. However, the submitted KML file is incorrect and must be replaced with the correct spatial dataset.
2. The Heritage Impact Assessment requires revision and further information on the following matters:
 - The southern portion of the study area contains rock shelters associated with mixed rock art. The report does not indicate whether these sites were surveyed during the field assessment. Clarification is required regarding the location of these sites and the potential impacts of proposed blasting activities on associated heritage resources protected under **Section 35 of the National Heritage Resources Act, 1999 (Act No. 25 of 1999) (NHRA)**.
 - The statement that *there is no rock art in Tsolo/Mthatha area* is incorrect and must be amended accordingly.
 - The report must be updated to reflect the current official place names and ensure that all geographic names are correctly spelt.

- The field survey was undertaken on 14 December 2021. The specialist must provide reasons for the significant delay between the survey date and the submission of the report to ECPHRA.
- References on pages 30 and 43 identifying SAHRA as the competent authority must be corrected. In terms of **Sections 8 and 35 of the NHRA**, ECPHRA is the responsible heritage resources authority for provincial and local heritage resources within the Eastern Cape. SAHRA's authority is generally limited to **Grade I heritage resources** and matters specifically assigned to it under the NHRA.

In terms of **Section 38(3) of the NHRA**, sufficient information must be provided to enable the heritage resources authority to assess the impact of the proposed development on heritage resources.

ECPHRA reserves further comment pending submission of revised heritage specialist reports addressing the above matters.

Attention: Ms Ayanda Mncwaba-Mama

Dear Ms Mncwaba-Mama

RE: QUEENSTOWN QUARRY (PTY) LTD – SECTION 102 APPLICATION: SUBMISSION OF REVISED HERITAGE IMPACT ASSESSMENT IN RESPONSE TO ECPHRA INTERIM COMMENTS

Greenmined Environmental (Pty) Ltd, acting as the Environmental Assessment Practitioner on behalf of Queenstown Quarry (Pty) Ltd, hereby submits the revised Cultural Heritage Impact Assessment (HIA) for the proposed expansion of the Queenstown Quarry mining footprint on a portion of the Farm Lesseyton No. 81, Komani.

The revised HIA is submitted in response to ECPHRA's Interim Comment dated 4 September 2026, issued under Case ID 29787. In its comments, ECPHRA requested that the HIA be revised to provide further clarification regarding, amongst others, rock shelters and rock art within the broader area, the field survey undertaken, the potential implications of blasting, the use of current place names, and the identification of ECPHRA as the relevant heritage resources authority.

The heritage specialist has considered ECPHRA's comments and revised the HIA accordingly. The revised report, dated September 2026, includes the additional information and corrections requested by ECPHRA. In particular, the report now provides additional contextual information regarding known rock art within the greater Komani and surrounding region and clarifies the circumstances surrounding the field survey and subsequent submission of the report.

the goal isn't to live forever, it is to protect a planet that will

Unit M01, Office No 107, AECl Site, Baker Square, Paardevlei, De Beers Avenue, Somerset West, 7130

Directors: S Smit; C Weideman | Reg No: 2012/055565/07 | VAT No. 4040263032

Importantly, the amendments made in response to ECPHRA's comments do not alter the findings of the field assessment. The specialist again confirms that no isolated archaeological finds were recorded within the surveyed project footprint and that no heritage sites, structures, features or archaeological artefacts, including Stone Age or Iron Age material, were identified during the survey. Accordingly, notwithstanding the presence of known heritage resources and rock art within the broader Komani region, no such resources were identified within the proposed mining expansion footprint.

The conclusions and recommendations of the HIA therefore remain unchanged. From a cultural heritage perspective, the specialist recommends that the proposed mining activities may proceed and concludes that no further heritage mitigation measures are required, subject to the prescribed chance-find procedures should previously unidentified archaeological material or human remains be encountered during mining activities.

We trust that the revised HIA adequately addresses the matters raised in ECPHRA's Interim Comment. We further confirm that the correct KML file reflecting the proposed project footprint has been uploaded to the SAHRIS case. We respectfully request ECPHRA to review the amended report and supporting spatial information and provide its further/final comment that will be submitted to the Department of Mineral and Petroleum Resources upon receipt.

Please do not hesitate to contact the undersigned should any further information or clarification be required.

Kind Regards
